TOWN CLERK

RECORD OF SPECIAL TOWN ELECTION, SATURDAY, SEPTEMBER 10, 2005

Pursuant to the Warrant, promptly at 8:00 am, on Saturday, September 10, 2005, the polling place for all three precincts, the Henry E. Goldman Gymnasium, of the Norwell Middle School, was opened for eligible voters to cast their ballots.

Those election workers in Precinct One, the Cole School District, were as follows:
Ann Valair, Warden, Amy Locke, Clerk, Eleanor Larson, Eleanor Bailey, Ellen Torrey and Frank Nagle.

In Precinct Two, the Middle School District, Lynne Rose, Warden, Jean Valicenti, Clerk, Elvoid Mayers, Mary Ellen Wetzel, Patricia Leary, and Anne Bussiere were the election workers.

Precinct Three, Vinal School District, Jeanne Scully acted as Warden, B. Jean Snow as Clerk, and Tilda Baldwin, Gertrude Daneau, Beatrice Griffiths and Joan Shea were election workers.

Theodore A. Baldwin acted as Constable for all three precincts.

Janice M. Lawson, Town Clerk, and Elections Administrator, presided over all.

Total votes cast in Precinct One were: 607, including 51 Absentee Ballots. In Precinct Two, 851 voters were cast, including 79 Absentee Ballots. In Precinct Three, 785 votes were cast, including 71 Absentee Ballots.

Tallying the results in an open meeting at Town Clerk's office resulted in the following count of votes cast:

	Donald A. Mauch	Brian S. Noble	Christopher M. Pellegrino	Write-Ins	Blanks
PRECINCT ONE:	314	264	28	1	0
PRECINCT TWO:	448	362	40	1	0
PRECINCT THREE:	331	414	38	2	0
TOTAL.....	1093	1040	106	4	0

Out of 6,973 registered voters eligible, 2,243 cast their votes at this election, or 32%.

A true record, ATTEST:
Janice M. Lawson, CMMC
Town Clerk, Elections Administrator

REPORT OF THE BOARD OF REGISTRARS

On November 1, 2005 the population of Norwell was 10,348. The number of residents and voters fluctuates from month to month. As of October 28, 2005, the breakdown of voters is as follows:

*Democrats	1742
Green Rainbow	7
Inter 3rd Party	2
Libertarian	32
*Republican	1573
*Unenrolled	3801
TOTAL.....	7157

* = Political Party or Unenrolled

Green-Rainbow, Inter. 3rd Party, and Libertarian are political designations.
Those voters registered in political designations *cannot* vote in a State or Presidential primary, but they are all set for all other elections.

Those voters who are Unenrolled may choose the party for which they would like to vote.

The Libertarian and Green-Rainbow parties lost their party status in 2005 since their presidential candidates did not receive at least 3% of the votes cast at the November 2, 2004 State Election. They have reverted back to a political designation.

Special Voter Registration hours were held twenty (20) days before the Annual Town Election and the two (2) Special Town Elections. At those times, the Town Clerk's office was open from 8 am until 8 pm.

Special Voter Registration hours were also held for the Special Town Meeting ten (10) days before, and the Annual Town Meeting, twenty (20) days before the meeting. Again, the Town Clerk's office was open on those days from 8 am until 8 pm.

Many petitions were received and certified for the State as well as nomination papers for the Town Elections.

219 new voters registered in 2005.
For the last few years many more young people have registered and have voted. The Board would like to thank Steve Mahoney, Principal, the Guidance Department, and teachers for keeping the students informed of voting requirements and having all those interested in voting fill out a voter registration affidavit.

The requirements for registering to vote in Massachusetts are: one must be a citizen of the United States of America, a resident of the Town, and at least eighteen (18) years of age on or before the next election.

One may register to vote or change one's party affiliation at the Registry of Motor Vehicles or any other State agency. Mail-In registration forms can also be obtained at the Norwell Post Office, the Norwell Public Library, and of course, the Town Clerk's office.

The Board of Registrars and the Town Clerk are always looking for people to work at the polls, especially those residents registered in one of the parties. If you are interested, kindly call the Town Clerk's Office at 781-659-8072/8073. Not only will you be paid an hourly wage of $10.25/hour for Wardens and Clerks and $9.46/hour for Checkers/Tellers. You will receive hot and cold beverages and a snack in the morning; lunch is provided by the School lunch program,

and if it is a State Election, supper is provided as well. In the afternoon cold drinks and ice cream are available. Election days are long but the workers enjoy meeting their friends and neighbors.

Respectfully submitted,
BOARD OF REGISTRARS
Regina T. Giordani, Chair
George P. Kelley
Janice M. Lawson, Clerk
David A. Mayers, Jr.

REPORT OF THE BURIAL AGENT

The issuing of Burial Permits is one of the responsibilities of the Town Clerk, who is appointed annually as Burial Agent, by the Board of Selectmen.

A Funeral Director may not bury or make any other disposition of a decedent with a Burial Permit. Therefore, it is a necessity for the Burial Agent to be accessible. The Town Clerk's office is open Monday and Tuesday from 8 am until 4:15 pm; Wednesday, 8 am until 7:30 pm; Thursday, 8 am until 4 pm; and Friday, 8 am until NOON.

The cost of a Burial Permit is $10.00 and a certified copy of a Death Certificate is $6.00.

Arrangements have been made with the Communications Center at the Norwell Police Station, 40 River Street, for a Funeral Director or his agent to obtain a Burial Permit on a holiday or weekend, or after Town Offices close on weekdays, if a satisfactory Death Certificate is received and retained, and a check payable to the TOWN OF NORWELL for $6.00 is received for the Burial Permit.

Respectfully submitted,
Janice M. Lawson
BURIAL AGENT

JURY LIST INFORMATION

Since 1986, Plymouth County towns have been included in the "ONE DAY/ONE TRIAL" jury system.

Selectmen no longer draw the names of prospective jurors. The names and addresses of ALL residents (not just voters) seventeen years of age and older are provided to the Jury Commissioner through the office of the Secretary of State, with the prior permission of the Town Clerk, before June 1 of each year (Chapter 234A, MGL.)

From this list, which includes dates of births and occupations of all the names included, the Jury Commissioner prepares a randomly selected list of jurors.

A copy of this list is mailed to the Town Clerk's office, where it is posted for inspection during the latter part of the year. Names on this list are subject to be called for jury duty after January 1st of the next year.

Respectfully submitted,
Janice M. Lawson
TOWN CLERK

REPORT OF THE SUPERINTENDENT

Extremes have characterized 2005. On one hand, in 2005 Norwell students and schools attained unprecedented levels of achievement due, in large measure, to our talented staff and strong community support from prior years. On the other hand, that community support, in terms of financial resources, sank to its lowest point in recent memory in 2005. In many respects, 2005 was both the best of times and the worst of times for Norwell Public Schools.

By every objective measure, Norwell Public Schools has emerged as one of the premier school districts in the region and in the state, while spending less, on a per pupil basis, than the state average. Here are a few examples of Norwell Public Schools' remarkable accomplishments from 2005:

- **All-Time High SAT Scores:** The Class of 2005 averaged a combined mathematics and verbal SAT score of 1142; this is 95 points higher than the state average, 31 points higher than Norwell's 2004 combined score, and 13 points higher than the previous record set by the Class of 2002.

- **College Acceptances:** Two-thirds (66%) of college acceptances for Class of 2005 were to colleges and universities ranked as *Very Competitive*, *Highly Competitive*, and *Most Competitive* by *Barron's Profile of American Colleges*, the top three of their seven categories.

- **Grade 10 MCAS:** 93% of our grade 10 students scored *Advanced* or *Proficient* on last spring's grade 10 English MCAS test and 96% did so in mathematics (the latter being the second best performance in the entire Commonwealth); these results on both tests were the highest in the region and outpaced our benchmark communities of Cohasset, Duxbury, Hingham, Sharon, and Westwood.

- **Newsweek's Top 1,000 High Schools:** Norwell High School was ranked 322 out of 27,468 public high schools in the United States in *Newsweek* magazine's annual ranking.

- **Standard and Poor's:** Norwell Public Schools was one of only 29 school districts in Massachusetts to be recognized as an *Outperformer* by Standard and Poor's School Evaluation Services.

Unfortunately, despite growing enrollments and escalating energy and special education costs, 2005 also witnessed Norwell Public Schools' smallest budget increase in years: 0.25% or

only $39,422.- Coupled with insufficient increases in the previous three years, this has resulted in some very negative consequences for our schools:

- **Increasing Class Sizes:** 27% of core subject classes (English, mathematics, science and social studies) in grades 1-12 are above class size guidelines of 22 in K-grade 2 and 25 in grade 3 and above; nearly a third (32%) of classes in grades 1-5 are above those guidelines.

- **Textbook Adoption Cycle:** Cycle II of our Curriculum Review and Textbook Adoption Program has been suspended, and the K-12 science and technology, visual and performing arts, English language arts/reading, and K-7 social studies adoptions have been completely postponed.

- **Instructional Leadership**: Despite increased demands of the federal *No Child Left Behind Act* and the *Individuals with Disabilities Education Act*, there has been a 20% reduction in administration: from 14 full-time equivalents (FTEs) to 11 FTEs.

- **Libraries and Media:** In an age where information and research skills are indispensable, Norwell no longer has a full-time certified librarian in any of its schools.

- **Per Pupil Expenditures:** In 2005, Norwell spent $673 less per pupil than the state average, that is 92.6% of the state average, compared to 97.2% of the state average in FY'04.

During 2005, Norwell Public Schools also experienced some leadership changes. Veteran School Committee member Jacky McClean left office after six years of faithful service to Norwell and our students. Principal Steve Mahoney also left after seven years of successfully leading Norwell High School, and Coordinator of Media and Technology Lou Tardie retired after 34 years of dedicated service.

All and all 2005 was a highly successful year for Norwell Public Schools. Despite very real and difficult financial strains, our dedicated and hard-working teachers, specialists, support staff, administrators and School Committee have done their very best to keep our focus on the classroom and our students. You can be assured that we will continue to keep student achievement at the forefront and, with your renewed support, I am confident we will be able to keep faith with Norwell Public Schools' commitment to provide *Pathways to Success* for each and every one of our students.

Respectfully submitted,
Donald J. Beaudette, Ed.D.
Superintendent of Schools

SOUTH SHORE REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

Continuing Improvement, Progress and Growth – Substantial Facility Need

Once again, the South Shore Regional School District is pleased and thankful for the opportunity to report on the "State of Vo-Tech" and how it relates to the eight district member communities. Now nearly recovered from the extensive budget cuts of two and three years past, South Shore has embarked on an aggressive long-term plan aimed at providing still better and more comprehensive career and technical educational pathways for the students of the region. More than at any other time, the value of multiple educational and future workplace options cannot be emphasized enough. Whether it be further academic improvements, equipment upgrading, programmatic examination and pursuit of new technical fields or the ongoing attempts to address the needs of a close to forty-five year old facility, Vo-Tech stands prepared to continue and enhance a partnership which targets positive results for all concerned.

The 2005-2006 school year has opened with South Shore's highest enrollment in the school's history, following a trend of several years, and we are now "maxed out." The school is at capacity with an extensive waiting list. As reported last year, the Class of 2009, like its immediate predecessor, did not have admissions room for students from outside the eight-town district. While this is obviously a very positive sign from the point of view of student and parent interest, it does have a financial consequence. The reduced tuition-based enrollments from other non-member towns, continues to drain a revenue stream that has always gone to help reduce district town assessments. We will certainly keep finance and advisory committees informed as we progress through the FY '07 budgetary planning process.

It is important to touch upon several noteworthy highlights that have attributed to an extremely successful past year, and which serve as indicators of continued improvement, progress and growth at your Hanover based regional resource. Among them:

- MCAS results that continue to improve, with the best passing rates yet on the first testing try for the Class of 2007. It is anticipated that the Class of 2006 will mirror its 2005 predecessor from which (100%) one hundred percent of South Shore's class reached the mandated competency determination criteria. The number of students achieving at the proficient and advanced levels is also on the rise.
- Equipment upgrades or new installations have been made recently in the Welding, Automotive, Culinary Arts, Graphic Arts and HVAC programs. In addition, a complete overhaul and reconfiguration of the Drafting department was accomplished, with every workstation now able to utilize CAD, Computer Aided Drafting and Design.
- The heating and ventilation systems building-wide have been audited, and many repairs and upgrades already completed should greatly enhance energy efficiency as well as a more uniform control of climate-related equipment and delivery.
- All academic and vocational curricula are or are in progress of becoming completely aligned with State DOE Frameworks. This includes several technical area third party credentialing articulations with state and national affiliations.
- The school's automotive program continues to excel not only locally but also at the State and National levels. For the first time, South Shore students represented Massachusetts in both the Ford/AAA and Skills USA competitions, a rare feat for any such dual success by one school in the same year.

•Two new wireless computer labs have been made available for student use, primarily by the English and Health Career departments, but indicative of the growing trend toward technological portability and flexibility.

•In inter-scholastic sports post-season tournament play was realized to an unprecedented degree, as Viking teams qualified in Football, Boys and Girls Basketball, Hockey, Baseball and Lacrosse. The football and baseball team victories in the State Vocational tournaments resulted in State Championships.

Growing involvement through the school's Parents' Association and Continuing Education program has provided further evidence of community involvement and extended regional participation. As always, South Shore seeks ways to extend both learning and service beyond the school campus.

Currently, 19 of the total enrollment of 592 are from Norwell. June 2005 celebrated the graduation of the following students from the town: Benjamin Feely, Kayla McBrine, Briana Rossi, and Gordon Sibbald.

The upcoming year promises to be another busy one at South Shore. The District will have submitted its two-year follow-up report to the New England Association of Schools and Colleges. This compliments the recommendations made after the Fall 2003 decennial accreditation visiting team evaluation process which was very encouraging overall, but as always, includes many suggestions for continued improvement. That together with annual recommendations made by our Advisory Committees helps to set a course of planning for Vo-Tech. One area that will definitely realize change is in the schedule of academic classes, as the addition of Science and Social Studies to the MCAS menu necessitates additional instructional time similar to what is currently the case with English and Mathematics.

Once again, South Shore Vocational Technical High School wants to thank its member communities for their continued support. Successes benefit all concerned, from student to hometown citizenry. As a strong educational and community partner, we welcome the challenge to assist whenever possible in making our entire region more dynamic and filled with opportunity.

Respectfully submitted,
Robert L. Molla, Jr.
Norwell Representative
South Shore Regional School District Committee

NORWELL PUBLIC LIBRARY

The Norwell library completed another successful year of providing quality customer service and satisfaction to the residents of Norwell and surrounding towns. Due to cutbacks in personnel the library provided the same service in fewer hours. One hundred twenty-three thousand and seventy-five books, CDs, DVDs, books on audio and CD, puppets, and museum passes were checked out to residents during this past year. This means that on an hourly average the staff checked out 49 items, answered phones; handled patrons' questions, and checked in returned items, while maintaining a smile and pleasant attitude. The Norwell Library staff is one of the hardest working departments in town. Personal service is the hallmark of the Norwell Public Library.

The library applied to the Massachusetts Board of Library Commissioners for a Building and Construction Grant in February, 2005. We were pleased to hear in July, 2005 that we are 11th on a wait list for funding. In approximately two years the library will be eligible for $2,694,676 towards a building renovation and expansion. The Town will need to provide a significant portion of the remaining cost. The Library was awarded a $10,000 grant from the Massachusetts Board of Library Commissioners under the Federal Library Services and Technology Act (LSTA) for a Customer Service Grant. Hannaford Foods awarded the library $1,000 for Library Chats; a series of programs that were designed to encourage lifelong learning and enrichment. One of the teen chats featured Japanese Manga and Anime which led to a monthly program where teens will gather to share artwork and discuss this wildly popular trend.

Surveys were distributed to users to determine a cost benefit for library service. The results showed that if residents paid out of their pockets for books, movies, audios, and museum passes in subjects such as business, job searching, education, personal use, investing and the internet the total would total $510,000. This does not include what they would have paid to see library performers, speakers or activities.

Children's attendance for summer reading activities was 401 compared to two years ago when 177 registered for the programs. Each child wrote the titles of books they read which were then displayed in the children's room, visible proof that children love reading. More than 200 people attended "Norwell Reads 2005" events last March. During this collaborative effort, many organizations including the Council on Aging, the Historical Society, Norwell Schools, and the James Library worked to build community spirit.. One highlight included a reading of Our Town by Thornton Wilder by members in the community. Bob Detwiler, Steve Ivas, Tristan Elliot, Bill Early, Martha Twigg, Rosemary O'Connor, Stu Steele, Elizabeth Cloutier Elliot, Samantha Noble, Dr. Beaudette, Larry Collins, Bruce Graham, Terri Stanley, Matthew Gill, Jim Diggins and Michael Devine provided a dramatic reading, which was held in the Little Theater at the High School. An amazing fun night was enjoyed by all as we were reminded that it is the little everyday things that make life so special.

In an effort to squeeze more into the library building's 8,500 square feet more shelving was purchased. As the collection grows, space for furniture has been reallocated. Furniture is now stored at the Sparrell School. Where the library once boasted 15,000 items it now houses over 62,000.

People of all ages use the library. This was apparent as many people attend our regular programs such as: Books for Babies, PreK story times, Family Book Discussions for children 9-13, Book Buzz for grades 1-3 and 4-6 during which children's librarians from Norwell and the Inly school discuss great reads for kids.

With generous assistance of The Friends of the Norwell Public Library, entertaining and enriching events occurred on a regular basis. A visit by Curious George for Library Card Sign-Up Day, the ever popular Owl program, author visits, Scrabble night, book discussions, puppet shows, magicians and storytellers entertained young and old alike.

Popular Norwell history teacher Tim Kenslea discussed his new book Sedgwicks in Love to a standing room only crowd.

Thirty five volunteers worked 689 hours this year. Bruce Burgess taught computer literacy. He taught patrons computer basics; how to search the internet; how to create an e-mail account, and

other applications. Kathy Narkiewicz and Dale Fenno worked with the elderly community bringing books to the homebound and reading to residents at Norwell Knolls. Gertrude Daneau processed books every Thursday. Our teen volunteers were invaluable in creating a special day where children celebrated the newest Harry Potter books with a Harry Potter party. Teens assisted numerous times throughout the year assisting at children's programs where they painted faces, created and ran games for young children, prepared crafts, shelf read, and hosted the Curious George Library Card Sign-Up Day.

With thanks to the Town, volunteers, Friends, patrons and staff, our Public Library will continue its mission to provide service and materials for all residents. We will need our Town's support.

Respectfully submitted,
Rebecca Consolo Freer
Library Director

NORWELL POLICE DEPARTMENT

I herby submit my sixth annual report as Chief of Police. The year 2005 brought many challenges to the department.

Patrol Officer Sean Sutton graduated from the Massachusetts Police Training Committee Academy and " hit the street" in June. Sean has proven to be a fine addition to our department and we look forward to a successful career.

The Norwell Police Department participated in a federal grant program targeting domestic violence. Monies from the grant enabled each member of the department to attend a comprehensive training program presented by the office of District Attorney Timothy Cruz. The training will ensure the proper response to domestic violence situations. Additionally, the police department can refer victims of domestic violence to one or more agencies that will provide essential support and access to services. We hope the grant will be funded for an additional year in order to continue providing this essential service.

The department participated with the Permanent Building Maintenance Committee in the Needs Study for the police facility. The PBMC will make a recommendation to the Board of Selectmen in early 2006.

I wish to thank the members of the Police Department, the Dispatchers in Emergency Communications, and the members of the Norwell Fire Department for their dedication to the residents and the town of Norwell.

Respectfully submitted,
Robert M. Galvin
Chief of Police

FIRE & AMBULANCE REPORT

I would like to start my annual report by thanking all of the residents and businesses in town for their continued support of the Norwell Fire Department during the year 2005.

Once again we saw an increased demand for emergency medical services. Our ambulance responded to 1130 emergency medical calls with 837 patients transported to local area hospitals. 7 patients required Med Flight and were flown to a Boston Hospital Trauma Center due to the severity of their injuries.

Norwell's Paramedic program, which came on line in December of 2003, has now completed its second full year of service. This is the highest level of Advanced Life Support available. Presently we have nine paramedics on staff and one of our firefighters is in training to become a paramedic. This will allow for two paramedics to be assigned to the ambulance at all times. We are a community based service of cross- trained Firefighters / EMS personnel who are providing the best service possible in the most safe, effective, and efficient manner. This service has proven to directly affect the quality of life to several patients over the past year.

Once again we applied for, and received, our eleventh S.A.F.E. grant from the Commonwealth. These funds allow our personnel to spend time in the schools instructing our youth about fire safety and with our elderly on fire prevention and safety in the home. In October we hosted our tenth annual open house, which brought over three hundred and fifty residents to the station to view our apparatus and receive fire safety literature.

The department was very fortunate to replace our aging ambulance with the assistance of the Capital Budget Committee.

As in the past the men and women of the Norwell Fire Department have risen to every challenge and situation presented. They are a credit to the community and have gone above and beyond what has been expected of them on several occasions. In closing I would like to thank all of our personnel, Mrs. Davis our Administrative Secretary, the Emergency Communications Center Dispatchers, who are the lifeline between the residents and the fire service, the Norwell Police Department, and all other Town Departments for their quality service, support, and assistance throughout the year.

The following is an overview of our responses in 2005

Structure Fires	19
Cooking / Stove	10
Vehicle Fires	13
Brush Fires / Outside Fires	26
Motor Vehicle Accident	344
Emergency Medical Responses	1066
Medical Assists	9
Hazard Material Incidents	26
Power Lines Down	71
Electrical Problems	53
Lock Outs	129
Assist Police Dept.	6
Smoke Removals	103
System Malfunctions	231
Public Service	80
Mutual Aid / Fire	14
Mutual Aid / Ambulance	319
(167 Given, 152 Received)	

Respectively Submitted,
Paul W. Rosebach
Chief of Department

HIGHWAY DEPARTMENT

The snow season for Fiscal 2005-2006 proved to be a busy one. This department along with its contractors, when needed, made 55 sanding/salt runs and plowed 17 times for a total of 110 ½ inches of snow fall for the season. The total cost of snow & ice removal for the season was $337,282.99.

When the weather breaks in the Spring, the cleanup begins. This year the street sweeper began on March 25th and swept each street in town until all roads were clear of sand & debris.

The highway crew also repairs plow damage, cleans up broken asphalt and straightens/replaces street signs. Potholes and road defects are repaired as quickly as possible year round.

In June, this department with the assistance of the Tree & Grounds department gave a helping hand to the Friends of Gaffield Park in spreading a wood fiber material around the playground structures in order to make the area as safe as possible for the children.

The department undertook an ambitious road-resurfacing program which involved drainage repairs & installation followed up by resurfacing of the following roads. All resurfacing work was contracted out to Aggregate Industries. Barque Hill Drive, Brigantine Circle, Till Rock Lane, Black Pond Hill, Capt. Vinal Way, Samuel Woodworth Road, Circuit Street, Prospect Street, (from Jacobs Lane to Grove Street) Accord Park Drive, Otis Hill Road, Masthead Drive, Bowsprit Lane, Copeland Tannery, and Pine Street. The Total cost for resurfacing was $465,242.15. Drainage work was contracted out to Bay State Piping for drainage installation on Pine Street at a cost of $261,885.70. This work began on July 25th and brought us well into the Fall season completing the construction season on November 21st.

At this time, we went right into Fall prep work for the upcoming winter season by cleaning drainage trenches and performing necessary maintenance to our snow fighting equipment which brings us full circle right into another snow season.

In closing, I would like to thank the Highway Department personnel: Chris Cowden (Foreman), Steve MacInnis, Mark Allegra, Mark Walther, James Murphy, Linda Murphy, and William Gunderway, & Harold Tuttle (Recycling Center employee's). I would also like to thank the contractor's that helped plow the town's roadways to make them as safe as possible for the traveling public and the many Boards, Committees, Commissions, and Department Heads for their assistance and cooperation during this year.

Respectfully submitted,
Paul M. Foulsham, Highway Surveyor

DEPARTMENT OF LANDS & NATURAL RESOURCES

In January, work at the Tree department was offset by 9 days of sanding and plowing with the Highway Department. Two weeks of storm related clean up and equipment repair, building benches, and one interment.

February more than half this month was spent sanding & plowing with the remainder of time spent on equipment repair, and 6 interments.
At the end of February, Ogden Well & Irrigation Supply Company started work at the Middle School. Three wells were drilled and only one produced 10 gallons of water per minute. We are currently working with the Athletic Field Study Committee in order to install an appropriate irrigation system to the fields.

March didn't let up at all on sanding & plowing. Storm damage and high winds brought a week of cutting & chipping storm debris. The Tree department contracted out the services of R. A. Gill Tree Company for the hire of a bucket truck and crane to remove decaying or dead trees.

April was split between fieldwork, tree removal, and two interments. Field renovating consisted of mowing, marking, fertilizing, and over-seeding.

In May, fields become priority with mowing, marking, fertilizing, and over-seeding continuing. Two more interments at the Washington Street Cemetery.

High winds again came into play and cleanup around town. R.A. Gill's Tree Service was in once again at the end of the month.

On the 1st of June the Highway department in conjunction with the Tree department spread approximately 160 yards of chip mulch at Gaffield Park.

Fields were mowed and prepped for High School Graduation. Fields were marked & mowed for sporting activities. The crane was in to remove dying trees and Chris Glynn Tree Service was contracted for stump removal, 32 in all. Two interments.

The roadside flail was put into use daily. A major piece of mowing equipment, the Jacobsen HR-15 was in need of repair. This piece of equipment takes care of the substantial town owned fields. Two tons of fertilizer with Merit for grub control was applied, and at the end of the month, the department hired a summer time help employee. Three interments.

The flail roadside mower was in use for the month of August. High winds during this month had the department picking up debris for 7 days. Two tons of fertilizer with ConFront (weed control) and three tons of regular fertilizer was applied. Two weeks of field prep and marking of fields for Fall sporting activities. Two interments and our Summer time help employee returned to college.

Roadside mowing continued during the month of September along with scattered tree work, mowing continuously. Plymouth County Mosquito Control sprayed the Town's schools and Gaffield Park closing the fields and park for 72 hours. Three interments.

With constant rain in October it made it hard for mowing the ever-growing grass, but fields and public grounds still need to be maintained. The department spent two weeks at Washington Street Cemetery installing markers and grounds maintenance. Three interments.

Come November, the mowing slowed, as did some field maintenance, we applied 2 tons of fertilizer & 500 lbs of seed. Tree removal work continued. Irrigation around town was blown out to get ready for Winter. Four interments.

December brings us back to equipment repair, bench repair, building maintenance, and continuation of tree removal and two interments.

The department removed 130 dead or dying trees, trimmed 57 trees, ground down 32 stumps, 53 days of limb & branch clean-up, 12 ½ tons of fertilizer, &1,575 lbs. of grass seed applied to public grounds.

I would like to thank the crew, Mark Smith (Foreman), George Brazil, William Lavery, Phil McKinnon, & Colin Whitney, plus the many Boards, Committee's, Commission's, and Department Heads for there continued dedication to the Town of Norwell.

Respectfully submitted,
Paul M. Foulsham, Director of Lands & Natural Resources
Mark Smith, Tree & Grounds Foreman

NORWELL CEMETERY COMMITTEE

During the calendar year 2005, 36 burials were recorded at the Washington Street Cemetery and a total of 36 burial lots were sold. The sum of $32,848.75 was turned in to the Treasurer/Collector.

Preliminary work has started at the new cemetery site on Wildcat Lane. Green Environmental of Norwell has completed some of the steps necessary to determine what part of the twenty acres given to the Cemetery Department is suitable for a cemetery. We hope to have all the pertinent information in our hands soon and can then proceed to final design of the new cemetery.

Because of budget cuts, we continue to operate with no assigned worker at the cemetery. Our thanks go to Paul Foulsham and the men of the Tree and Grounds Department for cutting the grass, digging the graves and doing other vital work that must be done in a cemetery. We are still hoping to have some help with straightening grave stones as well as removing dead and/or overgrown shrubs and trees.

We once again remind the townspeople that cemetery lots may only be sold to town residents. If you are planning to relocate to another town or state and wish to be buried in Norwell, please purchase your lot(s) before you move. Lots are available at this time for $510 each. For more information about purchasing a lot or lots or for any other questions relating to the cemetery, please call the Town Clerk's office. You will then be referred to the Chairman of the Cemetery Committee.

Respectfully submitted,
Gertrude H. Daneau, Chairman
Mary C. Lizotte, Secretary
Theodore H. Baldwin
Joanne Molla Goldman
Francis J. Nagle

PERMANENT BUILDING AND MAINTENANCE COMMITTEE

The PBMC committee has been proceeding with three significant projects this past year.
The first involved monitoring progress of the exterior repairs to the Sparrell building. These repairs include replacing the roof, replacement of windows and repair or replacement of exterior wood sections. Concurrent with this project was the installation of central air conditioning on the second floor now occupied by the school administration. The project was substantially complete by year's end.

The committee is working with police Chief Robert Galvin and the selected Architect to study police department needs and space options. In a report to the Norwell Selectman, the committee reduced the potential sites to two with two options each. The first at the existing station on River Street provided for either an addition/rework of the existing facility or complete demolition and building of a new facility.
The second site proposed the ground floor of the Town Hall on Main Street including a small addition for a Sally Port and option for detention cells. The additional option for this site in addition to the Police Facility would include the rework of the first and currently unoccupied second floors including handicap accessible elevator and facilities. This option would also upgrade the building heating system and windows to current energy efficient standards.

Working with the Cushing Center Committee, the PBMC has interviewed and engaged an engineering firm for design and specifications for the addition of a central air conditioning system for the center.

The committee would like to thank Ralph Gordon for his participation and valued advice while serving on the P.B.M.C. Ralph now serves on the town's Advisory Board.

Respectfully submitted,
Glenn Ferguson, Chairman
Don Messinger
Eileen Kelley
Fred Hays
George Williams
Lee McKenney

REPORT OF THE BOARD OF WATER COMMISSIONERS

The Norwell Water Department (The Department) is pleased to report, after a three-year delay, permitting issues involving water system upgrades at the South Street Well Field have been resolved. Improvements to this well field include the construction of an 800-gallon per minute well (Well 11), an immersed membrane ultra-filtration treatment facility, and a 4,000 foot cross-country water main. Bid opening for this project is scheduled for March 2, 2006 and it is anticipated that construction will begin sometime in the summer of 2006. As you may recall from previous reports of the Department, a $7.2 million, 2% interest loan was secured from the Massachusetts Drinking Water State Revolving Fund (DWSRF) to finance these improvements.

In 2005 funding was approved at Town Meeting for the renovation of the Washington Street Well Field. Design work was begun in late 2005, with construction slated to begin in the spring of 2006. This project will involve the installation of new gravel-packed wells in the vicinity of existing

wells #4, #7, and #8. The existing wells are approximately 40-years of age and have seen a substantial decrease in pumping rates, down approximately 70% from original capacity. Initial test borings in the well field suggest that when complete, these new wells will provide a combined pumping rate well over twice the existing rate.

In late 2005 the Department completed the Jacobs Lane water main project, by laying approximately 1,200 feet of 10-inch ductile-iron water main from the mid-point of Jacobs Lane to Main Street. This new water main will provide increased fire protection and improved water quality for the residents of Jacobs Lane and Laura's Lane as well as the residents of adjacent areas. These water main improvements were accomplished utilizing Department personnel and equipment resulting in substantial cost savings.

In conjunction with the Massachusetts Highway Department (MHD) Route 53 improvement project, significant water infrastructure improvements have been undertaken. These improvements financed by MHD, included water service renewals, hydrant replacements, and the installation of additional water main valving. The work on this infrastructure was done with Department oversight resulting in minimal disruption of service.

Two of the Department's largest operating expenses are water treatment chemicals and electricity. In an effort to reduce these costs, the Department has continued its use of the Eastern Massachusetts Chemical Cooperative, a regional multi-community water treatment chemical procurement group and the Massachusetts Municipal Association's MunEnergy program which offers guaranteed pricing on multi-year electricity contracts.

2005 saw the continuation of the Department's water meter changeover program. Previously, the Department sought and was approved additional funding in our water meter replacement budget. This increase has allowed the Department to annually replace approximately 15% of old technology meters with new radio meters. The new radio meters ensure data security and provide improved meter reading accuracy. It is anticipated that a total change over of all residential and commercial meters will occur within five years.

The Department was pleased to serve 3,456 residential, commercial, municipal and industrial accounts in 2005, an increase of 32 accounts (1%) from 2004. The total volume of water pumped from our ten groundwater sources was 398 million gallons with an average daily withdrawal of 1.09 million gallons. Our maximum day withdrawal occurred on July 25, 2005 and totaled 2.1 million gallons. The Department conducted over 550 service calls during the year. This included the installation of new metering equipment and service valves; marking underground utilities and responding to customer inquires regarding water quality and water pressure. Road excavations required a major commitment of Department resources with 71 road openings. These road openings were required to renew 23 existing water services, replace 12 hydrants and repair 4 water main breaks in addition to installing 32 new water services.

2005 saw the departures of Administrative Secretary, Nancy Dooley, who took a position with the Norwell Treasurer Collectors Office and Distribution Mechanic William Lavery who took a position with the Norwell Tree and Grounds Department. We thank Nancy and William for their excellent service and dedication while with the Department and wish them well at their new positions. Meter reader, Theresa Graham has performed the duties of Administrative Secretary on an interim basis. To fill the vacancy created by William Lavery's departure, the Department hired Richard Mosca in November of 2005. Richard has extensive experience in the water works field having worked recently for the Town of Cohasset and prior to that for the cities of Brockton and Gloucester.

We would like to take this opportunity to thank Water Superintendent - John McInnis, Facilities Manager - Neal Merritt, Distribution Foreman - Steven Gatanti, Treatment Plant Operator - Marc Spinella, and Water System Mechanics - Scott O'Keefe and Rick Mosca for their fine dedication to task and for their superb ability to communicate and address issues with water customers, contractors, consultants, and Town officials.

We would also like to thank all the other Town of Norwell boards, commissions, and committees who have offered their cooperation, guidance and support during the past year.

Respectively submitted,

Board of Water Commissioners
Peter Dillon, Chairman
Steve Ivas, Secretary
Frederick St. Ours, Clerk

BOARD OF HEALTH

Emergency Preparedness continues to be the main focus in Public Health these days. With West Nile Virus and Eastern Equine Encephalitis present on the south shore this past mosquito season and the threat of a pandemic flu such as the avian flu so prevalent in the news these days it really hits home that you cannot be too prepared. The first version of the Norwell Health Dept. Emergency Plan was completed this past summer and a skeleton version of an Emergency Dispensing Site Action Plan has been developed and is a work in progress. As part of Emergency Preparedness Region 4B that runs from Norwell to Cambridge we have participated in exercises and drills as part of our monthly meetings. In 2006 we hope to establish a Medical Reserve Corps that would respond in an emergency. We are also progressing in establishing a mutual aid agreement between neighboring towns that would allow towns within the region to respond to emergencies much the same way police and fire do now.

Late spring or early summer will also bring about some revisions to the Title 5 Septic Regulations. While the core of the code will for the most part remain basically the same, there will be amendments to make the code more user friendly for all involved. The changes will include items that should save both time and money for some homeowners and some red tape will be eliminated by allowing local Boards of Health to handle some issues that formerly had to go to Mass. Dept. of Environmental Protection.

A timely supply of flu vaccine resulted in several routine clinics. The Board would like to express again its appreciation for another great year of nursing service provided by the VNA and looks forward to a healthy 2006.

While funds for the South Shore Tobacco Collaborative have been significantly reduced, compliance checks targeting merchant sales to minors are still conducted and the Board is pleased that the vast majority of Norwell merchants are strictly adhering to the local and state laws regarding sales of tobacco products to minors. The Board would like to commend Collaborative Director Jim Wells for a job well done.

A new contractor, Mike DelPrete & Sons from Rockland was awarded the contract for curbside rubbish and recycling pick up in July 2005. The transition has gone smoothly and they have performed very well to date.

The Board would like to extend its appreciation to its hard working full time staff consisting of Health Agent Brian Flynn, a Registered Sanitarian and Administrative Assistant Pat Cummings. Special thanks go out to long time alternate Health Agent Jim Jenkins, a Registered Professional Engineer, Bob Griffin, Food Inspector and certified Health Officer and Ralph Cole a Registered Professional Land Surveyor for another year of excellent service to the Town of Norwell.

Appreciation goes out to all Boards, Commissions, Department Heads and the citizens of the Town of Norwell.

HEALTH DEPARTMENT ACTIVITIES:

Complaints	131
Swimming Pool/Jacuzzi Inspections	7
Percolation Tests/Groundwater Observations	138
Plan Review (Septic, Planning, ZBA	211
Restaurant/Food Service Inspections	130
School Inspections	4
Municipal Building Inspections	2
Communicable Diseases Recorded	39
On Site/Office Consultations	650

PERMITS ISSUED IN 2005:

Mobile Food Service	1
Tobacco Sales Permit	11
Milk & Cream Permits	43
Food Service Establishment Permits	37
Retail Food Store Permits	28
Catering Function Permits	19
Catering Establishment Permits	6
Massage Facility Permit	12
Massage Therapist Permit	32
Public/Semi Public Swimming Pool Permit	6
Public/Semi Public Hot Tub/Jacuzzi	1
Swimming Pool Installation Permits	21
Disposal Works Permits & Revisions	151
Tanning Facilities	2
Funeral Director Permit	2
Motel Permits	3
Recreation Camp Permits	5
Mobile Home Park Permits	2
Disposal Works Installer Permits	70
Septic Hauler Permits	22
Medical Waste Hauler Permit	1
Rubbish Waste Hauler Permit	5

A total of $120,466.00 for permits, fees, etc. was turned into the Treasurer/Collector. This also includes monthly fees for two (2) Mobile Home Park spaces.

Respectfully submitted,

John O. Litchfield, Chairman
Peter M. Dillon
Arthur J. Bowman, M.D.

NORWELL COMMISSION ON DISABILITIES

The Norwell Commission on Disabilities (NCOD) continued its support of the Friendship House's project to build a facility in Norwell that will give support to families of the developmentally disabled.

The NCOD provided the Norwell Public Library with a wheeled basket walker to enable patrons with mobility issues in the library and a pik stic to enable patrons in retrieving items off of shelves.

The NCOD initiated support of the Norwell Best Buddies Program at the Norwell High School. The Best Buddies program brings young people with disabilities into the mainstream social environment by providing both one-on~one companionship in various activities and more general social activities. This program not only benefits the disabled, but also helps to educate the population as a whole. The participants undergo an extensive training program and the Norwell program is now a model program to area towns.

The NCOD continued to support the Occupational and Physical Therapy Departments of the Norwell Public Schools in the form of weighted vests, hand weights, and suspension equipment used by children to improve balance and body tone.

The NCOD continued to support the Norwell Special Education Parent Advisory Council (PAC) in the purchase of books for their parent resource library.

The NCOD bought a new drop box for the Town Hall. This is similar to the drive- by mailboxes at the post office and will enable the disabled community to deliver materials to the town hall without leaving the car.

Respectfully submitted,
Peter Kates
Fran Nelson, Co-chair
Kerry Trementozzi
Beth Wilkinson, Co-chair
Norwell Commission on Disabilities

COUNCIL ON AGING

The Council on Aging has existed as a town department, by way of unanimous vote, since the 1964 Annual Town Meeting. Its main function remains the same today as it did 41 years ago. This is to provide **information, advocacy and resources to the older adults of Norwell.** It continues to be the community focal point for services and programs that can assist, support and supplement the concerns and needs of our residents, their families and friends.

The primary responsibilities of the Council on Aging focus on five pertinent areas; Information and referral, advocacy, outreach, transportation and education. During 2005, the Council on Aging met

these responsibilities by the development and implementation of programs and services both at the COA Center and in cooperation with numerous community agencies and organizations. At the end of the 2005 fiscal year, we provided services and/or programs to over ***506*** individuals with 29,760 units of service given via the aging network and support system. In addition, a new part-time Administrative Aide position was added to provide office and computer technical support. This will help us to automate and streamline the flow of information to the community. This is necessary given that the population of individuals aged 60 and over is expected to increase by 89% by 2014. Based on census information from July 12, 2005, the current population of individuals aged 60 and over is 1,926 and those aged 50 to 59 is 1,468. The Council on Aging will need to redefine its goals to ensure the appropriate programs and services are provided to these individuals.

The **Outreach Program** continues to be one of our top priority programs. Outreach works with those older adults who may need support with fuel assistance, transportation, housing concerns, telephone reassurance or may be in an "at-risk" situation. The Outreach Coordinator works with families, caregivers, agencies and local resources to insure all is being done to assist and support the older individual within their home.

In 2005, the Loss Support Group continued to assist individuals experiencing loss of a loved one or independence. The community response to this program has been very good. The Council on Aging also continued inter-generational relations with the Norwell Public Schools through various community services programs. We truly appreciate the efforts of both the students and faculty.

This year also noted the launch of the Council on Aging web-site. This on-line medium allows us to provide information regarding available programs and services, an electronic version of the newsletter, as well as helpful information and resources for both Norwell elders and their families.

Volunteers continue to be the backbone of our department. In 2005, we were fortunate to receive over 7,425 hours in volunteer service from over 82 different individuals. Examples of this dedication and commitment include; providing medical transportation; program instruction and support; assisting in the office; and delivering meals to home-bound elders. This dedication from so many has saved the community over $109,500 this year.

Transportation is another responsibility and necessary asset to our operation. In 2005, we provided over 30 hours of transportation services weekly, encompassing over 6,040 trips during the year. Special transportation services are also available for medical appointments that cannot be served through the Council on Aging van. This includes a network of volunteer drivers, as well as a transportation grant program that allows us to provide appropriate transportation into Boston and other medical facilities outside the South Shore area. This is funded via competitive grants through the Older Americans' Act, the Executive Office of Elder Affairs and South Shore Elder Services.

SHINE (Solving Health Insurance Needs of Elders)
The Council on Aging has been fortunate to have an outstanding SHINE volunteer available to help address the health insurance needs of elders. 2005, in particular has posed many insurance obstacles for elders with the offering of Medicare Part D. The Council on Aging, in conjunction with the SHINE program, has offered a number of educational seminars, as well as one-on-one counseling.

In addition to the above core services, the Council has developed special programs such as the **Senior Work Program**. Now in its 7th year, the program allows eligible residents to volunteer their time and efforts within a municipal department for a property tax credit up to $750. The program not only helps the older resident, but the participating department with their workload. In

2005, 31 residents and over 11 departments worked together on the program for a total of 3,444 hours and estimated saving to the community of $11,194. The Council thanks all those involved with this successful program

We would like to take this opportunity to express our appreciation to the volunteers who are the mainstay of operations; the "Friends of the Norwell Council on Aging" for their program and financial support; the support and dedication of our staff; other Town Departments and the residents of Norwell.

Respectfully Submitted,
Ann Horrigan, Chairperson
Ann Pierce
Irene Horte
Bonnie Campbell-Dunn
Ann Valair
Marion McLaughlin
Dorothy Lynch
Rosemary O'Connor, Director
Diane M. McCarthy, Outreach Coordinator

CUSHING CENTER BOARD OF DIRECTORS

The Board of Directors of the Cushing Center are pleased to submit our annual report of activities for 2005 to the residents of Norwell for review and consideration.

Through the support of residents of Norwell, the Cushing Center was able to secure funds through the Community Preservation Act to implement some long sought capitol improvements. We will soon be installing custom, one light storm windows on the exterior of the existing windows. These new exterior storm windows will provide protection to the existing antique window sash, and should also help us reduce our winter energy use. Additionally, as part of this project we will be installing a new Ventilation / Air Conditioning system to the Hall area. The engineering for this work has already begun. When all that work is complete we plan to perform some minor carpentry repairs, and repaint the exterior. When it is all complete the Cushing Center will become an even more attractive venue for meetings and functions through out the entire year.

Each year we try to update some areas of the facility. This year we replaced the Stage Draperies with new scalloped edge, fireproof draperies. In addition to meeting the requirements of the Fire Department, the new drapes have provided a tremendous visual improvement to the main hall. If you have not had a chance to see them, stop by and have a look.

Also this past year, the Cushing Center benefited from the efforts of Mr. Andrew Bogaty in his quest to obtain an Eagle Scout badge with the Boy Scouts. Andy cleaned and replanted the rear garden, and has supplied three benches which have been located at various spots on the grounds. Thank you Andy!

As always, the front of our building reaps the benefits of the efforts of two dedicated groups of ladies. The North River Gardeners and the Norwell Garden Club continue to provide color, and beauty to the front of the Cushing as well as Norwell's entire center. Thank you all Ladies!

The Cushing Center simply could not run without the commitment and dedication of our small part time staff. Mary Lou O'Leary continues to do a great job overseeing the day to day operations of the building. Mary Lou is responsible for booking and overseeing functions, handling landlord/tenant issues as well all the basic responsibilities for upkeep and maintenance of the building. This year, Mr. Patrick McKenna came on board as Custodian. It is so nice to have someone who takes such care and pride in his job. Patrick is always willing to "go the extra step" particularly if it will make the Cushing Center a little nicer.
I've said before, but it can never be said enough, Norwell's employees are the best!

The office space on the first floor continues to be fully rented and our function hall rental remains strong.
Once again the Cushing Center was able to return profit to the Town as follows:

REVENUES:	Office and Hall rentals	$47,922.95
EXPENCES:	Payroll and Operating costs	$45,674.40
Sub total income		$ 1,948.55

RETURNED PROFIT TO NORWELL $ 1,948.55

For the Board of Directors,
Jef Fitzgerald

METROPOLITAN AREA PLANNING COUNCIL

The Metropolitan Area Planning Council (MAPC) is the regional planning and economic development district representing 101 cities and towns in metropolitan Boston. In addition, the Council shares oversight responsibility for the region's federally funded transportation program as one of 14 members of the Boston Metropolitan Planning Organization. The Council's legislative mandate is to provide technical and professional resources to improve the physical, social and economic condition of its district, and to develop sound responses to issues of regional significance. The Council provides research, studies, publications, facilitation and technical assistance in the areas of land use and the environment, housing, transportation, water resources management, economic development, demographic and socioeconomic data, legislative policy and interlocal partnerships that strengthen the operation of local governments. More information about MAPC is available at www.mapc.org.

The Council is governed by 101 municipal government representatives, 21 gubernatorial appointees, and 10 state and 3 City of Boston officials. An Executive Committee composed of 25 members oversees agency operations and appoints an executive director. The agency employs approximately 30 professional and administrative staff. Funding for Council activities is derived from contracts with government agencies and private entities, foundation grants, and a per-capita assessment charged to municipalities within the district.

In the past year, the Council has focused on initiatives that respond to regional challenges, some of which include:

MetroFuture -- Making a Greater Boston Region: State law requires that MAPC prepare, from time to time, a comprehensive regional plan. This planning process is now underway and is called the *MetroFuture* initiative. It started by asking the people of Greater Boston about their aspirations for the future of the region, and continues with a comparison between those visions and the future

that will arise if our current trends continue unchanged. We are finding both exciting prospects and interesting challenges lie ahead if we continue our current pattern of growth and development. Here are just a few of the results, out to the year 2030:

- **Population will grow slowly, while the number of households will grow more quickly.** By 2030, the region's population will have increased by 10%, approximately a third as fast as the projected U.S. population growth (29%). The number of households is projected to increase by 19% for that same time period, at a greater rate than the population, due to a continued decline in household size.
- **Consumption of land continues apace.** Fifteen percent of land that was open in 2000 will be developed by 2030.
- **An older population will demand more homes and health care.** There will be declines in all age groups under 55 and substantial increases in empty-nesters and elders, creating demand for different housing and contributing to an expected near-tripling of health care costs from 2000 to 2030.
- **Water in short supply outside the MWRA.** Communities with public water systems not connected to the MWRA system will face serious water constraints by 2030; approximately half will exceed their permitted withdrawal rates.

These are among the results that will serve as a starting point for discussions across the region about alternative paths the region could take, beginning with a series of briefings early in 2006. Visit www.MetroFuture.org to learn more about the project, and contact MetroFuture@mapc.org to learn about how to host a briefing about the region's future.

Municipal Planning: MAPC continues to assist municipalities in implementing Smart Growth Principles through local zoning changes. Under the Vision 2020 program, MAPC provided zoning analyses or draft bylaws to the towns of Duxbury, Stoughton and Hanover. Through FY05 funding from Smart Growth Technical Assistance Grants, MAPC assisted Topsfield in developing a Low Impact Development storm-water and erosion control bylaw. Under funding secured through the Priority Development Fund, MAPC is developing mixed use or multi-family bylaws for the towns of Bedford, Stow, Millis, Southborough and Stoughton. Just recently, MAPC received notice of approval of its application for Smart Growth Technical Assistance funds to assist the towns of Hopkinton, Ashland and Southborough in examining alternative futures for the 900 acre Weston Nurseries property. MAPC also continues to provide information to municipalities regarding the Smart Growth Overlay Districts enabled under Chapter 40R.

Metro Mayors Coalition: MAPC works with the mayors and city managers of 10 municipalities in the urban core on issues such as group purchasing, employee health insurance, regional public safety, and municipal public finance. Through this work, MAPC staffed the statewide Municipal Finance Task Force which reached consensus on a variety of public policy changes to reinvigorate the partnership between local and state government. We also formulated an $11 million grant program to fund inter-local and multi-disciplinary approaches to stemming the tide of youth violence, drug use, and gang activities in the region. This program became law late in 2005.

The Metro Data Center, an official US Census affiliate, provides in-depth analysis of trends in the region and conducts research on emerging issues that will strengthen the Council's ability to plan for the future. The Center works to increase public understanding of and access to demographic, social, economic and land use data and trends that affect the Boston metropolitan area. The Center also releases regular publications to maintain a general awareness about how growth continues to impact communities. The Center provides current accurate data to legislators,

municipalities, public and private agencies, and the general public about growth trends in the communities and subregions of the greater Boston area.

Transportation planning: MAPC staff played an active role in helping to revise the MassHighway Design Manual, now known as the Project Development and Design Guidebook. As vice chair of the Boston Metropolitan Planning Organization, MAPC worked to develop the annual Transportation Improvement Program, including transportation spending priorities for the region. We also developed population and employment projections to the year 2030, to be used in scenario modeling in the new Regional Transportation Plan and MetroFuture (see above) in 2006.

Legislative Advocacy: The Legislative Committee has worked to promote legislation that is of regional interest and is informed by smart growth principles (visit http://www.mapc.org/regional_planning/MAPC_Smart_Growth.html to view the list of principles).

At the beginning of the legislative session the Committee recommended for endorsement a full legislative agenda, which was subsequently endorsed by MAPC's Executive Committee. Among many items, the priorities include reform of the state's surplus land disposition policy; recapitilization of the brownfields redevelopment fund; reform of the state's antiquated zoning laws; and repeat offender legislation. Contact Legislative Director Joel Barrera at jbarrera@mapc.org to learn more about the committee's priorities and how your community can get involved in regional advocacy efforts.

Metropolitan Highway System Advisory Board: MAPC staffs this board, established in 1997 by the Commonwealth to advise the Massachusetts Turnpike Authority on issues relative to land use, air rights, zoning, and environmental impacts associated with development of land owned by the authority. In 2005, the Board reviewed a number of Requests for Proposals and development proposals for various parcels along the Central Artery surface.

Regional Services Consortiums: The Regional Consortiums Project collectively procured more than $3,000,000 in office supplies for 32 municipalities, and highway maintenance services valued at $16,000,000 for South Shore and MetroWest cities and towns. The project also facilitates collegial forums among members' chief administrative officers that focus on collective problem solving and resource sharing. MAPC, in partnership, with the Greater Boston Police Council, assists over 300 units of local government in procuring police, public works and general use vehicles, along with various public safety supplies.

Public Safety and Homeland Security: MAPC provides planning and fiduciary services to the Northeast Homeland Security Regional Advisory Council (NERAC), the Northeastern Law Enforcement Council (NEMLEC) and the Metropolitan Law Enforcement Council (METROLEC). Activities include procurement, research, and planning to enhance the delivery of public safety services and to ensure the region is prepared for either a terrorist attack or natural disaster.

Hazard Mitigation: *Pre-Disaster Mitigation* (PDM) plans help communities prepare for natural disasters such as floods, winter storms, wind, and geologic hazards. In 2005, MAPC completed PDM plans for 10 communities on the North Shore and 10 communities on the South Shore. MAPC is also developing PDM plans for 9 Inner Core communities, including Boston and neighboring communities, which will be completed in 2006. FEMA has awarded a grant to MAPC to develop PDM plans in 28 towns in the MAGIC, MetroWest, and North Suburban subregions, beginning in 2006.

495/MetroWest Water Resources Strategy: Working with the 495/MetroWest Corridor Partnership, MAPC completed three major components of a comprehensive water strategy for the corridor:

- the *Massachusetts Low Impact Development Toolkit,* available at http://www.mapc.org/lid.html, was published and two regional workshops were held to present the toolkit to the public. The toolkit recently received the 2005 Outstanding Planning Project Award from the Massachusetts Chapter of the American Planning Association;
- *Once Is Not Enough, a* guide to water reuse in Massachusetts, was published. It is available at http://www.mapc.org/regional_planning/waterreuse.html; and
- two regional contracts for Leak Detection Services were developed for both the 495/MetroWest communities, as well as all the entire MAPC region. Learn more about leak detection services that are available to cities and towns in MAPC's January edition of the *Regional Record,* our electronic newsletter, located at www.mapc.org.

Comprehensive Economic Development Strategy: Every five years, the Metropolitan Area Planning Council is responsible for developing a Comprehensive Economic Development Strategy (CEDS) in partnership with the Economic Development Administration. The 2005 CEDS, *Insuring Greater Boston's Prosperity,* contains an analysis of economic trends and conditions and highlights five challenges to economic well-being. It sets a context for inviting regional participation that moves toward a regional response to the challenges. The report is included in the January edition of MAPC's *Regional Record,* available at www.mapc.org.

Wind Power: Using a grant from the Massachusetts Technology Collaborative, MAPC recently completed a project to help ten North Shore coastal communities understand opportunities and obstacles to siting land-based wind turbines on municipally-controlled properties. The project helped the communities to identify regulatory barriers to wind, and the environmental and financial impacts of a wind project. Area residents took part in a web-based energy survey and each community received wind information and siting maps. MAPC hosted two wind educational forums as part of the project, helped the city of Lynn to draft a wind turbine siting ordinance and facilitated the creation of Alternative Energy Committees in Gloucester, Swampscott and Rockport to advance the siting of wind turbines in their communities. Information about the North Shore Wind Project is also included in the January *Regional Record* at www.mapc.org.

MEPA Project Reviews: MAPC reviews projects under the Massachusetts Environmental Policy Act (MEPA) and submits comments on projects with significant regional impacts. In 2005, MAPC reviewed 166 MEPA filings (Environmental Notification Forms, Environmental Impact Reports, and Notices of Project Change), and submitted comments to EOEA on 58 of these. One of the most significant reviews of the year was a "Peer Review" conducted by MAPC and the Old Colony Planning Council on the proposed *Village Center Plan* for the former South Weymouth Naval Air Station. Visit http://www.mapc.org/whats_new/SWNAS/SWNAS_Summary_Document.pdf to view our comments.

South Shore Coalition

In 2005, the South Shore Coalition (SSC), one of the eight subregions of MAPC, met on a monthly basis to discuss issues of mutual interest from drinking water supply, Redevelopment of the South Weymouth Naval Air Station, and transportation issues. SSC is comprised of the communities of Cohasset, Duxbury, Hanover, Hingham, Hull, Marshfield, Norwell, Pembroke, Rockland, Scituate, and Weymouth.

During the year, SSC heard presentations regarding and provided input to MAPC's actions relating to the following regional transportation issues:, 2005 Transportation Improvement Program, the Greenbush Commuter Rail project, UPWP Braintree Split Study, and the UPWP Route 53 Corridor Study. SSC participated on the Regional Transportation Advisory Committee (RTAC), developed a set of subregional legislative priority issues to help guide MAPC's priorities, and reviewed the ongoing efforts of redevelopment taking place at the now closed South Weymouth Naval Air Station. The subregion was briefed periodically on the MetroFuture project, the on-going review of the subregions that is taking place in conjunction with the MAPC strategic planning process, and other activities of MAPC.

MAPC Annual Report prepared and submitted by Marc D. Draisen, Executive Director, Metropolitan Area Planning Council.

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work in concert with UMass Amherst Faculty and Extension staff on behalf of the United States Department of Agriculture, to provide valuable information in Extension's four major program areas: Agriculture and Landscape; 4-H Youth and Family Development; Nutrition Education; and Natural Resources & Environmental Conservation. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing programs.

Cooperative Extension resources and programs for Plymouth County include: garden lectures, fruit pruning demonstrations; pesticide applicator training & licensing exams; the annual UMass Extension Garden Calendar; educational resource materials; training and resources for green industry professionals and youth service agencies; accredited overnight 4-H summer camps; and teacher workshops and resources. New research findings are translated into practical applications and shared with people and communities through workshops, conferences, field demonstrations, radio and television, local libraries, technical assistance, and newspaper articles. Publications such as newsletters, booklets, and fact sheets bring information directly to those who need it. Additional information is delivered through office visits, phone calls, and UMass-Amherst Extension web access www.umassextension.org .

The Plymouth County Extension office is located at P.O. Box 658, High St. Hanson MA 02341 (781-293-3541; 781-447-5946) plyctyext@mindspring.com. Regional Extension programs are often conducted in Southeastern Massachusetts. UMass Extension also operates the Cranberry Experiment Research Station, located in Wareham.

Members of the Plymouth County Staff:

Michael D. Koski, 4-H Youth and Family Development Program
Amy McCune, 4-H Youth and Family Development Program
Deborah C. Swanson, Landscape, Nursery and Urban Forestry Program
Debra L. Corrow, Executive Assistant

Board of Trustees:

Michael Connor, Chairman - Halifax
Joseph Freitas - Plympton
John Peterson - Halifax
Elizabeth A. Francis - Plymouth

Marjorie Mahoney - Hingham
Chris Wicks - Middleboro
Wayne Smith - Abington
Philip Wyman - Hanson
Plymouth County Commissioner Timothy McMullen – Pembroke

UMass Extension staff funded by Federal/State Program Grants: UMass Nutrition Education Program, 34 School St., Brockton 508-513-3475:

Andrea B. Gulezian, Supervisor
Wendy Kemp, Nutrition Educator
Maria Pique, Nutrition Educator
Virginia Murray, Nutrition Ed.
Joyce Rose, Nutrition Educator
Anita Sprague, Senior Clerk

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2005.

The Project is a special district created by the State Legislature in 1957, and is now composed of all Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2005 season began with a normal water table until record April precipitation produced large numbers of spring and summer brood mosquitoes throughout the County. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began. The Project responded to 11,578 requests for service from residents.

In response to the elevated threat of mosquito borne diseases in the district, we increased our trapping, aerial and ground larviciding, and adult spray in areas of concern to protect public health.

Eastern Equine Encephalitis virus was first isolated from *Culiseta melanura*, a bird biting species, by the Massachusetts Department of Public Health in Kingston on July 25, 2005. Of the season's total of forty five EEE isolates, twenty eight were from Plymouth County as follows: Abington (9/12), Carver (8/17, 8/29, 9/5), Duxbury (8/5), Halifax (8/22, 9/1, 9/5, 9/7), Hanover (9/7, 9/14), Hanson (9/13), Kingston (7/25, 7/27(2), 8/1(2), 8/8, 8/10, 8/22, 9/12, 9/19, 9/28), Lakeville (9/12, 9/19), Pembroke (8/1, 9/9), Rockland (9/7). Four human cases of EEE were confirmed including two fatalities (Halifax and Kingston) and two non-fatal cases (Duxbury and Plymouth). No horses were diagnosed with EEE in Plymouth County. We normally end our spray season on Labor Day. This year, because of increased virus isolations, we extended our residential spray program into October. Town and City based requests for area wide spray continued throughout the district through October 7, 2005. Based on guidelines defined by the "Vector Control Plan to Prevent EEE" in Massachusetts, Southeastern Massachusetts will be at a "moderate level of EEE risk" beginning the 2006 season.

We are pleased to report that in 2005 there were no human or horse West Nile Virus cases in Plymouth County. A total of six birds tested positive for the West Nile Virus in the following five towns: East Bridgewater (1), Hanover (1), Marshfield (1), Pembroke (1), West Bridgewater (2). A total of eight isolations of West Nile Virus in mosquitoes were found in the following towns: Abington (9/13(2)), Bridgewater (9/15), Lakeville (9/26), Middleboro (8/29, 9/29) and Norwell (8/23, 9/13).

The recurring problem of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Massachusetts Department of Public Health. In an effort to keep the public informed, EEE and WNV activity

updates are regularly posted on Massachusetts Department of Public Health website at www.state.ma.us/dph/wnv/wnv1.htm.

The figures specific to the Town of Norwell are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Norwell residents.

Insecticide Application. 4,768 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in June and the last in October.

During the summer 944 catch basins were treated to prevent the emergence of *Culex pipiens,* a known mosquito vector in West Nile Virus transmission.

Aerial Application. Larviciding woodland swamps by helicopter before the leaves come out on the trees continues to be very effective. In Norwell this year we aerially larvicided 651 acres.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Inspectors continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present.

Water Management. During 2005 crews removed blockages, brush and other obstructions from 2,140 linear feet of ditches and streams to prevent overflows or stagnation that can result in mosquito breeding. This work, together with machine reclamation, is most often carried out in the fall and winter.

Finally, we have been tracking response time, which is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Norwell was less than two days with more than 357 complaints answered.

Mosquito Survey. A systematic sampling for the mosquitoes in Norwell indicates that *Cx. pipiens/restuans* was the most abundant species. Other important species collected include *Cs. melanura* and *Oc. canadensis.*

We encourage citizens or municipal officials to visit our website at www.plymouthmosquito.com or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Raymond D. Zucker
Superintendent

Commissioners:
Carolyn Brennan, Chairman
Michael J. Pieroni, Vice-Chairman
Leighton F. Peck, Secretary
William J. Mara
Kenneth W. Ludlam, Ph.D.

NORWELL RECREATION COMMISSION

Norwell Recreation offered over 215 program opportunities to all ages and interests in 2005. There were over 11,761 program participants, which was slight decrease from 2004 – due to an indoor egg hunt, a postponed fishing derby and cancelled ski trips.

New programs this past year included film-making, road trail biking, rock climbing, canoeing, self defense, sewing, light power yoga, and field trips to new venues. New programs always meet with varying degrees of success and these were no exception -- some were hits and some were not.

Other programs with a longer history continue. For youth we offered playgroups for toddlers and preschoolers, youth basketball, gymnastics, afterschool arts, theater, fun after-school activities, fitness programs, a variety of sports programs such as archery, basketball, baseball, cheerleading, fencing, field hockey, golf, toddler gym, hip hop, kayaking lacrosse, ski and snowboard lessons, soccer, tennis, the Egg Hunt, April Vacation Baseball/Softball, field trips, summer recreation playground (scenes) programs for ages 3-grade 8, crafts, summer art, band, space adventures, and lots of field trips. Some programs are cooperative efforts with local organizations or businesses like the baby sitting and parent's helper courses provided by the Friends of Norwell Visiting Nurses Association, Sunday Open Gym with South Shore ARC, the Women's Club Bunny Breakfast, the youth dances brought to the town by the Women's Club, the Fishing Derby cosponsored by Village Green Real Estate. For adults and teens we offer many activities such as archery, basketball, C.P.R., first aid, fencing, golf, volleyball, basketball, field trips, painting (oil or watercolor), digital photography, quilting, ski trips, thai cooking, volleyball, workreation - a teen volunteer program, volunteer coaching, yoga, and a variety of workshops and seminars. The Job Bank provides a list of teens willing to child sit, do yard work, and odd jobs, which gives residents a valuable resource. We will look into any program suggestion because others may like your ideas! You can see our imaginations (and resources) only limit the variety. So keep those ideas and suggestions coming. And if you read this report, we'd like to know at the Recreation Office, give us a call, 781-659-8046.

The value and quality we offer seems supported by our high participant numbers. Budget moneys cover the administrative costs of providing recreation services and the staffing for the three general summer playground programs. In FY 2005, $16,725 was deposited into the general fund, which offsets our budget request of $134,892 so the bottom line for recreation was $118,167. In addition, more than $149,141 was spent on activities totally supported by participant fees. All other activities and services (95% of the programs) have continued because the participants pay all costs with fees. It is our hope that Norwell voters continue to recognize the importance of recreation through public support and not just by one's ability to pay!

Program scholarships are available for families needing assistance and we welcome contributions to cover those costs. The Workreation program is where teens volunteer to assist in various capacities in exchange for credit toward recreation activities. We had 17 teens volunteer 735 hours which was fewer young volunteers working more hours than the previous year! There were more than 2000 hours that adults volunteered with coaching, teaching, supervising field trips, conducting special events, program assistants, commission members, etc. The equivalent cost value is over $20,000 if paid at minimum wage! That certainly deserves a huge thank you!

Norwell is fortunate to have commission members dedicated to public recreation programs and facilities. Chair, Ginny Maree, members, David Barcomb, John Rice, Jerry Kehoe and Pat Richardson contributed time, energy, and various areas of expertise. Jerry acted as our representative on the Athletic Field Committee, which oversees the very vital task of improving our town's athletic fields. Pat is our representative on the Community Preservation Act Committee. John Rice resigned in July and as of this report, we are still looking for a new member. We wish to thank all members for their interest, their support and their time!

Leadership quality is perhaps our best asset. Through recreation director, Dale Connor; program-coordinator, Judy Volpe, and the many excellent program instructors' and leaders' efforts, knowledge, dedication, concern, and enthusiasm, Norwell is provided with recreational services for the entire population. We extend our appreciation for all their exceptional efforts.

The Recreation Commission thanks the School Department for their support through the usage of facilities -- gyms and fields, and also recognizes Paul Foulsham and the Tree and Grounds Department for their field maintenance and improvements. Without these cooperative efforts, our programs would be more limited and/or costly. Each year the Town relies heavily upon other

organizations within town such as Little League, Girls Softball, Youth Soccer, and Youth Lacrosse to help with the maintenance expenses of the facilities they use. 2005 saw on-going improvements of fields through the efforts of the Athletic Field Committee.

We mail our seasonal brochure four times a year to every Norwell postal customer. Our challenge continues to be funding support and improved recreational facilities. Participant feedback and numbers show support for services with continual requests for more. We take pride in our response to your interests and needs and hope to hear your ideas! We have programs for all ages and all interest levels. Take a look at one and join us in a future program! *This is your recreation department!*

RECYCLING COMMITTEE

Recycle Calendar

The highlight of 2005 for the recycling committee was the enthusiasm and the superb art work contributed by more than 200 fourth and fifth grade students to a school calendar demonstrating the principals of recycling. Thirteen of these pictures were selected to illustrate the calendar and four of the thirteen students received prizes in a random drawing. The top prize was an iPod mini which went to Kevin Thurston, 4th grade, Vinal School.

In addition to the students, we would also like to thank the many people who cooperated in this effort: organizations like the PTO and the Women's Club who submitted information about their school related events; Superintendent of Schools, Donald Beaudette, and his staff; Reiko and Kiyomi Beach, who provided invaluable assistance; Mr. Paul Papadonis, the high school art teacher who gave of his time to judge the art work; and most especially, Mrs. Jane McNulty, the elementary art teacher, who inspired the students to produce some very creative and original work.

The calendar was mailed to each school family and listed school related events for the 2005-2006 school year. The students whose drawings were selected are:
Grant Cabell 4th grade Cole School; Tyler Dakin 4th grade Vinal School; Conor Davies 4th grade Vinal School; Meaghan Dwyer 5th grade Vinal School; Holly Frattasio 4th grade Cole School; Hugh Hillstrand 5th grade Cole School; Sara Jane Joyce 4th grade Vinal School ; Rachel Kelly 4th grade Cole School; Julia Kirslis 4th grade Vinal School; Maggie Masterson 4th grade Vinal School; Kevin Thurston 4th grade Vinal School; Allison Weiler 5th grade Vinal School; Madison Willis 5th grade Cole School.

DEP Grant

The calendar also attracted the attention of DEP and earned the committee a service grant to undertake the same effort in 2006. The grant, valued at $875 will cover twenty-five hours of specialized assistance from Rosemary Nolan, a municipal assistance coordinator for DEP.

Residential Recycling

In 2005, Norwell residents recycled:

*1,013 tons of newspaper, office paper, cardboard, plastics, glass, and aluminum.
*82 tons of scrap metal
*389 tons of leaves and yard waste
*516 computer monitors and tvs
*240 propane tanks
*55 gallons of used motor oil
*160 gallons of oil-based paints
*47 mercury-laden thermostats, thermometers, and switches.
*Sixty-three cars dropped off hazardous waste during the annual collection.
* $35,000 in disposal costs were saved with curbside recycling.

Recycling Committee: Joanne Dirk, Chairman; Anne Fridgen-Traft, Carole McCarthy, Pattie Hainer, Members.

SOUTH SHORE RECYCLING COOPERATIVE

The Town of Norwell is a member of the South Shore Recycling Cooperative (SSRC), a voluntary association of fifteen South Shore towns established by Intermunicipal Agreement (IMA) and Special Legislation in 1998. Members of the SSRC are: Abington, Cohasset, Duxbury, Hanover, Hingham, Holbrook, Hull, Kingston, Marshfield, Norwell, Plymouth, Rockland, Scituate, Weymouth, and Whitman.

Each member town is represented by town associates appointed by the Selectmen. Norwell is represented by Joanne M. Dirk and Patti Hainer.

The mission of the SSRC as stated in the IMA is: "to provide a forum of cooperative management of solid waste by members, to assist each member Town to improve the cost-effectiveness of their recycling efforts by providing eco-nomy of scale while maintaining full control over solid waste management; to assist members to improve programs to divert waste materials from the waste stream and to reduce the amount and toxicity of wastes; and to provide such assistance on an individual basis to each member Town and cooperatively in joint programs with other Towns."

Each member town pays an annual membership fee of $4,000. In 2005 the SSRC raised a total of **$60,000** through these fees, which the SSRC supplemented with $14,259.03 in grants from Mass. Dept. of Environmental Protection and Covanta at SEMASS. Those funds pay for the services of the Executive Director and support various solid waste and recycling activities during the year to benefit member towns. The SSRC estimates that in 2005 these activities **saved member towns an estimated $112,000,** and provided over 250 hours of direct services to the towns.

HOUSEHOLD HAZARDOUS PRODUCT COLLECTIONS: By using the regional contract negotiated by the SSRC with **Clean Harbors** for the collection and disposal of **household hazardous products**, Member Towns paid about 30% less than the State contract, and avoided the administrative time to bid and schedule them. The thirteen collections held in 2005**2,439 residents**

attended, and Member Towns saved approximately **$28,400** for this service. The contract also enabled **101 residents and businesses** to attend other Member towns' collections using the **reciprocal arrangement,** which is administered by the Executive Director. The SSRC publicized the events with several thousand **flyers** delivered to the town halls and libraries and ongoing press releases in all **local papers, on cable TV and the radio**. The Executive Director attended and helped run ten of the collections, handed out paint stirrers with cost saving instructions on latex paint disposal, provided signs and calculated the **proper billing** for the vendor to ensure that discounts and allowances were credited and visitors billed properly.

CONSTRUCTION AND BULKY WASTE. By using the arrangement negotiated by the SSRC with the **Bourne ISWMF**, Member Towns enjoyed a disposal rate of $70/ton for **construction and bulky waste**. The gate fee is $75/ton. With a generation of 7,965 tons, Member Towns saved **$39,825** in CY05 with this arrangement.

MATTRESSES. The SSRC conducted an RFQ for **mattress processing** when the surcharge at Bourne increased from $10 to $15 each plus the tip fee and transportation, coupled with the elimination of the 10 mattress/load allowance. Three companies responded, and the SSRC accepted an offer by Miller Recycling in Plainville to transport and process mattresses for $14/each, including container rental. This arrangement saved the three participating towns approximately **$7,400** on the 1,852 mattresses they collected in 2005.

WASTE OIL. The SSRC negotiated a 7-10¢/gal rebate from Cyn Environmental for waste oil. Towns had previously received nothing from either Clean Harbors or Cyn. This should have generated **$5,000** for Member Towns for the six months it was in effect in 2005. Exact figures were not available.

COMPOST AND BRUSH PROCESSING. The SSRC re-bid its contracts for **brush grinding and compost screening**, which were awarded to Letourneau Corp. and Lion's Head Organics. The contractors made presentations at a Board meeting, and the contracts were used by several of our towns in CY05.

THERMOMETER SWAPS. The SSRC assisted the thirteen member towns that have contracts with SEMASS to maximize their benefits from the **Material Separation Plan (MSP)**, including the provision by SEMASS of digital thermometers for exchange, Dunkin Donuts coupons as incentive for residents and contractors to turn in mercury thermostats, reimbursement for mercury disposal costs, and outreach assistance (HHP flyers, radio ads) valued at approximately **$9,780**. These programs removed **121 lbs. of mercury** from the waste stream in 2005.

RADIO ADS. The SSRC produced sixteen **radio ads** promoting recycling and waste reduction, which were broadcast over 500 times on **WATD** 95.9 fm (Marshfield), **WPLM** 99.1 fm (Plymouth) and **WJDA** 1300 am (Quincy) from April through December. The SSRC obtained **grant funding from Mass. DEP** for the spring ads, **sponsorship from Covanta at SEMASS** to cover 1/3 of the airtime cost for the fall ads. We also partnered with the North and South River Watershed Association for reduced airtime costs on WATD. Total cost was **$9,540**.

EVENT RECYCLING. With assistance from the Mass. DEP and the Town of Marshfield, the SSRC worked with event organizers to continue **event recycling programs** at **the Marshfield Fair**. While public education was the main benefit, five tons of material was also diverted from the trash for recycling. Recycling containers from a previous grant are available for loan to all Member Town events.

LEGISLATIVE BREAKFAST. The SSRC held a **Legislative Breakfast** in April at which Rep.

Kathleen Teahan (D-Whitman) was recognized with our "Environmental Hero" award for her sponsorship and support of bills and budget items that promote waste reduction. Sen. Robert Hedlund (R-Weymouth) also spoke at the event.

ADVOCACY. The Executive Director led advocacy efforts for State budget items that benefit municipal solid waste programs. She met with the **Senate Ways and Means** Environmental Policy Analyst to advise on state and local solid waste issues and budget concerns. She also attended policy meetings, forums and conferences hosted by the DEP, Solid Waste Association of North America, the Council of SEMASS Communities, the Mass. Recycling Coalition, and the Northeast Resource Recovery Association. In her capacity as **President of MassRecycle**, she was appointed to and attends Mass. DEP Solid Waste Advisory Committee meetings. She shares what she learns with the Managers, and relays the Managers' concerns to the professional and State organizations and regulators.

WEBSITE. ssrc.info provides town-specific recycling information, household hazardous product collection information, press releases, Business Partnership information, links to other sites, annual reports and the newsletter.

ADVICE AND ASSISTANCE. The Executive Director's help is frequently sought by the solid waste managers on such issues as curbside contracting, disposal of special wastes, alternative vendors for different materials, regulations and accessing grants. She **met with the solid waste managers from each town** to stay up to date on their programs, update them on current trends, and advise on specific needs each town had. She made presentations to **Whitman and Marshfield** officials and residents about PAYT, helped **Rockland and Marshfield** negotiate better disposal contracts, and assisted Mass.DEP in hiring Municipal Assistance Coordinator Rosemary Nolan.

QUARTERLY NEWSLETTER. The SSRC publishes a newsletter filled with information of immediate interest to the South Shore solid waste community, including local solid waste news, regulatory and legislative proposals, meetings and seminars. The newsletter is circulated to over 300 town officials, legislators, regulators and volunteers, and is posted online at ssrc.info.

PUBLIC OUTREACH. The SSRC releases articles and provides information to the local press about waste reduction and recycling, and the proper disposal of hazardous waste. The Executive Director also fielded **75 calls** from Member Towns' residents in CY05 to answer questions, mostly about HHP and CRT disposal.

MONTHLY MEETINGS. The SSRC provides valuable **networking opportunities** and information sharing at our well-attended **Solid Waste Manager meetings**, at which solid waste collection, disposal and recycling service, pricing and proposed laws and regulations are discussed among member towns. Guest speakers provide information on subjects of interest to the local MSW community, including special waste disposal, regulatory compliance, legislative and budget issues, and grant assistance.

The SSRC exists to serve its member towns by facilitating their solid waste disposal and recycling functions. It always welcomes suggestions on how it can better serve its Members.

NORWELL VETERANS' MEMORIAL COMMITTEE

Following several years of no activity, the Norwell Veterans' Memorial Committee met on March of 2002. Members present were Ted Baldwin, Paul Foulsham, Herb Fredrickson, Mary Lizotte and Harry Merritt. Others in attendance were Richard Caldwell, Dave Hamblin and Robert & Frances Molla.

There was serious concern as to the validity of the names on the memorial and the horrendous error of our Vietnam veterans being cut into the rear of the memorial.
New members were appointed by our Selectmen until we had a full committee of nine. Ted Baldwin, Dick Caldwell (Chairman), Paul Foulsham, Herb Fredrickson (Assistant Chairman), Mary Knapp, Mary Lizotte, Harry Merritt, Frances Molla (secretary), David Turner. Later Mary Lizotte resigned and was replaced by George Kelly and Paul Foulsham resigned and was replaced by Richard Buell.
Sadly, this past year our assistant chairman Herb Fredrickson passed away and he has not been replaced.

All nine members agreed that all names on the rear of the memorial must be removed and replaced on the front and all names must be reviewed for authenticity.

Three different Memorial Companies were asked to provide input and cost estimates. While this activity was going on the committee reviewed the names to be engraved from Massachusetts War Records in Boston, persons personal records and records found in the Norwell Veterans Service Office.

After considering all input from members and residents as well as Memorial firms the committee decided that the least costly method was to replace the existing memorial of three stones with five larger stones. The additional size was not charged for by Monti Granite, the low bidder.

The committee is proud of the work that it has done, naming the Common in the Center of Town, "The Norwell Veterans' Memorial Common" and naming the small street in front of the Memorial, Veterans Way as well as creating a method for donations to the memorial so that all monies collected can and will be accounted for.

The most recent addition is a light established on an Edison Pole illuminating the Memorial. This is the final item to be accomplished and the Committee will be coming before the Town of Norwell requesting that its name be changed to "Norwell's Veterans' Common Committee" so that it might complete a project of making the main Veterans Common handicap accessible.

The committee appreciates the support it has received from residents and officials of the Town of Norwell.

Respectfully Submitted;
Richard A. Caldwell, Chairman

DEPARTMENT OF VETERANS' SERVICES

The Office of Veterans' Services survived more budget cutbacks and is operating with no reduced hours or service. Mr. Caldwell's office hours are Tuesday and Wednesday afternoon and he is available at other times by appointment.

This past year, the office operated within its allotted budget in all areas. What is not generally known is that the majority of budget expenditures are reimbursed, to the Town of Norwell's General Fund, by the State Department of Veterans' Services at a rate of seventy five percent. Therefore, most of my line items cost our town 25% of what is shown.

This was a very good year for my office and veterans in our town. We were able to qualify severely disabled veterans for annuities from the State. We were also able to bring into the Town of Norwell in excess of $800,000 from the Federal Government Office of Veterans' Affairs, (VA) and get some disabled veterans compensation.

As the vast majority of Massachusetts seniors are either veterans or survivors of veterans and may be unaware of their possible eligibility for either state of federal benefits it may be useful for them to drop in to the Veteran's office in the Town Hall and receive updated information. There may be a group of young veterans returning to our community from conflicts around the world. They were given excellent information during mustering out procedures, but they to may want to drop by to determine if any new benefits have surfaced. One Massachusetts benefit for Iraq or Afghanistan veterans is our $1000 bonus for in country veterans and $500 for veterans in conus. There are also VA benefits for veterans and widows, 65 and older, who are trying to live on very limited incomes. Please come see me so we can discuss your possible benefits.

Respectfully Submitted:
Richard Caldwell, VSO

REPORT OF THE BEAUTIFICATION COMMITTEE

The Beautification Committee performs, sponsors and supports several programs and projects all of which are designed to further the beauty and the quality of life of our town.

We continued the Daffodil Program this year with 27,000 bulbs planted by our townspeople. Since the program began in 1994, nearly 475,000 daffodils have been planted along our roadways, at homes, schools, monuments, and town buildings. We plan to continue the daffodil program each year.

Our annual spring and fall cleanup of the town library grounds and the Japanese Garden to the rear were completed and hundreds of additional daffodils bulbs were planted around the library entrance to provide spring beauty. Each year we plan further improvements to the library grounds and in the spring of 2006, a Japanese maple (Bloodgood) tree will be planted in the Japanese Garden to replace a cherry which died and was removed. We will also complete the roof of the Japanese Garden gate at the garden entrance.

The most visible of all our programs is the Triangle Program. Each year from early spring to early fall, many hard working and dedicated volunteers plant and maintain Norwell's triangles, monuments and town buildings with beautiful arrays of flowers, plants, shrubs and trees thus transforming the town into a gorgeous community. This year, the Vinal School Garden Committee

landscaped and planted a new island garden at the Vinal School. We always have several locations in need of additional volunteers!
Our Adopt-A-Street program continues. As the traffic in Norwell increases, so does the roadside litter. However, volunteers regularly picking up and disposing of roadside litter in their neighborhoods are patrolling only about 24% of the town's streets. This is an extremely important program as we all benefit from the clean appearance of our town. Here again, we need additional town people to step forward and become members of the Adopt-A-Street Program! We celebrated Earth Day 2005, by sponsoring a town-wide cleanup. Many enthusiastic residents participated by cleaning their yards and street areas near their homes. In particular, the Wildcat Association gathered and disposed of a huge amount of trash and litter from Wildcat Lane. We will sponsor another town-wide cleanup day in April 2006.

As in past years, we provided holiday cheer Poinsettias to the Town Hall offices, the Norwell Library, the James Library, the Council on Aging, Fire Department Headquarters and to the Police Station. In response to the stated desire from our townspeople for additional vistas in Norwell and in recognition of Arbor Day, we commenced clearing the North side stonewalls along Main Street between Lincoln St. and the Red Barn/Homestead Farm Lane. We have received many compliments upon the improved appearance. We will complete the Southside stonewalls in the spring of 2006. Also in 2006, we wish to re-establish the tree nursery with flowering, colorful varieties to offer the townspeople for planting about town.

A well-received and well-publicized affair, the Annual Beautification Committee Awards Program recognizes outstanding individuals, organizations and businesses who have contributed their time and energy toward the beautification of Norwell over the previous year. We are very fortunate that our Selectmen allow time on their very busy agenda for the ceremony. This year, our 17th consecutive year of these awards, Senator Robert Hedlund who also presented proclamations from the Commonwealth of Massachusetts to each of the awardees joined the ceremony. The award recipients were Monica C. Baum, Dona A. Maher, and Beth Ann King-Wilkinson for the triangle at Old Oaken Bucket Road and Summer Street, The Business Award went to Stop & Shop Supermarket at 468 Washington Street, the Home Award went to Ellen M. and Peter J. Fitzpatrick for their home at 242 Pleasant Street, Special Recognition Awards was presented to Yvonne Pellegrino and Maureen Fanning for their work in the planting and maintaining the monuments on the Veterans' Common, and a Special Recognition Award to the Vinal School Garden Committee for their work in establishing a new garden at the Vinal School. Norm Schmidt was presented the Myrtle H. McKay Award for his support of the beautification programs.

In 2005, we sponsored a project to repair and restore the Civil War (Soldiers) Monument on the Veterans Memorial (Town) Common. Funds were voted at town meeting and the Historical Commission hopes to complete the work in the spring of 2006. To make sure we are concentrating on the correct things, we completed a survey of Norwell residents requesting their opinions. We will carefully consider all comments and recommendations. The interest and support of all the townspeople in keeping us on the right track is truly appreciated

As in prior years, we must give a very special "thank you" to all our volunteers. You make our programs successful. We know how hard you work and the importance of each of you is also appreciated. The help and support of Norwell Town Departments and Offices is also recognized and appreciated. We do seek additional volunteers for the Triangle Program and the Adopt-A-Street Program. Any townspeople interested in becoming a part of the Norwell Beautification Program should not hesitate! Please call 781-659-7463!

REPORT OF THE CONSERVATION COMMISSION

The Conservation Commission had its busiest year in recent memory in 2005, with 143 public hearings, representing a 26% increase from the previous year. During the year, we continued to operate without a full-time Conservation Agent, and for seven weeks in the fall, without even an administrative aid. Obtaining funding for a full-time agent remains a priority of Commission members. While we had a number of supporters within town government, our budget request for a full-time agent failed at Town Meeting when it was bundled with other requests and voters declined to pass an override.
We will continue to seek funding for a full-time agent in the new year because Norwell both needs and deserves the full-time expertise of an agent to interpret and enforce the Wetlands Protection Act and the Norwell Wetlands Protection Bylaw, as well as to manage conservation lands for public use and enjoyment.

The Commission's stewardship over conservation land increased by over five acres when the Barstow Fields on River Street were acquired in 2005 with funds provided by the Community Preservation Act. The property is located in the North River Scenic Corridor and provides diverse wildlife habitat, including grassland and protected wildlife passage along Copeland Tannery Brook to Third Herring Brook.

The senior volunteers continue to provide invaluable assistance to the Commission in its stewardship of conservation land. Projects completed by the volunteers in 2005 include: repairing the dock at Jacobs Pond and leveling the parking area on Duncan Drive to prevent washout into the pond; clearing and pruning trails on conservation land throughout the town; and assisting with special projects in the Commission office. Thanks go out to Charlie Dirk, Ralph Knowles, Al Svelnis, and Steve Young.

Illegal activity continues to be a problem on conservation land, especially at Jacobs Pond, and we ask that anyone seeing such activity contact the Norwell Police. At Jacobs Pond, people were observed hunting and killing turtles in large numbers. Others were observed riding ATVs on conservation lands, which is not permitted. While the Commission would like to be informed of such activities, a citizen's first phone call should be to the police, who are better able to confront people in potentially volatile situations.

A significant achievement for both the Commission and the Town of Norwell in 2005 was the completion of the Norwell Open Space and Recreation Plan 2005 - 2010. The plan was given final approval by the state Executive Office of Environmental Affairs, allowing Norwell to participate in state grant rounds through March 2010. Copies of the plan are available for inspection at the Norwell Library, and may also be purchased at the Town Clerk's Office for $25.00 each. In addition, the plan will be available on the town's website as of March 2006. Special thanks should be given to the Open Space and Recreation Plan Committee members: Deborah Lenahan, Chair; Richard Barry; Dale Connor; Deborah Hill; Steve Ivas; Rosanne Joyce; Michele Simoneaux; and Barbara Wolinsky, as well as to cartographer Eliza McClennen and editor Alison Demong. We also thank all of the Norwell residents who responded to the Open Space Questionnaire, some of whose quotations appear in the published plan.

Finally, we lost a dedicated, long-term Commission member in 2005 when A. Gail Storm decided not to seek reappointment. Gail served the town for many years, and her calm, level-headed, and knowledgeable presence will be missed. Fortunately, David Osborne volunteered to serve as our newest member, and he has already proven to be anactive and enthusiastic commissioner.

The Conservation Commission meets on the first and third Tuesday of the month at 7:30 p.m. Meetings are open to the public, and all are welcome.

Respectfully submitted, Norwell Conservation Commission.

Kathryn Mudgett, Chair
Gregg McBride, Vice-Chair
Burt Bryan
Deborah Hill
Christopher Mickle
W. Clifford Prentiss
David Osborne
Michele Simoneaux, Conservation Agent
Meredith Schmid, Acting Administrative Secretary

NORWELL HISTORICAL COMMISSION

The purpose of the Norwell Historical Commission in accordance with Massachusetts General Law (Chapter 40, Section 8D) and the Norwell Bylaws, is to accept responsibility for preserving and protecting irreplaceable historic antiquities and historic resources throughout Norwell as an acting official agent of the municipal government.

The Historical Commission has had a very productive year.

Projects:
The Beautification Committee and the Veterans Memorial Committee's request for funds from the Community Preservation Act Committee, to be taken from the Historic Preservation Funds, to repair the Civil War Monument on the Common, was accepted at the Town Meeting. The Historical Commission has been working on this project with the others involved. The bid for the repair was awarded to the Granite Corp of Barre, Vermont. They expect to begin the renovation and repair in the spring. The survey of the antique homes in Norwell is well underway and it is hoped that it will be completed next year. The architectural firm of Turk, Tracey and Larry has informed the Commission that many of the homes already surveyed meet the National Register of Historic Homes criteria. The homeowners whose homes qualify will be contacted by the Commission when the survey is completed.

Scenic Roads:
The Commission placed two articles in the warrant of the Town Meeting, one requesting the naming of six additional roads to our list of scenic roads and an article to clarified the dating of antique homes. The article naming River Street, First Parish Road, Old Oaken Bucket Road, Central Street, Prospect Street and High Street scenic roads was passed. The

second article on dating the homes was postponed. The Commission is looking into signage for these streets.

Community Preservation Act:
The Community Preservation Act Committee continues to be favorable to the Historical Commissions requests. The Committees requesting funds for the Civil War Monument restoration were awarded $15,000 at Town Meeting. This money will come from the funds allotted for Historic Preservation.

Date Boards:
The requests for date boards is increasing and are beginning to be seen all over town. This program uses the services of New England Historic Markings. Their fee includes the placement of the board The Historical Commission Historians Robert Babcock and Pam Bower-Basso are available to help residents learn how to research their homes for dating purposes.

Jacob Farmhouse on Main Street:
The Commission continues to get favorable reports from the State's Historic New England formally the Society for The Preservation of New England Antiquities. They are happy with the property and inspect it regularly. This year we have repaired several things to preserve this unique historic treasure. Windows in both the carriage house and the attic and summerhouse have been repaired and interior painting of the woodwork and plumbing work have been completed. The downspouts and gutter were repaired as have some sills and a door.
These repairs are paid for from a fund established by the Jacob Family.

The Stetson/ Ford House:
The lease for this property will come up for renewal next year and an increase in rent may be applied. The property needs repair and this will be seen to in the coming year.

Members:
David DeGhetto has joined the Commission and is proving to be a great asset.
The Commission would like to commend David on the effort and time that he has spent on the
restoration of the Civil War Monument project.

Master Plan:
The Commission continues to be involved with the planners and offers them their continued cooperation.

As always the members of the Commission are grateful for the assistance and cooperation of the Highway Department, the Assessors Office, Tim FitzGerald and the Ladies of the Selectman's Office. We would also like to thank James Boudreau for his interest and advice,
the Historical Society for their every ready support and assistance and last but not least

Robert Babcock and Pam Bower- Basso for so faithfully performing their duties as protectors
of Norwell's historic treasures.

As your representatives and agents of this community, we continue to ask for your support, as we fight to preserve and protect our historic heritage for future generations.
The lost of antiquities is permanent. We, as a town, are losing them at an alarming rate.
Join with us in our continuing effort to preserve the uniqueness of our Town.

REPORT OF THE PLANNING BOARD

The Planning Board held 37 meetings during 2005.

The Board held 27 regular meeting sessions to conduct public hearings on proposed subdivision applications, to discuss and act upon Approval Not Required plans and to discuss and make recommendations to the Board of Appeals regarding proposed site plans and comprehensive permits.

The Board held 10 special meeting sessions to develop stormwater zoning and general by-law changes; conduct site walks of land proposed for development; conduct pre-construction meetings for approved subdivisions; conduct a town-wide subdivision tour (to review construction progress at approved projects); and attend town meeting sessions.

In recent years, the bulk of the Planning Board's review time, both for subdivision and site plan review projects, has been spent on the topic of stormwater drainage, to make sure that each project controls stormwater runoff on site and does not create safety hazards. The most obvious hazard from uncontrolled stormwater runoff is flooding of adjacent land and ways, both of which can cause property damage and threaten public safety, especially from uncontrolled stormwater flow that causes icing of streets during winter conditions.

A less obvious hazard from uncontrolled stormwater runoff is pollution from the untreated discharge of stormwater-related contaminants. Stormwater runoff can include bacterial agents, heavy metals, herbicides, landfill leachate, nitrates, oil and petroleum based pollutants, pesticides, sediment, septic system leachate and toxins. Subdivision construction activities, including any disturbance of topsoil, produce large volumes of sediment that can be moved by stormwater. According to the EPA, stormwater runoff from a one-acre construction site can discharge as much as 20 to 150 tons of sediment in one year if not properly managed. In addition, stormwater runoff can discharge sediments into water resources and adversely impact water supplies in the following ways:

1. It reduces a reservoir's storage capacity (by filling it with sediment);
2. It reduces a reservoir's infiltration capacity (when the bottom of a reservoir is clogged with sediment, its ability to receive water from its watershed is reduced);
3. It reduces well yield capacity (when a river bottom is clogged with sediment, its ability to allow water exchange to wells is impaired);
4. It damages water treatment equipment (via corrosive materials);
5. It increases algae blooms and phosphate and nitrate levels (and this leads directly to increased drinking water treatment costs);
6. It impairs water quality by moving sediment contaminated with salt and toxins into the water supply.

There are many other harmful impacts from sediment moving in uncontrolled stormwater, including increased flooding due to reductions in the storage capacity of wetlands (causing property damage and danger to the public) and impairment and destruction of wildlife habitat.

As a result of all of the above, the Planning Board spends a great deal of time reviewing the proposed drainage system design for each proposed subdivision and site plan project.

I. SUBDIVISION PUBLIC HEARINGS.

During the subdivision review process, the Planning Board holds a public hearing (which can begin and finish at one meeting or may be continued, at the applicant's election, over a longer period of time) to determine if the proposed project satisfies the Board's subdivision regulations. If a project satisfies all of the Board's regulations, then state law requires that the Board "shall approve" the project. The Board's regulations are designed to require a project to provide safe access to all of the proposed lots, comply with applicable zoning requirements and make adequate provision for water, sewerage, drainage, underground utility services, street lighting and other basic services.

During 2005, the Planning Board conducted public hearings for the ten definitive subdivision projects listed below and collected $19,400 in application fees for this activity.

BARREL LANE (Off Circuit Street) **Under Review 2/06**
15 lots on 16 acres of upland

This project proposes 15 new subdivision lots on 28.3 acres (16 acres of upland), with 1 surface drainage basin and 1 dead-end street with linear 1,180 feet.

On April 5, 2004, the Applicant applied for preliminary subdivision approval. On May 5, 2004, preliminary approval was granted.

On November 10, 2004, the Applicant applied for definitive subdivision approval. The public hearing began on January 5, 2005 and was continued, at the Applicant's request, to March 2, 2005, April 13, 2005, June 8, 2005, June 22, 2005, August 17, 2005, October 12, 2005, December 7, 2005 and March 15, 2006, to allow the Applicant time to revise the plans to address drainage and other issues.

As of February 2006, six plan set iterations had been presented to the Board and a seventh iteration is planned for the March 15, 2006 continuation of the public hearing.

COWINGS LANE (Off Summer Street) Approved 2/15/06
7 Lots on 19.1 acres of upland

This project proposes 7 subdivision lots (6 new lots and 1 reconfigured lot to serve an existing dwelling), on 20.9 acres of land (19.1 acres of upland), with a dead-end roadway of 653 feet and 1 surface stormwater drainage basin. The project proposes a 10.8-acre conservation/drainage parcel, which would directly abut South Swamp.

On August 17, 2005, the Applicant applied for definitive subdivision approval. The public hearing opened on September 21, 2005 and was continued, at the Applicant's request, to November 9, 2005, November 21, 2005, January 4, 2006 and February 1, 2006, to allow the Applicant time to

JOHN NEIL DRIVE EXTENSION (Off John Neil Drive) Denied 3/31/05
4 Lots on 4.12 acres of upland

This project proposed 4 residential lots (3 new lots and 1 reconfigured lot to serve an existing dwelling) on 6.85 acres of land (4.12 acres of upland), with 1 surface drainage basin and 1 dead-end street with 776 linear feet.

The public hearing began on April 7, 2003 and was continued, at the Applicants' request, on April 28, 2003, June 30, 2003, September 8, 2003, November 24, 2003, January 26, 2004, March 8, 2004, April 26, 2004, May 24, 2004, June 21, 2004, September 1, 2004, September 8, 2004, September 15, 2004, September 29, 2004, November 22, 2004 and March 2, 2005, to allow the Applicants time to revise the plans to address drainage and other issues. Five plan set iterations were presented to the Board.

The public hearing closed on March 2, 2005. The project was denied on March 31, 2005. revise the definitive plans and obtain a sight distance easement. Four plan set iterations were presented to the Board.

The public hearing closed on February 1, 2006. The project was approved on February 15, 2006.

HENRY'S LANE (f/k/a Joshua's Landing) Approved 11/10/05
(Off Norwell Avenue)
8 lots on 14.3 acres of upland

This project creates 8 residential lots (6 new lots and 2 reconfigured lots to support 2 existing dwellings) on 19.4 acres of land (14.3 acres of upland). It will create 3 surface drainage basins and 1 dead-end street with 850 linear feet.

On April 5, 2004, the Applicant applied for preliminary subdivision approval for this project. On May 5, 2004, the Board issued the preliminary approval.

On November 10, 2004, the Applicant applied for definitive subdivision approval. The hearing began on January 5, 2005 and was continued, at the Applicant's request, to January 19, 2005, March 30, 2005, July 6, 2005, September 14, 2005, October 12, 2005, to allow the Applicant time to revise the plans to address drainage and other issues. Five plan set iterations were presented to the Board.

The public hearing closed on October 12, 2005. The project was approved on November 10, 2005.

TAYLOR'S WAY (Off Parker Street) **Denied 3/24/05**
3 lots on 3.1 acres of upland

This project proposed 3 residential lots on 11.8 acres (3.1 acres of upland), with 1 subsurface drainage structure and 1 dead-end street with 215 linear feet.

On April 5, 2004, the Applicant applied for preliminary subdivision approval. The preliminary approval was issued on May 5, 2004.

On October 27, 2004, the Applicant applied for definitive approval. The public hearing began on December 22, 2004 and was continued, at the Applicant's request, to February 16, 2005 and March 16, 2005, to allow the Applicant time to revise the plans to address drainage issues. No revisions to the original plan set were presented to the Board.

The public hearing closed on March 16, 2005. The project was denied on March 24, 2005.

TRUNNEL SUBDIVISION MODIFICATION **Approved 4/28/05**
No new lots

This project modified the September 17, 2003 subdivision approval for Trunnel Estates to allow a residential parcel at 944 Main Street to construct a driveway with access to Trunnel Lane and close the existing curb cut on Main Street. The public hearing opened and closed on April 27, 2005. A decision approving the project was filed with the Town Clerk's office on April 28, 2005.

TURNER'S WAY SUBDIVISION MODIFICATION **Approved 4/14/05**
6 Lots on 8.2 acres of upland

This project creates 6 residential lots on 32.7 acres (8.2 acres of upland), at the end of Turner's Way, by dividing an existing lot into 5 new lots and 1 reconfigured lot to support an existing dwelling. The project requires no drainage basin to support it and reduced the previously approved dead-end street length of Turner's Way from 1506 to 1448 linear feet.

On October 13, 2004, the Applicant applied for modification of the approvals granted for the land during the 1980's. On December 22, 2004, the public hearing opened and was continued, at the Applicant's request, to February 2, 2005, March 16, 2005 and March 30, 2005, to allow time to revise the plans. Four plan set iterations were presented to the Planning Board.

The public hearing closed on March 30, 2005. The project was approved on April 14, 2005.

WILDCAT HILL (Off Wildcat Lane) **Approved 10/27/05**
44 lots on 49 acres of upland

This project creates 44 residential lots on 72 acres (49 acres of upland). The project includes 4 surface drainage basins and 1 private wastewater treatment plant. The roadway system consists of 1 looped roadway with 4,244 linear feet and 1 dead-end street with 424 linear feet. On April 5, 2004, the Applicant applied for preliminary subdivision approval. The preliminary approval was issued on May 5, 2004.

On October 13, 2004, the Applicant applied for definitive subdivision approval. The public hearing opened on November 22, 2005 and, at the Applicant's request, was continued on December 22, 2004, January 19, 2005 and February 16, 2005, May 11, 2005, May 25, 2005, June 22, 2005, July 6, 2005, July 20, 2005 and September 14, 2005, to allow the Applicant time to revise the plans to include a wastewater treatment plant and change the roadway entrance configuration and address drainage issues. Five plan set iterations were presented to the Planning Board.

The public hearing closed on September 14, 2005. The project was approved on October 27, 2005.

WINSLOW COMMONS I (Off Tiffany Hill Road) **Withdrawn 8/17/05**
6 Lots on 9.8 acres of upland

This project proposed 6 residential lots on 16.6 acres of land (9.8 acres of upland), with 2 surface drainage basins and 1 dead-end street with 1,114 linear feet.

On April 5, 2004, the Applicant applied for preliminary subdivision approval. The preliminary approval was issued on May 5, 2004.

On November 10, 2004, the Applicant applied for definitive subdivision approval. The public hearing opened on January 5, 2005 and was continued, at the Applicant's request, to March 16, 2005, May 25, 2005, August 3, 2005 and August 17, 2005, to allow the Applicant time to revise the plans to address drainage and other concerns. No revisions to the original plan set were submitted or presented to the Board.

On August 17, 2005 the Applicant voluntarily withdrew the application.

WINSLOW COMMONS II (Off Tiffany Hill Road) **Under Review 2/06**
9 Lots on 12.23 acres of upland

This project proposes 9 residential lots on 18.2 acres of land (12.23 acres of upland), with 2 surface drainage basins and 1 dead-end street with 1,215 linear feet.

On November 9, 2005, the Applicant applied for definitive subdivision approval. The public hearing opened on December 21, 2005 and, at the Applicant's request, was continued to April 26, 2006, to allow the Applicant time to revise the plans to address drainage and other issues.

II. Subdivision Surety and Construction Oversight

During 2005, the Planning Board provided surety and construction oversight for the following subdivision projects.

Under the Subdivision Control Law, G.L.c.41, §81U, ¶7, the Planning Board is required to impose surety to help ensure completion of the construction of a subdivision project, should it actually begin. At the developer's election, the surety may be money-based or in the form of a restrictive covenant prohibiting the individual sale of or construction on the approved lots. The Town currently is holding approximately $2.2 million in money-based surety.

The projects noted below are in various stages of construction. Combined, the projects consist of over 100 residential lots, 25 drainage basins and over 10,000 linear feet of roadway.

No fees were collected for this activity.

BATES LANE (f/k/a Prairie Farm) (Off High Street) **Approved 3/29/02**
3 lots

This project created 4 residential lots (2 new lots and 2 reconfigured lots to support 2 existing dwellings). The project includes 1 surface drainage basin and 1 dead-end street (Bates Lane) with 400 linear feet. The Applicant posted surety and the plans were endorsed on September 9, 2002. The Town holds $14,650 in surety.

During 2003, the roadway was paved to binder. During 2005, the project received construction and surety-related inspections.

BIRCHWOOD (Off Grove Street) **Approved 6/8/01**
11 lots on 16 acres of upland

This project, approved on June 8, 2001, created 11 residential lots on 18 acres (16 acres of upland). The project includes 3 surface drainage basins and 2 roadways: 1 dead-end street with 1,160 linear feet (Birchwood) and 1 dead-end street with 480 linear feet (Fieldstone). The Applicant posted surety and the plan was endorsed on August 6, 2001.

All lots have been released from the subdivision covenant. The Town holds $87,600 in money-based surety.

BRATTLE STREET (f/k/a Bramblewoods)(Off Grove St) **Approved 2/25/99**
5 lots

This project created 5 residential lots (4 new lots and 1 reconfigured lot to support an existing dwelling). The project includes 1 surface drainage basin and 1 dead-end street (Brattle Street) with 750 linear feet. The Applicant posted surety and the plans were endorsed in May 1999. All lots have been released from the subdivision covenant. The Town holds $70,000 in surety.

During 2005, the Applicant received surety-related inspections and reviews.

CLAPP BROOK ROAD (f/k/a Black Pond Estates) **Approved 1/28/99**
(Off Central Street)
5 lots

This project created 5 residential lots on 17 acres of land, with 7.2 acres of upland. The project includes 1 dead-end street with 760 linear feet and 2 surface drainage basins. The Applicant posted surety and the plans were endorsed on November 1, 1999. All lots have been released from the subdivision covenant. The Town holds $15,000 in surety.

During 2005, the Applicant requested and received surety-related inspections.

CEDAR POINT SUBDIVISION MODIFICATION **Approved 10/7/03**
15 lots/Modification to one parcel

This project modified the 1970 approval of a 15-lot subdivision by amending the roadway improvements required for Cedar Point Lane for development of the final lot in the project. The public hearing opened on September 8, 2003 and continued, at the Applicant's request, on September 15, 2003 and was closed. The project was approved on October 7, 2003. The Applicant

posted surety and the approved plans were endorsed on November 17, 2003. On December 4, 2003, a pre-construction meeting took place.

During 2005, all required roadway improvements were finished and construction and surety-related inspections and reviews were provided. All surety was released. On November 9, 2005, the Board returned the balance of the review fee escrow funds to the Applicant.

EDGEWOOD PARK (Off Loring Drive) **Approved 6/5/97**
9 lots

This project created 9 residential lots on 16 acres, with an unspecified amount of upland. It includes 3 surface drainage basins and 1 dead-end street with 1550 linear feet. The Applicant posted surety and the plans were endorsed on February 9, 1998. The road is paved. Two house lots remain to be developed. During 2005, the final lots were released from the subdivision covenant. The Town holds $37,000 in surety.

During 2005, the Applicant requested and received surety-related inspections.

FOREST RIDGE (Off Summer Street) **Approved 5/23/02**
7 lots on 8.6 acres of upland

This project created 7 residential lots on 9.1 acres, with 8.6 acres of upland. It includes 1 surface drainage basin and 1 dead-end street with 500 linear feet. The Applicant posted surety and the plans were endorsed on September 23, 2002. Two of the lots are located on Summer Street and have been built upon.

On November 19, 2004, at the Applicant's request, a preconstruction meeting was held. Construction began in the Spring of 2005 and the Applicant requested and received surety-related inspections during 2005. The roadway has been roughed in, but none of the five houses, which will front on the roadway have been built. The five lots are subject to the subdivision covenant.

HAWTHORNE PARK (Off Grove Street) **Approved 3/16/00**
10 lots on 13.7 acres of upland

This project created 10 residential lots on 21.4 acres, with 13.7 acres of upland. The project includes 2 surface drainage basins, 1 dead-end street (Hawthorne Lane) with 1,075 linear feet and a parcel that is to be donated to conservation. The Applicant posted surety and the plans were endorsed on April 3, 2000. The basins are constructed and the roadway is paved and all of the proposed houses have been built. All of the house lots have been released from the subdivision covenant. The Town holds $480,000 in surety.

During 2005, the Applicant sought and received further construction-related inspections.

HERITAGE ESTATES (Off River Street) **Approved 12/14/00**
3 lots on 5.8 acres of upland

This project created 3 residential lots on 8.2 acres, with 5.8 acres of upland. It includes 2 drainage basins and 1 dead-end street (Heritage Lane) with 450 linear feet. The Applicant posted surety and the plans were endorsed on January 24, 2001. The roadway is paved and all three houses have been built. The house lots have been released from the subdivision covenant. The Town holds a $54,000 surety bond.

During 2005, the project received monitoring inspections of the drainage system.

HOLLY BERRY (Off Grove Street) **Approved 4/13/04**
6 lots

This project created 6 lots (5 new lots and 1 reconfigured lot to serve an existing dwelling) and provided access for a 7th lot, eliminating a driveway curb cut on Grove Street. The Applicant posted surety and the plans were endorsed on September 1, 2004.

A pre-construction meeting was held on September 9, 2004. During the Summer and Fall of 2004, the Board held multiple meetings to review surety and endorsement issues and address the Applicant's multiple field change requests to correct construction and surveying errors. The roadway is paved and all six houses have been built and driveway access for the seventh lot has been provided. All house lots have been released from the subdivision covenant. The Town holds $35,500 in surety.

During 2005, the Applicant requested and received construction inspections. On December 22, 2005, the Applicant submitted as-built plans to the Planning Board for approval and indicated that construction was complete. The plans are under review.

MASTHEAD EXTENSION **Approved 6/21/99**
2 lots

This project created 2 residential lots, on a short extension of Masthead Drive, with 1 drainage basin. The Applicant posted surety and the project was endorsed on June 21, 1999. On March 26, 2001, an ANR Plan was endorsed, creating a third parcel. The subdivision covenant is still in place.

There was no activity regarding this project during 2005.

LAURELWOOD DRIVE (Off First Parish Road) **Approved 2/9/98**
24 lots

This project created 24 residential lots on 77 acres, with 42 acres of upland. Of the 24 lots, 2 lots are located entirely in Scituate and 6 lots are located partly in Scituate. The project includes 3 surface drainage basins and 1 dead-end street with 1329 linear feet. The Applicant posted surety and the plans were endorsed on October 29, 1998.

The roadway has been paved, but paving issues remain. Many of the proposed houses have been built. The Town holds $500,000 in surety.

During 2005, the Applicant received surety-based inspections and review.

PARSON'S WALK (Off Circuit Street) **Approved 6/16/97**
3 lots on 5.7 acres of upland

This project created 3 residential lots on 11.5 acres, with 5.7 acres of upland. The project includes 1 surface drainage basin and 1 dead-end street with 420 linear feet. The Applicant posted surety and the plans were endorsed on July 21, 1997. The roadway is paved and the houses are built. The Town holds $24,450 in surety.

During 2004, the Applicant sought surety review. The Board awaits as-built plans.

PINSON LANE (Off Parker Street) **Approved 6/25/99**
3 lots on 4.96 acres of upland

This project created 3 residential lots (2 new lots and 1 reconfigured lot to serve an existing dwelling) on 4.96 acres, all upland. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds $106,000 in surety.

During 2004, the Board reviewed the project's surety status and final release is expected to be sought in 2005.

TRUNNEL ESTATES (Off Main St.) **Approved 9/17/03**
3 lots

This project created 3 residential lots (2 new lots and 1 reconfigured lot to support an existing dwelling), on 3.4 acres of land. The project includes 1 drainage basin and 1 dead-end street with 390 linear feet. The Applicant posted surety and the plans were endorsed on February 23, 2004. A pre-construction meeting was held on May 26, 2004. The road is paved and the houses have been built. The Town holds surety in the form of a Lender's Agreement in the amount of $150,000 and a surety bond in the amount of $154,000.

During 2005, the Board held meetings to review surety issues and enforcement issues.

TRUNNEL ESTATES MODIFICATION (Off Main Street) Approved 4/28/05

This project modified the original subdivision plan to allow a lot outside of the original subdivision to connect a driveway to Trunnel Lane.

WALNUT TREE HILL ESTATES (Off Cross Street) Approved 5/27/99
5 lots

This project created 58 lots; however, only 4 lots are located entirely in Norwell and 1 is located partially in Norwell. The project includes 1 surface drainage basin, partly located in Norwell, and 1 street (Greenbriar Lane) in Norwell, with 500 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds a $400,000 surety bond.

During 2005, the project received construction inspections and review.

WILDWOOD LANE (Off Circuit Street) Approved 11/3/95
4 lots on 6.5 acres of upland

This project created 4 residential lots on 10.9 acres, with 6.5 acres of upland. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on November 27, 1995. The Town holds $71,659 in surety.

During 2005, no inspection activity was requested.

III. Approval Not Required (Form A) Plans

During 2005, the Planning Board processed 18 Approval Not Required (ANR) plan applications. An ANR plan is a proposal to create a lot that already has sufficient frontage on an existing roadway to support it. One ANR applications was denied and three were withdrawn. The Board collected $3,000 in application fees for this activity.

Wildcat Lane	4 Parcels	Endorsed
Barrel Lane	5 Parcels	Denied
Parker Street	2 Parcels	Withdrawn
180 Circuit Street	3 Parcels	Endorsed
Parker Street	2 Parcels	Withdrawn
Parker Street	2 Parcels	Endorsed
Winter Street	1 Parcel	Withdrawn
25 Stetson Shrine	2 Parcels	Endorsed
Winter Street	1 Parcel	Endorsed
691 River Street	2 Parcels	Endorsed
Grove/Brattle Streets	4 Parcels	Endorsed
Parker Street	3 Parcels	Endorsed
630 Main Street	2 Parcels	Endorsed
1081 Main Street	3 Parcels	Endorsed
Grove/Lincoln	2 Parcels	Endorsed
201 Lincoln	2 Parcels	Endorsed
533 Grove Street	3 Parcels	Endorsed
18 Stetson Shrine	2 Parcels	Endorsed

IV. ZBA Site Plan Approval - Technical Review.

The Planning Board provides technical review assistance to the Board of Appeals for site plan applications under Zoning By-law §1530. The Planning Board reviewed the site plans listed below during 2005. The Board collected no application fees for this activity.

10 Washington Street
134-136 Washington Street
400 Washington Street
Lot 54 Longwater Drive
91 Longwater Circle (Lot 75)

V. 40B Projects.

The Planning Board reviewed and commented on the project eligibility applications and comprehensive permit project listed below. The Board collected no application fees for this activity.

White Barn Lane

VI. Master Plan Development.

The Master Plan Steering Committee continued its work to complete the Town's Master Plan and the final Master Plan was forwarded to the Planning Board for review and acceptance on February 15, 2006.

VII. Zoning By-law Amendments.

During 2005, the Planning Board prepared an amendment to the Zoning By-law to allow common driveways. The amendment was adopted at the Spring 2005 Annual Town Meeting. The Board is working on stormwater drainage by-law for the Spring 2006 Annual Town Meeting.

Respectfully submitted,

Bruce W. Graham, Chairman
Karen A. Joseph, Vice Chair
Richard Parnell Barry, Clerk
James. M. Ianiri, Alternate Clerk
Sally I. Turner

COMMUNITY PRESERVATION COMMITTEE

The Town of Norwell adopted the Community Preservation Act (MGL Chapter 44B) in May of 2002. The Town's Community Preservation Committee (CPC) is charged by the Town with the implementation of the Act in Norwell. The Act's stated purposes are open space, affordable housing, preservation of historic assets, and recreation. At least 10% must be spent to the each of the first three areas.

After a few years of work, the CPC seems to be hitting its stride and seems to have found its place in Norwell's Town Government. After two successful years of chairmanship, the gavel passed from Becky Freed to Jim Ianiri in mid-2004. Mr. Ianiri's term was up on the Planning Board in 2006 and he did not seek re-election. The Board recognizes and thanks him for his service as a Planning Board member, founding member of the CPC and a year of valuable service as its chair.

During FY2005, the Town collected $559,835 in net CPA surcharges (after abatements and exemptions), in October of 2005, this was matched 100% by the state under the matching formula.

At the Annual Town Meeting in May of 2005, the Town allocated $150,000 towards Affordable Housing. This was a unique proposal to try to preserve up to 6 units of housing near High Street that were scheduled to be demolished. The developer offered the houses to the Town at no cost if we could move them to a suitable location. While we investigated several locations, one of them quite thoroughly, it now appears that the best solution for the town might be to try to keep up to 2 houses on the existing development. We are still working with the developer on this matter, and want to compliment him on his interest in working with the Town to see if a solution can be found that works for everyone. While this may or may not happen, we appreciate the opportunity.

Also, we are pleased to note that the Annual Town Meeting agreed to pay $425,000 to purchase approximately 6 acres on River Street to preserve as open space. This is an attractive piece of land on a well-traveled road that even includes a pond that can be used for ice-skating.

The Town did not elect to have a fall Town Meeting in 2005, which is historically where a number of CPC articles had been considered.

During 2005, we had one new formal citizen proposal, which involved the construction of an Education Center at Hatch Pond, which is a pond near Cole School. In addition, a group of

residents and business people are promoting the revitalization of Norwell Town Center. We continue to work with these project sponsors to bring proposals to 2006 Annual Town Meeting.

The CPC also took an interest in the two Town Landings on the North River and will be proposing an article at the 2006 Town Meeting to repair these landings.

In addition, we had continued oversight of existing articles, notably the Athletic Fields irrigation project previously voted by Town Meeting. We believe extending the deadline for their work is in the best interests of the Town. Unfortunately, it does not appear that suitable land can be found in Town for the Skateboard Park, so those funds will be returned to the Community Preservation Fund for re-deployment.

The CPC believes that a number of the projects it is interested in can be supplemented by obtaining outside grant money and will be focusing some of our efforts in the coming year on generating grant proposals to support Norwell.

The CPC meets on the 2nd and 4th Thursdays of each month at 7:30 pm in the Norwell Town Hall. All residents are invited to attend.

Respectfully submitted,
Charles Markham, Chair (Assessors)
Gregg McBride, Vice Chair (Conservation Commission)
Pat Richardson, Clerk (Recreation Commission)
Jim Ianiri (Planning Board, retired)
Joe Carty (Historical Commission)
Nancy Dooley (Housing Authority)
Becky Freed (At large)
Alison Demong (At large)
Ann Buchanan (At large)

FENCE VIEWER

I believe it was Marshall McLuhan who wrote that everyone will have his 15 minutes of fame, and I had mine last Jaunuary, when the Patriot Ledger, in a desperate effort to bolster a sagging circulation, put my picture on the front page in an article on obscure town officials, such as Clockwinders, Fence-viewers and Hay Measurers. I don't know if the paper improved its circulation, but they sure improved mine. In the next few weeks, I got calls from as far a field as Duxbury, Carver and Dedham as well as more from Norwell than is normal. This has been a banner year for sheer volume of calls. And it was a banner year because I received my first-ever "Thank-you letter" in the 20 years on the job! Because two neighbors came to an understanding and appreciation of each other. I must report that another pair of neighbors, despite my efforts, wound up further from agreement and united only in their bad opinion of your Fence-viewer. You could not Pay me enough to undertake work like this with results like that! So I do it for nothing.

The Fence of the Year is at 120 Grove Street. Clean, white and of a well proportioned three rail design, it was selected for its thoughtful placing, well back from the roadside where it will not interfere with the driver's view around that curve on Grove.

Respectfully,
Arthur Garceau

BOARD OF ASSESSORS

The Board reports the following value of taxable property established as of January 1, 2005. (Fiscal Year 2006).

CLASS	VALUE	%
Residential	$2,007,659,627	85.8958%
Commercial	$ 246,452,973	10.5443%
Industrial	$ 56,045,200	2.3978%
Personal	$ 27,162,290	1.1621%
Total	$2,337,320,090	100.00%

In October of 2005 the office completed the triennial Certification required by the state. The sales of calendar year 2004 were analyzed by style, age, sales price, sales quartile, location, grade and date of sale. The Residential portion of this was done by the office staff and the Board resulting in a savings to the Town. The commercial properties were reviewed and revalued by our appraisal vendor, Vision Appraisal Technology.

The office saw an increase in resident inquiries about their assessment and the parameters of Proposition 2 ½. Proposition 2 ½ places constraints on the amount of taxes which the town can levy and on how much the tax levy can be increased from year to year. It provides the Town with annual increases in its tax levy of 2 ½ percent and an additional amount based on the valuation of certain new construction and other allowable growth in the tax base. In addition to new growth, any debt exclusion and overrides are added to the 2 ½ figure. With proposition 2 ½ , a minimum of 2 ½ percent increase in the Town's total tax levy can be expected each year. When the people vote additional spending at Town meeting beyond the 2 ½ percent this results in a larger increase in taxes.

As stated, Proposition 2 ½ relates to the amount to be appropriated. It does not however, relate to individual property assessments. The assessment of residential properties is based on the analysis of sales for comparable properties plus the increase in value of specific properties, which resulted from property improvements. For instance, if a person added a garage or an additional room the value of the property and, the assessed value would also increase. When the market increases, the Assessors are required by Law to adjust the assessed values accordingly. In adjusting assessed values the Assessor's do not create value. People create value by their transactions in the marketplace.

The Assessors' office had a reduction of a staff member due to the Budget cuts as of July 1, 2005. The elimination of this position has had a significant impact on the office with the ever- increasing work-load and lack of coverage for vacations and sick leave. Consequently, this has resulted in the office being closed occasionally during the current year and this will be the case in the future. The Office staff tries to keep closings to a minimum.

The Office is continuing the cyclical nine-year inspection program, which is mandated by the Department of Revenue. The program was carried out in house this year by staff members. In the upcoming year the Board will utilize the senior work program to accomplish this task. Many of our seniors have assisted in other departments and we are grateful to retain their service in the Assessor's Office.

In closing, the Board would like to thank our Office Staff of Barbara Gingras and Maureen Clarke. Their hard work and dedication makes the office run smoothly for our residents.

Respectfully submitted,
Rosemary Durica, Chairman
Charles Markham
Edward Dunford, Clerk

CAPITAL BUDGET COMMITTEE

We reorganized for 2006 as follows:

Chairman	Robert W Bordewieck
Vice Chairman	Chet Flynn
Secretary	Jerry Reynolds
Members	Ken Hogeland
	Karen Jacobs
	John Kennedy
	Peter Shea

This coming fiscal year we have department requests for capital items totaling around 1.2 million dollars. These are all items of over 5000 dollars with a life expectancy of over 3 years.
Capital budget items have been cut drastically in recent years and we have reached a point where continued postponement cannot be tolerated.

Our fire department breathing units are 15 years old and next February they are officially obsolete. Our tree and grounds department is using an unsafe, patched up, 16 year old mower and our highway department is using a 20 year old truck that will not pass inspection again. Our library is in need of new technology improvements in 2 areas. Our town hall boiler is leaking steam into the firebox. The paint on the outside of the Osborne room is peeling badly and the ceiling is stained from recent roof leaks.

We do not usually cover automobiles for police and fire departments as they do not last 3 years according to our experience. We do not cover computers as they are obsolete in under 3 years.

We have to use our non-recurring funds from overlay, free cash and stabilization to pay for these needs. General funds are used for maintenance and recurring expenses but capital items should be paid from non-recurring funds whenever they are available.

Respectfully Submitted
Robert W. Bordewieck, Chairman

REPORT OF THE BOARD OF SELECTMEN

The function of the Board of Selectmen is to act as the town's chief executive officers. The Board, through its Town Administrator, Jim Boudreau, oversees the day to day administration of the town and its staff. The Board is composed of three members who are elected for three year terms. The Selectmen issue the warrants for Town Meeting and make recommendations on the warrant articles; initiate legislative policy by creating and accepting articles in Town Meeting warrants and implementing the votes subsequently adopted by Town Meeting. The Board is responsible for town policies and is responsible for reviewing and setting the fiscal guidelines for the annual operating budget and capital improvements program and make recommendations, along with the Advisory Board and Capital Budget Committee to Town Meeting.

In addition, the Board is responsible for the appointment of most official boards and commissions; holding public hearings on important town issues and working with other towns and state agencies on issues that affect the citizens of Norwell.

The Selectmen also serve as the licensing board responsible for issuing and renewing licenses in more than 20 categories, including common victualler, food vendor, liquor, lodging house, inflammables, special events and entertainment.

In 2006, John Mariano was re-elected to his third three-year term on the Board and was elected by the Board to be its Chairman. The Board elected as Don Mauch its Vice-Chairman and elected Rick Merritt as its Clerk.

In 2006, the Board of Selectmen voted to allow the citizens of Norwell to exercise their democratic right to determine their future by placing an override of Proposition 2 ½ before Town Meeting held on Monday, May 8, 2006 and subsequently before the voters at a special town election held on Saturday May 20, 2006. The Selectmen chose to place three tiers before the voters. The first tier maintained level services. The second and third tiers restored services lost through previous budget cuts.

Although Town Meeting approved all three tiers, the voters at the ballot box passed the first tier only. When Town Meeting reconvened the following Monday, it authorized the budget for tier one.

The Board of Selectmen continually grapples with the issue of balancing the needs of the residents of the town in an environment of declining state aid and an increase in state mandates. The town, like its residents, faces increasing health care costs and increasing fuel costs. The job of balancing the needs of the town with the funds available is a daunting task and the Board of Selectmen takes that responsibility as paramount. Ultimately, it is the voters that decide.

The Board thanks the Town Administrator Jim Boudreau and his assistant Lynda Allen for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions. The Board especially thanks those who give selflessly of the time, talents and energy to make Norwell a great place to live.

Respectfully submitted,
John G. Mariano
Chairman
Norwell Board of Selectmen

REPORT OF THE TOWN ADMINISTRATOR

2006 turned out to be once again a busy and most challenging year in the Office of the Board of Selectmen and Town Administrator. The full impacts' of the state's continuing fiscal crisis had a major impact on the Town. Through it all, the staff continues to discharge the policies and directives of the Board of Selectmen, Town Meeting and the Town of Norwell By-laws.

For the fifth time in as many years, the incumbent member of the Board of Selectmen was re-elected to the Board. John Mariano was re-elected to his third three-year term on the Board. John brings an invaluable set of knowledge and insight to the Board and his intimate knowledge of the Town budget brought about by his years as an Advisory Board member will be invaluable in the years ahead.

The Annual Town Meeting convened on May 8, 2006 to consider 46 Articles and an annual budget more than $30 million. The difference at this Town Meeting is that the budget recommended by the Advisory Board and the Selectmen called for a three tiered override to fund continuing operations and expansions in Town services. The first tier would maintain Town services at their current levels came in at $840,953. Tiers Two and Three would restore all services in Tier One, and, in addition, would restore services to pre-Fiscal Year 2002 levels when state budget cuts began to erode the Town financial position. These tiers were $1,534,550 and $1,950,409 respectively. Once again Town Meeting members did an excellent job of preparing for Town Meeting and the budget. The budget, probably the most complicated budget ever presented to Town Meeting, passed after much debate and controversy with all three tiers being approved by Town Meeting. Advisory Board did an outstanding job of presenting the budget to Town Meeting after working closely with all of the Town Departments, Boards, Committees and Commissions to prioritize the spending. On May 20, 2006, the override went to the voters. The $840,953 Tier 1 passed, while Tiers 2 and 3 failed at the ballot box. Town meeting reconvened the following Monday evening and formalized the spending authorized by the passed override, thereby setting the Fiscal Year 2007 budgets.

Town Hall continues to bustle in 2006 as new groups and activities take advantage of the facilities. Along with the normal business of the Town, Town Hall continues to play host to the popular Middle School dances, the Norwell food pantry, Boy and Girl Scout meetings and a yoga class. This activity is on top of the numerous Boards, Committees and Commissions that use the Town Hall for their meetings. It is a rare week when there is a night that someone is not meeting in the Town Hall. The task of keeping the building clean and running falls to our capable and dedicated custodian staff of William Gunderway and Bryan Melanson, who keep the building sparkling clean and cheerful in spite of the more than 80 hours per week of use. Without their efforts the building would not be able to be as available as it is.

Thanks once again go out to our dedicated cable television broadcast team of Rollin Bailey, Ray Henderson and Ed Henderson. Each week they take time out of their lives to set up the cable equipment and televise the Selectmen's meeting to the Town. Without them this vitally important conduit to the public would be closed.

No office can run without hard-working and dedicated employees. The Board is fortunate to have the services of Assistant to Town Administrator Lynda Allen. Lynda has taken on a tremendous amount of additional responsibility with the elimination of the Assistant Town Administrator's position. She makes every thing work on a daily basis and provides invaluable assistant to anyone and everyone who requests it. I am eternally grateful for her hard work and dedication.

Finally, I would be remiss if I did not thank the Board of Selectmen for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions who make this Town what it is.

Respectfully submitted,
James M. Boudreau
Town Administrator

REPORT OF TOWN COUNSEL

I am pleased to submit this annual report to the residents of the Town of Norwell and to the officials who volunteer, are appointed or elected serve on Norwell various boards, commissions and departments.

The Office of Norwell Town Counsel is staffed by myself and associate Town Counsel Robert W. Galvin. It's my express objective each year to provide the Town of Norwell, its boards, commissions and officials the highest quality municipal legal advice in a cost-effective manner.

As I have said repeatedly over the years, the most important facet of efficient municipal government is the experience and dedication of the administration, boards and commissions and their staffs. Norwell has a wealth of well-educated and seasoned administrators, officials and employees, which allows it to perform more efficiently than all of its counterparts and at a lower cost than all of its abutting communities. I am very grateful for the assistance we receive on nearly daily basis from Norwell's administration, boards, commissions and departments.

In 2006, the largest part of Town's legal expense was incurred dealing with two proposed projects known colloquially as "40B" projects. Two cases were tried to a conclusion at the Massachusetts Housing Appeals Committee, the quasi-judicial agency which considers disputes involving 40B project. Both cases are pending a decision from the Committee at the time of the writing of this report. The Town of Norwell examines carefully all projects proposed as 40B projects to ensure that local health, safety and welfare concerns are appropriately considered and addressed.

In addition to land use litigation, in 2006, I was been asked to render advisory opinions and respond to inquiries on a variety of other municipal issues including historical commission issues, wetland regulations, subdivision control law, property rights, open meeting issues, ethics, and other municipal issues. I am also called to draft, review and approve municipal contracts and have done so on many occasions during 2006.

In 2007, the Town can expect that some past litigation which has resulted in appeals will be heard and considered in the Appeals Court of Massachusetts and also in the Supreme Judicial Court.

I wish to conclude by thanking the various town officials, boards, commissions and departments for their support and cooperation. It is a privilege to be of assistance with your legal matters.

Respectfully Submitted,
Robert E. Galvin, Town Counsel
Robert W. Galvin, Asst. Town Counsel

REPORT OF THE INSPECTOR OF BUILDINGS/ZONING OFFICER

The Inspections Department continued to be very busy with a variety of new projects and renovations throughout the town. A new building code will be implemented in 2007 and the department is preparing for the changes it will bring. The department is anticipating an increase in new housing starts in 2007/2008 as a group of projects complete the planning stages and are released by the Planning Board. Several 40-B projects will continue and possibly start this year. We give special thanks to the retired citizens that contribute their time doing work in our office in exchange for tax benefits. Their experience is invaluable and allows the department to continue with timely and complete customer service.

PLUMBING AND GAS DEPARTMENT

There were 212 Plumbing Permits, 156 Gas Permits and 25 Hot Water Heater Permits issued in 2006 with the required rough and final inspections made for each.
Inspections are done on a per need basis.

Edward J. Geswell, Plumbing & Gas Inspector
John E. Hoadley, Alternate

WIRING INSPECTOR

The Office of the Inspector of Wires processed in excess of 500 electrical permits for the calendar year 2006. Requests for inspection included but were not limited to new construction, renovations, and additions, service installations, appliance upgrades, fire and security alarms, voice data and video, swimming pools, septic systems, and standby generators. There were three installations of interactive photo-voltaic systems accounting for approximately 9 Kilo Watts of green power. The Office of the Inspector of Wires also responded to several emergency requests from the Town of Norwell's Police and Fire Departments.

The Electrical Inspector and his Alternate wish to thank the entire Building Department as well as the other offices throughout the Town of Norwell for their continued assistance throughout this calendar year.

Respectfully submitted;
Charles J. Palmieri, Inspector of Wires
John Lunn, Alternate Inspector of Wires

BOARD OF APPEALS

During calendar year 2006, the Board scheduled public hearings on twenty-four meeting nights to review and act upon forty-six (46) new applications and to close three others filed in 2005.

Appeal of Action by Building Inspector	1
Site Plan/Special Permit	4
Site Plan modification	2
Special Permit – In-law	1
Special Permit – Nonconforming lots	28
Special Permit – Business Dist. C	1
Special Permit – Dock	1
Variance (1 denied and 1 withdrawn)	2
Sign Variance	6

The Board of Appeals continues to fulfill its role as the permit-granting authority under M.G.L. c. 40B, the so-called "anti-snob zoning" law. This law affords a developer the opportunity to bypass many of the Town's zoning and planning regulations by increasing density over that normally allowed in exchange for 25% affordable housing units within a proposed project.

There were eight scheduled meetings for the continued public hearing on the Comprehensive Permit (40B) application of the proposed Damon Farm project located at Queen Anne's Corner, where twenty-four ownership units are proposed in Norwell with eight in Hingham. The application for this project, filed early in 2005, is still under review.

Progress on the 239 Washington Street 40B project again stalled in early June when the proponent filed suit a second time against the Town with the Housing Appeals Committee. At the close of 2006, this matter remains open with no further work anticipated on site until the legal issues are resolved.

The Board reached a favorable settlement with the South Street *Silver Brook* 40B project proponents several months ago. The Board expects to have no further involvement with this file after the agreement is signed at long last early in 2007.

The Tiffany Road Comprehensive Permit remains under appeal at the Housing Appeals Committee.

Although the Board issued a Comprehensive Permit for the Summer Street project almost two years ago, no work can commence unless a Scituate land dispute is resolved.

The Board's application filing fees totaled some $9,600. during 2006, which were added directly to the Town's general funds to help off-set application review costs. Application Review Fees have not increased since 2002.

The Board voted on March 22, 2006, to amend its Rules and Regulations to include Stormwater Management requirements for Site Plan Review and Comprehensive Permit applications. These additional requirements provide developers with specific compliance information and were written to address EPA/DEP Phase II Stormwater Management regulations.

Residents will find the latest version of the Town's zoning bylaw, the Board's Rules and Regulations, public hearing application forms, and filing fee schedule at *www.townofnorwell.net*, the official Town website on the Board's webpages. Meeting agenda, recent decisions of the Board, and other pertinent information are also regularly updated and posted on line. Paper copies of all application forms, as well as the Board's Rules, are available from the Building Office, while copies of the Zoning Bylaw in both paper and electronic format are available for purchase at the Town Clerk's office.

The Board wishes to acknowledge with gratitude the extra time and effort volunteered over the past several months by Ralph Rivkind, serving as an *ex officio* member of the Bylaw Review Committee, which plans to make its recommendation at the 2007 Annual Town Meeting for proposed changes to Section 1642 of the Norwell Zoning Bylaw, pertaining to nonconformity.

Our continuing thanks and appreciation are also extended to Joanne LaRoche for her diligence and good cheer in meeting both her zoning and building office responsibilities. Thanks also to the Building Inspector, Tim FitzGerald, who works closely with the Board on many applications.

The Board of Appeals wishes to acknowledge the cooperation and support provided by all Town Boards, Commissions, and Departments during the past year, especially that of the Board of Selectmen and the Town Administrator. It is an honor to serve our Town and its residents.

Respectfully submitted,
Lois S. Barbour, Chair
Philip Y. Brown, Vice Chair
Michael E. Kiernan, Clerk, Alternate Member
Ralph J. Rivkind, Alternate Member
David Lee. Turner

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

This is an update of work done from January 2006 through December 2006.

Tests of all gas station motor fuel and diesel fuel dispensers in Norwell have been completed [98 dispensers]. Dispensers were adjusted as needed and sealed.

Testing of scales, apothecary, delicatessen, coffee shop, food shop, supermarket, propane tanks, school equipment [104 units] was completed. Testing of reverse vending and scanners was completed and sealed as necessary.

Total revenue received $2655.00.

All town owned sealer equipment has been tested and sealed by the Commonwealth of Massachusetts Weights and Measures Laboratory and found to be correct.

Massachusetts State Division of Sealer Certification credits have been completed. Monthly classes continue to keep all sealers up to date with the latest changes and requirements as mandated by the state.

The annual report, as required by state law, will be filed before January 31, 2007. A copy of this report will be on file at the town hall.

The Commonwealth of Massachusetts General Law Chapter 98 sections 41 and 42, covering annual public notice to all persons having or using weighing or measuring devices in Norwell, has been legally posted. Respectfully submitted,

Harold Tuttle
Sealer of Weights and Measures

TOWN OF NORWELL

WARRANT

Special Town Meeting and Annual Town Meeting

Monday, May 8, 2006

At 7:30 o'clock in the evening at Norwell Middle School
Henry E. Goldman Gymnasium

Plymouth, ss

To one of the Constables of the Town of Norwell, in said County of Plymouth, Commonwealth of Massachusetts.

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Norwell, qualified to vote in elections and Town affairs to meet at the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street, in said Norwell, on Monday, the eight day of May, 2006 at 7:30 p.m.; then and there to act upon the enclosed articles, to wit:

In case all articles in the foregoing Warrant shall not be acted upon at the Meeting called for on Monday, May 8, 2006, to meet in Adjourned Sessions at such time and place as the meeting shall determine.

This building is accessible to the handicapped and designated parking is provided. If requested, at least one week before the meeting, warrants with large print can be available. Anyone requiring a Sign Language Interpreter should call the Town Clerk's office at least two weeks before the Special Town Meeting at 781-659-8072.

Town of Norwell
Report of the Advisory Board
April 8, 2006

To The Citizens of Norwell:

On Monday, May 8, 2006, at 7:30 pm, the Town will hold its Annual Town Meeting, preceded by a Special Town Meeting, at the Norwell Middle School. Your attendance is encouraged and appreciated as the Town again has fiscal challenges this year that require the Town to make some important decisions on the Fiscal Year 2007 budget, and our future.

Since January, the Advisory Board has held hearings and meetings to discuss the entire Town Budget and all of the Articles presented in this Town Meeting Warrant. We have developed our recommendations included in this Warrant based on the testimony and discussion at those meetings, available funding, and the overall priorities of the Town.

The impact of several years of decreasing state aid combined with increasing employee health insurance, pensions and energy costs, have again created a need to propose an override of Proposition 2 ½ to operate the Town effectively. In past years, we have used money from the Town's Overlay Surplus and Free Cash to help balance the budget and lessen the magnitude of these costly items. As we did last year, we will recommend the use of a portion of the stabilization fund to lower the tax rate impact of the school construction borrowing as promised at previous Town Meetings.

This Town Meeting Warrant does not include a separate "Proposition 2 ½ Override Article". There are four (4) options for the budget Article this year. The Advisory Board voted on each option separately and the results are detailed below. The budget the Advisory Board prepared and recommended in Article 2, requires an override. The Advisory Board voted to recommend a maximum supplemental budget override of $1,534,550 to fund the school and operating budgets for Fiscal Year 2007. Specifics of the override, such as impact on taxes and specific budget line items are contained in the Warrant. Additionally, the Townspeople will be asked to consider an override ballot question at an election on Saturday, May 20, 2006.

Proposed FY 07 Budget	*Advisory Board Vote*	*Action*
No Override	9-0 *(Unanimous)*	Not Recommended
$840,953 Override	9-0 *(Unanimous)*	Recommended
$1,534,550 Override	5-4	Recommended
$1,950,409 Override	9-0 *(Unanimous)*	Not Recommended

There are several factors that influence the tax bill for an individual taxpayer of Norwell, including the valuation of their property and the impact of Proposition 2 ½, and its provisions. However, to assist citizens to understand the projected impact of the balanced "no override" budget, the budget based on the $840,953, $1,534,550 and the $1,950,409 overrides, presented below is the effects on the various property valuations:

	Impact Based on NO Override	*Impact Based on $840,953 Override*	*Net Impact of $840,953 Alone*	*Impact Based on $1.534m Override*	*Net Impact of $1.534m Alone*	*Impact Based on $1.950m Override*	*Net Impact of $1.950m Alone*
Projected Tax Rate	**$11.04**	**$11.40**	**$0.36**	**$11.70**	**$0.66**	**$11.88**	**$0.83**
Projected Tax Increase	**$0.11**	**$0.47**	**$0.36**	**$0.77**	**$0.66**	**$0.95**	**$0.83**
Projected % Increase in Tax Rate	**1.02%**	**4.31%**	**3.29%**	**7.03%**	**6.01%**	**8.66%**	**7.64%**
Projected Impact on Property Valued at $250,000	**$28**	**$118**	**$90**	**$192**	**$164**	**$236**	**$209**
Projected Impact on Property Valued at $580,948*	**$65**	**$274**	**$209**	**$446**	**$381**	**$549**	**$485**
Projected Impact on Property Valued at $750,000	**$83**	**$353**	**$270**	**$576**	**$492**	**$709**	**$626**
Projected Impact on Property Valued at $1,000,000	**$111**	**$471**	**$360**	**$768**	**$657**	**$946**	**$834**

**Assessed value of Norwell's Average House.*

Notes: Excludes consideration of the Community Preservation Act.
Projected impact numbers are shown rounded to the nearest dollar.

The Annual Town Meeting is a forum for the Townspeople to allocate its resources as it sees fit. It is important to note that some of the Articles and Appropriation requests are unique. For example, Community Preservation Committee and Water Department budgets and Articles are funded through dedicated funding sources and Town Meeting action on these Articles will not directly affect the budget article (Article 2) or funding of other Articles on the Warrant.

The Advisory Board would like to thank all Town Departments, Officials and Employees for their cooperation in the budgeting and Town Meeting preparation process.

THE NORWELL ADVISORY BOARD

TOWN BUDGET

Glossary of Terms

Appropriation: An authorization to make expenditures and to incur obligations for specific purposes. An appropriation is granted by Town Meeting and is usually limited in time and amount as to when it may be expended. Any part of the general appropriation not spent or encumbered by June 30 automatically reverts to surplus. A specific appropriation is carried forward from year to year until spent for the designated purpose or transferred by Town Meeting vote to another account.

Assessed Valuation: A valuation set upon real or personal property by the Board of Assessors as a basis for levying taxes.

Budget: A plan of financial operation consisting of an estimate of proposed expenditures for a given period and the means of financing them. The budget is voted in the spring at Town Meeting for the fiscal year that begins the following July 1st.

Capital Budget: A plan of proposed capital outlays and the means of financing them for the current year.

Cherry Sheet: An annual statement received from the Massachusetts Department of Revenue detailing estimated receipts for the next fiscal year and the estimated state and county government charges payable. These amounts are used by the assessors in setting the tax rate. The actual receipts and charges may vary from the estimates.

Community Preservation Act (CPA): The Town adopted the Community Preservation Act (CPA) in 2002. This Act allows the town to collect a 3% surcharge on property tax bills (the funds can be matched up to 100% by the state when funds are available), which creates the Community Preservation Fund, to used for Community Preservation purposes. Each year, the town must appropriate, or reserve (but not necessarily spend), 10% of the funds for each of the three Community Preservation purposes: Open Space, Historic Resources, and Community Housing. The remaining 70% of the funds can be appropriated or reserved used for any of the three purposes and for Recreation and for administration.

Debt Service: Payment of interest and repayment of principal to holders of the Town's debt instruments.

Fiscal Year: A 12 month period, commencing July 1 and ending June 30, to which the annual budget applies. Fiscal years are often denoted FYXX with the last two numbers representing the calendar year in which it ends, for example FY04 is the fiscal year ended June 30, 2004.

Free Cash: Free cash is the portion of unreserved fund balance available for appropriation. It is not cash but rather is approximately the total of cash and receivables less current liabilities and earmarked reserves reduced also by reserves for uncollected taxes. This is also referred to as "available cash". The amount is certified annually by the Massachusetts Department of Revenue.

General Fund: The major town owned fund which is created with town receipts and which is charged with expenditures payable from revenues.

Grant: A contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specific purposes.

Line-Item Budget: A format of budgeting which organizes costs by type of expenditure such as expenses, equipment, and salaries.

Overlay: The amount set aside to allow for uncollected property taxes. An amount for overlay is added to the appropriations and other charges. The "Overlay Surplus" is the portion of each year's overlay account no longer required to cover property tax abatements.

Overlay Surplus: The unused amount of the overlay for prior years which may be transferred, by vote of the Town, to the reserve account or used for extraordinary items.

Property Tax Levy: The amount produced by multiplying the assessed valuation of property by the tax rate. The tax rate is expressed "per thousand dollars" of assessed valuation.

Reserve Fund: Money set aside by Town Meeting to be allocated by the Advisory Board for extraordinary or unforeseen expenditures.

Stabilization Fund: A special reserve funded by Town Meeting for future expenditures.

Terms associated with Proposition 2½;

Debt or Capital Exclusion: The Town can assess taxes in excess of the levy limit by voting a debt exclusion or capital outlay exclusion. This amount does not become a permanent part of the levy limit base, but does allow the Town to assess taxes for a specific period of time in excess of the limit for payment of debt service costs or for payment of capital expenditures.

Excess Levy Capacity: The difference between the Town's tax levy limit and its actual tax levy for the current year. It is the additional tax levy that could be raised without asking for an override.

New Growth: The amount of property tax revenue that the Town can add to its allowable tax levy as a result of new construction, alterations, subdivisions or change of use which increases the value of a parcel of land by more than certain amounts.

Override: An amount, voted by the Town, which is permanently added to the levy limit. A majority vote of the Selectmen allows an override question to be put on the ballot. Override questions must be presented in dollar terms and must specify the purpose of the override. Overrides require a majority vote of approval by the Town.

Tax Levy Limit: The maximum amount of the tax levy for a period under the restrictions of Proposition 2½. It is calculated as the prior year limit plus new growth plus 2.5% of the prior year levy limit.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR SPECIAL TOWN MEETING
Monday, May 8, 2006

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street

ARTICLE 1: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet extraordinary increases in energy costs for Fiscal Year 2006, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article will pay for Fiscal Year 2006 (July 1, 2005 – June 30, 2006), heat, energy and fuel costs that were not included in the FY06 budget as the increases in the costs of these items occurred after the budget was finalized.

The Advisory Board recommends this article in the amount of $88,000.

ARTICLE 2: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $10,000 to be used for the cost of engineering review and consultation for the Queen Anne Corner, so-called, reconstruction project, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article will pay the final bill for the Town's engineer that is working on the Queen Anne's Corner reconstruction project.

The Advisory Board recommends this Article in the amount of $10,000.

ARTICLE 3: To see if the Town will vote to raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 01-300-268-5532, Snow Removal and Sanding, or act on anything relative thereto.

Requested by the Highway Surveyor

This Article will pay for the Snow Removal and Sanding deficit spending that the Board of Selectmen and the Advisory Board authorized this winter. The exact amount of required of this article was not know at press time.
The Advisory Board will make its recommendation at the Town Meeting.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to be expended under the direction of the Highway Surveyor for engineering purposes to bring the Highway Department facility into EPA/DEP compliance, or act on anything relative thereto.

Requested by the Highway Surveyor

This Article would pay for engineering work to develop a plan to achieve Environmental Protection Agency/Department of Environmental Protection compliance for the Highway Department facility on Main Street. The exact amount of this Article was not known at press time.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 5: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $6,828 to be added to item 1-501-282-5309, Trash Removal, or act on anything relative thereto.

Requested by the Board of Health

This Article will pay for the shortage in the account that resulted from the difference between the estimated and actual amount of the contract with the new trash contractor.

The Advisory Board recommends this Article in the amount of $6,828.

ARTICLE 6: To see if the Town will raise and appropriate, or appropriate from available funds the following amounts for the payment of unpaid bills from a prior fiscal year:

Vendor	Amount Due
Peabody & Arnold	$57,841

Or act on anything relative thereto.

Requested by the Town Accountant

This Article will pay a legal bill from Fiscal Year 2005 (July 1, 2004 – June 30, 2005) that was held pending further explanation from the attorneys. The explanation and supporting documentation has been received, but since this bill is from a prior Fiscal Year, it must be paid through this Special Town Meeting Article.

The Advisory Board recommends this Article in the amount of $57,841.

ARTICLE 7: To see if the Town will vote to transfer the sum of $29,000 from line item 101-5110 Police Clerical to 101-5110 Police Salaries, or act on anything relative thereto.

Requested by the Chief of Police

This Article would transfer already appropriated money to a different salary line in the Police budget so that salaries can be charged to the appropriate line item.

The Advisory Board recommends this Article in the amount of $29,000.

ARTICLE 8: To see if the Town will vote to transfer a sum of money, for open space and/or affordable housing purposes, pursuant to Massachusetts General Law, Chapter 44B from the Community Preservation Fund to purchase a parcel of land in the Town of Norwell and to authorize the Selectmen to execute a purchase and sale agreement, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article is used by the Community Preservation Committee (CPC) in the event a parcel of land becomes available between Town Meetings. No parcel has been identified as of press time. In the

event that a property is identified by the CPC the Advisory Board will make its recommendation at Town Meeting.

ARTICLE 9: To see if the Town will vote to amend the purposes of Article 7 of the Special Town Meeting of May 9, 2005 and expand the purposes to include: permitting, site design, professional fees as well as repair, rehabilitation and renovation to the single family dwellings so long as they remain affordable housing. Said expenditures to be under the direction of the Community Preservation Committee, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article would expand the purpose of the uses of the money authorized at the May 9th Town Meeting. The original Article limited the use to moving the houses and associated expenses. This Article would allow the money to be spent on rehabilitation, repair, engineering, etc. in the event they are not moved and can be restored for affordable housing.

The Advisory Board Recommends this Article.

ARTICLE 10: To see if the Town will vote to transfer the sum of $85,000 or any other sum from the Community Preservation Fund, pursuant to Massachusetts General Law, Chapter 44B for recreational purposes for the design, permitting and construction of improvements to public access to the two town landings on the North River at Bridge Street and at the end of Chittenden Lane. Expenditures to be under the control of the Community Preservation Committee. Un-expended funds remaining in this article after June 30, 2008 shall revert to the Community Preservation Fund, or act on anything relative thereto.

Requested by the Community Preservation Committee
and the Conservation Committee

This Article would use Community Preservation Funds to improve the Town landings on the North River at Bridge Street and Chittenden Lane.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 11: To see if the Town will vote to appropriate the sum of $30,000 or any other sum from the Community Preservation Fund, pursuant to Massachusetts General Law, Chapter 44B for recreational purposes, for the design, engineering and construction of an Outdoor Education Center to be located at Hatch Pond near the Cole Elementary School. Expenditures for this project shall be under the control of the Community Preservation Committee. Unexpended funds remaining in this article after June 30, 2009 shall revert to the Community Preservation Fund, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article would use Community Preservation Funds to construct an outdoor education center at the Hatch Pond behind the Cole School.

The Advisory Board recommends this Article in the amount of $30,000.

ARTICLE 12: To see if the Town will vote to appropriate $3,106,000, or any other sum, to be expended under the direction of the Board of Water Commissioners, for the construction of new municipal wells, treatment systems, water mains, appurtenances and ancillary work; to determine whether this appropriation shall be raised by borrowing from the Massachusetts Water Pollution Abatement Trust or otherwise; and to take any other action relative thereto.

Requested by the Board of Water Commissioners

This Article would pay for the increased costs of construction for the water treatment plant on South Street.

The Advisory Board will make its recommendation at Town Meeting.

WARRANT FOR ANNUAL TOWN MEETING
Monday, May 8, 2006

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street

ARTICLE 1: To see if the Town will accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2005 Annual Report, or act on anything relative thereto.

This is the standard annual Article to accept the reports of Town Officers, Boards, Departments and Committees.

The Advisory Board recommends this Article.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds, sums of money to defray the charges, expenses and salary obligations of the Town, including debt and interest, and out of state travel for the ensuing year, to provide for a Reserve Fund and to fix salaries and compensation for all Elected Officers of the Town, or act on anything relative thereto.

This is Budget Article for Fiscal Year 2007 which starts on July 1, 2006.

The Advisory Board recommends this Article in the amounts printed in the "Supplemental Contingent on $1,534,550 Override" column.

		2005 Appropriation	2006 Appropriation	FY 2007 2007 Department Requests	2007 Balanced (No Override)	Supplemental Contingent on $840,953 Override	Supplemental Contingent on $1,534,550 Override	Supplemental Contingent on $1,950,409 Override

This is annual Capital Budget article and the report of the Capital Budget Committee.

The Advisory Board recommends this Article in the amount of $319,676 in cash and bond the amount of $606,900.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2007, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Personnel Board

This is annual Article that funds raises and compensation adjustments for those Town employees covered under the Personnel Plan and not members of a union or have personal contracts.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 5: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2007, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

This is annual Article that funds raises and compensation adjustments for those Town employees covered under union and/or personal contracts.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 6: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be used for the purchase of new financial accounting software for the Town, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article would pay for the purchase of new accounting software for the Town.

The Advisory Board recommends this Article in the amount of $100,000.

ARTICLE 7: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money for extraordinary energy costs for Fiscal Year 2007, said sum to be apportioned to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article would pay for extraordinary fuel and energy costs in Fiscal Year 2007.
The Advisory Board recommends this Article in the amount of $150,213.

ARTICLE 8: To see if the Town will vote to amend the Town of Norwell by-laws, Article XIV – Traffic Rules and Orders, Article 5 – Operation of Vehicles, by adding at the end thereof the following new section: Section 4 – Jake Braking Prohibited. The use of Jake Brakes, so-called, shall be prohibited on all streets in the Town of Norwell. Violations of this section shall be enforced by the Norwell Police Department by the issuance of a civil citation with a fine not to exceed $300.00 per violation and shall be disposed of as a non-criminal disposition under the Gen. L. c. 40, §21D, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article would prohibit "Jake Braking" (the device that large trucks use to help slow their vehicles, which creates louder noise when utilized) on all roads in the Town of Norwell.

The Advisory Board recommends this Article.

ARTICLE 9: To see if the Town will vote to authorize the Board of Selectmen, pursuant to Mass. Gen. Law. c. 40, sec. 14. and Mass. Gen. Law. c. 79, to take an 82.800 s.m.+/-, temporary construction easement over a portion of a certain parcel of land located at 67 Bridge Street, Norwell, Massachusetts

which said temporary construction easement is necessary for the reconstruction of the Union Street/Bridge Street Bridge over the North River, Bridge No. M-07-001=N-24-001. Said temporary construction is located on the northerly side of Bridge Street and is bounded and described as follows:

Beginning at a point on the northerly side of Bridge Street

THENCE Northerly 70°38' 45" East 11.82';

THENCE South 19°23' 15" East 43.97'

THENCE South 73°30' 35" West 12.66'

THENCE North 19°11' 51" West 32.58' to the point of beginning -

containing 82.800 s.m., more or less, or take any other action relative thereto.

Requested by the Board of Selectmen

This Article would authorize the Board of Selectmen to take a temporary easement on Bridge Street to facilitate the repair of the Bridge.

The Advisory Board recommends this Article.

ARTICLE 10: To see if the Town will vote to amend the Town of Norwell Zoning By-law, by striking section 1642, subsection A, and replacing it with the following new text:

1642. Alteration, Reconstruction, Extension or Structural Changes to Lawfully Pre-existing Nonconforming Structures and Uses.

A. Single or Two-Family Residential Structures. The Inspector of Buildings, in accordance with G. L. c. 40A, s. 6, and the upon sufficient demonstration of any of the following enumerated circumstances, may issue a building permit to allow an alteration, reconstruction, extension or structural change to a lawfully pre-existing, nonconforming single or two family residential structure provided that the alteration, reconstruction, extension or structural change shall not increase the nonconforming nature of the lawfully pre-existing nonconforming structure. The following types of changes shall be deemed not to increase the nonconforming nature of said structure:

a) Reconstruction, extension, alteration or structural change to a structure which complies with all current setback, building coverage, and building height requirements but is located on a lot with insufficient area and/or frontage, where the alteration will also comply with all of said current requirements.
b) Reconstruction, extension, alteration or structural change to a structure which encroaches upon one or more required setback areas, where the alteration will comply with all current setback(s), building coverage and building height requirements. The provisions of this clause shall apply regardless of whether the lot complies with current area and frontage requirements.
c) Reconstruction, extension, alteration or structural change to the side, front or back of a structure which encroaches upon a required setback, where the alteration will not encroach upon such setback to a distance greater than the existing structure. The provisions of this clause shall apply regardless of whether the lot complies with current area and frontage requirements.
d) Reconstruction, extension, alteration or structural change to a nonconforming structure which will not increase the footprint of

the existing structure provided that existing height restrictions shall not be exceeded.

In the event that the Inspector of Buildings determines that the non-conforming nature of such structure would be increased by the proposed reconstruction, extension, alteration, or structural change, the Inspector of Buildings shall refuse to issue a building permit therefore and shall refer the applicant to the Board of Appeals for a special permit determination as to whether the proposed alteration, reconstruction, extension or structural change would be substantially more detrimental to the neighborhood than the lawfully pre-existing nonconforming structure.

or take any other action relative thereto.

Requested by the Board of Selectmen

This Article would allow the building inspector to issue building permits for repairs or alterations for certain existing non-conforming uses. This Article was passed at a prior Town Meeting, but was rejected by the Attorney General for technical reasons. This Article corrects the wording to satisfy the Attorney General's suggestions.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 11: To see if the Town will vote to amend the Town of Norwell General By-Laws, Article IV – Town Meetings, Section 3, by striking the first sentence therein and replacing it with the following new text: "The Annual Town Meeting shall be held at 9:00 A.M. on the second Saturday of May, or as deemed necessary by the Board of Selectmen, of each year, and Special Town Meetings may be held at such time as the Selectmen may order.", or act on anything relative thereto.

Requested by the Board of Selectmen

This Article would change Town Meeting from beginning on Monday evening to beginning Saturday morning.

The Advisory Board does not recommend this Article. It was tried in the past with poor results, and the issues not the day of the week, is the main driver of Town Meeting attendance.

ARTICLE 12: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $200,000, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways, or act on anything relative thereto.

Requested by the Highway Surveyor

This Article would pay for resurfacing Town ways under the direction of the Highway Surveyor.

The Advisory Board recommends this Article in the amount of $200,000.

ARTICLE 13: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to be expended under the direction of the Highway Surveyor for engineering purposes to bring the Highway Department facility into EPA/DEP compliance, or act on anything relative thereto.

Requested by the Highway Surveyor

This Article would pay for the cost of bringing the Highway Facility on Main Street into compliance with Environmental Protection Agency and Department of Environmental Protection standards.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 14: To see if the town will vote to amend the Town of Norwell Zoning By-Laws, Section 4300, 4400, and 4500 Aquifer Protection By-Law, by striking said section and replacing it as follows:

4300. AQUIFER PROTECTION DISTRICT

4310. Designation. The Aquifer Protection District shall include all land designated as such and shown and delineated on a map entitled "Watershed/Aquifer Protection District, Town of Norwell, 2006". The Aquifer Protection District shall be considered to be superimposed over any other district established by this zoning bylaw. All land in this District is subject to the regulations set forth in this Section 4300 and such regulations shall be in addition to, rather than in place of, the requirements for the underlying district.

4320. Purpose. The purpose of this Section, in addition to the purposes enumerated in Section 1100 of this zoning bylaw, are:

a) To preserve and maintain the quality of the surface and ground water within the Town of Norwell, so as to preserve the present and potential water supplies for the public health and safety of the inhabitants of the Town.

b) To protect such ground water from the danger of accidental spills and discharge of petroleum products and other toxic and hazardous materials, and from sewage discharge, all of which pose potential public health and safety hazards and threaten economic losses to the Town.
c) To enhance ground water recharge in aquifer recharge areas.

4330. Procedure. Whenever an application is made for a building or use permit which the Building Inspector/Zoning Officer believes may involve the use of land in the District, he shall determine by any means at his disposal, whether the parcel identified in the application lies within the Aquifer Protection District.

4340. Permitted Uses. Uses not requiring a special permit under Section 4350 or prohibited under Section 4360 are permitted in the Aquifer Protection District, subject to the applicable provisions of this bylaw, other provisions of this zoning bylaw applicable to the underlying zoning districts in which said Aquifer Protection District is located and to any other applicable overlay district regulations.

4350. Special Permits.

4351. Schedule of Special Permit Uses. Where otherwise legally permitted by the provisions of this zoning bylaw applicable to the underlying districts in which the Aquifer Protection District is located, and subject to such special conditions and safeguards as the Board of Appeals deems necessary to fulfill the purpose of this Section, the following uses are permitted by Special Permit granted by the Zoning Board of Appeals in accordance with the provisions of subparagraphs 4352 through 4355:

a) Any use involving secondary usage or storage of toxic or hazardous materials in quantities greater than normally associated with usual household use.

4352. For any use for which a special permit is required under the provisions of this bylaw the applicant shall submit, in addition to any other information required to be submitted, the following:

a) A complete list of all chemicals, commercial fertilizers, pesticides, fuels and other potentially toxic or hazardous materials to be used or stored on the premises in quantities greater than those associated with normal household use, accompanied by a description of measures proposed to protect all storage containers/facilities from vandalism, corrosion and leakage and to provide for control of spills.
b) A description of potentially toxic or hazardous materials to be generated, indicating storage and disposal methods.

c) Evidence of approval by the Massachusetts Department of Environmental Protection (MA DEP) of any sanitary wastewater treatment system required to meet current MA DEP effluent discharge standards or capacity exceeding 10,000 gallons per day..

d) Projections of down gradient concentrations of nitrogen and other relevant chemicals at property boundaries and other locations deemed pertinent by the Board of Appeals. Projections shall be based upon appropriate ground water models and the following information/standards:

1) Nitrogen Loading Calculations:

(a) Wastewater per person: 6 lbs. Nitrogen per year.
(b) Persons per bedroom = 2
(c) Lawn Fertilizers: 2 lbs. Nitrogen/1,000 square feet of lawn per year.
(d) Road Run-off: 0.10 lbs. Nitrogen per curb mile per day.
(e) Background Nitrogen Concentration: Actual field measurements

2) Groundwater Flow and Impacts to Drinking Water Supply Wells:

(a) Identify probable impacted water supply well(s) by constructing flow lines down gradient of the proposed site on the 1988 Norwell Water Table Map.
(b) Areal Recharge Rate: 18.5 inches per year for sand and gravel; 7 inches per year for till.
(c) Hydraulic Conductivity: Site-specific measurements.
(d) Saturated Thickness: 1988 Norwell Saturated Thickness Map to be supplemented by site specific/borings.
(e) Ground Water Gradient: 1988 Norwell Water Table Map to be supplemented with site-specific measurements.
(f) Upon receipt of the Special Permit application, the Board of Appeals shall transmit one copy to the Board of Water Commissioners and any other relevant town agency, board or department for their written recommendations. The necessary number of copies of the application shall be furnished by the applicant. Failure by an agency to respond in writing within 35 days shall indicate approval or no desire to comment by said agency.

4353. Considerations. In hearing an application for a Special Permit hereunder, the Board of Appeals shall consider, in addition to any other factors said Board deems pertinent, the following factors:

a) The simplicity, reliability and feasibility of the proposed measures for containment of toxic or hazardous materials and control of spills.
b) The degree of threat of water quality, which would result if the control measures, failed.
c) The recommendations of other town agencies regarding the application, if any.

4354. Criteria for Approval. Special permits under this Section shall be granted only if the Board of Appeals determines that:

a) The intent of this bylaw as well as its specific criteria are met; and
b) Ground water quality resulting from on-site waste disposal and other on-site operations will not fall below federal or state standards for drinking water at the down gradient property boundary (10 ppm concentration nitrate-

nitrogen).

The Board of Appeals shall explain any departures from the recommendations of other Town agencies in its decision.

4360. Prohibited Uses. The following uses are specifically prohibited in the Aquifer Protection District:

a) Sanitary landfills, landfills receiving only wastewater residuals and/or septic residuals or other disposal of solid waste.
b) Motor vehicle salvage operations and junk yards
c) Municipal sewage treatment facilities with on-site disposal of primary or secondary treated effluent
d) Car or truck washes
e) Road salt or other deicing chemical stockpiles
f) Dumping of snow from outside the District
g) Self-service laundries, unless connected to public sewerage
h) Dry cleaning establishments
i) Airplane, boat and motor vehicle service and repair, including auto body shops
j) Metal plating, finishing or polishing
k) Chemical and bacteriological laboratories
l) Storage and/or sale of petroleum or other refined petroleum products, except within the building it will be used to heat
m) Commercial photographic processing, with the exception of digital photographic processing utilizing no chemicals
n) Commercial printing, other than xerographic reproduction
o) The rendering impervious of more than 15 percent (15%) of any lot or two thousand five hundred (2,500) square feet of any lot, whichever is greater, unless a system of groundwater recharge of precipitation is provided that will not result in degradation of groundwater.

Any such system of groundwater recharge, for vacant land, shall, at a minimum, recharge 85% of any resulting post-development increase in the volume of stormwater, for up to a 100-year storm event.

Any such system of groundwater recharge, for land with existing impervious surface conditions of 15% or 2500 square feet or more shall recharge 100% of the volume of stormwater, for up to a 100-year storm event, for any increase in impervious surface conditions beyond said 15% or 2500 square feet of the land, which ever is greater.

Under no circumstances shall any land in the Aquifer Protection District be used to create conditions resulting in more than 50% impervious surface coverage of the land.

No redevelopment of land, which already exceeds 50% impervious surface coverage, due to lawfully pre-existing conditions, shall be allowed if the proposed development would increase the existing impervious surface coverage of the land. Furthermore, no such redevelopment shall be allowed, even if there is no such increase, unless the redevelopment provides a system of recharge that shall control 100 percent of all existing and proposed roof runoff generated on the land.

Pervious pavers shall be not be used in the Aquifer Protection District for any portion of land that would be used for either vehicular traffic or parking, but they may be used for other purposes, including sidewalks and terraces and similar uses that are not subject to traffic or spills of gasoline and oil and other contaminants, and, when used for such other purposes, they shall not be considered impervious surfaces.

Pre-development and post-development drainage calculations shall be provided and undergo peer engineering review, at the applicant's expense, before any relief is granted hereunder.

p) Hotel or motel, unless connected to a public sewerage

q) Any commercial/industrial facility or use which involves as a principal or secondary activity, the manufacture, storage, use, transportation or disposal of toxic or hazardous materials, wastes or animal manure except as allowed by special permit in Section 4350.

r) Non-sanitary treatment or disposal works that are subject to 314 CMR 4.00 and 5.00 except the following:

a. The replacement or repair of an existing system that will not result in a design capacity greater than the design capacity of the existing system; and

s) The removal of soil, loam, sand and gravel within four feet of the historic high groundwater elevation, with the following exceptions: removal of soil for road excavations, building foundations and utility works.

b. Treatment works approved by the MA DEP designed for the treatment of contaminated groundwater.

4370. Design and Operations Guidelines. The following design and operation guidelines shall be observed within the Aquifer Protection District.

a) Safeguards. Provision shall be made to protect against toxic or hazardous materials discharge or loss resulting from corrosion, accidental damage, spillage or vandalism through measures such as: prohibition of underground fuel storage tanks, spill control provisions in the vicinity of chemical or fuel delivery points; secured storage areas for toxic or hazardous materials; and indoor storage provisions for corrodible or dissolvable materials. Storage of toxic or hazardous materials must meet the requirements of 310 CMR 22.21 (2) B5. For operations, which allow the evaporation of toxic or hazardous materials into the interior of any structures, a closed vapor recovery system shall be provided for each such structure to prevent discharge of contaminated condensate into the groundwater.

b) Location. Where the premises are partially outside of the Aquifer Protection District, potential pollution sources such as on-site waste disposal systems shall be located outside the District to the extent feasible.

c) For any toxic or hazardous materials to be produced in quantities greater than those associated with normal household use, the applicant must demonstrate the availability and feasibility of disposal methods, which are in conformance with MGL Chapter 21C.

d) Drainage. All runoff from impervious surfaces shall be recharged on the site and recharge from pervious surfaces to the extent possible. Dry wells shall be used only where other methods are not feasible, and shall be preceded by oil, grease, and sediment traps to facilitate removal of contaminants. If dry wells are utilized, the property owner shall be required to have oil, grease and sediment traps cleaned annually and to provide the building Inspector/Zoning Officer, on an annual basis, with proof of such cleaning.

4380. Violations. Written notice of any violation of this bylaw shall be provided by the Building Inspector/Zoning Officer to the owner of the premises, specifying the nature of the violations and a schedule of compliance, including cleanup of any spilled materials. This compliance schedule must be reasonable in relation to the public health hazard involved and the difficulty of compliance. In no event shall more than 30 days be allowed for either compliance or finalization of a plan for longer-term compliance.

4390. Definitions.

TOXIC OR HAZARDOUS MATERIAL: Any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant, actual or potential hazard to water supplies, or other hazard to human health, if such substance or mixture were discharged to land or waters of

this town. Toxic or hazardous materials include, without limitation, organic chemicals, petroleum products, heavy metals, radioactive or infectious wastes, acids and alkalis, and include products such as pesticides, herbicides, solvents and thinners. Wastes generated by the following activities, without limitation, are presumed to be toxic or hazardous unless and except to the extent that anyone engaging in such an activity can demonstrate the contrary to the satisfaction of the Board of Health.

(a) Cabinet Making
(b) Electronic circuit assembly
(c) Motor and machinery service and assembly
(d) Painting, wood preserving and furniture stripping
(e) pesticide and herbicide application

NON SANITARY TREATMENT OR DISPOSAL WORKS: Wastewater discharge from industrial and commercial facilities containing wastes from any activity other than the collection of sanitary sewage, including but not limited to, activities specified in the Standard Industrial Classified Codes set forth in 310 CMR 15.004 (6).

GROUNDWATER RECHARGE – as defined in the Massachusetts Department of Environmental Protection (MA DEP) and Massachusetts Office of Coastal Zone Management (MA CZM) Stormwater Management Technical Handbook of March 1997.

4400. Accessory Uses

4410. Accessory Scientific Uses. Uses, whether or not on the same parcel as activities permitted as a matter of right, accessory to activities permitted as a matter of right, which activities are necessary in connection with scientific research or scientific development or related production, may be permitted upon the issuance of a Special Permit by the Board of Appeals provided the granting authority finds that the proposed accessory use does not substantially derogate from the public good.

4500. Trailers

No automotive type of trailer, whether mobile or immobile, put in place upon any land within the Town shall be occupied for living purposes or business purposes within the Town. Except that trailers may be placed upon a construction site for use as engineering or construction office, only. Permits for such use shall be granted by the Inspector of Buildings for a period not exceeding one year, subject to annual renewal, which shall terminate within thirty days of completion of the project.

or act on anything relative thereto.

Requested by the Board of Water Commissioners

This Article updates the Aquifer Protection District By-Law.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 15: To see if the town will vote to amend the Aquifer Protection Map entitled "Watershed/Aquifer Protection Map, Town of Norwell, 2006" or act on anything relative thereto.

Requested by the Board of Water Commissioners

This Article updates the (1988) Watershed/Aquifer Protection Map.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 16: To see if the Town will vote to amend Norwell Zoning By-law Article V by adding the following definitions thereto:

Stormwater:

Stormwater shall mean water that collects as a result of precipitation, including rainfall, sleet, hail, snow or snowmelt.

Stormwater Runoff:

Stormwater Runoff shall mean water that moves as a result of precipitation, including rainfall, sleet, hail, snow or snow melt.

Stormwater Basin:

A Stormwater Basin shall mean any surface or subsurface drainage system that is designed to collect, slow, infiltrate or otherwise control stormwater or stormwater runoff or a combination of stormwater and stormwater runoff.

Stormwater Management System:

A Stormwater Management System shall mean any structure or equipment or use of land, including any natural or pre-existing condition or any artificial condition, which is used or to be used to control stormwater or stormwater runoff in order to prevent same from running onto adjacent land or into the Town's Stormwater Management System. A stormwater management system shall include any and all of the following elements:

(i) Any structure or other natural or artificial collection device that is used to collect or slow stormwater or stormwater runoff, including any catch basin, drywell, French drain and any stormceptor or other similar device;
(ii) Any stormwater basin;
(iii) Any side slope for a surface stormwater basin;
(iv) Any galley for an underground stormwater basin which is designed to hold or hold and then disperse stormwater or stormwater runoff;
(v) Any connecting pipe between a collecting structure and a stormwater basin;
(vi) Any connecting pipe between a stormwater basin and an outfall structure;
(vii) Any outfall structure, consisting of riprap or crushed stone of any type, which is designed to slow or otherwise control the progress of stormwater or stormwater runoff;
(viii) Any berm, channel, culvert, ditch, gutter, pipe or swale, whether natural or artificial, which is designed or used to conduct stormwater or stormwater runoff from one point to another;
(ix) Any berm, channel, culvert, ditch, gutter, pipe or swale, whether natural or artificial, which is designed or used to slow, disperse or infiltrate stormwater or stormwater runoff;
(x) Any access roadway or access easement which is designed to allow access for persons, vehicles or equipment to or from any portion of a stormwater management system in order to provide access for inspection, maintenance (which shall include mowing and other similar landscaping activities), repairs or replacement; and
(xi) Any easement area reserved to provide for the expansion or replacement of any element of a stormwater management system.

Town Stormwater Management System:

The Town Stormwater Management System shall include any portion of the stormwater drainage system maintained by the Town of Norwell in order to collect, conduct, disperse, infiltrate, slow or otherwise control stormwater or stormwater runoff that is generated by or from:

(i) Any Town-owned or Town-used property;

(ii) Any public way accepted by the Town;
(iii) Any non-public roadway that is maintained by the Town;
(iv) Any berm, channel, culvert, ditch, gutter, pipe or swale, whether natural or artificial, owned, that is used or maintained by the Town;
(v) Any catch basin, drywell, French drain and outfall structure that is owned, used or maintained by the Town;
(vi) Any stormwater basin owned or maintained by the Town; and
(vii) Any drainage easement area that is owned, maintained or used by the Town to collect or otherwise control stormwater or stormwater runoff.

Or act on anything relative thereto.

Requested by the Planning Board

This Article adds these Stormwater definitions to the current Zoning By Laws.

The Advisory Board recommends this Article.

ARTICLE 17: To see if the Town will vote to amend Norwell Zoning By-law Article II, §2423 by deleting the existing section in its entirety and substituting the following

Existing Language:

§2423. No part or portion of any lot which contains a surface or subsurface detention or retention basin, or swales that form part of a Stormwater Management System, shall be used in determining minimum lot size as required herein, except that this paragraph shall not apply to any lot lawfully laid out by plan or deed duly recorded, as defined in M.G.L. c.41, §81L, prior to the effective date of this paragraph, to any lot shown on a plan endorsed, prior to the the (sic) effective date of this paragraph, with the words, "Approval under the Subdivision Control Law not required"', or words of similar import, pursuant to M.G.L. c. 41, §81P, or to any lot shown on a Definitive Plan endorsed with the words "Approved under the Subdivision Control Law" or words of similar import, pursuant to M.G.L. c.41, §81U, which complied at the time of such recording or endorsement whichever is earlier, with all of the minimum area requirements set forth in the Zoning Bylaw, except for this paragraph, provided, however, that this paragraph shall apply to any subdivision under Subdivision Control Law, as aforesaid, submitted to the Planning Board on or after the effective date of this paragraph.

Proposed New Language:

§2423. No part or portion of any lot, which contains any element of a Stormwater Management System, as defined under Article V of this Zoning By-law, shall be used toward calculating the minimum lot area required under Zoning Bylaw §2421. This paragraph shall not apply to any of the following:

(i) A building lot lawfully laid out by plan or deed and duly recorded prior to the adoption of the Town's Zoning By-law;
(ii) A building lot for single or two-family residential use that is eligible for protection from zoning changes that increase lot area requirements under G.L. c .40A, §6 on the effective date of this paragraph, provided that the lot complied with all applicable lot area requirements at the time of its creation;
(iii) A building lot that is shown on a plan that was duly endorsed, as "Approval Not Required," under G.L. c.41, §§81L and 81P prior to the effective date of this paragraph, in which case the predecessor requirements of this paragraph shall apply; or
(iv) A building lot shown on a definitive subdivision plan duly endorsed by the Planning Board with the words "Approved under the Subdivision Control Law" or words of similar import, pursuant to G.L. c.41, §81U, prior to the effective date of this paragraph and in which case, the applicable

predecessor requirements of this paragraph shall apply; but, provided further that this paragraph shall apply to any definitive subdivision submitted to the Planning Board on or after the effective date of this paragraph.

Or act on anything relative thereto

Requested by the Planning Board

This Article excludes any land area used in a storm water management system easement from the upland calculation for determining the minimum lot area.

The Advisory Board does not recommend this Article. This by-law change treats a storm water easement differently than other easements (e.g., utility, access).

ARTICLE 18: To see if the Town will vote, in accordance with G.L. c. 40, section 4A, authorize the Board of Health to enter into an inter-municipal agreement with one or more governmental units to provide public health services which the Board of Health is authorized to perform, in accordance with and Inter-Municipal Mutual Aid Agreement to be entered into between the Town and various governmental units, or act on anything relative thereto.

Requested by the Board of Health

This Article would allow the Norwell Board of Health to work with Boards of Health from other communities to assist in providing public health services.

The Advisory Board recommends this Article.

ARTICLE 19: To see if the Town will vote to transfer the sum of $10,000, or any other sum, from the FY2005 Overlay Surplus Account to Article 19 of the 2004 Annual Town Meeting for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in the Town funded directly by the Town. This program is established pursuant to an agreement by the Council on Aging, the Board of Selectmen and the Board of Assessors, or act on anything relative thereto.

Requested by the Board of Assessors

This Article is the funding mechanism for the Senior Real Estate Tax Work Off Program, which allows eligible seniors to work for the town to reduce their real estate taxes.
The Advisory Board recommends this Article.

ARTICLE 20: To see if the Town will raise and appropriate, or appropriate from available funds the sum of $14,500 for the purpose of restoration of 5 hours weekly to the Norwell Public Library's operating schedule, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2 (lines 165 and 289), or act on anything relative thereto.

Requested by the Board of Library Trustees

This Article would restore 5 hours a week to the Library that were cut during the last Fiscal Year budget process.

The Advisory Board does not recommend this Article. This restoration is included in the third override option to be included in the Library budget if approved.

ARTICLE 21: To see if the Town will raise and appropriate, or appropriate from available funds the sum of $3,000 for the purpose of opening the Norwell Public Library on 10 Saturdays during the summer months of June, July and August, said sum to be apportioned by the Town Accountant to the applicable items in Article 2 (lines 165 and 289), or act on anything relative thereto.

Requested by the Board of Library Trustees

This Article would provide funding to open the Library on 10 Saturdays during June, July and August.

The Advisory Board does not recommend this Article. This restoration is included in the third override option to be included in the Library budget if approved.

ARTICLE 22: To see if the Town will vote to reduce the rate of interest that accrues on property taxes deferred by eligible seniors under Massachusetts General Laws Chapter 59, section 5, Clause 41A from 8% to 4% with such reduced rate to apply to taxes assessed for any fiscal year beginning on or after July 1, 2006, or act on anything relative thereto

Requested by the Senior Tax Relief Committee

This Article would reduce the interest rate charged to eligible seniors on their deferred property taxes from 8% to 4%.

The Advisory Board recommends this Article.

ARTICLE 23: To see if the Town will vote to adjust the Personnel Classification Plan by amending the following position:

Position Title	Present Grade	Increase to
Administrative Aide – Selectmen	6	9

And to change the job title from Administrative Aide to "Assistant to the Town Administrator",

or act on anything relative thereto.

Requested by the Personnel Board

This Article would change the title and grade of the position in the Selectmen's office.

The Advisory Board recommends this Article. The current Administrative Aide has taken on most of the responsibilities of the previous Assistant Town Administrator, who retired last year and was not replaced.

ARTICLE 24: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $14,000 to be expended under the direction of the Director of Tree and Grounds for the care and maintenance of the brush pile located at the Recycling Center, or act on anything relative thereto.

Requested by the Recycling Committee

This Article would fund the chipping and/or clean up and/or removal of the brush pile that accumulates at the Recycling Center.

The Advisory Board recommends this Article.

ARTICLE 25: To see if the Town will vote to authorize the Board of Selectmen to transfer the care, custody and control of 3 parcels of land, consisting of approximately 116 acres, known as Block 6, Lot 20 and Lot 19 on Assessors map 3C, 2B and 2D, and Block 9, Lot 28 on Assessor's map 3D to the Conservation Commission.

Requested by the Conservation Commission

This Article would transfer land, already owned by the Town, to the care, custody, and control of the Conservation Commission.

The Advisory Board recommends this Article.

ARTICLE 26: To see if the Town will vote to authorize the Board of Selectmen to transfer the care, custody and control of 3 parcels of land consisting of approximately 9.9 acres, known as Block 68, Lot 2, 3 and 40 on Assessor's map 24D to the Conservation Commission.

Requested by the Conservation Commission

This Article would transfer land, already owned by the Town, to the care, custody, and control of the Conservation Commission.

The Advisory Board recommends this Article.

ARTICLE 27: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $50,000, or any other sum to be expended under the direction of the Permanent Drainage Study Committee and the Highway Surveyor for engineering, installation and or maintenance of Town drainage, or act on anything relative thereto.

Requested by the Permanent Drainage Study Committee

This Article would provide funding for drainage improvements in Town under the direction of the Permanent Drainage Study Committee and the Highway Surveyor.
The Advisory Board recommends this Article.

ARTICLE 28: To see if the Town will vote to amend the Town of Norwell Zoning By-Laws, section 3400, Building Demolition, subsection (c), Regulated Buildings, Structures and Properties, by adding at the end of the first paragraph of said subsection (c) the following new text: "or (4) any building, structure or property built in 1930 or earlier.", or act on anything relative thereto.

Requested by the Historical Commission

This Article would add all structures built in 1930 or prior to the definition of Regulated Buildings, Structures and Properties under the existing Demolition By-Law.

The Advisory Board does not recommend this Article. The existing Demolition By-Law provides enough flexibility for the Historical Commission to determine a structure's Historic characteristics, without using an arbitrary date.

ARTICLE 29: To see if the Town will vote to amend the Town of Norwell Zoning By-Laws, section 3400, Building Demolition, subsection (d), Procedure (7) to change the demolition permit for a period to one year and the expiration also to one year, or act on anything relative thereto.

Requested by the Historical Commission

This Article increases the period under the existing Demolition By-Law by which demolition could be delayed from 6 months to one year.

The Advisory Board does not recommend this Article. The existing Demolition By-Law provides six months, which should be enough time for the Historical Commission to find a suitable buyer and/or land without causing undue hardship on the owner.

ARTICLE 30: To see if the Town will vote to designate Wildcat Lane, Green Street, Pleasant Street, Mt. Blue Street, Winter Street, Lincoln Street, Pine Street and Circuit Street as Scenic Roads pursuant to the Massachusetts Scenic Roads Act (MGL Chapter 40, Section 15C), or act on anything relative thereto.

Requested by the Historical Commission

This Article designates Wildcat Lane, Green Street, Pleasant Street, Mt. Blue Street, Winter Street, Pine Street and Circuit Street as scenic roads.

The Advisory Board recommends this Article. There are existing scenic roads in Norwell, and although scenic roads impose a regulatory step for homeowners if they propose alterations in the right of way, it is viewed as protecting Norwell's character rather than an increased restriction on homeowner's property rights. A scenic road designation does not prevent development, construction, or alterations to, or on these roads, but the applicant may need Planning Board approval.

ARTICLE 31: To see if the Town will vote to raise and appropriate, appropriate from available funds of otherwise provide a sum or money to be expended by the Historical Commission for surveying the property of the Stetson Ford House, so-called, or act on anything relative thereto.

Requested by the Historical Commission

This Article provides funding for a survey of the Town owned property that includes the Stetson Ford House.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 32: To see if the Town will vote to establish an "Open Space Maintenance Fund" to be administered by the Conservation Commission under Massachusetts General Laws, Chapter 40, section 8C. Said fund may receive grants, donations, bequests, appropriations and transfers. Interest earned by the fund shall remain in the fund. This Fund may be used by the Conservation Commission at their discretion for the care and maintenance of any town owned property, or act on anything relative thereto.

Requested by the Community Preservation Committee and the Conservation Committee

This Article would allow the Conservation Commission to establish an Open Space Maintenance Fund to maintain Town owned property.

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 33: To see if the Town will vote to set aside certain sums of money raised through the Community Preservation Act, Massachusetts General Laws Chapter 44B, section 3-7 from the main Community Preservation Funds into the three Community Preservation Fund Reserve Accounts. The three Reserve Accounts are to be allocated additional funds as follows: $100,000 or any other sum, into the Open Space Reserve Account, $100,000, or any other sum, into the Affordable Housing Reserve Account and $100,000, or any other sum, into the Historic Preservation Reserve Account, or act anything relative thereto.

Requested by the Community Preservation Committee

This Article is the annual Article submitted by the Community Preservation Committee, which segregates (not spends) into the three required categories – Open Space, Affordable Housing, and Historic Preservation.

The Advisory Board recommends this Article.

ARTICLE 34: To see of the will vote to extend the deadline for Article 22 of the Annual Town Meeting of May 9, 2005 for the preservation and restoration of the Civil War Monument in Norwell Center from June 30, 2006 to June 30, 2007, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article extends the completion deadline for restoration of the Civil War Memorial that was authorized at a prior Town Meeting.

The Advisory Board recommends this Article.

ARTICLE 35: To see if the Town will vote to extend the deadline for Article 37 of the Annual Town Meeting of May 10, 2004 for the irrigation and improvements to the school athletic fields to June 30, 2007, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article extends the completion deadline for irrigation improvements to the school athletic fields that were authorized at a prior Town Meeting.

The Advisory Board recommends this Article.

ARTICLE 36: To see if the Town will vote to transfer the sum of $20,000 or any other sum from the Historic Preservation Sub-account of the Community Preservation Fund to used under the direction and control of the Norwell Historic Commission in conjunction the Norwell Town Center revitalization efforts. Funds may be used for any historical purpose in the Norwell Town Center including signage, preservation or acquisition of historic assets, or other historic purpose pursuant to Massachusetts General Laws Chapter 44B subject to the approval of the Community Preservation Committee. Un-expended funds remaining in this article after June 30, 2008 shall revert to the Community Preservation Fund Historic Preservation Sub-account, or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article authorizes Community Preservation Funds for use in revitalizing the Norwell Town Center.

The Advisory Board recommends this Article.

ARTICLE 37: To see if the Town will vote to amend the Town of Norwell By-Laws, by adding at the end thereof the following new section:

Town Landing Bylaw

Town landings for the purpose of this bylaw are defined as the landing to the east of the Union Street Bridge and at the end of Chittenden Lane.

Town Launching Ramps
The proper usage of the town launching ramps shall be determined by the Selectmen. This shall include the proper parking of trailers and motor vehicles at the approach to the ramp.

Persons using town ramps for hauling of larger boats requiring cradles shall apply to the selectmen for permission. Such cradles and/or boats shall not remain on the town ramps for more than one tide.

No major boat repairs or complete maintenance work shall be done at town ramps or docks. Ramps and walkways shall be kept clear at all times. After twenty-four (24) hours, equipment stored in violation of this section will be considered abandoned and removed at the owner's expense.
The town is not responsible for any loss or damage to boats at town ramps and docks. Owners will be held responsible for damage to structures and pilings owned by the town.

Open alcoholic beverages are prohibited from the landings and the adjacent parking areas.

No person shall swim or dive from town owned ramps or docks.

Minor children shall not be allowed the use of town launch ramps without adult supervision.

Town Landing Parking Areas
Parking at the Union Street Bridge and Chittenden Landing is restricted to Norwell residents and property owners. All vehicles parked on these properties must purchase

and visibly display a current Norwell Recycling Permit (available from the Board of Health). Unauthorized parking in all roadways and fire lanes approaching the parking lot, is prohibited at all times. Fines for such unauthorized parking will be determined by the Board of Selectmen. All parking is on a first come, first serve basis. When parking capacities are reached, vehicle access restrictions will be imposed.

Hours of Use
The landings shall be closed to all use daily from Sunset to Sunrise.

Penalties
Whoever violates any provision of this bylaw or any rule or regulation adopted under this bylaw will be fined and/or may have their use privileges revoked. Fines will be determined by the Board of Selectmen. This bylaw shall be enforced by the Selectmen or their designees.

Severability
In the event that any provision, section or clause of this bylaw is hereinafter judicially found to be invalid, such invalidity shall not affect the validity of the remaining portions of the bylaw

Or act on anything relative thereto.

Requested by the Community Preservation Committee

This Article creates a Town Landing By-Law for the Bridge Street and Chittenden Lane landings.

The Advisory Board recommends this Article.

ARTICLE 38: To see if the Town will vote to accept the provisions of Massachusetts General Laws, Chapter 40, section 22F, or act on anything relative thereto.

Requested by the Treasurer/Collector

This Article increases the fees the Town charges for Municipal Lien Certificates (the form used by lenders when a property is purchased or refinanced to determine the amounts owed the Town) from $25 to $50.

The Advisory Board recommends this Article. A survey of surrounding towns indicated that Norwell was charging a lower fee than half the towns surveyed.

ARTICLE 39: To see if the Town will vote to accept the provisions of Massachusetts General Laws Chapter 41, Section 108P relative to the compensation of the Treasurer and, in order to meet said obligations of said Section 108P, vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $1,000 to be added to line item 1-35-111-5110, Treasurer/Collector Salary, or act on anything relative thereto.

Requested by the Treasurer/Collector

This Article would fund a $1,000 annual stipend to the current Treasurer Collector who has attained the Certification of Certified Municipal Treasurer Collector.

The Advisory Board recommends this Article. A similar Article was approved two years ago for the Town Clerk's certification.

ARTICLE 40: To see if the Town will vote to amend the Town of Norwell By-Laws, Article IV – Town Meetings, Section 6, by deleting said section in its entirety and substituting in place thereof the following new section:

SECTION 6. The Town Clerk, assisted by the Town Moderator, shall choose the order for consideration of all Town Meeting articles in lottery fashion. After the article has been

drawn for consideration, subsequent articles shall not be drawn until the Town Meeting has acted upon the drawn article.

For the purpose of this by-law, the General Budget Article and the Wage and Personnel Compensation Schedules shall be considered subsections of the same article.

Or act on anything relative thereto.

Requested by 10 Citizen Petition

This Article change the order of the Articles presented at Town Meeting from the current numerical order to a "lottery" style Article consideration.

The Advisory Board does not recommend this Article. The existing Town Meeting warrant is arranged so that Articles follow a logical sequence and that Article supporters can be prepared to speak on Articles with some time certainty, especially if they have outside experts, prepared presentations, or if they are speaking on two related Articles, it provides some continuity to Town meeting.

ARTICLE 41: To see if the Town will vote to grant an easement or license to connect to the Pinson Lane Surface Water Drainage System to the Parker Street Public Drainage System substantially as shown in the approved subdivision plan for the benefit of the following improved lots

Pinson Lane Address	Assessors Designation
5	52-111
6	52-23
7	52-110

or act on anything relative thereto.

Requested by 10 Citizen Petition

This Article would grant an easement to the Pinson Lane homeowners to connect to the Parker Street surface water drainage system.

The Advisory Board recommends this Article.

ARTICLE 42: To see if the Town will vote to raise and appropriate, or transfer from available funds the sum of $3,000 to contract with South Shore Women's Center for domestic violence intervention and prevention services for its residents, or act on anything relative thereto.

Requested by 10 Citizen Petition

This Article would contribute to the funding of the South Shore Women's Center for domestic violence intervention, counseling and other assistance provided to Norwell residents.

The Advisory Board recommends this Article in the amount of $2,000. The Town has historically funded this Article in the amount of $2,000.

ARTICLE 43: To see if the Town will vote to amend Section 6470 and of the Norwell Zoning By-Laws and the Zoning Map in order to change the zoning classification of the following properties having frontage on or bounded by Washington Street, Norwell Massachusetts from Residential District B to Business District B:

Washington Street Address	Assessors Designation
447*	27-134
455	27-133
461	27-132
467	27-131
483	27-007

489*	27-141

**being the portion thereof which is not business district B at present*

Jacobs Trail Address	Assessors Designation
3	27-128
	27-129 and 27-130

or act on anything relative thereto.

Requested by 10 Citizen Petition

This Article would rezone a portion of Washington Street from residential to commercial zoning.

The Advisory Board does not recommend this Article. The "buffer zone" was created years ago to protect the homeowner's that live in the subdivisions behind Washington Street, and the Advisory Board feels that those homeowners still need this zoning protection.

ARTICLE 44: To see if the Town will vote pursuant to the provision of Chapter 39, Section 10 to accept Holly Berry Trail as a public way, or act on anything relative thereto.

Requested by 10 Citizen Petition

This Article would accept Holly Berry Trail as a public way.

The Advisory Board does not recommend this Article. We agree with the Planning Board that the Town would be assuming long-term liability for a stormwater drainage system that we cannot clean, repair or maintain.

ARTICLE 45: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen

This is an annual Article that would transfer money into the Town's Stabilization fund if necessary.

The Advisory Board will make its recommendation at Town meeting.

ARTICLE 46: To see if the Town will appropriate a sum of money from available funds and authorize the Assessors to use this sum to decrease the tax Rate for FY 2007, or act on anything relative thereto.

Requested by the Board of Selectmen

This Article would utilize $400,000 from the Town's Stabilization fund to reduce the overall Tax rate for Fiscal Year 2007.

The Advisory Board recommends this Article in the amount of $400,000. This is part of an ongoing plan that will use the Stabilization Fund to mitigate the tax rate effects of the school borrowing project.

INSTRUCTIONS TO ELECTED OFFICIALS

SALE OF THE FISH RIGHTS

You are directed to serve this Warrant by posting a copy thereof attested to by you in writing in each of five public places in the Town at least fourteen days before the time for holding and meeting called for in the Warrant. Hereof, fail not and make due return of the Warrant with your doings thereon to the Town Clerk of said Town on or before the 24th day of April, 2006.

Given under our hands at Norwell this _____ day of April in the year of our Lord, 2006.

BOARD OF SELECTMEN

At approximately 7:40 pm with a line of voters still waiting to check in, the Moderator, Roger E. Hughes, Jr., called the Special/Annual Town Meeting, which was held at the NORWELL MIDDLE SCHOOL, HENRY E. GOLDMAN GYM, to order. He stated that by the time the Constable's Return of Service, Invocation, and Pledge of Allegiance were accomplished, the voters would be in their chairs.

The Constable's Return of Service of the Warrant for the Special and Annual Town Meetings was read by the Town Clerk, Janice M. Lawson.

Rev. Chapin Garner, Pastor of the United Church of Christ, was called upon to give the Invocation.

As the Veterans' Agent, Richard A. Caldwell was ill, the Moderator led the assembly in The "Pledge of Allegiance to the Flag".

The following introductions were made by Moderator Hughes:

Town Counsel: Robert E. Galvin, Esquire
Town Administrator: James M. Boudreau
BOARD OF SELECTMEN:
John G. Mariano, Chairman
Donald A. Mauch, Vice Chair
Richard A. Merritt, Clerk

ADVISORY BOARD:
Patrick J. Haraden, Chair
Jason Brown, Vice Chair
Brian S. Noble
Chester Flynn
Spencer A. Joseph
Ralph Gordon
Charles R. Dirk
J. Richard Hartigan
Caroline Hughes
Jasmine Heffernan, Secretary

Town Clerk: Janice M. Lawson
Assistant Town Clerk: Patricia M. Anderson

Our new Town Accountant, Donna Mangan, was introduced.
Assistant Town Accountant: Rita Turco

The Moderator explained the rules of the meeting which follow the Town Bylaws and "Roberts Rules of Order".

The authority cards received by the voters on Monday evening were "orange" for the Special Town Meeting; and "bright green" for the Annual Town Meeting.

The voters also received two YES/NO slips for borrowing: "blue" for Special Town Meeting Article #12 if needed; and "green" for Article No. 3 of the Annual Town Meeting, if needed.

Moderator Hughes went on to explain the rules further:

1. To save time, please come to one of the microphones before you wish to speak.
2. After being recognized by the Moderator, identify yourself and give your address.
3. Speak only to the issues and not to personalities.
4. The main motion may be slightly different that what is printed in the Warrant.
5. Anyone can amend an article, but he/she must do so in writing and present a copy to the Moderator and Town Clerk.
6. One amendment will be discussed and voted on before any other amendment will be allowed. Then, we will turn to the main motion and vote.
7. Reconsideration: Traditionally, reconsideration may occur the same night an article is voted, or the following night.

However, this evening with a Special Town Election planned for Saturday, May 20, 2006, with three "pyramid" type override questions to be voted on, a motion was made by Advisory Board Chairman, Patrick Haraden, it was seconded, and the MAJORITY VOTED that all money articles be deferred until Tuesday, May 30, 2006, same time, same place.

With the deferred money articles vote taking place, there will be no "Reconsideration" tonight or tomorrow night (May 8, 2006 or May 9, 2006) on any of the money articles.

At approximately 8 pm, the Moderator made a motion to suspend the Annual Town Meeting to take up the business of the Special Town Meeting. It was seconded and voted.

SPECIAL TOWN MEETING, MAY 8, 2006

Article No. 1: (Majority Vote Required)

John Mariano, Chairman of the Board of Selectmen, made a motion, it was seconded, and UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $72,000.00 and the sum of $16,000.00 from FY2005 Water Department Surplus, to meet increases in energy costs for Fiscal Year 2006; said sum to be apportioned by the Town Accountant to the applicable line items in Article No. 2.

Article No. 2: (Majority Vote Required)
A motion made by Donald A. Mauch, Vice Chairman of the Board of Selectmen, was seconded and UNANIMOUSLY VOTED to transfer from the Unemployment Compensation line item 1-75-229-5173 the sum of $10,000.00 to be utilized for the cost of engineering review and consultation for the Queen Anne Corner, so called, reconstruction project.

Article No. 3: (Majority Vote Required)
A motion made by Paul Foulsham, Highway Surveyor/Director, to transfer from FREE CASH the sum of $159,627.00 to be added to line item 01-300-268-5532, Snow Removal and Sanding, was seconded and UNANIMOUSLY VOTED.

Article No. 4: (Majority Vote Required)
Paul Foulsham, Highway Surveyor/Director,
made a motion to transfer from Unemployment Compensation line item 1-75-229-5173 the sum of $7,500.00 to be expended under the direction of the Highway Surveyor for engineering purposes to bring the Highway Department facility into EPA/DEP compliance. It was seconded and UNANIMOUSLY VOTED.

Article No. 5 : (Majority Vote Required)
Peter Dillon, member of the Board of Health, moved to transfer from FREE CASH the sum of $6,828.00 to be added to line item 1-501-282-5309, Trash Removal. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 6: (9/10 Vote Required)

Richard A. Merritt, Clerk of the Board of Selectmen, moved to transfer from the School Department, line item 1-301-0003-1430-010-4-00-8, Legal Services for School Committee, the sum of $50,000.00 and transfer $7,841.00 from Unemployment Compensation, line item 1-75-229-5173 for the payment of unpaid bills from a prior fiscal year. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 7: (Majority Vote Required)
James M. Boudreau, Town Administrator, moved to transfer the sum of $29,000.00 from line item 1-101-169-5110, Police Clerical, to line item 1-101-126-5110, Police Salaries. This was seconded and UNANIMOUSLY VOTED.

Article No. 8: (Majority Vote Required)
A motion was made, seconded, and it was VOTED TO INDEFINITELY POSTPONE Article No. 8. (.....to purchase a parcel of land in Norwell and authorize Board of Selectmen to execute a Purchase and Sales Agreement....)

Town Moderator Roger Hughes stated that there were several articles in this warrant where he would like to step down as Moderator and appoint Richard Merritt, Board of Selectmen, as Temporary Moderator, to prevent any conflict of interest. These were Articles Nos. 9 (STM), and ATM 14, , 28, and 29.

Article No. 9: (Majority Vote Required)
Temporary Moderator Richard A Merritt presided. Allison Demong, Communtiy Preservation Committee, moved to amend the purposes of Article No. 7 of the Special Town Meeting of May 9, 2005, and expand the purposes to include: permitting, site design, professional fees, as well as, repair, rehabilitation, and renovation to the single family dwellings so long as they remain affordable housing. Said expenditures to be under the direction of the Community Preservation Committee. This motion was seconded and it was UNANIMOUSLY VOTED.

Article No. 10: (Majority Vote Required)
Gregg McBride, Community Preservation Committee, moved to transfer the sum of $85,000.00 from the Community Preservation fund, pursuant to Mass. General Law Chapter 44B, for recreational purposes, for the design, permitting and construction of improvements to public access to the two (2) Town landings on the North River at Bridge Street and at the end of Chittenden Lane. Expenditures are to be made under the control of the Community Preservation Committee. Unexpended funds remaining in this Article after June 30, 2008 shall revert to the Community Preservation Fund. This motion was seconded and the MAJORITY VOTED for it.

Article No. 11: (Majority Vote Required)
Charles Markham, Community Preservation Committee, moved, it was seconded, and UNANIMOUSLY VOTED to transfer the sum of $30,000.00 from the Community Preservation Fund, pursuant to Mass. General Law Chapter 44B, for recreational purposes, for the design, engineering and construction of an Outdoor Education Center to be located at Hatch Pond near the Cole Elementary School. Expenditures for this project shall be under the control of the Community Preservation Committee. Unexpended funds remaining in this Article after June 30, 2009 shall revert to the Community Preservation Fund.

Article No. 12: (Majority Vote Required)
Fred St. Ours, Board of Water Commissioners, moved, it was seconded, and UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 12. (.....to borrow $3,106,000 from the Mass. Water Pollution Abatement Trust for the construction of new municipal wells,.....)

At 8:45 pm, a motion was made by Moderator Hughes, it was seconded, and UNANIMOUSLY VOTED to dissolve the Special Town Meeting and take up the articles of the ANNUAL TOWN MEETING.

Presentations regarding the budget were done by John Mariano, Board of Selectmen; Pat Haraden, Advisory Board Chair; Henry Goldman, Library Trustee; Tom Bigger, School Committee; and Donald Mauch, Board of Selectmen.

MINUTES OF THE ANNUAL TOWN MEETING, MONDAY, MAY 8, 2006 AND TUESDAY, MAY 9, 2006

Article No. 1: (Majority Vote Required)
A motion was made by John Mariano, Chair, Board of Selectmen, to accept the reports of the Town Officers, Boards, Departments, Committees and Commissions, as printed in the 2005 Annual Town Report. This was seconded and UNANIMOUSLY VOTED.

The Moderator then allowed all the proponents of an override and those that were opposed to an override speak. When there were no others who wished to speak, voting on the articles began.

Article No. 8: (Majority Vote Required)
Donald A. Mauch, Selectman, moved to amend the Town of Norwell Bylaws, Article XIV, Traffice Rules and Orders, Article No. 5, Operation of Vehicles, by adding at the end thereof the following new section:

Section No. 4: Engine Braking Prohibited.
The use of Engine Brakes, so-called, shall be prohibited on all streets in the Town of Norwell. *Engine ("Jake") braking is allowed in emergency situations and to avoid injury, or an accident, and the truck drive may use that claim as an affirmative defense if ticketed for violating the Town Bylaw.* Violations of this section shall be enforced by the Norwell Police Department by the issuance of a civil citation with a fine not to exceed $300.00 per violation, and shall be disposed of as a non-criminal disposition under M.G.L. Ch. 40, section 21D.

*Theodore G. Dawe, 43 Wilder Road, presented this amendment, which was voted as part of this bylaw.

Article No. 11: (Majority Vote Required)
Donald A. Mauch, Selectman, moved to amend the Town of Norwell General Bylaws, Article IV, Town Meetings, Section 3, by striking the first sentence therein and replacing it with the following new text: "The Annual Town Meeting shall be held at 9:00 am on the second Saturday of May, or as deemed necessary, by the Board of Selectmen, of each year, and Special Town Meetings may be held at such time as the Selectmen may order." This motion was seconded, and after a fairly lengthy discussion, the motion FAILED TO CARRY.

Article No. 14: (2/3 Vote Required)
Moderator Roger Hughes again stepped down for this article and Richard A. Merritt became Temporary Moderator.

Steven Ivas, Water Commissioner, moved to amend the Town of Norwell Zoning Bylaws, Section 4300, 4400, and 4500, Aquifer Protection Bylaw, by striking said section as printed in the warrant, which precedes these Minutes, and replacing it with a new section as printed in the Warrant, with the exception of Section 4360, "m)", which should read:

"Commercial photographic processing with discharge to the ground."

Article No. 14 was seconded and it was UNANIMOUSLY VOTED.

Article No. 15: (Majority Vote Required)
Peter Dillon, Board of Water Commissioners, moved to INDEFINITELY POSTPONE this article. This motion was seconded and it was UNANIMOUSLY VOTED. ....(to amend Watershed/Aquifer Protection Map of the Town of Norwell, 2006....)

Article No. 18: (Majority Vote Required)
Peter Dillon, Board of Health, moved, it was seconded, and UNANIMOUSLY VOTED to authorize the Board of Health in accordance with M.G.L. c. 40, section 4A, to enter into an inter-municipal agreement with one or more governmental units to provide public health services which the Board of Health is authorized to perform, in accordance with an Inter-Municipal Mutual Aid Agreement to be entered into between the Town and various governmental units.

Article No. 19: (Majority Vote Required)
Edward Dunford, Board of Assessors, moved, it was seconded, and UNANIMOUSLY VOTED,
to transfer the sum of $22,000.00 from the FY2006 Overlay Surplus Account to Article 19 of the 2004 Annual Town Meeting for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in Town funded directly by the Town.

Article No. 22: (Majority Vote Required)
Mary Ellen Coffey, Senior Tax Relief Committee, moved, it was seconded, and
UNANIMOUSLY VOTED, to reduce the rate of interest that accrues on property taxes deferred by eligible Seniors under M.G.L. Chapter 59, Section 5, Clause 41A, from eight (8%) percent to four (4%) percent, with such reduced rate to apply to taxes assessed for any fiscal year beginning on or after July 1, 2006.

Article No. 23: (Majority Vote Required)

James Boudreau, Town Administrator, moved that the Town vote to adjust the personnel Classification Plan by amending the following
Position: (It was seconded and the motion carried.)

Position Title	Present Grade	Increase to
Administrative Aide-Selectmen	6	9

And, to change the job title for Administrative Aide to "*Assistant to the Town Administrator*".

Article No. 25: (Majority Vote Required)
Cliff Prentiss, Conservation Commission,
made a motion to authorize the Board of Selectmen to transfer the care, custody, and control of three (3) parcels of land, consisting of approximately 116 acres, known as Block 6, Lot 20 and Lot 19, on Assessors Map 3C, 2B, and 2D, and Block 9, Lot 28, on Assessors Map 3D, to the Conservation Commission. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 26: (Majority Vote Required)
Cliff Prentiss moved to authorize the Board of Selectmen to transfer the care, custody, and control of three (3) parcels of land consisting of approximately 9.9 acres, known as Block 68, Lots 2, 3, and 40, on Assessors' Map 24D, to the Conservation Commission. This motion was seconded and UNANIMOUSLY VOTED.

As it was approximately 11:00 pm, a motion was made, seconded and UNANIMOUSLY VOTED to adjourn this Town Meeting until Tuesday evening, same time, same place.

On Tuesday evening, May 9, 2006, at 7:30 pm, Moderator Roger E. Hughes, Jr., called the meeting to order.

He briefly reviewed the rules for the evening and continued on with the Articles of the
Town Meeting Warrant.

Article No. 16: (2/3 Vote Required)
Bruce Graham, Planning Board, moved to amend the Norwell Zoning Bylaws, Article V, by adding the following definitions thereto:
This motion was seconded and UNANIMOUSLY VOTED.

Stormwater:
Stormwater shall mean water that collects as a result of precipitation, including rainfall, sleet, hail, snow, or snowmelt.

Stormwater Runoff:
Stormwater Runoff shall mean water that moves as a result of precipitation, including rainfall, sleet, hail, snow or snow melt.

Stormwater Basin:
A Stormwater Basin shall mean any surface or subsurface drainage system that is designed to collect, slow, infiltrate or otherwise control stormwater or stormwater runoff or a combination of stormwater and stormwater runoff.

Stormwater Management System: (As printed in the Warrant, which precedes these minutes.)

Town Stormwater Management System: (As printed in the Warrant, which precedes these minutes.)

Bruce Graham read the Report of the Planning Board. The Public Hearing was held on January 18, 2006 for this Article and Article No. 17 and the vote was 4-0 in favor.

Article No. 17: (2/3 Vote Required)
Bruce Graham, Planning Board, moved to amend the Norwell Zoning Bylaw Article II,
section 2423, by deleting the existing section in its entirety and substituting the proposed new language which is printed in the Warrant, and precedes these minutes. YES: 107; NO: 66
Need 115 to pass. MOTION FAILED ON 5/8/2006.

Article No. 28: (2/3 Vote Required)
Moderator Roger Hughes stepped down and Richard A. Merritt presided as Temporary Moderator for this Article.

Joseph Carty, Historical Commission, moved to amend the Town of Norwell Zoning Bylaws, section 3400, Building Demolition, subsection "c", Regulated Buildings, Structures and Properties, by adding at the end of the first paragraph of said subsection "c" the following
new text: "or (4) any building, structure or property built in 1930 or earlier". This motion was seconded, and the Moderator declared that this motion FAILED TO CARRY.

Article No. 29: (2/3 Vote Required)
Richard A. Merritt presided as Temporary Moderator for this Article.

Joseph Carty, Historical Commission moved to amend the Town of Norwell Zoning Bylaws, section 3400, Building Demolition, subsection (d), Procedure (7) to change the demolition permit for a period to one (1) year and the expiration also to one (1) year. This motion was seconded and the Moderator declared that this article FAILED TO CARRY. The public hearing of the Planning Board was held on April 12, 2006 and the vote was 3 in favor and 1 opposed.

Article No. 30: (Majority Vote Required)
Jodi Vermette, Historical Commission, moved to designate Wildcat Lane, Green Street, Pleasant Street, Mount Blue Street, Winter Street, Lincoln Street, Pine Street, and Circuit Street as SCENIC ROADS, pursuant to the Mass. Scenic Roads Act, M.G.L. Chapter 40, section 15C. This motion was seconded and
this motion CARRIED.

Article No. 32: (Majority Vote Required)
Charles Markham, Community Preservation Committee, moved to establish an "Open Space Maintenance Fund" to be administered by the Conservation Commission under M.G.L. Chapter 40, Section 8C. Said Fund may receive grants, donations, bequests, appropriations and transfers. Interest earned by the Fund shall remain in the Fund. This Fund may be used by the Conservation Commission at their discretion for the care and maintenance of any Town owned property. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 33: (Majority Vote Required)
Nancy Dooley, Community Preservation Committee, moved to set aside certain sums of money raised through the Community Preservation Act, M.G.L. Chapter 44B, sections 3-7 from the main Community Preservation Funds into the three (3) Community Preservation Fund Reserve Accounts. The three (3) Reserve Accounts are to be allocated additional funds as follows: $100,000.00 into the Open Space Reserve Account; $100,000.00 into the Affordable Housing Reserve Account; and $100,00.00 into the Historic Preservation Reserve Account. This motion was seconded and the motion was CARRIED.

Article No. 34: (Majority Vote Required)
Joseph Carty, Community Preservation Committee, moved to extend the deadline for Article No. 22 of the Annual Town Meeting of May 9, 2005, for the preservation and restoration of the Civil War Monument in Norwell Center, from June 30, 2006 to June 30, 2007. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 35: (Majority Vote Required)
Pat Richardson, Community Preservation Committee, moved to extend the deadline for Article No. 37 of the Annual Town Meeting of May 20, 2004 for the irrigation and improvements to the school athletic fields to June 30, 2007. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 36: (Majority Vote Required)
Charles Markham, Community Preservation Committee, moved, it was seconded, and the MAJORITY VOTED to TRANSFER THE SUM OF $20,000.00 FROM THE historic Preservation Sub-account of the Community Preservation Fund to be used under the direction and control of the Norwell Historic Commission in conjunction with the Norwell Town Center revitalization efforts. Funds may be used for any historical purpose in the Norwell Town Center, including signage, preservation or acquisition of historic assets, or other historic purpose, pursuant to M.G.L. Chapter 44B, subject to the approval of the Community Preservation Committee, Unexpended funds remaining in this article after June 30, 2008 shall revert to the Community Preservation Fund Historic Preservation Sub-account.

Article No. 37: (Majority Vote Required)
Gregg McBridge, Community Preservation Committee, moved to amend the Town of Norwell Bylaws by adding at the end the following new section regarding a "Town Landing Bylaw". It is as printed on the yellow hand out given out at Town Meeting and as follows:

Town Landing Bylaw
Town landings for the purpose of this Bylaw are defined as the landing to the east of the Union Street Bridge and at the end of Chittenden Lane.
Town Launching Ramps

The proper usage of the Town launching ramps shall be determined by the Selectmen. This shall include the proper parking of trailers and motor vehicles at the approach to the ramp.

Persons using Town ramps for hauling of larger boats requiring cradles shall apply to the Selectmen for permission. Such cradles and/or boats shall not remain on the Town ramps for more than one tide.

No major boat repairs or complete maintenance work shall be done at Town ramps or docks. Ramps and walkways shall be kept clear at all times. After twenty-four (24) hours, equipment stored in violation of this section will be considered abandoned and removed at the owner's expense.

The Town is not responsible for any loss or damage to boats at Town ramps and docks. Owners will be held responsible for damage to structures and pilings owned by the Town.

Open alcoholic beverages are prohibited from the landings and the adjacent parking areas.

No person shall swim or dive from Town owned ramps or docks.

Minor children shall not be allowed the use of Town launch ramps without adult supervision unless age 16 or 17 and in possession of a "Boating Safety Certificate".

Town Landing Parking Areas

Parking at the Union Street Bridge and Chittenden Landing is restricted to Norwell residents and property owners. All vehicles parked on these properties must purchase and visibly display a current Norwell Town Landing Permit (available from the Board of Selectmen) or Norwell Recycling Permit (available from the Board of Health).

Unauthorized parking in all roadways and fire lanes approaching the parking lot, is prohibited at all times. Fines for such unauthorized parking will be determined by the Board of Selectmen. All parking is on a first come, first serve basis. When parking capacities are reached, vehicle access restrictions will be imposed.

Hours of Use

The landings shall be closed to all use daily from Sunset to Sunrise.

Penalties
Whoever violates any provision of this bylaw or any rule or regulation adopted under this bylaw will be fined and/or may have their use privileges revoked. Fines will be determined by the Board of Selectmen. This bylaw shall be enforced by the Selectmen or their designees. In addition to the foregoing, and as an alternative to such methods of enforcement, the Board of Selectmen or their designee, may at their discretion, enforce the provisions of this bylaw using the non-criminal disposition manner provided for under M.G.L. Chapter 40, Section 21D.

Severability

In the event that any provision, section, or clause of this bylaw is herein judicially found to be invalid, such invalidity shall not affect the validity of the remaining portions of the bylaw.

Article No. 38: (Majority Vote Required)

A motion was made by John Mariano, Chairman of the Board of Selectmen, seconded and it was UNANIMOUSLY VOTED to accept the provisions of Massachusetts General Laws, Chapter 40, Section 22F, which increases the fees charged by the Town for Municipal Lien Certificates from $25 to $50.

Article No. 40: (Majority Vote Required)

A motion was made by Kenneth Hogeland, 3 Juniper Lane, it was seconded, but it FAILED TO CARRY.

(....To amend the Town of Norwell Bylaws, Article IV, Town Meetings, Section 6, by deleting said section in its entirety and substituting in place thereof the following new section.....The Town Clerk assisted by the Town Moderator shall choose the order of each category of articles for Town Meeting..... for consideration in a lottery fashion....)

Article No. 41: (Majority Vote Required)

A motion was made by James Boudreau, Town Administrator, it was seconded and UNANIMOUSLY VOTED to authorize the Board of Selectmen to grant an easement or license to connect to the Pinson Lane Surface Water Drainage System to the Parker Street Public Drainage System substantially as shown in the approved subdivision plan for the benefit of the following improved lots:

Pinson Lane Address	Assessors' Designa.
5	52-111
6	52-53
7	52-110

Article No. 43: (2/3 Vote for Zoning Articles)

An amended motion was made by Daniel DeWolfe, 461 Washington Street, and seconded, to amend Section 6470 of the Norwell Zoning Bylaws and the Zoning Map in order to change the zoning classification of the following properties having frontage on or bounded by Washington Street, Norwell, MA, from Residential District "B" to Business District "B" for 455, 461, and 467 Washington Street only. After a lengthy discussion with many people in opposition, and the fact that the Planning Board opposed the article, Mr. DeWolfe made a motion to INDEFINITELY

POSTPONE this Article which was seconded, and the MOTION CARRIED.

Article No. 44: (Majority Vote Required)

A motion was made by James Boudreau, Town Administrator, seconded, and UNANIMOUSLY VOTED to POSTPONE Article 44, and include Article No. 44 in the Warrant, for the Fiscal 2008 Annual Town Meeting.

Article No. 45: (Majority Vote Required)

A motion was made by John Mariano, Selectman, seconded, and UNANIMOUSLY VOTED to INDEFINITELY POSPTONE Article No. 45. (.....to transfer from available funds a certain sum to be added to the Stabilization Fund.....)

At this point, the Moderator made a motion to adjourn because all of the articles that were not deferred to May 30, 2006 had been acted upon.

This motion was seconded and UNANIMOUSLY VOTED, at 9:50 pm.

MINUTES OF THE ANNUAL TOWN MEETING, TUESDAY, MAY 30, 2006

ATTENDANCE:

Precinct One:	112
Precinct Two:	174
Precinct Three:	181
TOTAL 467	

At 7:40 pm, Moderator Roger E. Hughes, Jr. called the meeting, which was held in the Gymnasium of the Norwell Middle School, to order.

The Moderator quickly reviewed the rules of the meeting stating that he was aware that there might be motions made to move money allotted to various departments as a result of the passing of the Question No. 1 Override at the May 20, 2006 Special Town Election, to another department, and this cannot be done.

A line item can be "held", discussed, and amended downward but a line item cannot be increased.

The deferred money articles that will be discussed and voted on this evening are: 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 20, 21, 24, 27, 31, 39, 42, and 46. Also, any of the items voted on Tuesday, May 9, 2006, could come up for Reconsideration.

Article No. 2: (Majority Vote Required)

A motion was made by Patrick Haraden, Chairman of the Advisory Board, it was seconded, and the MAJORITY VOTED to raise and appropriate, transfer from available funds the sums of money set forth in the "Advisory Board Recommends" column under Article No. 2 in the revised handout of Article No. 2, given to each voter this evening, to defray the charges, expenses, and salary obligations of the Town, including debt and interest, for the ensuing year, to provide for a Reserve Fund and to fix salaries and compensation for all Elected Officers of the Town; and to meet said appropriations, from Water Grants, the sum of $114,000; from Water Surplus, the sum of $539,791.09; from Water Revenues, the sum of $837,041.54, to be applied to the Water Operating budget, and to transfer the sum of $27,011 from Community Preservation Revenue to Department 5-237, Salaries, and 5-205, Expenses, for the Community Preservation operating budget.

At this time, Moderator Hughes explained to the assembly that he would read each line item and if anyone had a question or an objection to the figures to say "hold", and that item would be discussed after he finished reading all the line items.

"Holds" were placed on 2-101, 2-109, 2-222, 2-200, 2-268, and 2-156.

A motion to vote on all line items that were not "held" was made, seconded, and passed UNANIMOUSLY.

The Moderator took the "held" items one by one:

2-101, Board of Selectmen's Salaries: An amendment by Kenneth Hogeland, 3 Juniper Lane, to reduce the salary line by $2,000 because one of the Selectman does not take a salary FAILED TO CARRY. Another amendment by J. Marlin Hawthorne, 353 Summer Street, to reduce the salary line to "$0.00" was also defeated. The MAJORITY VOTED for the $6,500 line item.

2-109, Assessors, Board Members' Salaries: "hold" was withdrawn. UNANIMOUSLY VOTED the line item as printed, $4,150.00.

2-222, Central Computer Expenses: "hold" was waived. Line Item $120,000 was UNANIMOUSLY VOTED.

2-200, School Department Budget: An amendment by Robert Bordewieck, Green Street, to lower the total line item by $66,000 FAILED TO CARRY. The MAJORITY VOTED for the original line item.

2-268, Snow Removal and Sanding: J. Marlin Hawthorne, Summer Street, moved to amend this line item by increasing the appropriation by $200,000, from $122,600 to $322,600, in order to more accurately reflect actual expenses. Moderator Hughes reminded Mr. Hawthorne that he could not allow this amendment as line item figures can be lowered but not increased. The original line item amount was UNANIMOUSLY VOTED.

2-156, Board of Health Salaries: The "hold" was withdrawn". The MAJORITY VOTED the line item of $1,050 as printed.

Article No. 3: (Exhibit "A") Majority Vote Required) MAJORITY VOTED to transfer the sum of $255,500.00 from Overlay Surplus and the sum of $15,000.00 from FY2005 Water Surplus to purchase Fiscal Year 2007 Capital budget items as shown on the handout marked "Capital Budget Exhibit "A", as follows:

	Techn. Improve.	$15,000OS
	Heat Exch. (1) Unit	$ 5,000OS
200	School Dept.	
	Repair Tennis Cts	$30,000OS
401	Water Dept.	
	Compressor	$15,000WS05
TOTAL EXHIBIT "A".....		$270,500

Article No. 3: (Exhibit "B") 2/3 Secret Ballot Vote Required

There were two wooden ballot boxes set on tables on either side of the Moderator. Each voter was given a white "YES/NO" slip when he/she checked in. When it was time for the Secret Ballot to be taken, the Moderator asked the voters to come forward in two lines and deposit their vote in the respective ballot box and the other piece in a trash receptacle, which was right next to the ballot boxes. A checker was at each ballot box to insure that only one-half of the ticket was put in the ballot box and the other discarded.

After the vote finished, the checkers, along with the Constable, took the ballot boxes to a table in the cafeteria to count the ballots.

YES: 383; NO: 15; (266 NEEDED TO PASS)

VOTED to authorize the Treasurer, with the approval of the Board of Selectmen to borrow $582,000.00 under the provisions of Chapter 44 of the Mass. General Laws, for the purpose of purchasing Fiscal Year 2007 Capital Budget items as shown on the handout marked "Exhibit "B" and to meet the first year cost of said borrowing, the sum of $49,176 be transferred from Overlay Surplus.

The Capital Budget, Exhibit "B" items to be funded are as follows:

Dept. No.	Purpose/Authority	Amount
103	Fire Dept.	
	Fire Engine	$300,000
	Roof/Gutters Pine St.	$ 27,000
101	Police Dept.	
	Police Station Roof	$ 60,000
65	Town Hall	
	Boiler Replacement	$100,000
	Roof Replacement	$65,000
	Window Repair OsbRm	$30,000
TOTAL BORROWING.....		$582,000

First Year Borrowing Cost....$49,176 – O.S.

Article No. 4: (Majority Vote Required)

A motion was made by Robyn Schmitt to raise and appropriate from available funds the sum of $30,000 to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2007; said sum to be apportioned by the Town Accountant to the applicable line items in Article No. 2.
This motions was seconded, and it was UNANIMOUSLY VOTED.

Article No. 5: (Majority Vote Required)
A motion was made by Richard A. Merritt, Selectman, seconded, and UNANIMOUSLY VOTED to raise and appropriate from available funds the sum of $21,000, and transfer the sum of $11,000, from Water Revenues, to meet obligations for Union and Personal Contracts for Fiscal Year 2007; said sums to be apportioned by the Town Accountant to the applicable line items in Article No. 2.

Article No. 6: (Majority Vote Required)
A motion was made by Richard A. Merritt, Selectman, seconded, and UNANIMOUSLY VOTED, to transfer from Overlay Surplus the sum of $100,000.00, to be used for the purchase of new financial accounting software for the Town.

Article No. 7: (Majority Vote)
A motion was made by John Mariano, Selectman, and seconded, to transfer the sum of $150,213 from Overlay Surplus for energy costs for Fiscal Year 2007; said sum to be apportioned to the applicable line items in Article No. 2. This motion was UNANIMOUSLY VOTED.

Article No. 9: (Majority Vote Required)
John Mariano, Selectman, moved to postpone consideration of Article 9, until the reconvened Annual Town Meeting on May 30, 2006.

On Tuesday, May 30, 2006, James Boudreau, Town Administrator moved to authorize the Board of Selectmen, pursuant to Mass. Gen. Laws, c.40, sec. 14, and Mass. Gen. Laws c. 79, to take an 82,800 s.m.+/-, "temporary construction easement", over a portion of a certain parcel of land located at 67 Bridge Street, Norwell, MA, which said "temporary construction easement" is necessary for the reconstruction of the Union Street/Bridge Street bridge over the North River, Bridge No. M-07-001=N-24-001. Said temporary construction is located on the northerly side of Bridge Street and is bounded and described as follows:

Beginning at a point on the Northerly side of Bridge Street,
THENCE Northerly 70 degr. 38' 45" East 11.82';
THENCE South 19 degr. 23' 15" East 43.97'
THENCE South 73 degr. 30' 35" West 12.66'
THENCE North 19 degr. 11' 51" West 32.58' to the point of beginning, containing 82.800 s.m., more or less. This was seconded and UNANIMOUSLY VOTED.

Article No. 10: (Majority Vote Required)
A motion was made by Richard A. Merritt, Selectman, seconded, and UNANIMOUSLY VOTED to DEFER Article No. 10 to the reconvened Town Meeting on May 30, 2006.

On Tuesday, May 30, 2006, Richard A. Merritt, Selectman, moved to INDEFINITELY POSTPONE ARTICLE NO. 10. This motion was seconded, and the MAJORITY VOTED.

Article No. 12: (Majority Vote Required)
A motion was made by Paul Foulsham, Highway Surveyor/Director, to transfer the sum of $200,000.00 from Overlay Surplus to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 13: (Majority Vote Required)
A motion was made and seconded by Paul Foulsham, Highway Surveyor/Director, to transfer the sum of $35,000.00 from Overlay Surplus/Free Cash to be expended under the direction of the Highway Surveyor for engineering and construction purposes to bring
the Highway Department facility into EPA/DEP compliance. This motion was UNANIMOUSLY VOTED.

Article No. 17: (2/3 Vote Required for Zoning
Articles) A motion was made by Bruce Graham, Planning Board to amend the Norwell Zoning Bylaws, Article II, section 2423, by deleting the existing section in its entirety and substituting new language as printed in the Town

Meeting Warrant which precedes these minutes. This motion was seconded and the Moderator declared that the motion FAILED
TO CARRY.

The Moderator's ruling was questions by seven voters and a hand count was taken. YES: 107;
NO: 66 (Need 115 to pass) MOTION FAILED.

On Tuesday, May 30, 2006, a motion to Reconsider Article No. 17 was made by Bruce Graham, Plannning Board, and seconded. The MAJORITY VOTED to allow Reconsideration.

Mr. Graham then moved to INDEFINITELY POSTPONE Article No. 17. This motion was seconded and UNANIMOUSLY VOTED.

General Laws, Chapter 41, Section 108P, relative to the compensation of the Treasurer, and in order to meet said obligations of said Section 108P, transfer the sum of $1,000.00 from Overlay Surplus to be added to Line Item No. 1-35-111-5110, Treasurer/Collector's Salary. This motion was seconded and UNANIMOUSLY VOTED.

Article No. 42: (Majority Vote Required)
Patrick Haraden, Chairman of the Advisory Board, moved to transfer the sum of $2,000.00 from Overlay Surplus to contract with South Shore Women's Center for domestic violence intervention and prevention services for its residents. This motion was seconded, and UNANIMOUSLY VOTED.

Article No. 46: (2/3 Vote Required)
A motion was made by John Mariano, Selectman, to transfer the sum of $400,000 from the Stabilization Fund and authorize the Assessors to use this sum to decrease the tax rate for FY 2007. This motion was seconded and UNANIMOUSLY VOTED.

There were no "INSTRUCTIONS TO ELECTED OFFICIALS".

The first Fish Right went to Chester Flynn, 28 Mount Blue Street, for $200.00.

The second Fish Right went to Donald A. Mauch, 296 Main St., for $1,000.00

These monies, when collected, go into the General Fund of the Town.

There being no more business to discuss, a motion was made by Moderator Hughes to dissolve this Town Meeting, it was seconded, and UNANIMOUSLY VOTED, AT 9:35 PM.

Respectfully submitted,
Janice M. Lawson, CMMC
Norwell Town Clerk

NORWELL TOWN CLERK

RECORD OF SPECIAL TOWN ELECTION, SATURDAY, May 20, 2006

Pursuant to the Warrant, promptly at 8:00 am, on Saturday, May 20, 2006, the polling place for all three precincts, the Henry E. Goldman Gymnasium, of the Norwell Middle School, was opened for eligible voters to cast their ballots.

Those election workers in Precinct One, the Cole School District, were as follows:
Ann Valair, Warden, Amy Locke, Clerk, Anne Fridgen, Ellen Torrey and Pauline Kernan.

In Precinct Two, the Middle School District, Lynne Rose, Warden, Jean Valicenti, Clerk, Beatrice Griffiths, Mary Ellen Wetzel, Frank Nagle, and Lois Arnold were the election workers.

Precinct Three, Vinal School District, Jeanne Scully acted as Warden, B. Jean Snow as Clerk, and Gertrude Daneau, Mildred Donahue, Patricia Leary and Eleanor (Deb) Bailey were election workers.

Alex Molino acted as Constable for all three precincts.

Janice M. Lawson, Town Clerk, and Elections Administrator, presided over all.

Total votes cast in Precinct One were: 1253, including 101 Absentee Ballots. In Precinct Two, 1488 voters were cast, including 143 Absentee Ballots. In Precinct Three, 1468 votes were cast, including 158 Absentee Ballots.

Tallying the results in an open meeting at Town Clerk's office resulted in the following count of votes cast:

	Shall the Town of Norwell be allowed to assess an additional:

RECORD OF STATE PRIMARY **SEPTEMBER 19, 2006**

Pursuant to the Warrant, all eligible voters from Precinct One, Two and Three met at one centralized polling place, the Norwell Middle School, located at 328 Main Street to cast their votes for candidates for the listed offices.

The following election workers were present:

In Precinct I, Ann Valair, WARDEN; Amy Locke, CLERK; Eleanor Bailey, Jeanne Scully, Diane
Sylvester, Anne Fridgen, Eleanor Larson, Joan Shea and Lois Arnold, TELLERS.

In Precinct II, Lynne Roase, WARDEN; Jean Valicenti, CLERK; Ellie Mayers, Bruce Burgess, Eleanor McCann, Tilda Baldwin, Margaret Dixon and John Holmes, TELLERS.

In Precinct III, Jeanne Scully, WARDEN; B. Jean Snow, CLERK; Jeanette Simmons, Gertrude Daneau, Pricilla Burgess, Barbara Meacham, Mary Donovan and Patricia Leary, TELLERS.

CONSTABLES on duty were Theodore Baldwin and Kevin Bullock.

CHIEF WARDEN over all was Town Clerk, Janice M. Lawson.

Polls opened for all precincts at 7:00 A.M. After 8:00 P.M. closing, tallies compiled in each of the three precincts were brought to the Town Clerk where the final tally of all precincts was made and publicly announced. Breakdown of the number of votes cast in each precinct is as follows:

In Precinct I, there were 532 Democratic votes cast including 13 absentee; 53 Republican votes including 4 absentee.

In Precinct II, there were 520 Democratic votes cast including 21 absentee; 46 Republican votes including 5 absentee.

In Precinct III, there were 537 Democratic votes cast including 14 absentee; 44 Republican including 2 absentee.

Total number of votes cast in all precincts was 1732 including 59 absentee.

As of September 19, 2006 there were a total of 7026 registered voter in Norwell. Those participating in the Primary represented 25% of the electorate.

Tallying in open meeting at Town Clerk's office resulted in the following count of votes cast:

RECORD OF STATE ELECTION
NOVEMBER 7, 2006

Pursuant to the Warrant, all eligible voters from Precinct One, Two and Three met at one centralized polling place, the Norwell Middle School, located at 328 Main Street to cast their votes for candidates for the listed offices and vote on Three Statewide Questions.

The following election workers were present:

In Precinct 1, Ann Valiar, WARDEN; Amy Locke, CLERK; Pauline Kernan, Mildred Donahue, Eleanore McCann, Ellen Torrey, Eleanor Larson and Margaret Dixon TELLERS.

In Precinct II, Lynne Rose, WARDEN; Eleanor Bailey, CLERK; Joan Shea, Patricia Bordewieck, Ellie Mayers, Lois Arnold, Beatrice Griffiths and Roberta Kates, TELLERS.

In Precinct III, Jeanne Scully, B. Jean Snow, CLERK; Jeanette Simmons, Gertrude Daneau, Helene Quinn, Mary Donovan, Matilda Baldwin and Joyanne Bond, TELLERS.

CONSTABLE on duty was Theodore Baldwin.

Chief warden over all was Town Clerk, Janice M. Lawson

Polls opened for all precincts at 7:00 A.M. Approximately twenty-five minutes prior to the polls closing a jam occurred in the Precinct II Acu-Vote machine. A technician from L.H.S. Associates was called and he arrived at 9:25 P.M. to remedy the problem. After 8:00 P.M. closing, tallies compiled in each of the three precincts were brought to the Town Clerk where the final tally of all precincts was made and publicly announced.

The number of votes cast in each precinct is as follows:

Precinct I, 1538 votes were cast including 87 returned absentees,

Precinct II, 1710 votes were cast including 105 returned absentees,

Precinct III, 1673 votes were cast including 106 returned absentees.

Total votes cast in all precincts were 4921 including 298 absentees.

Out of a population of 10498, 7314 are registered voters and of those 67% participated in the election process.

Tallying during open meeting at the Town Clerk's office resulted in the following count:

SENATOR IN CONGRESS	PREC.I	PREC.II	PREC.III	TOTAL

REPORT OF THE BOARD OF REGISTRARS

On November 1, 2006 the population of Norwell was 10,498. The number of residents and voters fluctuates from month to month. As of November 6, 2006, the breakdown of voters was as follows:

*Democrats	1755
**Inter 3rd Party	3
*Republican	1552
**Green-Rainbo	7
**Libertarian	25
*Unenrolled	3946
TOTAL.....	7288

* = Political Party or "Unenrolled"

**Inter 3rd Party is a political designation. Many people get this mixed up with "Independent" which we now call "Unenrolled".

Green-Rainbow, Inter. 3rd Party, and Libertarian are political designations. A new political designation this year is called "Working Families". Those voters registered in political designations *cannot* vote in a State Primary or a Presidential primary, but they may vote in all other elections.

Those voters who are "Unenrolled" may choose the party for which they would like to vote and if they would like to remain "Unenrolled", they do not have to fill out a change of party card anymore.

The Libertarian and Green-Rainbow parties lost their party status in 2005 since their presidential candidates did not receive at least 3% of the votes cast at the November 2, 2004 State Election. They have reverted back to political designations.

Special Voter Registration hours were held twenty (20) days before the Annual Town Election, the Special Town Election, the State Primary, and the State Election. At those times, the Town Clerk's office was open from 8 am until 8 pm.

Special Voter Registration hours were also held for the Special Town Meeting ten (10) days before, and the Annual Town Meeting, twenty (20) days before the meeting. Again, the Town Clerk's office was open on those days from 8 am until 8 pm.

Many petitions were received and certified for the State as well as nomination papers for the Town Election.

569 new voters registered in 2006.

For the last few years many more young people have registered and have voted. The Board would like to thank the Principal, the Guidance Department, and teachers of Norwell High School for keeping the students informed of voting requirements and having all those interested in becoming voters fill out a voter registration affidavit.

The requirements for registering to vote in Massachusetts are: one must be a citizen of the United States of America, a resident of the Town, and at least eighteen (18) years of age on or before the next election.

One may register to vote or change one's party affiliation at the Registry of Motor Vehicles or any other State agency. Mail-In registration forms can also be obtained at the Norwell Post Office, the Norwell Public Library, and of course, the Town Clerk's office.

The Board of Registrars and the Town Clerk are always looking for people to work at the polls, especially those residents registered in one of the parties. If you are interested, kindly call the Town Clerk's Office at 781-659-8072/8073.

Not only will you be paid an hourly wage of $10.55/hour for Wardens and Clerks and $9.74/hour for Checkers/Tellers. You will receive hot and cold beverages and a snack in the morning; lunch is provided by the School lunch program, and if it is a State Election, a light evening meal is provided as well. In the afternoon cold drinks and ice cream are available. Election days are long but the workers enjoy meeting their friends and neighbors.

Respectfully submitted,
BOARD OF REGISTRARS
Regina T. Giordani, Chair
George P. Kelley
Janice M. Lawson, Clerk
David A. Mayers, Jr.

REPORT OF THE BURIAL AGENT

The issuing of Burial Permits is one of the responsibilities of the Town Clerk, who is appointed annually as Burial Agent, by the Board of Selectmen.

A Funeral Director may not bury or make any other disposition of a decedent without a Burial Permit. Therefore, it is a necessity for the Burial Agent to be accessible. The Town Clerk's office is open Monday and Tuesday from 8 am until 4:15 pm; Wednesday, 8 am until 7:30 pm; Thursday, 8 am until 4 pm; and Friday, 8 am until NOON.

The cost of a Burial Permit is $10.00 and a certified copy of a Death Certificate is $6.00.

Arrangements have been made with the Communications Center at the Norwell Police Station, 40 River Street, for a Funeral Director or his agent to obtain a Burial Permit on a holiday or weekend, or after Town Offices close on weekdays, if a satisfactory Death Certificate is received and retained, and a check payable to the TOWN OF NORWELL for $10.00 is received for the Burial Permit.
Respectfully submitted,
Janice M. Lawson
BURIAL AGENT

JURY LIST INFORMATION

Since 1986, Plymouth County towns have been included in the "ONE DAY/ONE TRIAL" jury system.

Selectmen no longer draw the names of prospective jurors. The names and addresses of ALL residents (not just voters) seventeen years of age and older are provided to the Jury Commissioner through the office of the Secretary of State, with the prior permission of the Town Clerk, before June 1 of each year (Chapter 234A, MGL.)

From this list, which includes dates of births and occupations of all the names included, the Jury Commissioner prepares a randomly selected list of jurors.

A copy of this list is mailed to the Town Clerk's office, where it is posted for inspection during the latter part of the year. Names on this list are subject to be called for jury duty after January 1st of the next year.
Respectfully submitted,
Janice M. Lawson
TOWN CLERK

REPORT OF THE SUPERINTENDENT

Recognition and accomplishment continued for our schools and students in 2006. For the fourth consecutive year, Standard and Poor's School Evaluation Service recognized Norwell Public Schools as an *Outperformer*. This designation is based on the significant number of Norwell students scoring proficient and above on state reading and mathematics tests compared to districts with a similar economic profile. Only 30 school systems in Massachusetts were so recognized in 2006, and only 23 districts have outperformed for four consecutive years.

For the second year in a row, *Newsweek Magazine* identified Norwell High School among the top 1,000 public high schools in the country, ranking 374 out of over 27,000 public high schools nationwide. This ranking reflects the substantial increase in students taking advanced placement (AP) courses at Norwell High School. In 2006, there were 293 AP tests taken at Norwell High School, with 201 scoring 3

or better, the standard most colleges use to give students college credit for an AP course. By comparison, in 2002, there were only 169 tests taken, with 110 scoring at 3 or higher.

The State Department of Education recently announced that 98.5% of the students in the Norwell High School class of 2006 completed high school in four years; this was the fifth best completion rate in the entire state, second best of traditional public schools, with three charter schools with specialized enrollments and programs rounding out the top five. The class of 2006 also has the largest percentage ever of Norwell High School graduates attending college, 97% overall, with 95% attending four year colleges. An astonishing 90% of all college acceptances were to colleges and universities categorized as *Competitive* or above. Members of this graduating class also distinguished themselves on the athletic field, with the girls' lacrosse team winning its second consecutive state championship this past spring. This fall, the Norwell High School girls' soccer team reached the state finals for the first time.

Although many of the above examples of Norwell Public Schools' achievements in 2006 are from the secondary level, our high school teachers would be the first to point out that the success of their students is determined in large part by the excellent foundation provided in our elementary and middle schools. For success in high school and beyond is the cumulative result of outstanding instruction beginning in elementary school through the middle school. On a grade-by-grade basis, steadily raising expectations as the students progress, Norwell's elementary and middle school teachers have consistently been preparing our students to achieve at increasingly higher levels. An example of this type of achievement was the performance of this year's 7th grade students, 97% of whom scored *Advanced* or *Proficient* on the English Language Arts MCAS examination – the third highest performance in the entire state after Boston Latin and Gilmore Academy.

Despite these remarkable achievements, Norwell Public Schools continues to be adversely affected by financial limitations in the face of growing enrollments. Because of budget cutbacks and enrollment growth, our class sizes have been steadily increasing since 2002. Today, one quarter of our classrooms exceed the School Committee's class size guidelines of 22 students in kindergarten to grade 2, and 25 students in grade 3 and above; at the primary level, 56% of the classrooms are above those guidelines. Four of seven grade 6 classes have 26 students, and the other three have 25 students each; this is in comparison to an average of 21students per 6th grade class in 2002. High school English teachers have an average student load of 111 students today; in 2002, the average load was 88. Outside the classroom, administrative and support positions such as reading specialists, instructional tutors, MCAS support, librarians, and library aides have either been eliminated or greatly reduced since 2002.

Nonetheless, Norwell teachers, specialists, support staff, and administrators continue to do their very best to see that each and every Norwell student achieves at the highest level possible. Their professionalism, plus the support of parents and the entire Norwell community, as well as an outstanding student body are what make Norwell Public Schools one of the best school systems in the state.

In closing, I would be remiss not to acknowledge the retirement last December of Director of Administrative Services Richard Sulc. In his eleven years serving Norwell, Dick has made a substantial contribution to our schools, not the least of which has been his effective management of the NORWELL 2001 school construction projects.

Congratulations to one and all for making 2006 another banner year for Norwell Public Schools!
Respectfully submitted,
Donald J. Beaudette, Ed.D.
Superintendent of Schools

SOUTH SHORE REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

Growth and Success…Demands and Expectations…Providing the Resources

Perhaps more so that at any time in it's near 45 year history, South Shore Regional School District finds itself at a multi-faceted crossroads. Providing quality career and technical education opportunities continues to be the hallmark of the school's mission, one that has been supported generously by the communities that make up the eight-town district. It is however, a rapidly changing economic and job-related marketplace, one still filled with challenges and potential, yet ever-growing in its demands and expectations. Whether a graduate immediately enters the workforce or continues his or her education right after high school, one factor remains constant, the changes to be encountered. Updating skills regularly is now a mandate for all, continuing one's education as a life-long pursuit, a primary job requirement, in nearly every field. One of our major tasks is to keep the skills being taught as current as possible.

South Shore continues to flourish, 2006-2007 witnessing a second consecutive school year with maximum enrollment on campus. What continues to increase is the incredibly high and growing percentage of the school's population exclusively from within the District. In just five years, South Shore's "in-district" enrollment has risen by more than 20% (over one hundred students). While a tremendously positive indication of the District's popularity and performance, these are worrisome signs as well. Chapter 70 State Aid has grown substantially, allowing for an amazing overall reduction, over those same five years, in the total assessments paid by the town members.

South Shore has consciously attempted to keep assessments low, along with low overall budget increases from year to year. But in meeting the industry accountability, equipment and facility expectations faced by all schools and uniquely by vocational schools, resources are thinning.

Your regional career and technical education school is the oldest of its kind in the Commonwealth. There are twenty-six such schools statewide. While we are proud of the facility and improvements made, the near future will target some needed major capital projects, including an entirely new roof system. We, along with many of the local school districts will be working with the State's School Building Authority in hopes of obtaining financial support to match that of the towns.

South Shore's recent history is filled with highlights. Both academic and technical performances by Vo-Tech students continue to shine. MCAS results are among the best by vocational students across the state. It is anticipated that the Class of 2007 will once again attain nearly 100% success in reaching the mandatory competency determination levels. Overall scores are rising and more students are achieving at the proficient and advanced criteria thresholds. Competitions and employers continue to applaud our students' technical achievements, with national recognition this past year in Automotive and Precision Machining. More and more programs are aspiring to the state and federal goals of third party credentialing, namely certifications, approvals and licenses upon graduation.

Athletics and other student activities at South Shore strive to grow as well. The 2005-2006 sports seasons saw a record number of Viking teams qualify for post-season play. For 2006-2007, a first time ever JV program in girls' basketball and a pilot wrestling effort spearhead by students and an energetic parent are new to the competition landscape. Robotics is being added to an ever-expanding electronics and engineering curriculum, and has already produced an active extra-curricular club that is bracing for its first competitions.

Previously mentioned was the need to stay current with today's equipment and technology. South Shore has done its best to keep up, but expenses in this effort are extraordinary, particularly compared to a typical high school. Recent improvements in equipment have been realized in Auto Body, Graphic Arts, Drafting, Culinary Arts, Cosmetology, Welding and Automotive, as well as our science labs and wireless computer set-ups. Hopefully, much more is still to come.

It would be wrong not to mention the important contributions being made by South Shore's Parents' Association, the Vocational Advisory Committees, School Council and the Continuing

Education Program, which in addition to providing a wide range of career and self-improvement opportunities, helps support the total school program.

Currently 14 students of the total enrollment of 592 are from Norwell. June 2006 celebrated the graduation of the following students from the town -- Matthew Barry, David Dauphinee, Colten Loomis, Craig Moore, Andrew Morley, Terrence Murphy, Dustin Reardon,

As each year passes, South Shore Vocational Technical High School continues to grow and expand the options available to both the young people who attend, and the communities served. We want to thank the towns for their ongoing support, and hope that we too have responded favorably to your needs. Only when we work together have we shown the ability to overcome obstacles and to provide the best possible career and technical learning environment for our customers, the students from your town and of all the district communities.

Respectfully submitted,
Robert Molla

NORWELL PUBLIC LIBRARY

Norwell Public Library was buzzing inside and out in 2006. Circulation activity was up, technology improvements were made and a multitude of offerings for children were offered and attended. Volunteers helped improve the building inside and out.

"What's Buzzin' at Your Library" a statewide summer reading program was adapted for the town of Norwell by youth services librarian Nancy Perry. Nancy developed an extraordinary 6-week literacy based enrichment program comprising 35 different program sessions serving children ages three through eighteen and registering over 300 youngsters in the reading component of the program. Despite cutbacks two years ago, Norwell's children are being served by their library; getting an incredible bang for the buck.

Norwell Library is committed to cooperating and collaborating with the schools and daycare centers, reaching all pre-schools, daycares and Kindergartens every fall as well as all K-6 children every spring to promote summer reading. The library provides book talks, library tours and communicates with teachers on a regular basis.

NPL continues its commitment to provide relevancy to people in today's world, as it pursues Libraries 2.0.

Norwell Library now contains 64,003 items compared to 15,000 in 1975. Shelving takes more space than it did thirty years ago, but NPL continues to provide one of the finest collections on the South Shore. Circulation went up 3% with over 126,820 items circulating this year. Attendance totals for programs reached 6,617. Weekly, 982 or more people entered NPL seeking material, quiet work space, information, and program offerings all given with cordiality.

The Friends of the Norwell Library provided most of the museum passes and paid for all programs offered at the library not funded by the town such as Mama Steph, The Owl Program, musicians, magicians, storytellers and the Sisters in Crime Death by Chocolate program.
This year The Friends purchased passes to the South Shore Science Center and the MA Audubon in addition to the other passes available for free at the library.

Go to norwellpubliclibrary.org for a full listing of passes and other services. "Fred the Shed" was repaired and looks better than ever due to volunteer Mary Caldwell's efforts working with students under the direction of Mark Herman at the high school. Adult volunteers provided hours of personal service for all those who chose to visit the shed for used books and nonprint material this year.

New programs this year included a monthly writer's forum created by reference librarian Jeanne Ryer, and chess club led by Felix Yang. Teens attend monthly Anime/Manga programs sharing their love of art, books, the characters, film and fun food.

In the spring Norwell Reads 2006 invited residents to read To Kill a Mockingbird by Harper Lee. Special events were held at the schools and James Library as well as NPL. The high school drama students under the direction of Chris Lacey presented the play in conjunction with the project. Art students constructed Boo Radley's tree just like in the novel! A panel discussion with residents Heena Patel, Jo Burns, Ken Stone, Amy Hudspeth and Mostapha Ziad, shared their own experiences of intolerance and diversity. Marion Reed, Patti Hainer, Chris Lacey, Rosemary O'Connor, Caroline Chapin (James Library) joined forces with Jeanne Ryer, Nancy Perry and Rebecca Freer on the Norwell Reads committee. Funding was provided by The Friends of NPL, The Cultural Council and the Anti-Defamation League. The Norwell Sociables, Garden Club and local shops provided food for events. Carol Meseau provided a wonderful photo exhibit that was enjoyed by all who entered the building. Professor Bill Levin led an animated discussion at the James. Thanks to all for making this another outstanding success.

The Board of Library Trustees continues to examine the best way to expand and renovate the library for the needs of its residents. NPL is now eight on a wait list for state funding through a grant (MA Board of Library Commissioners) for a proposed building project. The process thus far has determined that the current site is the best location for the building, with a 20-year projection. It has been determined through focus groups, surveys, and meetings that people want a "commons" or meeting space, quiet study areas, a gallery, café, computer stations and meeting rooms, more books and materials, and longer hours.

This year NPL created a brand identity and logo (Branch out- at your library) with the assistance of an LSTA Customer Service grant from the Massachusetts Board of Library Commissioners. Image Resolutions donated a new library sign with our new logo to replace the one that was stolen. The exterior of NPL has never looked finer. The Beautification Committee, Norwell Garden Club and Green Solution worked to create new crushed stone walk ways, weeded and pruned, and mulched the grounds.

With the assistance of Capital Improvement money NPL became a wireless hotspot. Public computers have been replaced and updated, providing Internet service and state- of-the-art technology for residents of all ages. Playaways, digital books and downloadable audios provide listening material for people on the go.

NPL continues its commitment to provide relevancy to people in today's world, and plans to partner with the Norwell schools in its 20/20 initiative.

This organization could not succeed without the tireless, creative, intelligent staff available to serve you. The Board of Trustees and Friends are committed to providing educational and recreational material, and programs to enhance the quality of life for all Norwell residents.
Lastly, volunteers work hundreds of hours at NPL in providing books to the homebound, visits to Norwell Knolls, computer instruction, making phone calls, maintaining proper order on the shelves, cleaning, making dump runs, preparing materials for upcoming programs, and processing books. Many thanks for their generosity.
Respectfully Submitted,
Rebecca Freer
Director

NORWELL POLICE DEPARTMENT

I herby submit my first annual report to the town as Chief of Police. The year 2006 was one of significant change for the Norwell Police Department. On August 31 Chief of Police Robert Galvin retired. Chief Galvin began his career in 1972 at the Milton Police Department. He was promoted to Sergeant in 1980 and then Lieutenant in 1985. In June of 2000 Chief Galvin was hired as the Chief of Police in Norwell. Chief Galvin quickly earned the respect of his officers and maintained that throughout his tenure. He was responsible for many improvements in the police department. Here are only a few:

1. More training opportunities for officers
2. New mobile data computers for the cruisers which enabled officers to instantly access Federal and State criminal justice data bases. (Through a grant)
3. The creation of the Norwell Police Department website
4. A complete radio system upgrade
5. A complete phone system upgrade
6. Had the Norwell Police Department join Metro LEC, which is comprised of approximately 40 Municipal Police agencies. This membership enables the N.P.D. to have access to numerous personnel and equipment that we could not afford otherwise
7. Numerous grants, programs and a donated Volkswagen Police Cruiser

The members of the Norwell Police Department thank Chief Galvin for his dedication and service. We all wish him a long and healthy retirement.

I began my tenure as police chief on September 1, 2006. The first order of business was the hiring of 4 new police recruits. Michael Fletcher, Bryan Resnick, Jeffrey Johnson and Paul Coronite were appointed by the Board of Selectmen in September and started the Police Academy in November. They will graduate in April and began working on their own after completing a field training program.

The Police department mourned the untimely death of Emergency Communications Center Dispatcher Gail Marsden. Gail served the Town of Norwell for 21 dedicated years and is in our thoughts and prayers.

The Police department lost Officer Robert Clyde and Sergeant Carol Brzuszek to retirement. We thank them for their dedicated service and wish both officers well in their future endeavors. Due to the opening sergeant's position, Richard Bosworth was promoted to the rank of Sergeant. He is currently assigned to the 1200AM—8:00AM shift.

In the spring, the members of the department will begin several community policing programs. The goal of each program is to maintain a strong relationship between the members of the police department and the community.

The Police department is in the process of applying for several grants for training, equipment and traffic enforcement.

I would like to thank the members of the Norwell Police Department and Emergency Communications Center for their effort, professionalism and support during my first four months as Chief of Police. Also, I would like to thank all the various Town departments for their support during my transition. I would also like to thank Chief Paul Rosebach and the Norwell Fire Department for their support during my transition.

Respectfully,
Theodore J. Ross
Chief of Police

EMERGENCY COMMUNICATIONS CENTER

In 2006, the Norwell Communications Center suffered a tremendous loss with the sudden and untimely death of long time dispatcher Gail R. Marsden. Dispatcher Marsden served the residents of Norwell for over 21 years. Our thoughts and prayers are with the Marsden family.

The department has also had to deal with the serious illness of Dispatcher Laura Coyne. Dispatcher Coyne has been on a medical leave to undergo treatment. Our thoughts and prayers go out to her for a speedy and full recovery.

Long time Dispatcher Linda Whitcomb retired from the Emergency Communications Center after over 30 years of service to the residents of Norwell. Dispatcher Whitcomb still works for the department on an as needed basis.

Two full time Dispatchers, Robert B, Margro and Nancy Dooley, were hired in 2006 to fill the vacancies left by Dispatcher Whitcomb's retirement and Dispatcher Marsden's untimely death.

The Communication Center is working with SETB (State Emergency Telecommunications Board) to implement the conversion of E911 upgrade. The upgrade consists of a mapping feature that will allow dispatchers to plot the location of wireline and wireless calls. The upgrade consists of a mapping feature that will allow dispatchers to plot the location of wireline and wireless calls. The upgrade is scheduled to be completed by the summer of 2007.

Dispatchers handled over 8000 calls for the Police Department, dispatched 2075 incidents for the Fire Department. In addition to calls for the Police and Fire Department, dispatchers handle emergency calls for ACO, Highway, Water and COA.
Respectfully submitted:
Theodore J. Ross, Chief of Police
Paul Rosebach, Chief, Fire Department
Laurie Croke, Lead Dispatcher

FIRE & AMBULANCE REPORT

I would like to start my annual report by thanking all of the residents and businesses in town for their continued support of the Norwell Fire Department during the year 2006.

Once again we saw an increased demand for emergency medical services. Our ambulance responded to 1109 emergency medical calls with 819 patients transported to local area hospitals. 4 patients required Med Flight and were flown to a Boston Hospital Trauma Center due to the severity of their injuries.

Norwell's Paramedic program, which came on line in December of 2003, has now completed its third full year of service. This is the highest level of Advanced Life Support available. Presently we have nine paramedics on staff and one of our firefighters is in training to become a paramedic. This will allow for two paramedics to be assigned to the ambulance at all times. We are a community based service of cross-

trained Firefighters / EMS personnel who are providing the best service possible in the most safe, effective, and efficient manner. This service has proven to directly affect the quality of life to several patients over the past year.

Once again we applied for, and received, our twelfth S.A.F.E. grant from the Commonwealth. These funds allow our personnel to spend time in the schools instructing our youth about fire safety and with our elderly on fire prevention and safety in the home. In October we hosted our tenth annual open house, which brought over three hundred and fifty residents to the station to view our apparatus and receive fire safety literature.

The department was very fortunate to replace our aging Self Contained Breathing Apparatus with the assistance of the Capital Budget Committee and we were able to replace the roof and paint the exterior of the Pine Street fire station.

As in the past the men and women of the Norwell Fire Department have risen to every challenge and situation presented. They are a credit to the community and have gone above and beyond what has been expected of them on several occasions. I would like to thank all of our personnel, Mrs. Davis our Administrative Secretary, the Emergency Communications Center Dispatchers, who are the lifeline between the residents and the fire service, the Norwell Police Department, and all other Town Departments for their quality service, support, and assistance throughout the year.

In closing I would like to personally take this opportunity to thank everyone for their assistance over the last twelve years. My successor, Captain T. Andrew Reardon, a Norwell resident and thirty-year veteran of the Norwell Fire Department, has been promoted to Chief and will assume the responsibilities on March 15, 2007, the date of my retirement. It has been both an honor and privilege to serve the Town of Norwell.

The following is an overview of our responses in 2006

Structure Fires	18
Cooking / Stove	14
Vehicle Fires	8
Brush Fires / Outside Fires	21
Motor Vehicle Accidents	308
Emergency Medical Responses	1109
Medical Assists	9
Hazard Material Incidents	30
Power Lines Down	70

Lock Outs	129
Assist Police Dept.	7
Smoke Removal	131
System Malfunctions	238
Public Service	73
Mutual Aid / Fire	13
Mutual Aid / Ambulance	333
(154 Given, 179 Received)	

Respectively Submitted,
Paul W. Rosebach
Chief of Department

HIGHWAY DEPARTMENT

Although the snow & ice season for Fiscal 06-07 was relatively light. The Town along with its contractor's plowed snow 8 times and sanded 42 times for a total cost of $282,227.00.

As always, spring cleanup begins as soon as the weather allows. This year, the street sweeper began on March 28th, and continued sweeping until each street was cleared of sand and debris. During the sweeping process the Department also repaired plow damage, which included sod repair, clean up of broken asphalt and repairing/replacing street signs. Potholes and road defects are constantly being repaired as needed, year round. Although this spring was extremely wet with numerous rainstorms, work progressed on schedule.

In May we assisted the Norwell Historical Committee and its contractor with the restoration of the monument on the Towns Common. While also beginning loaming and seeding the shoulder areas of the roads resurfaced the previous year which included, Capt. Vinal Way, Black Pond Hill Road, Otis Hill Drive, Riverside Drive, Barque Hill Drive, Brigantine Circle, Till Rock Lane, Accord Park Drive, Masthead Drive, Bowsprit Lane, Copeland Tannery, and Pine Street.

After prep work, which included removing old & damaged curbing, repairing & raising catch basins, manhole covers, etc. Resurfacing work began on July 14th. These roads consisted of Hall Drive, Christopher Road, Germaine Road, Cushing Hill Road, John Neil Drive, and Old Pottery Lane. Each road was leveled with a dense grade binder coarse and topped with 11/2" of State top mix. Fortunately, these roads have existing drainage that kept the costs down. Total cost of resurfacing was $479,103.53.

In August, Bay State Gas began installing a 12" main from Cross Street to Bridge Street, the job was completed by December 1, 2006, and although it created traffic issues, having the new gas main installed before roadway reconstruction was the right choice. Plans for redesigning the lower portion of Main Street (Route 123) from Dover Street to the Scituate town line are being re-drawn under Mass Highway Departments new design manual following the "Foot Print" program keeping the width of the road as close to existing without compromising safety.

As fall begins, all work in progress is wrapped up and thoughts turn to winter when all snow emergency equipment is gone over, drainage trenches are cleared, and stocking up on supplies is completed in anticipation of another snow season.

I would like to thank the Highway Department personnel Chris Cowden (Foreman), Steve MacInnis, Mark Allegra, James Murphy, William Gunderway, Harold Tuttle, Linda Murphy, and Ryan Cosgrove-Summer Help. I would like to thank the contractors that assist in making the Town's roadways as safe as possible for the public and the many Boards, Committees, Commissions, and Department Heads for continued assistance and co-operation throughout the year.
Respectfully submitted,
Paul M. Foulsham, Highway Surveyor

TREE DEPARTMENT

January saw the Department out sanding and plowing 10 times with the Highway Department. On the 18th of the month a large windstorm took down 12 trees and numerous branches. The Department went out cutting and picking up logs for the next few days. Remainder of time working on barrels, benches, fixing equipment and the weekly trash route. Three interments at Washington Street Cemetery.

February saw 9 more sanding and plow operations with the Highway Dept. and numerous days of branch pickup. The 18th of February brought very high winds to the area. Fortunately we were spared the worst

of the storm. Equipment repairs, painting benches and trash pick up rounded out the rest of the month. Three interments.

March commenced with work on athletic fields at the high school, and numerous days of branch pick up. We had Gills aerial bucket truck in on the 28th for trimming of 2 trees and take down of 9 others. Worked on mowers, ordered fertilizer, did the weekly trash route and posted a tree hearing for Old Oaken Bucket Rd, Winter and Cross Streets. Three interments.

April started high school games- boys and girls lacrosse, baseball, softball and track. Lime and fertilizer were spread and during school vacation crabgrass prevention with fertilizer was spread on athletic fields around town. On April 11th, a Tree Hearing was conducted for the purpose of discussing a proposal by National Grid to remove 135 dead or declining trees on Old Oaken Bucket Road, Winter Street, & Cross Street that had the potential of causing power outages if left to fall onto power lines. These trees were removed by National Grid and its Contractors and the Town will be receiving funds through a grant for replacement trees. Went out 5 times for branch pickup and planted a flowering Crab Tree at the Middle School for Arbor Day. Also had football field and softball field hydro seeded.

May was spent mowing and marking fields, fertilizing, and 600 lbs. of seed put down on fields. Center of town spruced up for Memorial Day parade. Placed 6 veteran markers and 10 footings for headstones. One interment.

June started with spraying of small trees around town for Tent Caterpillars. The rest of the month included mowing, field maintenance, and rounded out with stump grinding of 31 stumps along with 7 days of tree related work. Eight interments.

July brought daily mowing and field maintenance including grub control with fertilizer. We had the aerial bucket truck in for 10 trims and 13 takedowns. Four interments.

Field mowing and maintenance throughout the month of August and strong winds on the 4th brought down 2 trees across Main St. Crabgrass and weed control were used near the middle of the month.

Football, field hockey, and soccer fields were laid out and painted. Four interments.

September was spent mowing and marking of fields weekly. We had a crane in to take down 3 large trees. Seven interments.

October we had the aerial bucket truck in 3 times for 13 trims and 15 takedowns and the crane in for a takedown. We had games almost every day and field maintenance weekly of over-seeding and fertilizing. One interment.

In November we had the aerial bucket truck in for 8 more take downs along with the stump grinder to grind out the 30 stumps. The warm temperatures kept the department mowing but the game schedule slowed down and ended in the middle of the month. The Thanksgiving game being the last. Benches and barrels were picked up around town, snow stakes were put out and leaf clean up completed. Three interments.

A 50" maple tree was taken down in the Washington Street cemetery in December. The Town Common was mowed in preparation for the Tree Lighting Ceremony. The 30th brought a sanding operation with the Highway Dept. Three interments.

It was a busy year with the department down 20% due to a reduction in force.

The replacement of the 16-year-old Jacobsen mower with a new Toro and the 10-year-old F250 with a new ¾ ton pick up has helped us out a lot.

I'd like to thank the crew: Mark Smith, Foreman, Bill Lavery, George Brazil, Phil McKinnon and our summer help Andrew McClean for a job well done. I would also like to thank the many Boards & Commissions.
Respectfully submitted,
Paul M. Foulsham

REPORT OF THE NORWELL CEMETERY COMMITTEE

During the calendar year 2006 there were 33 full burials and 10 cremation burials for a total of 43 burials recorded at Washington Street Cemetery. A total of 48 lots were sold. The sum of $37,806.25 was turned in to the Treasurer/Collector, $17,000.00 from the sale of lots and $19, 906.25 from labor done by the Tree and Grounds Department.

Because the land at Wildcat has proven to be unsuitable for development as a cemetery, the Committee has looked elsewhere in town for a new site. The Recreation Commission has agreed to exchange their twenty acre parcel at Stetson Meadows for the twenty acres at Wildcat under the control of the Cemetery Committee. We are now proceeding to survey and test this property at Stetson Meadows.

We need to get a new cemetery up and running because we have only a two or three year supply of grave lots left to sell at Washington Street Cemetery. We hope to make a start on construction of the new cemetery shortly. Your support for this endeavor will be greatly appreciated.

We continue to do our best at the cemetery despite the fact that we still have no full or part-time worker assigned to the cemetery. The Tree and Grounds Department handles the cutting of the grass and the digging of the graves. Their hard work is noted and appreciated by the Committee. The effort put forth by visitors to keep their sites clean of debris and looking attractive is also appreciated by the Committee.

This past summer an outside firm was hired to cut down the huge tree at the front of the cemetery. It had lost several large branches and was in a very unhealthy condition. It was decided to remove it before someone was hurt by falling branches or damage was done to the nearby tombstones.

Cemetery lots can be purchased by town residents only. If you plan to move or retire to another town or state and wish to have burial rights in Washington Street Cemetery, you must make your purchase while you are still a resident of Norwell. Lots are available for $510.00 each. For more information, call the Town Clerk's office. You will then be referred to the chairman of the Cemetery Committee.
Respectfully submitted,
Gertrude H. Daneau, Chairman
Mary C. Lizotte, Secretary
Theodore H. Baldwin
Joanne Molla Goldman
Francis J. Nagle

PERMANENT BUILDING AND MAINTENANCE COMMITTEE

The PBMC committee has been proceeding with several significant projects this past year.

The first was oversight of re-roofing and installation of new gutters at the police station and fire station (Pine Street-Annex building).

The board continued its rehabilitation program at the Sparrell building with more exterior repairs to the Sparrell building. These repairs also included installing a roof gutter drainage and drywell system and removal of underground oil and septic tanks that were no longer utilized.

The committee worked with the Town Hall Administration to select an engineer and a mechanical contractor to install a new heating boiler. The original boiler was leaking, causing significant damage to exterior masonry and was evaluated as beyond repair. Additional work at Town Hall included completion of flat roof repair and sky light replacement

Working with the Cushing Center Committee, the PBMC selected a myriad of professional contractors and consultants (asbestos removal contractor, architect and a mechanical contractor) for renovations and improvements to the central air conditioning system for the center. This installation was completed by years end and permits use of the function hall year round.

Lee McKenney

WATER COMMISSIONERS

The Department was pleased to serve 3,469 residential, commercial, municipal and industrial accounts in 2006. The increase of only13 accounts from last year was the smallest in the 60 year history of the department. The total volume of water pumped from our ten groundwater sources was 373 million gallons with an average daily withdrawal of 1.02 million gallons. Our maximum day withdrawal occurred on July 17, 2.3 million gallons. The Department conducted over 575 service calls during the year. These included installation of new metering equipment and service valves; marking underground utilities, and responding to customer inquiries regarding water quality or water pressure. There were 47 road openings, to renew existing water services, replace hydrants, repair water main breaks and install new services.
Funding was approved at Town Meeting for the renovation of the Washington Street Well Field. The three existing wells are approximately 40 years old and have seen a substantial decrease in production over time. Test borings indicate that replacement wells can provide a combined pumping rate about twice that of existing wells 4, 7, and 8. Construction is slated to begin in the spring of 2007.
Our plans for a new well, treatment plant and pipeline at the South Street Well field have been put on hold. Bids were significantly higher than anticipated, all were rejected and we deemed the project did not make economic sense at this time. The Department can choose to move forward with the entire project in the future or proceed with certain elements of the project as funds allow.
We are replacing old technology meters with new radio meters. We replace about 15% of the stock each year and should be done in about five years. The new meters provide improved accuracy and efficiency.
During 2006, the Department completed a system wide leak detection program. Utilizing department personnel and equipment, we surveyed more than 80 miles of water main, 750 hydrants, 1,750 gate valves, and several leaks were detected and repaired. This will be repeated this year and annually if necessary, as water conservation and the associated benefits become one of the highest priorities with us, and with the Department of Environmental Protection. We urge our customers as well to be observant in their own homes, and repair any leak, however small it may seem. Call the Water Department with any questions. We are happy to help.
The Town of Norwell is authorized by the Water Management Permit Act to withdraw specific volumes of water from two basins by means of our groundwater wells. The Town of Norwell is atypical in that we draw water from two basins. The four Grove St. wells draw water from the Boston Harbor river basin, which has been categorized as a stressed basin. The six other wells draw from the South Coastal basin.

Recent modifications to the Act by the Dept. of Environmental Protection have established criteria for categorizing basins as stressed or unstressed. In a stressed basin, the total outflow from the basin is greater than the total inflow, jeopardizing the sustainability of the resource. A compromised water resource not only limits the amount of water available for public use but also affects the viability of the entire ecosystem dependent on that same water. As a result, DEP might require communities such as Norwell, withdrawing water from stressed basins, to adopt strict community wide conservation measures. These could include practices such as limiting or completely prohibiting outside water use during all seasons, and managing per capita water consumption. The practicality and fairness of this approach to resource protection is currently under study by a blue ribbon panel comprised of scientists, engineers and water supply officials. We will closely monitor recommendations of this panel and any new revisions of the WMPA.

Financial numbers for our operations can be found under the reports of the Treasurer and Town Accountant.

Neal Merritt, Water Treatment Facilities Manager, accepted a position with the town of Hanson as their new Water Superintendent. Neal had served us for 10 years, providing the highest level of professional service in the area of water treatment. We are proud he was chosen, wish him well in his new endeavor, but we are certainly sorry to lose him.

We would like to take this opportunity to thank Water Superintendent John McInnis, Distribution Foreman Steven Gatanti, Treatment Plant Operator Marc Spinella, Water System Mechanics Scott O'Keefe and Rick Mosca, Administrative Secretary Theresa Graham, and Meter Reader Christopher Wilson, for their fine dedication to task and for their superb ability to communicate and address issues with water customers, contractors, consultants, and Town officials.

We would also like to thank all the other Town Boards, Commissions, and Committees who have offered their cooperation, guidance and support during the past year.

Respectively submitted,
Board of Water Commissioners
Frederick St. Ours, Chairman
Steven Ivas
Peter Dillon

BOARD OF HEALTH

Again in 2006, Emergency Preparedness was the main focus in Public Health for the Board of Health. The presence of West Nile Virus and Eastern Equine Encephalitis on the South Shore this past mosquito season along with the threat of a pandemic flu makes long range planning for such events extremely important.

The Norwell Health Dept. Emergency Plan and Emergency Dispensing Site Action Plan have been completed. As part of Emergency Preparedness we have participated in exercises and drills as part of monthly meetings in the Region 4B Health Cooperative.

In addition, we have established a Medical Reserve Corps that would respond in an emergency. We cannot thank enough the number of dedicated medical professionals that are participating in the Medical Corps. training exercises.

A mutual aid agreement between neighboring towns that would allow towns within the region to respond to emergencies much the same way police and fire do now was also established in 2006.

Ample flu vaccine resulted in several routine clinics. The Board would like to express as always its appreciation for another great year of nursing service provided by the VNA and looks forward to a healthy 2007.

Slower housing sales have reduced somewhat the past focus of the Board on septic system repairs and new construction allowing us to focus on other health related issues, although the Board now handles some issues that formerly had to go to Mass. Dept. of Environmental Protection.

The South Shore Tobacco Collaborative compliance checks targeting merchant sales to minors are still conducted and the Board is pleased that the vast majority of Norwell merchants are strictly adhering to the local and state laws regarding sales of tobacco products to minors. The Board would like to commend Collaborative Director Jim Wells for a job well done.

The trash contractor, Mike DelPrete & Sons from Rockland has performed very well to date and the Board looks forward to another smooth year of trash collection.

The Board would like to extend its appreciation to its hard working full time staff consisting of Health Agent Brian Flynn, a Registered Sanitarian and Administrative Assistant Pat Cummings. Special thanks go out to long time alternate Health Agent Jim Jenkins, a Registered Professional Engineer, Bob Griffin, Food Inspector and certified Health Officer and Ralph Cole a Registered Professional Land Surveyor for another year of excellent service to the Town of Norwell.

Appreciation goes out to all Boards, Commissions, Department Heads and the citizens of the Town of Norwell.

HEALTH DEPARTMENT ACTIVITIES:

Complaints	98
Swimming Pool/Jacuzzi Inspections	7
Percolation Tests/Groundwater Observations	89
Plan Review (Septic, Planning, ZBA	180
Restaurant/Food Service Inspections	120
School Inspections	4
Municipal Building Inspections	2
Communicable Diseases Recorded	49
On Site/Office Consultations	750

PERMITS ISSUED IN 2006:

Mobile Food Service	1
Tobacco Sales Permit	11
Milk & Cream Permits	46
Food Service Establishment Permit	39
Retail Food Store Permits	29
Catering Function Permits	12
Catering Establishment Permits	8
Massage Facility Permit	11
Massage Therapist Permit	32
Public/Semi Public Swimming Pool Permits	6
Public/Semi Public Hot Tub/Jacuzzi	1
Swimming Pool Installation Permits	18
Disposal Works Permits & Revisions	145
Tanning Facilities	2
Funeral Director Permits	2
Motel Permits	3
Recreation Camp Permits	5
Mobile Home Park Permits	2
Disposal Works Installer Permits	71
Septic Hauler Permits	21

Medical Waste Hauler Permit	1
Rubbish Waste Hauler Permit	5
Well Installation Permit	8

A total of $94,132.50 for permits, fees, etc. was turned into the Treasurer/Collector.
This also includes monthly fees for two (2) Mobile Home Park spaces.
Respectfully submitted,
Peter M. Dillon, Chairman
John O. Litchfield
Arthur J. Bowman, M.D.

COUNCIL ON AGING

The Council on Aging has existed as a town department, by way of unanimous vote, since the 1964 Annual Town Meeting. Its main function remains the same today as it did 41 years ago. This is to provide **information, advocacy and resources to the older adults of Norwell.** It continues to be the community focal point for services and programs that can assist, support and supplement the concerns and needs of our residents, their families and friends.

The primary responsibilities of the Council on Aging focus on five pertinent areas; Information and referral, advocacy, outreach, transportation and education. During 2005, the Council on Aging met these responsibilities by the development and implementation of programs and services both at the COA Center and in cooperation with numerous community agencies and organizations. At the end of the 2006 fiscal year, we provided services and/or programs to over *719* individuals with 27,286 units of service given via the aging network and support system. In addition, a new part-time Administrative Aide position was added to provide office and computer technical support. This will help us to automate and streamline the flow of information to the community. This is necessary given that the population of individuals aged 60 and over is expected to increase by 83% within the next five to 10 years. Based on census information from June 1, 2006, the current population of individuals aged 60 and over is 2,096 and those aged 50 to 59 is 1,725. The Council on Aging will need to redefine its goals to ensure the appropriate programs and services are provided to these individuals.

The **Outreach Program** continues to be one of our top priority programs. Outreach works with those older adults who may need support with fuel assistance, transportation, housing concerns, telephone reassurance or may be in an "at-risk" situation. The Outreach Coordinator works with families, caregivers, agencies and local resources to insure all is being done to assist and support the older individual within their home.

Volunteers continue to be the backbone of our department. In 2006, we were fortunate to receive over 7,725 hours in volunteer service from over 85 different individuals. Examples of this dedication and commitment include; providing medical transportation; program instruction and support; assisting in the office; and delivering meals to home-bound elders. This dedication from so many has saved the community over $109,500 this year.

Transportation is another responsibility and necessary asset to our operation. In 2006, we provided over 30 hours of transportation services weekly, encompassing over 6,921 trips during the year. Special transportation services are also available for medical appointments that cannot be served through the Council on Aging van. This includes a network of volunteer drivers, as well as a transportation grant program that allows us to provide appropriate transportation into Boston and other medical facilities outside the South Shore area. This is funded via competitive grants through the Older Americans' Act, the Executive Office of Elder Affairs and South Shore Elder Services.

SHINE (Solving Health Insurance Needs of Elders)

The Council on Aging has been fortunate to have an outstanding SHINE volunteer available to help address the health insurance needs of elders. 2006, in particular has posed many insurance obstacles for elders with the offering of Medicare Part D. The Council on Aging, in conjunction with the SHINE program, has offered a number of educational seminars, as well as one-on-one counseling.

In addition to the above core services, the Council has developed special programs such as the **Senior Work Program**. Now in its 8th year, the program allows eligible residents to volunteer their time and efforts within a municipal department for a property tax credit up to $750. The program not only helps the older resident, but the participating department with their workload. In 2006, 44 residents and over 18 commissions and departments worked together on the program, for a total of 4,888 hours and estimated saving to the community of $12,222. The Council thanks all those involved with this successful program

During 2006, the Council on Aging was fortunate to have Eagle Scout Christian O'Neill design and build and outdoor recreation area, including a bocce court, horseshoe pits and a putting green. In addition, beautiful new benches were built and new plantings were added to the area. This facility provided many hours of outdoor recreation for seniors, during the summer months.

We'd like to express our sincere thanks to South Shore Vocational Technical High School Carpentry Instructor Derek Mariani and his junior/senior students, for their outstanding work in replacing the handicap ramp and expanding the deck, here at the Senior Center. This hard-working crew was here for three weeks during September. In addition to providing an invaluable service for the COA, it was a fantastic learning experience for the students. We appreciate everyone's efforts.

We would like to take this opportunity to thank all of the volunteers who are the mainstay of operations; the "Friends of the Norwell Council on Aging" for their program and financial support; the support and dedication of our staff; other Town Departments and the residents of Norwell.
Respectfully Submitted,
Ann Horrigan, Chairperson
Ann Pierce
Irene Horte
Bonnie Campbell-Dunn
Ann Valair
Marion McLaughlin
Dorothy Lynch
Rosemary O'Connor, Director
Diane M. McCarthy, Outreach Coordinator

CUSHING CENTER

The Board of Directors of the Cushing Center are pleased to submit our annual report of activities for 2006 to the residents of Norwell for review and consideration.

The Cushing Town Hall was re-dedicated the Cushing Memorial Hall in June of 1987. Since that time the facility has provided an attractive, affordable and convenient location for countless events including weddings, bridal showers and all manner of special celebrations. Norwell has been able to use the hall as a very comfortable and attractive setting for many special events. For the first year since that re-dedication our operating costs exceeded the revenue we were able to take in. This was primarily due to the un-anticipated spike in cost for heating oil that we all incurred. Additionally, because we were working on some improvements to the building, we were not able to rent the function hall to its fullest capacity.
A brief overview of our revenues and expenses is as follows:

REVENUES:	Office and Hall rentals	$39,916.00

EXPENCES:	Payroll and Operating costs	$41,872.96
Sub total expense		($ 1,956.56)

NET COST TO NORWELL $ 1,956.56

The good news is that the future looks very bright. We have received projections for our fuel costs with our new heating system and it looks to be a fairly significant savings. In addition to that, the building is fully air conditioned and we anticipate increase revenue as our function hall will be far more attractive during those hot summer months. We have also re-structured our fees for office space rental. The last piece of good news is that the function hall is now rented out each and every Sunday. As directors it has always been our goal to provide an attractive, affordable facility to Norwell, and its residents, and at the same time return a modest profit to the Town in the process. We continue to work towards that goal.

The renovation and improvement projects are coming along well. The new heating, ventilation and air conditioning system has been installed. Some "bugs" are being worked out, but overall we are quite happy, and exited about the new system. Having heard so many horror stories about the process of working within the confines of municipal bid requirements we had prepared ourselves for the worse. We are quite happy to report that for us, the process was in fact quite successful. The contract for engineering was awarded to McKinnell, McKinnell and Taylor of Norwell. The contract for the installation of the actual system was awarded to Healthy Air Solutions of Norwell. We found both companies to be responsive, thorough and accommodating at every juncture. I think both companies took extra pride in the fact that they were working on an improvement to such an important landmark in their hometown. A critical component of the success of this phase of the project was the assistance that we received from the Permanent Building and Maintenance Committee, in particular Lee McKenny. Their concern for the project, and knowledge of the process is commendable. With the HVAC system installed complete, we can now turn our attention to the exterior of the building. We are in the process of securing pricing for the storm windows and painting repairs portion of the project.

As always, as we prepare this report to the town, we are reminded how important the Cushing staff is to us. Mary Lou O'Leary, Patrick MacKenna and Diane Townsend continue to amaze us with their commitment and dedication to the Cushing Hall. This year, in addition to all their regular duties and responsibilities they had to deal with dust, dirt, construction, and scheduling conflicts. They tackled every issue, never complained and for that we are so very grateful.
For the Board of Directors
Jef Fitzgerald

METROPOLITAN AREA PLANNING COUNCIL

Created in 1963, the Metropolitan Area Planning Council (MAPC) promotes inter-local cooperation and advocates for smart growth by working closely with cities and towns, state and federal agencies, non-profit institutions, and community-based organizations in the 101 cities and towns of Metropolitan Boston. MAPC strives to provide leadership on emerging issues of regional significance by conducting research, building coalitions, and acting as a regional forum for action.

MAPC provides technical assistance and specialized services in land use planning, water resources management, transportation, housing, environmental protection, economic development, public safety, geographic information systems (GIS), collective purchasing, data analysis and research, legislative and regulatory policy, and the facilitation and support of inter-local partnerships. More information about MAPC's services and ongoing activities is available at www.mapc.org.

MAPC is governed by 101 municipal government appointees, 21 gubernatorial appointees, and 13 appointees of state and City of Boston agencies. An Executive Committee comprising 25 elected members oversees agency operations. The agency employs approximately 40 professional staff under the

leadership of an executive director. Funding for MAPC activities is derived from governmental contracts and foundation grants, and a per-capita assessment on member municipalities.

To better serve the people who live and work in Metro Boston, MAPC has divided the region into eight subregions. Each subregion is overseen by a council of local leaders and stakeholders, and a staff coordinator provides organizational and technical staff support.

Smart Growth Across Municipal Boundaries

MAPC's **MetroFuture: Making a Greater Boston Region** initiative is planning for Metro Boston's growth and development through 2030. In 2006, the project involved nearly **2000 people**. At more than 50 briefings, participants analyzed "Scenario 1: Current Trends to 2030," MetroFuture's "base case" of what the region might look like if current trends continue. We also hosted two working sessions in June 2006, where participants designed alternatives to the "base case," and two in December 2006, where participants chose the scenario they liked the best. In 2007, after additional public input and a May 1, 2007 Boston College Citizens Seminar, the project will complete a regional strategy to achieve the preferred scenario.

MAPC assisted cities and towns in a variety of ways throughout 2006. The agency helped over 70 cities and town to rewrite zoning by-laws, evaluate smart growth uses for key parcels, keep traffic under control and expand transit, deal with crime, and prepare for natural disasters.

As a member of the **Massachusetts Smart Growth Alliance,** MAPC worked with six allied organizations to advocate for sustainable development throughout the Commonwealth. MAPC participated in a successful Alliance campaign to recapitalize and reform the state's Brownfields Tax Credit; researched, analyzed, and reacted to significant state land use and transportation policy proposals, including Governor Romney's 20-year transportation plan; and advanced research about the impact of sprawling development in Massachusetts.

In partnership with the 495/MetroWest Corridor Partnership, MAPC produced the **Massachusetts Low Impact Development Tool Kit**, which presents state-of-the-art practices for managing stormwater and increasing the recharge of water to aquifers. MAPC also produced **Once is Not Enough: A Guide to Water Reuse in Massachusetts,** a manual that describes techniques for non-potable reuse of treated wastewater and provides case studies of several successful water reuse projects in Massachusetts. In partnership with the U.S. Geological Survey, MAPC began work on a **hydrologic modeling project** that simulates the impacts of future development on the water resources of the Charles River and Assabet River watersheds.

Getting Around the Region

In March 2006, MAPC sponsored a conference on the impact of transportation emissions on public health. The workshop began a process to build connections, raise awareness, and stimulate action around the issue of air pollution adjacent to major roadways and rail corridors. The content and results of this workshop are available at www.mapc.org/air_quality.

MAPC developed a **Regional Bicycle Plan** in 2006 to assess current conditions and to guide future improvements to bicycle transportation in the region. The plan reviews goals set in previous plans, and proposes six general goals and strategies for the region, including encouraging more trips by bicycle in each community, working with state and federal agencies to simplify and coordinate funding programs, and increasing regional knowledge about bicycling. The plan can be accessed at www.mapc.org/transportation/transportation_alternatives.html.

A consistent complain of bicyclists is the lack of parking. To address this need, MAPC worked with the MPO and EOT to develop the **Regional Bike Parking Program**. Under this program, MAPC negotiated **discount group purchasing contracts** with three leading vendors of bicycle parking equipment, funded through federal transportation funds. More information about MAPC's bicycle and pedestrian

planning activities, and the bike parking program, is available at www.mapc.org/transportation/transportation_alternatives.html.

Collaboration to Address Shared Municipal Challenges
MAPC, through its Metro Mayors Coalition, played a leading role in developing legislation to create a statewide anti-gang initiative known as the **Senator Charles E. Shannon Jr. Community Safety Initiative,** which supports regional and multi-disciplinary gang and youth violence prevention and law enforcement efforts. MAPC coordinated Shannon grants totaling $1.2 million for 10 Metro Boston communities and 7 Essex County communities. These communities used the funds to enhance public safety through targeted workforce development, after-school mentoring, re-entry initiatives, gang-prevention education, and collaborative community policing.

MAPC facilitated the work of the **Municipal Health Insurance Working Group**, which drafted and proposed landmark legislation to let cities and towns purchase their health insurance through the Group Insurance Commission.

Collaboration for Safety
MAPC carries out fiduciary, planning, and project management duties for the **Northeast Homeland Security Regional Advisory Council** (NERAC), a network of 85 cities and towns north and west of Boston. In 2006, NERAC distributed more than $1.5 million in emergency equipment and supplies to member communities, and trained hundreds of first responders in various roles in the United States Department of Homeland Security incident command system.

In 2006, MAPC advanced **Pre-Disaster Mitigation (PDM) plans** for cities and towns throughout the region. These plans are designed to help communities reduce their vulnerability to damages due to natural hazards. The plans include an inventory of critical facilities and infrastructure in each community, a vulnerability analysis, and a mitigation strategy with specific recommended actions and projects that will protect the communities from future damages.

Collaboration for Savings
MAPC's **Consortiums Project** administered 37 procurement contracts for 42 municipal clients in 2006, saving cities and towns up to 20% on the purchases. As the administrator of the more than 300-member **Greater Boston Police Council** (GBPC), MAPC concluded 7 procurement contracts for public safety, public works and general use vehicles. In all, 142 municipalities purchased 180 vehicles. MAPC staff also collaborated on procurements that advanced MAPC's environmental and transportation objectives, helping communities to buy bicycle racks, hybrid vehicles, and water leak detection services at a favorable cost.

Charting a Course to Regionwide Prosperity
MAPC developed its annual **Comprehensive Economic Development Strategy** (CEDS), an assessment of current regional economic trends and conditions. The report includes background about trends and conditions in the regional economy, including a discussion about the relationship between the economy and factors such as geography, population, labor force, resources, and the environment. MAPC's 2006 CEDS report can be downloaded at www.mapc.org/economic_development/comprehensive_economic.html.

Tools to Improve Planning and Decision-Making
MAPC's **Metro Data Center** partnered with The Boston Foundation to develop the **MetroBoston DataCommon**, a new online data and mapping tool for residents and leaders in the region. The resource, which helps individuals to create customized maps and charts, is available at www.MetroBostonDataCommon.org. The Data Center partnered with MAPC's Legislative Committee to advocate for the establishment of a **statewide population estimates program** at the University of Massachusetts Donahue Institute. The program, funded at $100,000 in the FY2007 budget, lays the foundation for the Commonwealth to analyze Census estimates in a more robust way.

MAPC's **Geographic Information Systems (GIS) Lab** provides professional services and products and technical assistance in support of local and regional planning projects. In 2006, MAPC's GIS team completed extensive projects for the Northeast Homeland Security Regional Advisory Council (NERAC) region, and maps associated with the Pre-Disaster Mitigation Program, both of which are described above. The GIS Lab also made major contributions to the MetroBoston DataCommon and the MetroFuture planning project. The Lab also began mapping areas suitable for economic development throughout the region, in accordance with smart growth principles.

In 2006, MAPC transitioned from a paper to an electronic newsletter, the **Regional Record**, which is distributed quarterly, and provides updates on the latest regional projects and thinking, and provides opportunities for residents and communities to get involved in various events. People interested in receiving the e-newsletter can send their e-mail addresses to contactinfo@mapc.org.

On Beacon Hill: 2005 – 2006 Legislative Session

- **Brownfields Redevelopment:**
  The Legislature recapitalized the Brownfields Redevelopment Fund with $30 million, and extended and enhanced the Brownfields Tax Credit so that non-profit development projects can raise equity by selling the credit to taxable entities.
- **Expedited Permitting:**
  The Legislature passed a law to expedite permitting of commercial/industrial developments in "priority development sites" designated by cities and towns. In part as a result of MAPC's advocacy, the new law includes funding for technical assistance to municipalities, development of a statewide expedited permitting model, and criteria to steer priority development sites toward smart growth locations.
- **GIS Data Layer:**
  MAPC successfully advocated for $400,000 in the FY2007 budget to update and improve the quality of Mass GIS data linking aerial photographs to land uses on the ground.
- **Statewide Population Estimates Program:**
  MAPC led the advocacy effort to establish a statewide population estimates program at the University of Massachusetts Donahue Institute. The program was funded at $100,000 in the FY2007 budget.
- **Shannon Community Safety Initiative:**
  The Legislature created a new $11 million grant program to encourage the creation of regional, multi-disciplinary initiatives to combat gang violence, youth violence, and substance abuse.
- **Sewer Rate Relief:**
  The Legislature included $25 million in the FY2007 budget for water and sewer rate relief, which will help lower costs for residential consumers and businesses served by sewer districts, including the MWRA.
- **Surplus Land:**
  Both the House and Senate passed legislation to reform the state's surplus land disposition policy. Both bills included an assignable municipal right of first refusal to purchase the parcel at a discount; a professional smart growth review for larger parcels; a Surplus Land Coordinating Council to oversee disposition; and a municipal share of 10%-25% of proceeds in instances where the municipal right of first refusal is not exercised. Unfortunately, the Conference Committee did not advance the bill to final passage, but significant progress was made setting the foundation for the 2007-08 legislative session.

Two major development issues were also highlighted this year; mixed-use zoning and Chapter 40R. MAPC presented an overview of the mixed-use zoning toolkit that is available on the website. Based on member interest, the November meeting was a panel discussion of Chapter 40R that brought together consultants and communities to share their experiences with 40R.

The two key environmental issues that were addressed were peak season water demand management and the natural hazard mitigation planning grant. Seven NSPC communities chose to participate in the regional grant to develop natural hazard mitigation plans. This planning effort got underway in July.

South Shore Coalition

In 2006, the South Shore Coalition (SSC), one of the eight subregions of MAPC, met on a monthly basis to discuss issues of mutual interest and to learn about MAPC activities and products. The SSC includes the following communities: Cohasset, Duxbury, Hanover, Hingham, Hull, Marshfield, Norwell, Pembroke, Rockland, Scituate, and Weymouth. In December 2006, the towns of Braintree and Holbrook were moved from the Inner Core Subregion to the South Shore Coalition, bringing the total number of communities up to 13.

During 2006, SSC meetings addressed the following regional transportation issues, through presentations or discussions: Subregional representation in the MPO, use of the Route 3 breakdown lane, the Unified Planning Work Program, the Transportation Improvement Program priorities, suburban mobility funding opportunities, bicycle transportation, and the development of MAPC's parking toolkit. Meeting topics also included Peak Water Demand Management, expedited permitting, and Coastal Hazard Commission draft recommendations. Planners from MAPC also visited the SSC in February to present findings from Phase 2 of MetroFuture through a presentation on the Current Trends Scenario. Each meeting also included a community exchange, discussion of MAPC Executive Director's report, and other updates.

MAPC Annual Report prepared and submitted by Marc D. Draisen, Executive Director, Metropolitan Area Planning Council.

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work in concert with UMass Amherst Faculty and Extension staff on behalf of the United States Department of Agriculture, to provide valuable information in Extension's four major program areas: Agriculture and Landscape; 4-H Youth and Family Development; Nutrition Education; and Natural Resources & Environmental Conservation. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing programs.

Cooperative Extension resources and programs for Plymouth County residents include: sustainable garden lectures, fruit pruning demonstrations; research and educational programs on winter moth and gypsy moth caterpillars; pesticide applicator training & licensing exams; the annual UMass Extension Garden Calendar; landscape and horticultural training and resources for municipal employees and green industry professionals; accredited overnight 4-H summer camps; and teacher workshops and resources. New research findings are translated into practical applications and shared with residents and communities through workshops, conferences, field demonstrations, radio and television, local libraries, technical assistance, and newspaper articles. Publications such as newsletters, booklets, and fact sheets bring information directly to those who need it. Additional information is delivered through office visits, phone calls, and UMass-Amherst Extension web access www.umassextension.org

The Plymouth County Extension office is located at P.O. Box 658, High St. Hanson MA 02341 (781-293-3541; 781-447-5946) plyctyext@mindspring.com. Regional Extension programs are often conducted in Southeastern Massachusetts.

UMass Extension also operates the Cranberry Experiment Research Station, located in Wareham and the Nutrition Education Program, located in Brockton.

Members of the Plymouth County Staff:

Michael D. Koski, 4-H Youth and Family Development Program
Molly Vollmer, 4-H Youth and Family Development Program
Deborah C. Swanson, Landscape, Nursery and Urban Forestry Program
Debra L. Corrow, Executive Assistant

Board of Trustees:

Michael Connor, Chairman - Halifax
Loren Decker – Middleboro
Jere Downing - Marion
Elizabeth A. Francis - Plymouth
Chris Iannitelli – W. Bridgewater
Marjorie Mahoney - Hingham
John Peterson - Halifax
Wayne Smith - Abington
Jeffrey M. Welch, Chairman, Plymouth County Commissioner - Abington

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2006.

The Project is a special district created by the State Legislature in 1957, and is now composed of all Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2006 season began with a normal water table until record May precipitation produced large numbers of spring and summer brood mosquitoes throughout the County. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began. The Project responded to 13,708 requests for service from residents.

In response to the elevated threat of mosquito borne diseases in the district, we increased our trapping, aerial and ground larviciding, and adult spray in areas of concern to protect public health.

Eastern Equine Encephalitis virus was first isolated from *Culiseta melanura*, a bird biting species, by the Massachusetts Department of Public Health in Carver on July 17, 2006. Of the season's record breaking total of one hundred fifty seven EEE isolates, fifty four were from Plymouth County as follows: Bridgewater- 8/1(2), 8/18, 8/19; Brockton- 9/18; Carver- 7/17, 8/2, 8/6, 8/21(2), 8/22, 10/2; Cohasset- 8/25; East Bridgewater- 8/9; Halifax- 8/2(2), 8/7, 8/10, 8/16, 8/21, 8/31(3); Hanover- 9/18; Hingham- 9/12; Kingston- 8/7(2), 8/10(2), 8/21, 8/22, 9/25; Lakeville- 7/25, 7/26(2), 8/2, 8/6(4), 8/22; Marshfield- 8/31; Mattapoisett- 8/10; Middleboro- 8/1; Pembroke- 8/16; Plympton- 7/31, 8/16(2), 8/28, 8/30; Rochester- 9/6; Rockland- 8/14 and Scituate- 9/12. Five human cases of EEE were confirmed statewide with cases reported in Lakeville and Middleboro. Three horses were diagnosed with EEE in Plymouth County (Lakeville, Middleboro and Pembroke). A Llama from Scituate was also tested positive for EEE.

Analysis of risk indicators in Southeastern Massachusetts were showing that the risk of human EEE infection was at a critical level. This precipitated aerial spraying at dusk on August 8th of approximately 159,000 acres and an expanded aerial spray zone of approximately 425,000 acres between August 22nd and 24th which included a great portion of Plymouth County. We normally end our spray season on Labor Day. This year we suspended our ULV ground spray season on September 30. Based on guidelines defined by the "Vector Control Plan to Prevent EEE" in Massachusetts, Southeastern Massachusetts will be at a "moderate level of EEE risk" beginning the 2007 season.

We are pleased to report that in 2006 there were no human or horse West Nile Virus cases in Plymouth County. A total of five birds tested positive for WNV in the following three towns: Bridgewater (3), Brockton (1) and Pembroke (1). A total of six isolations of WNV in mosquitoes were found in the following towns: Bridgewater (8/22), Carver (8/21), Halifax (8/30), Kingston (9/19), Pembroke (8/6) and Plympton (8/30).

The recurring problem of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Massachusetts Department of Public Health. In an effort to keep the public informed, EEE and WNV activity updates are regularly posted on Massachusetts Department of Public Health website at www.state.ma.us/dph/wnv/wnv1.htm.

The figures specific to the Town of Norwell are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Norwell residents.

Insecticide Application. 5,654 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in June and the last in September.

During the summer 1,671 catch basins were treated to prevent the emergence of *Culex pipiens,* a known mosquito vector in West Nile Virus transmission

Aerial Application. Larviciding woodland swamps by helicopter before the leaves come out on the trees continues to be very effective. In Norwell this year we aerially larvicided 652 acres.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Inspectors
continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present.

Water Management. During 2006 crews removed blockages, brush and other obstructions from 870 linear feet of ditches and streams to prevent overflows or stagnation that can result in mosquito breeding. This work, together with machine reclamation, is most often carried out in the fall and winter.

Finally, we have been tracking response time, which is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Norwell was less than two days with more than 425 complaints answered.

Mosquito Survey. A systematic sampling for the mosquitoes in Norwell indicates that *Aedes vexans* was the most abundant species. Other important species collected include *Culiseta melanura* and *Ochlerotatus abserratus.*

We encourage citizens or municipal officials to visit our website at www.plymouthmosquito.com or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Raymond D. Zucker
Superintendent
Commissioners:
Carolyn Brennan, Chairman
Michael J. Pieroni, Vice-Chairman
Leighton F. Peck, Secretary
William J. Mara
Kenneth W. Ludlam, Ph.D.

NORWELL RECREATION COMMISSION

Norwell Recreation offered over 222 program opportunities to all ages and interests in 2006. There were over 12,503 program participants, which was 6% increase from 2005.
New programs this past year included boot camp fitness, ceramics, dodgeball fun, knitting, mosaics, a new summer musical theatre social dance, and field trips to new venues. New programs always meet with varying degrees of success and these were no exception -- some were hits and some were not.

Other programs with a longer history continue. For youth we offered playgroups for toddlers and preschoolers, youth basketball, afterschool arts, theater, fun after-school activities, fitness programs, a variety of sports programs such as archery, basketball, baseball, canoeing, cheerleading, fencing, field hockey, golf, tumbling, , kayaking, lacrosse, rock climbing, ski and snowboard lessons, soccer, tennis, the Egg Hunt, field trips, summer recreation playground (scenes) programs for ages 4-grade 8, crafts, summer art, space adventures, and lots of field trips. Some programs are cooperative efforts with local organizations or businesses like the baby sitting and parent's helper courses provided by the Friends of

Norwell Visiting Nurses Association, Sunday Open Gym with South Shore ARC, the Women's Club Bunny Breakfast combined with our Egg Hunt, the youth dances brought to the town by the Women's Club, the Fishing Derby cosponsored by Village Green Real Estate. For adults and teens we offer many activities such as archery, basketball, C.P.R., first aid, fencing, golf, volleyball, basketball, field trips, painting (oil or watercolor), digital photography, ski trips, volleyball, workreation - a teen volunteer program, volunteer teen coaching, yoga, and a variety of workshops and seminars. The Job Bank provides a list of teens willing to child sit, do yard work, and odd jobs, which gives residents a valuable resource. We will look into any program suggestion because others may like your ideas! You can see our imaginations (and resources) only limit the variety. So keep those ideas and suggestions coming. And if you read this report, we'd like to know at the Recreation Office, give us a call, 781-659-8046.

The value and quality we offer seems supported by our high participant numbers. Budget moneys cover the administrative costs of providing recreation services and the staffing for the three general summer playground programs. In FY 2006, $16,725 was deposited into the general fund, which offsets our budget request of $139,712 so the bottom line for recreation was $122,987. In addition, more than $153,798 was spent on activities totally supported by participant fees. All other activities and services (95% of the programs) have continued because the participants pay all costs with fees. It is our hope that Norwell voters continue to recognize the importance of recreation through public support and not just by one's ability to pay!

Program scholarships are available for families needing assistance and we welcome contributions to cover those costs. The Workreation program is where teens volunteer to assist in various capacities in exchange for credit toward recreation activities. We had 9 teens volunteer 327 hours in the summer which was a huge help to have more assistance with the younger participants. There were more than 2500 hours that teens and adults volunteered with coaching, teaching, supervising field trips, conducting special events, program assistants, commission members, etc. The equivalent cost value is about $20,000 if paid at $8 per hour! That certainly deserves a huge thank you!

Norwell is fortunate to have commission members dedicated to public recreation programs and facilities. Chair, Ginny Maree, and members, Jerry Kehoe and Pat Richardson and new members Anne Staples and David Kean contributed time, energy, and various areas of expertise. Jerry acted as our representative on the Athletic Field Committee, which oversees the very vital task of improving our town's athletic fields. Pat is our representative on the Community Preservation Act Committee. David Barcomb resigned in May after a couple of years of assistance. We wish to thank all members for their interest, their support and their time!

Leadership quality is perhaps our best asset. Through recreation director, Dale Connor; program-coordinator, Judy Volpe, and the many excellent program instructors' and leaders' efforts, knowledge, dedication, concern, and enthusiasm, Norwell is provided with recreational services for the entire population. We extend our appreciation for all their exceptional efforts.

The Recreation Commission thanks the School Department for their support through the usage of facilities -- gyms and fields, and also recognizes Paul Foulsham and the Tree and Grounds Department for their field maintenance and improvements. Without these cooperative efforts, our programs would be more limited and/or costly. Each year the Town relies heavily upon other organizations within town such as Little League, Girls Softball, Youth Soccer, Youth Football, and Youth Lacrosse to help with the maintenance expenses of the facilities they use. 2006 saw on-going improvements of fields through the efforts of the Athletic Field Committee which needs more active members involved in improving those facilities used by so many of our young (and older) community athletes.

We mail our seasonal brochure four times a year to every Norwell postal customer. We've also developed our website which is a great way to find updated program information 24/7. Check it out www.townornorwell.net. Our challenge continues to be funding support and improved recreational facilities. Participant feedback and numbers show support for services with continual requests for more. We take pride in our response to your interests and needs and hope to hear your ideas! We have programs for all ages and all interest levels. Take a look at one and join us in a future program! *This is your recreation department!*

Submitted by Dale Connor, Director and the Recreation Commission: Chair : Ginny Maree, David Kean, Jerry Kehoe, Pat Richardson, and Anne Staples

RECYCLING COMMITTEE

Recycling Calendar

In 2006 the recycling committee again showcased the talents of Norwell students by publishing a calendar featuring the art work of second, third, and fourth graders which illustrated the children's understanding of recycling themes. The calendars also included information on all youth related activities in town and were mailed to all of the families with school-age children.

This is the second year that the recycling committee has sponsored this effort and, once again, members were amazed at the enthusiastic response of the students. Ninety drawings were submitted for the contest. Sixteen of these pictures were selected for the calendar.

The students whose work was selected were, in alphabetical order:

Bryce Bailey, 4th grade, Cole School; Emma Basso, 3rd grade, Vinal School;
Liza Basso, 4th grade, Vinal School; Annie Burke, 4th grade, Cole School;
Kara Burns, 4th grade, Cole School; Harrison Davis, 2nd grade, Vinal School;
Carolyn Flaherty, 2nd grade, Vinal School. Anna Goslin, 4th grade, Cole School.
Alexis Henriquez, 3rd grade, Vinal School; Colin Hill, 3rd grade, Vinal School.
Lily Hillstrand , 4th grade, Cole School; Lauren Jarvenin, 3rd grade,Cole School.
Kaela Nelson, 4th grade, Cole School. Kyle Schlueter, 4th grade, Cole School.
Shannon Sweeney, 3rd grade, Cole School; Michaela Tobin, 4th grade, Vinal Sch.

Six of the students were also awarded prizes from a random drawing of the winners. Those who received prizes were:

Kara Burns and Annie Burke, gift certificates to Michaels Arts and Crafts;
Kyle Schlueter and Harrison Davis, gift certificates to Dunkin Donuts;
Emma Basso, a "Save the Planet" a board game;
Shannon Sweeney, a digital camera.

The committee would especially like to thank Brian Noble of Noble's Camera Shops for his generosity in donating the digital camera and the Massachusetts Department of Environmental Protection for donating the board game. The committee also extends thanks to Phyllis Wenzel and Image Resolutions for their contribution in printing the calendar, Paul Papadonis, the high school art teacher who judged the art work, the PTO, the Women's Club, and the Norwell recreation department for their help assembling the information about youth events, Supt. Donald Beaudette for his cooperation in getting the calendar mailed, and Reiko and Kiyomi Beach who helped with its layout.

Residential Recycling

In 2005, Norwell residents recycled:

1,055 tons of paper, cardboard, and plastics, glass, and aluminum.
83 tons of scrap metal
142 tons of leaves and yard waste
515 computers and televisions
124 propane tanks
55 gallons of used oil
53 mercury-laden thermometers and thermostats.

These numbers are roughly equivalent to the amounts recycled in 2005. The town pays $34.52 per ton to dispose of non-recyclables therefore recycling 1,055 tons of paper, plastics, and glass represent an effective savings of more than $36,000 for the year. This savings could be boosted by another $14,000 in savings if residents were to improve their paper recycling. This estimate is based on state studies which have shown that 38 percent of paper is not recycled.

New Members

The committee is planning an ambitious agenda for 2007 and invites interested residents to join in making these plans a reality. Applications are available in the selectmen's office. For more information, call Joanne Dirk at the Norwell Public Library, 781-659-2015.

Respectfully submitted by the Recycling Committee: Joanne Dirk, chairman; Anne Fridgen-Traft, Carole McCarthy, Pattie Hainer, members.

SENIOR CITIZEN TAX RELIEF COMMITTEE

The Senior Citizen Tax Relief Committee (SCTRC) was commissioned by the Board Of Selectmen in June of 2005 in recognition of the increasing numbers of elders, on fixed incomes, experiencing difficulty in meeting escalating real estate tax obligations. The objective of the Committee is to explore existing statutes already in existence within the General Laws of the Commonwealth on the subject of tax relief with an eye to how such statutes could be amended to expand their scope.

It was noted, after study and with the help of the Norwell Board of Assessors (BOA), that there was considerable relief already available within the existing laws. Such relief, consisting of various forms of abatements and deferments, is administered by BOA's of the various cities and towns of the Commonwealth. There was general concern that these remedies were not understood by the public at large. We became indebted to the Norwell Council of Aging (NCOA) and the Friends thereof for their help in promulgating information in this regard. We strongly recommend the NCOA as the day to day information only source regarding latest guidance on real estate taxes among other services that the Council provides to meet the needs of seniors in town. It must be emphasized, however, that the Norwell BOA is the legal and final authoritative source of information and direction regarding real estate tax matters.

The Committee endeavored to join forces with other towns in the area of the South Shore in the interest of influencing possible additional legislation pertaining to tax relief. Pending expressions of interest on behalf of such towns, the Committee did take advantage of legislative amendments to applicable statutes as authorization to submit an Article in the Warrant for the 2006 Town Meeting to lower the rate of interest charged for tax deferrals from 8% to 4%. This Article was approved unanimously.

The Committee is currently giving thought to a further refinement of the tax deferral legislation by requesting approval of the Town Meeting to submit a Home Rule Petition to increase the maximum qualifying gross income level for deferral to that established locally for qualification for Affordable Housing. Hopefully, this request will make it to the Warrant for the 2007 Town Meeting.
Respectfully Submitted;
William B. Earley, Chairman

SOUTH SHORE RECYCLING COOPERATIVE

The Town of Norwell is a member of the South Shore Recycling Cooperative (SSRC), a voluntary association of fifteen South Shore towns established by Intermunicipal Agreement (IMA) and Special

Legislation in 1998. Members of the SSRC are: **Abington, Cohasset, Duxbury, Hanover, Hingham, Holbrook, Hull, Kingston, Marshfield, Norwell, Plymouth, Rockland, Scituate, Weymouth, and Whitman**.

Representatives from each member town are appointed by the Selectmen. Norwell is represented by Joanne Dirk.

The mission of the SSRC is: "to provide a forum of cooperative management of solid waste by members, to assist each member Town to improve the cost-effectiveness of their recycling efforts by providing economy of scale while maintaining full control over solid waste management; to assist members to improve programs to divert waste materials from the waste stream and to reduce the amount and toxicity of wastes; and to provide such assistance on an individual basis to each member Town and cooperatively in joint programs with other Towns."

Since 1998, each member town has paid an annual membership fee of $4,000. In 2006 the SSRC raised a total of **$60,000** through these fees, which the SSRC supplemented with $14,278.34 in grants from MassDEP and Covanta at SEMASS. Those funds pay for the services of the Executive Director and support various solid waste and recycling activities during the year to benefit member towns. The SSRC estimates that in 2006 these activities **saved member towns an estimated $154,800,** and provided **318 hours** of direct services to the towns.

HOUSEHOLD HAZARDOUS PRODUCT COLLECTIONS

The SSRC bid out and awarded a new contract for the collection and disposal of **household hazardous products** this year. By using this regional contract with **Clean Harbors**, Member Towns paid about **27% less** than the State contract rates, and avoided the administrative time to bid, schedule and publicize them. **2,622 residents** attended the thirteen collections held in 2006, and Member Towns saved **$47,731** for this service. The contract also enabled **129 residents and businesses** to attend other Member Towns' collections using the **reciprocal arrangement,** which is administered by the Executive Director. The SSRC □dvertised the events with several thousand **flyers** delivered to the town halls and libraries, and ongoing press releases in all **local papers, on cable TV and the radio**. The Executive Director attended and helped run ten of the collections, handed out paint stirrers with cost saving instructions on latex paint disposal, provided signs and calculated the **proper billing** for the vendor to ensure that discounts and allowances were credited and visitors billed properly.

SPECIAL AND DIFFICULT TO MANAGE WASTE

Construction and Bulky Waste

By using an arrangement facilitated by the SSRC with the **Bourne ISWMF**, Member Towns enjoyed a disposal rate of $70-75/ton for **construction and bulky waste,** which is **$12.50/ton less than the gate fee.** With generation of **7,533 tons**, Member Towns saved **$94,165**.

Mattresses

Cohasset, Hanover and Kingston save on mattress recycling by using an SSRC arranged program with Miller Recycling in Plainville to transport and process mattresses for $14/each, including container rental. This arrangement saved the three participating towns approximately **$11,900** on the **1,698 mattresses** they collected.

Compost and Brush

The SSRC contracts for **brush grinding, compost screening and chip removal**, awarded to Letourneau Corp. and Lion's Head Organics in CY05, were used by six of our towns for 35 days.

Mercury Bearing Waste

The SSRC helped the thirteen member towns that have contracts with SEMASS to maximize their benefits from the **Material Separation Plan (MSP)**, including the provision by SEMASS of digital thermometers for exchange, reimbursement for mercury disposal costs, and outreach assistance (HHP flyers, radio ads) valued at approximately **$7,000**. These programs removed **about 100 lbs. of mercury** from the waste stream.

Paper

The SSRC facilitated the siting of 76 Abitibi Paper Retriever containers at public and private entities in thirteen of our towns. In 2006, they captured an additional **406 tons** of paper, and returned **$2,217** to the

municipalities and local organizations.

Textiles

The SSRC introduced Bay State Textiles, which pays $50/ton for used clothing and textiles, to the managers. Their competitors pay nothing, and service isn't always good. Five towns recycled **246 tons** of material through them, for which they were paid **$12,319**.

Books

The SSRC introduced GotBooks, which pays $100/ton for used books and other media, to the managers. Several towns set up book collections through them..

PUBLIC OUTREACH:

Recycle More Paper campaign

The SSRC was awarded a Municipal Waste Reduction **grant of $13,000** plus 80 hours of **Technical Assistance** from MassDEP for a paper recovery outreach campaign which resulted in an annualized **reduction in trash of over 2,500 tons**. Through the grant, the amount of recyclable paper that each of the fifteen towns was disposing (30,000 tons per year altogether, or about 62%), how much the waste was costing the towns (over $2 million/year) was estimated and published by the local and regional press Signs and banners also informed residents of the magnitude and cost of the waste, and six local paper shredding events, advertised in the local papers and radio, emphasized the scope of paper products that are recyclable. The towns recovered **106 more tons of paper** in the month of June than in the previous June.

Bill Inserts

The Executive Director designed, customized and/or arranged for printing of "Recycle More Paper" bill stuffers for Abington, Duxbury, Hingham, Kingston, Marshfield, Plymouth and Weymouth. This service is available to any member town that requests it. A template is included in this report.

Radio Ads

The SSRC produced 8 more **radio ads** promoting recycling and waste reduction, in addition to the 16 recorded in 2005. Together they were broadcast over 400 times on **WATD** 95.9 fm (Marshfield), **WPLM** 99.1 fm (Plymouth) and **WJDA** 1300 am (Quincy) throughout the year. The SSRC obtained **sponsorship from Covanta at SEMASS** to cover 1/3 of the airtime cost for the ads. We also partnered with the North and South River Watershed Association for reduced airtime costs on WATD. Total cost was **$9,505**.

Newspaper Contacts

The SSRC releases articles and provides information to the local press about waste reduction and recycling, and the proper disposal of hazardous waste.

Resident Contacts

The Executive Director fielded **110 calls** from Member Towns' residents in CY06 to answer questions, mostly about hazardous and difficult to manage product disposal.

Website

ssrc.info provides town-specific recycling information, household hazardous product collection information, SSRC meeting minutes and annual reports, press releases, a quarterly newsletter, and links to other sites.

Marshfield Fair Recycling

With assistance from the Mass. DEP and the Town of Marshfield, the SSRC worked with event organizers to continue **event recycling programs** at **the Marshfield Fair**. While public education was the main benefit, five tons of material was also diverted from the trash for recycling, and another ton was composted. Recycling containers from a previous grant are available for loan to all Member Town events.

ADVICE, ASSISTANCE AND NETWORKING.

The Executive Director's help is frequently sought by the solid waste managers on such issues as curbside contracting, disposal of special wastes, alternative vendors for different materials, regulations and accessing grants. She maintains regular contact with the solid waste managers from each town to stay up to date on their programs, update them on current trends, and advise on specific needs each town had. She attended Board/ committee meetings in **Hull, Kingston, Marshfield and Weymouth,** and helped **Hingham** source public space containers, **Hull** with a recycling RFQ, **Marshfield** with school tonnage

tracking, **Norwell** on several difficult to manage wastes, **Plymouth** with data, **Rockland** with contract advice on recycling and hot loads, and **Scituate** on compliance with the new regulations.
She also provided the MSW managers with a nine page **directory of service providers**.

Quarterly Newsletter
The SSRC publishes a newsletter filled with information of immediate interest to the South Shore solid waste community, including local solid waste news, regulatory and legislative proposals, meetings and seminars. The newsletter is circulated to over 350 town officials, legislators, regulators and volunteers, and is posted online at ssrc.info.

Monthly Meetings
The SSRC provides valuable **networking opportunities** and information sharing at our well-attended **Solid Waste Manager meetings**, at which solid waste collection, disposal and recycling service, pricing and proposed laws and regulations are discussed among member towns. Guest speakers provide information on subjects of interest to the local MSW community, including special waste disposal, regulatory compliance, legislative and budget issues, and grant assistance.

ADVOCACY
The Executive Director, who has also elected **President of MassRecycle** in May 2005, drafted legislation that would benefit municipal solid waste programs at Senator Creedon's request, and met with key legislators to provide input on that and other state solid waste issues. She also attended policy meetings, forums and conferences hosted by MassDEP, Solid Waste Association of North America, the Council of SEMASS Communities, MassRecycle, and the Northeast Resource Recovery Association. In her capacity as MassRecycle President, she was appointed to and attends Mass. DEP Solid Waste Advisory Committee meetings. She shares what she learns with the Managers, and relays the Managers' concerns to the professional and State organizations and regulators.
The SSRC held a **Legislative Breakfast** in May at which Sen. Robert Hedlund (R-Weymouth) was recognized with our "Environmental Hero" award for his sponsorship and support of bills and budget items that promote waste reduction, and his role in the creation of the SSRC. Rep. Frank Smizik, the Chairman of the Committee on Environment, Natural Resources and Agriculture, also spoke at the event.

The SSRC exists to serve its member towns by facilitating their solid waste disposal and recycling functions. It always welcomes suggestions on how it can better serve its Members.

Respectfully submitted,
Claire Sullivan, Executive Director, South Shore Recycling Cooperative

DEPARTMENT OF VETERANS' SERVICES

The Office of Veterans' Services survived more budget cutbacks and is operating with no reduced hours or service. Mr. Caldwell's office hours are Tuesday and Wednesday afternoon and he is available at other times by appointment.

This past year, the office operated within its allotted budget in all areas. What is not generally known is that the majority of budget expenditures are reimbursed, to the Town of Norwell's General Fund, by the State Department of Veterans' Services at a rate of seventy five percent. Therefore, most of my line items cost our town 25% of what is shown.

This was a very good year for my office and veterans in our town. We were able to qualify severely disabled veterans for annuities from the State. We were also able to bring into the Town of Norwell in excess of $800,000 from the Federal Government Office of Veterans' Affairs, (VA) and get some disabled veterans compensation.

As the vast majority of Massachusetts seniors are either veterans or survivors of veterans and may be unaware of their possible eligibility for either state of federal benefits it may be useful for them to drop in to the Veteran's office in the Town Hall and receive updated information. There may be a group of

young veterans returning to our community from conflicts around the world. They were given excellent information during mustering out procedures, but they to may want to drop by to determine if any new benefits have surfaced. One Massachusetts benefit for Iraq or Afghanistan veterans is our $1000 bonus for in country veterans and $500 for veterans in conus. There are also VA benefits for veterans and widows, 65 and older, who are trying to live on very limited incomes. Please come see me so we can discuss your possible benefits.
Respectfully Submitted:
Richard Caldwell, VSO

BEAUTIFICATION COMMITTEE

The Norwell Beautification Committee performs, sponsors and supports various programs and projects to further the beauty and the quality of life of our town.

Nearly 500,000 daffodils have been planted along our roadways, at homes, schools, monuments, and town buildings since we began this program in 1994. Because it is so popular, we plan to continue the daffodil program each year. Charlie Morgan will manage the daffodil program in 2007.

Twice each year, spring and fall, the entire committee cleans the town library grounds and the Japanese garden at the rear of the library. This year, using donated funds, we rebuilt the path to the Japanese garden by installing steel edging, adding a new stone dust surface and installing cross path drain lines for the library roof drains. The new path is now handicap assessable.

The triangle program continues. There are several triangles in need of volunteers.

Our Adopt-A-Street program is very important and is also one which needs additional volunteers. Tilda Baldwin established the Adopt-a-Street Program in 1995, with 5 volunteers. There are nearly 100 volunteers today; however, even with all these citizens picking up and disposing of roadside litter, only 24% of the town's streets are covered. Everyone benefits when our streets and roadways are litter free. Our goal has always been to help make Norwell a litter free town.

As in past years, we provided holiday cheer poinsettias to the Town Hall offices, the Norwell Library, the Council on Aging, Fire Department Headquarters and to the Police Station. We competed clearing the North and South side stonewalls along Main Street between Lincoln St. and the Red Barn/Homestead Farm Lane. This was done in response to requests for additional vistas from Norwellians. The committee sponsored a request for $15,000 from the town's Community Preservation Fund for repairs to the Civil War Monument. This was approved at town meeting. After the restoration of the monument was completed, the committee planted 20 dwarf Korean boxwoods around the base of the monument as protection against erosion. We will continue to plant flowers at the monument.

2006 was the 18th consecutive year of this Norwell Beautification Award Program. Once again, we were honored to have Senator Robert Hedlund present proclamations from the Massachusetts Senate to each of the awardees. The award recipients were Dorothy and Scott Underdown for excellence in planting and maintaining the garden at the State Police Barracks, Wyman's Garden Center, Inc. in recognition for continued support of Norwell's beautification programs, Herbert B. and Ellen C. Fulton for excellence in planting and maintaining an outstanding daffodil display at their home at 121 Old Oaken Bucket Road, Tilda A. Baldwin in recognition and appreciation for outstanding work in developing and continuing Norwell's Adopt-a-Street Program, the business award went to Jardins Home and Garden for excellence in maintaining the store at 688 Main Street, and the Myrtle H. McKay award went to Mark and Elizabeth F. Plansky for the outstanding appearance of their home at 479 Main Street. An informal reception for the awardees was held after the award ceremony.

As in prior years, we must give a very special "thank you" to all our volunteers. You make our programs successful. We know how hard you work and the importance of each of you is appreciated. The help and support of Norwell Town Departments and Offices is also recognized and appreciated. We do seek additional volunteers for the Triangle Program and the Adopt-A-Street Program. Any townspeople interested in becoming a part of the Norwell Beautification Program should not hesitate! Please call 781-659-7463!

Respectfully submitted:
Richard P. Barry, Chairman
Charles S. MorgaDorothy
L. Underdown

CONSERVATION COMMISSION

In the course of its regulatory duties to administer and enforce the state Wetlands Protection Act, Rivers Protection Act, Stormwater Management Policy and the Town of Norwell Wetlands Protection Bylaw, the Conservation Commission held 96 public hearings in 2006. The Commission also entertained many scheduled discussions with landowners and project proponents on a variety of subjects including land donations, conservation restrictions, enforcement issues and legal proceedings.

The protected conservation land under the Commissions' stewardship increased by over 140 acres this year through tax title transfers and donations. Town Meeting transferred 116 acres of tax title land between Mount Blue and Mount Hope Streets, and almost 10 acres of land east of Pine Street into conservation during the 2006 Town Meeting. These transfers helped protect biodiversity, rare and endangered species habitat and drinking water supply. Additionally, Alan Fredrickson, a former Norwell resident, donated 4 acres of land in late 2006. The property is located off of Lincoln Street and is part of Hoop Pole Swamp, which provides diverse wildlife habitat and water quality protection for the headwaters of Wildcat Creek. The Commission has also worked with two landowners to finalize language for forthcoming Conservation Restrictions. The Commission is working with the Community Preservation Committee to identify and acquire additional land within the Town for open space and conservation protection.

The Council on Aging Senior Volunteers Program continues to provide invaluable assistance to the Commissio in its stewardship of conservation land. Projects completed by the volunteers in 2006 include: restaining the Cli Prentiss Bridge and leveling the parking area on Duncan Drive to prevent washout into the pond; repairing a doc at Jacobs Pond; clearing and pruning trails on conservation land throughout the town; removing illegal structur from conservation land and assisting with special projects in the Commission office. The Commission thank Charles Dirk, Ralph Knowles, John Flaherty, Al Slvenis, Charles Alexson, and Steve Young. Justin Ivas earne his Eagle Scout badge with a GIS-based project that mapped the established trails on Conservation land. Th maps are available online on the Town website at http://www.townofnorwell.net by going to "Commissions ar Departments".

Vandalism, dumping, and illegal collection of wildlife continues to be a problem on conservation land, especial at Jacobs Pond, where people have been observed hunting and killing turtles in large numbers. The Jacobs Por Conservation Area seems to be a target of this activity and we ask that anyone seeing such activity c conservation lands contact the Norwell Police right away.

With the completion of the 2005-2010 Norwell Open Space and Recreation Plan in late 2005, the Commission began implementing some of the action items outlined in the Action Plan including: rectifying discrepancies in ownership inventory; prioritizing Chapter 61 lands for protection; acquiring land for Open Space and Conservation; and assisting South Shore Natural Science Center and students from Notre Dame Academy to identify and certify vernal pools. Also, the 2006 Town Meeting approved Community Preservation funding to a Conservation Commission-sponsored article to enhance public access to the North River. With the help of volunteers to the Open Space and Recreation subcommittees, the Commission will continue to work diligently to accomplish the many action items outlined in the Plan. Additional volunteers are needed and we invite anyone interested to contact the Conservation Agent.

During the first half of the year, the Commission operated without a full-time Conservation Agent. With the support of the Selectmen, the position was supplemented in July of 2006 to a full-time position. A portion of the salary is funded through fees collected by the Town, which are mandated by the state Wetlands Protection Act and can only be used for the administration and enforcement of the Wetlands Protection Act. Supplementing salaries and other Commission activities with this fund does not increase the Town budget or resident taxes.

The volunteer members of the Norwell Conservation Commission thank staff members Michele Simoneaux and Meredith Schmid for their dedicated effort, which has kept the Commission running smoothly during the year.

The Conservation Commission meets on the first and third Tuesday of the month at 7:30 p.m. Meetings are open to the public, and all are welcome.
Respectfully submitted, Norwell Conservation Commission.
Gregg McBride, Chair
Christopher Mickle, Co-Chair
Burt Bryan
Deborah Hill
Kathryn Mudgett
David Osborne
W. Clifford Prentiss
Michele Simoneaux, Conservation Agent
Meredith Schmid, Administrative Secretary

NORWELL HISTORICAL COMMISSION

The purpose of the Norwell Historical Commission, accordance with Massachusetts General Law (Chapter 40, Section 8D) and the Norwell Bylaws, is *"to accept responsibility for preserving and protecting irreplaceable historic antiquities and historic resources throughout Norwell, as official agents of the municipal government."*

The Historical Commission has continued to be faithful to its responsibilities.

Projects:
The restoration of the Civil War Monument is complete. This project was a partnership between the Commission, the Veteran's Committee and the Beautification Committee.

The rededication of the monument was held on Memorial Day. David DeGhetto, a member of the Commission, spearheaded the project and the Commission wishes to express their appreciation for his capable handling of this endeavor. The funds used for the restoration were taken from the Community Preservation funds, allotted to the Historical Commission, for historic preservation..

The survey of the Antique Homes in Norwell is almost complete. The finished forms from the first half of the survey have been received and duplicates sent to the Massachusetts Historical Commission, who had mandated the survey.

The survey should be completed in early 2007. It was discovered while doing the survey that many homes may qualify for the National Register and that High Street may be eligible, because of its diversity of styles of antique homes, to be a Massachusetts Historic District and even a National Historic District.

The historic signs on Main Street have been repainted.

Scenic Roads:
The Town Meeting passed the article, that the Commission placed on the warrant, to name eight more byways as scenic roads, Circuit St., Green St, Wildcat Lane, Pine St, Pleasant St, Mt. Blue St, Lincoln St and Winter St. .This brings the number of scenic roads to twenty.
The Commission is working with the Beautification Committee and the town, to choose appropriate scenic road signs in 2007.

Community Preservation Act:
The CPA continues to be very cooperative with the Commission. The NCH is looking into the restoration of the Stetson/Ford House and what funds might be available for this project.

Date Boards:
The historic home date boards continue to show up around town. The program, although building slowly, is on going. This year, six more homes have purchased sign boards.
The Commission has help available to any homeowner seeking help to date their home. The boards are made by New England Markings.

Jacob Farm House:
The Farm House continues to get excellent reports from the Historic New England organization, which inspects the farm at least once a year.
Repairs have been made in several areas this year: The security system has been updated, windows have been repaired, the closures on the barn doors have been redesigned \ the house and carriage house have been power washed (to remove moss and mold), The plumbing has been repaired (including the upstairs bathroom in the rental side of the house) and: there has also been restorative painting done to the interior.

The Jacob Farm Income Trust funds these repairs.

The Stetson/Ford House:
The Commission is concerned about the house, as it needs serious repair. Initial inspection found that a more extensive inspection was needed.
It is hoped that funds for this purpose, will be found in the coming year, so that the Commission will have a clear picture of what the final costs will be.

The property has been surveyed and granite property markers installed.

Members:
Two members have retired from the Commission this year and both will be sorely missed. Robert Babcock and Robert Sayrs were respected and appreciated members.
The Commission would like to thank them for their contribution and dedication, to the preservation of Norwell's historic character.

The Commission also wishes to welcome their replacements, Robert Norris and Wendy Bawabe.

As always the Commission would like to thank the Highway Department, the ladies o the Assessor's Office, Building Inspector, Tim FitzGerald, The Ladies of the Selectmen's Office, the Town Clerk and Jim Boudreau, who is always helpful and interested in our projects and plans.

The Norwell Historical Commission and The Norwell Historical Society are very often thought to be the same organization; this is not the case.

The Commission is a municipal agency, mandated by the State, to protect the historic character of the town, its monuments, buildings and scenic vistas. Its members serve three year terms and are appointed by the Selectmen

The Society is an independent organization with its own structure. The Society protects the written history of the town and holds in keeping the archives of Norwell. It keeps the history of Norwell alive and vigorous and maintains the Historical Library at the Middle School. The members hold yearly elections.

It is the Commission's hope that this year, will be one of renewed respect and interest in protecting this lovely town and its unique historic character.

Respectfully submitted,
Joseph Carty, Chairman
Joan Vermette, Secretary
Pam Bower-Basso, Historian
David DeGhetto
Kim Zayotti
Robert Norris
Wendy Bawabe

THE PLANNING BOARD

Calendar year 2006 was a busy and productive time for the Planning Board. Over the course of the year, the Board held 35 meetings. 25 of these meetings were regularly scheduled meeting sessions to conduct public hearings on proposed subdivision applications, to discuss and act upon Approval Not Required plans, and to discuss and make recommendations to the Board of Appeals regarding proposed site plans and comprehensive permits. The Board held 10 special meeting sessions to develop amendments to the zoning bylaws, conduct site walks of land proposed for development, and to attend Town Meeting sessions.

I. SUBDIVISION PUBLIC HEARINGS.

During the subdivision review process, the Planning Board holds a public hearing (which can begin and finish at one meeting or may be continued, at the applicant's election, over a longer period of time) to determine if the proposed project satisfies the Board's subdivision regulations. If a project satisfies all of the Board's regulations, then state law requires that the Board "shall approve" the project. The Board's regulations are designed to require a project to provide safe access to all of the proposed lots, comply with applicable zoning requirements and make adequate provision for water, sewerage, drainage, underground utility services, street lighting and other basic services.

During 2006, the Planning Board conducted public hearings for four definitive subdivision projects and took in $14,900 in subdivision application fees. A brief status report on the subdivisions that had public hearings during calendar year 2006 can be found below.

BARREL LANE (Off Circuit Street) **Appealed 5/06**
15 lots on 28.3 acres

This project proposes 15 new subdivision lots on 28.3 acres, with 1 surface drainage basin and 1 dead-end street with linear 1,180 feet.

On November 10, 2004, the Applicant applied for definitive subdivision approval. The public hearing began on January 5, 2005 and after seven additional hearings was concluded on March 15, 2006. The plan was conditionally approved on April 7, 2006. An appeal of this decision was filed with the Town Clerk on May 1, 2006. This plan will continue to be litigated until the inherent land ownership issues are resolved.

COWINGS LANE (Off Summer Street) **Approved 2/06**

7 Lots on 20.9 acres

This project proposes 7 subdivision lots (6 new lots and 1 reconfigured lot to serve an existing dwelling), on 20.9 acres of land, with a dead-end roadway of 653 feet and 1 surface stormwater drainage basin. The project proposes a 10.8-acre conservation/drainage parcel, which would directly abut South Swamp.

On August 17, 2005, the Applicant applied for definitive subdivision approval. Three public hearings were conducted during 2005 and two additional public hearings were held during 2006, to allow the Applicant time to revise the definitive plans and obtain a sight distance easement. The subdivision project was approved on February 15, 2006 and formally endorsed on January 24, 2007.

Sgt. William Calway Drive (Off Grove Street) Under Review 2/06
10 Lots on 12.125 acres

This project proposes 10 subdivision lots (9 new lots and 1 reconfigured lot to serve an existing dwelling), on 12.125 acres of land, with a dead-end roadway of 1055 feet and 2 surface stormwater drainage basins.

On September13, 2006, the Applicant applied for definitive subdivision approval. The public hearing is currently still ongoing to allow the Applicant time to revise the definitive plans and deal with drainage concerns therein.

WINSLOW COMMONS II (Off Tiffany Hill Road) **Withdrawn 4/06**
9 Lots on 18.2 acres

This project proposed 9 residential lots on 18.2 acres of land, with 2 surface drainage basins and 1 dead-end street with 1,215 linear feet.

On November 9, 2005, the Applicant applied for definitive subdivision approval. The public hearing opened on December 21, 2005 and was continued to and closed on April 26, 2006, upon the Applicant's February 24, 2006 request that the subdivision application be withdrawn. The Planning Board voted to accept the Withdrawal Notice on April 26, 2006.

II. Subdivision Surety and Construction Oversight

During 2006, the Planning Board provided surety and construction oversight for the following subdivision projects.

Under the Subdivision Control Law, G.L.c.41, §81U, ¶7, the Planning Board is required to impose surety to help ensure completion of the construction of a subdivision project. At the developer's election, the surety may be money-based or in the form of a restrictive covenant prohibiting the individual sale of or construction on the approved lots. As of December 31, 2006, the Town is holding approximately $1.8 million in money-based surety.

The projects noted below are in various stages of construction. Combined, the projects consist of over 150 residential lots, 30 drainage basins and almost 3 miles of roadway.

No fees were collected for the Planning Board's surety and construction oversight enumerated below:

BATES LANE (f/k/a Prairie Farm) (Off High Street) **Approved 3/29/02**
3 lots

This project created 4 residential lots (2 new lots and 2 reconfigured lots to support 2 existing dwellings). The project includes 1 surface drainage basin and 1 dead-end street (Bates Lane) with 400 linear feet. The Applicant posted surety and the plans were endorsed on September 9, 2002.

All lots have been released from the subdivision covenant. The Town holds $15,478.40 in surety.

BIRCHWOOD (Off Grove Street) **Approved 6/8/01**
11 lots on 18 acres

This project, approved on June 8, 2001, created 11 residential lots on 18 acres. The project includes 3 surface drainage basins and 2 roadways: 1 dead-end street with 1,160 linear feet (Birchwood) and 1 dead-end street with 480 linear feet (Fieldstone). The Applicant posted surety and the plan was endorsed on

August 6, 2001.

All lots have been released from the subdivision covenant. The Town holds $93,019.94 in surety.

BRATTLE STREET / Bramblewoods (Off Grove Street) Approved 2/25/99
5 lots
This project created 5 residential lots (4 new lots and 1 reconfigured lot to support an existing dwelling). The project includes 1 surface drainage basin and 1 dead-end street (Brattle Street) with 750 linear feet. The Applicant posted surety and the plans were endorsed in May 1999.

All lots have been released from the subdivision covenant. The Town holds $75,630.75 in surety.

CLAPP BROOK ROAD / Black Pond Estates Approved 1/28/99
5 lots (Off Central Street)
This project created 5 residential lots on 17 acres of land, with 7.2 acres of upland. The project includes 1 dead-end street with 760 linear feet and 2 surface drainage basins. The Applicant posted surety and the plans were endorsed on November 1, 1999.

All lots have been released from the subdivision covenant. The Town holds $16,089.66 in surety. During 2006, the Applicant worked with the Planning Board to resolve issues with the drainage basins.

EDGEWOOD PARK (Off Loring Drive) Approved 6/5/97
9 lots on 16 acres
This project created 9 residential lots on 16 acres. It includes 3 surface drainage basins and 1 dead-end street with 1550 linear feet. The Applicant posted surety and the plans were endorsed on February 9, 1998.

All lots have been released from the subdivision covenant. The Town holds $38,671.07 in surety.

FOREST RIDGE (Off Summer Street) Approved 5/23/02
7 lots on 8.6 acres of upland
This project created 7 residential lots on 9.1 acres, with 8.6 acres of upland. It includes 1 surface drainage basin and 1 dead-end street with 500 linear feet. The Applicant posted surety and the plans were endorsed on September 23, 2002.

Construction began in the spring of 2005 and all lots were released from the subdivision covenant during 2006. The Town currently holds $41,000 surety in the form of a Lender's Agreement.

HAWTHORNE PARK (Off Grove Street) Approved 3/16/00
10 lots on 21.4 acres of upland
This project created 10 residential lots on 13.7 acres of upland. The project includes 2 surface drainage basins, 1 dead-end street (Hawthorne Lane) with 1,075 linear feet and a parcel that is to be subject to a conservation restriction. The Applicant posted surety and the plans were endorsed on April 3, 2000. All of the house lots have been released from the subdivision covenant. The Town holds $480,000 in surety in the form of a Performance Bond.

During 2006 the Applicant has supplied as-built plans. The Planning Board hopes to see this project completed during 2007.

HENRY'S LANE / Joshua's Landing (Off Norwell Avenue) Approved 11/10/05
8 lots on 19.4 acres
This project creates 8 residential lots (6 new lots and 2 reconfigured lots to support 2 existing dwellings) on 19.4 acres of land. It will create 3 surface drainage basins and 1 dead-end street with 850 linear feet. This subdivision was approved on November 10, 2005. During 2006 the Applicant sought and received

construction-related inspections.

HERITAGE ESTATES (Off River Street) **Approved 12/14/00**
3 lots on 5.8 acres of upland
This project created 3 residential lots on 8.2 acres, with 5.8 acres of upland. It includes 2 drainage basins and 1 dead-end street (Heritage Lane) with 450 linear feet. The Applicant posted surety and the plans were endorsed on January 24, 2001.

The house lots have been released from the subdivision covenant. The Town holds a $54,000.00 surety bond.

HOLLY BERRY (Off Grove Street) **Approved 4/13/04**
6 lots
This project created 6 lots (5 new lots and 1 reconfigured lot to serve an existing dwelling) and provided access for a 7th lot, eliminating a driveway curb cut on Grove Street. The Applicant posted surety and the plans were endorsed on September 1, 2004. All house lots have been released from the subdivision covenant. The Town holds $13,941.49 in surety.

During 2006, the Applicant requested and received surety review. Also during 2006 the Planning Board advised the Selectmen on Holly Berry Trail's Street Acceptance Petition.

MASTHEAD DRIVE EXTENSION **Approved 6/21/99**
2 lots
This project created 2 residential lots, on a short extension of Masthead Drive, with 1 drainage basin. The Applicant posted surety and the project was endorsed on June 21, 1999. On March 26, 2001, an ANR Plan was endorsed, creating a third parcel. The subdivision covenant is still in place.

During 2006 the Applicant has worked with the Town Planner to resume progress on this subdivision.

LAURELWOOD DRIVE (Off First Parish Road) **Approved 2/9/98**
24 lots
This project created 24 residential lots on 77 acres, with 42 acres of upland. Of the 24 lots, 2 lots are located entirely in Scituate and 6 lots are located partly in Scituate. The project includes 3 surface drainage basins and 1 dead-end street with 1329 linear feet. The Applicant posted surety and the plans were endorsed on October 29, 1998.

The project has been largely constructed, however paving issues and drainage issues remained throughout 2006. The Town holds $255,954.08 in surety.

PARSON'S WALK (Off Circuit Street) **Approved 6/16/97**
3 lots on 11.5 acres
This project created 3 residential lots on 11.5 acres. The project includes 1 surface drainage basin and 1 dead-end street with 420 linear feet. The Applicant posted surety and the plans were endorsed on July 21, 1997. The Town holds $23,100.00 in surety.

During 2006, the Town Planner has worked with the Applicant to produce as-built plans and resolve the remaining drainage issues.

PINSON LANE (Off Parker Street) **Approved 6/25/99**
3 lots on 4.96 acres of upland
This project created 3 residential lots (2 new lots and 1 reconfigured lot to serve an existing dwelling) on 4.96 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999.

During 2006, the Board reviewed plans to finish the drainage system. The Town holds $106,000 in surety.

TRUNNEL ESTATES (Off Main Street) **Approved 9/17/03**
3 lots
This project created 3 residential lots (2 new lots and 1 reconfigured lot to support an existing dwelling), on 3.4 acres of land. The project includes 1 drainage basin and 1 dead-end street with 390 linear feet. The Applicant posted surety and the plans were endorsed on February 23, 2004. The Town holds surety $154,000 surety in the form of a Performance Bond.

During 2006, the Applicant requested and received surety and construction review.

TRUNNEL ESTATES MODIFICATION (Off Main Street) **Approved 4/28/05**
This project modified the September 17, 2003 subdivision approval for Trunnel Estates to allow a residential parcel at 944 Main Street to construct a driveway with access to Trunnel Lane and close the existing curb cut on Main Street. The public hearing opened and closed on April 27, 2005. A decision approving the project was filed with the Town Clerk's office on April 28, 2005.

Final inspections were completed in 2006 and as a result, this project is now complete.

TURNER'S WAY SUBDIVISION MODIFICATION **Approved 4/14/05**
6 Lots on 8.2 acres of upland
This project created 6 residential lots on 32.7 acres (8.2 acres of upland), at the end of Turner's Way, by dividing an existing lot into 5 new lots and 1 reconfigured lot to support an existing dwelling. The project required no drainage basin to support it and reduced the previously approved dead-end street length of Turner's Way from 1506 to 1448 linear feet. The project was approved on April 14, 2005.

During 2006 the Applicant sought and received construction and surety review. The Town holds $29,040.13 in surety.

WALNUT TREE HILL ESTATES (Off Cross Street) Approved 5/27/99
5 lots
This project created 58 lots; however, only 4 lots are located entirely in Norwell and 1 is located partially in Norwell. The project includes 1 surface drainage basin, partly located in Norwell, and 1 street (Greenbriar Lane) in Norwell, with 500 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds a $400,000 surety bond.

During 2006, no inspection activity was requested.

WILDCAT HILL (Off Wildcat Lane) **Approved 10/27/05**
44 lots on 49 acres of upland
This project creates 44 residential lots on 72 acres (49 acres of upland). The project includes 4 surface drainage basins and 1 private wastewater treatment plant. The roadway system consists of 1 looped roadway with 4,244 linear feet and 1 dead-end street with 424 linear feet. The project was approved on October 27, 2005.

During 2006 the Planning Board formally endorsed this project. In September of 2006, a representative from the Planning Board attended the Massachusetts Environmental Protection Agency's (MEPA) project site walk. The developers of Wildcat Hill will be appearing back before the Board in 2007, as they work their way through permitting with the Conservation Commission.

WILDWOOD LANE (Off Circuit Street) Approved 11/3/95
4 lots on 6.5 acres of upland

This project created 4 residential lots on 10.9 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on November 27, 1995. The Town holds $70,000 in surety.

During 2006, no inspection activity was requested.

III. Approval Not Required (Form A) Plans

During 2006, the Planning Board processed 14 Approval Not Required (ANR) plan applications. An ANR plan is a proposal to create a lot that already has sufficient frontage on an existing roadway. Two ANR applications were denied, four were withdrawn, and the remaining eight were approved. The Board collected $1,700 in application fees for this activity.

533 Grove Street	Approved
18 Stetson Shrine	Approved
48 Mt Hope Street	Approved
13 & 21 Barstow Ave	Approved
Stetson Shrine / River Street	Withdrawn
Stetson Shrine / River Street	Withdrawn
Green Street	Withdrawn
Stetson Road / Fox Hill Lane	Withdrawn
93 South Street	Approved
342 Mount Blue Street	Denied
342 Mount Blue Street	Denied
120 Forest Street	Approved
South Street YMCA	Approved
677 River Street	Approved

IV. ZBA Site Plan Approval - Technical Review.

The Planning Board provides technical review assistance to the Board of Appeals for site plan applications under Zoning By-law §1530. The Planning Board reviewed the site plans listed below during 2006. The Board collected no application fees for this activity.

Lot 54 Longwater Drive
104 Washington Street
134 -136 Washington Street
400 Washington Street
69 Washington Street
75 Washington Street

V. 40B Projects.

During 2006 the Planning Board reviewed and commented on the project eligibility applications and comprehensive permit project listed below. The Board collected no application fees for this activity.

White Barn Lane

VI. Master Plan Development.

During 2006 the Master Plan Steering Committee completed its work on the Town's updated Master Plan. The Planning Board approved the final version of the Master Plan on September 27, 2006.

VII. Zoning By-law Amendments.

During 2006, the Planning Board prepared amendments to the Zoning Bylaw for Stormwater Management Systems. Although Warrant Article 17 regarding §2423 of the Zoning Bylaw was Indefinitely Postponed at the 2006 Town Meeting, the Planning Board will be resubmitting this amendment in the spring. The Board is also working on updating the Zoning Bylaw for the following at the Spring 2007 Annual Town Meeting: §1650 Isolated Lots, §2450 Lot Shape, and §3100 Off Street

Parking. The Board is also planning to jointly sponsor an update to Zoning Bylaw §1642 with the Board of Selectmen, and voted to be bound by an article expected to be submitted by the Board of Selectmen which, if passed, will allow the Planning Board to be exempted from the Mullin Rule in accordance with M.G.L. Chapter 39, §23D.
Respectfully submitted,
Bruce W. Graham, Chairman
Karen A. Joseph, Vice Chair
Sally I. Turner, Clerk
Richard Parnell Barry, Alternate Clerk
Charles Markham

COMMUNITY PRESERVATION COMMITTEE

The Town of Norwell adopted the Community Preservation Act (MGL Chapter 44B) in May of 2002. The Town's Community Preservation Committee (CPC) is charged by the Town with the implementation of the Act in Norwell. The Act's stated purposes are to preserve open space and historic sites, and create affordable housing and recreational facilities. At least 10% of the CPA budget must be allocated to each of the first three areas annually.

During FY2006, the Town collected $630,920.92 in net CPA surcharges (after abatements and exemptions) in October of 2006. This amount was matched 100% by the state under the matching formula.

Charles Markham, the Board of Assessor's appointment to the CPC, took the reins as Chairman after Jim Ianiri did not seek re-election from the Planning Board. In an unusual twist, Charles ran for Jim's vacant seat on the Planning Board and won, giving up his position as the CPC Assessor's appointment, but remained on the CPC as the new Planning Board representative. The CPC was grateful to keep such a dynamic member, and was pleased to welcome Ed Dunford as the new Board of Assessor's appointment. In November, Charles decided to step down as Chairman and the Committee elected Alison Demong as the new Chair.

2006 Projects
As discussed in the 2005 Annual Report, the CPC has been working toward preserving several homes on High Street that were scheduled to be demolished as part of a larger commercial development project. The CPC has been working closely with the landowner and the Planning Board to discern if and how we can keep the houses where they are, working within zoning constraints. We would like to thank the landowner for his enduring patience and are hopeful that we will be able to finalize the project in 2007.

The Conservation Commission and CPC jointly sponsored a project to design and implement improvements to the Bridge Street and Chittenden Lane Town River Landings. These two locations are Norwell's only public access to the North River and are in disrepair. A Town Landing bylaw was also approved that dictates acceptable uses and hours, and requires all parked cars to display Town of Norwell Recycling permits. New signs were posted at both landings in the fall of 2006, and we expect the improvements to be made in 2007 with the $85,000 approved by Town Meeting.

Town Meeting also approved $30,000 to partially fund the Cole School Outdoor Education Center at Hatch Pond. The project proponents had originally requested $90,000, but the CPC agreed that there are numerous sources of grant money available for this type of educational project, and felt that CPC funds could be used to leverage these funds. As a result, the CPC voted to support $30,000 of CPA funds for the project, with an additional $5,000 of CPA administrative money to hire a grant writer to find additional funds. We were successful in this endeavor; we paid a grant writer roughly $3,000 and secured a $25,000 grant from the Harold Whitworth Pierce Charitable Trust Foundation. The outdoor classroom project was featured on the TV Show "Rock Solid" on the Do-It-Yourself network, and the whole project

should be completed in the spring of 2007. The outdoor classroom and boardwalk around Hatch Pond will be open to the public after school hours and on the weekends.

The Conservation Commission and CPC jointly sponsored the creation of an "Open Space Maintenance Fund" which was supported by Town Meeting. The Community Preservation Act does not allow for funds to be used for 'maintenance' of open space (trail maintenance, pond weeding, mowing fields, etc) which is proving to be problematic for many open spaces in Norwell. Any future land acquisition transactions will be structured in such a way so that a nominal percentage of the transaction will be deposited into the fund to ensure the long-term care of our properties.

In 2006, a "Friends of Norwell Center" group emerged, bringing fresh ideas and initiatives to enliven and enhance our historic town center. Town Meeting supported $20,000 of CPC funds to be used for an historical use in the revitalization efforts. Since that time, the Friends group, the CPC, and the Historic Commission have jointly agreed to use the funds to purchase a new Town Clock that will replace the "Quik Pik" sign in the town center. The historic-looking clock will be a handsome addition to the Town Center and is expected to be erected Memorial Day weekend 2007.

Looking Ahead to 2007

The CPC had two new formal citizen petitions in 2006. One is the creation of a pre-K playground at the Vinal School, and the other proposes to create a new space on the 3rd floor of the Sparrell School to house and display the numerous Norwell Historical Society artifacts that are currently scattered around various locations in town. We are continuing to work with these project sponsors to bring proposals to the 2007 Spring Town Meeting.

The CPC understands that acquiring and protecting land is of utmost importance to town residents, and would like to see more feasible proposals in the future. As a result, the CPC has requested that the Conservation Commission re-instate the Open Space and Recreation Committee, which can focus on implementing the recently updated Open Space and Recreation Plan, as well as creating a Task Force that will focus specifically on land protection and acquisition. The Conservation Commission has agreed to create two subcommittees to focus on these areas. We are hopeful that the creation of these groups will lead to many more land acquisition opportunities in coming years.

The CPC meets on the 2nd and 4th Thursdays of each month at 7:30 pm in the Norwell Town Hall. All residents are invited to attend. The CPC Request for Funding form can be found on the town's website.
Respectfully submitted,
Alison Demong, Chair (At-Large)
Gregg McBride, Vice-Chair (Conservation Commission)
Pat Richardson, Clerk (Recreation Commission)
Joe Carty (Historical Commission)
Nancy Dooley (Housing Authority)
Ed Dunford (Assessors)
Charles Markham (Planning Board)
Becky Freed (At-Large)
Ann Buchanan (At-Large)
Ellie Waal, Administrative Assistant

FENCE VIEWER

The Year 2006 overall was not so busy as 2005 for the Fence Viewer. Not only do I view fences in this town, but I also view rows of boulders, placed on the shoulder of some of our roads, in place of fences, and I view these boulder with alarm, knowing than any driver taking avoidance action, or in a skid should be able to pull over onto the shoulder without destroying his oil pan or transmission housing. The shoulder on most of our roads belongs to the Town, not the home-owner.

The neat white fence enclosing the front garden at 10 River Street is designated "Fence of the Year", and congratulations to Charlie Morgan, the master gardener of that property.
Respectfully,
Arthur Garceau, Fence Viewer

BOARD OF ASSESSORS

The Board reports the following valuation of taxable property established as of January 1, 2006 (Fiscal Year 2007).

CLASS	VALUE	PERCENTAGE
Residential	$2,164,334,769	86.4883%
Commercial	$ 254,278,531	10.1612%
Industrial	$ 59,844,600	2.3914%
Personal Property	$ 24,001,980	.9591%
Total	$2,502,459,880	100.0000%

The Assessors Office committed more than 11,800 motor vehicle excise bills with a total value of $1,813,300.

For Fiscal 2007 the Board hired Vision Appraisal to do the interim valuation using the sales of calendar 2005. Their analysis showed Norwell homes were selling above the assessment.
The current assessments are available at the Assessors Office and at the Norwell Public Library.
This year the State increased the allowable amount of the veteran's exemption for a 10% disabled veteran from $250 to $450 and a 100% disabled veteran from $600 to $1000.
The Board continues to support the Senior Work Program with funds from the overlay surplus.
The Board would like to thank our Office Staff of Barbara Gingras and Maureen Clarke for their service to the Town.
Respectfully submitted,
Rosemary Durica
Edward Dunford
Peter Etzel

CAPITAL BUDGET COMMITTEE

We reorganized for 2007 with the following volunteers

Chairman, Robert W. Bordewieck
Vice-Chairman, Ken Hogeland
Secretary, Karen Joseph
Spencer Joseph
John Kenndy
Ernie Milani
Jerry Reynolds

For 2006 we were able to authorize and the town meeting approved bonding of projects for 606900 dollars and cash appropriations for 304,675 dollars.

The fire truck will be delivered in 2007 with last year's appropriation. The Osborne room face painting and repairs will be completed again with last year's appropriation this spring.

We will be working closely with the permanent building and maintenance committee in the future.

We have updated our definition of capital expenditures to consider equipment that is expected to last over 5 years and cost over 5000 dollars. This means that expendable equipment will have to come out of department budgets.

Last year $300,000 was appropriated for the new fire truck. We do not see any similar item this year. We do expect to be looking long range at major future capital items regarding some of the following;
Modification of town hall
Modern efficient heating systems for all town buildings.
An expanded Council on Aging facility to care for the expanding senior population of over 2000 seniors.
Possible town wind powered electrical generating equipment.
A revised or a new town library.
A revised or a new town police station.
A new water treatment facility.
New school technology changes {wireless computers}
Affordable rental housing.
Another future fire truck.
Another ambulance.
Wireless TV service for the town and schools.
A new cemetary.
A new elderly housing building.
New trucks, plows and other highway and grounds equipment.
A future combination of the police and fire departments into a public safety department.
A combined highway and tree and grounds to become a public works department.
New street and contour maps of the town
New traffic lights at school crossings.
New unified computer systems for all town departments.
New unified communicatrions equipment for all departments
New trucks and equipment for all departments.
New street water mains
Obviously this list is very preliminary and needs a lot of review. We cannot start any major projects until the 54 million dollar school bond is nearly paid off, but we need to set some priorities.

Norwell is a growing town and we all want to see it grow intelligently. We will need to pursue grants and state and federal funds. Funding for our wish list is very limited now. We get very little state aid [10%] compared to cities like Springfield, Holyoke, Chelsea, Lawrence and Brockton who get up to 90%.

We are extremely fortunate that our school facilities are in super shape thanks to the 54 million dollar improvements that have just been completed.
Respectfully submitted,
Robert W. Bordewieck Chairman

REPORT OF THE BOARD OF SELECTMEN

Your Board of Selectmen, in 2007, continued to wrestle with maintaining the high levels of services our residents have come to expect while dealing with slowing growth and unpredictable state aid. We pride ourselves on stability and remain cautiously optimistic that revenues will be sufficient to maintain services going forward. The cooperation of our employees in understanding what limited resources can provide is most appreciated by the Board.

In the March 2007 town elections, school committee member Thomas Bigger defeated incumbent Selectman Donald Mauch to gain a seat on the Board. The defeat of an incumbent Selectman is a fairly rare occurrence in Norwell. It has been at least 10 years since that has happened.

Town Meeting in May was pretty uneventful. For the most part, there was little controversy and voters followed the guidance of the Selectmen and advisory board. No additional hours or personnel were approved and services remained at the reduced 2006 levels.

Early in 2007 the Board appointed T. Andrew Reardon as Fire Chief, replacing Paul Rosebach who had retired. Chief Reardon, a 30 year department veteran, was chosen from a field of highly qualified applicants from both inside and outside the department.

During the year, following instructions from the Annual Town Meeting, the Board appointed a seven member Wind Power Study Committee. The committee was charged with determining whether wind power is economically viable in Norwell. Additionally the new committee will look at possible sites if and where optimum wind efficiency exists. The Selectmen hope the Wind Power Study Committee will be ready to report, in some form; to the annual Town Meeting in May of 2008. The Board was extremely impressed with the interest, passion and qualifications of the members of this new committee.

Towards the end of 2007 the Selectmen began working closely with the Permanent Building and Maintenance Committee to examine the best way to address the ongoing space needs of the Town as they relate to the Police Department, the Town Offices, the Library and the Council on Aging. Having all been built or renovated in the 1970's, most of the existing space that houses these departments is either outdated, in need of renovation or not meeting the present needs of the department or the community. The Selectmen, working with the PBMC, hope to develop a plan that efficiently utilizes existing building space to its fullest, thereby ultimately creating surplus property which can be sold to help defray the cost of the renovations.

As we all face continued challenge of providing quality customer service with limited resources, the Board and Town are most fortunate to have the services of Town Administrator James Boudreau and Assistant to Town Administrator Lynda Allen. The elimination of the Assistant Town Administrator's position has considerably increased the workload of these two individuals and we are grateful for the dedication, knowledge and enthusiasm they bring to our office and to the Town every day.

Additionally, the Board wishes to thank all of our employees for their hard work every day on behalf of the Townspeople. These folks, along with all the dedicated elected and appointed Town officials, continue to make Norwell a great place to work, live and raise a family. There is no other place quite like it.

Respectfully submitted,
Richard A. Merritt, Chairman
John G. Mariano
Thomas J. Bigger

REPORT OF THE TOWN ADMINISTRATOR

2007 turned out to be once again a busy and most challenging year in the Office of the Board of Selectmen and Town Administrator. The full impacts' of the state's continuing fiscal crisis had a major impact on the Town. Through it all, the staff continues to discharge the policies and directives of the Board of Selectmen, Town Meeting and the Town of Norwell By-laws.

For the first time many years, an incumbent member of the Board of Selectmen was defeated in their re-election bid to the Board. Thomas Bigger was elected to a three-year term on the Board, defeating incumbent Vice-Chairman Donald Mauch. Tom brings an invaluable set of knowledge and insight to the Board from his time as a member of the Norwell School Committee. I look forward to working with Tom in the upcoming year. In his short tenure on the Board, Don brought a unique prospective and passion to the affairs of the Town and I want to thank him for his support and service.

The Annual Town Meeting convened on May 14, 2007 to consider 67 Articles, the most facing Town Meeting in my tenure as Town Administrator, and an annual budget more than $34 million. The Advisory Board did an outstanding job of presenting the budget to Town Meeting after working closely with all of the Town Departments, Boards, Committees and Commissions to prioritize the spending. The budget was able to maintain services across Town Departments but did not allow for an expansion of services.

Town Hall continues to bustle in 2007 as groups and activities take advantage of the facilities. Along with the normal business of the Town, Town Hall continues to play host to the popular Middle School dances, the Norwell food pantry, Boy and Girl Scout meetings and a yoga class. This activity is on top of the numerous Boards, Committees and Commissions that use the Town Hall for their meetings. It is a rare week when there is a night that someone is not meeting in the Town Hall. The task of keeping the building clean and running falls to our capable and dedicated custodian Bryan Melanson, who keeps the building sparkling clean and cheerful in spite of the more than 80 hours per week of use. Brian has made huge strides in getting the building painted and refurbished. In addition, through the generosity of the Capital Budget Committee and Town Meeting we have finished the roof repairs and installed a new boiler, eliminating two (2) of the more pressing needs of the building.

On a sad note, one of our long time cable television hands, Rollin Bailey, passed away this year. Rollin was a valuable member of our broadcast team and a kind and wonderful person. His presence will be sorely missed. Ray and Ed Henderson have picked up the slack and continue to work to improve the product being produced. Each week they take time out of their lives to set up the cable equipment and televise the Selectmen's meeting to the Town. Without them this vitally important conduit to the public would be closed.

I would be remiss in not mentioning the passing of long time residents, Michael Knapp and Carol Meseau. Mike was married to life-long resident and Norwell legend Mary (Osborn) Knapp for more the 50 years. His gentle nature, sparkling personality and quick wit brightened even the darkest days. I was honored to be a pall-bearer at his funeral and speak a few words during the service. Carol was another Norwell legend that we lost in 2007. Carol never lost an opportunity to tell you what she was thinking or what was on her mind. More importantly, she seemed to have a knack of knowing when you were having a bad day and would just happen to call and check on you. Her kind words and concern always made me feel better. I will miss them both tremendously.

No office can run without hard-working and dedicated employees. The Board is fortunate to have the services of Assistant to the Town Administrator Lynda Allen. Lynda has taken on a tremendous amount of additional responsibility with the elimination of the Assistant Town Administrator's position.

She makes every thing work on a daily basis and provides invaluable assistant to anyone and everyone who requests it. I am eternally grateful for her hard work and dedication.

Finally, I would be remiss if I did not thank the Board of Selectmen for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions who make this Town what it is.

Respectfully submitted,
James M. Boudreau
Town Administrator

REPORT OF TOWN COUNSEL

I am pleased to submit this annual report to the residents of the Town of Norwell and to the officials who volunteer, are appointed or elected serve on Norwell various boards, commissions and departments.

The Office of Norwell Town Counsel is staffed by myself and associate Town Counsel Robert W. Galvin. It's my express objective each year to provide the Town of Norwell, its boards, commissions and officials the highest quality municipal legal advice in a cost-effective manner.

The most important facet of efficient municipal government is the experience and dedication of the administration, boards and commissions and their staffs. In 2007, Norwell returned via election and appointment a wealth of well-educated and seasoned administrators, officials and employees, which allows it to perform more efficiently than all of its counterparts and at a lower cost than all of its abutting communities. I am very grateful for the assistance we receive on nearly daily basis from Norwell's administration, boards, commissions and departments.

In 2007, a substantial portion of the legal expense was incurred in the trial of matters involving drainage, zoning and post-hearing work involving low and moderate income housing projects known colloquially as "40B" projects. The Town of Norwell also argued and in early 2008 learned that it was successful in a landmark zoning appeal involving the expansion of nonconforming homes on nonconforming properties in the matter of J. Stephen Bjorklund, et al. v. Norwell Zoning Board of Appeals. The Town is also on the forefront of many threshold issues involving 40B projects and the issues found most objectionable about them to suburban communities. The Town of Norwell and its boards, commission and departments examine carefully all projects proposed as 40B projects to ensure that local concerns including health, safety, environmental and general welfare concerns are appropriately considered and addressed in these projects

In addition to land use litigation, in 2007, I was been asked to render advisory opinions and respond to inquiries on a variety of other municipal issues including historical commission issues, wetland regulations, subdivision control law, property rights, open meeting issues, ethics, and other municipal issues. I am also called to draft, review and approve municipal contracts and have done so on many occasions during 2007.

I wish to conclude by thanking the various town officials, boards, commissions and departments for their support and cooperation. It is a privilege to be of assistance with your legal matters.

Respectfully Submitted,
Robert E. Galvin, Town Counsel
Robert W. Galvin, Asst. Town Counsel

REPORT OF THE INSPECTOR OF BUILDINGS/ZONING OFFICER

The Department continued to bear an increase in permit activity. Residential construction increased due to 40-B permits and many more units are anticipated this coming year. The 7th Edition of the State Building Code is now official for Residential construction and the 7th Edition of the Basic or Commercial Code will be implemented this spring. There are many new houses on the books waiting out the downturn in the Residential market. Once again this year we cannot thank the Senior volunteers enough, for the outstanding contributions to the department. We give special mention to Jack Tosney, a senior volunteer for several years that passed away in the fall. Jack became a good friend to us here at Inspections and will be missed. With many 40-B projects ongoing permitting through the various town boards we anticipate an explosion in building activity during the next year.

RESIDENTIAL PERMITS

New Dwellings	28
Alterations/Renovations	132
Barns	5
Demolition Permits	6

PLUMBING AND GAS DEPARTMENT

There were 213 Plumbing Permits, 155 Gas Permits and 32 Hot Water Heater Permits issued in 2007 with the required rough and final inspections made for each.
Inspections are done on a per need basis.

Edward J. Geswell, Plumbing & Gas Inspector
John E. Hoadley, Alternate Inspector

WIRING INSPECTOR

The Inspector of Wires has processed upwards of 462 electrical permits for the calendar year 2007. Categories of requests for inspection include new construction, renovations, and additions for both commercial and residential properties. Service installations, appliance upgrades, fire and security alarms,

swimming pools, septic systems, and standby generators. The Inspector of wires routinely responds to emergencies upon request of the Norwell Police and Fire Departments.

MAINTENANCE	4

The Inspector of Wires holds office hours weekly Mondays thru Thursdays 3 to 4:00 PM.

Respectfully submitted
Charles J. Palmieri, Inspector of Wires
John Lunn, Alternate Inspector of Wires

BOARD OF APPEALS

During calendar year 2007, the Board scheduled public hearings on twenty meeting nights to review and act upon twenty-seven (27) applications before it under M.G.L. c. 40A and c. 40B.

Appeal of Action by Building Inspector	1
Site Plan Modification/Special Permit (1 withdrawn)	3
Special Permit – Business C (withdrawn)	1
Special Permit – Nonconforming lots	15
Special Permit – In-law Apartment	1
Variance (1 denied and 1 withdrawn)	2
Sign Variance (withdrawn)	1
Comprehensive Permits (active)	3

The Board of Appeals spends an ever increasing amount of its time in its role as the permit-granting authority under M.G.L. c. 40B, the so-called "anti-snob zoning" law. This law affords a developer the opportunity to bypass many of the Town's zoning and planning regulations by increasing density over that allowed by right under the zoning bylaw in exchange for 25% affordable housing units within a proposed project. Any town that does not have 10% of its housing stock qualified as "affordable" in accordance with Department of Housing and Community Development (DHCD) rules remains subject to 40B applications. Norwell is currently well below the state-mandated 10%.

During the past year five scheduled meeting agendas included the proposed Damon Farm project, where twenty-four (24) ownership units are planned in Norwell with eight (8) in Hingham. The application for this project, filed early in 2005, is still under review, but currently delayed by appeals involving the MA Department of Environmental Protection (DEP).

The Board received a Comprehensive Permit application for a forty-four (44) unit condominium project known as White Barn Village with the public hearing opened this past summer. This application is still before the Board and has generated much public interest with many abutters faithfully attending every meeting.

A thirty-nine (39) unit 40B project, originally permitted in October 2003, is presently under construction at 239 Washington Street. However, the Board continues to be involved in certain aspects of that project, including construction monitoring. At the request of the Applicant, the Board recently granted an extension of the Comprehensive Permit until October 31, 2009.

Although the Tiffany Road Comprehensive Permit was granted on June 21, 2004, for construction of twenty-four (24) units, that Comprehensive Permit remains under appeal at the Housing Appeals Committee (HAC) in an action against the Board by the Applicant.

The Board issued a Comprehensive Permit for the twenty-four (24) unit Summer Street project almost three years ago on April 6, 2005. However, one of the parcels, located in Scituate, is the subject of a land dispute. The status of this project will remain in question until the litigation matter is resolved.

Finally, early in 2008, the Town received a Project Eligibility Application (PEA) for a proposed two hundred unit 40B project located between the end of Simon Hill Road and Prospect Street. At this writing the status of the applicant's PEA to MassHousing is unknown.

The Board's application filing fees totaling some $ 6,625.00 during 2007, were added to the Town's general funds to help off-set application review costs. Application Review Fees remain at 2002 levels.

The Town's zoning bylaw, the Board's Rules and Regulations including instructions how to file an application, public hearing application forms, and filing fee schedule can be found on the Board's web pages of the official Town website at *www.townofnorwell.net*. Meeting agenda, recent decisions of the Board and other pertinent information are also updated regularly. Paper copies of all forms, as well as the Board's Rules, can be obtained at the Building Office, while copies of the Zoning Bylaw in both paper and electronic format are available for purchase at the Town Clerk's office.

The Board is pleased to welcome its newest member, Patrick J. Haraden, who was recently appointed to serve as a special alternate on 40B applications. Pat is no stranger to volunteer service to the Town, having served for several years on the Advisory Board, including as Chair.

Thanks once again to Joanne LaRoche, who balances both zoning and building office responsibilities with good humor and grace, and to Building Inspector and Zoning Enforcement Officer, Tim FitzGerald, with whom the Board shares office space and our administrative assistant.

The Board appreciates the cooperation of all Town Boards, Commissions, and Departments without whose support we would be unable to function. We also wish to extend special thanks to Norwell's Town Counsel, who works closely with the Board on many cases. It is appropriate to note in this public record that a recent decision by the Supreme Judicial Court, well argued by Assistant Town Counsel Robert W. Galvin, Jr. relating to nonconforming lots, preserves the ability of the Board of Appeals to uphold the Norwell Zoning Bylaw.

It is an honor and a privilege to serve the residents of Norwell.

Respectfully submitted,
Lois S. Barbour, Chair

Philip Y. Brown, Vice Chair
Michael E. Kiernan, Alternate, Clerk
Ralph J. Rivkind, Alternate
David Lee Turner
Patrick J. Haraden, Special 40B Alternate

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

This is an update of work done from January 2007 through December 2007.

Tests of gas station motor fuel and diesel fuel dispensers in Norwell have been completed [70 dispensers]. Dispensers were adjusted as needed and sealed.

Testing of scales, apothecary, delicatessen, coffee shop, food shop, supermarket, propane tanks, school equipment [105 units] was completed. Testing of reverse vending and scanners was completed and sealed as necessary.

Total revenue received $2305.00.

All town owned sealer equipment has been tested and sealed by the Commonwealth of Massachusetts Weights and Measures Laboratory and found to be correct.

The annual report, as required by state law, will be filed before January 31, 2008. A copy of this report will be on file at the town hall.

The Commonwealth of Massachusetts General Law Chapter 98 sections 41 and 42, covering annual public notice to all persons having or using weighing or measuring devices in Norwell, has been legally posted.

Respectfully submitted,
Harold Tuttle
Sealer of Weights and Measures

TOWN OF NORWELL

WARRANT

Special Town Meeting and Annual Town Meeting

Monday, May 14, 2007

At 7:30 o'clock in the evening at Norwell Middle School
Henry E. Goldman Gymnasium

Plymouth, ss

To one of the Constables of the Town of Norwell, in said County of Plymouth, Commonwealth of Massachusetts.

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Norwell, qualified to vote in elections and Town affairs to meet at the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street, in said Norwell, on Monday, the fourteenth day of May, 2007 at 7:30 p.m.; then and there to act upon the enclosed articles, to wit:

In case all articles in the foregoing Warrant shall not be acted upon at the Meeting called for on Monday, May 14, 2007, to meet in Adjourned Sessions at such time and place as the meeting shall determine.

This building is accessible to the handicapped and designated parking is provided. If requested, at least one week before the meeting, warrants with large print can be available. Anyone requiring a Sign Language Interpreter should call the Town Clerk's office at least two weeks before the Special Town Meeting at 781-659-8072.

Town of Norwell
Report of the Advisory Board
April 8, 2007

To The Citizens of Norwell:

On Monday, May 14, 2007, at 7:30 pm, the Town will hold its Annual Town Meeting, preceded by a Special Town Meeting, at the Norwell Middle School. Your attendance is encouraged and appreciated as the Town once again has fiscal challenges that require the Town to make some important decisions on the Fiscal Year 2008 budget, and its future.

Since January, the Advisory Board has held hearings and meetings to discuss the entire Town Budget, capital requests, and each of the Articles presented in this Town Meeting Warrant. We have developed our recommendations based on the testimony and discussion at those meetings, long-term financial implications of the requests, available funding and sources, and the overall priorities of the Town. We have also debated using other available funds (i.e., free cash, overlay surplus, stabilization) to fund departmental budgets rather than using these sources to fund Capital Budget and specific Article requests, as we have recommended in the past. After careful consideration, and understanding the uncertainty surrounding the amounts and continuity of the recurrence of these sources, we again recommended only using recurring funds for departmental budgets in FY08.

The impact of several years of decreasing state aid combined with increasing employee health insurance, pension, and energy costs, have again created a need to recommend a level service budget, and to prioritize or reduce other requests for funding. If these financial constraints continue, the Town will need to either increase its revenue base, or make more drastic changes to the delivery of services (e.g., consolidation or elimination of programs, functions, or departments) in order to continue to have a balanced budget using only recurring and available funds.

The Annual Town Meeting is a forum for the Townspeople to allocate its financial resources, and determine Town policy. However, there are some restrictions and limitations to certain budgets and Articles. For example, Community Preservation Committee and Water Department budgets and Articles are funded through dedicated funding sources and Town Meeting action on these Articles will not directly affect the funding of the operating budget article (Article 2) or the funding of other Articles on the Warrant.

The Advisory Board would like to thank all Town Departments, Officials and Employees, and residents for their cooperation in the budgeting and Town Meeting preparation process.

THE NORWELL ADVISORY BOARD

Patrick J. Haraden, *Chairman*
Brian S. Noble
Peter Shea
Spencer A. Joseph
Ralph Gordon

Jason Brown, *Vice Chairman*

TOWN BUDGET

Glossary of Terms

Appropriation: An authorization to make expenditures and to incur obligations for specific purposes. An appropriation is granted by Town Meeting and is usually limited in time and amount as to when it may be expended. Any part of the general appropriation not spent or encumbered by June 30 automatically reverts to surplus. A specific appropriation is carried forward from year to year until spent for the designated purpose or transferred by Town Meeting vote to another account.

Assessed Valuation: A valuation set upon real or personal property by the Board of Assessors as a basis for levying taxes.

Budget: A plan of financial operation consisting of an estimate of proposed expenditures for a given period and the means of financing them. The budget is voted in the spring at Town Meeting for the fiscal year that begins the following July 1st.

Capital Budget: A plan of proposed capital outlays and the means of financing them for the current year.

Cherry Sheet: An annual statement received from the Massachusetts Department of Revenue detailing estimated receipts for the next fiscal year and the estimated state and county government charges payable. These amounts are used by the assessors in setting the tax rate. The actual receipts and charges may vary from the estimates.

Community Preservation Act (CPA): The Town adopted the Community Preservation Act (CPA) in 2002. This Act allows the town to collect a 3% surcharge on property tax bills (the funds can be matched up to 100% by the state when funds are available), which creates the Community Preservation Fund, to use for Community Preservation purposes. Each year, the town must appropriate, or reserve (but not necessarily spend), 10% of the funds for each of the three Community Preservation purposes: Open Space, Historic Resources, and Community Housing. The remaining 70% of the funds can be appropriated or reserved used for any of the three purposes and for Recreation and for administration.

Debt Service: Payment of interest and repayment of principal to holders of the Town's debt instruments.

Fiscal Year: A 12-month period, commencing July 1 and ending June 30, to which the annual budget applies. Fiscal years are often denoted FYXX with the last two numbers representing the calendar year in which it ends, for example FY06 is the fiscal year ended June 30, 2006.

Free Cash: Free cash is the portion of unreserved fund balance available for appropriation. It is not cash but rather is approximately the total of cash and receivables less current liabilities and earmarked reserves reduced also by reserves for uncollected taxes. This is also referred to as "available cash". The amount is certified annually by the Massachusetts Department of Revenue.

General Fund: The major town owned fund which is created with town receipts and which is charged with expenditures payable from revenues.

Grant: A contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specific purposes.

Line-Item Budget: A format of budgeting that organizes costs by type of expenditure such as expenses, equipment, and salaries.

Overlay: The amount set aside to allow for uncollected property taxes. An amount for overlay is added to the appropriations and other charges. The "Overlay Surplus" is the portion of each year's overlay account no longer required to cover property tax abatements.

Overlay Surplus: The unused amount of the overlay for prior years, which may be transferred, by vote of the Town, to the reserve account or used for extraordinary items.

Property Tax Levy: The amount produced by multiplying the assessed valuation of property by the tax rate. The tax rate is expressed "per thousand dollars" of assessed valuation.

Reserve Fund: Money set aside by Town Meeting to be allocated by the Advisory Board for extraordinary or unforeseen expenditures.

Stabilization Fund: A special reserve funded by Town Meeting for future expenditures.

Terms associated with Proposition 2½:

Debt or Capital Exclusion: The Town can assess taxes in excess of the levy limit by voting a debt exclusion or capital outlay exclusion. This amount does not become a permanent part of the levy limit base, but does allow the Town to assess taxes for a specific period of time in excess of the limit for payment of debt service costs or for payment of capital expenditures.

Excess Levy Capacity: The difference between the Town's tax levy limit and its actual tax levy for the current year. It is the additional tax levy that could be raised without asking for an override.

New Growth: The amount of property tax revenue that the Town can add to its allowable tax levy as a result of new construction, alterations, subdivisions or change of use which increases the value of a parcel of land by more than certain amounts.

Override: An amount, voted by the Town, which is permanently added to the levy limit. A majority vote of the Selectmen allows an override question to be put on the ballot. Override questions must be presented in dollar terms and must specify the purpose of the override. Overrides require a majority vote of approval by the Town.

Tax Levy Limit: The maximum amount of the tax levy for a period under the restrictions of Proposition 2½. It is calculated as the prior year limit plus new growth plus 2.5% of the prior year levy limit.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR SPECIAL TOWN MEETING

Monday, May, 14, 2007

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will appropriate, borrow, transfer from available funds or otherwise provide the sum of $276,069.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 291C, Acts of 2004, one apportionment, and appropriate, borrow, transfer from available funds or otherwise provide the sum of $274,999.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 291B, Acts of 1004, one apportionment for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the Highway Surveyor, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amounts of $276,069 and $274,999.

This Article authorizes the Town to appropriate and then receive its share of the "Chapter 90" (The Massachusetts General Law relating to repaving of public ways) monies from the State. There is no direct budget impact to this Article.

ARTICLE 2: To see if the Town will vote to raise and appropriate, borrow, transfer from available funds or otherwise provide the sum of $126,041.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 122, Acts of 2006, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the Highway Surveyor, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $126,041.

This Article authorizes the Town to appropriate and then receive its share of the "Chapter 90" (The Massachusetts General Law relating to repaving of public ways) monies from the State. There is no direct budget impact to this Article.

ARTICLE 3: To see if the Town will raise and appropriate, or appropriate from available funds the following amounts for the payment of unpaid bills from a prior fiscal year:

Or act on anything relative thereto.

Requested by the Town Accountant

The Advisory Board will make its recommendation at Town Meeting if any unpaid bills are received.

This Article authorizes the Town to pay any bills received for a prior fiscal year.

ARTICLE 4: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-65-226-5430, Town Hall Expense, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends this Article in the amount of $10,000.

This Article authorizes the Town to transfer funds from another budget line (Town Hall Salaries) to the Town Hall expense line. There is no direct budget impact to this Article.

ARTICLE 5: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-45-216-5307, Legal, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends this Article in the amount of $65,000.

This Article authorizes the Town to increase the FY07 expense for Legal Services. The Town has spent more than its FY07 appropriation ($78,000) on legal expenses and defending itself from lawsuits.

ARTICLE 6: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-77-230-5175, Group Insurance, or act on anything relative thereto.

Requested by the Treasurer Collector

The Advisory Board recommends this Article in the amount of $30,000.

This Article authorizes the Town to increase the FY07 expense for Group Insurance. A previous Town Meeting lowered the recommended FY07 appropriation without any corresponding savings or alternative funding proposed; therefore we will have a deficit in this account by $30,000.

ARTICLE 7: To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide a sum of money to be added to line item 1-101-126-5110 Police Salaries, or act on anything relative thereto.

Requested by the Chief of Police

The Advisory Board recommends this Article in the amount of $25,000.

This Article authorizes the Town to increase the FY07 expense for Police Salaries. Due to retirements and overtime, the Town has spent more than its FY07 appropriation on Police Salaries.

ARTICLE 8: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-101-235-5210 Police General Expense, or act on anything relative thereto.

Requested by the Chief of Police

The Advisory Board recommends this Article in the amount of $18,500.

This Article authorizes the Town to increase the FY07 expense for Police Expenses. The Town has hired four new Police officers. The training and related first year expenses for these officers were not included in the FY07 appropriation.

ARTICLE 9: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-107-134-5110 Emergency Communication Salaries, or act on anything relative thereto.

Requested by the Emergency Communications Board

The Advisory Board recommends this Article in the amount of $41,000.

This Article authorizes the Town to increase the FY07 expense for Emergency Communication Salaries. Due to illnesses and overtime, the Town has spent more than its FY07 appropriation for Emergency Communication Salaries.

ARTICLE 10: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $88,000 to purchase textbooks for the School Department, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board will make its recommendation at Town Meeting. The School Department may be able to fund this Article from a current fiscal year surplus.

This Article authorizes the School Department to purchase additional textbooks in FY07.

ARTICLE 11: To see if the Town will vote to transfer $5,097.31 from line item 1-531-299-5433, Handicapped Ramps; $247.33 from line item 1-531-803-6032, Council on Aging Van; and $2,849.42 from line item 1-531-804-6704, Repair and Replacement, for Council in Aging Capital to one consolidated Council on Aging Capital line item, for repairs to the Council on Aging Building, or act on anything relative thereto.

Requested by the Council on Aging

The Advisory Board recommends this Article in the amount of $8,194.06.

This Article authorizes the Town to transfer Council on Aging various accounts with balances remaining into one consolidated account. There is no direct budget impact to this Article.

ARTICLE 12: To see if the Town will vote to appropriate $20,000 or another sum of money, pursuant to Massachusetts General Laws, Chapter 44B, for the rehabilitation and preservation of historic resources, from the Community Preservation Fund Reserve for Historic Resources, for the purpose of archiving and preserving historic town documents and memorabilia in possession of the Norwell Historical Society and relocating items to the Sparrell School building, and exhibiting such items or take any other action relative thereto. Funds to be expended by June 30, 2009 or they shall revert to the Historic Reserve Account.

Requested by the Community Preservation Committee and the Town Clerk

The Advisory Board recommends this Article in the amount of $20,000.

This Article authorizes the Town to utilize Community Preservation Funds to preserve existing historic Town documents and memorabilia.

ARTICLE 13: To see if the Town will vote to acquire by purchase a parcel of land described as Assessors' Map 1 Lot 11 consisting of approximately 15.06 acres for aquifer protection, potential well field location and/or affordable housing purposes under the Community Preservation Act, and to appropriate or transfer $150,000 or any other amount from available funds a sum of money to fund such acquisition, or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article in the amount of $150,000.

This Article authorizes the Town to utilize Community Preservation Funds to purchase a parcel of land for purposes allowed under the Community Preservation Act.

ARTICLE 14: To see if the Town will vote to appropriate $8,538 or another sum of money, pursuant to Massachusetts General Laws, Chapter 44B, for recreational purposes from the Community Preservation Fund for the purchase of Early Childhood Playground at the Vinal School, or take any other action relative thereto. Un-expended funds remaining in this article after June 30, 2008 shall revert to the Community Preservation Fund.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article in the amount of $8,538.

This Article authorizes the Town to utilize Community Preservation Funds to create an early childhood playground at the Vinal School.

ARTICLE 15: To see if the Town will vote to establish an Excluded Debt Service Stabilization Fund, pursuant to Massachusetts General Laws, Chapter 40, Section 5B, for the purpose of reserving monies to pay the excluded debt service and that the sum of $912,376.94 be transferred to said stabilization fund from the Reserve for the Reduction of Future Excluded Debt, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends this Article in the amount of $ 912,376.94.

This Article authorizes the Town to set up a Special Stabilization Fund, funded by a bond premium on the School Building bonds. These funds will be used to pay down the existing School Building debt.

ARTICLE 16: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if any funds are identified or available.

This Article would authorize the Town to transfer any available money into the general Stabilization Fund.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR ANNUAL TOWN MEETING

Monday, May 14, 2007

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2006 Annual Report, or act on anything relative thereto.

The Advisory Board recommends this Article.

This is a procedural article which authorizes the Town Meeting to receive the Annual Reports of Town Officers, Boards, Departments and Committees for 2006.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds, sums of money to defray the charges, expenses and salary obligations of the Town, including debt and interest, and out of state travel for the ensuing year, to provide for a Reserve Fund and to fix salaries and compensation for all Elected Officers of the Town, or act on anything relative thereto.

The Advisory Board recommendations are in the "Advisory Board Recommends" Column. The Advisory Board will make a budget presentation at Town Meeting to provide further details of our rationale and recommendations.

This Article authorizes the Town to accept the FY08 Town Budget, which begins on July 1, 2007.

	Carpeting	$ 5,100	$ 5,100	Cash	
Total		***$ 807,634***	***$ 440,634***		

The Advisory Board recommends this Article in the amount of $440,634.

This Article authorizes the Town to purchase the capital items on the schedule above. The Capital Budget Committee meets and prioritizes all of the capital budget requests before they are presented to the Advisory Board.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2008, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board recommends this Article in the amount of $25,000.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered under the Personnel Plan.

ARTICLE 5: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2008, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if contracts are settled by then.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered by a union or have personal contracts.

ARTICLE 6: To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide the sum of $8,000 to purchase and install four (4) automatic emergency defibrillators (AED's) in Town buildings and provide training on their use, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends this Article in the amount of $8,000.

This Article authorizes the Town to purchase emergency defibrillators for Town buildings.

ARTICLE 7: To see if the Town will vote to accept the provisions of Massachusetts General Laws Chapter 39, Section 23D, or act on anything relative thereto.

Requested by the Board of Selectmen
and the Planning Board

The Advisory Board recommends this Article.

This Article authorizes the Town to accept a new section of the Massachusetts General Laws that allows a Board member, who is absent from no more than one adjudicatory hearing, to vote on the matter after reading the minutes or transcript, reviewing the evidence, and certifying that they have done so. Otherwise, a member who is absent from one adjudicatory hearing is disqualified from voting on the matter.

ARTICLE 8: To see if the Town will vote to accept the provisions of Massachusetts General Laws Chapter 32B, Section 18, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends this Article.

This Article authorizes the Town to accept a Section of the Massachusetts General Laws that requires retirees who are enrolled in Medicare Part A be required to enroll in the Medicare health benefits supplement plan offered by the town. The Town currently requires all retirees to do this, however the Town has never officially accepted this Section of the Massachusetts General Laws.

ARTICLE 9: To see if the Town will vote to amend the Town of Norwell Zoning By-law, by striking section 1642, and replacing it with the following new text:

1642. Alteration, Reconstruction, Extension or Structural Changes to Lawfully Pre-existing Nonconforming Structures and Uses.

Single or Two Family Residential Structures: The Inspector of Buildings, in accordance with G.L. c.40A §6, may issue a building permit to allow an alteration, reconstruction, extension or structural change to a lawfully pre-existing nonconforming single or two family residential structure, provided that the alteration, reconstruction, extension or structural change meets the following criteria.

a. Dwellings on Nonconforming Lots Equal to or Greater than 1 Acre.

Alteration, reconstruction, extension or structural change that complies with all current setback, building coverage, and building height requirements provided that such alteration, reconstruction, extension or structural change does not increase the footprint of the dwelling by more than 25%, and further provided that the lot nonconformity is limited to lack of frontage and/or failure to meet standards set forth in Sections 2431, 2432, 2450(a), 2450(b) and 2450(c).

b. Other Structures on Nonconforming Lots Equal to or Greater than 1 Acre.

The gross floor area of sheds and other outbuildings shall not exceed 10% of the main dwelling's gross floor area as determined by the data on file in the assessor's office. Said sheds and other outbuildings shall meet all current setback requirements and be no taller than the dwelling.

Decks shall meet all current setback requirements.

Pools shall meet all current setback requirements.

c. Main Dwellings on Nonconforming Lots of Less than 1 Acre.

Alteration, reconstruction, extension or structural change that complies with all current setback, building coverage, and building height requirements provided that such alteration, reconstruction, extension or structural change does not increase the footprint or roofline of the dwelling.

d. Other Structures on Nonconforming Lots of Less than 1 Acre.

The gross floor area of sheds and other outbuildings shall not exceed 10% of the main dwelling's gross floor area as determined by the data on file in the assessor's office, provided that such 10% shall be cumulative to include the gross floor area of existing sheds and other outbuildings.

Decks shall meet all current setback requirements.

Pools shall meet all current setback requirements.

Once changed to a conforming use, no structure or land shall be permitted to revert to a nonconforming use.

Or anything relative thereto

Requested by the Planning Board
and the Board of Selectmen

The Advisory Board recommends this Article. The Advisory Board recommendation for this Article is contingent on a motion to amend the Article to change the 25% restriction.

This Article authorizes the Town to allow the inspector of buildings to issue building permits for repairs or alterations for certain existing, non-conforming structures. This Article was passed at a prior Town Meeting, but was rejected by the Attorney General for technical reasons. This Article is a result of the Joint By-Law Committee who worked to draft acceptable, compromise language.

ARTICLE 10: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $255,000 for technology replacement in the Norwell Public Schools, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board recommends this Article in the amount of $100,000. We realize the need to begin to replace obsolete technology, but cannot fund the entire request this Fiscal Year.

This Article authorizes the Town to purchase and replace technology equipment in the public schools.

ARTICLE 11: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money for repaving the access road/drive for the Library, Tree & Grounds Department, Athletic Fields, Tennis Courts and Norwell High School, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board recommends this Article in the amount of $170,000. This amount would fund the road resurfacing only, which has the greatest need for repair.

This Article authorizes the Town to repave the access road for the Library, Tree & Grounds Department, Athletic Fields, Tennis Courts and Norwell High School. Since this is not an official accepted "Town Road", other paving funds (e.g., Chapter 90) cannot be used.

ARTICLE 12: To see if the Town will raise and appropriate, or appropriate from available funds, $200,000, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $200,000.

This Article authorizes the Town to resurface Town Ways under the direction of the Highway Surveyor.

ARTICLE 13: To see if the Town will raise and appropriate, or appropriate from available funds, $15,000, or any other sum, to be expended under the direction of the Highway Surveyor for reprocessing stockpiled construction debris at the highway department yard, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $15,000.

This Article authorizes the Town to reprocess the construction debris pile at the Highway Department yard.

ARTICLE 14: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to be expended under the direction of the Highway Surveyor for engineering and ensuing work related purposes of bringing the Highway Department facility into Compliance with a Conservation Commission order of Conditions and EPA/DEP regulations, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town meeting if a cost estimate is known at that time.

This Article authorizes the Town to bring the Highway Department facility into compliance with a Conservation Commission Order of Conditions and EPA/DEP regulations.

ARTICLE 15: To see if the Town will appropriate a sum of money in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the Highway Surveyor, or meet the appropriation by taxation, by transfer or by borrowing, or any combination of the foregoing, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $ 342,058.
This Article authorizes the Town to appropriate and then receive its share of the "Chapter 90" (The Massachusetts General Law relating to repaving of public ways) monies from the State. There is no direct budget impact to this Article.

ARTICLE 16: To see if the Town will vote to amend Norwell Zoning Bylaw §1650 by striking the first paragraph of said section and replacing it as shown under "Proposed New Language":

Existing Language

§1650. Isolated Lots. Any increase in lot area, frontage, or yard requirements of this Bylaw shall not apply to erection, extension, alteration, or moving of a structure on a legally created lot not meeting current requirements provided that the applicant documents that:

Proposed New Language

§1650. Isolated Lots. Any increase in lot area, frontage, or yard requirements of this Bylaw shall not apply to a legally created lot for single-family (and

two-family) residential use in Residential Districts A & B not meeting current requirements, provided that the applicant documents that:

Or act on anything relative thereto

Requested by the Planning Board

The Advisory Board recommends this Article.

This Article authorizes the Town to update and clarify the intent of the Zoning By-Law with language recommended by Town Counsel as the result of a lawsuit against the Town.

ARTICLE 17: To see if the Town will vote to amend Norwell Zoning Bylaw §2423 by striking said section and replacing it as shown under "Proposed New Language":

Existing Language:

§2423. No part or portion of any lot which contains a surface or subsurface detention or retention basin, or swales that form part of a Stormwater Management System, shall be used in determining minimum lot size as required herein, except that this paragraph shall not apply to any lot lawfully laid out by plan or deed duly recorded, as defined in M.G.L. c.41, §81L, prior to the effective date of this paragraph, to any lot shown on a plan endorsed, prior to the the (sic) effective date of this paragraph, with the words, "Approval under the Subdivision Control Law not required"', or words of similar import, pursuant to M.G.L. c. 41, §81P, or to any lot shown on a Definitive Plan endorsed with the words "Approved under the Subdivision Control Law" or words of similar import, pursuant to M.G.L. c.41, §81U, which complied at the time of such recording or endorsement whichever is earlier, with all of the minimum area requirements set forth in the Zoning Bylaw, except for this paragraph, provided, however, that this paragraph shall apply to any subdivision under Subdivision Control Law, as aforesaid, submitted to the Planning Board on or after the effective date of this paragraph.

Proposed New Language:

§2423. Storm Water Management System. No part or portion of any lot, which contains any element of a Stormwater Management System, as defined under Article V of this Zoning By-law, shall be used toward calculating the minimum lot area required under Zoning Bylaw §2421. This paragraph shall not apply to any of the following:

(i) A building lot lawfully laid out by plan or deed and duly recorded prior to the adoption of the Town's Zoning By-law;

(ii) A building lot for single or two-family residential use that is eligible for protection from zoning changes that increase lot area requirements under G.L. c .40A, §6 on the effective date of this paragraph, provided that the lot complied with all applicable lot area requirements at the time of its creation;

(iii) A building lot that is shown on a plan that was duly endorsed, as "Approval Not Required," under G.L. c.41, §§81L and 81P prior to the effective date of this paragraph, in which case the predecessor requirements of this paragraph shall apply; or

(iv) A building lot shown on a definitive subdivision plan duly endorsed by the Planning Board with the words "Approved under the Subdivision Control Law" or words of similar import, pursuant to G.L. c.41, §81U, prior to the effective date of this paragraph

and in which case, the applicable predecessor requirements of this paragraph shall apply;

but, provided further that this paragraph shall apply to any definitive subdivision submitted to the Planning Board on or after the effective date of this paragraph.

Or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends this Article.

This Article authorizes the Town to update this Zoning By-Law to exclude all elements of a Storm Water Management System from the calculation of minimum lot area requirements.

ARTICLE 18: To See if the Town will vote to amend Norwell Zoning Bylaw §3100 by striking said section and replacing it as follows:

3100. Off Street Parking

3110. Performance Requirement. Off Street parking must be provided in all zoning districts for new construction, change of use, conversion, expansion, redevelopment, or increase in use for any structure.

3115. Purpose. The objectives of this section are as follows:

a) Promote traffic safety by assuring adequate places for storing motor vehicles off the street and for their orderly access and egress to and from the public streets

b) Increase the traffic carrying capacity of streets and highways in the Town

c) Reduce the hazards to pedestrians on public sidewalks

d) Protect adjoining lots and the general public from nuisances and hazards such as:

1) Noise, glare of headlights, dust and fumes resulting from the operations of motor vehicles;

2) Glare and heat from parking lots;

3) A lack of visual relief from expanses of paving;

4) Accelerated runoff of surface water from land covered by impervious materials.

3120. Number of Spaces. The standards below must be met for the additional parking demand created by new construction, change of use, conversion, expansion, redevelopment, or increase in use for any structure unless reduced on Special Permit from the Board of Appeals, upon the Board's determination that special circumstances render a lesser provision adequate for all parking needs, or as defined in Section 3180. In the case of mixed uses, the minimum parking shall be the sum of the requirements of the individual uses computed separately. Parking facilities for one use shall not be considered as providing the required parking for another use, unless it can be clearly demonstrated that the need for parking occurs at different times.

3130. Size of Spaces. A parking space shall not be less than 9 feet in width by 20 feet in length together with an aisle of at least 24 feet. Where parallel parking is utilized, parallel spaces shall not be less than 8 feet in width and 22 feet in length.

3135. Parking for Persons with Disabilities. Parking for Persons with Disabilities shall be provided in designated spaces as outlined in the State Building Code and the requirements of the Architectural Barriers Board, latest edition. Each parking space provided shall be clearly marked by a sign and shall be located near the entrance of the building served.

3140. Table of Minimum Requirements.

Residential:	
Dwelling unit having two or more bedrooms	2 spaces
Dwelling unit having fewer than two bedrooms	*1 space*
Non-residential:	
Retail Sales, services	1 space per 250 sq.ft gross floor area, but not fewer than 5 spaces per separate enterprise
Retail, auto dealership	1 space per 400 sq.ft gross floor area.
Business or professional office:	Business District C: 1 space per 300 sq.ft. gross floor area All other districts: 1 space per 200 sq. ft. gross floor area
Bank	1 space per 200 sq.ft. gross floor area
Restaurant	1 space per 150 sq.ft. gross floor area
Medical, or Dental Offices	6 spaces per doctor or dentist
Industrial, wholesale	1 space per employee. Parking per employee to be measured by largest employee shift, as the requirements are to be calculated per the total workers present at any one time, not total employees.
Place of public assembly	1 space per 3 persons capacity based on State Building Codes
Hotel or motel guest unit	1 1/10 spaces per unit
Guesthouse, lodging house, or other group accommodation	1 space per 2 persons accommodated
Nursing home	1 space per 3 beds
All other uses	1 space per 150 sq.ft. or such smaller number of spaces as the Board of Appeals may, on Special Permit, determine adequate to accommodate all normal demand.

3150. Parking Area Design and Location.

3151. Location. Required parking shall be either on the same premises as the activity it serves, or on a separate parcel if located within 300 feet of the building entrance, and if

not separated by a state-numbered highway, and if in a zoning district allowing the activity it serves.

3152. Setback. No more than five parking spaces shall be located within a required front yard, unless set back from the street line by more than 10% of the lesser of lot or district depth. It is the intent of this requirement that substantially all parking areas shall be located to the sides and rear of a building or buildings, and that the front yard setback shall be used primarily for walkways, landscaping, driveways, and the required buffer.

3153. Surface. All required parking areas, entrances, and driveways, except those serving single-family residences, shall be paved, unless exempted on Special Permit from the Board of Appeals for cases such as seasonal or periodic use where an alternative surface will prevent dust, erosion, water accumulation, or unsightly conditions.

3154. Backing. Parking areas with five or more spaces or reached from a state numbered highway shall be designed and located so that their use does not involve vehicles backing onto a public way. Each parking area shall be designed to provide a circulation system within the lot so that all vehicles may exit from and enter into the adjacent street or way by being driven in a forward direction and no vehicle shall be required to enter or leave the parking area by traveling in reverse.

3155. Egress & Access. For Business Districts only, driveway openings on the same side of the street shall be separated by at least 100 feet if on the same premises or by at least 50 feet if on separate premises, measured centerline to centerline at the streetline. The maximum number of driveways permitting entrance and exit from a lot shall be limited to two per street line. At intersections, no driveway sideline shall be located within 50 feet of the intersection of street way lines. The minimum width of a driveway servicing one-way traffic shall be 14 feet. The minimum width of a driveway used for two-way traffic shall be 24 feet and no driveway openings shall exceed 24 feet in width at the street line. All driveways serving five or more parking spaces shall be constructed with a minimum edge radius of five feet on both sides. Access and egress from all parking areas shall be only via driveways which meet the design standards of this section. Each required off-street parking space and loading area shall be designed so that any motor vehicle may proceed to and from said parking space or loading space without requiring the moving of any other vehicle or passing over of any other parking space or loading area. Lot division which would preclude meeting the above requirements shall provide access easements or other means of satisfying those requirements on each lot. Driveways shall be located so as to minimize conflict with traffic on public streets and where visibility and sight distances are available to observe approaching pedestrian and vehicular traffic. All driveways serving a business must comply with the corner clearance requirements of this section. Parking plans shall include the delineation of the clear sight triangle. Clear sight distance at the intersection of a driveway serving a business and an existing way shall be defined by a clear sight triangle at the intersection per ITE and AASHTO standards. Measurements of clear sight distance shall be based on a line of sight at a level 3.5 feet above road surface at each end of the clear sight distance. Inside the clear sight triangle, no vision obstructing object or landscaping shall be permitted between a height of 3.5 feet and 8 feet above the plane identified by the adjacent curb grades.

3156. Parking Lot Plantings. Parking lots containing 10 or more parking spaces shall have at least one tree per 8 parking spaces, such trees to be located either within the lot or within 5 feet of it. Such trees shall be at least 2" trunk diameter with not less than 60 square feet of unpaved soil or other permeable surface area per tree. At least 5% of the interior of any parking lot having 25 or more spaces shall be maintained with landscaping,

including trees, in plots of at least 8 feet in width. Trees and soil plots shall be so located as to provide visual relief and sun and wind interruption within the parking area, and to assure safe patterns of internal circulation.

3157. Bicycle Racks. For parking areas of 10 or more spaces, bicycle racks facilitating locking shall be provided to accommodate 1 bicycle per 20 parking spaces required or fraction thereof. No more that two bicycle racks shall be required to be supplied regardless of parking lot size.

3158. Design Standards. Parking areas, access and egress must be constructed as follows:

a) 12" gravel base course with 95% compaction.

b) The gravel base course shall be primed at a rate of 1/2 gallons per square yard of MC-70 (or the equivalent) cut back asphalt (tack coat).

c) Parking lot pavement shall be a minimum of three inches in thickness set in two courses as follows:

1) BINDER - two inches (minimum).
2) TOP COURSE - one inch (minimum).
3) Pavement shall comply with MassHighway standards and shall be compacted to a minimum of 95% laboratory density.

d) Parking Lot Perimeter Curbs. Suitable curbing as approved by the Board shall be installed along the exterior perimeters of the parking lot.

e) Interior Parking Lot Islands. Interior parking lot islands shall be installed with either Cape Cod berms, vertical or sloped granite curbing or Portland Cement type concrete as approved by the Board.

f) All illumination of parking, loading, and service areas must be designed so as to not create glare on abutting properties. Light intensity at the property line shall be zero foot candles or less to comply with this bylaw.

g) The design of each parking area shall provide adequate amenities to pedestrian safety, including but not limited to placement of crosswalks situated within and to the lot itself.

3159. Grading and Drainage.

a) Storm sewer systems shall be designed for the 25-year 24-hour storm at a minimum.

b) Drainage systems shall be designed to accommodate the 2, 10, 25, and 100-year frequency storms, so that the peak rate of runoff under the post-construction conditions shall not exceed the peak rate of runoff under existing conditions. Drainage systems shall also be designed so there will be no increase in offsite flooding for the 2, 10, 25, and 100 year 24-hour frequency storms. Rainfall depths shall be based on the Northeast Regional Climate Center's "Atlas of Precipitation Extremes for the Northeastern United States and Southeastern Canada," Publication No. RR 93-5 (Cornell University, Ithaca, NY: September 1983 (The Cornell Standard).

c) Roof drainage must be designed to connect to the drainage system or otherwise be infiltrated on site in drywells to accommodate the 25-year frequency storm. The Board may, at its discretion, require subsurface disposal of roof drainage.

d) Spot elevations must be included along with proposed and existing contours. Minimum slope of any parking lot and access and egress road shall not be less than one percent.

e) Parking and loading areas shall be designed and constructed to manage all stormwater runoff on the premises. In the event that stormwater cannot be controlled on the premises, stormwater may be permitted to run offsite through drainage easements from all property owners upon whose property drainage will pass or end. The drainage system must be designed and constructed to include the following:

1) Oil and grease traps;

2) Best Management Practices in accordance with industry standards and Massachusetts Department of Environmental Protection Stormwater Management Policy and the associated Guidelines for Stormwater Management, as revised;
3) All structures within parking and loading areas shall be designed for H-20 loading capacity.

f) The following information must be submitted for review of the drainage design:
1) Location and types of inlets;
2) Drainage watershed limits, flow paths, acreage of areas tributary to drainage structures and water detention areas;
3) The location, type, size, length, invert elevations and slope of all drainage pipes and culverts;
4) Construction details of proposed drainage structures including inlets, outlets, manholes, pipes, headwalls and other proposed drainage structures;
5) The location of wetlands and water bodies within 100 feet of the site. The boundaries of the wetland areas must be approved by the Norwell Conservation Commission;
6) Drainage calculations prepared by a registered professional engineer, licensed in the Commonwealth of Massachusetts
7) Consideration must be given to the location of snow piles and where meltwater will travel. This must be accounted for in the drainage design;
8) All drainage systems must be constructed to adequately dispose of surface water generated on that property and to have low maintenance

3160. Erosion Control. During and after construction, all soils, mulch, wood chips, etc. shall be confined to the property. The Planning Board or its agent shall have the authority to require the applicant to provide specific erosion controls and placement thereof on site as needed during construction.

3170. Loading Areas.
a) An adequate number of off street loading areas shall be provided for any use serviced by delivery vehicles;
b) Loading areas must be located in the side or rear yards only;
c) Each loading area shall be separately located from employee and customer parking and shall be designed to protect pedestrian safety and avoid traffic conflicts within, entering, and leaving the lot where the loading area is located;
d) No area may be utilized and counted as both required parking space and required loading area unless the applicant can prove that loading activities will not conflict in any way with parking demand in that location during the times in which loading will take place;
e) Each loading area shall consist of a bay measuring 30 feet long by 12 feet wide, and 14 feet high if covered, and a maneuvering space equal to the length of the bay;
f) Under no circumstances is the idling of any truck or vehicle engine allowed in the loading or parking area for more than five minutes of continuous time.

3180. Shared Parking. Lesser Parking requirements than those specified in section 3140 may also be authorized by the Zoning Board of Appeals via a "Shared Parking Plan." Shared Parking will be defined as the ability of entities to share parking spaces if

the demand times generated in the area in question are largely mutually exclusive for each of the parties involved. Shared Parking means that parking spaces are shared by more than one user, which allows parking facilities to be used more efficiently. Shared Parking takes advantage of the fact that most parking spaces are only used part time by a particular motorist or group, and many parking facilities have a significant portion of unused spaces, with utilization patterns that follow predictable daily, weekly and annual cycles. The applicant must demonstrate during the Site Plan Review process that lower parking requirements are warranted based on the utilization of Shared Parking. Shared Parking shall be either on the same premises as the activity it serves, or on a separate parcel if located within 300 feet of the building entrance, and not separated by a state-numbered highway, and if in a zoning district allowing the activity it serves.

a) Any request to utilize Shared Parking must be accompanied by:
    1) the current and proposed hours of operation;
    2) the anticipated parking demand generated for the proposed use(s);
    3) a description of the character of the land use and the parking patterns of adjacent uses;
    4) an estimate of the anticipated turnover in parking space use over a 24 hour period of time;
    5) a site plan showing what the off street parking provision would be if built to the specification of Section 3140, without the proposed reduction..
    6) a site plan showing the shared use spaces in the lot, walking distance to the uses sharing the lot, and pedestrian amenities within and to all shared areas. Uses sharing the parking facility do not need to be contained within the same lot, but shall be a maximum of 500 feet from the closest parking space; and
    7) a reciprocal agreement executed by all parties concerned that ensures the long-term joint use of such shared parking, and that a copy has been submitted, and found acceptable during the Site Plan Review Process. Such agreement must be recorded at the Registry of Deeds;

b) In rendering a decision regarding a reduced parking scheme, the Zoning Board of Appeals should consider the following criteria:
    1) the hours of operation and peak demand of the uses involved;
    2) the number of spaces required for each individual use pursuant to Section 3140;
    3) the applicant's sufficient demonstration that actual parking needs will be satisfied under the reduced required minimum and shared parking plan; and
    4) that the proposal not only satisfies the drainage requirements of section 3159 for the proposed parking via a shared plan, but that the drainage system is designed to accommodate parking need, based on the minimum requirements set forth under Section 3140 for the cumulative uses proposed.

c) In the event that the conditions for shared parking change, or if the Shared Parking arrangement is discontinued, the applicant shall notify the Zoning Board of Appeals within 10 days. The Board shall then require the applicant to meet the applicable parking requirements found in Section 3140 of this Ordinance, as the affected sites will be considered in violation of this bylaw upon the expiration of the Shared Parking agreement.

3195. Restrictions. Parking areas must be used for registered motor vehicle parking only, with no sales, dead storage, repair work, or servicing of any kind. The required parking areas must be permanently available for use by patrons and employees of establishments for which such space was provided.

3199. Maintenance. Parking areas, loading spaces and landscaping shall be continuously maintained. Whenever necessary, surfacing, lighting, parking space

markings and plantings shall be replaced or repaired, and drainage structures maintained. Failure to adequately maintain parking facilities shall be considered a violation of the bylaw.

Or act on anything relative thereto

Requested by the Planning Board

The Advisory Board recommends this Article.

This Article authorizes the Town to update the Off Street Parking By-Law in the Business district to be more consistent with surrounding towns, less onerous to business owners, and more realistic given today's work schedules (e.g., multiple shifts, etc.).

ARTICLE 19: To see if the Town will vote to transfer the sum of $42,000, or any other sum, from various years Overlay Surplus Account to Article 19 of the 2004 Annual Town Meeting for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in the Town funded directly by the Town. This program is to be established pursuant to an agreement with the Council on Aging, the Board of Selectmen and the Board of Assessors, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends this Article in the amount of $42,000.

This Article authorizes the Town to fund the Senior Real Estate Tax Work-Off Program.

ARTICLE 20: To see if the Town will transfer the sum of $60,000, or any other sum, from the FY04 Overlay Surplus Account to be expended under the direction of the Board of Assessors for professional and contracted services in order to perform a triennial revaluation of real and personal property in the Town as of January 1, 2008, including any defense of said values, and computers, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends this Article in the amount of $60,000.

This Article authorizes the Town to fund the triennial revaluation required by the Massachusetts Department of Revenue.

ARTICLE 21: To see if the Town will vote to appropriate from available funds (Water Department Surplus and/or Water Department Operating Revenue) $40,000 or any other sum to be expended under the direction of the Board of Water Commissioners for the purpose of conducting Hydro - geologic Studies, Well Exploration and associated work, or act on anything relative thereto.

Requested by the Board of Water Commissioners

The Advisory Board recommends this Article in the amount of $40,000.

This Article authorizes the Town to fund Hydro-geologic studies for the water department to determine among other things, future water sources.

ARTICLE 22: To see if the Town will vote to raise and appropriate, or appropriate from available funds the sum of $14,500 for the purpose of restoration of 5 hours weekly to the Norwell Public Library's operating schedule, said sum to be apportioned by the Town Accountant to the applicable line items if Article 2 (lines 165 and 289), or act on anything relative thereto.

Requested by the Board of Library Trustees

The Advisory Board does not recommend this Article. .

This Article would authorize the Town to provide funding for an additional 5 hours of Library Services per week.

ARTICLE 23: To see if the Town will vote to raise and appropriate or appropriate from available funds the sum of $40,000 to be expended by the Board of Library Trustees for the purpose of hiring an architect to prepare a schematic design of a new Norwell Public Library, or act on anything relative thereto.

Requested by the Board of Library Trustees.

The Advisory Board does not recommend this Article. The Advisory Board supports any funds being expended for this purpose is expended by the Permanent Building Maintenance Committee.

This Article would authorize the Town to provide funding for a schematic design for a new library.

ARTICLE 24: To see if the Town will vote to raise and appropriate, transfer from available funds or other wise provide a sum of money to be expended by the Permanent Building and Maintenance Committee to work with the Police Department, Norwell Council on Aging, Library Trustees and the Board of Selectmen to hire an Architect and Civil Engineer to determine future space needs of each department using selected sites and prepare, if possible, the selected site for site plan approval prior to applying for a building permit, or act on anything relative thereto.

Requested by the Permanent Building and Maintenance Committee

The Advisory Board recommends this Article up to the amount of $50,000.

This Article authorizes the Town to provide funding for feasibility and space needs for town buildings.

ARTICLE 25: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $20,000 to perform a feasibility/design study to determine if an addition can be made to the existing senior center or whether a new building is required, or act on anything relative thereto.

Requested by the Council on Aging

The Advisory Board does not recommend this Article. The Advisory Board has recommended funding in a previous Article for this purpose under the direction of the Permanent Building Maintenance Committee.

This Article would authorize the Town to provide funding for a feasibility/design for a new Council on Aging.

ARTICLE 26: To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide a sum of money to be expended by the Personnel Board to conduct a comprehensive salary survey and review of the Town of Norwell Compensation Schedule, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board recommends this Article in the amount of $10,000.

This Article authorizes the Town to conduct a salary survey and compensation review for the Town.

ARTICLE 27: To see if the Town will vote to approve the placement the Water Superintendent's position in Grade 16 of the Personnel Classification and Compensation Plan, or act on anything relative thereto.

Requested by the Board of Water Commissioners

The Advisory Board will make its recommendation at Town Meeting.

This Article would authorize the Town to reclassify the Water Superintendent's position.

ARTICLE 28: To see if the Town will vote to adjust the Personnel Compensation Plan by creating the position of Program Coordinator at the Council on Aging, Grade 8, representing an increase of five hours per week, for a total salary increase of $5,731, or act on anything relative thereto.

Requested by the Council on Aging

The Advisory Board recommends this Article in the amount of $5,731.

This Article authorizes the Town to reclassify Council on Aging positions.

ARTICLE 29: To see if the Town will vote to adjust the Personnel Classification Plan by amending the following Council on Aging positions;

Present Position	*Compensation*	*Increase to*
Director	G13	G-15
Outreach Coordinator	G10-6	G11-5
Part-time Van Driver	G5-5	G6-3
Part-time Van Driver	G5-6	G6-5

Said upgrades to represent a total salary increase of $4,323.29, to take effect on July 1, 2007, or act on anything relative thereto.

Requested by the Council on Aging

The Advisory Board recommends this Article, and agrees with the Personnel Board that the Director and Van Drivers only be upgraded in the amount of $4,000. The other positions should be evaluated as part of the town wide salary survey.

This Article authorizes the Town to reclassify Council on Aging positions.

ARTICLE 30: To see if the Town will vote to amend the Town of Norwell Personnel By-law, Section 8, Fringe Benefits, subsection (c) Sick Leave, by deleting the first five (5) paragraphs of said subsection and replacing it therein with the following new text:

(c) Sick Leave

Each full-time employee shall accumulate sick leave at the rate of one and one quarter day for each month of employment (15 days per year). Unused sick leave may be accumulated up to a maximum of 200 days.

Department heads may, in their discretion, require medical certification of any illness.

Probationary employees are entitled to sick leave after completing at least one month of service.

Part time employees who work a minimum of 20 hours per week are eligible to accumulate sick leave on a pro-rated basis.

Employees shall be allowed to use up to five days of accumulated sick leave for illness in their family. The Town may require certification of said illness from a medical provider.

Upon retirement as determined, or death of the employee, using a maximum accumulation of 120 buy back days, the Town will buy back all unused sick days accumulated above forty-five days (45), for a maximum buy-back of seventy-five (75) days. Payment will be made at the current pay scale of the employee at the time of death or retirement.

Employees hired on/or after July 1, 2007 shall not be eligible to receive a sick leave buy-back upon retirement.

Or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board recommends this Article.

This Article authorizes the Town to change its Sick Leave policy, which includes a provision that new employees hired after 7/1/07 will not receive a sick leave buy back upon retirement.

ARTICLE 31: To see if the Town will raise and appropriate or appropriate from available funds $100,000, or any other sum to be expended under the direction of the Permanent Drainage Study Committee and the Highway Surveyor for engineering, installation and or maintenance of Town drainage.

Requested by the Permanent Drainage Study Committee

The Advisory Board recommends this Article in the amount of $50,000.

This Article authorizes the Town to provide funding for drainage improvements in the Town under the direction of the Permanent Drainage Study Committee and the Highway Surveyor.

ARTICLE 32: To see if the Town will vote to rescind the authorization to borrow the sum of $7,204,000 voted by Article 17 of the Annual Town Meeting of May 13, 2003, or act on anything relative thereto.

Requested by the Treasurer Collector

The Advisory Board recommends this Article.

This Article authorizes the Town to rescind a borrowing authorization for a water treatment plant that was planned, but now will not be constructed.

ARTICLE 33: To see if the Town will vote to transfer control of a 20 acre, more or less, parcel of land located at Stetson Meadows from the Norwell Recreation Commission to the Norwell Cemetery Commission for the purpose of constructing a new cemetery, or act on anything relative thereto.

Requested by the Cemetery Committee

The Advisory Board recommends this Article. This is part of a land swap between two Town departments as the Cemetery Committee looks for a more suitable site for the new cemetery.

This Article authorizes the Town to transfer the land at Stetson Meadows currently under the control of the Recreation Commission to the Cemetery Committee.

ARTICLE 34: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money for the purpose of designing, laying out and constructing a new cemetery at Stetson Meadows, or act on anything relative thereto.

Requested by the Cemetery Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to provide funding for the design, layout, and construction of a new cemetery.

ARTICLE 35: To see if the Town will vote to transfer the care, custody, management and control of approximately twenty acres shown as Parcel 1 of the former Donovan Property, from the Norwell Cemetery Committee to the Recreation Commission. Said acreage is approximately shown on the plan by Sitec, Inc. dated December 17, 1996 of the former Donovan Property on the easterly side of Wildcat Lane, or act on anything relative thereto.

Requested by the Cemetery Committee

The Advisory Board recommends this Article. This is part of a land swap between two Town departments as the Cemetery Committee looks for a more suitable site for the new cemetery.

This Article authorizes the Town to transfer the land on Wildcat Lane currently under the control of the Cemetery Committee to the Recreation Commission.

ARTICLE 36: To see if the Town will vote, subject to the approval of the State Legislature of a Home Rule Petition, to increase the limit on the maximum qualifying gross receipts set forth in Massachusetts General Laws, Chapter 59, Section 5, Clause 41A from $40,000 to the current maximum qualifying gross receipts established locally for qualification for Affordable Housing, or act on anything relative thereto.

Requested by the Senior Citizen Tax Relief Committee

The Advisory Board recommends this Article.

This Article authorizes the Town to petition the State Legislature for an Act that would increase the limit for Affordable Housing qualification for the current $40,000 to the amount that is established for qualification for Affordable Housing.

ARTICLE 37: To see if the Town vote to authorize the Board of Selectmen to transfer the care, custody and control 6 parcels of land on Summer Street consisting of 8.99 acres known as Block 11, Lots 42 and 43 on Assessors' Map 4C and 3D and Block 9, Lots 38, 41, 42, 43 on Assessors' Map 3D and 8B to the Conservation Commission, or act on anything relative thereto.

Requested by the Conservation Commission

The Advisory Board recommends this Article.

This Article authorizes the Town to transfer Town owned land on Summer Street to the care of the Conservation Commission.

ARTICLE 38: To see if the Town will vote to authorize the Board of Selectmen to transfer the care, custody and control 1 parcel of land on Mount Blue Street consisting of 8.00 acres known as Block 5, Lot

10 on Assessors' Map 2D to the Conservation Commission. This parcel is within the boundaries of Bound Brook Pond and will serve as surface water supply protection for the Town of Cohasset, FEMA Flood Zone A protection and endangered species habitat preservation, or act on anything relative thereto.

Requested by the Conservation Commission

The Advisory Board recommends this Article.
This Article authorizes the Town to transfer Town owned land on Mt. Blue Street to the care of the Conservation Commission for water supply and habitat preservation.

ARTICLE 39: To see if the Town will vote to appropriate the sum of $27,000 to be expended under the direction of (a Department of the Town) to perform engineering studies and evaluation of the Jacobs Pond Dam based upon recommendations in the Phase I Inspection Report by PARE Corporation. Expenditures would include a detailed Hydraulic and Hydrologic Evaluation, Downstream Wall Stability Evaluation, Emergency Action Plan Update and Tree Removal Evaluation and Plan, or act on anything relative thereto

Requested by the Conservation Commission

The Advisory Board does not recommend this Article. The Town recently had the dam inspected as required, and the engineering studies and evaluation will be necessary, however we do not feel this Article is a priority this Fiscal Year.

This Article authorizes the Town to fund a study on the Jacobs Pond Dam.

ARTICLE 40: To see if the Town will vote to appropriate the sum of $300,000, pursuant to Massachusetts General Laws, Chapter 44B, from the Community Preservation Fund Reserve for Affordable Housing, and to appropriate $200,000 from FY2008 Community Preservation Fund revenues for the purpose of establishing a permanent "Affordable Housing Short Term Loan Fund" to be administered by the Norwell Affordable Housing Trust or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article in the amounts of $300,000 and $200,000, respectively.

This Article authorizes the Town to establish a loan fund for use Norwell Affordable Housing Trust, pursuant to its By-Laws.

ARTICLE 41: To see if the Town will vote to establish the

AFFORDABLE HOUSING TRUST BY-LAW

The Norwell Affordable Housing Trust shall be constituted and operate under MGL Chapter 44, Section 55C and subject to the limitations contained in these Bylaws.

The Board of Trustees shall consist of five members appointed by the Board of Selectmen for two year terms. The Board shall consist of one selectman and one member nominated to the Selectmen from each of the four following boards and committees: Norwell Housing Authority, Planning Board, Affordable Housing Partnership and the Community Preservation Committee. Such nominated members shall be representatives of their respective boards and shall continue serving both at the pleasure of the Board of Selectmen as well as their respective boards.

Each year as soon as possible after July 1st, the Board shall elect from its members a chair, vice-chair, treasurer and clerk. Officers' terms shall be annual but shall last until their successors are elected.

The Norwell Affordable Housing Trust shall be chartered and authorized to only perform the following activities:

(a) Upon request, it shall be authorized to issue secured, short term loans so that existing affordable housing units in Norwell can be acquired from their existing owners (including bidding at a foreclosure auction) and to make arrangements to return the unit to its status as affordable housing. This section defines short term as "six months" and in all cases no more than a year. The Trust shall endeavor to update deed restrictions on the subject units to the current riders in use in the Town.

(b) In fulfilling the short term loan function as described in section (a), the Trust may enter into an Agreement where the ultimate affordable re-sale price is less than the initial purchase price causing loan forgiveness (or a "buy down") of the unit and a net expenditure of the Trust's short term loan funds.

(c) The Trust may acquire or (subject to a written agreement with a third party loan funds and thereby cause to be acquired) existing single family residences anywhere in the Town of Norwell. The Trust shall directly or indirectly acquire such properties with the sole purpose of attaching a permanent affordable housing deed restriction on the units and re-selling them to buyers who are eligible buyers whose income does not exceed 80% of area median income. In buying and re-selling the properties, the Trust is authorized to incur a net expenditure of up to $85,000 per affordable unit created. Such expenditure can take the form of a permanent, non-interest bearing, non-amortizing second mortgage or an outright reduction in purchase price ("buydown"). The trust may also rehabilitate the units as it deems necessary for re-sale subject to the same principal of a total aggregate cost not to exceed $85,000 of trust funds per unit of Affordable Housing so created.

(d) The trust may investigate other projects but shall not expend trust fund assets outside the three purposes above. Any issues of interpretation of this By-law may be referred to the Board of Selectmen whose decision shall be final. Notwithstanding the Selectmen's decision, the Trust may request Special or Annual Town Meeting authorization to pursue specific projects so determined to be falling outside the scope of this Bylaw.

or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article.

This Article authorizes the Town to establish a Norwell Affordable Housing Trust By-Law.

ARTICLE 42: To see if the Town will vote to accept the provisions of Massachusetts General Laws Chapter 44, Section 55C to establish a Norwell Affordable Housing Trust Fund for the purpose of providing for the creation and preservation of affordable housing pursuant to an Affordable Housing Trust Bylaw, or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article.

This Article authorizes the Town to establish a Norwell Affordable Housing Trust.

ARTICLE 43: To see if the Town will vote to extend the deadline of Article 7 of the Special Town Meeting of May 9, 2005 (later amended by Article 9 of the Special Town Meeting of May, 2006) (relocation and renovation of High Street houses) from June 30, 2007 to June 30, 2009, pursuant to Massachusetts General Laws, Chapter 44B, or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends this Article. The Affordable Housing project is on hold due to a related High Street construction project (which this Article does not affect) being involved in an appeal. We would ask that the Community Preservation Committee (CPC) remove the deadlines in certain Articles (the CPC has the Authority to close out Articles if unused) so that they do not have to be re-voted at subsequent Town Meetings as sometimes the original intent of the Article is forgotten, and other issues end up being discussed on Town Meeting floor.

This Article authorizes the Town to extend the deadline for relocating and renovating the High Street houses for Affordable housing purposes.

ARTICLE 44: To see if the Town will vote, pursuant to Massachusetts General Laws, Chapter 44B, to reserve the sum of $135,000 or another sum, from FY2008 revenues, for the creation, preservation and support of affordable housing; to reserve the sum of $135,000 or another sum, from FY2008 revenues, for the acquisition, preservation, rehabilitation and restoration of historic resources; and to reserve the sum of $135,000 or another sum, from FY2008 revenues, for the acquisition, creation and preservation of open space, or take any other action relative thereto.

Requested by the Community Preservation Committee
The Advisory Board recommends this Article in the amounts of $135,000 for each category.

This Article authorizes the Town to segregate 10% of annual revenues from the Community Preservation Fund into each of the required categories – Open Space, Affordable Housing, and Historic Rehabilitation and Restoration.

ARTICLE 45: To see if the Town will vote to designate Church Street, Common Street, Cross Street, Grove Street, Mt. Hope Street, Meadowbrook Lane, Mill Lane, Oak Street, Parker Street and Summer Street as scenic roads pursuant to the Massachusetts Scenic Roads Act (MGL Chapter 40, Section 15C), or act on anything relative thereto.

Requested by the Historical Commission

The Advisory Board does not recommend this Article. The Advisory Board has been supportive in the past of Scenic Road designations. However, it would seem that the designation loses its significance if eventually all roads are designated "scenic". We would prefer that residents of a particular road ask the Historical Commission for inclusion as a scenic road, and understand both the regulatory issues and the criteria utilized.

This Article authorizes the Town to designate Church Street, Common Street, Cross Street, Grove Street, Mt. Hope Street, Meadowbrook Lane, Mill Lane, Oak Street, Parker Street and Summer Street as scenic roads.

ARTICLE 46: To see if the Town will vote to accept the provisions of Massachusetts General Laws Chapter 59, Section 5L, to provide for the deferral of property taxes for members of the Massachusetts National Guard or reservist of a dependent of a member of the Massachusetts National Guard or reservist while that member is on active service outside of the Commonwealth and for one hundred and eighty days following their return to Norwell and civilian life, or act on anything relative thereto.

Requested by the Veteran Services Officer

The Advisory Board recommends this Article.

This Article authorizes the Town to accept a new Massachusetts General Law that allows for deferral of the payment of property taxes for a member of the Massachusetts National Guard or reservist while they are on active service outside the State and for six months once they return to Norwell.

ARTICLE 47: To see if the Town will vote to amend the Town of Norwell By-laws by adding at the end thereof the following new section"

TOWN OF NORWELL
MOORING BYLAW

Section 1: AUTHORITY
This Bylaw is adopted by the Town under its police powers to protect public health and welfare and its powers under M.G.L. Chapter 90B, Section 15; Chapter 91, Section 10A; Chapter 102, Section 19-28; Chapter 43B, Section 13; Chapter 40, Sections 21D and 57; Chapter 60B, Section 4; 310 C.M.R. 9.07; and all other applicable laws and regulations.

Section 2: PURPOSE
The purpose of this Bylaw is to protect the public peace, good order and general welfare; to preserve and protect the waters of the North River within the jurisdiction of the Town of Norwell; to promote, preserve and protect the exercise and enjoyment of the public rights of fishing, fowling and navigation; and to so regulate the use of the waters of the North River within the jurisdiction of the Town of Norwell as to protect and promote the public health, safety, convenience and enjoyment thereof.

Section 3: DEFINITIONS
In construing this by-law, the following words shall have the meaning herein given, unless a contrary intent clearly appears:

"Berth" – means any space wherein a boat is confined by a mooring, wet slip, pier, dock, float, or any other type of docking facility.

"Boat" or "Vessel" – includes every description of watercraft, used or capable of being used as a means of transportation on the water, including seaplanes, amphibious vehicles, and any other variable use craft when navigating, moored, or berthed on the water, excluding canoes, kayaks, and boats twelve (12) feet in length and under.

"Boatyard" – means a facility whose function is the construction, repair, or maintenance of boats, which may include provisions for boat storage and docking while awaiting service.

"Harbormaster" – shall mean any Harbormaster and any assistant Harbormasters duly appointed by the Norwell Board of Selectmen from time to time, and in the absence of any such appointment, the powers and authority of the Harbormaster shall be vested in the Norwell Board of Selectmen.

"Marina" – means a berthing area with docking facilities under common ownership or control and with berths for ten or more vessels, including commercial marinas, boat basins, and yacht clubs. A marina may be an independent facility or may be associated with a boatyard.

"Mooring" – means a place where buoyant vessels, lobster-cars, floats, or rafts are secured to the bottom of a water body and the mooring tackle, including the block, chain, buoy, pennant, and any other equipment, used to secure the vessel by permit from the Harbormaster.

'Mooring Permit" – means written authorization issued by the Town of Norwell to place a mooring within the North River or to berth a boat upon a wet slip, pier, dock, or float within the North River.

"North River" – the waters within the North River lying within the Town of Norwell, as defined in N.O.A.A. map dated February 1979.

"Persons" – shall include individuals, corporations, societies, associations, and partnerships.

Section 4: MOORING PERMITS

(a) No person shall place any block, chain, pennant or other mooring device within the North River, or moor or berth any boat or vessel upon any wet slip, pier, dock or float within the North River, without first obtaining a mooring permit from the Harbormaster.

(b) A mooring permit must be obtained for each mooring placed and for each boat moored or berthed within the North River for each calendar year, and a fee set by the Selectmen shall be paid for said permit to the Harbormaster on a form prescribed by the Selectmen. The application shall set forth the name and address of the owner, the size and type of the boat to be moored or berthed, the size and type of the mooring, and, if the mooring is already in the water, the location thereof with sufficient details to enable the Harbormaster to locate it. No mooring shall be rented, except by an operator of a private, public, or commercial marina upon such terms, conditions, and regulations established by the Harbormaster. The Harbormaster shall not issue mooring permits to persons who have delinquent excise taxes.

(c) The Harbormaster shall prepare regulations governing the use of moorings, applications for mooring permits, and the size and specifications for moorings, their hardware and pennants. All such regulations shall be submitted to the Selectmen for their approval. Upon approval, the regulations shall be published once in a newspaper of general circulation in the Town and shall be posted for seven (7) consecutive days at the Harbormaster's office and at the Town Clerk's office and shall become effective upon expiration of said seven (7) days. Copies of such regulations shall be available upon request at the Town Clerk's office and at the Harbormaster's office. Such regulations may be amended from time to time in the same manner.

(d) Any hazard to navigation or property, or any mooring placed or boat berthed within the limits of the North River in violation of the foregoing provisions, may be removed by the Harbormaster at the expense of the owner.

Section 5: PENALTIES

(a) Whoever violates any provision of this chapter or any rule or regulation adopted under Section 4 hereof, and whoever fails to obey the lawful and reasonable orders of the Harbormaster, or resists him/her in the execution of his/her duties, shall be fined up to $50.00 for each such violation and/or may have their mooring privileges revoked. This chapter shall be enforced by the Harbormaster or by the Board of Selectmen.

(b) As an alternative to initiating criminal proceedings as described above, the Harbormaster or the Board of Selectmen may dispose of a violation of this by-law, and any rule or regulation promulgated hereunder, as a non-criminal disposition

and subject to a penalty of $50.00 for each such violation pursuant to the provisions of M.G.L. Chapter 40, Section 21D.

(c) A violation of each specific by-law, rule or regulation shall be deemed a separate offense, and each day on which a violation occurs shall be deemed a separate offense and subject to the penalties stated herein.

Or act on anything relative thereto.

Requested by the Mooring By-Law Committee

The Advisory Board voted (5-3) to recommend this Article.

This Article authorizes the Town to establish Mooring By-Laws for the Town.

ARTICLE 48: To see if the Town will vote to transfer the care, custody, maintenance and control of a parcel of land identified on Assessor's Map 24B, Block 57, Parcel 12, Circuit Street, Norwell, MA from the Board of Selectmen for the general municipal purposes to the Board of Selectmen for the purpose of sale, and to authorize the Board of Selectmen to sell said parcel to South Shore Habitat for Humanity, a Massachusetts non-profit 501(c)3 corporation, and to authorize the Board of Selectman to accept a grant of restrictive covenant with respect to the said parcel in connection with the development of the parcel for affordable housing, or to take action relative thereto.

Requested by the Affordable Housing Partnership

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to sell a Town owned parcel on Circuit Street to Habitat for Humanity for Affordable Housing.

ARTICLE 49: To see if the Town will vote to transfer the care, custody, maintenance and control of a parcel of land identified on Assessor's Map 6B, Block 11, Parcel 007, Prospect Street, Norwell, MA from the Board of Selectmen for the general municipal purposes to the Board of Selectmen for the purpose of sale, and to authorize the Board of Selectmen to sell said parcel to South Shore Habitat for Humanity, a Massachusetts non-profit 501C3 corporation, and to authorize the Board of Selectman to accept a grant of restrictive covenant with respect to the said parcel in connection with the development of the parcel for affordable housing, or to take action relative thereto.

Requested by the Affordable Housing Partnership

The Advisory Board recommends this Article.

This Article authorizes the Town to sell a Town owned parcel on Prospect Street to Habitat for Humanity for Affordable Housing.

ARTICLE 50: To see of the Town will vote to raise and appropriate, or appropriate from available funds a sum of money to be expended under the direction of the Highway Surveyor for engineering, designing, and installing traffic safety control signage and/or signals at the intersection of Grove and Prospect Streets and all other costs related thereto, or act on anything relative thereto,

Requested by Citizens Petition

The Advisory Board does not recommend this Article. We understand there is a safety issue with this intersection and have asked the residents to work with the Police Chief, Highway Surveyor and Traffic Study Committee to see if there are alternative solutions.

This Article would authorize the Town to pay for engineering, designing, and installing traffic safety control signage and/or signals at the intersection of Grove and Prospect Streets.

ARTICLE 51: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $3,500 for the Womansplace Crisis Center for Fiscal Year 2008 in lieu of services provided to the sexual assault survivors and families, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board recommends this Article in the amount of $2,000, which is consistent with previous funding levels for this purpose.

This Article authorizes the Town to pay for services provided to sexual assault survivors and families who are Norwell residents.

ARTICLE 52: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $4,000 to contract with the South Shore Women's Resource Center for domestic violence intervention and prevention services for its residents, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board recommends this Article in the amount of $2,000, which is consistent with previous funding levels for this purpose.

This Article authorizes the Town to pay for domestic violence intervention and prevention services provided to Norwell residents.

ARTICLE 53: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $25,000 to be expended under the direction of the Conservation Commission for the removal of weeds at Jacobs Pond, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. There was an agreement between the Conservation Commission and the developer of Jacobs Pond Estates to fund and pay for the removal of weeds through assessments to homeowners. We realize that Jacobs Pond is a Town resource that all residents enjoy, but we cannot overlook the agreement that was made for funding for this purpose. Even if this Article were funded by Town Meeting, it would not relieve the obligation of the residents to pay the Town this amount.

This Article would authorize the Town to pay for the removal of weeds at Jacobs Pond.

ARTICLE 54: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $5,000 to be placed in the Conservation Fund for the purpose of creating a reserve fund for the periodic removal of weeds at Jacobs Pond under the direction of the Conservation Commission, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. There was an agreement between the Conservation Commission and the developer of Jacobs Pond Estates to fund and pay for the removal of weeds through assessments to homeowners. We realize that Jacobs Pond is a Town resource that all residents enjoy, but we cannot overlook the agreement that was made for funding for this purpose. Even if this Article were funded by Town Meeting, it would not relieve the obligation of the residents to pay the Town this amount.

This Article authorizes the Town to fund a Conservation Account to pay for subsequent weed removal at Jacob's Pond.

ARTICLE 55: To see if the Town will vote to transfer the care, custody, management and control of approximately twenty acres shown as Parcel A-1 of the former Donovan Property, from the Washington Street Cemetery Committee to the Conservation Commission. Said acreage is approximately shown on the plan by Dodson and Associates as Parcel A-1, a division of Parcel A of the former Donovan Property on the easterly side of Wildcat Lane, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. The Advisory Board supports the previous Article(s) in which control over Town owned land was transferred between the Cemetery Committee and the Recreation Commission. Placing a parcel of land under the control of the Conservation Committee should be a final step in determining if the property has other uses for the Town, due to the onerous process for transferring the land out of Conservation for another purpose.

This Article authorizes the Town to transfer a parcel of land on Wildcat Lane from the Cemetery Committee to the Conservation Commission.

ARTICLE 56: To see if the Town will vote to amend Section 6470 and 6480 of the Norwell Zoning by-Law and the Zoning Map in order to change the zoning classification of 455, 461, 467 Washington Street having frontage on Washington Street, Norwell, MA from Residential District B to Business District B, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. This "buffer zone" was created years ago to protect the homeowners that live in the subdivisions behind Washington Street, and the Advisory Board feels these homeowners still need that protection. We, and other Town boards, have advised the main petitioner of other remedies to his zoning issue.

This Article would authorize the Town to change a portion of Washington Street from Residential Zoning to Commercial Zoning.

ARTICLE 57: To see if the Town will vote to amend Section 6470 and 6480 of the Norwell Zoning by-Law and the Zoning Map in order to change the zoning classification of 447, 455, 461, Washington Street having frontage on Washington Street, Norwell, MA from Residential District B to Business District B, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. This "buffer zone" was created years ago to protect the homeowners that live in the subdivisions behind Washington Street, and the Advisory Board feels these homeowners still need that protection. We, and other Town boards, have advised the main petitioner of other remedies to his zoning issue.

This Article would authorize the Town to change a portion of Washington Street from Residential Zoning to Commercial Zoning.

ARTICLE 58: To see if the Town will vote to amend Section 6470 and 6480 of the Norwell Zoning by-Law and the Zoning Map in order to change the zoning classification of 447, 455, 461, 467 Washington Street having frontage on Washington Street, Norwell, MA from Residential District B to Business District B, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. This "buffer zone" was created years ago to protect the homeowners that live in the subdivisions behind Washington Street, and the Advisory Board feels these homeowners still need that protection. We, and other Town boards, have advised the main petitioner of other remedies to his zoning issue.

This Article would authorize the Town to change a portion of Washington Street from Residential Zoning to Commercial Zoning.

ARTICLE 59: To see if the Town will vote to reduce the amount of the CPA surtax to 1%. The vote at Town Meeting will be by secret ballot. The change will be effective at the last day of the month following the vote of the Town Meeting, or act on anything relative thereto.

Requested by the Citizens Petition

The Advisory Board does not recommend this Article. We currently receive 100% matching funds from the state, and we have at least one more year in which we can receive a 100% match. If we reduce our surcharge percentage, we reduce the amount of the matching funds.

This Article would authorize the Town to reduce the amount of the CPA surcharge from the current 3% to 1%.

ARTICLE 60: To see if the Town will vote to suspend the CPA surtax for 2 calendar years at the end of the legal five-year period. The vote at Town Meeting will be taken by secret Ballot. An Ad Hoc Committee to include one member from each Town elected board will review the actions of the Community Preservation Committee and file a report to be published and made public one year from the date of the first meeting of the Ad Hoc committee, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. We currently receive 100% matching funds from the state, and we have at least one more year in which we can receive a 100% match. Once we expect the Town will no longer receive a 100% match, the Town can re-evaluate its participation.

This Article (we expect that a motion will be made to amend) authorizes the Town to revoke is authorization for the Community Preservation Act.

ARTICLE 61: To see if the Town will vote to allow registered voters and citizens of the Town of Norwell over the age of 65 years that have resided legally in the town for more than 5 years are given the option to voluntarily pay the C.P.A. surtax or choose not to contribute. The Quarterly Tax statements will be corrected to show the CPA surtax as voluntary for those citizens meeting the above criteria, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. There are already exceptions built in to the Community Preservation Act for low-income senior citizens that qualify. In addition, the first $100,000 of assessed value is exempted for all residential parcels to provide further relief.

This Article (we expect that a motion will be made to amend) authorizes the Town to exempt all Norwell residents over the age of 65 from the Community Preservation Surcharge.

ARTICLE 62: To see if the Town will vote to have the Selectmen petition the General Court requesting the enactment of the following special act:

AN ACT FOR THE ESTABLISHMENT AND ADMINISTRATION OF RENT REGULATIONS AND THE CONTRIL OF EVICTIONS IN MOBILE HOME PARK ACCOMODATIONS IN THE TOWN OF NORWELL.

Be it enacted, etc. as follows:

SECTION 1. Declaration of Emergency. The general court finds and declares that a serious public emergency exists with respect to the housing of a substantial number of citizens in the town of Norwell, which emergency has been created by excessive, abnormally high and unwarranted rental increases imposed by some owners of mobile home parks, located therein: that unless mobile home parks rents and eviction of tenants are regulated and controlled such emergency will produce serious threats to the public safety, health, and general welfare of the citizens of said town, particularly the elderly; that such emergency should be met by the commonwealth immediately and with due regard for the rights and responsibilities of the Town of Norwell.

SECTION 2. General Powers. The town of Norwell, may, by its ordinances, regulate rents for the use or occupancy of mobile home park accommodations in said town, establish a rent board for the purpose of regulating rents, minimum standards for the use or occupancy of mobile home park accommodations and evictions of tenants there from and may, by its ordinances, require registration by owners of mobile home park accommodations. Such rents, standards and evictions may be regulated by the rent board so as to remove hardships, or correct inequities for both the owner and the tenants of such mobile home park accommodations. Said rent board shall have all powers necessary or convenient to perform its functions, may make rules and regulations, require registration by owners of mobile home park accommodations, under penalty of perjury, of information relating to the mobile home park accommodations, compel the attendance of persons and the production of papers and information, and issue appropriate orders which shall be binding on both the owners and tenants of such mobile home park accommodations. Violations of any by-laws adopted pursuant to this act or any orders of said rent board shall be punishable by a fine of not more than one thousand dollars for any offense.

SECTION 3. Standards for Adjusting Rent. (a) In regulating such rents, for such mobile home parks accommodations, the rent board established under section two may make such individual or general adjustments, either upward or downward, as may be necessary to assure that rents for the mobile home park accommodations is said city are established at levels which yield to owners a fair net operating income for such units. Said town in its by-laws or said rent board by regulation may establish further standards and rules consistent with this act. The maximum rent of a mobile home park accommodation shall be the rent charged the tenant for the month of December, two thousand and six. If the mobile home park accommodations was unoccupied at that time but was occupied at any time prior to the effective date of this ordinance, the maximum rent shall be the rent charged therefore for or during the month closest to December, two thousand and six. If the maximum rent is not otherwise established, it shall be established by the board. Any maximum rent may be subsequently adjusted under this section.

SECTION 4. Incorporation of the Administrative Procedure Act. The provisions of chapter thirty A of the General Laws shall be applicable to the rent board, established under section two, as if said rent board were an agency of the commonwealth, including those provisions giving agencies the powers to issue, vacate, modify, and enforce subpoenas and those provisions relating to judicial review of the agency order.

SECTION 5. Conference Jurisdiction. The district court department shall have original jurisdiction, concurrently with the superior court, or all petitions for review brought

pursuant to section fourteen of chapter thirty A of the General Laws. The superior court shall have the jurisdiction to enforce the provisions of the act and any by-laws adopted thereunder and may restrain violations thereof.

SECTION 6. Defense of Summary Process for Possession. The Town of Norwell may, by its by-laws, regulate the eviction of tenants and the rent board, established under section two, may issue orders which shall be a defense of the action of summary process for possession and such orders shall be reviewable pursuant to sections two and three.

SECTION 7. Severability. If any provisions of this act or the application of such provision to any person or circumstance shall be held invalid, the validity of the remainder of this act and the application of such provision to other persons or circumstances shall not be affected thereby.

SECTION 8. This act shall take effect upon its passage.

Or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board recommends this Article. Similar measures were passed by the Legislature for other Massachusetts towns.

This Article authorizes the Town to petition the Legislature to pass the above Act to provide some protections for residents of Norwell's mobile home parks relative to rents and evictions.

ARTICLE 63: To see if the Town will vote to give the wind rights to all Town owned properties to David Brooks, a Norwell citizen, to investigate, permit, build, maintain and dismantle Wind Turbines in the Town on Town owned property, partially for the benefit of the citizens of Norwell. This petition if approved is for a period of 10 years from the first day of Electrical generation at each of the individual sites, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. The Advisory Board is unanimously in favor of alternative energy exploration and evaluation and is appreciative to Mr. Brooks for promoting this issue. There are alterative organizations and methods that the Town will explore to ensure its residents receive all of the benefits of alternative energy.
This Article authorizes the Town to grant the Town's wind rights to a private citizen.

ARTICLE 64: To see if the Town will vote to allow the erection of turbines at the Stetson Meadows Recreation Land, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. The Town should first determine the costs/benefits of wind power and have the appropriate meetings and/or hearings and draft [zoning] regulations necessary to allow the Townspeople to determine if, where, and under what conditions they would like to allow wind turbines.

This Article would authorize the Town to allow the erection of turbines at the Stetson Meadows Recreation Land.

ARTICLE 65: To see if the Town will vote to allow the erection of turbines at the High School, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does not recommend this Article. The Town should first determine the costs/benefits of wind power and have the appropriate meetings and/or hearings and draft [zoning] regulations necessary to allow the Townspeople to determine if, where, and under what conditions they would like to allow wind turbines.

This Article would authorize the Town to allow the erection of turbines at the High School.

ARTICLE 66: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen
The Advisory Board will make its recommendation at Town Meeting if funds are identified and available.

This Article authorizes the Town to transfer any available money into the general Stabilization Fund.

ARTICLE 67: To see if the Town will appropriate a sum of money from available funds and authorize the Assessors to use this sum to decrease the tax Rate for FY 2008, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting once the amount of the request is finalized.

This Article authorizes the Town to utilize the Stabilization Fund to reduce the overall Tax Rate for FY08.

INSTRUCTIONS TO ELECTED OFFICIALS
SALE OF THE FISH RIGHTS

You are directed to serve this Warrant by posting a copy thereof attested to by you in writing in each of five public places in the Town at least fourteen days before the time for holding and meeting called for in the Warrant. Hereof, fail not and make due return of the Warrant with your doings thereon to the Town Clerk of said Town on or before the 24th day of April, 2007.

Given under our hands at Norwell this _____ day of April in the year of our Lord, 2007.

BOARD OF SELECTMEN
Norwell, Massachusetts

MINUTES OF SPECIAL/ANNUAL TOWN MEETING, Monday, May 14, 2007 and Tuesday, May 15, 2007

ATTENDANCE: (No Quorum Required)

Monday, May 14, 2007:

Precinct One: 78
Precinct Two: 98
Precinct Three: 78
TOTAL 254

Tuesday, May 15, 2007:

Precinct One: 101
Precinct Two: 99
Precinct Three: 65
TOTAL 265

On Monday evening, May 14, 2007, in the Gymnasium of the Norwell Middle School, Moderator Roger E. Hughes called the meeting to order promptly at 7:30 PM.

Janice M. Lawson, Town Clerk, read the "Constable's Return of Service of the Warrant" for this meeting.

Rev. Father Thomas Maguire, St. Helen's Church, led the assembly in prayer.

Veterans' Agent Richard A. Caldwell, led the assembly in the "Pledge of Allegiance to the Flag". He also invited all Veterans to March in the Memorial Day Parade.

Moderator Hughes made the following introductions:

TOWN COUNSEL: Robert E. Galvin, Esq., (Monday May 14, 2007) Robert W. Galvin, Esq. (Tuesday, May 15, 2007)

TOWN ADMINISTRATOR: James M. Boudreau

BOARD OF SELECTMEN:
Richard A. Merritt, Chair
John G. Mariano, Vice Chair
Thomas J. Bigger, Clerk

ADVISORY BOARD:
Patrick J. Haraden, Chair
Jason Brown, Vice Chair
Brian S. Noble
Chester Flynn
Spencer A. Joseph
Ralph Gordon
Charles R. Dirk
J. Richard Hartigan
Caroline Hughes

TOWN CLERK:
Janice M. Lawson

ASSISTANT TOWN CLERK:
Patricia M. Anderson

TOWN ACCOUNTANT:
Donna G. Mangan

ASSISTANT TOWN ACCOUNTANT:
Rita Turco

The Moderator explained the rules of the meeting which follow the Town Bylaws and "Roberts Rules of Order".

Moderator Hughes explained the rules further:

1. To save time, please come to one of the microphones before you wish to speak.
2. After being recognized by the Moderator,
identify yourself and give your address.
3. Speak only to the issues and not to personalities.
4. The main motion may be slightly different than what is printed in the Warrant.
5. Any Voter may amend an Article but he/she must do so in writing and present a copy to the Moderator and Town Clerk.
6. One amendment will be discussed and voted on before any other amendment will be allowed. Then, we will turn to the main motion and vote.
7. Reconsideration: Traditionally, "reconsideration" may occur the same night an article is voted, or the following evening.

The authority cards received by the voters on Monday evening were " bright pink" for the Special Town Meeting; "bright yellow" for the Annual Town Meeting. On Tuesday evening, May 15, 2007, the authority cards were "turquoise".

The Voters also received a lavender "YES/NO" slip for borrowing, if necessary, for Article No. 15 of the Annual Town Meeting.

At this time, a motion was made and seconded and the MAJORITY VOTED to suspend the Annual Town Meeting to take up the business of the Special Town Meeting, Articles Nos. 1 thru 16.

SPECIAL TOWN MEETING:

ARTICLE NO. 1: Majority Vote Required

UNANIMOUSLY VOTED to appropriate the sum of $276,069.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 291C, Acts of 2004, one apportionment, and appropriate the sum of $274,999.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 291B, Acts of 2004, one apportionment for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), Work on Highways, to be expended under the direction of the Highway Surveyor, and to further authorize the Treasurer, with the approval of the Board of Selectmen, to temporarily borrow said sum.

ARTICLE NO. 2: Majority Vote Required

UNANIMOUSLY VOTED to appropriate the sum of $126,041.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 122, Acts of 2006, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), Work on Highways, to be expended under the direction of the Highway Surveyor, and to further authorize the Treasurer, with the approval of the Board of Selectmen, to temporarily borrow said sum.

ARTICLE NO. 3: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 3.

(To appropriate a sum of money for the payment of unpaid bills from a prior fiscal year.)

ARTICLE NO. 4: Majority Vote Required

UNANIMOUSLY VOTED to transfer from line item No. 1-65-123-5110, Town Hall Custodial Salaries, the sum of $10,000.00 to line item No. 1-65-226-5430, Town Hall Expenses.

ARTICLE NO. 5: Majority Vote Required

UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $65,000.00 to be added to line Item No. 1-45-216-5307, Legal Services.

ARTICLE NO. 6: Majority Vote Required

UNANIMOUSLY VOTED to transfer from

FREE CASH the sum of $10,000.00 to line item No. 1-77-230-5175, Group Insurance.

ARTICLE NO. 7: Majority Vote Required

UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $25,000.00 to line item No. 1-101-126-5100, Police Salaries.

ARTICLE NO. 8: Majority Vote Required

UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $10,500.00 to line item No. 1-101-235-5210, Police General Expense, and transfer from Police Clerical Salary 1-101-169-5110, the sum of $8,000.00 to line item No. 1-101-235-5210, Police General Expenses.

ARTICLE NO. 9: Majority Vote Required

UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $41,000, to line item No. 1-107,134,5110, Emergency Communication Salaries.

ARTICLE NO. 10: Majority Vote Required

UNANIMOUSLY VOTED to transfer from FREE CASH the sum of $48,000.00 to purchase textbooks for the School Department.

ARTICLE NO. 11: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $5,097.31 from line item No. 1-531-299-5433, Handicapped Ramps; $247.33 from line item No. 1-531-803-6032, Council on Aging Van; and $2,849.42 from line item No. 1-531-804-6704, Repair and Replacement, for Council on Aging Capital to one consolidated Council on Aging Capital line item, for repairs to the Council on Aging building.

ARTICLE NO. 12: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $20,000.00 pursuant to Massachusetts General Laws, Chapter 44B, for the rehabilitation and preservation of historic resources, from the Community Preservation Fund Reserve for Historic Resources, for the purpose of archiving and preserving historic Town documents and memorabilia in possession of the Norwell Historical Society and relocating items to the Sparrell School Building, and exhibiting such items.

ARTICLE NO. 13: Majority Vote Required

UNANIMOUSLY VOTED to transfer from the COMMUNITY PRESERVATION FUND BALANCE the sum of $150,000.00 to acquire by purchase a parcel of land described as Assessors' Block 1, Lot 11, Map 6B, (Prospect Street) consisting of approximately 15.06 acres for Aquifer Protection, potential well field location and/or affordable housing purposes under the Community Preservation Act.

ARTICLE NO. 14: Majority Vote Required

UNANIMOUSLY VOTED to RAISE AND APPROPRIATE the sum of $8,538.00, pursuant to Massachusetts General Laws, Chapter 44B, for recreational purposes from the COMMUNITY PRESERVATION FUND BALANCE for the purchase of Early Childhood Playground equipment at the Vinal School.

ARTICLE NO. 15: Majority Vote Required

UNANIMOUSLY VOTED to establish an EXCLUDED DEBT SERVICE STABILIZATION FUND, pursuant to Massachusetts General Laws, Chapter 40, Section 5B, for the purpose of reserving monies to pay the excluded debt service, and that the sum of $912,276.94 be transferred to said Stabilization Fund from the Reserve for the Reduction of Future Excluded Debt.

ARTICLE NO. 16: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 16.

(To transfer from available funds or otherwise provide a sum of money to be added to the Stabilization Fund…..)

At approximately 8:10 pm, a motion was made and seconded and it was UNANIMOUSLY VOTED to adjourn the Special Town Meeting and to convene the Articles of the Annual Town Meeting.

An explanation of the Budget for fiscal 08 was described with a powerpoint presentation by Richard A. Merritt, Chairman of the Board of Selectmen.

ARTICLE NO. 1: Majority Vote Required

UNANIMOUSLY VOTED to accept the reports of its Officers, Boards, Departments, Committees and Commissions as printed in the 2006 Annual Report.

ARTICLE NO. 2:

Moderator Hughes explained that he would go through all the line items of Article No. 2, one by one reading the department number and the total amount recommended by the Advisory Board. Anyone that wished to question any of these amounts should call out "hold" and when the Moderator has gone through all the line items of Article No. 2 and they are voted one, he will go back and review each of the "held" items. There were three (3) items held: 2-110, Board of Assessors, Clerical Salaries, 2-200, School Department; and Total Debt Exclusion at the very end of Article No. 2.

A motion was made and seconded to vote on all "non-held" items. A majority vote is required. The vote was UNANIMOUS.

Line Item 2-110, Board of Assessors, Clerical Salaries, was held by Edward Dunford, Chairman of the Board of Assessors. He amended the figure of $99,673 to the "FY08 Department" request of $120,449. He stated that he was requesting this figure to replace the part-time position that was cut several years ago. The MAJORITY defeated this amendment. MAJORTITY then voted
$99,673, as printed in the warrant.

2-200, School Department Budget was amended by Peg O'Connor, Chair of the School Committee to $17,590,229, $140,000 more, which they hoped to receive in State Aid. After some discussion, the MAJORITY VOTED for this amended contingency figure, if and when the $140,000 in State Aid was received by the Schools.

Total: Debt Exclusion in the amount of $2,447,488.00 was held because it is the only line item that requires a 2/3 Vote. This line item total was UNANIMOUSLY VOTED.

Before Patrick Haraden, Chairman of the Advisory Board read his motion for Article No. 2, he gave a presentation of the budget process and the money that we have to work with.

ARTICLE NO. 2: Majority Vote Required

UNANIMOUSLY VOTED to RAISE AND APPROPRIATE from available funds the sum of money set forth in the FY2008 Advisory Board Recommends column under Article No. 2, to defray the charges, expenses and salary obligations of the Town, including debt and interest, for the ensuing year, to provide for a Reserve Fund,and to fix salaries and compensation for all Elected Officers of the Town, and to meet said appropriations, transfer the sum of $1,265,785.00 from WATER REVENUES, transfer the sum of $114,000.00 from WATER GRANT, the sum of $285,000.00 from FREE CASH, and the sum of $30,000.00 from the COMMUNITY PRESERVATION FUND REVENUES, and transfer the sum of $500,000.00 from the EXCLUDED DEBT SERVICE STABILIZATION FUND to be used to offset Debt Exclusion Line Items, and transfer the sum of $3,072.00 from the WETLANDS PROTECTION FUND.

ARTICLE NO. 3: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $440,634.00 from OVERLAY SURPLUS for the purpose of purchasing items listed in the "Capital Budget Recommendation" column of Article No. 3, as printed in the Warrant:

Dept. #	Purpose/Agency	Capital Budget Recommend.
65	Town Hall	
	Replace Doors	$ 25,000.00
103	Fire Dept.	
	Command Light	$ 12,500.00
300	Hwy Dept.	
	Backhoe & Loader	$110,000.00
	Truck Dump/Sander & Blade	$140,000.00
301	School Dept.	
	School Safety, Surveillance & Security	$ 85,000.00
531	Council on Aging	
	Van-Handicapped Loading	$ 45,000.00
601	Library	
	Technology Plan	$ 8,034.00
	Heat Exchrs/ (2)	$ 10,000.00
	Carpeting	$ 5,100.00
TOTAL ART. NO. 3:		$440,634.00

ARTICLE NO. 4: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $22,725.00 from FREE CASH and the sum of $2,275.00 from WATER REVENUES to meet obligations for the Compensation Schedule under the Personnel Plan for Fiscal Year 2008; said sum to be apportioned by the Town Accountant to the applicable line items in Article No. 2.

ARTICLE NO. 5: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $30,000.00 from FREE CASH to meet obligations for Union and Personal contracts for Fiscal Year 2008; said sum to be apportioned by the Town Accountant to the applicable line items in Article No. 2

(This article will provide funding for the first year of a three year contract for the Highway/Tree Departments as well as the salary increase for the Town Administrator in FY08.)

ARTICLE NO. 6: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $8,000.00 from FREE CASH to purchase and install four (4) automatic emergency defibrillators (AED's) in Town Buildings and provide training on their use.

(This article will purchase four (4) automatic emergency defibrillators for placement in the TOWN HALL, POLICE DEPARTMENT, CUSHING CENTER, AND THE PUBLIC LIBRARY.)

ARTICLE NO. 7: Majority Vote Required

UNANIMOUSLY VOTED to accept the provisions of Massachusetts General Laws, Chapter 39, Section 23D.

(This is an acceptance of a new section of the General Laws that would allow a member of a regulatory Board or Committee, taking part in a public hearing process, to miss no more than one meeting, to still vote on the matter after they have read the minutes or reviewed the transcript from the meeting, reviewed any evidence presented and certified that they have reviewed all the pertinent documents. Currently the way it is set up, if a member misses one meeting a hearing that can last for more than one year, they are barred from participating in the decision making process.)

ARTICLE NO. 8: Majority Vote Required

UNANIMOUSLY VOTED to accept the provisions of Massachusetts General Laws Chapter 32B, Section 18.

(A technical acceptance by the Town of the section of the General Laws that requires retirees to switch to Medicare for health insurance. This has been the Town's practice but we have never officially adopted the section of the General Laws.)

ARTICLE NO. 9: 2/3 Vote Required

Moderator declared a 2/3 Vote, as there were a few loud dissenters, to accept Article 9 as written in the Warrant, EXCEPT that under Section 1642 (a) the last line as printed shall read "50%" rather than "25%".

(See entire Section 1642 (Article No. 9) of the Norwell Zoning Bylaws which is printed in the Warrant preceding these Minutes.)

ARTICLE NO. 10: Majority Vote Required

MAJORITY VOTED to transfer the sum of $100,000.00 from FREE CASH for technology replacement in the Norwell Public Schools.

ARTICLE NO. 11: Majority Vote Required

MAJORITY VOTED to transfer the sum of $170,000.00 from FREE CASH for repaving the access road/drive for the Library, Tree & Grounds Department, Athletic Fields, Tennis Courts and Norwell High School.

ARTICLE NO. 12: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $200,000.00 from FREE CASH to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways.

ARTICLE NO. 13: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $15,000.00 from FREE CASH to be expended under the direction of the

Highway Surveyor for reprocessing stockpiled construction debris at the Highway Department yard.

ARTICLE NO. 14: 2/3 Vote Required
UNANIMOUSLY VOTED to transfer the sum of $98,800.00 from the STABILIZATION FUND to be expended under the direction of the Highway Surveyor for engineering and ensuing work related purposes of bringing the Highway Department facility into compliance with a Conservation Commission Order of Conditions and EPA/DEP regulations.

ARTICLE NO. 15: Majority Vote Required

UNANIMOUSLY VOTED to appropriate the sum of $342,058.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts, Chapter 291D of the Acts of 2004, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), Work on Highways, to be expended under the direction of the Highway Surveyor, and further to authorize the Treasurer with the approval of the Board of Selectmen to temporarily borrow said sum.

ARTICLE NO. 16: 2/3 Vote Required

UNANIMOUSLY VOTED to accept
Article No. 16 as printed in the Warrant as follows:

To amend Norwell Zoning Bylaw §1650:

§1650 Isolated Lots. Any increase in lot area, frontage, or yard requirements of this Bylaw shall not apply to a legally created lot for single-family (and two-family) residential use in Residential Districts A & B not meeting current requirements, provided that the applicant documents that…..)

ARTICLE NO. 17: 2/3 Vote Required

UNANIMOUSLY VOTED to accept Article No. 17 as printed in the Warrant, as follows:

To amend Norwell Zoning Bylaws §2423 by striking said section and replacing it as follows:

§2423 Storm Water Management System

No part or portion of any lot, which contains any element of a Stormwater Management System, as defined under Article V of this Zoning Bylaw, shall be used toward calculating the minimum lot area required under Zoning Bylaw §2421. This paragraph shall not apply to any of the following:

(i) A building lot lawfully laid out by plan or deed and duly recorded prior to the adoption of the Town's Zoning Bylaw;
(ii) A building lot for single or two-family residential use that is eligible for protection from zoning changes that increase lot area requirements under G.L. c 40A, §6 on the effective date of this paragraph, provided that the lot complied with all applicable lot area requirements at the time of its creation;
(iii) A building lot that is shown on a plan that was duly endorsed, as "Approval Not Required", under G.L. c41, §§81L and 81P prior to the effective date of this paragraph, in which case the predecessor requirements of this paragraph shall apply; or,
(iv) A building lot shown on a definitive subdivision plan duly endorsed by the Planning Board with the words "Approved under the Subdivision Control Law' or words of similar import, pursuant to G.L. c 41, §§81U, prior to the effective date of this paragraph and in which case, the applicable predecessor requirements of this paragraph shall apply; but provided further that this paragraph shall apply to any definitive subdivision submitted to the Planning Board on or after the effective date of this paragraph.

ARTICLE NO. 18: 2/3 Vote Required

UNANIMOUSLY VOTED to accept Article No. 18 as printed in the Warrant which precedes these Minutes in the 2007 Town Report.

To Amend Norwell Zoning Bylaws §3100 by striking said section and replacing it as printed in the Warrant which precedes these Minutes.

3100. Off Street Parking through
3199. Maintenance
(Pages 31 through 37 of the Warrant.)

ARTICLE NO. 19: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $42,000.00 from various years OVERLAY SURPLUS Account to Article No. 19 of the 2004 Annual Town Meeting for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in the Town funded directly by the Town.

ARTICLE NO. 20: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $60,000.00 from OVERLAY SURPLUS account to be expended under the direction of the Board of Assessors for professional and contracted services in order to perform a triennial revaluation of real and personal property in the Town as of January 1, 2008, including any defense of said value and computers.

ARTICLE NO. 21: Majority Vote Required

MAJORITY VOTED to transfer the sum of $40,000.00 from WATER REVENUES to be expended under the direction of the Board of Water Commissioners for the purpose of conducting Hydro-geologic studies, Well Exploration and associated work.

ARTICLE NO. 22: Majority Vote Required

MAJORITY VOTED to transfer from FREE CASH the sum of $14,500.00 for the purpose of restoration of five (5) hours weekly to the Norwell Public Library's operating schedule.

ARTICLE NO. 23: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 23.

(To appropriate $40,000.00 to be expended by the Library Trustees for the purpose of hiring an architect to prepare a schematic design of a new Norwell Public Library.)

ARTICLE NO. 24: Majority Vote Required

MAJORITY VOTED to transfer the sum of $50,000.00 from FREE CASH to be expended by the Permanent Building and Maintenance Committee to work with the Police Department, Norwell Council on Aging, Library Trustees and the Board of Selectmen and related departments to hire an Architect and Civil Engineer to determine future space needs of each department.

ARTICLE NO. 25: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 25.

(To provide the sum of $20,000.00 to perform a feasibility/design study to determine if an addition can be made to the existing Senior Center or whether a new building is required…)

ARTICLE NO. 26: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $10,000.00 from Article No. 4 of the Annual Town Meeting of May, 2006, account No. 1-2-527-6796, to be expended by the Personnel Board to conduct a comprehensive salary survey and review of the Town of Norwell Compensation Schedule.

ARTICLE NO. 27: Majority Vote Required

MAJORITY VOTED to approve the placement of the Water Superintendent's position in Grade 16 of the Personnel Classification and Compensation Plan, and fund it by appropriating the sum of $6,178.00 from WATER REVENUES.

ARTICLE NO. 28: Majority Vote Required

UNANIMOUSLY VOTED to adjust the Personnel Compensation Plan by creating the position of Program Coordinator at the Council on Aging, Grade 8, representing an increase of five (5) hours per week, for a total salary increase of $5,731.00, to be transferred from FREE CASH.

ARTICLE NO. 29: Majority Vote Required

MAJORITY VOTED to accept Article No. 29 as printed in the Warrant except for striking out the reference to "OUTREACH COORDINATOR", as printed below; to meet said appropriation the sum of $4,323.29 be transferred from FREE CASH.

Present Position	Grade	Increase To
Director	G-13	G-15
Part-time Van Dr.	G-5-5	G-6-3
Part-time Van Dr.	G-5-6	G-6-5

ARTICLE NO. 30: Majority Vote Required

UNANIMOUSLY VOTED to amend the Town of Norwell Personnel Bylaw, Section 8, Fringe Benefits, subsection © Sick Leave, by deleting the first five (5) paragraphs of said subsection and replacing it therein with the following new text:

© Sick Leave

Each full-time employee shall accumulate sick leave at the rate of one and one-quarter day for each month of employment (15 days per year). Unused sick leave may be accumulated up to a maximum of two hundred (200) days.

Department heads may, in their discretion, required medical certification of any illness.

Probationary employees are entitled to sick leave after completing at least one (1) month of service.

Part-time employees who work a minimum of twenty (20) hours per week are eligible to accumulate sick leave on a pro-rated basis.

Employees shall be allowed to use up to five
(5) days of accumulated sick leave for illness in their family. The Town may require certification of said illness from a medical provider.

Upon retirement as determined, or death of the employee, using a maximum accumulation of one hundred twenty (120) buy-back days, the Town will buy back all unused sick days accumulated above forty-five (45) days, for a maximum buy-back of seventy-five (75) days. Payment will be made at the current pay scale of the employee at the time of death or retirement. Employees hired on/or after July 1, 2007 shall not be eligible to receive a sick leave buy-back upon retirement.

ARTICLE NO. 31: Majority Vote Required

UNANIMOUSLY VOTED to transfer the sum of $50,000.00 from FREE CASH to be expended under the direction of the Permanent Drainage Study Committee and the Highway Surveyor for engineering,
installation and/or maintenance of Town drainage.

ARTICLE NO. 32: Majority Vote Required

UNANIMOUSLY VOTED to RESCIND

the authorization to BORROW the sum of $7,204,000.00 voted by Article No. 17 of the Annual Town Meeting of May 13, 2003.

(This article removes from the books of the Town the authorization to borrow $7,204,000.00 for the construction of a new water treatment plant.)

ARTICLE NO. 33: Majority Vote Required

MAJORITY VOTED to transfer control of a twenty (20) acre, more or less, parcel of land located at Stetson Meadows from the NORWELL RECREATION COMMISSION to the NORWELL CEMETERY COMMITTEE for the purpose of constructing a new cemetery in a natural woodland park style for family and community members to experience an inviting place for remembrance and contemplation in keeping with an existing ecological function as an open green space and a sanctuary for native plants and wildlife.

As it was 10:40 pm, a motion was made by Moderator Roger Hughes to adjourn until tomorrow evening, same time, same place.
This motion was seconded and it was UNANIMOUSLY VOTED.

TUESDAY, MAY 15, 2007
MINUTES OF THE ANNUAL TOWN MEETING

Moderator, Roger E. Hughes, Jr. called the meeting to order shortly after 7:30 pm on Tuesday, May 15, 2007.

He quickly reviewed the rules of the meeting and went on with the articles.

ARTICLE NO. 34: Majority Vote Required

MAJORITY VOTED to transfer the sum of $75,000.00 from the CEMETERY RESERVE FOR SALE OF LOTS fund for the purpose of designing and laying out a new cemetery at Stetson Meadows in a natural woodland park style for family and community members to experience an inviting place for remembrance and contemplation in keeping with an existing ecological function as an open green space and a sanctuary for native plants and wildlife.

ARTICLE NO. 35: Majority Vote Required
MAJORITY VOTED to transfer the care, custody, management and control of approximately twenty acres shown as Parcel One of the former Donovan Property, from the NORWELL CEMETERY COMMITTEE to the NORWELL RECREATION COMMISSION. Said acreage is approximately shown on the plan by Sitec, Inc. dated December 17, 1996 of the former Donovan Property on the easterly side of Wildcat lane.

ARTICLE NO. 36: Majority Vote Required

UNANIMOUSLY VOTED, subject to approval by the State Legislature of a Home Rule Petition, to increase the limit on maximum qualifying gross receipts, set forth in Massachusetts General Laws, Chapter 59, Section 5, Clause 41A, from $40,000.00 to seventy-five (75%) percent of the Median Family Income, MFI, determined for the Boston, Cambridge, Quincy geographic area and published periodically by the Federal Department of Housing and Urban Development (HUD).

ARTICLE NO. 37: Majority Vote Required

MAJORITY VOTED to authorize the Board of Selectmen to transfer the care, custody and control of six (6) parcels of land on Summer Street, consisting of 8.99 acres known as Block 11, Lots 42 and 43 on Assessors' Maps 4C and 3D and Block 9, Lots 38, 41, 42, and 43 on Assessors' Maps 3D and 8B, to the Conservation Commission.

A motion to re-consider Article No. 33 was made by Barbara Schautz, Stetson Shrine Lane. This motion FAILED TO CARRY.

ARTICLE NO. 38: Majority Vote Required

MAJORITY VOTED to authorize the Board of Selectmen to transfer the care, custody and control of one (1) parcel of land on Mount Blue Street consisting of eight (8.00) acres, known as Block 5, Lot 10, on Assessors Map 2D, to the Conservation Commission. This parcel is within the boundaries of Bound Brook Pond and will serve as surface water supply protection for the Town of Cohasset, FEMA Flood Zone A protection and endangered species habitat preservation.

ARTICLE NO. 39: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 39.

(To provide $27,000.00 to perform engineering studies and evaluation of the Jacobs Pond Dam based upon recommendation in the Phase I inspection report by PARE Corp.....)

A motion was made at this point by Charles Markham, CPC, seconded, and it was UNANIMOUSLY VOTED to discuss Articles 40, 41 and 42 together and to advance Articles Nos. 42 and 41 before Article No. 40.

ARTICLE NO. 40: Majority Vote Required

MAJORITY VOTED to appropriate the sum of $400,000.00 pursuant to Massachusetts General Laws, Chapter 44B, from the Community Preservation Fund Reserve for Affordable Housing, and to appropriate the sum of $100,000.00 from FY2008 Community Preservation Fund revenues for the purpose of establishing a permanent AFFORDABLE HOUSING SHORT TERM LOAN AND BUY DOWN FUND" to be administered by the NORWELL AFFORDABLE HOUSING TRUST.

ARTICLE NO. 41: Majority Vote Required

MAJORITY VOTED to establish the "AFFORDABLE HOUSING TRUST BYLAW" as printed in the Warrant on Pages 46 and 47. The Warrant precedes these Minutes.

ARTICLE NO. 42: Majority Vote Required

MAJORITY VOTED to accept the provisions of Massachusetts General Laws Chapter 44, Section 55C, to establish a NORWELL AFFORDABLE HOUSING TRUST FUND for the purpose of providing for the creation and preservation of affordable housing pursuant to an Affordable Housing Trust Bylaw.

ARTICLE NO. 43: Majority Vote Required

UNANIMOUSLY VOTED to amend Article No. 7 of the Special Town Meeting of May 9, 2005, as amended by Article No. 9 of the
Special Town Meeting of May, 2006, by striking the words "June 30, 2007".

ARTICLE NO. 44: Majority Vote Required

UNANIMOUSLY VOTED to reserve the sum of $35,000.00 from the Community Preservation Fund revenues for the creation, preservation and support of Affordable Housing; to reserve the sum of $135,000.00 from the Community Preservation Fund revenues for the acquisition, preservation, rehabilitation and restoration of Historic resources; and to reserve the sum of $135,000.00 from the Community Preservation Fund revenues for the acquisition, creation and preservation of Open Space.

ARTICLE NO. 45: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 45.

(To designate Church Street, Common Street, Cross Street, Grove Street, Mount Hope Street, Meadow Brook Road, Mill Lane, Oak Street, Parker Street and Summer Street as Scenic Roads.....)

ARTICLE NO. 46: Majority Vote Required
UNANIMOUSLY VOTED to accept the provisions of Massachusetts General Laws Chapter 59, Section 5L, to provide for the deferral of property taxes for members of the Massachusetts national Guard or Reservist of a dependent of a member of

the Massachusetts National Guard or Reservist while that member is on active service outside of the Commonwealth and for one hundred and eighty (180) days following their return to Norwell and civilian life.

ARTICLE NO. 47: Majority Vote Required

YES: 108; NO: 85 MAJORITY VOTED to amend the Town of Norwell Bylaws by adding at the end thereof the following new section:

TOWN OF NORWELL
MOORING BYLAW

As printed in the Warrant on Pages 49, 50 and 51 in the Warrant which precedes these Minutes in the 2007 Annual Town Report.

ARTICLE NO. 48: Majority Vote Required

MAJORITY VOTED to transfer the care, custody, maintenance and control of a parcel of land identified on Assessors' Map 24B, Block 57, Parcel 12, Circuit Street, Norwell, MA, from the Board of Selectmen for the general municipal purposes to the Board of Selectmen for the purpose of sale, and to authorize the Board of Selectmen to sell said parcel to SOUTH SHORE HABITAT FOR HUMANITY, a Massachusetts non-profit 501©3 corporation, and to authorize the Board of Selectmen to accept a grant of restrictive covenant with respect to the said parcel in connection with the development of the parcel for Affordable Housing.

ARTICLE NO. 49: Majority Vote Required

UNANIMOUSLY VOTED to transfer the care, custody, maintenance and control of a parcel of land identified on Assessors' Map
MINUTES OF ANNUAL TOWN MEETING, Tuesday, May 15, 2007

6B, Block 1, Parcel 007, Prospect Street, Norwell, MA, from the Board of Selectmen for the general municipal purposes to the Board of Selectmen for the purpose of sale, and to authorize the Board of Selectmen to sell said parcel to SOUTH SHORE HABITAT FOR HUMANITY, a Massachusetts non-profit 501C3 corporation, and to authorize the Board of Selectmen to accept a grant of restrictive
covenant with respect to the said parcel in connection with the development of the parcel for Affordable Housing.

ARTICLE NO. 50: Majority Vote Required

UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 50.

(A sum from Free Cash to be expended under the direction of the Highway Surveyor for engineering, designing, and installing traffic safety control signage and/or signals at the intersection of Grove and Prospect Streets.)

ARTICLE NO. 51: Majority Vote Required

NORWELL TOWN CLERK

REPORT OF THE BOARD OF REGISTRARS

On October 18, 2007, the population of Norwell was 10,465. The number of residents and voters fluctuates from month to month. As of October 18, 2007, a breakdown of the voters was as follows:

*Democrat	1749
*Green-Rainbow	6
**Inter. 3rd Party	2
**Libertarian	16
*Republican	1502
*Unenrolled	3948
*Working Families	1
GRAND TOTAL	7224

*Political Party
**Political Designation

As a result of the certification of the 2006 State Election "Green-Rainbow" and "Working Families" became Political Parties. Those voters registered in Political
Designations cannot vote in a State or Presidential primary, but they are all set for all other elections.

Those voters who are "Unenrolled" may choose whichever party they would like and remain "Unenrolled". Until recently, if one was "Unenrolled" and voted in a political party, they became a member of that party unless they filled out a "Change of Party" card.

Special Voter Registration hours were held twenty (20) days before the Annual Town Election and for the Annual Town Meeting. Special Voter Registration hours were also held for the Special Town Meeting ten (10) days before the meeting. The Town Clerk's office on those days is open from 8 am until 8 pm.

Many petitions were received and certified for the State as well as nomination papers for the Town election.

305 new voters registered in 2007. For the last few years many more young people have registered to vote and have voted. The Board would like to especially thank Michael Devine, Assistant Principal, Norwell High School, for keeping the students informed of voting requirements and having all those interested in voting fill out a voter registration affidavit.

The requirements for registering to vote in Massachusetts are: one must be a citizen of the United States of America, a resident of the Town, and at least eighteen (18) years of age on or before the next election.

One may register to vote or change one's party affiliation at the Registry of Motor Vehicles or any other State agency. Mail-In registration forms can also be obtained at the Norwell Post Office, the Norwell Public Library, and of course, the Town Clerk's office.

The Board of Registrars and the Town Clerk are always looking for people to work at the polls, especially those residents registered in one of the parties. If you are interested, kindly call the Town Clerk's Office at 781-659-8072/8073. Not only will you be paid an hourly wage (approximately $10/hour) you will receive hot and cold beverages and a snack in the morning; lunch is provided by the School lunch program; and if it is a State Election, supper is provided as well. In the afternoon cold drinks and ice cream are available. Election days are long but the workers enjoy meeting their friends and neighbors.

Respectfully submitted,
BOARD OF REGISTRARS
Regina T. Giordani, Chair

George P. Kelley
David A. Mayers, Jr.
Janice M. Lawson, Clerk

REPORT OF THE BURIAL AGENT

The issuing of Burial Permits is one of the responsibilities of the Town Clerk, who is appointed annually as Burial Agent, by the Board of Selectmen.

A Funeral Director may not bury or make any other disposition of a decedent without a Burial Permit. Therefore, it is a necessity for the Burial Agent to be accessible. The Town Clerk's office is open on Monday and Tuesday from 8 am until 4:15 pm; Wednesday, 8 am until 7:30 pm; Thursday, 8 am until 4 pm; and Friday, 8 am until NOON.

The cost of a Burial Permit is $10.00 and a certified copy of a Death Certificate is $6.00.

Arrangements have been made with the Communication Center at the Norwell Police Station, 40 River Street, for a Funeral Director, or his agent, to obtain a Burial Permit on a holiday or weekend, or after Town Offices close on weekdays, if a satisfactory Death Certificate is received and retained, and a check payable to the Town of Norwell for $10.00 is paid for the Burial Permit.

Respectfully submitted,
Janice M. Lawson
BURIAL AGENT

JURY LIST INFORMATION

Since 1986, Plymouth County towns have been included in the "ONEDAY/ONE TRIAL" jury system.

The names and addresses of ALL residents (not just voters) seventeen years of age and older are provided to the Jury Commissioner through the office of the Secretary of State, with prior permission of the Town Clerk, before June 1 of each year (Chapter 234A, MGL.)

From this Prospective Juror list, which includes dates of births and occupations of all the names included, the Jury Commissioner prepares a randomly selected list by computer of names to be made available for summonsing for juror service to a jury-using court in your judicial district. The presence of one's name on the Prospective Juror List does not necessarily mean that person will be issued a juror summons. However, a person cannot be summonsed as a juror if his or her name does not appear on the Prospective Juror List.

A copy of this list is mailed to the Town Clerk's office, where it is posted for inspection during the latter part of each year. Names on this list are subject to be called for jury duty after January 1st of the next year.

Massachussetts residents can now use a Web site to respond to jury summons. Prospective jurors can confirm their jury service, seek a disqualification or postponement, and even complete a confidential juror questionnaire online: www.massjury.com/juror.

Respectfully submitted,
Janice M. Lawson
Town Clerk

REPORT OF THE SUPERINTENDENT

What will the world be like when today's students leave school? What do our schools need to do today to prepare students for that world? Those two questions are the driving force behind Norwell Public Schools' comprehensive strategic planning initiative: NORWELL 20/20. In June 2007, a twenty-five member Strategic Planning Team of teachers, parents, students, administrators, and community leaders developed a *Working Draft* of the NORWELL 20/20 Strategic Plan. At the heart of this plan is our new Mission Statement:

> *The mission of Norwell Public Schools, in partnership with the entire community, is to provide excellence in education in a challenging and supportive environment resulting in well-rounded, self-reliant, responsible citizens who are prepared to engage in a global society.*

In addition to developing a new Mission Statement, the NORWELL 20/20 Strategic Planning Team revised our core beliefs and then established four very challenging objectives for Norwell Public Schools:

- ❑ By 2011, at least 50% of Norwell households will participate in school-based activities and/or community education programs for life-long learning.
- ❑ By 2012, 100% of Norwell students will demonstrate the knowledge and creativity required to be academically proficient.
- ❑ By 2013, 100% of Norwell students will demonstrate an understanding of current ethical questions and the character traits needed to address them.
- ❑ By 2013, there will be a 30% increase over the 2009 rate of graduating seniors academically prepared and interested in pursuing a post-secondary course of study or career in science and/or engineering.

Eight key strategies for attaining these objectives were then developed. All fall and through the winter, 120 staff members volunteered to serve on 8 Action Teams, one team for each of the 8 strategies. The Action Teams are designing over 100 action plans that will become the driving force of NORWELL 20/20 when adopted by the Norwell School Committee in June, 2008.

As we plan for the future, enrollment growth and increasing class sizes continue to be a major concern. This fall, we admitted over 2300 students to our schools, a 14.5% increase since the 2001-02 school year when we were completing the NORWELL 2001 construction projects and before drastic reductions in state aid to education. This enrollment growth, coupled with inflation and limited budget increases have resulted in larger class sizes. Consequently, we have experienced some declines in test scores which are a cause of concern, as well as increases in the number of students identified as needing special education services. Nonetheless, the Norwell High School Class of 2007, who had benefited from smaller class sizes for much of their education, experienced tremendous success in their college acceptances, setting all-time highs for college attendance plans. 97% of the Class of 2007 are attending four year colleges, and a remarkable 99% are pursuing some form of post-secondary education. It is our hope that through NORWELL 20/20 and with increased funding, we will be able to address the problems created by larger class sizes for upcoming Norwell High School graduates, including the Norwell High School Class of 2020 who began kindergarten this past September.

During 2007, Norwell Public Schools continued to experience leadership changes. Veteran School Committee member Ed Boyle left office after six years of faithful service to Norwell and our students, and School Committee Chair Tom Bigger stepped down to serve Norwell in a different capacity as a member of the

Board for Selectmen. Director of Student Services Ellen Willard also left, retiring after 9 years of dedicated service to Norwell's students, especially those with special needs.

As we look ahead to a new school year and develop plans for the future, thanks go to all those who made 2007 another successful year for Norwell Public Schools and our students. Faculty and staff, parents, students, administrators, and community members have truly formed a partnership maintaining Norwell Public Schools' place as one of the top school systems in the region during 2007.

Respectfully submitted,
Donald J. Beaudette, Ed.D.
Superintendent of Schools

SOUTH SHORE REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

Continuing Excellence – Staying Current with Careers and Technology

As emphasis throughout the Commonwealth increasingly focuses on preparation for the academic, social and economic futures of our students, state and nation, vocational technical education and preparation shines bright. The South Shore Regional School District continues to provide quality career and future educational opportunities for the young adults in the area, specifically the communities in the eight-town district. Key to meeting the school's and job market's expectations is the need to stay current with technical career trends and opportunities. Updating of equipment and instruction in every career field being offered is one of the institution's major commitments.

South Shore continues to respond to the increasing need to combine solid core academic instruction with relevant reference to and coordination with the diverse collection of career pathways available to students. The 2007-2008 school year has witnessed once again maximum enrollment at the school's Hanover campus, with a significant "waiting list" of candidates. Providing for the school's primary career preparation mission has never been more important, as graduates leave high school with marketable and expandable skills. South Shore, however, has also excelled in meeting state and national academic standards and expectations, including those prescribed under MCAS, the Massachusetts Comprehensive Assessment System, No Child Left Behind and the need for Annual Yearly Progress (AYP).

Like many area communities, South Shore has applied to participate in the Commonwealth's School Building Assistance program, targeting critical infrastructure improvements and energy conservation. A new roof in the next few years is imperative, while the district has already begun to address a first of three likely stages of window replacement at the forty-five (45) year old facility. South Shore Vocational Technical High School is the oldest of the state's twenty-six regional vocational technical schools.

The previous reference to MCAS and accountability expectations deserves a bit more commentary. While career program graduates continue to excel in the technical arena as documented by state and national performances and very successful job placement, academic results continue to shine as well. The Class of 2007 witnessed 100% success in achieving the mandated competency determination levels, with the Class of 2008 impressively following suit. First results on the soon to be required for graduation Science portion of MCAS were positive when compared to other vocational school students. Expanded instruction in both Science and Social Studies at South Shore has been initiated, with focus on the state standards in those content areas.

Extracurricular activities and athletics continue to be broadened whenever possible to meet student interest. Newer programs like Volleyball, Golf and Robotics are not only drawing participation but also realizing success. Other, more established teams and activities are thriving as well, headlined by the school's Drama and Peer Leadership programs.

On the technical front, the targeting of a comprehensive pre-engineering program that could encompass components of several existing programs has drawn favorable state and workplace attention. The nation-wide demand for college level engineering students is near crisis level, and opportunities are plentiful. South Shore is exploring ways of potentially consolidating some instructional areas, while expanding others in meeting this set of high level career paths for our students.

Currently Nine students of the total enrollment of 592 are from Norwell. June 2007 celebrated the graduation of Peter Bukuras, Jacqueline Campbell, Robert Guerra, Alex Morena and Saban Poole from Norwell.

Important contributions continue to be made by South Shore's Parents Association, the Vocational Advisory Committees, School Council and the Continuing Education Program, which in addition to providing a wide range of career and self-improvement opportunities helps support the total school program.

All at South Shore would like to thank the eight member towns for the support demonstrated to the school over the years. Many in the community have made frequent mention of a positive changed perspective of the local vocational school in recent years. We appreciate it. Our goal is to teach, prepare and provide for life-long career and learning opportunities for our students and to be partners with parents and all members of the district communities. Thank you for providing us the opportunity to help do that by offering the best learning environment possible.

Respectfully submitted,
Robert L. Molla
Town Representative
South Shore Regional School District Committee

NORWELL PUBLIC LIBRARY

Norwell Public Library enjoyed a very productive year, providing patrons with many new programs, materials and services.

Town meeting voted to restore hours this year, allowing our users access to the collection five more hours per week.

An average of twenty-eight people visited the library per hour totaling 220 visits per day. Circulation was up 5% with 127,454 items checked out. The library offered 17% more adult and children's programs with attendance of 7,338. The library website norwellpublicllibrary.org had 341,188 hits this year. Visit the website for helpful information to assist your recreational and educational interests. The Friends of the Norwell Public Library purchased the Heritage Museum pass in Sandwich in addition to the many passes they continue to offer.

Norwell Public Library provides service to residents who are unable to travel: Volunteer Dale Fenno visits the Norwell Knoll Rehabilitation and Nursing Center each month reading to residents. Louise Painter visits homebound residents bringing DVDs, books, CDs and good cheer.

As the collection grows and residents use the library more frequently, the outdated building with limited space offers a challenging experience. Nevertheless the children's room has adapted its space to make a friendly and useful place for youth in grades 4-6 to research and browse materials, while still providing a spot for little ones to enjoy as well.

Norwell Public Library was one of fourteen libraries to receive an EqualAccess youth services grant in MA. This $5,000 grant helped establish aYouth Library Council, purchase materials, furniture, and program-related equipment to serve needs of youth in grades 4 through 8. This grant is funded by the Institute of Museum and

Library Services and administered by the Massachusetts Board of Library Commissioners. EqualAccess Libraries ™ is an initiative of Libraries for the Future.

A new IMac for teens will be available so that teens can create video and multimedia projects, including websites, photo books, DVDs, songs, slideshows, music CDs, calendars, cards, prints, pod casts, music videos, documentaries, and more. The IMac will have Internet access and will be connected to a color copier.

"Books for Babies" and "Story Time" programs for children 5 and younger and their families, including frequent performances by singer/puppeteer "MamaSteph," were offered throughout the year as were monthly professional performers from storytellers and puppeteers to scientists, magicians, and animal handlers- all generously underwritten by The Friends of the Norwell Public Library.

The library's Summer Reading Program, tapped into the statewide theme "Catch the Beat at Your Library," featuring performances, programs, and workshops for children and teens from the end of June through early August, plus reading raffles and incentives for more than 330 registered participants. Apart from a $550 Local Cultural Council grant received for the Summer Reading Program, all money for performers and incentives was donated to the Library by the Friends of the Norwell Public Library.

Monthly Anime/Manga club meetings were held for youth in grades 7 through 12 for its second year to serve this underserved niche, with 15-20 teens attending regularly.

Dinner and a Movie attracted Independent filmgoers who enjoyed a light dinner, while viewing award-winning films followed by lively discussions.

Norwell Public library celebrated its third Norwell Reads event. This year we read *A Walk in the Woods* by Bill Bryson, a delightful, funny adventure tale of Bryson and Katz as they hiked the Appalachian Trail. NPL's goal was to encourage the citizenry of Norwell to participate in a National reading initiative: One Town, One Book. More than 300 people read the book then took part in related activities. At the program kick-off Norwell "celebrities" read selections from the book. Attendees listened to Steve Paradis, Chief Operations officer of the Appalachian Trail Conservancy talk about the history and upkeep of the trail, and to Mason Zimmer, Manager of Mass. Wildlife talk about wildlife in the woods. Craig Volpe provided a slide show of his Appalachian Trail hike. At the James Library Stuart Twite led a book discussion. Interpretive walks were led by Wes Osborne, Kathryn Mudgett, Deborah Hill, and staff of the South Shore Natural Science Center at the Wes Osborne Trail, Cuffey Hill, and the Science Center. The Public Library
displayed maps of Norwell conservation lands and trails.

The Norwell Reads project was funded by the Friends of the Norwell Public Library, James Library, Norwell Cultural Council, Norwell council on Aging, Image Resolutions. Refreshments for events were provided by Norwell Sociables, Whole Foods and Hannaford Supermarket. The Norwell Reads Committee is composed of Rebecca Freer, Jeanne Ryer, Nancy Perry, Caroline Chapin, Martha Twigg, Samantha Woods, Rosemary O'Connor, Pattie Hainer and Marion Reed. The members are encouraged by the growing success of this program.

The Board of Library Trustees continues to examine ways to expand and renovate the library for the needs of its residents. NPL is sixth on a wait list for state funding through a library construction grant with the Massachusetts Board of Library Commissioners. This 3 million dollar grant would help defray some of the cost for the building project. A new and improved facility will provide space for meetings, an historical room, periodical and study areas, new technology, and an art gallery. Community involvement in the initial processes of the grant application was and continue to be crucial as this project moves forward.

Systems manager Joanne Dirk retired after 31 years of dedicated service. Joanne was responsible for circulation, technology updates to the OCLN system and was the backbone in providing users and staff with technical assistance.

The Norwell Public Library succeeds due to a tireless, creative, and intelligent staff, dedicated Trustees and The Friends of the Norwell Library-- without whom the library would not be able to provide library passes, and programs. We thank the many library volunteers whose work at the library provide books to go, free computer classes (Bruce Burgess), and help behind the scenes to make materials available by covering and labeling books and materials, working outdoors, collecting books for interlibrary loan, photocopying, assisting with programs, and so much more. We thank the residents of Norwell for their continued financial support and patronage.

In conclusion, we look forward to another enjoyable and productive year. Residents are always encouraged to participate and offer suggestions for programs and materials selection. This will be an exciting time for residents to get involved in the library expansion project. Please volunteer your ideas and time; your ideas are important to us.

Respectfully Submitted,
Rebecca Freer
Director

NORWELL POLICE DEPARTMENT

I hereby submit my second annual report to the town as Chief of Police. The year 2007 was one of significant change for the Norwell Police Department. The Department staffing suffered a setback when we lost veteran Officers Gerard Buckley and Officer Christopher Nichols to retirement and Officers Brendan O'Donnell and Paul Coronite to other Law Enforcement positions. The members of the Norwell Police Department would like to thank the officers for there dedicated years of service and wish them well in their future endeavors.

Officer's Bryan Resnick, Michael Fletcher and Jeffrey Johnson graduated from the Weymouth Police Academy in April, completed their Field training with a senior officer and are now assigned to a patrol shift. The department is in the process of hiring four new recruits to bring our staffing to acceptable levels to ensure we provide the level of service that is expected and so that we may continue to run our Community Policing programs. These programs suffer when we are short officers as our primary focus turns to having minimum staffing on the street and answering calls for service.

The Department had 277 arrests, 362 accidents, 587 incidents, 1200 traffic citations and 8600 general calls for service.

We received over $20, 000.00 in grant money. This was used for community policing programs, training for all Emergency Communications Dispatchers on the new 911 system and traffic and drunk driving enforcement.

A new community policing program was initiated called RAD (Rape Aggression Defense) which is only taught to women and focuses on 4 main points: awareness, prevention, risk reduction and risk avoidance. The program was highly successful and is being offered to High School students. Please check our website at www.norwellpolice.com for all programs we offer, including information on sex offenders.

We were also able to purchase new Glock 23 and 27 firearms for all officers. This was of no cost to the Town as it was paid through a grant and also with help from the Norwell Police Association.

Training continues to be a priority in the department. The criminal and motor vehicle laws change frequently and it is imperative that our officers are always up to date. Officers were sent to mountain bike school, drug and narcotic investigations; scenario based shooting trailer, confidential informants, cruiser driving simulator, computer crimes, internet safety and RAD training.

I would like to thank the members of the Norwell Police Department and the Emergency Communications Center for their commitment and professionalism in the performance of their duties. I would also like to thank my Administrative Secretary, Marion Kaskiewicz, for her invaluable job performance. Also, I would like to thank Chief Reardon and the Norwell Fire Department and all the other Town departments for their assistance and support during the year.

Respectfully,
Theodore J. Ross
Chief of Police

EMERGENCY COMMUNICATIONS CENTER

In 2007, the Norwell Emergency Communications Dispatchers handled over 8600 calls for the Police Department, dispatched 2119 incidents for the Fire Department and recorded a total of 2285 permits for open air burning.

In addition to calls for the Police and Fire Departments, dispatchers handle both phone and radio calls 24 hours a day for the Animal Control Officer, Highway Department, Water Department, Tree & Grounds and the Council on Aging.

The Communications Center is staffed with seven (7) fulltime dispatchers and three (3) on call substitute dispatchers. Dispatcher Laura Coyne was able to return to her fulltime position after recovering from a serious illness. Dispatcher Maureen Shirkus was hired to fill a fulltime vacancy.

In August 2007, the E911 State required conversion was completed. This upgrade now allows the dispatcher to map the location of 911 wire line and wire less calls. A state grant from the SETB (State Emergency Telecommunications Board) provided the funding for the two day extensive training that was required to obtain the certification to operate the E911 upgrade.

Thank you to all the dispatchers for their professionalism, commitment and sacrifice. You are the most important link in Public Safety emergencies.

Respectfully Submitted,
Theodore J. Ross
Chief of Police
T. Andrew Reardon
Fire Chief
Laurie Croke
Lead Dispatcher

FIRE & AMBULANCE REPORT

Thank you to the residents and taxpayers for their continued support of the Fire Department.

2007 brought a great deal of change to the Department

On March 15, 2007 Paul W. Rosebach retired as the Chief of Department after serving the town with distinction for 35 years. We wish Paul and his family all the best in his retirement.

Deputy Fire Chief James E. Fitzgerald retired in January 2007 after serving in the call department for 32 years.

Captain Michael D. Henderson retired in July 2007 having served the town for 35 years.

Firefighter Ron Mott retired in November 2007 having served as a call firefighter for 32 years.

We were able to promote two firefighters to the rank of Captain
Captain Kenneth Benting
Captain Shane McMahon

We hired three firefighter / Paramedics to fill open positions
Firefighter / Paramedic Robert Silva
Firefighter / Paramedic Jonathan Healy
Firefighter / Paramedic Jeff Jacobson

We were able to recruit two new call firefighters
Firefighter Alex Morena
Firefighter David Smith

The department took delivery of a new Smeal engine; this vehicle replaced a 19 year old engine and has been a valuable addition to the fleet.

The number of incidents continues to keep pace with years past, demanding that we continue to advance training in numerous areas so that the department can continue to provide a high quality service.

Total incidents 2007	-	2115
Fires	-	73
Building Fires	-	14
Brush Fires	-	17
EMS Calls	-	1143

Hazardous Conditions	-	246
Service Calls	-	298
Mutual Aid / Coverage	-	18
Good Intent Calls	-	129
False Alarm	-	205

Currently we depend on out of town mutual aid for approximately ten percent of our ambulance transports, this number will likely continue to increase as demands for service increase.

The department continues to have a very progressive fire prevention / code enforcement program, which includes our public education projects.

Norwell is fortunate to have the caliber of personnel working in the Norwell Fire Department; both full-time and on-call, they have been a great assistance during a transition year and are always willing to take on another challenge.

I would be remiss if I didn't thank Mrs. Laurie Davis for her work as administrative assistant, her contributions are immeasurable.

I want to extend my sincere appreciation to the Norwell Police Department and the Emergency Communications Center; their continued support throughout the year is invaluable.

Respectfully submitted;
T. Andrew Reardon, Chief of Department

HIGHWAY DEPARTMENT

The winter season of 06-07, while considered light by meteorological standards, was enough to send out the sanders 35 times and deploy the plows 3 times. A total of 26" of snow was recorded.

Spring cleanup consisted of sweeping the streets of sand & debris, straightening & repairing street signs along with broken asphalt.

During the summer months, routine maintenance was performed throughout town repairing and rebuilding catch basins & manholes that are an integral part to the town's drainage system, prepping and paving areas of damaged asphalt including water service repairs, spreading loam and seeding, along the shoulders of newly resurfaced roadways which included Hall Drive, Old Pottery Lane, Germaine Road, & John Neil Drive.

In mid August, the Highway Department assisted the School Department by working with Aggregate Industries to resurface the High School driveway. 2,086.5 tons of asphalt was used at a cost of $114, 725.00. This project was not only necessary for the safety & ride ability of the High School access road, but enhance the school building project that much more.

After the resurfacing project at the High School was complete, the Highway Department worked in conjunction with the Tree & Grounds Department loaming & hydro-seeding the shoulder areas. The seeding was done with the hydro-seeder that was donated to the Town by the Norwell Soccer League. This piece of equipment can be used by this Department and the Tree & Grounds Department throughout Town and on athletic fields. The Department is very grateful for this donation.

In late August, prep work began for roadway resurfacing. This involves the raising of structures (catch basins & manholes) and cutting keyways. Roads resurfaced this year included Stetson Shrine Lane, Prospect Street (from Grove Street to Hingham line) Jacobs Trail, Wendall Ave., Prouty Ave., Duncan Drive, Douglas Ave., Leigh Road, Brantwood Road, Knollwood Ave., Myers Ave., and Beers Ave. Resurfacing work for the 2007 season ended on November 1, 2007 and will resume in the Spring of 2008.

November brings us back once again into the snow season where all equipment is gone over to prepare for snow & ice removal. Plows are inspected and sanders installed to get us through another season.

I would like to thank the Highway Department personnel Chris Cowden (Foreman), Steve MacInnis, Mark Allegra (who retired from the Town in August), James Murphy, Harold Tuttle, Frank Cunning, Linda Murphy, and part-time Summer Help employee, Sam Portnow. Thanks to the Contractors that assist in making the Town's roadways as safe as possible for the public, and to the many Boards, Committees, Commissions and Department Heads for their continued assistance and co-operation throughout the year.

Respectfully submitted,
Paul M. Foulsham, Highway Surveyor

DEPARTMENT OF LAND AND NATURAL RESOURCES

The Tree & Grounds Department handled 20 burials and 9 cremations at the Washington Street Cemetery along with maintaining the trees and lawn on a weekly basis from March to November including trash pick-up, fertilizing & seeding cemetery lots and leaf clean-up.

Throughout the year 48 days were dedicated to removal/pick-up, chipping or clearing trees and/or branches from high winds or rainstorms. 31 days flailing, cutting back corners and trimming around road signs.

The Department contracted R. A. Gill Crane & Bucket Truck Company on 18 different occasions to remove 147 dead/diseased trees and trimmed 142 trees. Stump grinding was contracted with Glynn Tree Service for the grinding of 25 stumps.

80 plus acres of grass is mowed on a daily basis throughout the Spring & Fall and as needed throughout the Summer. Athletic field and public grounds maintenance consisted of the application of 27,000 pounds of fertilizer and chemicals throughout Town. All School Department athletic fields were prepped with the laying out and line marking on a weekly or on an as need basis for the Spring and Fall sporting activities such as Baseball and Softball fields, Track, Lacrosse, Soccer fields, Field Hockey and Football fields. Benches and field equipment was re-built, repaired and re-painted for the athletic fields.

During the winter months, the Tree Department was called upon 35 times to assist the Highway Department in the snow removal/sanding operations. When not engaged by the Highway Department during these months, time is utilized in maintaining department vehicles and power equipment to insure its continued reliability.

In closing I would like to thank the Tree Department crew, Mark Smith (Tree Department Foreman), George Brazil, Phil McKinnon, Phil Murray, Frank Cunning, and part-time summer help employee Christian Comeau for their professional and dedicated work. I also want to thank the many Boards, Committee's and Commission's for their continued dedication and contributions to the Town of Norwell.

Respectfully submitted,
Paul M. Foulsham, Director of Lands & Natural Resources
Mark Smith, Department of Lands & Natural Resources Foreman

NORWELL CEMETERY COMMITTEE

During the calendar year 2007 there were 20 full burials and 9 cremation burials for a total of 29 burials recorded at Washington Street Cemetery. A total of 51 lots were sold. The sum of $41,600.00 was turned in to the Treasurer/Collector, $27,500.00 from the sale of lots and $14,100.00 from labor done by the Tree and Grounds Department.

In our attempt to keep the cemetery well maintained, we have continued with much needed work, in spite of the lack of any permanent worker at the cemetery. A large diseased tree was removed from the front of the cemetery by Gill Tree Service. Other trees were trimmed. Over thirty over grown shrubs were removed while the rest were trimmed. The grass was fertilized and some areas hydro-seeded. Treatment for crab grass and grubs was also applied.

The Tree and Grounds Department continues to do an excellent job cutting and trimming the grass. They also handle the digging of the graves. Other things must be left undone because of the time constraints on the Tree and Grounds Department. However, we wish to publicly thank them for the great job they do at the cemetery all year long.

We are continuing to work on the new cemetery at Stetson Meadows. We have a concept plan that we are working on and hope to proceed further during this year. If all goes well, we hope to soon have a finished plan to show to the voters for their approval. If you have suggestions for the new cemetery, please contact any of the committee members listed below.

Cemetery lots may be purchased by town residents only. If you plan to move out of town but wish to be buried here, please purchase your lots while you are still a resident of Norwell. Lots are available for $510.00 each. For more information call the Town Clerk's office. You will then be referred to the chairman of the Cemetery Committee.

Respectfully submitted,
Gertrude H. Daneau, Chairman
Mary C. Lizotte, Secretary
Theodore H. Baldwin
Joanne Molla Goldman
Francis J.Nagle

PERMANENT BUILDING AND MAINTENANCE COMMITTEE

The Permanent Building and Maintenance Committee continued to work with the Police Department, Norwell Council on Aging, Library Commissioners, Town Hall Administration and the board of Selectmen to determine future space needs and select permanent sites. The committee selected various engineering firms to research potential property survey, civil engineering, septic and wetland concerns and prepare site reports at selected sites. If possible, within the current budget the PBMC will initiate development of conceptual plans on selected sites. These conceptual plans will be used to address the public at Future Town Meetings.

The board completed its rehabilitation program at the Sparrell building with final exterior repairs including rear drainage repair and various tank removals.

Working with the Town Hall Administration, the PBMC, continued minor renovations and improvements to the Town Hall including painting and resealing windows of Osborne Room/Selectmen's meeting room.

Respectfully submitted,
Glenn Ferguson, Chairman
Bob Neely
Don Messinger
Eileen Kelley
Fred Hays
George Williams
Lee McKenney

WATER COMMISSIONERS

During calendar 2007 the Water Department was pleased to serve 3,481 residential, commercial, municipal and industrial accounts. The increase of only12 accounts from the previous year represents the fewest number of new accounts added to the system in the 60 year history of Norwell's public water supply. The Department conducted over 550 service calls during the year. These consisted mostly of installing new metering equipment and service valves, marking underground utilities, and responding to customer inquiries regarding quality or water pressure issues. There were 43 water related road openings in 2007 to repair water services, install new water services, renew hydrants, repair water main breaks and make other necessary repairs to the distribution system. The total volume of water pumped from our ten groundwater sources was 385 million gallons with an average daily withdrawal of 1.06 million gallons. In 2006 the total was 373 million gallons. Our maximum day withdrawal occurred on July 2, 2007, with 2.2 million gallons delivered to residents.

Water restrictions were implemented in early July, requiring citizens to reduce outdoor use of water. Low rainfall throughout the summer months resulted in near drought conditions for Norwell and surrounding communities, with corresponding low groundwater levels. At first compliance was excellent, but as the summer progressed with little rain, many people began to ignore the restrictions and by the end of August we were having trouble keeping our storage tanks full, at a time when forest fire danger was at its worst. The first week of September, using the Plymouth County Sheriff's "Reverse 911" emergency call system, all residents were told simultaneously by phone to curtail use of outdoor water. This was enormously successful. The first day, pumping was reduced by 30%, and remained in check for the rest of the season.

Recognizing and managing goundwater resources as finite and exhaustible has taken on a new priority at the state level. We withdraw goundwater under permits issued by the Department of Environmental Protection. These were recently reissued containing new performance standards and directives for improved management of drinking water resources. If Norwell cannot meet these new standards, while supporting new growth, strict conservation measures and a prioritization of use will need to be employed on a community wide basis. Further, there is legislation proposed that could limit our summer consumption, and if passed there would be little water available for lawn watering.

The Department is making every effort to meet these performance standards now. By imposing water restrictions when necessary, the Department seeks to maintain sustainable goundwater levels. This ensures the availability of water not only essential for public use but also the viability of ecosystems dependent on that same water. Improving efficiency and recovering lost capacity from existing goundwater wells, as we are endeavoring to do through the renewal of the Washington Street well field, results in more water being available at a lower cost. That stated, the uses may need to be more finely managed in the future.

A 2.68 million dollar bond was retired this year, borrowed for water treatment facilities put into service during 1996. The total project cost was 3.82 million dollars with 1.14 million dollars of the construction cost offset by a grant obtained through the DEP State Revolving Fund.

Financial numbers for our operations can be found under the reports of the Treasurer and Town Accountant.

Christopher Wilson, meter reader/clerk, accepted a position with the town of Hanson as a Water System Mechanic. We welcome John McGloin who joined the Department as his replacement.

We would like to take this opportunity to thank Water Superintendent John McInnis, Distribution Foreman Steven Gatanti, Treatment Plant Operator Marc Spinella, Water System Mechanics Scott O'Keefe and Rick Mosca, Administrative Secretary Theresa Graham, and Meter Reader John McGloin, for their fine dedication and their superb ability to communicate and address issues with water customers, contractors, consultants, and Town officials.

We would also like to thank all the other Town Boards, Commissions, and Committees who have offered their cooperation, guidance and support during the past year.

Respectively submitted,
Board of Water Commissioners
Steven Ivas, Chairman
Frederick St. Ours
Peter Dillon

BOARD OF HEALTH

Slower housing sales have reduced the past focus of the Board on septic system repairs and new construction allowing us to focus on other health related issues, although the Board now handles many issues that formerly went to Mass. Dept. of Environmental Protection approval.

State and federal Emergency Preparedness requirements were a main focus for the Board of Health. We have been major participants in exercises and drills in the Region 4B Health Cooperative, including monthly meetings.

The Board also evaluated the local massage regulations in light of changing trends in the industry and new state requirements.

Ample flu vaccine resulted in several routine clinics. The Board would like to express as always its appreciation for another great year of nursing service provided by the VNA and looks forward to a healthy 2008.

The South Shore Tobacco Collaborative (SSTC) compliance checks targeting merchant sales to minors are still conducted and the Board is pleased that the vast majority of Norwell merchants are strictly adhering to the local and state laws regarding sales of tobacco products to minors. The Board would like to commend the SSTC for a job well done.

The trash contractor, Mike DelPrete & Sons from Rockland has continued to perform well and the Board looks forward to another smooth year of trash collection.

The Board would like to extend its appreciation to its hard working full time staff consisting of Health Agent Brian Flynn, a Registered Sanitarian and Administrative Assistant Pat Cummings. Special thanks go out to long time alternate Health Agent Jim Jenkins, a Registered Professional Engineer, Bob Griffin, Food Inspector and certified Health Officer and Ralph Cole a Registered Professional Land Surveyor for another year of excellent service to the Town of Norwell.

Appreciation goes out to all Boards, Commissions, Department Heads and the citizens of the Town of Norwell.

HEALTH DEPARTMENT ACTIVITIES:

Complaints	105
Swimming Pool/Jacuzzi Inspections	7
Percolation Tests/Groundwater Observations	92
Plan Review (Septic, Planning, ZBA	185
Restaurant/Food Service Inspections	120
School Inspections	4
Municipal Building Inspections	2

Rubbish Waste Hauler Permit	5
Well Installation Permit	8

A total of $93,789.75 for permits, fees, etc. was turned into the Treasurer/Collector. This also includes monthly fees for two (2) Mobile Home Park spaces.

Respectfully submitted,
Peter M. Dillon, Chairman
John O. Litchfield
Arthur J. Bowman, M.D.

COUNCIL ON AGING

The Council on Aging has existed as a town department, by way of unanimous vote, since the 1964 Annual Town Meeting. Its main function remains the same today as it did 41 years ago. This is to provide information, advocacy and resources to the older adults of Norwell. It continues to be the community focal point for services

and programs that can assist, support and supplement the concerns and needs of our residents, their families and friends.

The primary responsibilities of the Council on Aging focus on five pertinent areas; Information and referral, advocacy, outreach, transportation and education. During 2007, the Council on Aging met these responsibilities by the development and implementation of programs and services both at the COA Center and in cooperation with numerous community agencies and organizations. At the end of the 2007 fiscal year, we provided services and/or programs to over 719 individuals with 29,925 units of service given via the aging network and support system.

In addition, a new part-time Program Coordinator position was added to help develop and administer programs. This position is also responsible for writing the bi-monthly newsletter, handling all aspects of Council on Aging publicity and computers.

In 2006, the Baby Boomer population began to turn 60. Based on town census information from June 1, 2007, the current population of individuals aged 60 and over is 2,100 and those aged 50 to 59 is 1,495. If the trend continues, we project that this segment of our population will increase by 70% in the next 10 years. To ensure the appropriate programs and services are provided to these individuals Council on Aging will need to redefine its goals. With this in mind, a survey was conducted with a sample population in the Fall of 2007. As of this writing, the full results are not yet available. One common issue identified however, is the need for a larger facility. At Town Meeting in May 2007, funds were appropriated for a feasibility study, which includes the Council on Aging. We are working with the Permanent Building Maintenance Committee, as well as other town departments, to explore alternatives to help plan for the future.

The **Outreach Program** continues to be one of our top priority programs. Outreach works with those older adults who may need support with fuel assistance, transportation, housing concerns, telephone reassurance or may be in an "at-risk" situation. The Outreach Coordinator works with families, caregivers, agencies and local resources to insure all is being done to assist and support the older individual within their home.

Volunteers continue to be the backbone of our department. In 2007, we were fortunate to receive over 7,725 hours in volunteer service from over 85 different individuals. Examples of this dedication and commitment include; providing medical transportation; program instruction and support; assisting in the office; and delivering meals to home-bound elders. This dedication from so many has saved the community over $109,500 this year.

Transportation is another responsibility and necessary asset to our operation. In 2007, we provided over 35 hours of transportation services weekly, encompassing over 6,849 trips during the year. Special transportation services are also available for medical appointments that cannot be served through the Council on Aging van. This includes a network of volunteer drivers, as well as a transportation grant program that allows us to provide appropriate transportation into Boston and other medical facilities outside the South Shore area. This is funded via competitive grants through the Older Americans' Act, the Executive Office of Elder Affairs and South Shore Elder Services.

SHINE (Solving Health Insurance Needs of Elders)
The Council on Aging has been fortunate to have an outstanding SHINE volunteer available to help address the health insurance needs of elders. 2007, in particular has posed many insurance obstacles for elders with the offering of Medicare Part D. The Council on Aging, in conjunction with the SHINE program, has offered a number of educational seminars, as well as one-on-one counseling.

In addition to the above core services, the Council has developed special programs such as the **Senior Work Program**. Now in its 9th year, the program allows eligible residents to volunteer their time and efforts within a municipal department for a property tax credit up to $750. The program not only helps the older resident, but the participating department with their workload. In 2007, 56 residents and over 18 commissions and departments

worked together on the program, for a total of 4,888 hours and estimated saving to the community of $12,222. The Council thanks all those involved with this successful program

During 2007, we continued to foster our long-time relationship with the Cole School with the introduction of an intergenerational Pen Pal Program. Norwell seniors were matched with students in Mrs. Linda Joy's 3rd grade class. Over a six week period the pen pals corresponded with one another. The program then wrapped up with a luncheon at the senior center, with the students in attendance. The Students later invited their pen pals to attend a picnic at the school. The program was success an incredible success that we hope to continue it each year. The Council on Aging also continued to partner with the Norwell High School Community Service project. Through this project, students helped several seniors with projects within their home, as well as here at the senior center. We also thank the various Boy and Girl Scout Troops that provided services throughout the year. We appreciate any opportunity to foster intergenerational relationships.

We would also like to take this opportunity to thank all of the volunteers who are the mainstay of operations; the "Friends of the Norwell Council on Aging" for their program and financial support; the support and dedication of our staff; other Town Departments and the residents of Norwell.

Respectfully Submitted,
Ann Horrigan, Chairperson

CUSHING CENTER

The Board of Directors of the Cushing Center are pleased to submit our report of activities for 2007 for the residents to review. Let's start right of with the good news: this year the Cushing Center experienced our most profitable year to date. After all our expenses have been paid, we were still able to return to the town coffers over $10,000.00! There are several reasons for this great news. Our Executive Director, Mary Lou O'Leary has worked very hard to expand the market for use of the Cushing Center. We have always been pretty busy with weddings, and functions and that will continue to improve as word gets around that we now have air conditioning for those hot summer months. What Mary Lou has done is market the building for a variety of uses during weekdays and Sundays. We are now renting the hall every Sunday, and many weekdays for all kinds of innovative uses. Have any of you recognized the Cushing Hall as the backdrop for a commercial for a local appliance retailer? The other help to our bottom line has been the installation of the new HVAC system. The new gas fired heat is so much more efficient than our old boiler. We have realized immediate savings on our energy consumption and expenses.

A recap of our revenues and expenses is as follows:

REVENUES:	Office and Hall rentals	$ 57,954.18
EXPENCES:	Payroll and Operating costs	$ 47,314.82
		BALANCE $ 10,639.36

NET PROFIT TO NORWELL $ 10,639.36

We have completed the HVAC work that was voted in 2006. We expect to have the windows restored, and new storm windows added early this spring. The outside trim of the building will still need to be painted. That is going to be a big project, and we're working on it.

We were able to complete several other maintenance items in 2007, some immediately recognizable, and some not so. We have repainted most all of the interior woodwork, both in the main hall, and the foyer area. We try to do a little painting every year to keep the Cushing looking fresh and presentable. We had a new sign installed at the front of the building to mark the Cushing Center and its tenants. The old sign was 20 years old and looked it. The work we did that was not so noticeable were repairs to the elevator. The elevator is critical to maintaining accessibility throughout the building. Over the last few years it has become increasingly temperamental, usually breaking down minutes before one important function or another. Over the last year we have learned quite a bit about elevators, and the elevator industry. We now have developed a good working relationship with a service company that has been able to properly diagnose, and make the necessary repairs so that we once again have a safe, reliable machine to provide access to all areas of the Cushing. Fortunately when the Cushing building was donated to Norwell, a fund was bequeathed as well to assist with maintenance and upkeep. It is through these funds that we are able to complete these smaller repairs without impacting the general funds of Norwell.

Looking ahead, we will be working on getting the exterior trim, and cupola painted and repaired. We are also beginning to plan for repaving of the parking area at the rear of the building. The paving out there is about 40 years old and crumbling. There is a small group of trees that are either dead, or dying providing some green space in the parking area. We hope to come up with a layout that would improve the functionality of the space we have, as well as the look of that area as a whole. Currently the space provides parking for the Cushing, and additional off-street parking for the business in the Center as well as access to the rear of the Fire Station.

As always, the success of the Cushing Center is attributable to the fine work of our staff; Mary Lou O'Leary, Patrick MacKenna and Diane Townsend. We would also like to thank the various officials, committees and board members whose guidance and insight have been invaluable.

For the Board of Directors
Jef Fitzgerald

METROPOLITAN AREA PLANNING COUNCIL

Created in 1963, the Metropolitan Area Planning Council (MAPC) promotes inter-local cooperation and advocates for smart growth by working closely with cities and towns, state and federal agencies, non-profit institutions, and community-based organizations in the 101 cities and towns of Metropolitan Boston. MAPC strives to provide leadership on emerging issues of regional significance by conducting research, building coalitions, and acting as a regional forum for action.

MAPC provides technical assistance and specialized services in land use planning, water resources management, transportation, housing, environmental protection, economic development, public safety, geographic information systems (GIS), collective purchasing, data analysis and research, legislative and regulatory policy, and the facilitation and support of inter-local partnerships. More information is available at www.mapc.org.

MAPC is governed by 101 municipal government appointees, 21 gubernatorial appointees, and 13 appointees of state and City of Boston agencies. An Executive Committee comprising 25 elected members oversees agency operations. The agency employs approximately 40 professional staff under the leadership of an executive director. Funding for MAPC activities is derived from governmental contracts and foundation grants, and a per-capita assessment on member municipalities.

To better serve the people who live and work in Metro Boston, MAPC has divided the region into eight subregions. Each subregion is overseen by a council of local leaders and stakeholders, and a staff coordinator provides organizational and technical staff support.

Advancing Smart Growth

MAPC's **MetroFuture: Making a Greater Boston Region** initiative is planning for Metro Boston's growth and development through 2030. In 2007, the project involved nearly **1,000 people** (on top of the 4,000 who participated in previous years). MAPC presented the MetroFuture plan at a

May 1 Boston College Citizen Seminar, where participants overwhelmingly voted to ratify it and work for its implementation. MAPC is now developing an implementation strategy, addressing public policy, public funding priorities, and changes in practice within the private sector. By mid-2008, MetroFuture will transition from a planning initiative to an advocacy program, uniting the efforts of MAPC, partner organizations, and the thousands of "plan-builders" in an effort to alter regional priorities and growth patterns consistent with the new plan.

As a member of the **Massachusetts Smart Growth Alliance**, MAPC helped form the Transportation Investment Coalition. This group of business, environmental, public interest, and planning organizations is pressing for savings, efficiencies, and new revenues to address the state transportation finance deficit. The Alliance joined with others to advocate successfully for an increase in the Commonwealth's Bond Cap, increasing the resources available to address the state's capital needs. Through the Alliance, MAPC is also working to reform the state's arcane zoning laws through a new and diverse commission, chaired by Undersecretary for Economic Development Gregory Bialecki.

MAPC provides planning assistance and expertise to communities on a wide range of issues, helping them envision the future and evaluate alternatives within a smart-growth framework. Residents of Malden are taking a long-range look at their city through the **Malden Vision Project**, which kicked off last year with a city-wide visioning workshop attended by 250 participants. MAPC helped the town of Arlington deal with **housing and economic development** issues with a visioning workshop and resident survey, and helped develop new bylaws and other strategies. MAPC also assisted Walpole and Norfolk in developing and analyzing **alternative growth scenarios** along a shared stretch of Route 1A.

Working with the 495/MetroWest Corridor Partnership, MAPC produced a **WaterSmart Indicators report** that details trends in water supply, wastewater, and stormwater for each city and town in the study area. MAPC also completed **water resource strategies** for three towns in the Assabet Watershed to evaluate the environmental impacts of alternative growth patterns, relying in part on hydrologic modeling conducted by the U.S. Geological Survey.

Collaboration for Excellence in Local Government

Through its **Metro Mayors Coalition**, MAPC helped 21 communities secure over $2 million in **Shannon Grant funding** over the past two years to implement multi-jurisdictional, multi-disciplinary strategies to combat youth violence, gang violence, and substance abuse. In 2007, Gov. Deval Patrick and more than 240 mayors, police chiefs, safety officials and violence prevention workers participated in the coalition's third annual Community Safety Summit to advance strategies to curb youth violence. Through its newly created North Shore Coalition, MAPC is facilitating discussions to develop a regional, comprehensive mutual aid system.

Cities and towns now have the option of joining the Massachusetts Group Insurance Commission (GIC) with a new law drafted by MAPC and the **Municipal Health Insurance Working Group**. This option will help communities save millions of dollars each year by taking advantage of lower insurance rates available through the GIC. MAPC facilitated the Working Group and helped to build consensus for the proposal. We are now providing technical support to cities, towns, and regional entities who are interested in joining the GIC.

MAPC has convened Boston, Chelsea, Everett, Malden, Medford and Somerville to develop a shared strategy for the **Mystic River corridor**. The river, which runs through dense urban communities, has long been an underutilized asset. The communities will develop a comprehensive picture of activities along the river and will seek to build a shared strategy for future development and use of the waterway.

MAPC collaborated with the Commonwealth's 12 other regional planning agencies, municipal officials and other local leaders to help produce **"A Best Practices Model for Streamlined Local Permitting."** The result of dozens of focus groups and a statewide permitting survey, the document provides an array of recommendations that municipalities can consider to create a more clear, efficient and predictable permitting process without compromising local standards of development review. The guide is available at www.mass.gov/mpro.

Collaboration for Public Safety

MAPC performs fiduciary, planning, and project management duties for the **Northeast Homeland Security Regional Advisory Council** (NERAC), a network of 85 cities and towns north and west of Boston. In 2007, MAPC helped to develop the School Threat Assessment Response System (STARS), an emergency planning toolkit for each school district in the region. With the assistance of MAPC, NERAC provided portable radios programmed for the Boston Area Police Emergency Radio Network, enabling real-time radio communications among police, fire, and other first responders during major emergencies. In the past year, NERAC established an online information clearinghouse for police and fire departments, and began planning for emergency evacuations from a regional perspective. MAPC also helped NERAC to set up three regional crime mapping centers that use GIS to visualize crime data through maps.

MAPC completed **Pre-Disaster Mitigation (PDM) plans** for nine communities in 2007, on top of the 20 completed in recent years. Each plan includes an inventory of critical facilities and infrastructure, a vulnerability analysis, and a mitigation strategy with recommended actions. MAPC will continue working with 46 cities and towns in 2008.

Collaboration for Municipal Savings

MAPC's **Regional Purchasing Consortia** administered six procurements for 42 cities and towns, saving communities up to 20% on purchases such as office supplies, paving services, and road maintenance. Similar savings were realized by the 300 agencies that participate in the **Greater Boston Police Council (GBPC)**, which is administered by MAPC. In fiscal year 2007, MAPC conducted seven procurements for various types of vehicles, including police cruisers and heavy-duty trucks. Overall, 187 municipalities purchased 329 vehicles at an estimated cost of over $20 million.

Reliable Data, Available to All

Since its official launch in February, MAPC's **MetroBoston Data Common** online data and mapping tool has been used by dozens of constituents to create customized maps for developing grant applications, analyzing development proposals, or improving services. You can create maps, charts, and graphs on the Data Common by accessing www.metrobostondatacommon.org. In addition to supporting this online tool, the Metro Data Center at MAPC responds to **data requests** from member communities, non-profit organizations, businesses, residents, students and other state agencies.

In the past year, MAPC used **visualization tools** that combine GIS technology, photography and graphic design to help increase community awareness about proposed zoning bylaws in Bellingham and Dedham, and to illustrate what different parts of the region would look like under **MetroFuture**.

Charting a Course to Regional Prosperity

MAPC developed its annual **Comprehensive Economic Development Strategy** (CEDS) for the region, in partnership with the US Economic Development Administration. The report contains an analysis of trends and conditions in the regional economy, highlighting challenges and opportunities. The economic analysis in the CEDS is targeted to front-line economic
development staff working in the public and community-based sectors.

Working for 12 contiguous urban communities in the Metro Mayors Coalition, MAPC is developing an **inventory of potential development** sites near municipal boundaries to support coordinated planning. MAPC also developed the **Smart Workplace Project**, a GIS map of smart-growth friendly sites for commercial and industrial development throughout the region. In collaboration with the University of Massachusetts Boston, MAPC is taking a regional look at the **space needs of the life sciences industry**.

Working with the Immigrant Learning Center and the Commonwealth Corporation, MAPC convened academic, institutional and non-profit researchers to develop an **immigration research agenda**.

Getting Around the Region

MAPC produced a **Regional Bicycle Plan**, assessing current conditions and identifying the improvements necessary to create a more comprehensive regional bicycle transportation system. The plan establishes updated goals based on previous plans, and identifies key strategies and priority projects.

Under its new **Regional Bike Parking Program**, MAPC negotiated discount group purchasing contracts with three leading vendors of bicycle parking equipment. This allows MAPC municipalities and other public entities to purchase discounted equipment and, in some cases, to receive state or federal reimbursement for the cost. Communities around the region have used the program to put new racks at schools, libraries, parks, and shopping areas. The program will continue in 2008.

In 2007 MAPC also began work on the **Regional Pedestrian Plan**. This plan will identify policies to make walking a convenient, safe, and practical form of transportation throughout the region. Proposed solutions will include best practices for local jurisdictions as well as steps that could be taken by the state or by the Metropolitan Planning Organization.

MAPC has developed a web-based **Parking Toolkit** that addresses common parking issues. Cities and towns can learn how to do a parking study, how to reduce parking demand and manage supply, how to make use of existing parking, and how to finance parking improvements. The Parking Toolkit is the first in a series of Sustainable Transportation Toolkit products that MAPC will develop over the coming years. Visit http://transtoolkit.mapc.org to access these tools.

Large portions of Massachusetts Avenue and Route 2A from Arlington to Concord are now a **Massachusetts Scenic Byway**, due to the efforts of MAPC, the Minuteman National Historic Park, and the towns of Arlington, Lexington, Lincoln, and Concord. MAPC is now preparing a Scenic Byway Corridor Management Plan, the first step in protecting the historic, scenic, and
cultural qualities of the byway.

In 2007, MAPC worked with developers and communities to evaluate the transportation impacts of dozens of projects, including the South Weymouth Naval Air Station redevelopment (SouthField), Westwood Station, and Harvard University's new Allston campus.

On Beacon Hill

- **Municipal Health Insurance:**
  MAPC and the Municipal Health Insurance Working Group built consensus and drafted the new law allowing cities and towns to save millions of dollars each year by joining the Group Insurance Commission.
- **Shannon Community Safety Initiative:**
  Over the last two years, MAPC's advocacy and grant development services have helped nearly two dozen communities to secure over $2 million in funding for interdisciplinary programs that focus on youth violence, drugs, and enforcement against gangs.
- **Statewide Population Estimates Program:**
  A $600,000 line item in the 2008 budget will provide the State Estimates Program with more resources to prepare for the 2010 Census. This program will help correct the deficiencies of recent population estimates and to prevent similar deficiencies from occurring in 2010.
- **Surplus Land:**
  MAPC continues to advocate for passage of a new policy on the disposition of surplus state land. Specifically, we continue to build support for our proposal that encourages smart growth development on surplus land while giving municipalities a meaningful role throughout the disposition process.
- **Community Preservation Act:**
  In 2007, the Metropolitan Mayors Coalition and Community Preservation Coalition reached consensus around legislation to help more communities participate in the Community Preservation Act (CPA). The legislation, filed by Senator Cynthia Creem (D-Newton), would also secure adequate funding over the long term for the state's CPA matching fund.
- **Zoning Reform:**
  The new zoning reform commission, initiated by the Massachusetts Smart Growth Alliance and chaired by Undersecretary for Economic Development Greg Bialecki, is now working to draft legislation dealing with such matters as "approval not required," grandfathering, consistency between master plans and zoning, and incentives to expand housing production.

South Shore Coalition

In 2007, the South Shore Coalition (SSC), one of the eight subregions of MAPC, met on a monthly basis to discuss issues of mutual interest and to learn about MAPC activities and products. The SSC includes municipal representatives from the following communities: Braintree, Cohasset, Duxbury, Hanover, Hingham, Holbrook, Hull, Marshfield, Norwell, Pembroke, Rockland, Scituate, and Weymouth.

During 2007, SSC meetings addressed the following regional transportation issues, through presentations or discussions: subregional representation in the Metropolitan Planning Organization, the Unified Planning Work Program, Transportation Improvement Program priorities, suburban mobility funding opportunities, and bicycle and pedestrian mobility in town centers. Meeting topics also included stormwater control bylaws, Chapter 43D expedited permitting, the Massachusetts Oceans Act, the MetroBoston DataCommon and municipal energy – renewable power and energy efficiency. The SSC participants were also involved with giving continuing feedback to MAPC on MetroFuture, the regional plan for the greater Boston region.

The MAPC Annual Report is respectfully submitted by Marc D. Draisen, Executive Director, Metropolitan Area Planning Council.

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work in concert with UMass Amherst Faculty and Extension staff on behalf of Plymouth County residents, UMass Extension and the United States Department of Agriculture, to provide valuable information in Extension's four major program areas: Agriculture and Landscape; 4-H Youth and Family Development; Nutrition Education; and Natural Resources & Environmental Conservation. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing programs.

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work in concert with UMass Amherst Faculty and Extension staff on behalf of Plymouth County residents, UMass Extension and the United States Department of Agriculture, to provide valuable information in Extension's four major program areas: Agriculture and Landscape; 4-H Youth and Family Development; Nutrition Education; and Natural Resources & Environmental Conservation. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing programs.

Cooperative Extension resources and programs for Plymouth County residents include: sustainable garden lectures, fruit pruning demonstrations; research, information and educational programs on pests like the winter moth caterpillar; pesticide applicator training & licensing exams; the annual UMass Extension Garden Calendar; landscape and horticultural training and resources for municipal employees and green industry professionals; 4-H Science and Technology workshops; accredited overnight 4-H summer camps; 4-H animal science summer day workshops; 4-H Life Skills Training. New research findings are translated into practical applications and shared with residents and communities through workshops, conferences, field demonstrations, radio and television, local libraries, technical assistance, and newspaper articles. Publications such as newsletters, booklets, and fact sheets bring information directly to those who need it. Additional information is delivered through office visits, phone calls, and UMass-Amherst Extension web access www.umassextension.org .

The Plymouth County Extension office is located at 266 High St., P.O. Box 658, Hanson MA 02341 (781-293-3541; 781-447-5946) plyctyext@mindspring.com. Regional Extension programs are often conducted in Southeastern Massachusetts.

UMass Extension also operates the Cranberry Experiment Research Station, located in Wareham and the Nutrition Education Program, located in Brockton.

Members of the Plymouth County Staff:

Samuel Fox, 4-H Youth and Family Development Program
Molly Vollmer, 4-H Youth and Family Development Program
Deborah C. Swanson, Landscape, Nursery and Urban Forestry Program
Debra L. Corrow, Executive Assistant
Ruth Ahola, Administrative Secretary

Board of Trustees:

Michael Connor, Chairman - Halifax
Loren Decker - Middleboro
Jere Downing - Marion
Elizabeth A. Francis - Plymouth
Chris Iannitelli – W. Bridgewater
Marjorie Mahoney - Hingham
John Peterson - Halifax
Wayne Smith - Abington
Jeffrey M. Welch, Chairman, Plymouth County Commissioner - Abington

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2007.

The Project is a special district created by the State Legislature in 1957, and is now composed of all Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2007 season began with a normal water table which decreased into the summer season. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began on May 21, 2007 and ended on September 28, 2007. The Project responded to 12,191 requests for service from residents.

In response to the continued threat of mosquito borne diseases in the district, we increased our surveillance trapping, aerial and ground larviciding, and adult spray in areas of concern to protect public health.

Eastern Equine Encephalitis was first isolated from *Culiseta melanura,* a bird biting species, by the Massachusetts Department of Public Health in Plympton (2 pools) on August 7, 2007. Of the season's total of thirty one EEE isolates, nineteen were from Plymouth County as follows: Halifax - 8/13, 8/16 (2), *8/27, 8/30, 9/26,* Hanson - *9/5,* Kingston - *8/13,8/16 (2) ,8/27, 9/26, 10/5,* Plympton - 8/7 (2), Rockland - *9/26,* West Bridgewater - *8/14(2), 8/22.*

Based on guidelines defined by the "Vector Control Plan to Prevent EEE" in Massachusetts, nineteen Plymouth County towns were elevated from moderate to "High Level of EEE Risk" effective August 20,2007. We are pleased to report that in 2007 there were no human or horse EEE cases in Plymouth County.

West Nile Virus was also found within the district. A total often birds tested positive for WNV in the following seven towns: Bridgewater (3), Duxbury (l), East Bridgewater (1), Halifax (1), Hanson (l), Lakeville (l) and Middleboro (2). Approximately thirty birds were handled through this Project as a dead bird repository. A total of thirteen isolations of WNV in mosquitoes were found in the following towns: Abington - 8/28, Bridgewater -

8/27(4), 9/12, Hanson - *9/5,* Kingston - *8/30,* Middleboro - 8/20 and Rockland - 9/21.We are also pleased to report that in 2007 that there were no human or horse West Nile Virus cases in Plymouth County. As part of our West Nile Virus control strategy a total of 63,558 catch basins were treated with larvicide in all of our towns to prevent WNV.

The remaining problem of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Massachusetts Department of Public Health. In an effort to keep the public informed, EEE and WNV activity updates are regularly posted on Massachusetts Department of Public Health website at www.state.ma.us/dph/wnv/wnv1.htm.

The figures specific to the Town of Norwell are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Norwell residents.

Insecticide Application. 2,945 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in May and the last in September.

During the summer 1,472 catch basins were treated to prevent the emergence of *Culex pipiens,* a known mosquito vector in West Nile Virus transmission

Aerial Application. Larviciding woodland swamps by helicopter before the leaves come out on the trees continues to be very effective. In Norwell this year we aerially larvicided 662 acres.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Inspectors continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present.

Water Management. During 2007 crews removed blockages, brush and other obstructions from 460 linear feet of ditches and streams to prevent overflows or stagnation that can result in mosquito breeding. This work, together with machine reclamation, is most often carried out in the fall and winter.

Finally, we have been tracking response time, which is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Norwell was less than two days with more than 330 complaints answered.

Mosquito Survey. A systematic sampling for the mosquitoes in Norwell indicates that *Cx. pipiens/restuans* was the most abundant species. Other important species collected include *Cs. melanura* and *Cq. perturbans.*

We encourage citizens or municipal officials to visit our website at www.plymouthmosquito.com or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Raymond D. Zucker

NORWELL RECREATION COMMISSION

Norwell Recreation offers leisure programs and services to Norwell residents and friends. You can find our program offerings at our website: www.townofnorwell.net and you receive our brochure every season in your mailbox.

- 200+ programs
- 12,000+ participants
- Budget FY07: $143,703 covers 1.6 year-round staff; 18 summer playground staff; and department operating expenses
- Revolving Fund FY07: $205,100 covers all costs of over 195 programs!
- $16,794.40 unreserved funds returned to the general fund
- Other Staff: 100+ part-time, program specific instructors & assistants

Thank you to the over 95 (!) high-school age young people who volunteers to help during the summer on playgrounds and during the winter with our rec hoops league as coaches and give their energy and time to help make a positive difference to our community. And thank you to the 30+ adult volunteers who help provide program opportunities as instructors, aides, trip chaperones & special event workers.

Thank you to the volunteer commission members listed below (and their families) who help plan our direction, set goals, plan and run special events and serve on other town committees, Athletic Fields and Community Preservation, representing the recreation commission.

Thank you to our staff (paid & volunteers) who are our best asset and do all the hard work.

Thanks to the School Department for continuing the free access of their facilities to town rec programs.

A huge thank to the Tree and Grounds Department for their town field maintenance and improvements on a shoestring budget.

We have programs for all ages and all interest levels. Take a look at one and join us in a future program! *This is your recreation department!*

Submitted by Dale Connor, Director and the Recreation Commission members : Ginny Maree, David Kean, Jerry Kehoe (resigned Dec 07), Pat Richardson, and Anne Staples

RECYCLING COMMITTEE

Recycling Calendar

In 2007 the recycling committee again showcased the talents of Norwell students by publishing a calendar featuring the art work of second and third graders which illustrated the children's understanding of recycling themes. The calendars also included information on all youth related activities in town and were distributed to all the families with school-age children.

This is the third year that the recycling committee has sponsored this effort, and, once again, members were amazed at the enthusiastic response of the students. Students at the Cole and Vinal schools submitted drawings for the competition. Sixteen of these pictures were selected for the calendar.

The students whose work was selected were:

Audrey MacLellan, 3rd. Grade, Vinal School; Ethan Wu, 3rd. Grade, Vinal School
Rachel Bailey, 3rd. Grade, Cole School; Joshua Hunter, 3rd. Grade, Cole School
Domenic Barbati, 2nd. Grade, Vinal School; Emme Shaw, 2nd. Grade, Cole School
Delaney Uhlman, 3rd. Grade, Vinal School; Allana Iwanicki, 3rd. Grade, Cole School
Ann Williams, 2nd. Grade, Vinal School; Olivia Degnan, 3rd. Grade, Cole School
Carly Richards, 3rd. Grade, Vinal School; Alexis MacDonald, 2nd. Grade, Cole School
Maria DeMartinis, 3rd. Grade, Cole School; Callie Jenkins, 3rd. Grade, Vinal School
Jack Ricciuti, 3rd. Grade, Vinal School; Harrison MacKinlay, 2nd. Grade, Vinal School

Each student received recycling tote bags with gifts inside donated by sponsors such as Massachusetts Department of Environmental Protection, Papa Ginos, Toy Box, Learning Express, Hilliards, South Shore Science Center, Patriot Cinemas, and Storybook Cove. As part of the art competition, the selectmen and town administrator chose 4 names from the 16 to receive raffle prizes of webkinzs and tickets to the New England

Aquarium. The committee would like to thank the above sponsors as well as Phyllis Wenzel and Image Resolutions for their contribution in printing the calendar, Paul Papadonis, the high school art teacher who judged the art work, the PTO, the Women's Club, and the Norwell recreation department for their help assembling the information about youth events, Supt. Donald Beaudette for his cooperation in helping distribute the calendars in the schools, and Reiko and Kiyomi Beach who helped in its layout.

Residential Recycling

In 2007, Norwell residents recycled:

769.86 tons of paper and cardboard

283.19 tons of co-mingled (plastics 1-7, glass, and aluminum)

4,074 tons of leaves which allowed for 37 cubic yards of compost to residents

12,222 tons of brush

The town signed the "Massachusetts Paper Campaign" initiative to promote paper recycling.

In 2006, the Town of Norwell residents threw 989 tons of recyclable paper and cardboard in the trash. There were 786 tons of paper and cardboard recycled that year compared to only 769.86 tons in 2007. In 2006 the 786 tons saved the town $27,133 in disposal costs; however, the 989 tons thrown away represent an additional $34,141 the town could have saved in disposal fees. Each and every one of us can think of a better way to utilize $34,141 than to throw it away. And that is literally what we did. Please help us help you in cutting costs by recycling more. Remember:

"If it can be recycled ...it should be ... it must not end up in the trash!"

Respectfully submitted by the Recycling Committee: Joanne Dirk, Chair, Anne Fridgen-Traft, Carole McCarthy, Vicki Spillane, Norm Thoms, William Kelley, and Taylor Kirby-Madden

SENIOR CITIZEN TAX RELIEF COMMITTEE

The Senior Tax Relief Committee (SCTRC) was commissioned by the Board of Selectmen in June of 2005 in recognition of the increasing numbers of elders in the Town on fixed incomes experiencing difficulty in meeting escalating real estate tax obligations. The objective of the Committee is to explore statutes already in existence within the General Laws of the Commonwealth on the subject of tax relief with an eye to how such statutes could be applied to meet the specific needs of the seniors of Norwell.

It was noted after the study, and with the help of the Norwell Board of Assessors (BOA), that there was considerable relief already available within the existing laws as they applied to the Town through previous legislative actions. Such relief, consisting of various forms of abatements, is administered by the Norwell BOA. There was general agreement among members of the Committee, however, that even these existing remedies were not, unfortunately, understood by the public at large. We became indebted to the Norwell Council of Aging (NCOA) and the Friends thereof for their help in promulgating information in this regard. The NCOA is a valuable source of information for all matters pertaining to seniors of our Town. While the NCOA is a most important source of information, it must be observed that the BOA is the legal and authorative repository of information pertaining to real estate tax laws.

The first significant action taken by the Committee in the first year of its existence was to recognize a recent amendment to the Massachusetts General Laws, Chapter 59, Section 5, Clause 41A which permitted reduction in the interest rate applied to deferred real estate taxes. In response to this, the Committee prepared a motion for the Annual Town Meeting of May 8, 2006 to lower the previously existing rate from 8% to 4%. This motion, Article 22, passed unanimously.

As the result of additional investigation of the General Laws, the Committee prepared a motion for presentation at the Annual Town Meeting of 14 of this current year, 2007, to authorize the Town, subject to the approval of a Home Rule Petition by the General Court, to raise the income ceiling currently established for eligibility, again in Chapter 59, from $40,000 to 75% of the Median Family Income (MFI) determined for the Boston

Massachusetts region by the Federal Department of Housing and Urban Development (HUD). This change would raise the income level for eligibility by a little more than 50%, opening up the availability to seniors, especially those, for example, having to take mandatory distributions of their IRA's at age 70.5 years. This motion, Article 36 in the Warrant, passed unanimously and has resulted in a bill in the General Court sponsored by State Senator Robert Hedlund and Representative Robert Nyman as Senate Bill S2319 now pending action in the State Legislature to pass our Home Rule Petition.

SOUTH SHORE RECYCLING COOPERATIVE

The South Shore Recycling Cooperative (SSRC) is a voluntary association of fifteen South Shore towns established by Intermunicipal Agreement and Special Legislation in 1998. Members of the SSRC are: **Abington, Cohasset, Duxbury, Hanover, Hanson, Hingham, Holbrook, Hull** (Jan-Jun), **Kingston, Marshfield, Norwell, Plymouth, Rockland, Scituate, Weymouth, and Whitman**.

Representatives from each member town are appointed by the Selectmen and/or Mayor.(see attached list).

The mission of the SSRC is: "to provide a forum of cooperative management of solid waste by members, to assist each member Town to improve the cost-effectiveness of their recycling efforts by providing economy of scale while maintaining full control over solid waste management; to assist members to improve programs to divert waste materials from the waste stream and to reduce the amount and toxicity of wastes; and to provide such assistance on an individual basis to each member Town and cooperatively in joint programs with other Towns."

Since 1998, each member town has paid an annual membership fee of $4,000. In 2007 the SSRC raised **$60,000** through these fees, which were supplemented with **$3,977** in grants and sponsorships from MassDEP, Covanta at SEMASS, Bay State Textiles, and Got Books. Those funds pay for the services of the Executive Director and support solid waste and recycling activities during the year to benefit member towns. The SSRC estimates that in 2007 these activities **saved member towns an estimated $173,400,** and provided **234 hours** of direct services to the towns.

MATERIALS MANAGEMENT

Household Hazardous Product Collections
The SSRC extended its contract for the collection and disposal of **household hazardous products** with **Clean Harbors**, Member Towns paid about **26% less** than the State contract rates, and avoided the administrative time to bid, schedule and publicize them. **2,555 residents** attended the fifteen collections held in 2007, and Member Towns saved **$44,000** for this service. The contract also enabled **110 residents and businesses** to attend other Member Towns' collections using the **reciprocal arrangement,** which is administered by the Executive Director. The SSRC advertised the events with several thousand **flyers** delivered to the town halls and libraries, and ongoing press releases in all **local papers, on cable TV and the radio**. The Executive Director attended and helped run twelve of the collections, handed out paint stirrers with cost saving instructions on latex paint disposal, provided signs, calculated the **proper billing** for the vendor to ensure that discounts and allowances were credited and visitors billed properly, and flagged several billing errors before they were paid.

Construction and Bulky Waste
By using an arrangement facilitated by the SSRC with the **Bourne ISWMF**, Member Towns enjoyed a disposal rate of $75/ton for **construction and bulky waste,** which is **$12.50/ton less than the gate fee.** With generation of about **7,500 tons**, Member Towns saved roughly **$94,000** (2006 data).

Mattresses
Cohasset, Hanover, Kingston and Scituate save on mattress recycling by using an SSRC arranged program with Miller Recycling in Plainville to transport and process mattresses for $14/each, including container rental. This arrangement saved the three participating towns approximately **$13,300** on the **1,892 mattresses** they collected.

Compost and Brush
The SSRC re-bid the contracts for **brush grinding and compost screening**, which were awarded to Letourneau Corp. and Lion's Head Organics. The grinding contract was used by three of our towns for 8.5 days. Data on screening contract usage was unavailable.

Mercury Bearing Waste
The SSRC helped the thirteen member towns that have contracts with SEMASS to maximize their benefits from the **Material Separation Plan (MSP),** including the provision by SEMASS of digital thermometers for exchange and reimbursement for mercury disposal costs

Paper
The SSRC facilitated the siting of 76 Abitibi Paper Retriever containers at public and private entities in 2006-07. In 2007, they captured an additional **850 tons** of paper, and returned at least **$4,250** to the municipalities and local organizations.

Textiles
The SSRC introduced Bay State Textiles, which pays $50/ton for used clothing and textiles, to the managers. Their competitors pay nothing, and service isn't always good. Eight towns recycled **280 tons** of material through them, for which they were paid **$14,017**.

Books
The SSRC introduced GotBooks, which pays $100/ton for used books and other media, to the managers. Eight SSRC towns set up book collections through them, recycled/reused 109 tons of material and earned $7,887 from it in 2007.

PUBLIC OUTREACH:

Mass Recycles Paper! campaign
The SSRC piloted a paper recovery outreach campaign in 2006 with a grant from MassDEP, which contributed to a **reduction in trash of 4,992 tons in 2006**. Its success resulted in the formation of a statewide campaign through MassRecycle, called **"Mass Recycles Paper!"**, chaired by the SSRC Executive Director. The goal is to recover an additional million tons of paper each year from the Mass. trash. The Campaign has broad support from MassDEP, US EPA, the US Postal Service, and the recycling industry. SSRC communities stand to gain about $500K/year in avoided disposal cost and revenue from the sale of waste paper.

Paper recycling information flyers
The Executive Director designed, customized and printed informational flyers about the benefits of maximum paper recycling, and handed them out to residents at most HHP collections. (see last page)

Press Contacts
The SSRC releases articles and provides information to the local press about waste reduction, recycling, and the proper disposal of hazardous waste. The following articles were released to and published by the local and regional newspapers in 2007:

Waste Ban Sweep 1-07;
Weymouth Phone Book contest 1-07;
Hanson joins SSRC 5-07
Sen. Creedon recognized at SSRC Legislative Breakfast 5-07;
Trash down in SS towns 11-07
Sullivan receives MassRecycle member of the Year award 11-07
SSRC signs Mass Recycles Paper Resolution 11-07;
Holiday Tips from SSRC 12-07
Creative Gift Wrap 12-07.

Resident Contacts
The Executive Director fielded **132 calls and emails** from Member Towns' residents in CY07 to answer questions, mostly about hazardous and difficult to manage product disposal.

Website
ssrc.info provides town-specific recycling information, household hazardous product collection information, SSRC meeting minutes and annual reports, press releases, a quarterly newsletter, and links to other sites. It was overhauled this past fall.

Marshfield Fair Recycling
With assistance from MassDEP and the Town of Marshfield, the SSRC supported **event recycling programs** at **the Marshfield Fair** for the fourth year. While public education was the main benefit, five tons of material was also diverted from the trash for recycling, and two tons was composted. Recycling containers from a previous grant are available for loan to all Member Town events.

ADVICE, ASSISTANCE AND NETWORKING.
The Executive Director's help is frequently sought by the solid waste managers. She maintains regular contact with the solid waste managers from each town to stay up to date on their programs, updates them on current trends, and advises on specific needs each town has.
A sample of the assistance she provided and problems she helped solve in 2007 included:
- clarifying the acceptability of expanded polystyrene at the curb
- provision of recycling stickers for barrels and bins
- finding new propane tank vendors
- setting up an antifreeze collection
- scheduling paint management trainings through our HHP contractor at no charge
- collaborating with Cape Cod communities on a regional disposal contract negotiation
- arranging for delivery of free rechargeable battery collection boxes to municipal collection locations
- researching the feasibility of requiring biodegradable trash bags
- researching sneaker and audio-video media recycling options
- identifying and correcting errors on Data Sheets submitted to MassDEP
- planning and publicity for a Phone Book Recycling contest
- providing templates for hauler permits
- providing information on accrued renewable Energy Trust grants.

She also attended Board/ committee meetings in **Hanson, Marshfield, Weymouth and Whitman and** provided the MSW managers with a ten page **directory of service providers.**

Paper pricing
The SSRC subscribes to *Official Board Markets* on which most towns' paper rebates are based. The Executive Director calculates rebates that should be paid to the municipalities by their paper recyclers and updates the managers each month.

Radioactive load rejections
To counteract the problem of rejected trash loads due to radioactive contamination, the Executive Director

researched the sources and consequences, and drafted a letter and flyer about proper disposal methods for patients who are sent home following radiotherapy. She sent it to all nuclear medicine and veterinary facilities in eastern Mass. and posted the flyer on the website.

Newsletter
The SSRC publishes a newsletter filled with information of immediate interest to the South Shore solid waste community, including local solid waste news, regulatory and legislative proposals, meetings and seminars. The newsletter is circulated to over 350 town officials, legislators, regulators and volunteers, and is posted online at ssrc.info.

Monthly Meetings
The SSRC provides **networking opportunities** and information sharing at our well-attended **Solid Waste Manager meetings**. Each meeting features a guest speaker. Solid waste collection, disposal, recycling service, outreach, pricing and proposed laws and regulations are discussed.

ADVOCACY
The Executive Director, who stepped down as **President of MassRecycle** in May, drafted legislation that would benefit municipal solid waste programs at Senator Creedon's request, met with key legislators to provide input on that and other state solid waste issues, and testified at Budget and legislative hearings. She also attended policy meetings, forums and conferences hosted by MassDEP, Solid Waste Association of North America, the Council of SEMASS Communities, MassRecycle, and the Northeast Resource Recovery Association. In her capacity as MassRecycle President, she was appointed to and attends Mass. DEP Solid Waste Advisory Committee meetings. She shares what she learns with the Managers, and relays the Managers' concerns to the professional and State organizations and regulators.
The SSRC held a **Legislative Breakfast** in May at which **Sen. Robert Creedon** (D-Brockton) was recognized with our "Environmental Hero" award for his sponsorship and support of bills and budget items that promote waste reduction. Sen. Robert Hedlund (R-Weymouth) also spoke at the event.
The SSRC exists to serve its member towns by facilitating their solid waste disposal and recycling functions. It always welcomes suggestions on how it can better serve its Members.
Respectfully submitted, Claire Sullivan, Executive Director, South Shore Recycling Cooperative

DEPARTMENT OF VETERANS' SERVICES

The Office of Veterans' Services survived one more year and is now, fully, operational. Mr. Caldwell's office hours are Tuesday afternoon and the first and third Wednesday evenings. He is, also, available, other times, by appointment and will make house calls.

This past year, the office operated well within its allotted budget in all areas. What is not generally known is that the majority of budget expenditures are reimbursed by the State Department of Veterans' Services, to the Town of Norwell's General Fund at a rate of 75%. Therefore, many of my line items, such as flags, etc., cost our town 25% of what is shown.

We continue to qualify severely disabled veterans for State annuities and disabled veterans savings on their home taxes. Also reimbursed by the State. The Department of Veterans Affairs, (VA), pays into our town in excess of $800,000 in compensation to disabled veterans.

As the vast majority of Massachusetts seniors are either veterans or survivors of veterans and may be unaware of their possible eligibility for either state of federal benefits it may be useful for them to drop in to the Veteran's office in the Town Hall and receive updated information. There may be a group of young veterans returning to our community from conflicts around the world. They were given excellent information during mustering out procedures, but they to may want to drop by to determine

if any new benefits have surfaced. One Massachusetts benefit for Iraq or Afghanistan veterans is our $1000 bonus for in war zone country veterans and $500 for veterans not in a war zone. There are also VA benefits for veterans and widows, 65 and older, who are trying to live on very limited incomes. Please come see me so we can discuss your possible benefits.

Respectfully Submitted,
Richard Caldwell VSO

BEAUTIFICATION COMMITTEE

The Norwell Beautification Committee continues to sponsor and support several programs and projects to further the beauty and the quality of life of our town.

In 2007, 22,900 daffodil bulbs were planted along our roadways, at homes, schools, monuments, and town buildings. Since the daffodil program began in 1994, 532,200 bulbs have been planted. Because it is so popular, we plan to continue the daffodil program each year and Charlie Morgan will manage the daffodil program in 2008.

As in previous years, in 2007, the town library grounds and the Japanese garden at the rear of the library were cleaned and groomed twice.

Additional boxwoods were planted around the Civil War Monument and in 2008, we look forward to the planned landscaping of three new triangles on Washington Street at Grove Street and at Queen Anne corner. Several of the existing 39 triangles are in need of volunteers.

Everyone benefits when our streets and roadways are litter free. Our goal has always been to help make Norwell a litter free town and the Adopt-a-Street Program continues to be very effective, however, there is a continuing need for additional volunteers

Holiday poinsettias were delivered to the Town Offices, the Norwell Library, and the Council on Aging, Fire Department Headquarters and to the Police Station. Festive seasonal lights were placed on the viburnum shrubs at the Town Offices triangle.

This was the 19th consecutive year of the Norwell Beautification Award Program. The Selectmen again kindly allowed time on their very busy agenda for the presentation of the awards. The Myrtle H. McKay Beautification Award was presented to John and Donna-Marie Dalferro for the outstanding appearance of their home at 379 Main Street. The Business Beautification Award was presented to the Mckay Real Estate Center for excellence in renovating and landscaping the building at 163 Washington Street. The 2007 Home Beautification Award was presented to David and Paula White for excellence in planting and maintaining an outstanding floral display at their home at 2 Brattle Road and the recipients of the Triangle Beautification Award were the Tiffany Road Neighbors for their excellence in planting and maintaining the new Tiffany Road Sunflower Garden. An informal reception with refreshments for the awardees was held following the award ceremony.

The dedication and hard work of the many volunteers is recognized and appreciated as is the help and support of the Norwell Town Departments and Offices. Any townsperson interested in becoming a part of the Norwell Beautification Program should not hesitate! Please call 781-659-7463!

CONSERVATION COMMISSION

OVERVIEW

The Norwell Conservation Commission is one of 351 Conservation Commissions, serving the Commonwealth of Massachusetts. Established in 1957, the Norwell Conservation Commission's mission is to protect natural resources and administer the Federal Wetlands Protection Act.

The seven member board serving the town of Norwell is comprised of volunteers who, together with the Conservation Agent work for the citizens of Norwell, developers, and other various parties, to ensure their projects comply with the Wetlands Protection Act, Rivers Protection Act, Stormwater Management Policy, and the Town of Norwell Wetlands Protection Bylaw Article 16A while protecting natural resources and open space.

The Conservation Commission held 76 public hearings in 2007, a decrease from 96 public hearings held in 2006. The Commission also entertained many scheduled discussions with landowners and project proponents on a variety of subjects including land donations, conservation restrictions, enforcement issues, and legal proceedings.

CONSERVATION AGENT

One major change for the Conservation Commission in 2007 was Michele Simoneaux's departure from the Town's Conservation Agent position. Michele served in this role for 5 years and did a great job of educating residents about environmental laws and worked in tandum with the Conservation Commission administering and protecting the interests of the Wetlands Protection Act, Rivers Protection Act, Stormwater Management Policy, and the Town of Norwell Wetlands Protection Bylaw. The Commission would like to thank Michele for her hard work and dedication while she served as the Conservation Agent. The Conservation Commission would also like to recognize the hard work of Meredith Schmid, Linda Hagar and Wes Osborne for stepping up in the absence of a conservation agent. The Commission welcomed Paul Wightman into the agent position in November 2007. Paul has done a great job helping the Commission get prepared for various pending litigations by working with Town Counsel, Attorney Bob Galvin who also does a great job representing the Town. Wes Osborne did a great job bringing Paul up to speed on the various resource areas in the town as well as various issues the Commission has been dealing with.

CONSERVATION LAND STEWARDSHIP

The Council on Aging Senior Volunteers Program continues to provide invaluable assistance to the Commission in its stewardship of over 1500 acres of conservation land. Projects completed by the volunteers in 2007 include: maintaining, clearing, and pruning of trails on conservation land throughout the town; investigating a new trail linking to the Donovan Farms property; repairing the ramp at Jacobs Pond; removing illegal structures from conservation land and assisting with special projects in the Commission office. The Commission thanks Charles Dirk, Stephen Young, Stephen Gilmartin, and Elliott Lyons for their participation in this program.

The protected conservation land under the Commissions' stewardship increased again this year through

tax title transfers and donations. Town Meeting transferred an additional 9 acres of tax title land consisting of 6 parcels on Summer Street, which are nearby Cuffey Hill, and another 8 acres in 1 parcel of land on Mount Blue Street near Wompatuck State Park. These transfers helped protect biodiversity, rare and endangered species habitat and wildlife, and drinking water supply. The Commission also approved the work of the Trustees of Reservations to place a Conservation Restriction on 36 acres of the Stetson Kindred property which is situated along the North River. The Commission continues to work with the Community Preservation Committee to identify and acquire additional land within the Town for open space and conservation protection with a goal of connecting many of the open green spaces across the town with a network of trails.

OPEN SPACE AND RECREATION PLAN

With the completion of the 2005-2010 Norwell Open Space and Recreation Plan in late 2005, the Commission began implementing some of the action items outlined in the Action Plan including: rectifying discrepancies in ownership inventory; prioritizing Chapter 61 lands for protection; acquiring land for Open Space and Conservation; and assisting South Shore Natural Science Center and students from Notre Dame Academy to identify and certify vernal pools. With the help of volunteers to the Open Space and Recreation subcommittees, the Commission will continue to work diligently to accomplish the many action items outlined in the Plan. Additional volunteers are needed and we invite anyone interested to contact the Conservation Agent.

PUBLIC MEETINGS

The Conservation Commission meets on the first and third Tuesday of the month at 7:00 p.m. Meetings are open to the public, and all are welcome.

Respectfully submitted, Norwell Conservation Commission.
Christopher Mickle, Chairman
David Osborne, Co-Chairman
Burt Bryan
Deborah Hill
Gregg McBride
Kathryn Mudgett
W. Clifford Prentiss
Paul Wightman, Conservation Agent
Meredith Schmid, Administrative Secretary

NORWELL HISTORICAL COMMISSION

The purpose of the Norwell Historical Commission, in accordance with Massachusetts General Law (Chapter 40, Section 8D) and the Norwell By-Laws, is to accept responsibility for preserving and protecting irreplaceable historic antiquities and historic resources throughout Norwell, as official agents of the municipal government.

The Commission continues to do its very best to be true to its mandate.

Projects:

The survey of antique homes in Norwell is in its final stage. It is hoped that, by January of 2008, the final report will be in. This survey was mandated by the Massachusetts Historical Commission and financed by the Commissions' Community Preservation Act funds.

In cooperation with the group working to make the Town Common more attractive, the Commission funded the new Town Clock.

The Commission responded to the new Dunkin Donuts request for pictures of old Norwell to be hung in the shop. The manager is to be congratulated for his appreciation of the historic significance of the Town Common area.

The members would like to thank the Norwell Historical Society for its cooperation in this matter.

Scenic Roads:
There were no new scenic roads named this year. The research on appropriate signage for the existing roads is still ongoing.

Community Preservation Act;
As stated above, a portion of the funds from the Historical Commission's share of the CPA, have been spent this year on the new town clock.

Date Boards:
Five more homes in Norwell have date boards.
The Commission has resources available for anyone seeking help in dating their home. The boards are made and mounted on the home by New England Historic Markings.

Jacob Farm House:
The Jacob Farm House lost its long time tenants this year. The Commission took this time to update the rental side of the property: appliances were replaced. Carpentry work was done (shelves, stair railings, counters). The electrical and plumbing systems were repaired and carbon dioxide and fire detectors were installed. The upstairs bathroom was renewed. Some of the rooms were repainted. The new tenant is pleased with the results.
The Jacob Farm Income Trust and the Jacob Farm Family Trust paid for this work.
The yearly visit from the representatives of Historic New England went well. The minor repairs noted are being addressed.

The Stetson/Ford House:
This property is managed by the Commission but belongs to the Town
There are no funds available to the Commission for repairs and must be requested from the Town. The property has been equipped this year with both carbon dioxide and fire detectors. The outside oil tank has been removed and the chimney has been repaired
An inspection by, experts in historic properties, have found that the house needs major repairs. They were impressed, never the less, with the overall good condition of a house that is over 300 years old.
The Commission is working on saving and finding alternate uses for this historic property.

The Commission would like to thank, the Highway Department, the Ladies in the Assessor's Office, the Accounting Office, Building Inspector Tim FitzGerald, the Lady of the Selectmen's Office, the Town Clerk, Town Planner Todd Thomas and the members of the Planning Board and Town Manager James Boudreau and the Norwell Historical Society for their continued support.

.
The Town lost two 1700 homes this year to demolition and one scenic vista. The Demolition Delay By Law gives only a six months delay for the Commission to find an alternative to destruction. The antique home is becoming more and more rare. As anyone knows the wheels of the system grind exceedingly slow, therefore it is important that the delay time be extended to a year. This change has been implemented by most of the other towns that have similar by laws.

The Commission will continue to work to protect the historic character of this unique and historically significant Town. From the men of Kent to the present, Norwell has had an active role in the history of the South Shore. It is the Commission's hope that the physical history as well as the archival history of Norwell, will be preserved for the generations to come.

Sincerely.
Joseph Carty, Chairman
Joan Vermette , Secretary

Pam Bower-Basso, Historian
David DeGhetto
Kimberly Zayotti
Wendy Bawabe
Robert Norris

THE PLANNING BOARD

Calendar year 2007 was again a busy and productive time for the Planning Board. Over the course of the year, the Board held 32 meetings. 23 of these meetings were regularly scheduled meeting sessions to conduct public hearings on proposed subdivision applications, to discuss and act upon Approval Not Required plans, and to discuss and make recommendations to the Board of Appeals regarding proposed site plans and comprehensive permits. The Board held 9 special meeting sessions to develop amendments to the zoning bylaws, conduct site walks of land proposed for development, and to attend Town Meeting sessions.

I. SUBDIVISION PUBLIC HEARINGS.

During the subdivision review process, the Planning Board holds a public hearing (which can begin and finish at one meeting or may be continued, at the applicant's election, over a longer period of time) to determine if the proposed project satisfies the Board's subdivision regulations. If a project satisfies all of the Board's regulations, then state law requires that the Board "shall approve" the project. The Board's regulations are designed to require a project to provide safe access to all of the proposed lots, comply with applicable zoning requirements and make adequate provision for water, sewerage, drainage, underground utility services, street lighting and other basic services.

During 2007, the Planning Board conducted public hearings for three definitive subdivision projects. A brief status report on the subdivisions that had public hearings during calendar year 2007 can be found below.

John Neill Drive Extension (Off John Neil Drive) **Under Review**
3 Lots on 3.15 acres
This project proposes 3 subdivision lots (2 house lots and 1 drainage lot), on 3.15 acres of land, extending an existing dead-end roadway, with a surface stormwater drainage basin. On May 9, 2007, the applicant applied for definitive subdivision approval. The public hearing is currently still ongoing to allow the Applicant time to revise the definitive plans and deal with drainage concerns therein.

May Elm Woods (Off May Elm Lane) **Withdrawn**
5 Lots on 19.04 acres
This project proposed 5 subdivision lots (3 new lots, 1 not-buildable lot and 1 reconfigured lot to serve an existing dwelling), on 19.04 acres of land. The applicant withdrew the proposal.

Sgt. William Calway Drive (Off Grove Street) **Withdrawn**
10 Lots on 12.125 acres
This project proposed 10 subdivision lots (8 new lots, 1 drainage lot and 1 reconfigured lot to serve an existing dwelling), on 12.125 acres of land. The applicant withdrew the proposal.

II. Subdivision Surety and Construction Oversight

During 2007, the Planning Board provided surety and construction oversight for the following subdivision projects. Under the Subdivision Control Law, G.L.c.41, §81U, ¶7, the Planning Board is required to impose surety to help ensure completion of the construction of a subdivision project. At the developer's election, the surety may be money-based or in the form of a restrictive covenant prohibiting the individual sale of or construction on the approved lots. As of December 31, 2007, the

Town is holding approximately $2.07 million in money-based surety. The projects noted below are in various stages of construction. Combined, the projects consist of over 169 residential lots, 32 drainage basins and almost 3.2 miles of roadway.

BATES LANE (f/k/a Prairie Farm) (Off High Street) **Approved 3/02**
4 lots on 16.3 acres
This project created 4 residential lots (2 new lots and 2 reconfigured lots for existing dwellings). The project includes 1 surface drainage basin and 1 dead-end street (Bates Lane) with 400 linear feet. The Applicant posted surety and the plans were endorsed on September 9, 2002. All lots have been released from the subdivision covenant. The Town holds $15,929.09 in surety.

BIRCHWOOD (Off Grove Street) **Approved 6/01**
11 lots on 18 acres
This project, approved on June 8, 2001, created 11 residential lots on 18 acres. The project includes 3 surface drainage basins and 2 roadways: 1 dead-end street with 1,160 linear feet (Birchwood) and 1 dead-end street with 480 linear feet (Fieldstone). The Applicant posted surety and the plan was endorsed on August 6, 2001. All lots have been released from the subdivision covenant. The Town holds $95,728.43 in surety.

BRATTLE STREET / Bramblewoods (Off Grove Street) **Approved 2/99**
5 lots on 6.6 acres
This project created 5 residential lots (4 new lots and 1 reconfigured lot to support an existing dwelling). The project includes 1 surface drainage basin and 1 dead-end street (Brattle Street) with 750 linear feet. The Applicant posted surety and the plans were endorsed in May 1999. All lots have been released from the subdivision covenant. The Town holds $77,832.92 in surety.

COWINGS LANE (Off Summer Street) **Approved 2/06**
7 Lots on 20.9 acres
This project will create 7 subdivision lots (6 new lots and 1 reconfigured lot to serve an existing dwelling), on 20.9 acres of land, with a dead-end roadway of 653 feet and 1 surface stormwater drainage basin. The project proposes a 10.8-acre conservation / drainage parcel, which would directly abut South Swamp. The subdivision is currently under construction and surety is provided via a subdivision covenant.

CLAPP BROOK ROAD / (f/k/a Black Pond Estates) **Approved 1/99**
5 lots (Off Central Street)
This project created 5 residential lots on 17 acres of land, with 7.2 acres of upland. The project includes 1 dead-end street with 760 linear feet and 2 surface drainage basins. The Applicant posted surety and the plans were endorsed on November 1, 1999. All lots have been released from the subdivision covenant. The Town holds $16,558.14 in surety.

EDGEWOOD PARK (Off Loring Drive) **Approved 6/97**
9 lots on 16 acres
This project created 9 residential lots on 16 acres. It includes 3 surface drainage basins and 1 dead-end street with 1550 linear feet. The Applicant posted surety and the plans were endorsed on February 9, 1998. All lots have been released from the subdivision covenant. The Town holds $39,797.07 in surety.

FOREST RIDGE (Off Summer Street) **Approved 5/02**
7 lots on 8.6 acres of upland
This project created 7 residential lots on 9.1 acres, with 8.6 acres of upland. It includes 1 surface drainage basin and 1 dead-end street with 500 linear feet. The Applicant posted surety and the plans were endorsed on September 23, 2002. Construction began in the spring of 2005 and all lots were

released from the subdivision covenant during 2006. The Town currently holds $41,000 surety in the form of a Lender's Agreement.

HAWTHORNE PARK (Off Grove Street) **Approved 3/00**
10 lots on 21.4 acres of upland
This project created 10 residential lots on 13.7 acres of upland. The project includes 2 surface drainage basins, 1 dead-end street (Hawthorne Lane) with 1,075 linear feet and a parcel that is to be placed in conservation. The applicant posted surety and the plans were endorsed on April 3, 2000. Construction on this subdivision was completed during 2007. The Town holds $480,000 in surety in the form of a Performance Bond.

HENRY'S LANE / Joshua's Landing (Off Norwell Avenue) **Approved 11/05**
8 lots on 19.4 acres
This project created 8 residential lots (6 new lots and 2 reconfigured lots to support 2 existing dwellings) on 19.4 acres of land. It will create 3 surface drainage basins and 1 dead-end street with 850 linear feet. This subdivision was approved on November 10, 2005. During 2007 the applicant completed the road and home construction commenced. The Town currently holds $200,000 in surety in the form of a Lender's Agreement.

HERITAGE ESTATES (Off River Street) **Approved 12/00**
3 lots on 5.8 acres of upland
This project created 3 residential lots on 8.2 acres, with 5.8 acres of upland. It includes 2 drainage basins and 1 dead-end street (Heritage Lane) with 450 linear feet. The Applicant posted surety and the plans were endorsed on January 24, 2001. The house lots have been released from the subdivision covenant. The Town holds a $54,000.00 surety bond.

HOLLY BERRY (Off Grove Street) **Approved 4/04**
6 lots on 6.4 acres
This project created 6 lots (5 new lots and 1 reconfigured lot to serve an existing dwelling) and provided access for a 7th lot, eliminating a driveway curb cut on Grove Street. The Applicant posted surety and the plans were endorsed on September 1, 2004. All house lots have been released from the subdivision covenant. The Town holds $2,665.02 in surety to ensure the structural integrity of the sidewalk.

MASTHEAD DRIVE EXTENSION **Approved 6/99**
2 lots on 10.5 acres
This project created 2 residential lots, on a short extension of Masthead Drive, with 1 drainage basin. The applicant posted surety and the project was endorsed on June 21, 1999. On March 26, 2001, an ANR Plan was endorsed, creating a third lot. The subdivision covenant is still in place. The applicant has yet to begin work on this subdivision.

LAURELWOOD DRIVE (Off First Parish Road) **Approved 2/98**
24 lots on 77 acres
This project created 24 residential lots on 77 acres, with 42 acres of upland. Of the 24 lots, 2 lots are located entirely in Scituate and 6 lots are located partly in Scituate. The project includes 3 surface drainage basins and 1 dead-end street with 1329 linear feet. The Applicant posted surety and the plans were endorsed on October 29, 1998. The project has been largely constructed, however paving issues and drainage issues remained throughout 2007. The Town holds $263,764.03 in surety.

PARSON'S WALK (Off Circuit Street) **Approved 6/97**
3 lots on 11.5 acres

This project created 3 residential lots on 11.5 acres. The project includes 1 surface drainage basin and 1 dead-end street with 420 linear feet. The Applicant posted surety and the plans were endorsed on July 21, 1997. The Town holds $24,628.10 in surety.

PINSON LANE (Off Parker Street) **Approved 6/99**
3 lots on 4.96 acres of upland
This project created 3 residential lots (2 new lots and 1 reconfigured lot to serve an existing dwelling) on 4.96 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999. During 2007, the applicant completed subdivision construction. The Town holds $106,000 in surety.

TRUNNEL ESTATES (Off Main Street) **Approved 9/03**
3 lots on 3.4 acres
This project created 3 residential lots (2 new lots and 1 reconfigured lot to support an existing dwelling), on 3.4 acres of land. The project includes 1 drainage basin and 1 dead-end street with 390 linear feet. The Applicant posted surety and the plans were endorsed on February 23, 2004. During 2007 the applicant largely completed subdivision construction. The Town holds surety $154,000 surety in the form of a Performance Bond.

TURNER'S WAY SUBDIVISION MODIFICATION **Approved 4/05**
6 Lots on 8.2 acres of upland
This project created 6 residential lots on 32.7 acres (8.2 acres of upland), at the end of Turner's Way, by dividing an existing lot into 5 new lots and 1 reconfigured lot to support an existing dwelling. The project required no drainage basin to support it and reduced the previously approved dead-end street length of Turner's Way from 1506 to 1448 linear feet. The project was approved on April 14, 2005. The Town holds $29,885.69 in surety. During 2007, no inspection activity was requested.

WALNUT TREE HILL ESTATES (Off Cross Street) **Approved 5/99**
5 lots
This project created 58 lots; however, only 4 lots are located entirely in Norwell and 1 is located partially in Norwell. The project includes 1 surface drainage basin, partly located in Norwell, and 1 street (Greenbriar Lane) in Norwell, with 500 linear feet. The Applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds a $400,000 surety bond. During 2007, no inspection activity was requested.

WILDCAT HILL (Off Wildcat Lane) **Approved 10/05**
44 lots on 49 acres of upland
This project would create 44 residential lots on 72 acres (49 acres of upland). The project includes 4 surface drainage basins and 1 private wastewater treatment plant. The roadway system consists of 1 looped roadway with 4,244 linear feet and 1 dead-end street with 424 linear feet. The project was approved on October 27, 2005 and endorsed in 2006. The Town holds surety in the form of a subdivision covenant. The developers of Wildcat Hill will be back before the Planning Board in 2008, as they attempt to reconcile differences between the subdivision plan approved by the Planning Board and the plan approved by the Conservation Commission.

WILDWOOD LANE (Off Circuit Street) **Approved 11/95**
4 lots on 6.5 acres of upland
This project created 4 residential lots on 10.9 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The Applicant posted surety and the plans were endorsed on November 27, 1995. The Town holds $72,297.90 in surety. During 2007, no inspection activity was requested.

III. Approval Not Required (Form A) Plans

During 2007, the Planning Board processed six Approval Not Required (ANR) plan applications. An ANR plan is a proposal to create a lot that already has sufficient frontage on an existing roadway. Three ANR applications were approved and the remaining three were denied. The Board collected $900 in application fees for this activity.

342 Mount Blue Street	Denied
360 Circuit Street	Approved
120 Forest Street	Denied
Land off Circuit Street	Denied
Land off Circuit Street	Approved
120 Forest Street	Approved

IV. ZBA Site Plan Approval - Technical Review.

The Planning Board provides technical review assistance to the Board of Appeals for site plan applications under Zoning Bylaw §1530. The Planning Board reviewed the site plans listed below during 2007. The Board collected no application fees for this activity.

10 Washington Street, proposed Dunkin Donuts
75 Washington Street, proposed South Shore Medical Center expansion
306 Washington Street, proposed buffer relocation

V. 40B Projects.

During 2007 the Planning Board reviewed and commented on the project eligibility application and comprehensive permit project for White Barn Village. The Board expects to review at least three additional 40B applications during 2008.

VI. Master Plan Enactment.

During 2007 the Planning Board enacted many of the recommendations in the Town's Master Plan. Norwell's Town Center is now handicapped accessible for the first time in generations, as the Planning Board paid for and oversaw the installation of three curb cuts where the two existing crosswalks met vertical granite curbing on Main Street. The Planning Board also contracted for the refurbishment of the Town Center crosswalks. Historic looking synthetic resin brick crosswalks will replace the green painted crosswalks on Main Street in late spring or early summer. The Planning Board paid for an engineering study to ascertain if a crosswalk could be installed between the Norris Reservation parking lot and the post office. The results of this study are not yet known. Finally, the Planning Board consulted with the Community Preservation Committee to reduce the pavement width across Main Street (and hopefully slow traffic) where the Town Clock was installed.

VII. Zoning By-law Amendments.

During 2007, the Planning Board amended zoning bylaw §2423 Stormwater Management Systems, as well as zoning bylaw §1650 Isolated Lots. More significantly, the Board modernized the zoning bylaw for §3100 Off Street Parking. At the 2008 Annual Town Meeting, the Board is planning to offer changes for zoning bylaw §2318 Common Driveway and zoning bylaw §2460 Height Restriction. The Board studied building height in the Town's Business C District and found that allowing additional commercial building height therein would have a minimal impact to the Town, while allowing business expansion that will ease residential tax burden. The Board is also in the last stages of studying Open Space Residential Design subdivisions. This new approach to subdivision design will better conserve natural and environmental resources, while ensuring that new subdivisions are less obtrusive and preserve permanently protected open space.

Sally I. Turner, Clerk
Michael J. Tobin, Alternate Clerk
Charles Markham

COMMUNITY PRESERVATION COMMITTEE

The Town of Norwell adopted the Community Preservation Act (MGL Chapter 44B) in May of 2002. The Town's Community Preservation Committee (CPC) is charged by the Town with the implementation of the Act in Norwell. The Act's stated purposes are to preserve open space and historic sites, and create affordable housing and recreational facilities. At least 10% of the CPA budget must be allocated to each of the first three areas annually.

During FY2007, the Town collected $634,135 in net CPA surcharges (after abatements and exemptions) in October of 2007. This amount was matched 100% by the state under the matching formula.

At the Annual Public Meeting in January 2008, Gregg McBride was elected Chairman, and Ann Buchanan was elected Vice Chair of the CPC.

Updates on 2006 Projects

Town Landings
The permitting process is almost complete on both the Bridge Street and Chittenden Lane Town River Landings. The town will be voting at the upcoming town meeting on the transfer of CPC funds to begin renovation of both landings in late spring or early summer.

Town Clock
With the cooperation of the Friends of Norwell Center, the Norwell Highway Department, and the Scituate Federal Savings Bank, our historical clock was installed at the intersection of River and Main Streets, welcoming people to the center of Norwell.

2007 Projects

The following projects were approved at the Town Meeting on May 14, 2007.

The CPC recommended the expenditure of $8538 toward the creation of an early childhood playground at the Vinal School. This playground is the only one in Norwell designed for the use of pre-school children, and matching funds were provided by the proponents of the project. The playground was completed during the summer of 2007.

$20,000 was appropriated from historical preservation funds to archive and exhibit historical documents and memorabilia on the third floor of the Sparrell School. This project was requested by the Norwell Historical Society.

$150,000 was approved for the purpose of land acquisition for water protection, possible affordable housing and open space. The property is being surveyed to determine the most advantageous use of the property to the Town.

In an effort to assist the Housing Authority, and increase the percentage of affordable housing units in Norwell, the CPC recommended that $500,000 be appropriated for the creation of an Affordable Housing Trust. This committee would be able to react quickly in the event that an affordable unit becomes threatened.

The Committee recommended the adoption of a new by-law creating the Affordable Housing Trust. The Affordable Housing Trust consists of 5 members appointed by the Selectmen: one from the Board of Selectmen, one from CPC, one from the Norwell Housing Authority, one from the Affordable Housing Partnership, and one from the Planning Board.

These projects were endorsed by the citizens of Norwell at the Spring 2007 Town Meeting.

Looking ahead to 2008

The Planning Board and Board of Selectmen have appointed a Norwell Pathways Committee to put forth design, construction, and improvement plans for pedestrian and bicycle pathways in Norwell. The committee will also study the feasibility of connecting Norwell's pathways to pathways in neighboring towns. Our Town Planner has been instrumental in jump starting this project and will continue to be involved in the planning process. The CPC will be presenting two articles at town meeting which will make funds available for various aspects of this project. Oversight of this project will be shared by our Town Planner, Planning Board, Board of Selectmen, and the Community Preservation Committee.

The CPC meets on the 2nd and 4th Thursdays of each month at 7:30 pm in the Norwell Town Hall. All residents are invited to attend. The CPC Request for Funding form can be found on the town's website.

FENCE VIEWER

China has its Great Wall, and here in Norwell we have the Great Wall of River Street at number 387, a massive stone wall, several years in construction, is now complete and is designated the Fence of the Year.

With the help of Barbara Gingras of the Assessor's Office, who found the pertinent detailed maps, it was possible to actually settle a long-standing contentious boundary dispute. I thank the contending parties for their goodwill and good sense.

Respectfully,
Arthur Garceau, Fence Viewer

BOARD OF ASSESSORS

The Board of Assessors reports the following values for table property established

as of January1, 2007 (Fiscal 2008):

CLASS	VALUES	PERCENTAGE
Residential	$2,154,860,223	85.9728%
Open Space	0	0
Commercial	$ 268,050,477	10.6945%
Industrial	$ 60,597,400	2.4177%
Personal Property	$ 22,934,499	.9150%
Total	$2,506,442,599	100%

This represents more than a 4 million dollar modest increase in the total valuation from the prior year in order to meet the Town's Budget. We also had a slight increase in "new growth", that was due to new construction.

The Assessors Department strives to maintain its records in up-to-date and available methods. The staff is continuing the Town wide cyclical inspections that are required by the Department of Revenue. The valuations are can be obtained by using the internet www.visionappraisal.Com. All citizens have full access to information on assessed values.

The Board wishes to thank our assessing staff of Barbara Gingras and Maureen Clarke. Their hard work and dedication makes the office run smoothly and effectively.

Respectfully submitted,
Edward J. Dunford Chairman
Rosemary Durica
Peter Etzel

CAPITAL BUDGET COMMITTEE

In 2007 the Capital budget Committee recommended $44,0634 for urgently needed capital improvements which were approved at the Town Meeting in May 2007. We were unable to fund a number of items in order that we stay inside the budget allocated to us by the selectmen and the Advisory Board.

2008 looks to be another period of severe budget restraints. It is imperative that we maintain our facilities and equipment and plan for future capital improvements. With this in mind we will be presenting an outline of projected capital needs for the next 5 to 10 years.

The huge bonding debt we now carry due mostly to various school bonds will dictate a tight reign on capital spending for at least 5 more years when some of our outstanding bonds will have matured.

Meanwhile, we need to plan for future major items including modernization of our Council on Aging building, the library, police department, water treatment and water mains, cemetery and highway departments.

We have the finest school department around and the recent money has resulted in facilities that are the envy of neighboring towns. We, however, spend two dollars out of every three dollars received on our schools. This will come down as we invest more of our capital in other departments in the future.

Our volunteer Capital Budget Committee wants to thank all of our departments for their cooperation in these trying times.

Respectfully submitted,
Robert Bordewieck, Chairman
Kenneth Hogeland, Vice-Chair
Karen Jacobs, Secretary
Spencer Josephs

REPORT OF THE BOARD OF SELECTMEN

The function of the Board of Selectmen is to act as the town's chief executive officers. The Board, through its Town Administrator, Jim Boudreau, oversees the day to day administration of the town and its staff. The Board is composed of three members who are elected for three year terms. The Selectmen issue the warrants for Town Meeting and make recommendations on the warrant articles; initiate legislative policy by creating and accepting articles in Town Meeting warrants and implementing the votes subsequently adopted by Town Meeting. The Board is responsible for town policies and is responsible for reviewing and setting the fiscal guidelines for the annual operating budget and capital improvements program and make recommendations, along with the Advisory Board and Capital Budget Committee to Town Meeting.

In addition, the Board is responsible for the appointment of most official boards and commissions; holding public hearings on important town issues and working with other towns and state agencies on issues that affect the citizens of Norwell.

The Selectmen also serve as the licensing board responsible for issuing and renewing licenses in more than 20 categories, including common victualler, food vendor, liquor, lodging house, inflammables, special events and entertainment.

In 2008, Richard Merritt was re-elected to his sixth three-year term on the Board. The Board elected John G. Mariano as Chairman of the Board, Tom Bigger as Vice-Chairman and Rick Merritt as Clerk.

The Board of Selectmen continually grapples with the issue of balancing the needs of the residents of the town in an environment of declining state aid and an increase in state mandates. The town, like its residents, faces increasing health care costs and increasing fuel costs. The job of balancing the needs of the town with the funds available is a daunting task and the Board of Selectmen takes that responsibility as paramount. Ultimately, it is the voters at Town Meeting that decide how every dollar is spent.

The Annual Town Meeting that convened on May 12, 2008 considered 44 Articles and an annual budget exceeding $36 million. The Board of Selectmen's direction to all departments in preparation of Town Meeting was to maintain services across Town Departments to the greatest extent possible and not expand service levels. This strategy proved to be a sound strategy as a world-wide economic crisis began to unfold at the end of 2008. The crisis, affecting our nation, our state and ultimately the Town of Norwell continues today as the Town prepares for its next Town Meeting.

I would be remiss if I did not thank my colleagues, Tom Bigger and Rick Merritt for their support throughout the year. The Town is very fortunate to have a Board of Selectmen that not only work tirelessly, but in the very best interest of all the residents of the Town.

The Board thanks the Town Administrator Jim Boudreau, his Assistant Lynda Allen and Administrative Assistant Denise Nestor for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions. The Board especially thanks those who give selflessly of their time, talents and energy to make Norwell a great place to live.

Respectfully submitted,
John G. Mariano, Chairman
Norwell Board of Selectmen

REPORT OF THE TOWN ADMINISTRATOR

2008 continued the trend in the Office of the Board of Selectmen and Town Administrator. The impacts' of the world wide fiscal crisis began to filter down on Town Government as 2008 came to a close. The continuing fiscal meltdown will have severe repercussions on our ability to provide services to the Town in the years ahead. Through it all, the staff continues to discharge the policies and directives of the Board of Selectmen, Town Meeting and the Town of Norwell By-laws.

Richard Merritt was re-elected to a three-year term on the Board, running unopposed for the seat. John Mariano was elected Chairman of the Board, with Tom Bigger becoming Vice-Chairman and Rick taking over as Clerk.

The Annual Town Meeting convened on May 12, 2008 to consider 44 Articles and an annual budget exceeding $36 million. The Advisory Board did an outstanding job of presenting the budget to Town Meeting after working closely with all of the Town Departments, Boards, Committees and Commissions to prioritize the spending. The budget was able to maintain services across Town Departments but did not allow for an expansion of services.

Town Hall continues to bustle in 2008 as groups and activities take advantage of the facilities. Along with the normal business of the Town, Town Hall continues to play host to the popular Middle School dances, the Norwell food pantry, and Boy and Girl Scout meetings. This activity is on top of the numerous Boards, Committees and Commissions that use the Town Hall for their meetings. It is a rare week when there is a night that someone is not meeting in the Town Hall. The task of keeping the building clean and running falls to our capable and dedicated custodian Bryan Melanson, who keeps the building sparkling clean and cheerful in spite of more than 80 hours per week of use. Brian has made huge strides in getting the building painted and refurbished. In addition, the Permanent Building and Maintenance Committee (PBMC) began work on preparing for a renovation/expansion of the Town Hall, in conjunction with work on a new Police Station, Library and Council on Aging. Plans should be ready for presenting to Town Meeting in 2009.

Ben Flynn has taken over the job of broadcasting weekly Selectmen's meetings on local access cable. Ben has worked diligently to continue to improve the product being produced. Each week he takes time out of his schedule to set up the cable equipment and televise the Selectmen's meeting to the Town. Without him this vitally important conduit to the public would be closed.

I would be remiss in not mentioning the passing of long time resident and former Selectmen David Mayers. David was a Selectman in the 70's, including a stint as Chairman. David remained active in Town Government throughout the years, including membership on the Affordable Housing Partnership, the Board of Registrars and the Democratic Town Committee. David had a winning personality and an infectious laugh that would boom throughout the building when he was around. I was proud to be his friend and I will miss his laughter and counsel.

No office can run without hard-working and dedicated employees. The Board is fortunate to have the services of Assistant to the Town Administrator Lynda Allen and Administrative Assistant Denise Nestor. They do all the work necessary to make everything work on a daily basis and provide invaluable assistant to anyone and everyone who requests it. I am eternally grateful for their hard work and dedication.

Finally, I would be remiss if I did not thank the Board of Selectmen for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions who make this Town what it is.

Respectfully submitted,
James M. Boudreau
Town Administrator

REPORT OF TOWN COUNSEL

I am pleased to submit this annual report for 2008 to the residents of the Town of Norwell and to the officials who volunteer, are appointed or elected serve on Norwell various boards, commissions and departments.

The Office of Norwell Town Counsel is staffed by myself and associate Town Counsel Robert W. Galvin. Each year my office strives to provides the Town of Norwell, its boards, commissions and officials the highest quality municipal legal advice in the most cost-effective manner.

The most important facet of efficient municipal government is the experience and dedication of the administration, boards and commissions and their staffs. In 2008, Norwell returned via election and appointment a wealth of well-educated and seasoned administrators, officials and employees, which allows it to perform in my view more efficiently than all of the abutting communities. In tough economic times, efficiency is at a premium. I continue to be very grateful for the practical assistance we receive on nearly daily basis from Norwell's administration, boards, commissions and departments.

Continuing a trend for the past several years, a substantial portion of the legal expense incurred by the Town of Norwell continues to be work involving low and moderate income housing projects known colloquially as "40B" projects. During 2008, there were two new projects filed on South Street and off Prospect Street, and a third project, permitted by the Zoning Board of Appeals off of White Barn Lane. The Town of Norwell and its boards, commission and departments examine carefully all projects proposed as 40B projects to ensure that local concerns including health, safety, environmental and general welfare concerns are appropriately considered and addressed in these projects

In addition to land use litigation, in 2008, as Town Counsel, we have been asked to attend and advise the Selectmen and Moderator during Town Meeting, render advisory opinions and respond to inquiries on a variety of other municipal issues including historical commission issues, wetland regulations, subdivision control law, property rights, open meeting issues, ethics, and other municipal issues. I am also called to draft, review and approve municipal contracts and have done so on many occasions during 2008.

I wish to conclude by thanking the various town officials, boards, commissions and departments for their support and cooperation. It is a privilege to be of assistance with your legal matters.

Respectfully Submitted,
Robert E. Galvin, Town Counsel
Robert W. Galvin, Asst. Town Counsel

REPORT OF THE INSPECTOR OF BUILDINGS/ZONING OFFICER

The Inspections Department would like to thank the senior volunteers for their much-needed contribution to our department. These good people help reduce the backlog of filing, recording, and general assistance that accumulates in the office. The permit numbers have leveled out. The volume is close to last years

with the revenue very close also. 40-B projects are progressing through the permitting boards and will add a burden when they come to the permitting and building stage. The new Residential Building code is now in effect and the Commercial or basic code will become total in March. The new codes reflect a bunch of changes in the building process. With the economy taking a hit it will be anyone's guess what the next year will bring.

RESIDENTIAL PERMITS

New Dwellings	21
Alterations/Renovations	119
Barns	3
Demolition Permits	8
Garages	9
Pools	15
Re-roofs	39
Tents	3

Tents	18
Misc./Decks/Sheds	7

PLUMBING AND GAS DEPARTMENT

There were 205 Plumbing Permits, 157 Gas Permits and 20 Hot Water Heater Permits issued in 2008 with the required rough and final inspections made for each.
Inspections are done on a per need basis.

Edward J. Geswell, Plumbing & Gas Inspector
John E. Hoadley, Alternate Inspector

WIRING INSPECTOR

The Office of the Inspector of Wires saw a decrease in permits for calendar year 2008. This office processed in approximately 430 electrical permits for the past calendar year. Requests for inspection included but were not limited to new construction, renovations, and additions, service installations, appliance upgrades, fire and security alarms, voice data and video, swimming pools, septic systems, and standby generators. The Office of the Inspector of Wires also responds to emergency requests from the Town of Norwell's Police and Fire Departments. The Inspector of Wires holds office hours at town hall Mondays thru Thursdays 3:00 to 4:00 PM.

The Electrical Inspector and Alternate wish to thank the entire Building Department as well as the other offices throughout the Town of Norwell for their continued assistance throughout this calendar year.

Respectfully submitted;
Charles J. Palmieri, Inspector of Wires
John Lunn, Alternate Inspector of Wires

BOARD OF APPEALS

During calendar year 2008, the Board scheduled public hearings on twenty-eight (28) meeting nights to review and act upon a total of twenty-seven (27) applications before it under M.G.L. c. 40A and c. 40B. Although most residential applications are closed in one evening, some commerical and all 40B applications take longer and are continued over several meeting dates.

Appeal of Action by Building Inspector	0
Site Plan Review/Special Permit	1
Site Plan Modification/Special Permit	1
Special Permit – Business C	1
Special Permit – Business B (variance request withdrawn)	1
Special Permit and Section 6 Finding – Nonconforming lots	22
Special Permit – In-law Apartment	1
Variance (withdrawn)	1
Sign Variance	3
Comprehensive Permits granted in 2008	2
Comprehensive Permits (under construction)	1
Comprehensive Permits (in public hearings)	2

The Board of Appeals spends a majority of its time as the permit-granting authority under M.G.L. c. 40B, the so-called "anti-snob zoning" law. This law affords a developer the opportunity to bypass many of the Town's zoning and planning regulations by increasing density over that allowed by right under the zoning bylaw in exchange for 25% affordable housing units within a proposed project. Any town that does not have 10% of its housing stock qualified as "affordable" in accordance with Department of Housing and Community Development (DHCD) rules remains subject to 40B applications.

The Board received an application for a proposed 200-unit 40B project located off of the end of Simon Hill Road and Prospect Street, which was denied by the Board with prejudice on April 8, 2008, due to failure of the Applicant to satisfy deficiencies in that application. MassHousing later issued a second Project Eligibility Letter to the Applicant for a reduced 84-unit project on a smaller parcel. A second Comprehensive Permit application was subsequently submitted in July 2008 to the Board, which is currently the subject of continuing public hearings that are well attended by local residents.

The Board also received an application in early July 2008, for a proposed 198-rental unit project abutting Route 3 off South Street. This application is in continuing public hearings and has generated much interest among local residents.

The Board approved with conditions a Comprehensive Permit application for a forty-four (44) unit condominium project, known as White Barn Village, located off Circuit and Forest Streets, on May 19, 2008. The Board's decision was appealed by the Applicant and is currently in litigation before the State Housing Appeals Committee (the HAC). The Board's decision was also appealed by abutters in a separate action.

The Comprehensive Permit application for the Damon Farm project, filed early in 2005, was approved with conditions on November 5, 2008. Twenty-four (24) ownership units are planned in Norwell at Queen Anne's Corner with eight (8) additional units to be located in Hingham. There was no appeal by any party with the Comprehensive Permit valid for two years.

A thirty-nine (39) unit 40B project, the decision for which was originally filed with the Town Clerk on October 3, 2003, remains under construction at 239 Washington Street. However, the Board continues to be involved in monitoring of construction and other aspects of that project. The Comprehensive Permits is currently valid until October 31, 2009.

Although the Tiffany Road Comprehensive Permit was granted, with conditions, by the Board on June 21, 2004, for construction of twenty-four (24) units, that decision remains under appeal at the Housing Appeals Committee (HAC) in an action against the Board by the Applicant and an abutter.

The Board issued a Comprehensive Permit for the twenty-four (24) unit Summer Street project on April 6, 2005. However, a parcel located in Scituate is the subject of a land dispute. The status of this project remains in question until all pending litigation is resolved.

The Board accomplished a full review of its Rules and Regulations during the past year, as approved at a public meeting by vote of the Board on July 22, 2008. Modifications also reflect changes in state regulations since the Board's prior revision in 2003.

The Board's application filing fees totaling some $7,400.00 during 2008, were added to the Town's general funds to help off-set application review costs. An increase in the Board's filing fee requirements, last modified in 2002, was approved by the Board on July 22, 2008, and received the subsequent required approval of the Board of Selectmen.

The Board maintains an active presence on the Town's office website at www.townofnorwell.net. The Town's zoning bylaw, the Board's Rules and Regulations, including instructions on how to file an application, public hearing application forms, and filing fee schedule are located on the Board's web pages. Meeting agenda, recent decisions of the Board, and other pertinent information are updated regularly. Paper copies of all forms can also be obtained at the Building Office, while copies of the Zoning Bylaw and the Board's Rules in both paper and electronic format are available for purchase at the Town Clerk's office.

The Board wishes to welcome its newest alternate member, Thomas P. Harrison, Esq., who was appointed in April 2008. Tom is a much welcomed addition and brings another well informed perspective to the Board.

The Board wishes to extend its thanks to Joanne Laroche, who performs double duties as the administrative assistant to both the Zoning and Building Offices, and to the Building Inspector, Tim FitzGerald, for their support. Further, the Board would like to recognize and acknowledge the cooperation and assistance of all Town boards, commissions, and departments that help in supporting its function.

It remains an honor and privilege to serve the residents of Norwell.

Respectfully submitted,
Lois S. Barbour, Chair
Philip Y. Brown, Vice Chair
Patrick J. Haraden, Special 40B Alternate

Thomas P. Harrison, Alternate
Michael E. Kiernan, Alternate, Clerk
Ralph J. Rivkind, Alternate
David Lee Turner

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

This update of work done from January 2008 through December 2008.

Tests of gas station motor fuel and diesel fuel dispensers in Norwell have been completed [82 dispensers]. Dispensers were adjusted as needed and sealed.

Testing of scales, apothecary, delicatessen, coffee shop, food shop, supermarket, propane tanks, school equipment [91 units] was completed. Testing of reverse vending and scanners was completed and sealed as necessary.

Total revenue received $2432.00.

All town owned sealer equipment has been tested and sealed by the Commonwealth of Massachusetts Weights and Measures Laboratory and found to be correct.

Massachusetts State Division of Sealer Certification credits have been completed. Monthly classes continue to keep all sealers up to date with the latest changes and requirements as mandated by the state. The annual report, as required by state law, will be filed before January 31, 2009. A copy of this report will be on file at the town hall.

The Commonwealth of Massachusetts General Law Chapter 98 sections 41 and 42, covering annual public notice to all persons having or using weighing or measuring devices in Norwell, has been legally posted.

Weights and Measures Tips for Consumers

Almost everything that we buy is sold by weight, volume, count or length. Some examples: a pound of hamburger, a gallon of milk, gasoline for your car, oil for your home, a dozen eggs, a cord of firewood.

Check your receipts, before you leave the store, if possible.

Check all represented prices – price on item, in flyer, on unit price tag, on signs- the lowest is correct.

Watch deli items being weighed- be sure tare (weight of container or wrapping, for which there can be no charge) is taken.

Use unit price labels to value shop.

Be sure scales and gas pumps start at zero.

Respectfully submitted,
Harold Tuttle
Sealer of Weights and Measures

RECORD OF PRESIDENTIAL PRIMARY — February 5, 2008

Pursuant to the Warrant, all eligible voters from Precinct One, Two and Three met at one centralized polling place, the Norwell Middle School, located at 328 Main Street, to cast their votes for candidates for the listed offices.

The following election workers were present:

In Precinct I, Ann Valair, WARDEN; Amy Locke, CLERK; Helene Quinn, Elaine Boyle, Frank Nagle, Barbara Vilardi, Eleanor (Deb) Bailey and Ellen Torrey, TELLERS:

In Precinct II, Lynne Rose WARDEN; Jean Valicenti, CLERK; Mary Ellen Wetzel, Susan Springer, Patricia Bordewieck, Mary Lizotte, Maureen Murphy and Ellie Mayers, TELLERS:

Precinct III Jeanne Scully WARDEN; B. Jean Snow, CLERK; Richard Callahan, Joan Shea, Paula Young, Patricia Leary and Judy Armstrong, TELLERS;

CONSTABLE on duty was Kevin J. Dalton.

CHIEF WARDEN over all precincts was Janice M. Lawson, Town Clerk.

Polls opened in all precincts at 7:00 A.M. After the 8:00 P.M. closing, tallies complied in each of the three precincts were brought to the office of the Town Clerk where the final tally of all precincts was made and publicly announced. Breakdown of the number of votes cast in each precinct is as follows:

In Precinct I 713 Democratic votes; were cast including 67 absentee; 505 Republican votes including 41 absentee; no votes for the Working Family Party, and no votes cast for the Green-Rainbow Party

In Precinct II 675 Democratic votes including 43 absentees were cast, 653 Republican votes including 41 absentee No Working Family votes, and no votes cast for the Green-Rainbow.

In Precinct III 677 Democratic votes including 34 absentees were cast, 606 republican votes were cast including 18 absentees. No Working Family Party votes, and no votes for the Green-Rainbow Party were cast.

Breakdown of TOTAL VOTES cast in all precincts is as follows: Democratic, 2067; Republican, 1765; A total of 3832 of the 7240 registered voters in Norwell exercised their right as citizens, which represents a 53% turnout.

Tallying in open meeting at the Town Clerk's office resulted in the following count of votes:

REPUBLICAN PARTY

TOWN OF NORWELL

WARRANT

Special Town Meeting and Annual Town Meeting

Monday, May 12, 2008

At 7:30 o'clock in the evening at Norwell Middle School
Henry E. Goldman Gymnasium

Plymouth, ss

To one of the Constables of the Town of Norwell, in said County of Plymouth, Commonwealth of Massachusetts.

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Norwell, who being qualified to vote in elections and Town affairs, to meet at the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street, in said Norwell, on Monday, the twelfth day of May, 2008 at 7:30 p.m.; then and there to act upon the enclosed articles, to wit:

In case all articles in the foregoing Warrant shall not be acted upon at the Meeting called for on Monday, May 12, 2008, to meet in Adjourned Sessions at such time and place as the meeting shall determine.

This building is accessible to the handicapped and designated parking is provided. If requested, at least one week before the meeting, warrants with large print can be available. Anyone requiring a Sign Language Interpreter should call the Town Clerk's office at least two weeks before the Special Town Meeting at 781-659-8072.

Town of Norwell
Report of the Advisory Board
April 8, 2008

To The Citizens of Norwell:

On Monday May 12, 2008 the Town of Norwell will hold its Annual Town Meeting, which will be preceded by a Special Town Meeting at the Norwell Middle School.

This is an opportunity for the citizens of Norwell to be involved in the financial future of our town. The Annual Town Meeting is a forum for the Townspeople to allocate resources as they see fit. Furthermore, it is an opportunity for your elected and appointed officials to present their recommendations as to the use of available resources to provide services to the town. Your attendance and participation are encouraged and appreciated.

The Town of Norwell will again face many of the same financial challenges for the fiscal 2009 budget season as it has in years past. The impact of decreased state aid, combined with increases in both fixed and variable town expenses, have caused both the Board of Selectmen and Advisory Board to request level service budgets from most departments. Some increases in town expenses, such as employee contracts, are contractual in nature. Other increases in expenses, such as energy costs, are market driven and somewhat unforeseen.

These increased expenses present the town with a significant challenge of maintaining services and providing a quality of life in Norwell that has come to be expected by our citizens. These services all must be provided within the framework of increases in revenue, capped by Proposition 2½. Accelerating increases in town expenses combined with limits to increases in revenue will remain the main theme and dilemma facing Norwell for years to come.

The Advisory Board, since January 2008, has held meetings and public hearings to discuss the entire town budget and articles which have been presented in this Town Meeting Warrant. The Advisory Board has developed its recommendations based on the testimony, discussions, and deliberations at those meetings. Furthermore, the Advisory Board recommendations have been made based on evaluating town priorities, expenses, and available revenue sources to fund them.

The Advisory Board would like to thank all Town Departments, Officials and Employees for their cooperation in the budgeting and Town Meeting preparation process. The following are the Advisory Boards recommendations for fiscal year 2009

THE NORWELL ADVISORY BOARD

Jason Brown, *Chairman*
Brian S. Noble
Ellen Allen
Spencer A. Joseph
Ralph Gordon

Peter Shea, *Vice Chairman*
Charles R. Dirk
J. Richard Hartigan

TOWN BUDGET

Glossary of Terms

Appropriation: An authorization to make expenditures and to incur obligations for specific purposes. An appropriation is granted by Town Meeting and is usually limited in time and amount as to when it may be expended. Any part of the general appropriation not spent or encumbered by June 30 automatically reverts to surplus. A specific appropriation is carried forward from year to year until spent for the designated purpose or transferred by Town Meeting vote to another account.

Assessed Valuation: A valuation set upon real or personal property by the Board of Assessors as a basis for levying taxes.

Budget: A plan of financial operation consisting of an estimate of proposed expenditures for a given period and the means of financing them. The budget is voted in the spring at Town Meeting for the fiscal year that begins the following July 1st.

Capital Budget: A plan of proposed capital outlays and the means of financing them for the current year.

Cherry Sheet: An annual statement received from the Massachusetts Department of Revenue detailing estimated receipts for the next fiscal year and the estimated state and county government charges payable. These amounts are used by the assessors in setting the tax rate. The actual receipts and charges may vary from the estimates.

Community Preservation Act (CPA): The Town adopted the Community Preservation Act (CPA) in 2002. This Act allows the town to collect a 3% surcharge on property tax bills (the funds can be matched up to 100% by the state when funds are available), which creates the Community Preservation Fund, to use for Community Preservation purposes. Each year, the town must appropriate, or reserve (but not necessarily spend), 10% of the funds for each of the three Community Preservation purposes: Open Space, Historic Resources, and Community Housing. The remaining 70% of the funds can be appropriated or reserved used for any of the three purposes and for Recreation and for administration.

Debt Service: Payment of interest and repayment of principal to holders of the Town's debt instruments.

Fiscal Year: A 12-month period, commencing July 1 and ending June 30, to which the annual budget applies. Fiscal years are often denoted FYXX with the last two numbers representing the calendar year in which it ends, for example FY07 is the fiscal year ended June 30, 2007.

Free Cash: Free cash is the portion of unreserved fund balance available for appropriation. It is not cash but rather is approximately the total of cash and receivables less current liabilities and earmarked reserves reduced also by reserves for uncollected taxes. This is also referred to as "available cash". The amount is certified annually by the Massachusetts Department of Revenue.

General Fund: The major town owned fund which is created with town receipts and which is charged with expenditures payable from revenues.

Grant: A contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specific purposes.

Line-Item Budget: A format of budgeting that organizes costs by type of expenditure such as expenses, equipment, and salaries.

Overlay: The amount set aside to allow for uncollected property taxes. An amount for overlay is added to the appropriations and other charges. The "Overlay Surplus" is the portion of each year's overlay account no longer required to cover property tax abatements.

Overlay Surplus: The unused amount of the overlay for prior years, which may be transferred, by vote of the Town, to the reserve account or used for extraordinary items.

Property Tax Levy: The amount produced by multiplying the assessed valuation of property by the tax rate. The tax rate is expressed "per thousand dollars" of assessed valuation.

Reserve Fund: Money set aside by Town Meeting to be allocated by the Advisory Board for extraordinary or unforeseen expenditures.

Stabilization Fund: A special reserve funded by Town Meeting for future expenditures.

Terms associated with Proposition 2½:

Debt or Capital Exclusion: The Town can assess taxes in excess of the levy limit by voting a debt exclusion or capital outlay exclusion. This amount does not become a permanent part of the levy limit base, but does allow the Town to assess taxes for a specific period of time in excess of the limit for payment of debt service costs or for payment of capital expenditures.

Excess Levy Capacity: The difference between the Town's tax levy limit and its actual tax levy for the current year. It is the additional tax levy that could be raised without asking for an override.

New Growth: The amount of property tax revenue that the Town can add to its allowable tax levy as a result of new construction, alterations, subdivisions or change of use which increases the value of a parcel of land by more than certain amounts.

Override: An amount, voted by the Town, which is permanently added to the levy limit. A majority vote of the Selectmen allows an override question to be put on the ballot. Override questions must be presented in dollar terms and must specify the purpose of the override. Overrides require a majority vote of approval by the Town.

Tax Levy Limit: The maximum amount of the tax levy for a period under the restrictions of Proposition 2½. It is calculated as the prior year limit plus new growth plus 2.5% of the prior year levy limit.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR SPECIAL TOWN MEETING

Monday, May, 12, 2008

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2008, said sum to be appropriated by the Town Accountant to the applicable line items in Article 2, or act on anything relative there to.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to fund compensation adjustments in FY2008 for those Town employees covered by a union or have personal contracts.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2008, said sum to be apportioned by the Town Accountant to the applicable lines in Article 2, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 3: To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 01-300-268-5532, Snow Removal and Sanding, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $290,000.

This Article transfers money in to the Snow Removal account to cover the deficit incurred during the winter.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 1-101-126-5110, Police Salaries, or act on anything relative thereto.

Requested by the Chief of Police

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 5: To see if the Town will raise and appropriate or appropriate from available funds a certain sum of money to line item 1-101-235-5210, Police General Expense or act on anything relative thereto.

Requested by the Chief of Police

The Advisory Board will make its recommendation at Town Meeting.

This Article will add money to the Police General Expense line to cover unanticipated expenses. The amount of money required is not fully known as of the publication date.

ARTICLE 6: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-45-216-5307, Legal, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article will add money to the Legal Expense line to cover incurred costs. The amount of money required is not fully known as of the publication date.

ARTICLE 7: To see if the Town will amend the Personnel Plan to add the definition of "Harbormaster" and approve its classification thereon as an unclassified position or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

At last years Town Meeting regulations for and authorization of a Harbormaster were approved. This Article adds the Harbormaster into the classifications of the Personnel Plan.

ARTICLE 8: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet increased fuel [gasoline] costs for Fiscal Year 2008, said sum to applied to line item 1-3-270-5410, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article covers the additional costs due to price increases for gasoline used in Town vehicles.

ARTICLE 9: To see if the Town will vote to transfer the sum of money for Open Space and/or Affordable Housing purposes, pursuant to Massachusetts General Law, Chapter 44B from the Community Preservation Fund for the purpose of purchasing a parcel of land. And to see if the Town will authorize the Community Preservation Committee to make application to the state "Self-Help" fund and the Board of Selectmen to purchase said property and designate it for conservation and/or affordable housing purposes, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article would request a transfer of funds to pay for the acquisition of land under the Community Preservation Act. As of the publication date, no land had been identified, presented or approved.

ARTICLE 10: To see if the Town will vote to transfer the sum of $30,000 or any other sum, from the Community Preservation Fund, pursuant to Massachusetts General Law, Chapter 44B for recreational purposes for the construction of improvements to public access to the two town landings on the North River at Bridge Street and at the end of Chittenden Lane. Said expenditures to be under the control of the Community Preservation Committee. Unexpended funds remaining in this article after project completion, if any, shall revert to the Community Preservation Fund, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article in the amount of $30,000.

This Article approves funding for improvements to the two town landings. The money is being appropriated from the Community Preservation Fund and does not affect the Town's operating budget.

ARTICLE 11: To see if the Town will vote to approve the transfer from the Community Preservation Fund for recreation purposes the sum of $100,000 or any other sum to be made available for the Town of Norwell's share of any federal, state, or private foundation matching grant program or programs to which the Norwell Pathways Committee shall make application for funding. Up to 25% of this Article may be expended by the Pathways Committee for outside consultants to help source grants and write applications. All expenditures from this article shall be approved by the Community Preservation Committee. Community Preservation Committee approval is also required prior to grant submission, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article authorizes the Town to match any grant awarded from the Federal or State Government. It also permits the Pathways Committee to hire professional assistance for sourcing grants and awards.

ARTICLE 12: To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 1-77-230-5175, Group Insurance, or act on anything relative thereto.

Requested by the Treasurer/Collector

The Advisory Board will make its recommendation at Town Meeting.

This Article allows the Town to cover the additional expenses incurred in Group Insurance. The exact amount was not determined prior to publication.

ARTICLE 13: To see if the Town will raise and appropriate, or appropriate from available funds or otherwise provide the sum of $15,000 to be expended under the direction of the Recycling Committee for the care and maintenance of the brush pile located at the Recycling Center, or act on anything relative thereto.

Requested by the Recycling Committee

The Advisory Board recommends in favor of this Article in the amount requested.

This Article provides funds to dispose of the brush pile properly.

ARTICLE 14: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with

the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if any funds are identified or available.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR ANNUAL TOWN MEETING

Monday, May 12, 2008

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2007 Annual Report, or act on anything relative thereto.

The Advisory Board recommends this Article.

This is a procedural article which authorizes the Town Meeting to receive the Annual Reports of Town Officers, Boards, Departments and Committees for 2007.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds, sums of money to defray the charges, expenses and salary obligations of the Town, including debt and interest, and out of state travel for the ensuing year, to provide for a Reserve Fund and to fix salaries and compensation for all Elected Officers of the Town, or act on anything relative thereto.

The Advisory Board recommendations are in the "Advisory Board Recommends" Column. The Advisory Board will make a budget presentation at Town Meeting to provide further details of our rationale and recommendations.

This Article authorizes the Town to accept the FY09 Town Budget, which begins on July 1, 2009.

TOTAL		***$638,820***	***$ 415,358***

or act on anything relative thereto.

Requested by the Capital Budget Committee

The Advisory Board recommends this Article in the amount of $415,358.

[1] To be expended under the direction of the Director of Tree & Grounds
[2] To be expended under the direction of the Permanent Building & Maintenance Committee
[3] Co-sponsored by the Recreation Department

This Article authorizes the Town to purchase the capital items on the schedule above. The Capital Budget Committee meets and prioritizes all of the capital budget requests before they are presented to the Advisory Board.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2009, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting. Not all the contracts have been settled.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered by a union or have personal contracts.

ARTICLE 5: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2009, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board recommends this Article in the amount of $30,000.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered under the Personnel Plan.

ARTICLE 6: To see if the Town will vote to amend the Personnel Plan Compensation Schedule based upon a wage and salary survey, dated March 2008, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board will make its recommendation at Town Meeting.

This Article would change the Personnel Plan based upon a salary survey conducted for the Personnel Board.

ARTICLE 7: To see if the Town will vote pursuant to the provisions of Massachusetts General Laws, Chapter 39, Section 10 to accept Hawthorne Lane as a public way, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article

This Article accepts Hawthorne Lane as a town road.

ARTICLE 8: To see if the Town will vote pursuant to the provisions of Massachusetts General Laws, Chapter 39, Section 10 to accept Edgewood Road as a public way, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

The Advisory Board expects this Article to be indefinitely postponed as the road is not yet prepared for acceptance.

ARTICLE 9: To see if the Town will vote to authorize the Board of Selectmen, pursuant to the provisions of Massachusetts General Laws, Chapter 82A related to Excavation and Trench Safety, including without limitation to designate a "Permitting Authority," to determine a schedule of fees for such activities; or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article is a result of a change in state regulations regarding trench safety. The new regulations require the appointing of a permitting authority.

ARTICLE 10: To see if the Town will raise and appropriate, or appropriate or transfer from available funds a sum of money for historical preservation purposes, pursuant to Massachusetts General Law Chapter 44B, Section 12, for the purpose of purchasing the "Sergeant Samuel Stetson House" at 85 Stetson Shrine, Assessors Map 73, Lot 9, Sheet 27C. Said purchase to be made by the Board of Selectmen on behalf of the Town of Norwell and subject to an Historic Preservation Easement (as defined in MGL Chapter 184) from the Board of Selectmen to an eligible non-profit entity executed at the time of purchase pursuant to MGL Chapter 44B, Section 12. Said Historic Preservation Easement shall be approved as to form and content by the Board of Selectmen and the Community Preservation Committee. The Selectmen may allow the property to be used by town departments or other third parties subject to the stated goals of generating sources of funds that can provide for the property's future maintenance and capital needs as well as manage the property in a fashion so as to periodically allow the Norwell community to make use of this historical asset. Or act on anything thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article authorizes the Board of Selectmen to negotiate to purchase an historic home for the purpose of preservation under the Community Preservation Act. The house in question is the oldest home in Norwell.

ARTICLE 11: To see if the Town will vote to amend the Town of Norwell By-Laws, Article XIV – Traffic Rules and Orders, Article 4, sub-section 1, by adding at the end thereof the following new section:

Section 6 – Handicapped Zones

Any person parking improperly in a designated handicapped zone without a valid and enforceable handicapped placard or license plate as issued by the Registry of Motor Vehicles, shall be subject to a fine of not exceeding $150.00 for the first offense, $200.00 for the second offense and $300 for the third and succeeding offenses.

or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article establishes the fines for the violation of parking in a handicapped parking spot.

ARTICLE 12: To see if the Town will vote to raise and appropriate or transfer from Community Preservation Fund revenues pursuant to Massachusetts General Laws Chapter 44B, or transfer from available funds or otherwise provide the sum of $150,000 for historical preservation purpose for the restoration and/or renovation of the Stetson Ford House, so-called. Said appropriation shall be contingent on the establishment of a revolving fund established pursuant to Mass General Laws Chapter 44, Section 53E1/2 administered by the Norwell Historic Commission such that fees from the rental and usage of the Stetson Ford House shall be deposited and the funds in this fund be used by the Norwell Historic Commission for the future maintenance and capital preservation needs of that property. The Norwell Historic Commission is authorized to rent the property in its discretion on terms other than fair market value with the established goals of both generating sufficient fee and rental income to provide in large part for the property's future maintenance and capital needs as well as to manage the property in a fashion so as to periodically allow the Norwell community to make use of this historical asset. The Community Preservation Committee shall approve all expenditures from this article and such approval may be made contingent at the Committee's sole discretion upon satisfactory progress of the development of a management, operating, and maintenance plan for the Stetson Ford House by the Norwell Historic Commission. Or act on anything thereto.

Requested by the
Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article allows the Historical Commission to make necessary repairs to the Stetson Ford House. The Stetson Ford House is owned by the Town of Norwell and is an historic site. The Town is obligated to provide for its care and upkeep.

ARTICLE 13: To see if the Town will vote to establish the Sergeant Samuel Stetson House Revolving Fund, pursuant to the provisions of Massachusetts General Laws Chapter 44, Section 53E ½, for the fiscal year beginning July 1, 2008, or take any other action relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article provides a revolving fund for the maintenance of the Sergeant Samuel Stetson House.

ARTICLE 14: To see if the Town will vote to establish the Stetson Ford House Revolving Fund, pursuant to the provisions of Massachusetts General Laws Chapter 44, Section 53E ½, for the fiscal year beginning July 1, 2008, or take any other action relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article provides a revolving fund for the maintenance of the Stetson Ford House.

ARTICLE 15: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be used for the purchase of Computer Technology Replacement and Upgrades, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board recommends in favor of this Article in the amount of $275,000. This is a similar article to one passed at last years Town Meeting and continues the process of replacing obsolete technology.

This Article authorizes the Town to purchase and replace technology equipment in the public schools.

ARTICLE 16: To see if the Town will vote to raise and appropriate, transfer from available funds the sum of $200,000, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends in this Article in the amount of $200,000.

This Article authorizes the Town to resurface Town Ways under the direction of the Highway Surveyor.

ARTICLE 17: To see if the Town will vote to raise and appropriate, transfer from available funds the sum of $65,000, or any other sum, to be expended under the direction of the Highway

Surveyor for resurfacing the Town of Norwell Highway Department Yard, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board does NOT recommend this Article. There is sufficient money for paving in the Highway Surveyors accounts and no additional money is necessary.

This Article would provide additional funds for the Highway Surveyor to pave at the Highway Barn.

ARTICLE 18: To see if the Town will vote to raise and appropriate, transfer from available funds the sum of $10,000, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing the Town of Norwell Tree & Grounds Department Yard, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board does NOT recommend this Article. There is sufficient money for paving in the Highway Surveyors accounts and no additional money is necessary.

This Article would provide additional funds for the Highway Surveyor to pave at the Tree & Grounds Barn.

ARTICLE 19: To see if the Town will appropriate a sum of money in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the Highway Surveyor, or meet the appropriation by taxation, by transfer or by borrowing, or any combination of the foregoing, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $340,448.

This Article authorizes the Town to appropriate and then receive its share of the "Chapter 90" (The Massachusetts General Law relating to repaving of public ways) monies from the State. There is no direct budget impact to this Article.

ARTICLE 20: To see if the Town will vote to transfer the sum of $38,000, or any other sum, from various years Overlay Surplus Account for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in the Town funded directly by the Town. This program is to be established pursuant to an agreement with the Council on Aging, the Board of Selectmen and the Board of Assessors, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends this Article.

This Article continues funding of the Senior Real Estate Tax Work-off Program administered by the Council on Aging.

ARTICLE 21: To see if the Town will vote to transfer the sum of $37,500, or any other sum, from the FY05 Overlay Surplus Account to be expended under the direction of the Board of Assessors for professional and contractual services in order for the Town to comply with the Massachusetts Department of Revenue requirements and Massachusetts General Law, Chapter 40, Section 56 in that the Town complete a cyclical inspection program in which every parcel shall be inspected once every nine years, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends in favor of this Article in the amount requested.

This Article allows the Assessors to employ professional assistance to complete the assessing responsibilities required by the state.

ARTICLE 22: To see if the Town will vote to amend Zoning By-Law Article II District Regulations, §2318 Common Driveways, by striking the existing Zoning Compliance Requirement of the bylaw and replacing it as shown under "Proposed New Language."

Existing Language:

Zoning Compliance Requirement: All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of the lots to be serviced by the driveway. The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.

Proposed New Language:

Zoning Compliance Requirement: All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of at least one of the lots to be served by the driveway. The common driveway shall access from the way common to each of the lots that it serves. The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.

Language Changes Shown Using "Review" Functionality:

Zoning Compliance Requirement: All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of at least one of the lots to be served by the driveway. The common driveway shall access from the way common to each of the lots that it serves. The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.

or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends in favor of this Article.

This Article changes the regulations relating to approving plans for a "common driveway" in a building plan.

ARTICLE 23: To see if the Town will vote to amend the Norwell Zoning Bylaws §2423 by striking said section and replacing it as shown under "Proposed New Language."

Existing Language:

2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 ½ stores in height, or 34 feet, in any Residential District and Business Districts A and B; 3 stories, or 40 feet, in Business District C, nor shall any dwelling unit in a Business District exceed 2 ½ stories, or 34 feet in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

Proposed Language:

2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 ½ stores in height, or 34 feet, in height in any Residential District and Business Districts A and B. No building and/or structure shall be erected or altered to exceed 5 stories, or 67 feet, in height in Business District C. No dwelling unit in any Business District shall exceed 2 ½ stories, or 34 feet, in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

Language Changes Shown Using "Review" Functionality:

2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 ½ stores ~~in height~~, or 34 feet, in height in any Residential District and Business Districts A and B. No building and/or structure shall be erected or altered to exceed; ~~3~~ 5 stories, or ~~40~~ 67 feet, in height in Business District C. ~~nor shall any~~ No dwelling unit in any Business District shall exceed 2 ½ stories, or 34 feet, in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends in favor of this Article.

This Article changes the Zoning Bylaws of the Town specifically in the allowed height of structures allowed in the Zoning Districts of the Town.

ARTICLE 24: To see if the Town will vote to amend the Zoning Bylaw by adding the following as Section 4850:

1) PURPOSE AND INTENT

a. Primary Purposes. The Primary Purposes for Open Space Residential Design (OSRD) are the following:
   1. To allow *for greater* flexibility and creativity in the design of residential developments.
   2. To encourage the permanent preservation of public open space, agricultural land, forestry land, wildlife habitat, and other natural resources including aquifers, water bodies and wetlands, and historical and archeological resources in a manner that is consistent with Norwell's Master Plan and Open Space Plan.
   3. To encourage a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features better than a conventional subdivision.
   4. To minimize the total amount of disturbance on the site.
   5. To further the goals and policies of Norwell's Master Plan and Open Space & Recreational Plan.
   6. To facilitate the construction and maintenance of housing, streets, utilities, and public service in a more economic and efficient manner.
   7. To facilitate the construction and maintenance of public trails and associated amenities to enhance the pedestrian experience.

b. Secondary Purposes. The Secondary Purposes for OSRD are the following:
   1. To preserve and enhance the Town's character.
   2. To protect and enhance the value of real property.
   3. To protect the Town's water supplies.
   4. To provide for a diversified housing stock.
   5. To protect agriculturally significant land.

2) ELIGIBILITY FOR OSRD SPECIAL PERMIT APPROVAL

a. Applicability. Special permits for OSRD Definitive Subdivisions are allowed in all residential districts.

b. Minimum Size of Subject property. To be eligible for consideration for an OSRD Special Permit, the subject property shall contain a minimum of five acres. The Planning Board may consider proposals on smaller parcels if the land offers opportunities for contiguous open space and the Planning Board deems that the design satisfies the purpose and intent of this bylaw.

c. Contiguous Parcels. The Planning Board may determine that two or more parcels separated by a road or other man-made feature are "contiguous" for purposes of this section if they satisfy the purpose and intent of this bylaw.

3) PRE-APPLICATION CONFERENCE

a. Pre-Application Conference. The applicant is required to attend a pre-application conference, which may occur at one or more regular meetings of the Planning Board. The parties at the pre-application conference shall discuss the OSRD design process and criteria set forth in this bylaw. The Planning Board shall invite to the pre-application conference the Conservation Commission, Board of Health, and any other Town officers or representatives whose input is deemed by the Planning Board to be necessary and in the Town's best interest. The purpose of a pre-application conference is to attempt to minimize the applicant's costs of engineering and other technical experts, and to discuss the proposal with the Planning Board at the earliest possible stage in the development.

b. Timetable. At the pre-application conference, the applicant shall outline the

proposed OSRD project, seek preliminary feedback from the Planning Board and/or its technical experts, and set a timetable for submittal of the Pre-application Conference submittals.

c. Technical Expert. The Planning Board shall discuss engaging technical experts at the expense of the applicant to review the submittals required for the OSRD Special Permit.

d. Pre-application Site Visit. The Planning Board may require a site visit in order to better understand the site and facilitate pre-application review of the OSRD proposal.

4) PRE-APPLICATION CONFERENCE SUBMITTALS

a. Site Context Plan. This plan shall identify the subject parcel in connection to its surroundings. Based on existing data sources (including all state and local natural resource maps such as the National Heritage Endangered Species Program Priority and Estimated Species maps), field inspections and the evaluation of the Norwell 2005 Master Plan Maps (including the "Natural Resources with Priorities" map), the Site Context Plan shall identify Primary and Secondary Conservation Areas, as described in §6) a.1., within the proposed parcel and show all major natural resource areas or features, including those that cross parcel lines and those that are located on adjoining lands. This plan will enable the Planning Board to understand the site in relation to adjacent properties.

b. Existing Conditions / Site Analysis Plan. This plan shall identify all easements and visible features on the property. Based upon existing data sources and field inspections, this plan shall locate and describe noteworthy resources that could be protected through sensitive subdivision layouts. These resources shall include but are not limited to wetlands, vernal pools, wetland buffer zones, riverfront areas, floodplains, slopes over 20%, mature non-degraded woodlands, hedgerows, farmland, unique or special wildlife habitats, historical or cultural features (such as old structures or stone walls), geologic formations, solar orientation and scenic views into and out from the property. By overlaying this plan onto a development plan, the parties involved can clearly see where conservation priorities and desired development overlap or conflict.

c. Enhanced NRCS Soils Map. This map will identify the suitability of the soils and soil types for the stormwater treatment areas and, if proposed, the location of any communal or off-lot septic systems. All previously completed percolation test results, depth to groundwater test holes and soil logs shall be shown on the map. The information depicted on Site Context Plan and the Existing Conditions / Site Analysis Plan may be consolidated onto the Enhanced NRCS Soils Map, if practical.

d. Photographs. Photographs of the site and significant resources shall accompany the Pre-Application Conference Submittals if the Planning Board requests them to garner a better understanding of the subject property.

5) APPLICATION FOR OSRD SPECIAL PERMIT & SUBMITTALS

a. Special Permit Required. The Planning Board, acting as the special permit granting authority (SPGA), may authorize an OSRD Special Permit for OSRD Subdivisions pursuant to the procedures outline below.

b. Application. An application for an OSRD Special Permit shall be submitted on the Norwell Planning Board "Form O". Seven total copies of the application and the Yield Plan shall be required. In addition, the applicant shall also submit seven copies of the Site Context Plan, the Existing Conditions / Site Analysis Plan and the Enhanced NRCS Soils Map, showing any changes requested during the §4 Pre-application conference.

c. Yield Plan. The maximum allowable number of house lots in an OSRD Definitive Subdivision Plan shall be shown on a Yield Plan. The calculated number of lots

shall be a guide, and the Planning Board, using the following guidelines shall determine the total number of lots. The maximum number of lots shall be calculated using the following approach:

1. Determine total land area expressed in square feet, then
1. Subtract all wetland areas expressed in square feet, then
2. Multiply this subtotal by 0.9, then
3. Divide this subtotal by 43,560 (any non-integer number shall be rounded down to the nearest integer).

The equation for this calculation is:

(Total land area* – area of wetlands*) x .9 / 43,560 = allowable lots

*areas expressed in square feet

d. Development Plan. The Development Plan shall bear the seal and certification of a registered Landscape Architect, or a multidisciplinary team of which one member is a registered Landscape Architect. The plan shall show the general features of the subject parcel and identify the proposed open space and developable areas defined by §6 of this bylaw. The Landscape Architect shall include a brief narrative on the plan that describes the characteristics of the planned open space. The Development Plan shall also contain the information required for a Preliminary Subdivision Plan, as set forth in §5.0 of the Planning Board's most current Subdivision Rules and Regulations. The Planning Board shall vote to formally acknowledge the submittal of a Development Plan that is determined to be substantially complete.

6) OSRD DEVELOPMENT PLAN DESIGN

a. Design. Applicants shall demonstrate to the Planning Board that the following OSRD design process was followed in determining the layout of proposed open space, streets, and house lots:

1. Conservation Areas. First, Primary Conservation Areas (such as wetlands, riverfront areas, and floodplains regulated by local, state and federal law) and Secondary Conservation Areas (including unprotected elements of the natural landscape such as steep slopes, mature woodlands, prime farmland, meadows, wildlife habitats and cultural features such as historic and archeological sites and scenic views) shall be identified and delineated. Second, the Potentially Developable Area will be identified and delineated. Land identified as Potentially Developable shall not be located in any Primary Conservation Areas, or to the maximum extent feasible, in any identified Secondary Conservation Areas.
2. Locate House Sites. Locate the approximate sites of individual houses within the Potentially Developable Area and include the delineation of private yards and shared amenities, so as to reflect an integrated community. The shared amenities should be located so that the number of homes enjoying the amenities shall be maximized.
3. Align the Streets and Trails. Align the streets to access the house lots. Additionally, new trails should be laid out to create internal and external connections to existing and/or potential future streets, sidewalks, and trails on and abutting the subject parcel.
4. Lot Lines. Draw in the lot lines.

b. Reduction of Dimensional Requirements. In an OSRD development, the Planning Board may authorize a reduction in any of the Intensity of Use and Dimensional requirements in the Zoning Bylaw. The following minima shall apply:

1. Lot frontage shall not be less than 50 feet.
2. Lot size shall not be less than one-half acre of upland. No area within

the 50-foot wetlands buffer strip may be included in determining compliance with this requirement.

3. No building or structure shall be erected, placed or added so as to extend within 25 feet of the front property line, nor within 10 feet of the side or rear property line.
4. No two points on lot lines shall be less than 50 feet apart except where the shortest distance between such points, measured along the perimeter of the lot, is less than or equal to 150 feet.
5. Lot shall be exempt from §2432 & §2450 of the zoning bylaw.
6. Only lots on the street to be created by the OSRD subdivision Special Permit are to benefit from the reduced area, setback, and frontage requirements. No reductions of frontage, setbacks and area shall be allowed on any lot that fronts on an existing way not created via OSRD Special Permit.

c. Open Space Requirements. A minimum of 50% of the upland on the subject property shown on the approved Development Plan shall be permanently protected as open space. Any proposed open space, unless conveyed to Norwell's Conservation Commission, shall be subject to a recorded conservation restriction, providing that such land shall be perpetually kept in an open state and be preserved exclusively for the purposes set forth herein, and that it shall be maintained in a manner consistent with its intended purpose as open space.

1. The open space shall be contiguous. Open space may still be considered contiguous if a roadway or an accessory amenity separates it. The Planning Board may also determine open space contiguous if separated by wetlands or other Primary Conservation Areas. The Planning Board may waive this requirement for all or part of the required open space within the OSRD Definitive Subdivision where it is determined to the satisfaction of the Planning Board that allowing non-contiguous open space will promote the goals of this bylaw and/or protect identified Primary and Secondary Conservation Areas.
2. The open space shall be used for wildlife habitat and conservation and any of the following additional purposes: historic preservation, recreation, walking trails, bike paths, view vistas, parklands, agriculture, horticulture, forestry, or a combination of these uses. Whatever use is proposed shall be served by suitable access for such purposes. The Planning Board may allow open space uses not specified in this section if the Planning Board considers the use consistent with the purpose and intent of this bylaw.
3. Disturbed Areas within Open Space. Not more than one half of dedicated open space shall be disturbed or altered. A disturbed area is any land not left in its natural state. At the option of the Planning Board, other areas may be considered as contributing towards this requirement where the Development Plan includes the restoration of the area to a more natural condition, for example, where an abandoned gravel pit will be regraded and replanted with vegetation consistent with its surroundings.
4. Open space shall not include land set aside for the road's right-of-way.
5. Subject to the approval of the Board of Heath, as otherwise required by law, the Planning Board may permit a portion of the dedicated open space to be used for components of sewerage disposal systems serving the subdivision, when the Planning Board finds that such use will not be detrimental to the character or quality of the open space or wetlands. "Decentralized Cluster Wastewater Systems" or communal sewerage disposal systems shall not be allowed within the dedicated open spaces if they have mounding that does not comport with the surrounding grades.

6. Engineered drainage systems, such as retention, detention and infiltration ponds, shall not be allowed within the open space except where specifically permitted by the Planning Board under §6) e. 6. Underground infiltration systems or other Low Impact Drainage systems [as defined by §6) f] shall be allowed within the open space subject to an agreement that the proposed road and drainage system will remain private in perpetuity.
7. Communal buildings and structures that are accessory to the open space shall not be allowed within the dedicated open space unless the Planning Board deems that their location therein satisfies the purpose and intent of this bylaw.
8. Ownership of the Open Space. The open space shall, at the applicant's election and subject to the approval of the Planning Board, be conveyed to either the Town's Conservation Commission, or a nonprofit organization or land trust whose principal mission is the conservation and protection of open space, or to a corporation or trust owned jointly or in common by the owners of the lots within the proposed OSRD Definitive Subdivision.
9. The protected open space must be clearly delineated on the ground with permanent markers before any building permits are issued and the Planning Board may require the installation and maintenance of reasonable permanent signage in order to delineate such areas.

d. Roadway Design and Construction. Streets in OSRD Definitive Subdivisions shall meet the typical subdivision cross-section, as set forth in the most recent Planning Board Rules and Regulations. The Planning Board reserves the right to waive strict compliance with the typical cross-section if the specific waivers comply with the purpose and intent of this bylaw and are in the public's interest.
    1. Street Design. Streets shall be designed and located in such a manner as to maintain and preserve natural topography, significant landmarks, and trees; to minimize cut and fill; and to preserve and enhance views and vistas on or off the subject parcel. Street design and the proposed cross-section, including all requested waivers, shall be a part of the Development Plan and be referenced in the Special Permit decision.
    2. Dead end roads. Dead end roads with a maximum length of up to 1000 feet measured from the centerline of the nearest intersecting through street to the end of the subdivision way are allowed in OSRD Definitive Subdivisions.
    3. Dead End Road Length & Buffer. When OSRD dead-end roads exceed 550 feet in length, measured from the centerline of the nearest intersecting through street to the end of the subdivision way, dedicated open space should be provided for a distance of at least 100' along the length of the existing street from which the subdivision derives its frontage.
    4. Common/Shared Driveways. A common or shared driveway may serve a maximum number of 3 single-family units. Common Driveways shall be permitted as per §2318 of the Norwell Zoning Bylaw.
    5. Pedestrian and Bicycle Circulation. Walkways and bicycle paths shall be provided to link residences with recreation facilities (including parkland and open space) and adjacent land uses where appropriate. The Planning Board will strongly encourage that such amenities be designed so as to link to like facilities adjacent to the subject parcel. If no such facilities exist and the property abuts land that may be further developed in the future, the Planning Board may require that a reserve access strip be created to facilitate connection to future developments.

e. Screening, Landscaping, and Buffer Areas. In addition to the stated requirements elsewhere in the zoning bylaw, the following shall be required for OSRD Definitive Subdivisions.

1. All surface stormwater management facilities shall be accompanied by landscape plan, signed and sealed by a registered Landscape Architect. The landscape plan shall screen surface stormwater management facilities from both dwelling and roadside views.
2. Roadside and Adjacent Property Buffer Areas. A vegetated buffer of at least 100 feet is encouraged along existing ways adjacent to the subdivision. The subdivision roadway and any common driveways necessary for access and egress to and from the subject property may cross such buffer areas. A vegetated buffer of at least 75 feet is encouraged along developed residential property adjacent to the subdivision. None of the existing vegetation in these buffer areas should be disturbed, destroyed or removed, except for normal maintenance of structures and landscapes approved as part of the project. The Planning Board may waive this buffer requirement when it determines that doing so is not inconsistent with the purpose and intent of this bylaw. The Planning Board may require additional plantings in a buffer area if the existing vegetation does not provide adequate screening.
3. Resource Buffer Areas. A natural vegetated buffer at least 100 feet deep shall be preserved along ponds, wetlands, vernal pools, streams and riverfront areas on or adjacent to the property. The Planning Board may waive this buffer requirement when it determines that doing so is not inconsistent with the purpose and intent of this bylaw.
4. The landscape shall be preserved in its natural state, insofar as practicable, by minimizing tree cutting and the alteration of natural grades. The orientation of individual building sites shall be such as to maintain maximum natural topography and cover.
5. The removal, disturbance or disruption of historic or cultural structures, or architectural elements shall be minimized insofar as practicable, whether these exist on the site or on adjacent properties. If such elements exist, the applicant shall submit a narrative explaining how said interests are being preserved or how removal, disturbance or disruption is being minimized.
6. Subject to the approval of the Planning Board and the Conservation Commission, wastewater and stormwater management systems may be located within buffer areas.

f. Stormwater Management. The Planning Board encourages the use of non-structural stormwater management techniques such as swales, bio-retention areas, rain gardens and other Low Impact Development drainage techniques that reduce impervious surface and promote groundwater recharge. Drainage requirements for OSRD Definitive Subdivisions shall meet the requirements of the Planning Board's Rules and Regulations and current DEP Stormwater Management Requirements.

g. Site Visit. Whether or not conducted during the pre-application stage, the Planning Board may conduct a site visit during the project review process. The applicant and/or its agents shall accompany the Planning Board and/or its agent if a site visit was not performed during the pre-application process.

h. Compliance with Rules and Regulations. OSRD Definitive Subdivision Plans shall adhere to all of the Planning Board's current Rules and Regulations unless provisions of such regulations are specifically addressed within this bylaw.

7) DECISION OF THE PLANNING BOARD: OSRD SPECIAL PERMIT

a. Special Permit Approval. The Planning Board will hold a public hearing in accordance with MGL c. 40A, §9, and approve, approve with conditions, or

disapprove an OSRD Special Permit within 45 days of receiving an OSRD Special Permit and acknowledged Development Plan. Upon the written mutual agreement of the applicant and the Planning Board, the 45-day Special Permit decision period may be extended at any time. The OSRD Special Permit Decision and the corresponding Development Plan shall be filed with the Town Clerk and the decision shall be provided to the applicant via regular mail. Upon receipt of the Planning Board's written decision regarding the Development Plan, the applicant may submit an OSRD Definitive Subdivision Plan. Planning Board approval of an OSRD Special Permit requires that any OSRD Definitive Subdivision Plan be substantially compliant with the Special Permit and corresponding Development Plan.

b. *The Planning Board may approve the OSRD Special Permit if it finds that the proposed development has less detrimental impact on the subject property and the abutting neighborhood than a conventional definitive subdivision, after considering the following factors:*
    1 The Development Plan achieves greater flexibility and creativity in the design of residential developments than a conventional subdivision.
    2 The Development Plan promotes permanent preservation of open space, agricultural land, forestry land, other natural resources including water bodies and wetlands, and historical and archeological resources.
    3. The Development Plan promotes a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features better than a conventional subdivision.
    4. The Development Plan reduces the total amount of disturbance land on the site.
    5. The Development Plan furthers the goals and policies of Norwell's Open Space and Master Plan.
    6. The Development Plan facilitates the construction and maintenance of streets, utilities, and public service in a more economical and efficient manner.
    7. The Development Plan facilitates the construction and maintenance of trails and associated amenities to enhance the pedestrian experience.
    8. The Development Plan complies with the purpose and intent of this bylaw.

c. *Any OSRD Special Permit approval must be followed by the submittal of an OSRD definitive subdivision plan in accordance with the Norwell Planning Board's Rules and Regulations. The OSRD definitive subdivision plan shall not be approved unless the plan is substantially consistent with the approved Development Plan. A determination of substantial inconsistency will be based on following conditions:*
    1. An increase in the number of building lots.
    2. A material decrease in the open space acreage or lot layout.
    3. A material change in the general development pattern which adversely affects natural landscape features and open space preservation.
    4. Material changes to the stormwater or wastewater management facilities.

d. *The Planning Board may modify an existing OSRD Special Permit when the subsequent OSRD definitive subdivision plan, in the opinion of the Planning Board, more fully satisfies the purpose and intent of this bylaw. The Planning Board may also require that the Development Plan be modified so as to comply with the material changes identified by the Planning Board before the modified OSRD Special Permit is approved.*

e. *The Planning Board, in its discretion, shall have the authority to adopt rules and regulations consistent with this bylaw.*
f. *If any provision of this bylaw, in whole or part, shall prove to be invalid for any reason, such invalidity shall only affect the part of such provision found invalid. In all other aspects, all provisions of this bylaw will remain in full force.*

Or act on anything relative there to

Requested by the Planning Board

The Advisory Board will make its recommendation at Town Meeting. As of the publication date the Planning Board had not completed its deliberations.

This Article if approved would provide an alternative residential design to be incorporated into the Zoning Bylaws of the Town.

ARTICLE 25: To see if the Town will vote to amend the General Bylaws by adding the following regarding scenic roads, to be effective May 15, 2008:

Town of Norwell Scenic Road General Bylaw

Section 1. Authority and Purpose:

a. Authority –This article is adopted under authority of MGL c. 40, §15C (Scenic Roads) and MGL c. 40, §21.
b. Purpose –The purpose of this article is to provide a clearly defined public process and procedure for the implementation of the Scenic Road Act. The provisions of this act should ensure that:
   1. The semi-rural, natural, historic and scenic character of the Town's roads (as defined herein) is maintained.
   2. The need to preserve the character of scenic roads is balance by the Town's need to efficiently maintain roads, acknowledging that roads serve a transportation function for pedestrians and bicyclists, as well as motorized vehicles.
   3. That Town roads will be recommended for designation as scenic roads in accordance with the criteria set forth in this article.
   4. That trees (as defined herein) and stone walls within the right-of-way of all designated scenic roads will not be altered without the required Planning Board public hearing, nor without following the other procedures set forth in this article.

Section 2. Definitions:

For terms not qualified or defined in MGL c. 40, §15C (Scenic Roads), the following meanings shall apply for the purposes of this bylaw:

Abutter –all property owners, including those across the street, abutting the property where work requiring a scenic road hearing is required.

Branch –A living branch that is fully attached to a tree (as defined herein) and that has a diameter of three inches or more, 12 inches from the point at which said branch connects to the tree.

Cutting or Removal of Trees –The removal of one or more trees, trimming of branches (both as defined herein) or cutting of roots sufficient in the Tree Warden's written opinion to cause eventual destruction of the tree. This definition does not apply to clearing nuisance growth, routine or emergency tree maintenance that removes only permanently diseased or damaged limbs, trunks, roots and dead whole trees or thinning crowded tree as determined by the Tree Warden.

Posting –The marking of a tree or stone wall along a road for the purpose of a

or act on anything relative thereto.

Requested by the Planning Board and
the Historical Commission

The Advisory Board recommends in favor of this Article.

This Article establishes a procedure to be followed for the naming and adoption of scenic roads within the Town.

ARTICLE 26: To see if the Town will vote to raise and appropriate, or transfer from available water funds or authorize borrowing up to $910,000.00 for the purpose of replacing existing municipal wells and renewing associated pumping facilities to increase capacity and efficiency of existing sources of water supply; that to meet this appropriation, the Treasurer, with the approval of the Board of Selectmen, is authorized to borrow the appropriated sum of money under MGL, Chapter 44, Paragraph 8, to be spent under the direction of the Board of Water Commissioners, or act on anything relative thereto.

Requested by the
Board of Water Commissioners

The Advisory Board recommends in favor of this Article in the amount requested.

This Article authorizes the Town to borrow the money necessary for the replacement of some existing wells and the maintenance of others.

ARTICLE 27: To see if the Town will vote to raise and appropriate, or transfer from available funds the sum of $14,000, or any other sum, to be expended under the direction of the Recycling Committee for the care and maintenance of the brush pile located at the Recycling Center, or act on anything relative thereto.

Requested by the Recycling Committee

The Advisory Board recommends in favor of this Article in the amount requested.

This Article provides funds for the maintenance of the brush pile in FY2009.

ARTICLE 28: To see if the Town will vote to authorize the Board of Selectmen to sign a five year extension of the Intermunicipal Agreement relative to the South Shore Recycling Cooperative, effective July 1, 2008, or act on anything relative thereto.

Requested by the Recycling Committee

The Advisory Board recommends in favor of this Article.

This Article is a housekeeping article and is necessary to continue our community recycling efforts.

ARTICLE 29: To see if the Town will vote to allow the Wind Turbine Committee (also known as the Wind Power Committee) appointed pursuant to Article 63 of the 2007 Annual Town Meeting to report at the 2009 Annual Town Meeting. In addition to considering issues of wind power as outlined in the aforementioned Article, the Committee may at its discretion consider and propose to Town Meeting and/or relevant Town officials and Boards additional ideas to save energy costs and/or use cleaner energy in Norwell, including the proposing of regulations and zoning bylaws that enhance clean energy use. The Wind Power Committee is authorized to initiate a study of municipal energy aggregation under MGL Chapter 164, Section 134 and to make any recommendation to the Town.

As the Selectmen make appointments to the Committee, the Selectmen shall determine the terms of office of the committee members and may re-appoint member to expiring terms at their discretion. The Selectmen shall in their discretion determine the appropriate timing for the termination of the committee's charter and shall notify the committee at least 60 days in advance to conclude its activities, or act on anything relative thereto.

Requested by the Wind Power Committee

The Advisory Board recommends in favor of this Article.

This Article clarifies the role and expectations of the Wind Power Committee.

ARTICLE 30: To see if the Town will vote to raise and appropriate, or transfer from available funds or otherwise provide a sum of money, for the purpose of a Feasibility Study performed in conjunction with the Renewable Energy Trust, Department of Energy and Telecommunications, or other agency of the Commonwealth of Massachusetts. Said funds will be expended under the direction of the Town of Norwell Wind Power Committee, or act on anything relative thereto.

Requested by the Wind Power Committee

The Advisory Board recommends in favor of this Article in the amount of $30,000.

This Article allows the Wind Power Committee to study the renewable energy options available within the Community.

ARTICLE 31: To see if the Town will vote to adjust the Outreach Coordinator position in the Personnel Classification Plan from Grade 10, Step 6 to Grade 11, Step 6. This upgrade to represent a total salary increase of approximately $3,300, or act on anything relative thereto.

Requested by the Norwell Council on Aging

The Advisory Board does NOT recommend this Article. The Advisory Board agrees with the Personnel Committee. The Personnel Plan, approved by Town Meeting, recognizes changing the classification of a position if there has been a change in responsibility.

This Article would reclassify the Outreach Coordinator at the Council on Aging.

ARTICLE 32: To see if the Town will vote, pursuant to Massachusetts General Laws, Chapter 44B, to reserve the sum of $130,000 or another sum, from FY2009 revenues, for the creation, preservation and support of affordable housing; to reserve the sum of $130,000, or another sum, from FY2009 revenues, for the acquisition, preservation, rehabilitation and restoration of historic resources; and to reserve the sum of $130,000 or another sum, from FY2009 revenues, for the acquisition, creation and preservation of open space, or take any other action relative thereto.

Requested by the Community
Preservation Act Committee

The Advisory Board recommends this Article in the amount requested for each category.

This Article authorizes the Town to segregate 10% of annual revenues form the Community Preservation Fund into each of the required categories – Open Space, Affordable Housing, and Historic Rehabilitation and Restoration.

ARTICLE 33: To see if the Town will vote to approve the transfer from the Community Preservation Fund FY2009 Revenues for recreation purposes the sum of $200,000 or any other sum, to be used by the Norwell Pathways Committee for the design, permitting and construction of or improvements to any pedestrian or bicycle pathways in the Town of Norwell. Such expenditures may include the purchase by the Board of Selectmen of land or easements if the Committee determines it desirable. All proposed projects under this article shall be subject to site planning review by the Norwell Planning Board. Expenditures shall be approved by the Community Preservation Committee and must be co-signed by the Planning Board chair (or designee) that site review has taken place, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article will provide money to construct or improve pedestrian and bicycle paths within the Town.

ARTICLE 34: To see if the Town will vote to transfer a sum of money from the Community Preservation Fund for Open Space purposes to conduct a survey of Stetson Meadows property, so-called, and appropriately record the relevant portion of the property under conservation protection, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

As of the publication date, the Community Preservation Committee had not determined the status of this request.

ARTICLE 35: To see if the Town will vote to approve in accordance with Massachusetts General Laws Chapter 98, Section 37 the following Sealer of Weights and Measures fees:

DEVICE	Legal Sealing Fees	DEVICE	Legal Sealing Fees
BALANCES & SCALES		**LIQUID MEASURING METERS**	
Over 10,000 lbs.	$150.00	Inlet more than 1"	$50.00
1,000 to 5,000 lbs.	$75.00	Vehicle Tank Pump	$50.00
100 – 1000 lbs.	$35.00	Vehicle Tank Gravity	$50.00
10 – 100 lbs.	$15.00	Bulk Storage	$50.00
10 lbs. Or less	$15.00	Company Supplies Prover	$50.00
Apothecary scales	$25.00		
		PUMPS (GASOLINE & DIESEL)	
Weights		Each Dispenser	$15.00
Avoirdupois (each)	$1.50		
Metric (each)	$1.00	Linear Measures	
Apothecary (each)	$1.00	Yard Sticks	$8.00
Troy (each)	$1.00	Tapes	$8.00
Pharmacy Pill Counter	$25.00	Fabric Measure	$15.00
Capacity Measures		Wire, Rope, Cordage	$10.00
Vehicle Tanks			
Each Indicator	$10.00	Other Devices	
Each 100 gal. (or fraction thereof)	$30.00	Reserve Vending	$10.00
Liquid		Taxi Meters	$100.00
1 gallon or less	$10.00	Odometer, Hubodometer	$8.00
More than 1 gallon	$10.00	Leather Measures	$8.00
		Scanners (3 or less)	$75.00
Liquid Measuring Meters		Scanners (4-11)	$150.00
Inlet ½" or less:		Scanners (more than 11)	$250.00
Oil, Grease	$15.00		
Inlet more than 1/2'" to 1"		Adjusting Fees	
Gasoline	$15.00	½ of legal sealing fee	
Diesel	$15.00	Re-Inspection fee	
		Equipment failed initial test plus cost of current fee of device	$15.00

or act on anything relative thereto.

Requested by the Sealer of
Weights and Measures

The Advisory Board recommends in favor of this Article.

This Article updates the fees charged by the Town for the inspection of measuring devices within the Town.

ARTICLE 36: To see if the Town will vote to designate Cross Street, Forest Street and Summer Street as scenic roads pursuant to the Massachusetts Scenic Roads Act, MGL Chapter 40, Section 15C, or act on anything relative thereto

Requested by the Historical Commission

The Advisory Board will make its recommendation at Town Meeting. As of the publication date, the Historical Commission had not completed its public hearings.

This Article designates Cross, Forest and Summer Streets as Scenic Roads.

ARTICLE 37: To see if the Town will vote to amend the Town of Norwell Zoning By-Law, Article III, Section 3400, Building demolition, subsection (d) Procedure, paragraph 7, by striking the words "six (6) months" where ever they appear and replacing them therein with the following: "one (1) year", or act on anything relative thereto.

Requested by the Historical Commission

The Advisory Board recommends in favor of this Article.

This Article does not change the intent of the demolition bylaw or remedies under the law. It does extend the delay of demolition by an additional six months to help the Historical Commission identify alternatives to outright demolition.

ARTICLE 38: To see if the Town will vote to instruct the assessors to automatically eliminate the 3% surcharge for the community preservation act from the real estate tax bill for any resident senior over the age of 68 starting with the 2008 tax bills, or act on anything relative thereto.

Requested by a Citizen's Petition

The Advisory Board does NOT recommend this Article. There are already exceptions built in to the Community Preservation Act for low-income senior citizens that qualify. In addition, the first $100,000 of assessed value is exempted for all residential parcels to provide further relief.

This Article authorizes the Town to exempt all Norwell residents over the age of 68 from the Community Preservation Surcharge.

ARTICLE 39: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $4,000 to contract with the South Shore Women's Resource Center for domestic violence intervention and prevention services for its residents, or act on anything relative thereto.

Requested by a Citizen's Petition

The Advisory Board recommends this Article in the amount of $2,000.

This Article authorizes the Town to pay for services provided to Norwell residents.

ARTICLE 40: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $2,500 for the Womansplace Crisis Center in fiscal year 2009 for services provided to the sexual assault survivors and their families, or act on anything relative thereto.

Requested by a Citizen's Petition

The Advisory Board recommends this Article in the amount of $2,000.

This Article authorizes the Town to pay for services provided to Norwell residents.

ARTICLE 41: To see if the Town will vote to amend the Town of Norwell General by-laws, by adding at the end thereof the following new section:

Section ____ - Right to Farm By-law

Right To Farm By-Law

Section 1: Legislative Purpose and Intent

(a) The purpose and intent of this By-law is to state with emphasis the Right to Farm accorded to all citizens of the Commonwealth under Article 97, of the Constitution, and all state statutes and regulations there under including but not limited to Massachusetts General Laws Chapter 40A, Section 3, Paragraph 1; Chapter 90, Section 9, Chapter III, Section I25A and Chapter 128 Section 1A. We the citizens of Norwell restate and republish these rights pursuant to the Town's authority conferred by Article 89 of the Articles of Amendment of the Massachusetts Constitution, ("Home Rule Amendment").

(b) This General By-law encourages the pursuit of agriculture, promotes agriculture-based economic opportunities, and protects farmlands and forests within the Town of Norwell by allowing agricultural uses and related activities to function with minimal conflict with abutters and Town agencies. This By-law shall apply to all jurisdictional areas within the Town.

Section 2: Definitions

(a) The word "farm" shall include any parcel or contiguous parcels of land, or water bodies used for the primary purpose of commercial agriculture, or accessory thereto.

(b) The words "farming" or "agriculture" or their derivatives shall include, but not be limited to the following:

1. farming in all its branches and the cultivation and tillage of the soil;
2. dairying;
3. production, cultivation, growing, and harvesting of any agricultural, aqua cultural, floricultural, viticulture, or horticultural commodities including orchards;
4. growing and harvesting of forest products upon forest land, and any other forestry or lumbering operations;
5. raising and/or boarding of livestock including horses;
6. keeping and/or training of horses as a commercial enterprise; and keeping and raising of poultry, swine, cattle, ratites (such as emus, ostriches and rheas) and camelids (such as llamas and alpacas), and other domesticated animals for food and other agricultural purposes, including bees and fur-bearing animals.

(b) "Farming" shall encompass activities including, but not limited to, the following:

1. operation and transportation of slow-moving farm equipment over roads within the town;
2. control of pests, including, but not limited to, insects, weeds, predators and disease organism of plants and animals;
3. application and storage of manure, fertilizers and pesticides under generally accepted management practices;
4. conducting agriculture-related educational and farm-based recreational activities, including "agritourism", provided that the activities are related to marketing the agricultural output or services of the farm;
5. processing and packaging of the agricultural output of the farm and the operation of a farmer's market or farm stand including signage thereto;
6. maintenance, repair, or storage of seasonal equipment, or apparatus owned or leased by the farm owner or manager used expressly for the purpose of propagation, processing, management, or sale of the agricultural products; and
7. on-farm relocation of earth and the clearing of ground for farming operations.
8. maintaining drainage or irrigation ditches; picking stone; constructing, repairing or maintaining fences; and clearing, renovating and maintaining pastures including using the practice of prescription burning.

Section 3: Right To Farm Declaration

(a) The Right to Farm is hereby recognized to exist within the Town of Norwell. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood, community, and society in general. The benefits and protections of this By-law are intended to apply exclusively to those commercial agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Right To Farm By-law shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

Section 4: Disclosure Notification

(a) In order to ensure that prospective owners and tenants are aware of the policy of the Town of Norwell expressed in this Bylaw regarding agricultural uses, the following notification shall be prominently posted in the Norwell Town Hall, the Norwell Library, and on the Town of Norwell website within 30 days of this bylaw becoming effective. In addition, the notification language required by this section shall appear each year in the Town's Annual Report.

(b) "It is the policy of this community to conserve, protect and encourage the maintenance and improvement of forest and agricultural lands for the production of food, and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers or occupants that the property they are about to acquire or occupy lies within a town where farming activities occur. Such farming activities may include, but are not limited to, activities that cause noise, dust and odors. Buyers or occupants are also informed that the location of property within the Town may be impacted by commercial agricultural and farming activities.

(c) Property owners should make efforts to inform prospective tenants or buyers that Norwell is a "Right-to-Farm" community.

Section 5: Resolution of Disputes

(a) Any person having a complaint about a farm activity or practice is encouraged to seek an amicable resolution to the complaint, including talking directly with the involved farmer.

(b) Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have.

(c) The Board of Health, except in cases of imminent danger or public health risk, may forward a copy of the grievance to the Board of Selectmen, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

Section 6: Severability Clause

If any part of this By-law is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of this By-law. The Town of Norwell hereby declares the provisions of this By-law to be severable.

or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does NOT recommend in favor of this Article. There are already rights for farmers similar to these in State Law.

This Article would establish Norwell as a Right-To-Farm Community.

ARTICLE 42: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide the sum of $4,000 for the South Shore Community Action Council, Inc. for services to low income families in the Town of Norwell, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board recommends this Article in the amount of $2,000.

This Article authorizes the Town to pay for services provided to Norwell residents.

ARTICLE 43: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if funds are identified and available.

ARTICLE 44: To see if the Town will appropriate a sum of money from available funds and authorizes the Assessors to use this sum to decrease the tax Rate for FY 2008, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if funds are identified and available.

INSTRUCTIONS TO ELECTED OFFICIALS

SALE OF THE FISH RIGHTS

You are directed to serve this Warrant by posting a copy thereof attested to by you in writing in each of five public places in the Town at least fourteen days before the time for holding and meeting called for in the Warrant. Hereof, fail not and make due return of the Warrant with your doings thereon to the Town Clerk of said Town on or before the _____.

Given under our hands at Norwell this 9th day of April in the year of our Lord, 2008.

BOARD OF SELECTMEN
Norwell, Massachusetts

_____
John G. Mariano, Chairman

_____
Thomas J. Bigger, Vice Chairman

_____
Richard A. Merritt, Clerk

MINUTES OF SPECIAL/ANNUAL TOWN MEETING, MONDAY, MAY 12, 2008 AND TUESDAY, MAY 13, 2008

Attendance: (No Quorum Required since 1992)

Monday, May 12, 2008:

Precinct One:	72
Precinct Two:	113
Precinct 3:	100
TOTAL.....	285

Tuesday, May 12, 2008:

Precinct One:	36
Precinct Two:	88
Precinct Three:	65
TOTAL.....	186

At 7:30 pm on Monday, May 12, 2008 in the Henry E. Goldman Gymnasium of the Norwell Middle School, the Moderator Roger E. Hughes, Jr., called the meeting to order.

A motion was made and voted unanimously to dispense with the reading of the call of the Meeting and Return of Service having been examined by the Moderator and found to be in order.

Rev. Stacy Leneir, of Church Hill Methodist Church led the assembly in prayer. The "Pledge of Allegiance of the Flag" was led by Veteran Harry A. Merritt.

Moderator: Roger E. Hughes, Jr. introduced himself and the following participants:

TOWN ADMINISTRATOR:
James M. Boudreau

BOARD OF SELECTMEN:
John G. Mariano, Chair
Thomas J. Bigger, Vice Chair
Richard A. Merritt, Clerk

ADVISORY BOARD:
Jason Brown, Chair.
Peter Shea, Vice Chair.
Charles R. Dirk
Ellen Allen
Ralph Gordon
Spencer A. Joseph
J. Richard Hartigan
Caroline Hughes

TOWN CLERK: Patricia M. Anderson
Ass't Town Clerk: Laurie A. Davis

TOWN ACOUNTANT: Donna G. Mangan
Ass't Town Accountant: Rita Turco

The checkers were:
Monday, May 12 2008 and Tuesday, May 13 2008:

Precinct One:
Regina Giordani
Jeanne Scully

Precinct Two:
Lynne Rose
Jean Valicenti

Precinct Three:
B. Jean Snow
Jeanette Simmons

Constable: Theodore A. Baldwin

Moderator Hughes reviewed the rules of the Meeting which follow "Roberts Rules of Order" and the Bylaws of the Town.

Moderator Hughes explained the rules further:

1. To save time, please come to one of the microphones before you wish to speak.
2. After being recognized by the Moderator, identify yourself and give your address.

3. **Speak only to the issues and not to personalities.**
4. **The main motion may be slightly different that what is printed in the Warrant.**
5. **Any Voter may amend an Article but he or she must do so in writing and present a copy to the Moderator and Town Clerk.**
6. **One amendment will be discussed and voted on before any other amendment will be allowed. Then, we will turn to the main motion and vote.**
7. **Reconsideration: Traditionally, "reconsideration" may occur the same night an article is voted, or the following evening.**

Authority Cards for the Special Town Meeting were BRIGHT PINK, for the Annual Town Meeting they were BRIGHT YELLOW.

Article 26 of the Annual Town Meeting is a borrowing article and needs to be voted by Secret Ballot and requires and 2/3 vote. A gold YES/NO slip was given to all registered voters. The Moderator will instruct the voters in more detail when this article comes up.

The Moderator recognized and congratulated the Norwell High School Robotics Team, Coaches and Mentors for their Championship win in the Curie Division and placing second in the World Wide Nationals

The following is Team #348 roster:

John Ward
Kris McIntosh
Cathryn Duggan

A motion was made, seconded, and UNANIMOUSLY VOTED to suspend the Annual Town Meeting to take up the Articles of the Special Town Meeting.

SPECIAL TOWN MEETING:
Monday, May 12, 2008

Article No. 1: (Majority Vote Required) UNANIMOUSLY VOTED that the Town Transfer from free cash the sum of $50,000.00 and transfer from line item 28-401-150-5110, Water Treatment Manager, the sum of $8,500.00 to meet obligations for union and personal contracts, and said sum to be apportioned by the Town Accountant to the applicable line items in Article 2.

Article No. 2: (Majority Vote required) UNANIMOUSLY VOTED to INDEFINITELY POSTPONE ARTICLE No. 2. (To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal year 2008, said sum to be apportioned by the Town Accountant to the applicable lines in Article 2, or act on anything relative thereto).

Article No. 3: (Majority Vote Required) UNANIMOUSLY VOTED to transfer from free cash the sum of $290,000.00 to be added to line item 01-300-268-5532, Snow Removal and Sanding.

Article No. 4: (Majority Vote Required) UNANIMOUSLY VOTED to INDEFINITELY POSTPONE ARTICLE No. 4. (To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 1-101-126-5110, Police Salaries, or act on anything relative thereto.)

Article No. 5: (Majority Vote Required) UNANIMOUSLY VOTED THE Town vote to transfer the sum of $20,000.00 from line item 1-101-126-5110, Police Salaries to line item 1-101-235-5496, Police General Expenses.

Article No. 6: (Majority Vote Required) UNANIMOUSLY VOTED that the Town vote to transfer the sum of $60,000.00 from free cash to be added to line item 1-45-216-5307, Legal Services.

Article No. 7: (Majority Vote Required) UNANIMOUSLY VOTED that the Town vote to amend the Personnel Plan to add the definition of "Harbormaster" and approve its classification thereon as an unclassified postions.

Article No. 8: (Majority Vote Required) UNANIMOUSLY VOTED that the Town vote to transfer the sum of $35,000.00 from free cash to meet increased fuel (gasoline) costs for FY 2008, said sum to be applied to line item 1-300-270-5410 Highway Gasoline.

Article No. 9: (Majority Vote Required) UNANIMOUSLY VOTED to transfer from the Community Preservation Fund Open Space Reserve Account, the sum of $4,000.00 for open space purposes, pursuant to Massachusetts General Laws, Chapter 44B, for the purpose of paying for appraisal fees incurred to date relating to the acquisition of open space on Mount Blue Street.

Article No:. 10: (Majority Vote Required) UNANIMOUSLY VOTED THAT THE town vote to transfer the sum of $30,000.00 from Community Preservation Fund Balance, pursuant to Massachusetts General Laws, chapter 44B, for recreational purpose, for the construction of improvements to public access to the two town landings on the North River at Bridge Street and at the end of Chittenden Lane. Said expenditures are to be under the control of the Community Preservation Committee.

Article No. 11: (Majority Vote Required) UNANIMOUSLY VOTED that the Town transfer the sum of $100,00.00 from Community Preservation Fund Balance for recreational purposes, pursuant to Massachusetts General Laws, Chapter 44B, for the purpose of design, permitting, construction or improvements to any pedestrian or bicycle pathways in the Town of Norwell. Said sum to be made available for the Town of Norwell's share of any federal, state, or private foundation matching grant program or programs to which The Norwell Pathways Committee shall make application for funding. Up to 25% of this Article may be expended by the Pathways Committee for outside consultants to help source grants and write applications. The Community Preservation Committee shall approve all expenditures from this Article. Community Preservation Committee approval is also required prior to grant submission.

Article No. 12: (Majority Vote required) UNANIMOUSLY VOTED that the Town transfer the sum of $160,000.00 from free cash to be added to line item 1-77-230-5175, Group Health Insurance.

Article No. 13: (majority Vote Required) UNANIMOUSLY VOTED that the Town transfer the sum of $15,000.00 from free cash to be expended under the direction of the Recycling Committee for the care and maintenance of the brush pile located at the Recycling Center.

NO. 14. (Majority Vote Required) UNANIMOUSLY VOTED to INDEFINITELY POSTPONE.

(To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.)

A motion was made, seconded, and it was UNANIMOUSLY VOTED to dissolve the Special Town Meeting at 8:40 pm.

MINUTES OF ANNUAL TOWN MEETING, Monday, May 13, 2008.

Article No. 1: (Majority Vote Required) UNANIMOUSLY VOTED to accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2007 Annual Report.

Article No. 2: (Majority Vote Required) Moderator Hughes explained that he would go through al the line Items of Article No. 2, one, by one, reading the department number and the total amount recommended by the Advisory Board. Anyone that wished to question any of these amounts should call out "hold" and when the Moderator has gone through all the line items of Article 2 and they are voted on, he will go back and review each of the "held" items. There were three held: 2-222, Central Computer Expenses, 2-172, Deputy Chief's salary, and 2-200, School Budget.

A motion was made and seconded to vote on all the non-held items. This voted UNANIMOUSLY.

Line item 2-222, Central Computer Expenses, was held by Bruce Burgess of 24 Neal Gate Street. He amended to reduce the figure to $100,000.00 so that the $20,000.00 difference could fund other requests that need more money. James Boudreau, Town Administrator, opposed the amendment. Patricia Bordewieck of 49 Green Street suggested that some of the $20,000.00 can be given to Annual Town Meeting Article No. 39; South Shore Women's resource center. The Majority defeated this amendment.

2-172, Deputy Chief's Salary, was held by Robert Woodell of 238 Washington Street. He moved to change the amount to (0) zero, stating we have one Chief and five Sergeants and eighteen uniformed officers. With insurance, a vehicle etc., this could cost the town over $100,000.00. John Mariano, Selectmen, stated the department is budgeted for six Sergeants and the net increase is only $10,000.00. Chief Theodore Ross, a non-resident, was given permission from the town to speak. Chief Ross explained that this is not an added position and the need to have a second in command. The MAJORITY VOTED to defeat the amendment.

2-200, School Budget, was held by Robert Bordewieck of 49 Green Street, stating that two thirds of the Towns budget is for the school and the line should be broken down. The moderator explained that the school sends its Annual Report to all homes in the town. Mr. Bordewieck began to express his personal opinions on the Schools and the Superintendent of Schools salary. At that time the Moderator asked Mr. Bordewieck to be seated.

It was UNANIMOUSLY VOTED that the Town raise and appropriate or transfer from available funds the sum of money set

forth in the "2009 Advisory Board recommends" column under Article 2 to defray the charges, expenses and salary obligations of the Town, including debt and interest, for the ensuing year. To provide for a reserve Fund, and to fix salaries and compensation for all Elected officers of the Town, and to meet said appropriation, transfer the sum of $1,450,651.00 from Water Revenues, transfer the sum of $141,000.00 from Free Cash, transfer the sum of $30,000.00 from Community Preservation Fund FY 2009 revenues and transfer the sum of $10,000.00 from the Wetlands Protection Fund.

All "Held" items were voted as printed in "Advisory Board Recommends" column of the Warrant.

A Motion was made and second to take the following Articles out of order and were heard on Monday, May 12, 2008:
Article No. 10
Article No. 12
Article No. 13
Article No. 14
Article No. 37

Article No.3: (Majority Vote Required) UNANIMOUSLY VOTED THAT THE Tow transfer the sum of $379,858.00 from Overlay Surplus and transfer the sum of $35,000.00 from FY 2009 Water Revenues, and Capital Outlay as set forth in the 'Capital Budget recommendation' column as printed in the Warrant

Dept.		Capital Budget Recommends
103	FIRE DEPT.	
	Jaws of Life	$ 13,500.00
	IMC Fire Dispatch Software	$ 27,700.00
101	POLICE DEPARTMENT	
	Mobile Criminal Data Exchange System	$ 35,500.00
65	TOWN HALL	
	Carpeting	$ 25,000.00
	Network Printer/ Copy machine	$ 12,000.00
300	HIGHWAY DEPARTMENT	
	GVW dump truck with Sander and Plow	$135,000.00
109	John Deere 4720 Tractor & Access	$ 34,800.00
	Tow behind sweeper (Smitheo V-62)	$ 18,358.00
	Arial Bucket Truck	-0-
601	LIBRARY	
	Driveway & Electrical	-0-
	Walkway Repair & Tree Removal	$ 5,000.00
	Painting Exterior & Bathrooms	$ 15,000.00
	Digital Copier & Printer	-0-
401	WATER DEPARTMENT	
	2008 Ford F350 (or equivalent)	$ 35,500.00
200	SCHOOL DEPARTMENT	
	Hydraulic Elevator at High School	$ 11,000.00
	Boiler Injection Pumps At Vinal School	$ 20,000.00
	Custodian Van	-0-
	Tennis Court Reconstruction	$ 27,000.00
		$415,358.00

Article No.4: (Majority Vote Required) UNANIMOUSLY VOTED that the Town vote to transfer the sum of $155,000.00 from free cash to meet obligations for union and personal contracts, said sum to be apportioned by the Town Accountant to the applicable line item in Article 2.

Article No. 5: (Majority Vote Required) UNANIMOUSLY VOTED THAT THE town transfer the sum of $25,500.00 from

free cash and transfer the sum of $4,500.00 from FY 2009 Water Revenues, to meet obligations for the compensation schedule under the Personnel Plan, said sum to be apportioned by the Town Accountant to the applicable line item in Article 2.

Article No 6: (Majority Vote Required) UNANIMOUSLY VOTED that the Town Amend the Personnel Plan Compensation Schedule based upon a wage and salary survey dated March 2008 by upgrading the position of Custodian from Grade 4 to Grade 6 and to meet said appropriation, that the sum of $1,000.00 be transferred from Free Cash.

Article No 7: (Majority Vote Required) UNANIMOUSLY VOTED pursuant to the provisions of Massachusetts General Laws, Chapter 39, Section 10 to accept HAWTHORNE LANE as a public way.

Article No. 8 (Majority Vote Required) UNANIMOUSLY VOTED to INDEFINITELY POSTPONE ARTICLE No. 8.
(To see if the Town will vote pursuant to the provisions of Massachusetts General Laws, Chapter 39, Section 10 to accept Edgewood Road as a public way, or act on anything relative thereto.)

Article No. 9 (Majority Vote Required) UNANIMOUSLY VOTED that the Town authorize the Board of Selectmen pursuant to the provisions of Massachusetts General Laws, Chapter 82A, related to Excavation and Trench Safety, including, without limitations, to designate a "permitting authority," to determine a schedule of fees for such activities.

Article No. 10: (Majority Vote Required) UNANIMOUSLY VOTED to transfer the sum of $345,000.00 from Community Preservation Fund, Fiscal 2009 revenues, for historic preservation purposes, pursuant to Massachusetts General Laws Chapter 44B, Section 12, for the purpose of purchasing the "Sergeant Samuel Stetson House" at 85 Stetson Shrine, Assessors Map 73, Lot 9, Sheet 27C, inclusive of all associated legal and other purchasing costs. Said purchase to be made by the Board of Selectmen on behalf of the Town of Norwell and subject to a Historic preservation easement (as defined in MGL Chapter 184) from the Board of Selectmen to an eligible non-profit entity executed within six months of the purchase to MGL Chapter 44B, Section 12. The Board of Selectmen and the Community Preservation Committee shall approve said Historic preservation easement as to form and content. Said purchase to be contingent upon the submission of an acceptable management and operating plan by the Board of Selectmen to the Community Preservation Committee.

At 10:30 PM, a motion was made by the Moderator to adjourn until Tuesday evening, May 13, 2008, same time, same place. It was seconded and UNANIMOUSLY VOTED.

Annual Town Meeting, second night, Tuesday, May 13, 2008, 7;30 PM.

Article No. 11 (Majority Vote Required) UNANIMOUSLY VOTED that the Town amend the Town of Norwell By-Laws, Article XIV – Traffic Rules and Orders, Article 4, sub-section 1, by adding at the end thereof the following new section:

Section 6 – Handicapped Zones

Any persons parking improperly in a designated handicapped zone without a valid and enforceable handicapped placard or license plate as issued by the Registry of Motor Vehicles, shall be subject to a fine of not exceeding $150.00 for the first offense, $200.00 for the second offense and $300.00 for the third and succeeding offenses.

Article No. 12 (Majority Vote Required)

UNIANIMOUSLY VOTED that the Town vote to transfer the sum of $150,000.00 from the Community Preservation Fund, Fiscal 2009 revenues, pursuant to Massachusetts General Laws Chapter 44B, for Historic Preservation Purposes, for the restoration and/or renovation of the property known as the Stetson Ford House. Said appropriation shall be contingent on the establishment of a revolving fund established pursuant to Mass General Laws Chapter 44, section 53E1/2, administered by the Norwell Historic Commission such that fees from the rental and usage of the Stetson Ford House shall be credited to the fund for the purpose of maintenance of the property.

The Norwell Historic Commission is authorized to rent the property in its discretion on terms other than fair market value with the established goals of both generating sufficient fee and rental income to provide in large part for the property's future maintenance and capital needs as well as to manage the property in a fashion so as to periodically allow the Norwell community to make use of this historical asset. The Community Preservation Committee shall approve all expenditures from this article and such approval may be made contingent at the Committee's sole discretion upon satisfactory progress of the development of a management, operating, and maintenance plan for the Stetson Ford House by the Norwell Historic Commission.

Article No. 13 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town establish the Sergeant Samuel Stetson House Revolving Fund, pursuant to the provisions of Massachusetts General Laws, Chapter 44, Section 53E1/2, for the fiscal year beginning July 1, 2008, with fees charged for property use to be credited to the fund for the purpose of property maintenance, with expenditures not to exceed $10,000.00, and not to be spent for salaries, with the balance in the fund at year end available for expenditure.

Article No. 14 (Majority Vote required)
UNANIMOUSLY VOTED that the Town establish the Stetson Ford House Revolving Fund, pursuant to the provisions of Massachusetts General Laws Chapter 44 Section 53E1/2, for the fiscal year beginning July 1, 2008, with fees charged for property use to be credited to the fund, for the purpose of property maintenance, with expenditures not to be spent for salaries with the balances in the fund at year end available for expenditure.

Article No. 15 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $275,000.00 from Free Cash to be used for the purchase of Computer Technology Replacement and Upgrades for Norwell Public Schools.

Article No. 16 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $200,000.00 from Free Cash to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways.

Article No. 17 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer from Article 11 of the Annual Town Meeting of May 14, 2007, the sum of $32,476.90 to be expended under the direction of the Highway Surveyor for the resurfacing the Town of Norwell Highway Department Yard.

Article No. 18 (Majority Vote Required)
UNANIMOUSLY VOTED to INDEFINITLEY POSTPONE ARTICLE No. 18.
(To see if the Town will vote to raise and appropriate, transfer from available funds the sum of $10,000.00, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing the Town of Norwell Tree & Grounds D epartment yard, or act on anything relative thereto.)

Article No. 19 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town appropriate the sum of $340,448.00 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the Highway Surveyor, and further, to authorize the Treasurer, with the approval of the Board of Selectmen, to temporarily borrow said sum.

Article No. 20 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $38,000.00 from Overlay Surplus from various years for the purpose of continuing to provide a Senior Real Estate Tax Work-off program for older citizens in the Town funded directly by the Town. This program is to be established pursuant to an agreement with the Council on Aging, the Board of Selectmen and the Board of Assessors.

Article No. 21 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $37,500.00 from FY 2005 Overlay Surplus, to be expended under the direction of the Board of Assessors for professional and contractual services in order for the Town to comply with the Massachusetts Department of Revenue requirements and Massachusetts General Law, Chapter 40, Section 56 in that the Town complete a cyclical inspection program in which every parcel shall be inspected once every nine years.

Article No. 22 (2/3 Vote Required)
UNANIMOUSLY VOTED:
ZBL §2318 Proposed Amendment
To see if the Town will vote to amend Zoning By-law Article II District Regulations, §2318 Common Driveways, by striking the existing Zoning Compliance Requirement of the bylaw and replacing it as shown under "Proposed New Language."

Existing Language:
Zoning Compliance Requirement:
All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of the lots to be served by the driveway. The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.

Proposed New Language:
Zoning Compliance Requirement:
All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of at least one of the lots to be served by the driveway. The common driveway shall access from the way common to each of the lots that it serves. The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.

Language Changes Shown Using "Review" Functionality:
Zoning Compliance Requirement:
All of the residential lots to be served by the common driveway shall conform to all applicable zoning requirements, including minimum frontage and area requirements, and the common driveway shall access over the legal frontage of at least one of **the lots to be served by the driveway.** The common driveway shall access from the way common to each of the lots that it serves. **The common portion of the common driveway shall not be used to calculate lot area for any of the lots served by it.**

Article No. 23 (2/3 Vote Required)
FAILED TO CARRY

To see if the town will vote to amend the Norwell Zoning Bylaws sec.2423 by striking said section and replacing it as shown under "Proposed New Language."
ZBL 2460 Proposed Amendment

To see if the Town will vote to amend Norwell Zoning Bylaw §2460 by striking said section and replacing it as shown under "Proposed New Language":

Existing Language:
2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 1/2 stories in height, or 34 feet, in any Residential District and Business Districts A and B; 3 stories, or 40 feet, in Business District C, nor shall any dwelling unit in a Business District exceed 2 1/2 stories, or 34 feet in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

Proposed New Language:
2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 1/2 stories, or 34 feet, in height in any Residential District and Business Districts A and B. No building and/or structure shall be erected or altered to exceed 5 stories, or 67 feet, in height in Business District C. No dwelling unit in any Business District shall exceed 2 1/2 stories, or 34 feet, in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

Language Changes Shown Using "Review" Functionality:
2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 1/2 stories ~~in height~~, or 34 feet, in height in any Residential District and Business Districts A and B. No building and/or structure shall be erected or altered to exceed ~~3~~ 5 stories, or ~~40~~ 67 feet, in height in Business District C. ~~nor shall any~~ No dwelling unit in any Business District shall exceed 2 1/2 stories, or 34 feet, in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.)

ARTICLE NO. 24: 2/3 Vote Required
UNANIMOUSLY VOTED that the Town amend the Zoning Bylaw by adding the following as Section 4850:

ZBL 4850 Open Space Residential Design (Special Permit)
To see if the Town will vote to adopt the following bylaw as Zoning Bylaw §4850.

1) **PURPOSE AND INTENT**
   a. **Primary Purposes. The Primary Purposes for Open Space Residential Design (OSRD) are the following:**
      1. To allow for greater flexibility and creativity in the design of residential developments.
      2. To encourage the permanent preservation of public open space, agricultural land, forestry land, wildlife habitat, and other natural resources including aquifers, water bodies and wetlands, and historical and archeological resources in a manner that is consistent with Norwell's Master Plan and Open Space Plan.
      3. To encourage a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features better than a conventional subdivision.

4. To minimize the total amount of disturbance on the site.
5. To further the goals and policies of Norwell's Master Plan and Open Space & Recreational Plan.
6. To facilitate the construction and maintenance of housing, streets, utilities, and public service in a more economic and efficient manner.
7. To facilitate the construction and maintenance of public trails and associated amenities to enhance the pedestrian experience.

b. Secondary Purposes. The Secondary Purposes for OSRD are the following:

1. **To preserve and enhance the Town's character.**
2. **To protect and enhance the value of real property.**
3. **To protect the Town's water supplies.**
4. **To provide for a diversified housing stock.**
5. **To protect agriculturally significant land.**

2) ELIGIBILITY FOR OSRD SPECIAL PERMIT APPROVAL

a. Applicability. Special permits for OSRD Definitive Subdivisions are allowed in all residential districts.

b. Minimum Size of Subject property. To be eligible for consideration for an OSRD Special Permit, the subject property shall contain a minimum of five acres. The Planning Board may consider proposals on smaller parcels if the land offers opportunities for contiguous open space and the Planning Board deems that the design satisfies the purpose and intent of this bylaw.

c. Contiguous Parcels. The Planning Board may determine that two or more parcels separated by a road or other man-made feature are "contiguous" for purposes of this section if they satisfy the purpose and intent of this bylaw.

3) PRE-APPLICATION CONFERENCE

a. Pre-Application Conference. The applicant is required to attend a pre-application conference, which may occur at one or more regular meetings of the Planning Board. The parties at the pre-application conference shall discuss the OSRD design process and criteria set forth in this bylaw. The Planning Board shall invite to the pre-application conference the Conservation Commission, Board of Health, and any other Town officers or representatives whose input is deemed by the Planning Board to be necessary and in the Town's best interest. The purpose of a pre-application conference is to attempt to minimize the applicant's costs of engineering and other technical experts, and to discuss the proposal with the Planning Board at the earliest possible stage in the development.

b. Timetable. At the pre-application conference, the applicant shall outline the proposed OSRD project, seek preliminary feedback from the Planning Board and/or its technical experts, and set a timetable for submittal of the Pre-application Conference submittals.

c. Technical Expert. The Planning Board shall discuss engaging technical experts at the expense of the applicant to review the submittals required for the OSRD Special Permit.

d. Pre-application Site Visit. The Planning Board may require a site visit in order to better understand the site and facilitate pre-application review of the OSRD proposal.

4) PRE-APPLICATION CONFERENCE SUBMITTALS

a. Site Context Plan. This plan shall identify the subject parcel in connection to its surroundings. Based on existing data sources (including all state and local natural resource maps such as the National Heritage Endangered Species Program Priority and Estimated Species maps), field inspections and the evaluation of the Norwell 2005 Master Plan Maps (including the "Natural Resources with Priorities" map), the Site Context Plan shall identify Primary and Secondary Conservation Areas, as described in §6) a.1., within the proposed parcel and show all major natural resource areas or features, including those that cross parcel lines and those that are located on adjoining lands. This plan will enable the Planning Board to understand the site in relation to adjacent properties.

b. Existing Conditions / Site Analysis Plan. This plan shall identify all easements and visible features on the property. Based upon existing data sources and field inspections, this plan shall locate and describe noteworthy resources that could be protected through sensitive subdivision layouts. These resources shall include but are not limited to wetlands, vernal pools, wetland buffer zones, riverfront areas, floodplains, slopes over 20%, mature non-degraded woodlands, hedgerows, farmland, unique or special wildlife habitats, historical or cultural features (such as old structures or stone walls), geologic formations, solar orientation and scenic views into and out from the property. By overlaying this plan onto a development plan, the parties involved can clearly see where conservation priorities and desired development overlap or conflict.

c. Enhanced NRCS Soils Map. This map will identify the suitability of the soils and soil types for the stormwater treatment areas and, if proposed, the location of any communal or off-lot septic systems. All previously completed percolation test results, depth to groundwater test holes and soil logs shall be shown on the map. The information depicted on Site Context Plan and the Existing Conditions / Site Analysis Plan may be consolidated onto the Enhanced NRCS Soils Map, if practical.

d. Photographs. Photographs of the site and significant resources shall accompany the Pre-Application Conference Submittals if the Planning Board requests them to garner a better understanding of the subject property.

5) APPLICATION FOR OSRD SPECIAL PERMIT & SUBMITTALS

a. Special Permit Required. The Planning Board, acting as the special permit granting authority (SPGA), may authorize an OSRD Special Permit for OSRD Subdivisions pursuant to the procedures outline below.

b. Application. An application for an OSRD Special Permit shall be submitted on the Norwell Planning Board "Form O". Seven total copies of the application and the Yield Plan shall be required. In addition, the applicant shall also submit seven copies of the Site Context Plan, the Existing Conditions / Site Analysis Plan and the Enhanced NRCS Soils Map, showing any changes requested during the §4 Pre-application conference.

c. Yield Plan. The maximum allowable number of house lots in an OSRD

Definitive Subdivision Plan shall be shown on a Yield Plan. The calculated number of lots shall be a guide, and the Planning Board, using the following guidelines shall determine the total number of lots. The maximum number of lots shall be calculated using the following approach:

1. **Determine total land area expressed in square feet, then**
1. **Subtract all wetland areas expressed in square feet, then**
2. **Multiply this subtotal by 0.9, then**
3. **Divide this subtotal by 43,560 (any non-integer number shall be rounded down to the nearest integer).**

The equation for this calculation is:
(Total land area* – area of wetlands*) x .9 / 43,560 = allowable lots
*areas expressed in square feet

d. **Development Plan. The Development Plan shall bear the seal and certification of a registered Landscape Architect, or a multidisciplinary team of which one member is a registered Landscape Architect. The plan shall show the general features of the subject parcel and identify the proposed open space and developable areas defined by §6 of this bylaw. The Landscape Architect shall include a brief narrative on the plan that describes the characteristics of the planned open space. The Development Plan shall also contain the information required for a Preliminary Subdivision Plan, as set forth in §5.0 of the Planning Board's most current Subdivision Rules and Regulations. The Planning Board shall vote to formally acknowledge the submittal of a Development Plan that is determined to be substantially complete.**

6) OSRD DEVELOPMENT PLAN DESIGN

a. **Design. Applicants shall demonstrate to the Planning Board that the following OSRD design process was followed in determining the layout of proposed open space, streets, and house lots:**

1. **Conservation Areas. First, Primary Conservation Areas (such as wetlands, riverfront areas, and floodplains regulated by local, state and federal law) and Secondary Conservation Areas (including unprotected elements of the natural landscape such as steep slopes, mature woodlands, prime farmland, meadows, wildlife habitats and cultural features such as historic and archeological sites and scenic views) shall be identified and delineated. Second, the Potentially Developable Area will be identified and delineated. Land identified as Potentially Developable shall not be located in any Primary Conservation Areas, or to the maximum extent feasible, in any identified Secondary Conservation Areas.**
2. **Locate House Sites. Locate the approximate sites of individual houses within the Potentially Developable Area and include the delineation of private yards and shared amenities, so as to reflect an integrated community. The shared amenities should be located so that the number of homes enjoying the amenities shall be maximized.**

3. **Align the Streets and Trails. Align the streets to access the house lots. Additionally, new trails should be laid out to create internal and external connections to existing and/or potential future streets, sidewalks, and trails on and abutting the subject parcel.**
4. **Lot Lines. Draw in the lot lines.**

b. **Reduction of Dimensional Requirements. In an OSRD development, the Planning Board may authorize a reduction in any of the Intensity of Use and Dimensional requirements in the Zoning Bylaw. The following minima shall apply:**
   1. Lot frontage shall not be less than 50 feet.
   2. Lot size shall not be less than one-half acre of upland. No area within the 50-foot wetlands buffer strip may be included in determining compliance with this requirement.
   3. No building or structure shall be erected, placed or added so as to extend within 25 feet of the front property line, nor within 10 feet of the side or rear property line.
   4. No two points on lot lines shall be less than 50 feet apart except where the shortest distance between such points, measured along the perimeter of the lot, is less than or equal to 150 feet.
   5. Lot shall be exempt from §2432 & §2450 of the zoning bylaw.
   6. Only lots on the street to be created by the OSRD subdivision Special Permit are to benefit from the reduced area, setback, and frontage requirements. No reductions of frontage, setbacks and area shall be allowed on any lot that fronts on an existing way not created via OSRD Special Permit.

c. Open Space Requirements. A minimum of 50% of the upland on the subject property shown on the approved Development Plan shall be permanently protected as open space. Any proposed open space, unless conveyed to Norwell's Conservation Commission, shall be subject to a recorded conservation restriction, providing that such land shall be perpetually kept in an open state and be preserved exclusively for the purposes set forth herein, and that it shall be maintained in a manner consistent with its intended purpose as open space.
   1. **The open space shall be contiguous. Open space may still be considered contiguous if a roadway or an accessory amenity separates it. The Planning Board may also determine open space contiguous if separated by wetlands or other Primary Conservation Areas. The Planning Board may waive this requirement for all or part of the required open space within the OSRD Definitive Subdivision where it is determined to the satisfaction of the Planning Board that allowing non-contiguous open space will promote the goals of this bylaw and/or protect identified Primary and Secondary Conservation Areas.**
   2. **The open space shall be used for wildlife habitat and conservation and any of the following additional purposes: historic preservation, recreation, walking trails, bike paths, view vistas, parklands, agriculture, horticulture, forestry, or a combination of**

these uses. Whatever use is proposed shall be served by suitable access for such purposes. The Planning Board may allow open space uses not specified in this section if the Planning Board considers the use consistent with the purpose and intent of this bylaw.

3. Disturbed Areas within Open Space. Not more than one half of dedicated open space shall be disturbed or altered. A disturbed area is any land not left in its natural state. At the option of the Planning Board, other areas may be considered as contributing towards this requirement where the Development Plan includes the restoration of the area to a more natural condition, for example, where an abandoned gravel pit will be regraded and replanted with vegetation consistent with its surroundings.
4. Open space shall not include land set aside for the road's right-of-way.
5. Subject to the approval of the Board of Heath, as otherwise required by law, the Planning Board may permit a portion of the dedicated open space to be used for components of sewerage disposal systems serving the subdivision, when the Planning Board finds that such use will not be detrimental to the character or quality of the open space or wetlands. "Decentralized Cluster Wastewater Systems" or communal sewerage disposal systems shall not be allowed within the dedicated open spaces if they have mounding that does not comport with the surrounding grades.
6. Engineered drainage systems, such as retention, detention and infiltration ponds, shall not be allowed within the open space except where specifically permitted by the Planning Board under §6) e. 6. Underground infiltration systems or other Low Impact Drainage systems [as defined by §6) f] shall be allowed within the open space subject to an agreement that the proposed road and drainage system will remain private in perpetuity.
7. Communal buildings and structures that are accessory to the open space shall not be allowed within the dedicated open space unless the Planning Board deems that their location therein satisfies the purpose and intent of this bylaw.
8. Ownership of the Open Space. The open space shall, at the applicant's election and subject to the approval of the Planning Board, be conveyed to either the Town's Conservation Commission or a nonprofit organization or land trust whose principal mission is the conservation and protection of open space.
9. The protected open space must be clearly delineated on the ground with permanent markers before any building permits are issued and the Planning Board may require the installation and maintenance of reasonable permanent signage in order to delineate such areas.

d. Roadway Design and Construction. Streets in OSRD Definitive Subdivisions shall meet the typical subdivision cross-section, as set forth in the most recent Planning Board Rules and Regulations. The Planning Board reserves the right to waive strict compliance with the typical cross-section if the specific waivers comply with the purpose and intent of this bylaw and are in the public's interest.

1. Street Design. Streets shall be designed and located in such a manner as to maintain and preserve natural topography, significant landmarks, and trees; to minimize cut and fill; and to preserve and enhance views and vistas on or off the subject parcel. Street design and the proposed cross-section, including all requested waivers, shall be a part of the Development Plan and be referenced in the Special Permit decision.
2. Dead end roads. Dead end roads with a maximum length of up to 1000 feet measured from the centerline of the nearest intersecting through street to the end of the subdivision way are allowed in OSRD Definitive Subdivisions.
3. Dead End Road Length & Buffer. When OSRD dead-end roads exceed 550 feet in length, measured from the centerline of the nearest intersecting through street to the end of the subdivision way, dedicated open space should be provided for a distance of at least 100' along the length of the existing street from which the subdivision derives its frontage.
4. Common/Shared Driveways. A common or shared driveway may serve a maximum number of 3 single-family units. Common Driveways shall be permitted as per §2318 of the Norwell Zoning Bylaw.
5. Pedestrian and Bicycle Circulation. Walkways and bicycle paths shall be provided to link residences with recreation facilities (including parkland and open space) and adjacent land uses where appropriate. The Planning Board will strongly encourage that such amenities be designed so as to link to like facilities adjacent to the subject parcel. If no such facilities exist and the property abuts land that may be further developed in the future, the Planning Board may require that a reserve access strip be created to facilitate connection to future developments.

e. Screening, Landscaping, and Buffer Areas. In addition to the stated requirements elsewhere in the zoning bylaw, the following shall be required for OSRD Definitive Subdivisions.

1. All surface stormwater management facilities shall be accompanied by landscape plan, signed and sealed by a registered Landscape Architect. The landscape plan shall screen surface stormwater management facilities from both dwelling and roadside views.
2. Roadside and Adjacent Property Buffer Areas. A vegetated buffer of at least 100 feet is encouraged along existing ways adjacent to the

subdivision. The subdivision roadway and any common driveways necessary for access and egress to and from the subject property may cross such buffer areas. A vegetated buffer of at least 75 feet is encouraged along developed residential property adjacent to the subdivision. None of the existing vegetation in these buffer areas should be disturbed, destroyed or removed, except for normal maintenance of structures and landscapes approved as part of the project. The Planning Board may waive this buffer requirement when it determines that doing so is not inconsistent with the purpose and intent of this bylaw. The Planning Board may require additional plantings in a buffer area if the existing vegetation does not provide adequate screening.

3. Resource Buffer Areas. A natural vegetated buffer at least 100 feet deep shall be preserved along ponds, wetlands, vernal pools, streams and riverfront areas on or adjacent to the property. The Planning Board may waive this buffer requirement when it determines that doing so is not inconsistent with the purpose and intent of this bylaw.
4. The landscape shall be preserved in its natural state, insofar as practicable, by minimizing tree cutting and the alteration of natural grades. The orientation of individual building sites shall be such as to maintain maximum natural topography and cover.
5. The removal, disturbance or disruption of historic or cultural structures, or architectural elements shall be minimized insofar as practicable, whether these exist on the site or on adjacent properties. If such elements exist, the applicant shall submit a narrative explaining how said interests are being preserved or how removal, disturbance or disruption is being minimized.
6. Subject to the approval of the Planning Board and the Conservation Commission, wastewater and stormwater management systems may be located within buffer areas.

f. Stormwater Management. The Planning Board encourages the use of non-structural stormwater management techniques such as swales, bio-retention areas, rain gardens and other Low Impact Development drainage techniques that reduce impervious surface and promote groundwater recharge. Drainage requirements for OSRD Definitive Subdivisions shall meet the requirements of the Planning Board's Rules and Regulations and current DEP Stormwater Management Requirements.

g. Site Visit. Whether or not conducted during the pre-application stage, the Planning Board may conduct a site visit during the project review process. The applicant and/or its agents shall accompany the Planning Board and/or its agent if a site visit was not performed during the pre-application process.

h. Compliance with Rules and Regulations. OSRD Definitive Subdivision Plans shall adhere to all

of the Planning Board's current Rules and Regulations unless provisions of such regulations are specifically addressed within this bylaw.

7) **DECISION OF THE PLANNING BOARD: OSRD SPECIAL PERMIT**

a. Special Permit Approval. The Planning Board will hold a public hearing in accordance with MGL c. 40A, §9, and approve, approve with conditions, or disapprove an OSRD Special Permit within 45 days of receiving an OSRD Special Permit and acknowledged Development Plan. Upon the written mutual agreement of the applicant and the Planning Board, the 45-day Special Permit decision period may be extended at any time. The OSRD Special Permit Decision and the corresponding Development Plan shall be filed with the Town Clerk and the decision shall be provided to the applicant via regular mail. Upon receipt of the Planning Board's written decision regarding the Development Plan, the applicant may submit an OSRD Definitive Subdivision Plan. Planning Board approval of an OSRD Special Permit requires that any OSRD Definitive Subdivision Plan be substantially compliant with the Special Permit and corresponding Development Plan.

b. The Planning Board may approve the OSRD Special Permit if it finds that the proposed development has less detrimental impact on the subject property and the abutting neighborhood than a conventional definitive subdivision, after considering the following factors:

1. **The Development Plan achieves greater flexibility and creativity in the design of residential developments than a conventional subdivision.**
2. **The Development Plan promotes permanent preservation of open space, agricultural land, forestry land, other natural resources including water bodies and wetlands, and historical and archeological resources.**
3. **The Development Plan promotes a less sprawling and more efficient form of development that consumes less open land and conforms to existing topography and natural features better than a conventional subdivision.**
4. **The Development Plan reduces the total amount of disturbance land on the site.**
5. **The Development Plan furthers the goals and policies of Norwell's Open Space and Master Plan.**
6. **The Development Plan facilitates the construction and maintenance of streets, utilities, and public service in a more economical and efficient manner.**
7. **The Development Plan facilitates the construction and maintenance of trails and associated amenities to enhance the pedestrian experience.**
8. **The Development Plan complies with the purpose and intent of this bylaw.**

c. Any OSRD Special Permit approval must be followed by the submittal of an OSRD definitive subdivision plan in accordance with the Norwell Planning Board's Rules and Regulations. The OSRD definitive subdivision plan shall not be approved unless the plan is substantially consistent with the approved Development Plan. A determination of substantial

inconsistency will be based on following conditions:

1. An increase in the number of building lots.
2. A material decrease in the open space acreage or lot layout.
3. A material change in the general development pattern which adversely affects natural landscape features and open space preservation.
4. Material changes to the stormwater or wastewater management facilities.

d. The Planning Board may modify an existing OSRD Special Permit when the subsequent OSRD definitive subdivision plan, in the opinion of the Planning Board, more fully satisfies the purpose and intent of this bylaw. The Planning Board may also require that the Development Plan be modified so as to comply with the material changes identified by the Planning Board before the modified OSRD Special Permit is approved.

e. The Planning Board, in its discretion, shall have the authority to adopt rules and regulations consistent with this bylaw.

f. If any provision of this bylaw, in whole or part, shall prove to be invalid for any reason, such invalidity shall only affect the part of such provision found invalid. In all other aspects, all provisions of this bylaw will remain in full force.

ARTICLE No. 25 (Majority Vote required)

Submitted Jointly by the Planning Board and the Historical Commission

UNNANIMOUSLY VOTED that the Town will vote to amend the General Bylaws by adding the following regarding scenic roads, to be effective on May 15, 2008:

Town of Norwell Scenic Road General Bylaw

Section 1. Authority and Purpose:

a. Authority – This article is adopted under authority of MGL c. 40, §15C (Scenic Roads) and MGL c. 40, §21.

b. Purpose – The purpose of this article is to provide a clearly defined public process and procedure for the implementation of the Scenic Road Act. The provisions of this act should ensure that:

1. **The semi-rural, natural, historic and scenic character of the Town's roads (as defined herein) is maintained.**
2. **The need to preserve the character of scenic roads is balanced by the Town's need to efficiently maintain roads, acknowledging that roads serve a transportation function for pedestrians and bicyclists, as well as motorized vehicles.**
3. **That Town roads will be recommended for designation as scenic roads in accordance with the criteria set forth in this article.**
4. **That trees (as defined herein) and stone walls within the right-of-way of all designated scenic roads will not be altered without the required Planning Board public hearing, nor without following the other**

procedures set forth in this article.

Section 2. Definitions:
For terms not qualified or defined in MGL c. 40, § 15C (Scenic Roads), the following meanings shall apply for the purposes of this bylaw:

Abutter – all property owners, including those across the street, abutting the property where work requiring a scenic road hearing is required.

Branch – A living branch that is fully attached to a tree (as defined herein) and that has a diameter of three inches or more, 12 inches from the point at which said branch connects to the tree.

Cutting or Removal of Trees – The removal of one or more trees, trimming of branches (both as defined herein) or cutting of roots sufficient in the Tree Warden's written opinion to cause eventual destruction of the tree. This definition does not apply to clearing nuisance growth, routine or emergency tree maintenance that removes only permanently diseased or damaged limbs, trunks, roots and dead whole trees or thinning crowded trees as determined by the Tree Warden.

Posting – The marking of a tree or stone wall along a road for the purpose of a scenic road hearing. For trees, such marking as described in MGL c. 87, §3. For stone walls, a ribbon or other appropriate flagging material shall be temporarily affixed at the limit of work on both ends of the stone wall.

Repair, Maintenance, Reconstruction or Paving Work – shall mean any work done within a road (as defined herein) by any person or agency, public or private. Construction of new driveways or widening of existing ones is included, insofar as it takes place within the road. Roadside clearing of trees to provide for vehicular clearance or for improvements to the line-of-sight shall also be included in this definition. The definition of repair, maintenance, reconstruction or paving work shall not apply to the construction or alteration of water, sewer, electric, telephone, cable television or other utilities within the road unless such construction or alteration requires the tearing down of destruction of stone walls or the cutting or removal of trees.

Street Residents – The full list of all of the residents with an address on the subject street or streets, as found in the Norwell Board of Registrars most current edition of the "Resident List of the Town of Norwell".

Road – The entire legal right-of-way of a vehicular traveled right-of-way in Norwell, including any necessary appurtenances, and including bridge structures, drainage systems, retaining walls, traffic control devices and sidewalks. The right-of-way includes the area on and within the boundaries of the right-of-way and the air space above. The applicant shall be responsible for determining the limits and width of the right-of-way by utilizing layout plans available. If the boundaries are not officially known, any affected tree or stone wall shall be presumed to be within the right-of-way until shown by the proponent of the work to be otherwise.

Scenic Road – A road so designated in accordance with MGL. c. 40, §15C

Stone Wall – A man-made grouping of stones forming a straight or curved line.

Tearing Down or Destruction of Stone Walls – The destruction, removal,

covering, or painting of any stone wall, or segment thereof, within or partially within the right-of-way. Temporary removal and replacement of a stone wall at the same location, within a six-month period, with the same materials is permitted without Planning Board approval, but only if the Norwell Highway Department is notified before the work begins so that it can confirm that the wall is properly replaced. Repair of a stone wall, not involving tearing down or destruction of the wall, is permissible and outside the scope of this bylaw.

Tree – A living tree in its naturally standing position within or partially within the right-of-way, the trunk of which has a diameter of four inches or more, four feet above the ground. Nothing in this definition shall be construed to permit a person, other than the Tree Warden, to trim, cut down or remove a public shade tree.

Tree Warden – The Town of Norwell Tree Warden or his designated deputy.

Section 3. Criteria for Designation as a Scenic Road:

a. **In determining which roads or portions of roads should be recommended to Town Meeting for designation as scenic roads, the Planning Board shall consider the following criteria:**
    1. **Overall scenic beauty.**
    2. **Contribution of trees to scenic beauty.**
    3. **Contribution of stone walls to scenic beauty.**
    4. **Age and historic significance of roads, trees and stone walls.**
    5. **Built features, along the street such as historic buildings, historic monuments, historic burial grounds and historic structures.**
    6. **Features of the road, such as surface, pavement width, use restrictions and bridges.**
b. **Roads that have previously been designated as scenic roads may be reevaluated using the foregoing criteria.**

Section 4. Procedure for Designating Scenic Roads:

a. **The Planning Board, the Conservation Commission or the Historical Commission, or a petition of 10 registered voters of the Town, may propose scenic road designation by the timely submission of an article for the Annual Town Meeting Warrant for any road or portion thereof other than a numbered route or state highway.**
    1. **Following the close of the Warrant, the Planning Board shall hold a public hearing by advertising twice in a newspaper of general circulation, the first advertisement to appear at least 14 days prior to the date of the public hearing.**
    2. **The Planning Board shall provide a copy of the public hearing notice to all Street Residents, the Board of Selectmen, the Building Inspector, the Conservation Commission, the Historical Commission and the Tree Warden / Highway Department before the public hearing commences. The Planning Board shall also ask the Town Administrator to announce the public hearing during the on-air**

segment of the Selectmen's meeting.

3. The Planning Board shall ensure that any recommendation for scenic road designation is accompanied by a written description of the characteristics of the road that require the protection afforded by these regulations.

b. The Planning Board shall make its recommendation to Town Meeting on the merits of designation of the road as a scenic road. Following scenic road designation by town meeting, the Planning Board shall:
   1. Notify all municipal departments that may take any action with respect to such road.
   2. Notify all utility companies or other such parties that may work on such road.
   3. Notify the Massachusetts Highway Department.
   4. Indicate such designation on the next revision of the zoning map.

Section 5. Design Standards for Scenic Roads:

a. Only one driveway cut per lot onto any designated scenic road shall be allowed and its width shall be limited to 18 feet.
b. The use of a common driveway is encouraged for multiple-lot projects, but not required.
c. Stone wall sections to be removed for a driveway shall not exceed the driveway width by more than 2 feet on each side edge of the driveway.
d. Removed stone for driveway breaches shall be used to repair other sections of the wall along the road at the sole expense of the applicant.
e. Stone walls that are breached should be provided with appropriate termini. Appropriate termini shall consist of, but not be limited to, stone piers, granite posts, or tapered ends to the stone wall that turn back onto the driveway.
f. The Planning Board retains the right to waive any or all of the §5 Design Standards if it deems doing so is consistent with the intent of MGL c. 40, §15C Scenic Roads and it enhances the considerations enumerated in §7.

Section 6. Filing for Work Affecting Trees or Stone Walls; Emergencies:

a. Filing. Any person, organization or agency seeking the consent of the Planning Board under MGL c. 40, § 15C (Scenic Roads) regarding repair, maintenance, reconstruction or paving work, including new driveways, that may involve the cutting or removal of trees or the tearing down or destruction of stone walls, or portions thereof, within or partially within the right-of-way of a designated scenic road, shall provide notice to all abutters and file a request with the Planning Board, submitting the following information:
   1. The text of the notice of the public hearing, identifying the location of the proposed action in terms enabling the readers to locate it with reasonable specificity on the ground without the need for additional plans or

references and describing in reasonable detail the proposed changes to trees and stone walls.

2. A statement of the purpose(s) for the proposed action.
3. Any further explanatory material useful to adequately inform the Planning Board, including clearly identifiable digital or printed photographs of the proposed work area and its existing conditions. When the Planning Board determines the proposed work to not be extensive, it may permit one copy of an identical set of existing conditions photographs to be marked up to demonstrate the proposed work. All pictures shall be signed and dated by the applicant.
4. If the less formalized §6.3 requirements are not adequate in the opinion of the Planning Board, seven sets of plans, drawings or other further explanatory reference material showing the proposed work with specific design details shall be required. A description of the proposed changes to either trees or stonewalls should be included on these plans.
5. Except in the case of town agencies, a fee sufficient to reimburse the cost of advertising and shall be provided before the public hearing commences.
6. A list of abutters to the property requiring the scenic road hearing and proof of notice given.
7. Adequate posting per §2 of this bylaw, at least one calendar week before the public hearing.
8. An explanation of any proposed compensatory actions that may be useful to the Planning Board before the start of the public hearing.

b. Notice. The Planning Board shall, as required by statute, give notice of its public hearing by twice advertising in a newspaper of general circulation in the area, with the first publication of the notice to be at least fourteen days prior to the hearing and the last at least seven days prior to the hearing. Copies of the notice shall be sent to the Board of Selectmen, the Tree Warden / Highway Department, the Conservation Commission and the Historical Commission before the public hearing commences.

c. Public hearing & Decision. The Planning Board shall hold a public hearing within thirty days of receipt of a properly filed request and shall file a decision with the Town Clerk fifteen days after the hearing, unless the applicant agrees to an extension. The Planning Board shall also send a copy of its decision to the applicant, the Board of Selectmen, Building Inspector, the Conservation Commission, the Historical Commission and the Tree Warden / Highway Department.

d. Public Shade Trees. When required by MGL c. 87 (Shade Trees), notice shall be given and the Planning Board

hearing required by MGL c. 40, §15C (Scenic Roads) shall be held in conjunction with those held by the Tree Warden, with the Tree Warden responsible for the consolidated notice acting under MGL c. 87 (Shade Trees). Consent to an action by the Planning Board shall not be construed as consent by the Tree Warden or vice versa. A Planning Board decision shall contain a condition that no work shall take place until any applicable provisions of MGL c. 87 (Shade Trees) have been complied with.

e. **The approval of the Planning Board or Tree Warden under these regulations for any proposed work shall be valid for two years from the date the decision is filed with the Town Clerk. After two years from this date, the decision is void unless an extension is granted before the expiration.**

f. **Emergency repair. This article shall not apply when the Tree Warden acts in an emergency in accordance with law. In cases where a tree or branch poses a threat to public safety and there is not sufficient time to obtain prior approval from the Planning Board, the Planning Board must be notified by the Tree Warden within the calendar week after any action, where if the threat had not existed, would be a violation of this ordinance. Under no circumstances are stone walls to be torn down or destroyed on a scenic road under the auspices of emergency repair.**

Section 7. Considerations When Acting On Applications:

In acting on filings concerning designated scenic roads, the Planning Board shall take into consideration the following:

a. **That abutters were notified.**
b. **Contribution of trees to scenic beauty.**
c. **Contribution of stone walls to scenic beauty.**
d. **Age and historic significance of roads, trees and stone walls.**
e. **Features of the road, such as surface, pavement width and bridges.**
f. **Public safety.**
g. **Compensatory actions proposed, such as tree and stone wall replacement. The Board may approve any plan where the compensatory action is deemed to be of greater value, as defined by §7, than the proposed alteration.**
h. **Functional importance and urgency of repair, maintenance, reconstruction or paving.**
i. **Additional evidence contributed by abutters, town agencies and other interested parties.**
j. **Existence or absence of reasonable alternatives.**
k. **Recreational uses of the road.**
l. **Other planning information, including how what is proposed relates to the Master Plan.**

Section 8. Enforcement and Violations:

a. **Failure to file with the Planning Board for permission to cut or remove trees or for the tearing down or destruction of any portion of a stonewall within any designated scenic road will require an immediate after-the-fact filing and the applicant shall be required to restore features altered by the work. Unless waived, the applicable restoration shall consist of restoring the stone wall to existing conditions and/or replacing the trees cut with**

nursery quality trees that are acceptable to the Planning Board - in consultation with the Tree Warden. For every three inches of tree cut, measured across its stump, a nursery quality replacement tree with a two inch caliper, measured four feet from the ground, shall be planted by the applicant.

b. Failure to comply with a duly issued decision of the Planning Board shall be subject to restoration as detailed above and other remedial measures that the Planning Board deems necessary. Any decision not carried out within two years of issue shall be void and shall require a new filing, unless an extension is granted before the two-year expiration.
c. The location of any tree replacement shall be at the direction of the Tree Warden.
d. The Planning Board and the Tree Warden shall have the authority to enforce the provisions of this section, as applicable.
e. Any violation of this bylaw, whether for the tearing down or destruction of stone walls or the cutting or removal of trees, shall result in a fine levied against the offending property owner. The first violation shall result in a fine of $100, the second violation shall result in a fine of $200, and the third violation shall result in a fine of $300. Each day, or portion thereof, that a violation of this bylaw continues shall be deemed a separate offense.
f. In addition to the foregoing remedies, the Town of Norwell acting by and through its Planning Board, and with the approval of the Board of Selectmen, shall have all other legal and equitable remedies, which may exist, including without limitation the right to seek injunctive relief.
g. In addition and as an alternative method of enforcement, the Town of Norwell may in its discretion enforce the provisions of this bylaw in the manner provided in MGL c. 40, §21D.
h. If, in an aspect, any provision of this bylaw, in whole or part, shall prove to be invalid for any reason, such invalidity shall only affect the part of such provision found invalid. In all other aspects, all provisions of this bylaw will remain in full force.

Section 9. Scenic Roads in Norwell

The following roads are designated as scenic roads under MGL c. 40, §15C and this bylaw:

a. Bowker Street
   Annual Town Meeting – 3/1976
b. Norwell Avenue
   Annual Town Meeting – 3/1976
c. Jacobs Lane
   Annual Town Meeting – 3/1980
d. Stetson Road
   Annual Town Meeting – 3/1980
e. Stetson Shrine Lane
   Annual Town Meeting – 3/1980
f. Tiffany Road
   Annual Town Meeting – 3/1980
g. Central Street
   Annual Town Meeting – 5/2005
h. First Parish Road
   Annual Town Meeting – 5/2005
i. High Street
   Annual Town Meeting – 5/2005

j. Old Oaken Bucket Road
Annual Town Meeting – 5/2005
k. Prospect Street
Annual Town Meeting – 5/2005
l. River Street
Annual Town Meeting – 5/2005
m. Circuit Street
Annual Town Meeting – 5/2006
n. Green Street
Annual Town Meeting – 5/2006
o. Lincoln Street
Annual Town Meeting – 5/2006
p. Pine Street
Annual Town Meeting – 5/2006
q. Pleasant Street
Annual Town Meeting – 5/2006
r. Mount Blue Street
Annual Town Meeting – 5/2006
s. Wildcat Lane
Annual Town Meeting – 5/2006
t. Winter Street
Annual Town Meeting – 5/2006

Section 10. Power to Adopt Rules and Regulations:
The Planning Board, in its discretion, shall have the authority to adopt rules and regulations consistent with this Bylaw.

ARTICLE NO. 26 (Secret Ballot 2/3/Vote Required)
YES, 164; NO, 9; (115 Needed to Pass, Motion Carried) VOTED TO borrow the sum of $910,000.00 for the purpose of replacing existing municipal wells and renewing associated pumping facilities to increase capacity and efficiency of existing sources of water supply; and to meet this appropriation, the Treasurer, with the approval of the Board of Selectmen, is authorized to borrow the appropriate sum of money under MGL, Chapter 44, paragraph 8, to be spent under the direction of the Board of Water Commissioners.

ARTICLE No. 27 (Majority Vote Required)
UNANIMOUSLY VOTED TO transfer the sum of $14,000.00 from Free Cash to be expended under the direction of the Recycling Committee for the care and maintenance of the brush pile located at the Recycling Center.

ARTICLE No. 28 (majority Vote Required)
UNANIMOUSLY VOTED that the Town vote to authorize the Board of Selectmen to sign a five-year extension of the Intermunicipal Agreement relative to the South Shore Recycling Cooperative effective July 1, 2008.

ARTICLE No. 29 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town allow the Wind Turbine Committee (also known as the Wind Power Committee) appointed pursuant to Article 63 of the 2007 Annual Town Meeting to report to the 2009 Annual Town Meeting. In addition to considering isuues of wind power as outlined in the aforementioned Article, the Committee may at its discretion consider and propose to Town Meeting and/or relevant Town officials and Boards additional ideas to save energy costs and/or use cleaner energy I Norwell, including the proposing of regulations and zoning bylaws that enhance clean energy use. The Wind Power Committee is authorized to initiate a study of municipal energy

aggregation under MGL Chapter 164, Section 134 and to make any recommendations to the Town.

As the Selectmen make appointments to the Committee, the Selectmen shall determine the terms of office of the committee members and may re-appoint members to expiring terms at their discretion. The Selectmen shall in their discretion determine the appropriate timing for the termination of the committee's charter and shall notify the committee at least 60 days in advance to conclude its activities, or act on anything relative thereto.

ARTICLE No. 30 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $30,000.00 from Free cash for the purpose of a Feasibility Study performed in conjunction with the renewable Energy Trust, Department of Energy and Telecommunications, or other agency of the Commonwealth of Massachusetts. Said funds will be expended under the direction of the Town of Norwell Wind Power Committee.

ARTICLE No. 31 (Majority vote Required)
UNANIMOUSLY VOTED for the Town to transfer from Free Cash the sum of $3,300.00 for the purpose of adjusting the salary of the Outreach Coordinator position in the Personnel Classification Plan from Grade 10, Step 6 to Grade 11, Step 6.

ARTICLE No. 32 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town vote, pursuant to Massachusetts General Laws, Chapter 44B, to reserve the sum of $130,000.00 from FY 2009 revenues, for the creation, preservation and support of affordable housing, and to reserve the sum of $130,000.00 from FY 2009 revenues, for the acquisition, creation and preservation of open space.

ARTICLE No. 33 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town vote to appropriate from Community Preservation Fund FY 2009 Revenues, for recreation purposes, the sum of $200,000.00 to be used by the Norwell Pathways Committee for the design, permitting and construction of or improvements to any pedestrian or bicycle pathways in the Town of Norwell. Such expenditures may include the purchase of land or easements by the Board of Selectmen if the Committee determines it desirable. All proposed projects under this article shall be subject to site planning review by the Norwell Planning Board. Expenditures shall be approved by the Community Preservation Committee and must be co-signed by the Planning Board chair (or designee) that site review has taken place.

ARTICLE No. 34 (Majority vote Required) UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 34.
(To see if the Town will vote to transfer a sum of money from the Community Preservation Fund for Open Space purposes to conduct a survey of Stetson Meadows property, so-called, and appropriately record the relevant portion of the property under conservation protection, or act on anything relative thereto.)

ARTICLE No. 35 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town vote to approve in accordance with Massachusetts general Laws, Chapter 98, Section 37 the Sealer of Weights and measures fees as written in the Warrant:

ARTICLE No. 36 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town designate Cross Street, Forest Street and Summer Street as scenic roads pursuant to the Massachusetts Scenic Road Act, MGL Chapter 40 Section 15C.

ARTICLE No. 37 (2/3 Vote Required)
UNANIMOUSLY VOTED to amend the Town of Norwell Zoning By-Law Article III, Section 3400, Building demolition, subsection (d) Procedure, paragraph 7, by striking the words "six (6) months" where ever they appear and replacing them, therein, with the following: "one (1) year".

ARTICLE No. 38 (Majority Vote Required)
UNANIMOUSLY VOTED to INDEFINETLY POSTPONE ARTICLE NO. 38.
(To instruct the assessors to automatically eliminate the 3% surcharge for the Community Preservation Act from the real estate tax bill for any resident senior over the age of 68 starting with the 2009 tax bills)

ARTICLE No. 39 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town transfer the sum of $4,000.00 form Free Cash to contract with the South Shore Women's Resource Center for domestic violence intervention and prevention services for its residents.

ARTICLE No. 40 (Majority Vote Required)
UNANIMOUSLY VOTED that the Town Transfer from free cash the sum of $2,000.00 for the Womansplace Crisis Center in fiscal year 2009 for services provided to the sexual assault survivors and their families.

ARTICLE No. 41 (Majority Vote Required)
UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 41.
(Right to Farm By-Law as written in the warrant)

ARTICLE No. 42 (Majority Vote Required)
UNANIMOUSLY VOTED to transfer from Free Cash the sum of $2,000.00 for the South Shore Community Action Council, Inc., for services to low-income families in the Town of Norwell.

ARTICLE No. 43 (Majority Vote Required)
UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 43.
(To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.)

ARTICLE No. 44 (Majority Vote Required)
UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article No. 44.
(To see if the Town will vote to appropriate a sum of money to decrease the Tax Rate for FY 2009.)

INSTRUCTIONS TO TOWN OFFICIALS, ANNUAL TOWN MEETING, MAY 13, 2008.

1. Sally I. Turner, 50 Turner's Way moved to instruct the Board of Selectmen to comply with the specific mandate concerning the design and layout of a new cemetery at Stetson Meadows as set forth in the vote made under Article 34

of the 2007 Annual Town Meeting. The vote authorized the "designing and layout of a new cemetery at Stetson Meadows in a natural woodland park style for family and community members to experience an inviting place for remembrance and contemplation in keeping with an existing ecological function as an open green space and a sanctuary for native plants and wildlife." It is further requested that the Selectmen appoint a committee to carry out the 2007 Town Meeting's intent in regard to the design and layout of the new cemetery.

2. Fred N. Levin, 75 Ridge Hill Road moved to instruct the Board of Selectmen , the Norwell Historical Commission and the Community Preservation Committee to develop a strategic plan for presentation at the next town meeting regarding short and long term objectives and mechanism to preserve maintain and fund the acquired Stetson Meadow House and other future similar properties.

Issues to be addressed:
1. Restoration and potential relocation of Historical Houses and other buildings.
2. Renovations
3. Short and long term ownership
4. Funding of maintenance
5. Specific policy and proposal to apply in regard to future similar properties when available.

FISH RIGHTS:

1. Daniel Bawabe, 47 May Elm Lane, $125.00
2. Robert W. Himberg, Jr., 231 Old Oaken Bucket Road, $125.00

(This money will go directly to the General Fund of the Town of Norwell.)

There being no further business to discuss, a motion was made, seconded, and it was UNANIMOUSLY VOTED to dissolve the Annual Town Meeting at 10:00 PM.

Respectfully submitted,
Patricia M. Anderson
NORWELL TOWN CLERK

ANNUAL TOWN MEETING
MONDAY, MAY 12, 2008
AND
TUESDAY, MAY 13, 2008

A true record, ATTEST:

Patricia M. Anderson
NORWELL TOWN CLERK

Pursuant to the Warrant, all eligible voters from Precinct One, Two and Three met at one centralized polling place, the Norwell Middle School, located at 328 Main Street to cast their votes for candidates for the listed offices.

The following election workers were present:

In Precinct I, Ann Valair, WARDEN; Amy Locke, CLERK; John Holmes, Eleanor Larson, Pauline Kernan and Lois Arnold, TELLERS.

In Precinct II, Lynne Rose, WARDEN; Eleanor "Deb" Bailey, CLERK; Ellie Mayers, Eleanore McCann, Margaret Dixon and Tilda Baldwin, TELLERS.

In Precinct III, Jeanne Scully, WARDEN; B. Jean Snow, CLERK; Jeanette Simmons, Priscilla Burgess, Mary Donovan and Patricia Leary, TELLERS.

CONSTABLE on duty was Ted Baldwin.

CHIEF WARDEN over all was Town Clerk, Patricia M. Anderson.

Polls opened for all precincts at 7:00 A.M. After 8:00 P.M. closing, tallies compiled in each of the three precincts were brought to the Town Clerk where the final tally of all precincts was made and publicly announced. Breakdown of the number of votes cast in each precinct is as follows:

In Precinct I, there were 236 Democratic votes cast including 14 absentee; 56 Republican votes including 2 absentee, no Working Families or Green-Rainbow party votes were cast.

In Precinct II, there were 94 Democratic votes cast including 6 absentee; 62 Republican votes including 3 absentee and no Working Families or Green-Rainbow party votes were cast.

In Precinct III, there were 108 Democratic votes cast including 8 absentee; 63 Republican including 6 absentee and no Working Families or Green-Rainbow party votes were cast.

Total number of votes cast in all precincts was 745.

As of September 16, 2008 there were a total of 7081 registered voter in Norwell. Those participating in the Primary represented 10% of the electorate.

Tallying in open meeting at Town Clerk's office resulted in the following count of votes cast:

GREEN-RAINBOW- No votes cast.

A True Record, ATTEST

RECORD OF STATE ELECTION
Tuesday, November 4, 2008

At 7:00 am on Tuesday, November 4, 2008, the polls opened at the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street, for all eligible voters to cast their votes for their candidates from ten offices and four questions listed on the ballot.

As a huge turnout was expected for the State Election, the School Department closed the schools for Election Day. This was necessary as it provided for more parking and no bus delays. There were three police officers present during the polling hours: one, to direct traffic in and out of Main Street, the second officer to direct voters to their parking place and the third police officer to man the school building entrance of the polling place and to make sure no campaigning was going on within the 150 foot requirement. Later in the afternoon an additional officer assisted with traffic.

A few changes were made as to the access of the gymnasium. Only the side entrance was used to enter. This kept the line of voters in one place so that they would not have to merge into the gym from two hallways.

The handicap parking was relocated to the right parking area closet to the entrance. This was done for safety reasons and worked well.

A training session for the Election Workers was held on October 22, 2008, in the Osborn Room of the Town Offices.

The Election Law was changed with House Bill 5121 – Now Chapter 369 of the Acts of 2008 – The law passed in both chambers in one day. This bill temporarily extended the grace period for voter residency from six months to eighteen months. These voters would only be able to vote for President, U. S. Senate and ballot questions since they are a statewide vote.

The Secretary of States office printed special ballots and delivered them on October 31, 2008.

Only two ballots were used in Norwell.

Several of the Election Workers set up their precincts the night before the election. When the polls opened at 7:00 AM all precincts were prepared for the line of voters. Only one line formed to enter the gym and that was the side entrance of the building. Many voters remarked on how smooth the election went.

It could not of happened without the devoted hard work of all the election workers and the coordination from the school, which includes Mike Jenkins and his staff, and Judy Crooks and staff from the school food services.

(Record of State Election continued)

Pursuant to the Warrant, eligible voters met at the established precincts to cast their votes for the listed offices:

The following election workers were present:

In Precinct I, Ann Valair, WARDEN; Amy Locke, CLERK; Frank Nagle, Eleanore McCann, Beatrice Griffiths, John Carnes, Marilyn Knowles, Ellen Torrey, Eleanor Bailey and Marilyn Geno, TELLERS.

In Precinct II, Lynne Rose, WARDEN; Jean Valicenti, CLERK; Lois Arnold, Joyanne Bond, John Holmes, Richard Petrillo, Catherine Rahman, Priscilla Burgess, Anne Bussiere and Mary-Ellen Wetzel, TELLERS.

In Precinct III, Jeanne Scully, WARDEN; B. Jean Snow, CLERK; Jeanette Simmons, Barbara Vitale, Arcely French-Nummelin, Mary Donovan, Eleanor Larson, Carolyn MacLellan , Sharon Ducey and Karen Raccuia, TELLERS.

Barbara Childs, James Jenkins and Rachael Hayes were stationed near the entrance to the gym to direct the voters to their proper precinct.

CONSTABLES present were: David Lewis in Precinct I, Kevin Dalton in Precinct II and Ted Baldwin in Precinct III.

Police Detail Officers present were, James Mori, Steven Fitzgerald, Scott Gamble and Matthew Hickey.

Town Clerk, Patricia M. Anderson. Was chief Warden and Election Administrator.

Polls opened in all precincts at 7:00 am and closed at 8:00 pm. Tallies compiled in each of the three precincts were brought to the office of the Town Clerk where the final tally was made and publicly announced.

The number of votes cast in each precinct was as follows:

Precinct I, 2001 votes cast
Precinct II, 2070 votes cast
Precinct III 2046 votes cast

Total votes cast in all precincts was 6313, including 728 Absentee Ballots.
Out of 7659 registered voters 82% participated in the election process.

Tallying during an open meeting at the Town Clerk's office resulted in the following count:

ELECTORS OF PRESIDENT AND VICE PRESIDENT

A TRUE RECORD ATTEST

REPORT OF THE BOARD OF REGISTRARS

On December 16, 2008, the population of Norwell was 10,699. The number of residents and voters fluctuates from month to month. As of December 16, 2008 a breakdown of voters was as follows:

*Democrat	1759
*Republican	1469
*Unenrolled	4102
*Green-Rainbow	4
*Working Families	3
**Libertarian	9
**Veteran Party American	1
Grand Total	7346

*Political Party
**Political Designation

Those voters registered in a political Designation cannot vote in a State or Presidential primary, but they are all set for all other elections.

Voters who are "Unenrolled" may choose whichever party they would like and remain "Unenrolled".

Special Voter registration hours were held twenty (20) days before the Annual Town Election and for the Annual Town Meeting. Special Voter Registration hours were also held for the Special Town Meeting ten (10) days before the meeting. The Town Clerk's office, on those days, is open from 8 am until 8 pm.

Many petitions were received and certified for the State as well as nomination papers for the Town Election.

835 voters registered in 2008. This includes change of party as well as change of address within Norwell.

As a result of the certification of the 2008 State Election, we have some changes to the political parties and political designations.

Since the US Senate candidate Robert Underwood received at least 3% of the statewide vote, the Libertarian Party is now a political party.

Also, since the Green-Rainbow Party (J) did not receive at least 3% of the statewide vote for their presidential electors, they have reverted back to a political designation.

The Working families (Z) party also did not have any statewide candidates and therefore is no longer a political party (and DO NOT become a political designation).

For the last few years many more young people have registered to vote and have voted. The Board would like to especially thank Michael Devine, Assistant Principal, Norwell High School, for keeping the students informed of voting requirements and having all those interested in voting fill out a voter registration affidavit.

The requirement for registering to vote in Massachusetts are: one must be a citizen of the United States of America, a resident of the Town, and at least eighteen (18) years of age on or before the next election.

One may register to vote or change one's party affiliation at the Registry of Motor Vehicles or any other State agency. Mail-In registrations forms can also be obtained at the Norwell Post Office, the Norwell Public Library, and of course, the Town Clerk's office.

Election 2008 was a historical event in that the first African American, Barack O'Bama, Democratic Senator from Illinois, was elected President of the United States of America.

The Board of Registrars and the Town Clerk are always looking for people to work at the polls, especially those residents registered in one of the Political parties. If you are interested, kindly call the Town Clerk's office at 781-659-8072.

Respectfully submitted,
BOARD OF REGISTRARS
Regina T. Giordani, Chair
George P. Kelley
Bruce S. Burgess
Patricia M. Anderson, Clerk

REPORT OF THE BURIAL AGENT

The issuing of Burial Permits is one of the duties of the Town Clerk, who is appointed Burial Agent by the Board of Selectmen annually.

A Funeral Director may not bury or make any other disposition of a decedent without a Burial Permit. Therefore, it is a necessity for the Burial Agent to be accessible. The Town Clerk's office is open on Monday and Tuesday from 8 am until 4:15 pm; Wednesday, 8 am until 7:30 pm; Thursday, 8 am until 4 pm; and Friday 8 am until NOON.

Arrangements have been made with the Communications Center at Norwell Police Station, 40 River Street, for a Funeral Director, or his agent to obtain a Burial Permit on a holiday or a weekend if a satisfactory Death Certificate is received and retained.

The cost of a Burial permit is $10.00 and a certified copy of a Death Certificate is $6.00.

Respectfully submitted,
Patricia M. Anderson
BURIAL AGENT

JURY LIST INFORMATION

Since 1986, Plymouth County towns have been included in the "ONEDAY/ONE TRIAL" jury system.

The names and address of ALL residents (not just registered voters) seventeen years of age and older are provided to the Jury Commissioner through the office of the Secretary of State, with prior permission of the Town Clerk, before June of each year (Chapter 234A, MGL.)

From this Prospective Juror list, which includes dates of births and occupations of all the names included, the Jury Commissioner prepares a randomly selected list by computer of names available for summonsing for juror service to a jury-using court in your judicial district. The presence of one's name on the Prospective Juror List does not necessarily mean that person will be issued a juror summons. However, a person cannot be summonsed as a juror if his or her name does not appear on the Prospective Juror List.

A copy of this list is mailed to the Town Clerk's office, where it is posted for inspection during the latter part of each year. Names on this list are subject to be called for jury duty after January 1st of the next year.

Massachusetts's residents can now use a Web site to respond to jury summons. Prospective jurors can confirm their jury service, seek a disqualification or postponement, and even complete a confidential juror questionnaire online: www.massjury.com/juror.

Respectfully submitted,
Patricia M. Anderson
TOWN CLERK

REPORT OF THE SUPERINTENDENT

In June 2008, the Norwell School Committee officially adopted *NORWELL 20/20*, Norwell Public Schools' 2008-2013 Strategic Plan. (For detailed information on *NORWELL 20/20* please visit www.norwellschools.org/Norwell2020.htm.) Later that summer, the schools' Leadership Team met to map out a timeline for implementing the 61 action plans that are designed to turn NORWELL 20/20's eight overarching strategies into reality:

STRATEGY 1: Collaboration. We will pursue collaborative opportunities with outside educational institutions, businesses, groups, and individuals.

STRATEGY 2: Community Relations. We will develop and implement a community relations plan that actively pursues the involvement and support of parents, business, and the community.

STRATEGY 3: Curriculum. We will review, modify, and assess curriculum cyclically for content, methodology, effectiveness, and currency with an eye toward global trends.

STRATEGY 4: Data. We will collect, manage, and base decisions on verified data.

STRATEGY 5: Educators and Leaders. We will attract, retain, and develop excellent educators and leaders to achieve the mission.

STRATEGY 6: Technology. We will identify relevant, emerging, and cost-effective applications of technology and integrate them into the operations and curriculum of the schools.

STRATEGY 7: Organizational Practices. We will examine organizational practices and implement those that further maximize resources.

STRATEGY 8: Learning Opportunities. We will create opportunities to encourage creative thinking, entrepreneurial skills, real world experiences, problem solving, and brainstorming.

The Leadership Team identified twenty action plans for implementation in 2008-09, and they are in the process of implementing those action plans in addition to their daily responsibilities running our schools and being responsive to the needs of students, faculty, and parents. To say that the role of a building principal, assistant principal, or district administrator has changed over the years would be an understatement. Doing

more with less is a given, but the responsibility to prepare students for their future and not our past has never been greater.

Yet, as the success of Norwell Public Schools in general and our students in particular bears out, our Leadership Team has served them well. We have award winning schools and, more importantly, award winning students. There are many examples of those successes throughout the grades, but since it comes at the very end of the pipeline, so to speak, one of the best metrics is the success our graduates have in gaining admission to colleges and universities. In that regard, Norwell High School graduates have been enormously successful over the years, and the Class of 2008 is no exception: 98% of the class attending a college or university, 96% at a four year school. Of course it is not just our faculty and staff, K-12, who are responsible for this tremendous success rate. It is also parents who have high expectations for their children; the community who has supported the schools over the years; and last, but certainly not least, our wonderful students themselves.

In addition to the Class of 2008, we had several school leaders "graduate" in 2008. After helping guide the school district through several transitions and the highly successful NORWELL 2001 construction program, Peg O'Connor stepped down as a member of the Norwell School Committee, having served Norwell faithfully for the past 12 years. Director of Social Health Dr. Missy Gerety retired after 35 years of dedicated service to literally thousands of Norwell students and families. Principal Marge Dorney also retired after successfully leading Vinal School for the past 7 years, 2 as assistant principal and 5 as principal. Principal Rudy Borgueta, who came out of retirement to assist me "for a year or two", and ended up leading Norwell Middle School for 7 highly successful years, has now retired for a second time. Finally, Dr. Kelly Chase, our Director of Teaching, Learning, and Technology has left to spend more time with her growing family. All of these individuals have made substantial contributions to our schools over the years and are greatly missed.

In conclusion, 2008 was another highly productive and exciting year for Norwell Public Schools. Although we know that there are many challenges on the horizon, we believe we have the right plan and right personnel to provide our students with the education they will need for their future.

Respectfully submitted,
Donald J. Beaudette, Ed.D.
Superintendent of Schools

SOUTH SHORE REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

On Wednesday, September 4th, 2008, Charles D. Homer began his first full year as Superintendent-Director, welcoming 587 students including 165 for the class of 2012. South Shore continues to offer quality vocational technical education to the Towns of Cohasset, Scituate, Norwell, Hanson, Hanover, Whitman, Rockland and Abington for the past four decades.

This year South Shore had 27 seniors qualify for the John and Abigail Adams Scholarships for scoring in the top 25% of their class. As educational demands continue to soar, so do the program offerings to keep in line with economic trends. South Shore students continue to excel in meeting state and national vocational and academic standards before them. As technology continues to change, so must the technical offerings in order to better prepare students to become successful in their communities.

Extracurricular activities continue to expand each year. Approximately 50% of the student population participates in an athletic or extracurricular activity each year. Our Drama Club continues to offer a Dinner Theater presentation each spring with sellout seating. As well, out athletic teams continue to compete at state level competitions in various sports each season.

The Commonwealth's School Building Assistance is continuing to work with us in order to replace our roof and windows. The estimated cost of this project is projected to be $2.5 million dollars for a building that opened in 1962. As we become more involved in this construction project, we will be meeting with local officials in or eight member communities.

The South Shore School District is represented by eight appointed School Committee members from each town's Selectmen's Office:

Robert Heywood, Chairman – Hanover	Robert Molla – Norwell
Gerald Blake, Vice Chairman – Rockland	James Rodick – Hanson
John Manning – Scituate	Kenneth Thayer – Cohasset
Daniel Salvucci – Whitman	Lenwood Thompson – Abington

Currently 2 students from the Town of Norwell will graduate this June 5th:
Mark Chiasson
Alysha Thornton

South Shore would like to thank our eight member towns for their continued support over the years. Our goal will be to continue to train students to be life-long career technical students who in turn will be successful back in their own communities. We understand the importance of fiscal responsibility in our district, especially in tough economic times and we will work with our member communities and continue to offer the best vocational opportunities possible.

Respectfully submitted,
Robert Molla
Town Representative
South Shore Regional School District Committee

NORWELL PUBLIC LIBRARY

As Peter Golkin, museum spokesman stated, "My two favorite things in life are libraries and bicycles. They both move people forward without wasting anything. The perfect day: riding a bike to the library. At Norwell Public Library staff, trustees, Friends of the Library and volunteers work to ensure an efficient and enjoyable library experience. It's commonplace for users to compliment the staff on their friendly, helpful and accurate service.

In 2008 town meeting voted to reinstate hours that were lost the previous year, resulting in more programs and service to residents during difficult economic times. 6,810 people attended 385 programs in 2008. 67,400 people visited the library during the year to use computers, receive instruction, attend programs, read and borrow materials, averaging 27 people per hour. Circulation was up 4% with 132,741 items checked out. The NPL provides a wide-range of materials to satisfy all reading appetites.

Literacy programming begins early. Babies and toddlers enjoy Books and Bubbles, an early literacy program that features nursery rhymes, songs, bounces, and of course, bubbles. Children in grades Kindergarten through third grade are invited to Read to Rylee. Rylee is a Border collie, a certified therapy dog from Dog B.O.N.E. S. (http://www.therapydog.info/index.htm). Young people in grades 7-12 come to Anime/Manga Club for Japanese anime and manga. Special events for all ages such as an owl program, storytellers, and magicians occur regularly. The summer reading program encourages children to maintain their reading skills throughout the summer vacation while having fun.

This past year the Norwell Reads Committee celebrated its fourth year of a town-wide reading program where all were encouraged to read popular book, Marley and Me by John Grogan. Special events included a pet show and book discussions at the public library, the James and at the Council on Aging. Veterinarian Lisa Kimball talked about how to care for an aging pet. At the Council on Aging a therapy dog visited and seniors shared heart warming stories about their beloved pets.

Many local authors discussed their books. Richard Marinick, Jan Brett, Phil Sills, Peter Abrams, and Howard Scott led lively and informative sessions.

Adults visit the library monthly for Scrabble playing, Dinner and a Movie and Book Discussion. Special thanks go to Suzanne Mahler who discussed Gardens for all Seasons.

The library was especially beautiful this years as residents willingly donated lovely flower arrangements arranged near the library entrance to welcome visitors.

Ever attentive to the requests of users and staff, the Friends of the Library added an additional museum pass for users. NPL now has the Institute of Contemporary Arts, allowing residents to visit the museum at a reduced rate.

The library website is another way users find valuable information. The website hits were visited 515,704 times this year!

An Equal Access grant for $5,000 allowed staff to address the underserved population of 6-8 grade children. This age group wanted a space to call their own, a computer in their space, materials that were special to them and an opportunity to meet on a regular basis. The "Teen Spot" was designed and decorated by the newly created Youth Library Council. Special activities were planned and young teens; "tweens" are a popular fixture at the library these days.

Resident Jan Brett presented "An Afternoon with Jan Brett", a fundraiser for the new library. The event was presented at the lovely Cushing Center on a Sunday afternoon to over one hundred guests. She took the time to speak individually to each and every attendee, signing books and chatting. The money raised by this event will be used to furnish the proposed children's room in a new public library. Ms. Brett encouraged children to draw, observe and imagine.

January saw the retirement of Joanne Dirk, a valued and respected employee. Resident Kathy Harrison joined the staff as Systems Manager/Assistant Director. Kathy is a proven manager with emphasis on vendor support of major corporate clients for data processing services and products. She has a strong technical background and education. Kate Godwin filled a vacancy on the circulation team at NPL.

The library thanks our volunteers who work behind the scenes to ready materials for use, and Bruce Burgess and Louise Painter who provide direct service to our users. Bruce teaches computer classes and Louise delivers books to the homebound.

The Friends of the library man Fred the Shed, a shed with lots of nearly new and donated books for sale. The Friends featured an artist in residence program and created gift baskets for sale as well as distributing a newsletter seeking membership and support for the library.

The NPL Trustees continue to work with PBMC to develop a plan for a combined library and town hall facility.

Respectfully Submitted,
Rebecca Freer, Director

NORWELL POLICE DEPARTMENT

I herby submit my third annual report to the town as Chief of Police. The year 2008 proved to hold significant change for the Police Department. We were able to add three new recruits to bring up staffing levels. Officers James Mori, Kenneth Camerota and Matthew Manning graduated from the Weymouth Police Academy in September after completing 22 weeks of training. After an 8 week training program with a senior field training officer they were assigned to work their own shift. The department also welcomed back Officer Carol Brzuszek.

Officer Brzuszek left the department in 2005 and came back to work in March.

The Department was able to make several promotions. We were able to make the departments first ever Deputy Chief. This was long overdue and a welcome addition to assist with the day to day operations of the department. Jack Suurhans was promoted from Sergeant to Deputy Chief in September to fill his opening, Ronald Fries was promoted to Sergeant. The additional staffing levels enabled the department to add a second Detective. This is a position that we had previously lost due to staffing levels. Jay McDevitt was promoted to this position. Congratulations to all in their new roles.

The Department had 229 arrests, 224 motor vehicle accidents, 547 incidents, 764 citations and 8867 calls for service.

The department received over $23,000.00 in grant money. This was used for 911 training, traffic enforcement, drunk driving patrols and community policing programs.

In cooperation with the School Department there were two new community policing programs offered at the High School. The first is called RAD (Rape Aggression Defense) which is only taught to women and focuses on 4 main points: awareness, prevention, risk reduction and risk avoidance. The program was highly successful and is being offered each year as an option to graduating seniors. The second was a "mock crash" which was a staged motor vehicle accident which showed the consequences of drinking and driving. Please check our website at www.norwellpolice.com for all programs we offer, including information on sex offenders.

I wish to thank the members of the police department and the Emergency Communications Center for their dedicated service, professionalism and commitment to the citizens of Norwell. I would also like to thank my administrative assistant for her outstanding job performance. I would also like to thank Chief T. Andrew Reardon and members of the Norwell Fire Department for their support and commitment to the residents of Norwell.

EMERGENCY COMMUNICATIONS CENTER

In 2008 the Norwell Emergency Communications Center Dispatchers handled over 8, 867 calls for the Police Department and 2, 129 calls for the Norwell Fire Department and recorded a total of 2, 401 permits for open air burning.

In addition to calls for the Police and Fire Departments, dispatchers handle both phone and radio calls 24 hours a day for other agencies, the Animal Control officer, Highway Department, Water Department, Tree & Grounds and the Council on Aging. The dispatchers are located in the lobby of the police department and are the first people you see upon entering.

The Emergency Communications Center and Public Safety community was saddened by the death of longtime Dispatcher Laura Coyne. Laura dedicated over 16 years of her life serving the towns of Scituate and Norwell as an Emergency Communications Center dispatcher. Our thoughts and prayers go out to Laura and her family.

The Communications Center hired Daniel Dooley as a full time dispatcher, he attended a five week academy put on by the State Emergency Telecommunication Board and then finished two months of training in the Communications Center. He is currently assigned to the midnight to 8:00 AM shift.

The Communications Center is staffed with seven (7) fulltime dispatchers and three (3) on call substitute dispatchers.

Thanks to all the dispatchers for their professionalism and commitment to the citizens of Norwell.

Respectfully Submitted,
Theodore J. Ross, Chief of Police
T. Andrew Reardon, Fire Chief
Laurie Croke, Lead Dispatcher

FIRE & AMBULANCE REPORT

I wish to thank the residents and taxpayers for their continued support of the Norwell Fire Department.

We continue to see requests for services increase, 2008 was the fourth year that we have exceeded 2100 incidents, requests for medical services continues to be a significant portion of those requests.

This past year our two newest call firefighters not only obtained their state certification as Firefighter I/II but also have been certified as Emergency Medical Technicians

We wish Arthur Dunton Jr. well on his retirement after 21 years of service with our department. We were able to replace this position with a Firefighter / Paramedic this increased our number of paramedics from 10 to 11.

We have purchased and implemented a computer software program that syncs with both Dispatch and the Police Department. This will enhance our ability to share important information about properties and incidents within the town.

Training continues to be a big part of our focus

We had several members participate in a course sponsored by Plymouth County for Fire Department Supervisors

Along with the Plymouth County Fire Dive Team and Sheriffs Department, we ran a very successful river rescue drill on the North River at the end of Chittenden Lane. We would like to thank the residents of the lane for being so cooperative during this drill.

Advancement with EMS

We've had two surprise inspections Ambulance inspections and passed both with flying colors. We are

participating with a special project waiver study on the use of CPAP pre-hospital, and we are delighted that SSH has been designated a level 2 Trauma Center which will hopefully reduce the transport time for critically injured patients.

Summary of Incidents for 2008

Fires	63
Explosions	1
Rescue /EMS	1162
Hazardous Conditions	306
Service Calls	227
Good Intent Calls	105
False Alarm / False calls	259
Severe Weather	3
Special Incidents	1

I wish to thank all of our Firefighters for their continued commitment, our dispatchers on whom we depend on so much to initiate calls and stay with us throughout the operation, and the Norwell Police Department our team members in the street. I would especially like to thank Ms. Erin Galvin who has been doing an outstanding job as the Departments Administrative Assistant.

Respectfully submitted;
T. Andrew Reardon, Fire Chief

HIGHWAY DEPARTMENT

The Winter of 2007-2008 was relatively mild producing only 18 ¼" of snow which the Town forces and contractors managed easily which left time for routine maintenance such as drainage ditch clearing, asphalt patching, equipment maintenance and repairs.

Springtime means cleanup of roadsides and public buildings checked for sod damage and broken asphalt caused by snow plows and loamed & seeded if necessary.

Street sweeping commenced on March 18th and continued until completed on August 8th. As you can see, it takes considerable time to keep the streets of Norwell clean and free of sand & debris.
Catch basin cleaning was also performed as time allowed.

Several roadways in Town showed extensive amounts of asphalt failure prompting the Department to undergo major rehabilitation work to these sections before total failure ensued. The list of roadways and action taken are as follows: Main Street milling 14,711 sq. yards, Grove Street milling 19,741 sq. yards, South Street milling 1,300 sq. yards, Wildcat Lane milling 6,725 sq. yards, and Old Oaken Bucket Road milling 11,743.6 sq. yards.

These sections were cold planed down to 2" in depth beginning April 23rd and completed May 1st. Costello Industries of Newington CT completed the project for a cost of $100,308.11.

Resurfacing these sections began May 2nd and completed on May 22nd. Aggregate Industries of Saugus, MA completed the project for a cost of $328,366.56. Overall project total was $428,674.67.

The months of June & July was spent on spreading reprocessed gravel and loam behind berms and along roadway shoulder areas of newly resurfaced roads. These roads include Jacobs Trail, Wendall Ave., Doris Ave., Prouty Ave., Duncan Drive, Douglas Ave., Leigh Road, Main Street, Grove Street, South Street, Wildcat Lane,

and Old Oaken Bucket Road. Washed out areas were also filled in around Town as needed. All areas where then hydro-seeded.

The rest of the summer months were spent on town wide maintenance focusing on citizens concerns, drainage issues, roadside mowing, street sign repair and/or replacement, catch basin & manhole repair/rebuild, berm installation to control storm water run-off, water service repairs, etc.

Concrete pylons were replaced, painted & straightened on Main Street, Grove Street, Prospect Street, Mt. Blue Street, and School Street.

In September, a Public meeting was held between the residents of the Brantwood Manor area, the Town of Norwell, and the Town's Engineering firm Coler & Colantonio. This meeting was held at the Town Hall for the purpose of discussing and finalizing plans for the pavement rehabilitation work for Brantwood Road, Knollwood Road, Myers Ave., & Beers Ave. When this development was constructed, sidewalks of insufficient width to today's standards were installed on both sides of each street. To replace them at the existing widths would render them non-compliant under the Americans with Disabilities Act. Discussions at the informational meeting regarding this problem were soon mutually agreed upon to reconstruct to ADA compliant sidewalks on one side of each street which would not require utility pole re-location or tree removal, and to remove the remaining non compliant sidewalk and loam & seed the area.

On October 6th the Highway Department began the sidewalk removal on Brantwood Rd., Knollwood Rd., Beers Ave., and Myers Ave., while drainage improvements were beginning on Stetson Shrine Lane by Mass Pavement Reclamation, Inc., of Hanover MA.
Beginning on November 3rd, resurfacing began on Stetson Shrine Lane and moved into the Brantwood Manor area. When the roadway resurfacing work was completed, the base coarse of the new sidewalks was laid on November 18th bringing a close to the construction season to begin anew in the Spring & Summer months.

The fall was utilized for preparation of the upcoming winter months by cleaning drainage ditches & swales of newly fallen leaves, installation of snow fence to prevent drifting and maintenance of the Town's snow fighting equipment.

I want to thank the Highway Department employees Chris Cowden Foreman, Steve MacInnis, James Murphy, William Lavery, Scott Ladue, and part-time summer-help Mike Fiore. I would like to also thank the Towns Recycle Center employees Harold Tuttle and Steve Perona, our Snow Removal Contractors, and the many Department Heads, Boards, Commission and Committee members who also take pride in making Norwell what it is today.

Respectfully submitted
Paul M. Foulsham
Highway Surveyor

DEPARTMENT OF LAND AND NATURAL RESOURCES

January was a mix of tree work and equipment repair with a few storms that had us plowing and sanding with the Highway Department along with the middle and end of February for more plowing and sanding.

Benches were repaired & repainted and equipment maintenance was performed. 11 days were spent picking up debris from high winds and a week of chipping from Nor'easters.

As spring approached we began athletic field maintenance, aeration, sweeping, de-thatching, breaking open the infields of the Baseball & Softball fields with the rotor-tiller, then rolling & scarifying them. The Lacrosse fields & Track events were laid out & painted. Benches and barrels were brought to all athletic sites.

During April vacation, crab grass control with fertilizer was applied to the fields, as temperatures rose, over-seeding and/or hydro-seeding was applied.

Every week throughout the Spring & Fall the playing fields must be mowed, relined, trash removed, and periodically swept of excess thatch. At the end of June, grub control with fertilizer was applied to the playing fields.

During the summer, the departments' attention focused on roadside mowing, cutting back corners & clearing street signs of over growth. The bucket truck was also scheduled at this time for tree trimming and removal. By the third week of August, the department applied liquid fertilizer with weed control to the playing fields for broad leaf weeds & clover to make ready for Football, Soccer, & Field Hockey. As the temperature moderated, field maintenance increased aerating, over-seeding and mowing. Overall, 25,350 lbs. of fertilizers were used this year.

Tree work continued around Town. National Grid contracted out to Lewis Tree Service & Stanley Tree Service. These companies removed 100 hazardous trees around Town. The Tree Department removed 91 hazardous trees, and trimmed another 45.

The roadside flail was put to use for 31 days, the Department performed 26 burials & 9 cremations at the Washington Street Cemetery. As the year wound down, benches and barrels were brought back to the Tree Department, fields & public areas were swept of leaves and debris, snow stakes were installed for the start of the winter season.

In closing, I would like to thank the Tree & Grounds Department personnel: Mark Smith Foreman, George Brazil, Phil McKinnon and Phil Murray along with our seasonal part-time summer help employee Brandon Wooten. I would also like to thank the many Boards, Commissions, and Committees that also take pride in making Norwell what it is today.

Respectfully submitted
Paul M. Foulsham
Director of Lands & Natural Resources

NORWELL CEMETERY COMMITTEE

During the calendar year 2008 there were 22 full burials, 9 cremation burials and 4 infant burials, for a total of 35 burials, recorded at Washington Street Cemetery. A total of 28 lots were sold. The sum of $27,460.00 was turned in to the treasurer/collector. $12,200.00 came from the sale of lots and $15,260.00 came from labor done by the Tree and Grounds Department.

A new policy regarding burial of infants less than one year went into effect this year. These burials are now free of charge. This relates only to the burial, not to the purchase of a lot.

We continue to do our best concerning the up-keep of the cemetery even though we have no full time personnel working at the cemetery. Dead wood has been removed from trees, grass has been re-seeded and some stones have been removed in order to give us a little more space for graves. The grass has been cut and trimmed as needed. For all their work we wish to thank the men of the Tree and Grounds Department for their devotion to doing a super job.

Our work on the new cemetery at Stetson Meadows is moving along slowly but surely. Under the direction of Merrill Associates of Hanover and Civitas Architects and Planners of Wareham, we now have a concept plan designed according to the vote of last year's town meeting.

Merrill Associates is proceeding with the task of addressing the problem of the Eastern box turtle living at Stetson Meadows. We hope to soon have that situation resolved to the satisfaction of the Division of Fisheries and Wildlife.

We wish to remind you that lots are still available at Washington Street Cemetery. They may be purchased by residents for $510.00 each. Another reminder, if you plan on moving out of Norwell but wish to be buried here, you must purchase your lots while you are still a resident. For more information, please contact the Town Clerk's office. You will then be referred to the chairman of the cemetery committee.

Respectfully submitted,
Gertrude H. Daneau, Chairman
Mary C. Lizotte, Secretary
Theodore H. Baldwin
Joanne Molla Goldman
Francis J. Nagle

PERMANENT BUILDING AND MAINTENANCE COMMITTEE

The Permanent Building and Maintenance Committee (PBMC) continued it's work on the "Norwell Space Needs Study" including defining the study's objectives. These include but are not limited to:

A: Utilize as much currently available under-utilized or unoccupied space as possible such as the first floor of the Sparrell building and the third floor of the Town Hall.

B: Reduce the number of town owned and maintained buildings as several are old and inefficient to maintain.

C: Provide our town departments with updated, efficient and practical facilities at manageable costs to the town.

D: Sequence these retrofits and construction events based on priorities while minimizing temporary relocation, disruption of services and expense to the town. As directed in the space needs study, these include providing an updated police facility consistent with current police responsibilities. Transforming the building housing most town departments into a more maintainable and efficient facility. Providing increased space and purposeful layout as defined by the library committee. Recognizing the increasing senior population of Norwell with expanded future facilities that address this concern.

Toward these objectives, the board has consulted with the departments involved, obtained existing condition site surveys and wetlands flagging for the town properties involved.

Other programs during the year included various maintenance programs at various town owned buildings i.e. Town Hall, Library.

Respectfully submitted,
Glenn Ferguson, Chairman
Bob Neely
Don Messinger
Eileen Kelley
Fred Hays
George Williams
Lee McKenney

WATER COMMISSIONERS

During calendar 2008 the Water Department was pleased to serve 3,501 residential, commercial, municipal and industrial accounts. This represents an increase of only 20 accounts from the previous year, the third consecutive year in which a fewer than normal number of water services were added to the system. The total volume of water pumped from our ten wells was 368 million gallons, an average daily demand of 1.01 million gallons. Our maximum day was 2.1 million gallons on June 11. Water restrictions were implemented in early July, and lasted through October, requiring residents to reduce outdoor use of water. The lack of rain and unsustainable high rate of pumping to meet demand made this necessary, to protect the resource and stay within limits mandated by the Department of Environmental Protection for our groundwater withdrawal. We thank the residents for their compliance with these restrictions.

The Department conducted 515 service calls during the year. These consisted primarily of installing new or replacement metering equipment and service valves, marking underground utilities, and responding to customer inquiries regarding water issues. There were 41 water system related road openings in 2008 to repair water services, install new services, renew hydrants, repair water main breaks and make other necessary repairs to the distribution system.

Rising costs, coupled with the shallow finite aquifers from which the Town derives its water, have prompted the Water Department to undertake several improvement projects. These projects focus on increasing well yields and distributing this additional water in a more efficient manner. Many of our wells and their supporting electrical equipment have been in service over 40 years. With age, wells drop off in capacity and electrical components become less efficient. We are rehabilitating the Washington Street Well Field, consisting of three wells. New wells have been installed to recover lost capacity, increasing yields. Well #6 off South St. is being replaced, and we expect its output will be doubled.

Energy and water treatment chemical costs increased sharply during 2008. The cost of potassium hydroxide has more than tripled during the year. We plan to evaluate alternative treatment during 2009.

Financial figures for our operations can be found under the reports of the Treasurer and Town Accountant.

We would like to take this opportunity to thank Water Superintendent John McInnis, Distribution Foreman Steven Gatanti, Treatment Plant Operator Marc Spinella, Water System Mechanics Scott O'Keefe and Rick Mosca, Administrative Secretary Theresa Graham, and Meter Reader John McGloin, for their fine dedication and their superb ability to communicate and address issues with water customers, contractors, consultants, and Town officials.

We would also like to thank all the other Town Boards, Commissions, and Committees who have offered their cooperation, guidance and support during the past year.

Respectively submitted,
Board of Water Commissioners
Steven Ivas, Chairman
Frederick St. Ours
Peter Dillon

BOARD OF HEALTH

Local and regional public health emergency preparedness planning activities as required for the Regional Public health Coalition continue to be a main focus of the Board. Activities included the completion and updating of

emergency plans, updating of contact lists and participation in communication and notification drills. Staff has also completed National Incident Mgmt. (NIMS) training and Incident Management Training (ICS).

The Board was pleased to acquire 5,000 syringes to be used in a public health emergency such as pandemic flu. The purchase was made possible through a MA Department of Public Health Emergency Preparedness grant.

Participation in the public flu clinics remained strong this year, and the Board would like to thank the Norwell VNA for their usual exceptional work at the clinics and with the public health nursing services they have provided for so many years.

No Mosquito borne illnesses were confirmed, but reported cases of Lyme disease continue to rise.

The Board has extended the three (3) year trash and recycling contract for Mike DelPrete and Sons Trucking for another two (2) years through June of 2010. The Board feels that the service has been exceptional and the feedback from the town has been very positive.

Thanks go out to the South Shore Tobacco Collaborative (SSTC) for youth sales compliance checks and the educating of merchants. The local merchants with very few exceptions have done a fine job complying the State Laws.

The Board would like to extend its appreciation to its hard working full time staff consisting of Health Agent Brian Flynn and Administrative Assistant Pat Cummings. Special thanks go out to long time alternate Health Agent Jim Jenkins, P.E, Food Inspector Bob Griffin, CHO, and to Ralph Cole, PLS for another year of valuable service to the Town of Norwell.

The Board would like to thank outgoing Board member Dr. Arthur Bowman for his many years of service to the Town as a board member and welcome Meg Doherty as the newest Board member

Appreciation goes out to all Boards, Commissions, Department Heads, staff members and the citizens of the Town of Norwell.

COUNCIL ON AGING

The Council on Aging has existed as a town department, by way of unanimous vote, since the 1964 Annual Town Meeting. Its main function remains the same today as it did 41 years ago. This is to provide **information, advocacy and resources to the older adults of Norwell.** It continues to be the community focal point for services and programs that can assist, support and supplement the concerns and needs of our residents, their families and friends.

The primary responsibilities of the Council on Aging focus on five pertinent areas; Information and referral, advocacy, outreach, transportation and education. During 2008, the Council on Aging met these responsibilities by the development and implementation of programs and services both at the COA Center and in cooperation with numerous community agencies and organizations. At the end of the 2008 fiscal year, we provided services and/or programs to over 719 individuals with 29,925 units of service given via the aging network and support system.

The **Outreach Program** continues to be one of our top priority programs. Outreach works with those older adults who may need support with fuel assistance, transportation, housing concerns, telephone reassurance or may be in an "at-risk" situation. The Outreach Coordinator works with families, caregivers, agencies and local resources to insure all is being done to assist and support the older individual within their home. We continued to offer a Loss Support group for residents who experienced any type of loss in their lives. This program has been well received.

Volunteers continue to be the backbone of our department. In 2008, we were fortunate to receive over 7,725 hours in volunteer service from over 82 different individuals. Examples of this dedication and commitment include; providing medical transportation; program instruction and support; assisting in the office; and delivering meals to home-bound elders. This dedication from so many has saved the community over $109,500 this year.

Transportation is another responsibility and necessary asset to our operation. In 2008, we provided over 35 hours of transportation services weekly, encompassing over 7,324 trips during the year. Special transportation services are also available for medical appointments that cannot be served through the Council on Aging van. This includes a network of volunteer drivers, as well as a transportation grant program that allows us to provide appropriate transportation into Boston and other medical facilities outside the South Shore area. This is funded via competitive grants through the Older Americans' Act, the Executive Office of Elder Affairs and South Shore Elder Services.

SHINE (Solving Health Insurance Needs of Elders)
The Council on Aging has been fortunate to have an outstanding SHINE volunteer available to help address the health insurance needs of elders. 2008, in particular has posed many insurance obstacles for elders with the offering of Medicare Part D. The Council on Aging, in conjunction with the SHINE program, has offered a number of educational seminars, as well as one-on-one counseling.

In addition to the above core services, the Council has developed special programs such as the **Senior Work Program**. Having completed its 8th year, the program allows eligible residents to volunteer their time and efforts within a municipal department for a property tax credit up to $750. The program not only helps the older resident, but the participating department with their workload. In 2008, 51 residents and over 18 commissions and departments worked together on the program, for a total of 4,890 hours and estimated saving to the community of $12,224. The Council thanks all those involved with this successful program

During 2008, we continued to foster our long-time relationship with the Cole School with the second annual intergenerational Pen Pal Program. Norwell seniors were matched with students in Ms. Amy Macklin's 3rd grade class. Over a six week period the pen pals corresponded with one another. The program then wrapped up with a luncheon at the senior center, with the students in attendance. The students later invited their pen pals to attend a picnic at the school. This program continues to be a success that we look forward to continuing each year. The Council on Aging also coordinated a Veterans' Panel with Norwell High School juniors. Three WWII Veterans served as panelists, providing first-hand accounts of their service. This was a nice compliment to the students' social studies curriculum. The Council on Aging also continued to partner with the Norwell High School Community Service project. Through this project, students helped several seniors with projects within their homes. We also thank the various Boy and Girl Scout Troops and the Hynes Family that provided services throughout the year. We appreciate any opportunity to foster intergenerational relationships within the community.

We would also like to take this opportunity to thank all of the volunteers who are the mainstay of operations; the "Friends of the Norwell Council on Aging" for their program and financial support; the support and dedication of our staff; other Town Departments and the residents of Norwell.

Respectfully Submitted,
Ann Horrigan, Chairperson
Ann Pierce
Bonnie Campbell-Dunn
Ann Valair
Marion McLaughlin
Dorothy Lynch
Rosemary O'Connor, Director
Diane M. McCarthy, Outreach Coordinator

CUSHING CENTER

The Board of Directors of the Cushing Center are pleased to submit our report of activities for 2008 for the review of residents and officials.

Despite the troubled economy the Cushing Center has once again been able to increase the revenue that we are able to return to Norwell's General Fund. This year we are pleased to report a net profit of over $12,000.00! In these difficult times we are proud to be able to help, even in a small way to defray the looming budget gaps for the upcoming year. We work hard to be return a profit to Norwell for it's investment in the building. Equally important to us is that Norwell residents, groups and committees are able to make use of this beautiful facility as well. A partial list of the groups who were able to utilize the building over the last year includes; the Norwell Chamber of Commerce for their "Taste of Norwell" event, the Norwell Men's Club, for their Christmas Tree Lighting, the Norwell Boosters Club, the Norwell Historical Society, the Norwell Police Department, Norwell Fire Department, the Recreation Commission, the High School, the Middle School, the Norwell Public Library, the Norwell Garden Club, the South Shore Dancers, the North and South Rivers Watershed Association, the South Shore Natural Science Center, and the Norwell Eagle Scouts. As you can see, the building is very well used.

A recap of our revenues and expenses is as follows:

REVENUES:	Office and Hall rentals	$ 66,220.81
EXPENCES:	Payroll and Operating costs	$ 54,068.21
		BALANCE $ 12,152.60

NET PROFIT TO NORWELL $ 12,152.60

We expect to complete our window restoration project in the spring of 2009. As soon as the window project is completed, we will turn our focus to painting the exterior trim on the building. We continue to perform small maintenance, painting on the interior as needed, and replaced the carpet in the foyer and entry stairs. The elevator continues to challenge us but, at this writing it is performing well.

We would like to send a special thank you to the North River Gardeners for replanting the Flower Beds at the front entry. Their continued efforts have made a real difference to the front of the building, and Norwell Center as a whole.

We are so lucky to have such a dedicated staff. Mary Lou O'Leary, Patrick McKenna, and Diane Townsend continue to exhibit the kind of dedication and commitment that make the Cushing Center a success, and Norwell such a special place to live.

For the Board of Directors
Jef Fitzgerald

METROPOLITAN AREA PLANNING COUNCIL

Created by an act of the Legislature in 1963, the Metropolitan Area Planning Council (MAPC) promotes inter-local cooperation and advocates for smart growth by working closely with cities and towns, state and federal agencies, non-profit institutions, and community-based organizations in the 101 cities and towns of Metropolitan Boston. MAPC strives to provide leadership on emerging issues of regional significance by conducting research, building coalitions, advocating for public policies, and acting as a regional forum for action.

MAPC provides technical assistance and specialized services in land use planning, water resources management, transportation, housing, resource protection, economic development, public safety, geographic information systems (GIS), collective purchasing, data analysis and research, legislative and regulatory policy, and the facilitation and support of inter-local partnerships. More information is available at www.mapc.org.

MAPC is governed by 101 municipal government appointees, 21 gubernatorial appointees, and 13 appointees of state and City of Boston agencies. An Executive Committee comprising 25 elected members oversees agency operations. The agency employs approximately 40 professional staff under the leadership of an executive director. Funding for MAPC activities is derived from governmental contracts and foundation grants, and a per-capita assessment on member municipalities.

To better serve the people who live and work in Metro Boston, MAPC has divided the region into eight subregions. Each subregion is overseen by a council of local leaders and stakeholders, and a staff coordinator provides organizational and technical staff support.

Advancing Smart Growth

MAPC is directed by statute to adopt, from time to time, a comprehensive regional plan. Our current plan, MetroFuture: Making a Greater Boston Region, was adopted by the Council on December 2, 2008. This initiative, which has engaged over 5,000 individual and organizations throughout the region, will guide Metro Boston's growth and development, as well as the preservation of critical resources, through the year 2030. At the December 2 meeting, Council members and MetroFuture friends and supporters voted to move the project from planning into advocacy and action, and participants helped to set priorities among a series of implementation strategies designed to move MetroFuture into this dynamic next stage. MetroFuture is uniting the efforts of MAPC, partner organizations, and the thousands of "plan-builders" in an effort to alter regional priorities and growth patterns consistent with the new plan.

As a member of the Massachusetts Smart Growth Alliance, MAPC helped to form the Transportation Investment Coalition last year. This year, the group of business, environmental, public interest, and planning organizations changed its name to Our Transportation Future, and has actively advocated for savings, efficiencies, and new revenues to address the state transportation finance deficit.

MAPC has continued its participation on a zoning reform task force chaired by Undersecretary for Economic Development Gregory Bialecki. The "Land Use Partnership Act," developed through the task force, would establish a framework for municipalities to designate growth and preservation areas, and to develop consistency between master plans and zoning. The bill would significantly modernize the state's outdated zoning and subdivision laws, providing a menu of reforms to all municipalities, and additional relief to those who choose to opt into the bill's planning and smart growth requirements. Passing legislation to reform zoning and planning in the Commonwealth will remain a key area of focus at MAPC throughout 2009.

Collaboration for Excellence in Local Government

Subregional councils continued to communicate with MAPC's eight regions and to gather citizen input this year. Most of the subregional coordinators hosted legislative breakfasts this year, where participants could prioritize legislative goals and ideas with their delegation.

Through its Metro Mayors Coalition, MAPC helped 21 communities secure more than $2 million in Shannon Grant funding over the past three years to implement multi-jurisdictional, multi-disciplinary strategies to combat youth violence, gang violence, and substance abuse. Our North Shore Coalition has grown and flourished during 2008, working on issues as diverse as transportation planning, anti-gang programs, and consolidation of services.

Collaboration for Public Safety

MAPC performs fiduciary, planning, and project management duties for the Northeast Homeland Security Regional Advisory Council (NERAC), a network of 85 cities and towns north and west of Boston. In 2008, MAPC helped to develop evacuation and sheltering plan templates across the region, and created three regional caches of emergency response equipment that can be loaned out to municipalities for drill exercises or emergencies.

MAPC completed Natural Hazard Mitigation Plans for 46 cities and towns this year, on top of the 29 plans already completed in recent years. Each plan recommends strategies to mitigate the impacts of natural disasters *before* they occur, along with a GIS map series depicting areas subject to various natural hazards.

Collaboration for Municipal Savings

MAPC's Regional Services Consortia administered procurements for more than 50 cities and towns, saving communities up to 20% on purchases such as office supplies, paving services, and road maintenance. In 2008, MAPC performed multiple procurements for five consortia: North Shore, South Shore, Metrowest, Northwest and Merrimack Valley (the last in collaboration with the Merrimack Valley Planning Commission). MAPC also entered the vehicle fuels market in 2008, procuring a contract for several South Shore towns.

Reliable Data, Available to All

MAPC, along with the Massachusetts Executive Office of Transportation, continued this year to provide municipalities with Pictometry Oblique Aerial Imagery Technology free of charge to cities and towns. The Pictometry Oblique Aerial Imagery Technology allows users to display features such as buildings, land areas and hydrology, which may be viewed from several directions and at different scales.

In April 2008, Pictometry International once again conducted a flyover of the entire state that provides five-way aerial imagery for all public sector agencies statewide. The five-way imagery consists of four oblique views (north, south, east and west) and one straight down view that may be viewed through Pictometry's Electronic Field Study software version 2.7, which is also available at no cost to municipalities.

MAPC also continued expanding the MetroBostonDataCommon.org Web site, which provides on-line mapping and chart-generating tools for users. This year, the Massachusetts School Building Authority contracted with MAPC for analysis and consulting services, including analysis of the impact of new schools on enrollment patterns. The Data Center also began distributing a monthly e-mail newsletter highlighting new datasets and resources for constituents.

MAPC's data center is partnering with the Donahue Institute at the University of Massachusetts to encourage more accurate counts on the 2010 Federal Census. MAPC is helping municipalities prepare for the Census in many ways, including advocating for the formation of Complete Count Committees that can target hard-to-count population groups such as recent immigrants and renters in each city and town.

Getting Around the Region

MAPC continued its popular Regional Bike Parking Program, negotiating discount group purchasing contracts with three leading vendors of bicycle parking equipment. This allows MAPC communities, the MBTA, and the Department of Conservation and Recreation to purchase discounted equipment. The Boston Region MPO, the Executive Office of Transportation, and the Federal Highway Administration have provided generous funding to support 100% reimbursement of the cost of eligible bike parking equipment bought through this program. Communities around the region have used the program to put new racks at schools, libraries, parks, and shopping areas. A total of 788 racks holding 2472 bicycles have been installed at 25 communities throughout the region.

MAPC continued its work on the Regional Pedestrian Plan, administering a survey this year to nearly 2,000 people. The plan will identify policies to make walking more convenient, safe and practical.

On Beacon Hill

- Municipal Health Insurance:
  MAPC continued encouraging municipalities to join the Massachusetts Group Insurance Commission (GIC), which can help communities save millions of dollars each year by taking advantage of lower insurance rates available through the GIC. To date, 27 municipalities have joined the GIC.

- Shannon Community Safety Initiative:
  Over the last three years, MAPC's advocacy and grant development services have helped more than two dozen communities to secure funding for interdisciplinary programs that focus on youth violence, drugs, and enforcement against gangs. The program was funded at $13 million in Fiscal 2009.

- Statewide Population Estimates Program:
  A $600,000 line item in the 2008 budget provided the State Estimates Program with more resources to prepare for the 2010 Census. This program will help correct the deficiencies of recent population estimates and to prevent similar deficiencies from occurring in 2010. Conservative estimates suggest Massachusetts stands to gain between $2.5 million and $5 million per year in federal funding, or between $7.5 million and $15 million between 2007 and the 2010 Census as a direct result of the program's efforts.

- Surplus Land:
  MAPC continues to advocate for passage of a new policy on the disposition of surplus state land. Specifically, we continue to build support for our proposal that encourages smart growth development on surplus land while giving municipalities a meaningful role in the disposition process, a discounted right of first refusal, and financial participation in the proceeds.

- Community Preservation Act:
  CPA has been very popular throughout the region, but recently the state matching fund has declined precipitously. Legislation filed by Senator Cynthia Creem (D-Newton) and Representative Stephen Kulik (D-Worthington) would secure adequate funding over the long term for the state's CPA matching fund, and encourage even more communities to join.

- District Local Technical Assistance
  The planning assistance offered through the District Local Technical Assistance Fund (DLTA) was funded at $2 million for Fiscal 2009. It enables the state's 13 Regional Planning Agencies, including MAPC, to provide municipalities with technical assistance in two key areas: achieving smart growth land use objectives, and consolidating procurement, services and planning across city and town lines.

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work on behalf of Plymouth County residents, in concert with UMass Amherst faculty and Extension staff, and the United States Department of Agriculture, to provide valuable information in the program areas of 'Agriculture and Landscape' and '4-H Youth and Family Development'. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing

programs.

Cooperative Extension resources and programs for Plymouth County residents include: annual sustainable gardening lectures, annual fruit pruning demonstration; ornamental tree pruning lecture, research, information and educational programs on pests like the winter moth caterpillar; pesticide applicator training & licensing exams; the annual UMass Extension Garden Calendar; landscape and horticultural training and resources for municipal employees and green industry professionals; 4-H Science and Technology workshops in the areas of embryology and plant science; accredited overnight 4-H summer camps; 4-H animal science summer day-workshops; 4-H Life Skills Training, 4-H Community Service Projects, 4-H Public Speaking Training, 4-H Babysitting Program and 4-H partnerships with local farms and agricultural enterprises. New research findings are translated into practical applications and shared with residents and communities through workshops, conferences, office visits, phone calls, field demonstrations, radio, television, local libraries, technical assistance, and newspaper articles. Publications such as newsletters, booklets, and fact sheets bring information directly to those who need it. Additional information is delivered through UMass-Amherst Extension web access www.umassextension.org .

Members of the Plymouth County Extension Staff:

Deborah C. Swanson, Landscape, Nursery, and Urban Forestry Program/Manager
Samuel Fox, 4-H Youth and Family Development Program
Molly Vollmer, 4-H Youth and Family Development Program
Debra L. Corrow, Executive Assistant
Ruth Ahola, Administrative Secretary

Board of Trustees:

Wayne Smith, Chairman - Abington
John J. Burnett, Jr. – Whitman
John Dorgan - Brockton
Jere Downing - Marion
Elizabeth A. Francis - Plymouth
Chris Iannitelli– W. Bridgewater
Joseph A. Freitas – Plympton
Janice Strojny - Middleboro
Jeffrey M. Welch, Plymouth County Commissioner, Chairman, - Abington

The Plymouth County Extension office is located at 266 High St., P.O. Box 658, Hanson MA 02341 (781-293-3541; 781-447-5946) plyctyext@mindspring.com.

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2008.

The Project is a special district created by the State Legislature in 1957, and is now composed of all Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2008 season began dry with a low water table which increased into the summer season. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began on May 27, 2008 and ended on September 26, 2008. The Project responded to 14,346 requests for service from residents.

In response to the continued threat of mosquito borne diseases in the district, we continued our surveillance trapping, aerial and ground larviciding, and adult spray in areas of concern to protect public health.

Eastern Equine Encephalitis was first isolated from *Culiseta melanura*, a bird biting species, by the Massachusetts Department of Public Health in Carver on August 14, 2008. Of the season's total of thirteen EEE isolates, two were from Plymouth County as follows: Carver -8/14, Halifax-9/14.

Based on guidelines defined by the "Vector Control Plan to Prevent EEE" in Massachusetts, one Plymouth County town, Lakeville, was elevated from "Low Level" to "Moderate Level" of EEE Risk" effective Oct 4, 2008. All other towns in Plymouth County Mosquito Project remained in the "Low Level Risk" category. We are pleased to report that in 2008 there were no human or horse EEE cases in Plymouth County.

West Nile Virus was also found within the district. A total of 6 birds tested positive for WNV in the following six towns: Halifax, Hingham, Scituate, Kingston, Whitman and Plymouth. Approximately fifteen birds were handled through this Project as a dead bird repository. A total of seven isolations of WNV in mosquitoes were found in the following towns: Abington - 7/29, Brockton - 8/12, Kingston – 9/5, Mattapoisett – 8/7 and Whitman – 8/26, 9/3. We are also pleased to report that in 2008 that there were no human or horse West Nile Virus cases in Plymouth County. As part of our West Nile Virus control strategy a total of 59,047 catch basins were treated with larvicide in all of our towns to prevent WNV.

The remaining problem of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Massachusetts Department of Public Health. In an effort to keep the public informed, EEE and WNV activity updates are regularly posted on Massachusetts Department of Public Health website at www.state.ma.us/dph/wnv/wnv1.htm.

The figures specific to the Town of Norwell are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Norwell residents.

Insecticide Application. 3,603 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in May and the last in September.

During the summer 1,630 catch basins were treated to prevent the emergence of *Culex pipiens,* a known mosquito vector in West Nile Virus transmission.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Inspectors continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present. Last year a total of 42 inspections were made to catalogued breeding sites.

Aerial Application. Larviciding woodland swamps by helicopter before the leaves come out on the trees continues to be very effective. In Norwell this year we aerially larvicided 358 acres.

Finally, we have been tracking response time, which is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Norwell was less than two days with more than 120 complaints answered.

Mosquito Survey. A systematic sampling for the mosquitoes in Norwell indicates that *Oc. abserratus was* the most abundant species. Other important species collected include *Cx. species* and *Oc. canadensis.*

We encourage citizens or municipal officials to visit our website at www.plymouthmosquito.com or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Anthony Texeira

NORWELL RECREATION COMMISSION

Norwell Recreation offers leisure programs and services to Norwell residents and friends. You can find our program offerings at our website: www.townofnorwell.net and you receive our brochure every season in your mailbox. February 2008 started our new online registration software with great success between 58-77% online signups depending on the season! In the fall, we contributed $7,100 to improve the Cole softball field with the help of the Norwell Girls Softball Association adding another needed softball field.

Our numbers:

- 200+ programs
- 12,000+ participants
- Budget FY08: $147,955 covers 1.6 year-round staff; 18 summer playground staff; and department operating expenses
- Revolving Fund FY08: $213,900 covers all costs of over 195 programs!
- $17,476 unreserved funds returned to the general fund
- Other Staff: 100+ part-time, program specific instructors & assistants

Thank you to the over 88 (!) high-school age young people who volunteers to help during the summer on playgrounds and during the winter with our rec hoops league as coaches and give their energy and time to help make a positive difference to our community. And thank you to the 40+ adult volunteers who help provide program opportunities as instructors, aides, trip chaperones & special event workers.

Thank you to the volunteer commission members listed below (and their families) who help plan our direction, set goals, plan and run special events and serve on other town committees, Athletic Fields and Community Preservation and Pathways, representing the recreation commission.

Thank you to our staff (paid & volunteers) who are our best asset and do all the hard work.

Thanks to the School Department for continuing the free access of their facilities to town rec programs.

A huge thank to the Tree and Grounds Department for their town field maintenance and improvements on a shoestring budget.

We have programs for all ages and all interest levels. Take a look at one and join us in a future program! *This is your recreation department!*

Submitted by Dale Connor, Director and the Recreation Commission members : Ginny Maree, David Kean, Denise Nestor, Pat Richardson, and Anne Staples.

RECYCLING COMMITTEE

Recycling Calendar

In 2008 the recycling committee again showcased the talents of Norwell students by publishing a calendar featuring the art work of the middle school which illustrated the children's understanding of our carbon footprint theme. The calendars also included information on all youth related activities in town as well as useful recycling tips for each month. These calendars were distributed to all families with school-age children.

This is the fourth year the recycling committee has sponsored this effort, and, once again, members were amazed at the enthusiastic response of the students. Sixteen of these pictures were selected for the calendar.

The students whose work was selected were:
Tess Wenger, Gr. 9; Titi Adebanjo, Gr. 8; Alli Weiler, Gr. 9;
Rebecca Bates, Gr. 7; Anna Barger, Gr. 8; Lauren Burke, Gr. 9;
Megan Punzak, Gr. 7; Michaela Tobin, Gr. 7; Jackie Perron, Gr. 9;
Avery Robertson, Gr. 8; CC Walsh, Gr. 7; Linnea Houde, Gr. 8;
Grace Biciunas, Gr. 7; Andrew Cibotti, Gr. 7; Annie Burke, Gr.7;
Gabrielle Marrese, Gr. 8

Each student received recycling tote bags made from recycled plastic bottles, a copy of the calendar and gifts generously donated by Patriot Cinemas and Hilliards Candy. As part of the art competition, two names were chosen from the 16 students to receive the raffle prizes for a pair of Red Sox Tickets (courtesy of Shred King)

and New England Aquarium tickets. The committee would like to thank the following people who helped us bring this year's calendar to completion: high school art teacher, Paul Papadonis who judged our art selections; Superintendent Dr. Beaudette and his staff who helped verify school dates; NMS Principals, Bourgueta and Sulc who enthusiastically promoted this project; and NMS office personnel, Mrs. Nieroda and Mrs. Tully.

Residential Recycling

In 2008, Norwell residents recycled:

727.94 tons of paper, cardboard, and mixed paper
302.97 tons of co-mingled (plastics 1-7, glass, and aluminum)
109.81 tons of scrap metal and 455 units of white goods
1.75 tons of used clothing
259.25 tons of leaves/yard waste which allowed for 74 cubic yards of compost to residents

The town signed the "Massachusetts Paper Campaign" initiative to promote paper recycling to help the town save money in trash disposal fees. Please help us help you in cutting costs by recycling more. Remember: "If it can be recycled...it should be...it must not end up in the trash!"

Respectfully submitted by the Recycling Committee: Joanne M. Dirk, Chair; Anne Fridgen-Traft, Carole McCarthy, Vicki Spillane, Norm Thoms, William Kelley, and Holly Wenger

SENIOR CITIZEN TAX RELIEF COMMITTEE

The Senior Citizen Tax Relief Committee (SCTRC) was commissioned by the Board Of Selectmen in June of 2005 in recognition of the increasing numbers of elders of the Town, on fixed incomes, experiencing difficulty in meeting escalating real estate tax obligations. The objective of the Committee is to explore statutes already in existence within the General Laws of the Commonwealth on the subject of tax relief with an eye to how to how such statutes could be applied to meet the specific needs of the Seniors of Norwell.

It was noted, after study, and with the help of the Norwell Board of Assessors (BOA), that there was considerable relief already available within the existing laws as they applied to the Town through previous legislative actions. Such relief, consisting of various forms of abatements, is administered by the Norwell BOA. There was general agreement among members of the Committee, however, that even these existing remedies were not, unfortunately, understood by the public at large. We became indebted to the Norwell Council of Aging (NCOA) and the Friends thereof for their help in promulgating information in this regard; the NCOA is a most valuable source of information in all material pertaining to seniors of our Town. While the NCOA certainly is a most important source of information, it must be remembered that the BOA is the legal and authorative repository of information pertaining to real estate tax laws.

The first significant action taken by the Committee, in the first year of its existence, was to recognize a recent Amendment to Massachusetts General Laws, Chapter 59. Section 5, Clause 41A which permitted reduction in the interest rate applied to deferred taxes. The Committee prepared a motion for the Annual Town Meeting of May 8, 2006 to .lower the previously existing rate from 8% to 4%. The motion, Article 22, passed unanimously.

As the result of additional investigation of the General Laws, the Committee prepared a motion for presentation at the Annual Town Meeting of May 14 of this year, 2007, to authorize the Town, subject to the approval of a Home Rule Petition by the General Court, to raise the income ceiling currently established for eligibility, again in Chapter 59, from $40,000 to 75% of the Median Family Income (MFI) determined for the Boston regional area by the Federal Department of Housing and Urban Development (HUD). This change would raise the income level for eligibility by a little more than 50% opening the availability to a increased number of seniors, especially those, for example, having to take mandatory distributions of their IRA's after age 70.5 years. This motion, Article 36 in the Warrant, passed unanimously and has resulted in a bill in the General Court sponsored by State Senator Robert Hedlund and Representative Robert Nyman, as Senate Bill #2319 now pending action in the State Legislature.

To make a long story as short as possible, it appeared that the Great and General Court deemed our request to raise the qualifying income level (as we had suggested, to approximately $64,0000) excessive. This resulted in the adoption of a new bill, Senate Bill #S2641 (in place of Senate Bill #S2319) which raised the eligibility income level ceiling in accordance with "the income limitations imposed by paragraph (3)(i) of subsection (k) of section 6 of Chapter 62 of the General Laws as increased by paragraph (4) of said subsection (k)". The net effect of this legislative action is the authority for increasing the ceiling to $49,000.

SOUTH SHORE RECYCLING COOPERATIVE

The South Shore Recycling Cooperative (SSRC) is a voluntary association of fifteen South Shore towns established by Intermunicipal Agreement and Special Legislation in 1998. Members of the SSRC are: **Abington, Cohasset, Duxbury, Hanover, Hanson, Hingham, Holbrook, Hull** (Jan-Jun), **Kingston, Marshfield, Norwell, Plymouth, Rockland, Scituate, Weymouth, and Whitman**.

Representatives from each member town are appointed by the Selectmen and/or Mayor.(see attached list).

The mission of the SSRC is: "to provide a forum of cooperative management of solid waste by members, to assist each member Town to improve the cost-effectiveness of their recycling efforts by providing economy of scale while maintaining full control over solid waste management; to assist members to improve programs to divert waste materials from the waste stream and to reduce the amount and toxicity of wastes; and to provide such assistance on an individual basis to each member Town and cooperatively in joint programs with other Towns."

Since 1998, each member town has paid an annual membership fee of $4,000. In 2007 the SSRC raised **$60,000** through these fees, which were supplemented with **$3,977** in grants and sponsorships from MassDEP, Covanta at SEMASS, Bay State Textiles, and Got Books. Those funds pay for the services of the Executive Director and support solid waste and recycling activities during the year to benefit member towns. The SSRC estimates that in 2007 these activities **saved member towns an estimated $173,400,** and provided **234 hours** of direct services to the towns.

MATERIALS MANAGEMENT

Household Hazardous Product Collections
The SSRC extended its contract for the collection and disposal of **household hazardous products** with **Clean Harbors**, Member Towns paid about **26% less** than the State contract rates, and avoided the administrative time to bid, schedule and publicize them. **2,555 residents** attended the fifteen collections held in 2007, and Member Towns saved **$44,000** for this service. The contract also enabled **110 residents and businesses** to attend other Member Towns' collections using the **reciprocal arrangement,** which is administered by the Executive Director. The SSRC advertised the events with several thousand **flyers** delivered to the town halls and libraries, and ongoing press releases in all **local papers, on cable TV and the radio**. The Executive Director attended and helped run twelve of the collections, handed out paint stirrers with cost saving instructions on latex paint disposal, provided signs, calculated the **proper billing** for the vendor to ensure that discounts and allowances were credited and visitors billed properly, and flagged several billing errors before they were paid.

Construction and Bulky Waste
By using an arrangement facilitated by the SSRC with the **Bourne ISWMF**, Member Towns enjoyed a disposal rate of $75/ton for **construction and bulky waste,** which is **$12.50/ton less than the gate fee.** With generation of about **7,500 tons**, Member Towns saved roughly **$94,000** (2006 data).

Mattresses
Cohasset, Hanover, Kingston and Scituate save on mattress recycling by using an SSRC arranged program with Miller Recycling in Plainville to transport and process mattresses for $14/each, including container rental. This arrangement saved the three participating towns approximately **$13,300** on the **1,892 mattresses** they collected.

Compost and Brush
The SSRC re-bid the contracts for **brush grinding and compost screening**, which were awarded to Letourneau Corp. and Lion's Head Organics. The grinding contract was used by three of our towns for 8.5 days. Data on screening contract usage was unavailable.

Mercury Bearing Waste
The SSRC helped the thirteen member towns that have contracts with SEMASS to maximize their benefits from the **Material Separation Plan (MSP)**, including the provision by SEMASS of digital thermometers for exchange and reimbursement for mercury disposal costs

Paper
The SSRC facilitated the siting of 76 Abitibi Paper Retriever containers at public and private entities in 2006-07. In 2007, they captured an additional **850 tons** of paper, and returned at least **$4,250** to the municipalities and local organizations.

Textiles
The SSRC introduced Bay State Textiles, which pays $50/ton for used clothing and textiles, to the managers. Their competitors pay nothing, and service isn't always good. Eight towns recycled **280 tons** of material through them, for which they were paid **$14,017**.

Books
The SSRC introduced GotBooks, which pays $100/ton for used books and other media, to the managers. Eight SSRC towns set up book collections through them, recycled/reused 109 tons of material and earned $7,887 from it in 2007.

PUBLIC OUTREACH:

Mass Recycles Paper! campaign
The SSRC piloted a paper recovery outreach campaign in 2006 with a grant from MassDEP, which contributed to a **reduction in trash of 4,992 tons in 2006**. Its success resulted in the formation of a statewide campaign through MassRecycle, called **"Mass Recycles Paper!"**, chaired by the SSRC Executive Director. The goal is to recover an additional million tons of paper each year from the Mass. trash. The Campaign has broad support from MassDEP, US EPA, the US Postal Service, and the recycling industry. SSRC communities stand to gain about $500K/year in avoided disposal cost and revenue from the sale of waste paper.

Paper recycling information flyers
The Executive Director designed, customized and printed informational flyers about the benefits of maximum paper recycling, and handed them out to residents at most HHP collections. (see last page)

Press Contacts
The SSRC releases articles and provides information to the local press about waste reduction, recycling, and the proper disposal of hazardous waste. The following articles were released to and published by the local and regional newspapers in 2007:

Waste Ban Sweep 1-07;
Weymouth Phone Book contest 1-07;
Hanson joins SSRC 5-07
Sen. Creedon recognized at SSRC Legislative Breakfast 5-07;
Trash down in SS towns 11-07
Sullivan receives MassRecycle member of the Year award 11-07
SSRC signs Mass Recycles Paper Resolution 11-07;
Holiday Tips from SSRC 12-07
Creative Gift Wrap 12-07.

Resident Contacts
The Executive Director fielded **132 calls and emails** from Member Towns' residents in CY07 to answer questions, mostly about hazardous and difficult to manage product disposal.

Website
ssrc.info provides town-specific recycling information, household hazardous product collection information, SSRC meeting minutes and annual reports, press releases, a quarterly newsletter, and links to other sites. It was overhauled this past fall.

Marshfield Fair Recycling
With assistance from MassDEP and the Town of Marshfield, the SSRC supported **event recycling programs** at **the Marshfield Fair** for the fourth year. While public education was the main benefit, five tons of material was also diverted from the trash for recycling, and two tons was composted. Recycling containers from a previous grant are available for loan to all Member Town events.

ADVICE, ASSISTANCE AND NETWORKING.
The Executive Director's help is frequently sought by the solid waste managers. She maintains regular contact with the solid waste managers from each town to stay up to date on their programs, updates them on current trends, and advises on specific needs each town has.
A sample of the assistance she provided and problems she helped solve in 2007 included:
- clarifying the acceptability of expanded polystyrene at the curb
- provision of recycling stickers for barrels and bins
- finding new propane tank vendors
- setting up an antifreeze collection
- scheduling paint management trainings through our HHP contractor at no charge
- collaborating with Cape Cod communities on a regional disposal contract negotiation
- arranging for delivery of free rechargeable battery collection boxes to municipal collection locations
- researching the feasibility of requiring biodegradable trash bags
- researching sneaker and audio-video media recycling options
- identifying and correcting errors on Data Sheets submitted to MassDEP
- planning and publicity for a Phone Book Recycling contest
- providing templates for hauler permits
- providing information on accrued renewable Energy Trust grants.

She also attended Board/ committee meetings in **Hanson, Marshfield, Weymouth and Whitman and** provided the MSW managers with a ten page **directory of service providers**.

Paper pricing
The SSRC subscribes to *Official Board Markets* on which most towns' paper rebates are based. The Executive Director calculates rebates that should be paid to the municipalities by their paper recyclers and updates the managers each month.

Radioactive load rejections
To counteract the problem of rejected trash loads due to radioactive contamination, the Executive Director

researched the sources and consequences, and drafted a letter and flyer about proper disposal methods for patients who are sent home following radiotherapy. She sent it to all nuclear medicine and veterinary facilities in eastern Mass. and posted the flyer on the website.

Newsletter
The SSRC publishes a newsletter filled with information of immediate interest to the South Shore solid waste community, including local solid waste news, regulatory and legislative proposals, meetings and seminars. The newsletter is circulated to over 350 town officials, legislators, regulators and volunteers, and is posted online at ssrc.info.

Monthly Meetings
The SSRC provides **networking opportunities** and information sharing at our well-attended **Solid Waste Manager meetings**. Each meeting features a guest speaker. Solid waste collection, disposal, recycling service, outreach, pricing and proposed laws and regulations are discussed.

ADVOCACY
The Executive Director, who stepped down as **President of MassRecycle** in May, drafted legislation that would benefit municipal solid waste programs at Senator Creedon's request, met with key legislators to provide input on that and other state solid waste issues, and testified at Budget and legislative hearings. She also attended policy meetings, forums and conferences hosted by MassDEP, Solid Waste Association of North America, the Council of SEMASS Communities, MassRecycle, and the Northeast Resource Recovery Association. In her capacity as MassRecycle President, she was appointed to and attends Mass. DEP Solid Waste Advisory Committee meetings. She shares what she learns with the Managers, and relays the Managers' concerns to the professional and State organizations and regulators.
The SSRC held a **Legislative Breakfast** in May at which **Sen. Robert Creedon** (D-Brockton) was recognized with our "Environmental Hero" award for his sponsorship and support of bills and budget items that promote waste reduction. Sen. Robert Hedlund (R-Weymouth) also spoke at the event.
The SSRC exists to serve its member towns by facilitating their solid waste disposal and recycling functions. It always welcomes suggestions on how it can better serve its Members.
Respectfully submitted, Claire Sullivan, Executive Director, South Shore Recycling Cooperative

DEPARTMENT OF VETERANS' SERVICES

The Office of Veterans' Services survived one more year and is now, fully, operational.
Mr. Caldwell's office hours are Tuesday afternoon and the first and third Wednesday evenings. He is, also, available, other times, by appointment and will make house calls.

This past year, the office operated well within its allotted budget in all areas. What is not generally known is that the majority of budget expenditures are reimbursed by the State Department of Veterans' Services, to the Town of Norwell's General Fund at a rate of 75%. Therefore, many of my line items, such as flags, etc., cost our town 25% of what is shown.

We continue to qualify severely disabled veterans for State annuities and disabled veterans savings on their home taxes. Also reimbursed by the State. The Department of Veterans Affairs, (VA), pays into our town in excess of $800,000 in compensation to disabled veterans.

As the vast majority of Massachusetts seniors are either veterans or survivors of veterans and may be unaware of their possible eligibility for either state of federal benefits it may be useful for them to drop in to the Veteran's office in the Town Hall and receive updated information. There may be a group of young veterans returning to our community from conflicts around the world. They were given excellent information during mustering out procedures, but they to may want to drop by to determine if any new benefits have surfaced. One Massachusetts benefit for Iraq or Afghanistan veterans is our $1000 bonus for

in war zone country veterans and $500 for veterans not in a war zone. There are also VA benefits for veterans and widows, 65 and older, who are trying to live on very limited incomes. Please come see me so we can discuss your possible benefits.

Respectfully Submitted,
Richard Caldwell VSO

BEAUTIFICATION COMMITTEE

The Norwell Beautification Committee continues to sponsor, support and perform various programs and projects designed to further the beauty and the quality of life of our town.

In 2008, 15,180 daffodil bulbs were planted along our roadways, at homes, schools, monuments, and at town buildings. Since the beginning of the daffodil program in 1994, 537,820 bulbs have been planted.

In response to requests from the residents for more "vistas", the committee continued to clear the brush and debris from along the stonewalls on Main Street thus providing delightful views of the open fields for both pedestrians and automobile drivers.

Landscaping of two new triangles was completed: Washington Street at Grove Street by the High Street Neighbors and Queen Anne's Corner by Shaw Saab. However, we do need additional volunteers for the Triangle Program. The Adopt-a-Street Program continues to be very effective. There is, however, a continuing need for additional volunteers to pick up litter from alongside our roadways. Please consider volunteering.

As in prior years, holiday poinsettias were delivered to the town offices, the Council on Aging, Fire Department Headquarters, the Police Station and the Town Library. Festive seasonal lights were placed on the viburnum shrubs at the Town Offices triangle. Also, as in prior years, the town library grounds and the Japanese garden at the rear of the library were cleaned and groomed both spring and fall.

2008, was the 20th consecutive year of the Norwell Beautification Award Program. Once again, the Selectmen kindly allowed time at a regular meeting for the presentation of the awards. This year, in addition to certificates from the town, the award recipients were each presented a proclamation from the State Senate and a citation from the House of Representatives. The Myrtle H. McKay Beautification Award was presented to both the First Federal Savings Bank and to Paul Tribuna of the Bartlett Tree Experts. Shaw Saab and Finagle A Bagel each received the Beautification Business Award. The High Street Neighbors received the Beautification Triangle Award and Mark and Molly Roman of 48 Brigantine Circle received the Beautification Home Award. A Special Recognition Award was presented to Norm Schmidt for his continued generosity and support of the committee. Following the award ceremony, an informal reception with refreshments was held for the committee, the awardees and guests.

The dedication and hard work of the many volunteers is recognized and appreciated as is the help and support of the Norwell Town Departments and Offices. Anyone interested in becoming a member of the Beautification Committee or in volunteering for the triangle or adopt-a-street programs should call 781-659-7463 or contact any committee member for further information!

CONSERVATION COMMISSION

OVERVIEW

The mission of the Norwell Conservation Commission is to protect the Town's natural resources and to administer the State and Town Wetland Protection Acts. Established in 1957, the Norwell Conservation Commission is one of 351 Conservation Commissions, serving the Commonwealth of Massachusetts.

The seven member board is comprised of volunteers who, together with the Conservation Agent, work for the citizens of Norwell to ensure that their projects comply with the Wetlands Protection Act, Rivers Protection Act, Stormwater Management Policy, and the Town of Norwell Wetlands Protection Bylaw Article XVI-a, while protecting natural resources and open space.

The Conservation Commission opened 49 public hearings in 2008 and permitted a number of residential projects such as new single-family homes, additions, decks and pools. The Commission also entertained many scheduled discussions with landowners and project proponents on a variety of subjects including land donations, conservation restrictions, enforcement issues and legal proceedings. In 2008, the Commission brought in over $15,000 in fees, a significant portion of which went into the General Fund.

CONSERVATION AGENT

One major change for the Conservation Commission in 2008 was the departure of Paul Wightman from the position of Conservation Agent. The Conservation Commission would like to recognize the continued hard work of Meredith Schmid, Linda Hager and Wes Osborne for keeping the Conservation Commission running in the absence of a Conservation Agent. In July of 2008, the Commission welcomed Abby Hardy into the Conservation Agent position. We certainly appreciated Abby's fresh look at how the Conservation Commission has been conducting our business. Abby has been hard at work helping the Commission to improve the efficiency of our business process and the clarity of the regulations in our bylaw, and to increase the network of friends and supporters of the Town's Conservation areas. Wes Osborne has done a great job bringing Abby up to speed on the various resource areas in the Town, and for this the Commission is truly grateful.

CONSERVATION LAND STEWARDSHIP

The Council on Aging's Senior Volunteer Program continues to provide invaluable assistance to the Commission in its stewardship of over 1500 acres of conservation land. Projects completed by the volunteers in 2008 include: maintaining, clearing, and pruning all of the trails on conservation land; increasing the length of the trails and fixing the boardwalks at Stetson Meadows; creating two new trails at Donovan Farms and installing a bench with a pond view; creating a new trail that runs from Wildcat Lane to Circuit Street; and installing erosion controls at the Cliff Prentiss Bridge. The Commission thanks Charles Dirk, Stephen Young, Stephen Gilmartin, Ralph Knowles and Alfred Svelnis for their participation in this program.

NORWELL HISTORICAL COMMISSION

The purpose of the Norwell Historical Commission in accordance with Massachusetts General Law, Chapter 40, Section 8d and the Norwell Bylaws, is to accept responsibility as an acting official agent of the municipal government for preserving and protecting irreplaceable historic antiquities and archaeological resources throughout Norwell.

2008 been a very productive year for the Commission.

Projects:

1. The Commission is in the process of forming a study committee to research uses for the Stetson/Ford House for the purpose of developing a management, operating and maintenance plan for the house.

2. The Historical Commission would like to create a study committee to research Local Historic Districts. The success of the antique home survey has shown that districts could be great assets to the citizens and to the town. The Board of Selectmen must create this Committee, according to Massachusetts General Law, and the Historical Commission will approach the Board to request its formation.

3. The purchase of scenic road signs is a priority. We are working with the Highway Commissioner and the Community Preservation Commission on this project.

4. Two Native American sites have come to the Commission's attention: a possible fishing platform on the North River, and a potentially significant prayer site on Simon Hill. The Commission will work with professional archaeologists and Native American experts to determine the scope and historical significance of these sites.

Town Meeting:
All of the articles placed on the warrant by the Historical Commission passed:

1. The naming of three new scenic roads: Summer Street, Cross Street and Forest Street. This completes the Commission's Scenic Road Program requests.
2. The Demolition Delay By-law was increased from six months to one year, allowing more time to save historic houses from demolition.
3. $150,000 was voted from Community Preservation for urgent repairs on the historic Stetson/Ford House.

The article that the Historical Commission co-sponsored with the Planning Board for a Scenic Roads By-law also passed.

Date Boards:
The Historical Commission has changed vendors for the wooden signboards on historic homes, and we have turned this project over to the Norwell Historical Society to manage. The new signs are wooden, hand painted, and less expensive. With each dateboard purchase comes a one-year membership to the Norwell Historical Society.

Jacob Farmhouse (Main Street):
The rental side of the house has been fully renovated and repaired. This project was long overdue. The security system has been replaced with an updated version.

All repairs suggested by Historic New England have been completed. This property remains a community treasure.

Stetson/Ford House (Meadow Farms Way):
The house has undergone major repairs. It has a new cedar shingle roof, the land adjacent to the foundation has been re-graded to prevent interior water damage, and there is a new security system. Three acres around the property have been surveyed.

Inspections:
The Historical Commission has inspected seven houses this year as required by the Demolition Delay by-law.

The Historic Homes Survey:

This Massachusetts Historical Commission-mandated survey has been completed, and inventory books have been placed at the MHC, the Norwell Town Hall, the Norwell Historical Society's Library, the James Library, and the Public Library.

Members:
There has been a change of leadership and David DeGhetto has been elected Chairman and Joseph Carty is now Vice Chairman.

We are, as always, grateful for the assistance and support provided by the Board of Selectmen, the Highway Department, Building Inspector Tim Fitzgerald, Town Planner Todd Thomas, and all the various town committees, boards and departments with which we share common interest. We would like to also thank James Boudreau for his continuing interest and advice.

A booklet was sent out to all of the town's residents to inform them as to the duties, accomplishments, and future projects of the Norwell Historical Commission. We are indebted to Wendy Bawabe for the production of the booklet.

It is hoped that the importance of saving the wonderful history of Norwell will continue to be realized by the citizens and they will aid the Commission in its on-going work to preserve our delightful historic town.

Respectfully submitted,
David DeGhetto, Chairman
Joseph Carty, Vice Chairman
Pam Bower-Basso, Historian
Joan F. Vermette, Secretary
Wendy Bawabe
Robert Norris
Kimberly Zayotti

THE PLANNING BOARD

Calendar year 2008 was again a busy and productive time for the Planning Board. Over the course of the year, the Board held 36 meetings. 25 of these meetings were regularly scheduled meeting sessions to conduct public hearings on proposed subdivision applications, to discuss and act upon Approval Not Required plans, to discuss and make recommendations to the Board of Appeals regarding proposed site plans and comprehensive permits, to discuss and make recommendations on petitions for street acceptance and to hold public hearings under the Scenic Road Act and the Town's Scenic Road General Bylaw. The Board held 11 special meeting sessions to develop amendments to the zoning bylaws, conduct site walks of land proposed for development, and to attend Town Meeting sessions.

I. SUBDIVISION PUBLIC HEARINGS.

During the subdivision review process, the Planning Board holds a public hearing (which can begin and finish at one meeting or may be continued, at the applicant's election, over a longer period of time) to determine if the proposed project satisfies the Board's subdivision regulations. If a project satisfies all of the Board's regulations, then state law requires that the Board "shall approve" the project. The Board's regulations are designed to require projects to provide safe access to all of the proposed lots, comply with applicable zoning requirements and make adequate provision for water, sewerage, drainage, underground utility services, street lighting and other basic services.

During 2008, the Planning Board conducted public hearings for two definitive subdivision projects. A brief status report on the subdivisions that had public hearings during calendar year 2008 is as follows.

John Neil Drive Extension (Off John Neil Drive) **Approved**
3 Lots on 3.15 acres
This project proposes 3 subdivision lots (2 house lots and 1 drainage lot), on 3.15 acres of land, extending an existing dead-end roadway by 186 feet. The project includes a single surface stormwater drainage basin. Subdivision approval was granted on May 29, 2008. Construction should begin during the summer.

Laurelwood Minor Subdivision Modification **Approved**
Modified Drainage System, No New Lots Created
This subdivision modified the February 13, 1998 Laurelwood Definitive Subdivision approval. The modification permits a redesign of the existing drainage system. The proposal modifies the existing drainage basins, which were designed to have infiltration capabilities, and changes their function to detention basins. The proposal also adds a new drainage swale on Lot 14 & Lot 27. Subdivision approval was granted on December 18, 2008. Construction should begin in late spring.

II. Subdivision Surety and Construction Oversight

During 2008, the Planning Board provided surety and construction oversight for numerous subdivision projects. Under the Subdivision Control Law, G.L.c.41, §81U, ¶7, the Planning Board is required to impose surety to help ensure completion of the construction of a subdivision project. At the developer's election, the surety may be money-based or in the form of a restrictive covenant prohibiting the individual sale of or construction on the approved lots. As of December 31, 2008, the Town is holding almost $1.5 million in money-based surety. The projects noted below are in various stages of construction. Combined, the projects consist of over 153 residential lots, 27 drainage basins and almost 2.9 miles of roadway.

BATES LANE (f/k/a Prairie Farm) (Off High Street) **Approved 3/02**
4 lots on 16.3 acres
This project created 4 residential lots (2 new lots and 2 reconfigured lots for existing dwellings). The project includes 1 surface drainage basin and 1 dead-end street (Bates Lane) with 400 linear feet. The applicant posted surety and the plans were endorsed on September 9, 2002. All lots have been released from the subdivision covenant. The Town holds $16,179.32 in surety.

BIRCHWOOD (Off Grove Street) **6/01**
11 lots on 18 acres
This project, approved on June 8, 2001, created 11 residential lots on 18 acres. The project includes 3 surface drainage basins and 2 roadways: 1 dead-end street with 1,160 linear feet (Birchwood) and 1 dead-end street with 480 linear feet (Fieldstone). The applicant posted surety and the plan was endorsed on August 6, 2001. All lots have been released from the subdivision covenant. The Town holds $97,232.24 in surety.

BRATTLE STREET / Bramblewoods (Off Grove Street) **Approved 2/99**
5 lots on 6.6 acres
This project created 5 residential lots (4 new lots and 1 reconfigured lot to support an existing dwelling). The project includes 1 surface drainage basin and 1 dead-end street (Brattle Street) with 750 linear feet. The applicant posted surety and the plans were endorsed in May 1999. All lots have been released from the subdivision covenant. The Town holds $79,055.60 in surety.

COWINGS LANE (Off Summer Street) **Approved 2/06**
7 Lots on 20.9 acres
This project created 7 subdivision lots (6 new lots and 1 reconfigured lot to serve an existing dwelling), on 20.9 acres of land, with a dead-end roadway of 653 feet and 1 surface stormwater drainage basin. The project included a 10.8-acre conservation parcel, which will be deeded to the Maxwell Conservation Trust for permanently preservation. The subdivision is currently under construction and surety is provided via a subdivision covenant.

CLAPP BROOK ROAD / (f/k/a Black Pond Estates) **Approved 1/99**
5 lots (Off Central Street)
This project created 5 residential lots on 17 acres of land, with 7.2 acres of upland. The project includes 1 dead-end street with 760 linear feet and 2 surface drainage basins. The applicant posted surety and the plans were endorsed on November 1, 1999. All lots have been released from the subdivision covenant. The Town holds $16,818.25 in surety.

EDGEWOOD PARK (Off Loring Drive) **Approved 6/97**
9 lots on 16 acres
This project created 9 residential lots on 16 acres. It includes 3 surface drainage basins and 1 dead-end street with 1550 linear feet. The applicant posted surety and the plans were endorsed on February 9, 1998. All lots have been released from the subdivision covenant. The Town holds $1,545.56 in surety for the completion of the as-built plans. We expect a street acceptance petition for Edgewood Park ay Town Meeting in May.

FOREST RIDGE (Off Summer Street) **Approved 5/02**
7 lots on 8.6 acres of upland
This project created 7 residential lots on 9.1 acres, with 8.6 acres of upland. It includes 1 surface drainage basin and 1 dead-end street with 500 linear feet. The Applicant posted surety and the plans were endorsed on September 23, 2002. Construction began in the spring of 2005 and all lots were released from the subdivision covenant during 2006. The Town currently holds $41,000 surety in the form of a lender's agreement.

HAWTHORNE PARK (Off Grove Street) **Approved 3/00**
10 lots on 21.4 acres of upland
Construction on this subdivision was completed during 2008 and Hawthorne Lane was accepted as a public way.

HENRY'S LANE / Joshua's Landing (Off Norwell Avenue) **Approved 11/05**
8 lots on 19.4 acres
This project created 8 residential lots (6 new lots and 2 reconfigured lots to support 2 existing dwellings) on 19.4 acres of land. It includes 3 surface drainage basins and 1 dead-end street with 850 linear feet. This subdivision was approved on November 10, 2005. During 2008 home construction continued. The Town currently holds $200,000 in surety in the form of a Lender's Agreement.

HERITAGE ESTATES (Off River Street) **Approved 12/00**
3 lots on 5.8 acres of upland
This project created 3 residential lots on 8.2 acres, with 5.8 acres of upland. It includes 2 drainage basins and 1 dead-end street (Heritage Lane) with 450 linear feet. The applicant posted surety and the plans were endorsed on January 24, 2001. The house lots have been released from the subdivision covenant. The Town holds a $54,000 surety bond.

HOLLY BERRY Trail (Off Grove Street) **Approved 4/04**
6 lots on 6.4 acres
Construction on this subdivision was completed during 2008 and Holly Berry Trail was turned over to the homeowners' association as a private way. The Town is retaining $2,665.02 in surety to ensure the structural integrity of the sidewalk until December 31, 2015.

MASTHEAD DRIVE EXTENSION **Approved 6/99**
2 lots on 10.5 acres
This project created 2 residential lots, on a short extension of Masthead Drive, with 1 drainage basin. The applicant posted surety and the project was endorsed on June 21, 1999. On March 26, 2001, an ANR Plan was endorsed, creating a third lot. The subdivision covenant is still in place. The applicant has yet to begin work on this subdivision.

LAURELWOOD DRIVE (Off First Parish Road) **Approved 2/98**

24 lots on 77 acres

This project created 24 residential lots on 77 acres, with 42 acres of upland. Of the 24 lots, 2 lots are located entirely in Scituate and 6 lots are located partly in Scituate. The project includes 3 surface drainage basins and 1 dead-end street with 1329 linear feet. The applicant posted surety and the plans were endorsed on October 29, 1998. The project has been largely constructed, however paving issues and drainage issues remained throughout 2008. During 2008, this subdivision was modified to address the lingering drainage problems. The Town holds $267,907.57 in surety.

PARSON'S WALK (Off Circuit Street) **Approved 6/97**

3 lots on 11.5 acres

This project created 3 residential lots on 11.5 acres. The project includes 1 surface drainage basin and 1 dead-end street with 420 linear feet. The applicant posted surety and the plans were endorsed on July 21, 1997. The Town holds $24,688.85 in surety.

PINSON LANE (Off Parker Street) **Approved 6/99**

3 lots on 4.96 acres of upland

Construction on this subdivision was completed during 2008 and Pinson Lane was turned over to the homeowners' association as a private way. The Town is retaining $5,000.00 in surety until mortgagee subordination consents are received for the newly formed homeowners' association.

TRUNNEL ESTATES (Off Main Street) **Approved 9/03**

3 lots on 3.4 acres

This project created 3 residential lots (2 new lots and 1 reconfigured lot to support an existing dwelling), on 3.4 acres of land. The project includes 1 drainage basin and 1 dead-end street with 390 linear feet. The applicant posted surety and the plans were endorsed on February 23, 2004. During 2008 the applicant largely completed subdivision construction. The Town holds surety $154,000 surety in the form of a performance bond.

TURNER'S WAY SUBDIVISION MODIFICATION **Approved 4/05**

6 Lots on 8.2 acres of upland

This project created 6 residential lots on 32.7 acres (8.2 acres of upland), at the end of Turner's Way, by dividing an existing lot into 5 new lots and 1 reconfigured lot to support an existing dwelling. The project required no drainage basin to support it and reduced the previously approved dead-end street length of Turner's Way from 1506 to 1448 linear feet. The project was approved on April 14, 2005. Home construction commenced during 2008. The Town holds $30,355.17 in surety.

WALNUT TREE HILL ESTATES (Off Cross Street) **Approved 5/99**

5 lots

This project created 58 lots; however, only 4 lots are located entirely in Norwell and 1 is located partially in Norwell. The project includes 1 surface drainage basin, partly located in Norwell, and 1 street (Greenbriar Lane) in Norwell, with 500 linear feet. The applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds a $400,000 surety bond. During 2008, no inspection activity was requested.

WILDCAT HILL (Off Wildcat Lane) **Approved 10/05**

44 lots on 49 acres of upland

This project would create 44 residential lots on 72 acres (49 acres of upland). The project includes 4 surface drainage basins and 1 private wastewater treatment plant. The roadway system consists of 1 looped roadway with 4,244 linear feet and 1 dead-end street with 424 linear feet. The project was approved on October 27, 2005 and endorsed in 2006. The Town holds surety in the form of a subdivision covenant. The developers of Wildcat Hill met with the Planning Board in 2008 in an attempt to reconcile differences between the subdivision plan approved by the Planning Board and the plan approved by the Conservation

Commission. The developers are currently exploring redesigning the development as an Open Space Residential Design subdivision under newly passed Zoning Bylaw §4850.

WILDWOOD LANE (Off Circuit Street) **Approved 11/95**

4 lots on 6.5 acres of upland

This project created 4 residential lots on 10.9 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The applicant posted surety and the plans were endorsed on November 27, 1995. The Town holds $72,476.20 in surety. During 2008, no inspection activity was requested.

III. Approval Not Required (Form A) Plans

During 2008, the Planning Board processed 14 Approval Not Required (ANR) plan applications. An ANR plan is a proposal to create a lot that already has sufficient frontage on an existing roadway. 5 ANR applications were approved and the remaining 9 were denied. The Board collected $3,500 in application fees for this activity.

16 Samuel Woodworth Road	Denied
226 Old Oaken Bucket Road	Denied
16 Samuel Woodworth Road	Denied
302 Summer Street	Denied
448 River Street	Denied
Corner of Green/Pine Streets	Approved
Cross Street	Approved
302 Summer Street	Approved
970 Main Street	Denied
64 May Elm Lane	Denied
64 May Elm Lane	Denied
64 May Elm Lane	Approved
12 Bobstay Lane	Approved
27 Parker Street	Denied

IV. ZBA Site Plan Approval - Technical Review.

The Planning Board provides technical review assistance to the Board of Appeals for site plan applications under Zoning Bylaw §1530. The Planning Board did not review any site plans during 2008. The Board collected no application fees for this activity.

V. 40B Projects.

During 2008 the Planning Board reviewed and provided extensive comments on the project eligibility application and comprehensive permit applications for White Barn Village, Norwell Commons, Simon Hill Village and Damon Farms. The Board expects to continue to spend significant time and resources on assisting the Board of Appeals on 40B applications during 2009.

VI. Street Acceptance Petitions.

During 2008 the Planning Board reviewed and made recommendation on street acceptance petitions for Hawthorne Lane and Edgewood Park. The Planning Board did not move the petition for Edgewood Park forward and the petition was indefinitely postponed at Town Meeting. The Planning Board recommended against the street acceptance petition for Hawthorne Lane, however it was accepted as a public way at Town Meeting.

VII. Master Plan Enactment.

During 2008 the Planning Board enacted more of the recommendations in the Town's Master Plan. The Planning Board contracted for and oversaw the refurbishment of the Town Center crosswalks. Historic looking synthetic resin brick crosswalks replaced the green painted crosswalks on Main Street. The Planning Board also paid for an engineering study to ascertain if a crosswalk could be installed between the

Norris Reservation parking lot and the post office. The study will yield a new crosswalk in this location in the spring. The Planning Board consulted with the Community Preservation Committee to reduce the pavement width across Main Street (and hopefully slow traffic) where the Town Clock was installed. The Planning Board also continued to work with the Pathway Committee to improve pedestrian and bicycle safety throughout town.

VIII. Zoning By-law Amendments.

During 2008, the Planning Board amended Zoning Bylaw §2318 Common Driveway, as well as Zoning Bylaw §3400 Demolition Delay. The Board also drafted a Norwell's first Scenic Road General Bylaw, which was later approved by Town Meeting. During 2008, this bylaw proved to be instrumental in protecting the semi-rural character of the Town's scenic roads. More significantly, the Board drafted Zoning Bylaw §4850 Open Space Residential Design. This new approach to subdivision design was unanimously approved by Town Meeting and will better conserve natural and environmental resources, while ensuring that new subdivisions are less obtrusive and permanently protect open space. This bylaw represents a significant shift in subdivision development, and its existence should help to ensure that future generations are able to appreciate the ample open space that is the lynchpin to Norwell's unique character.

At the 2009 Annual Town Meeting, the Board is planning to offer changes to Zoning Bylaw §4300 Aquifer Protection District and Zoning Bylaw §2460 Height Restriction. The proposed change to the Aquifer Protection Bylaw will help protect the Town's drinking water supply in the Town's Business Districts. The proposed change to §2460 Height Restrictions is a result of the Boards examination of building height in the Town's Business C1 & C2 Districts. The Board found that allowing additional commercial building height therein would have a minimal impact to the Town, and the resulting business expansion in the Town's Industrial Parks would ease the residential tax burden. The Planning Board also plans to offer minor revisions to the Town's sign regulations, Zoning Bylaw §3300. These revisions modernize the bylaw and provide it much needed structure, by tailoring it to each to of the Town's business districts: Business A, B and C. We hope that this bylaw change will reduce variance requests received by the Board of Appeals for signage, while providing Town residents and the business community a simpler and more straightforward set of signage regulations.

Respectfully submitted,
Karen A. Joseph, Chair
Michael J. Tobin, Vice Chair
Sally I. Turner, Clerk
Charles Markham, Alternate Clerk
Kevin P. Jones

COMMUNITY PRESERVATION COMMITTEE

The Town of Norwell adopted the Community Preservation Act (MGL Chapter 44B) in May of 2002. The Town's Community Preservation Committee (CPC) is charged by the Town with the implementation of the Act in Norwell. The Act's stated purposes are to preserve open space and historic sites, and create affordable housing and recreational facilities. At least 10% of the CPA budget must be allocated to each of the first three areas annually.

During FY2008, the Town collected $699,561.80, in net CPA surcharges (after abatements and exemptions) in October of 2008. This amount was matched $674,734 by the state under the matching formula.

At the Annual Public Meeting in January 2008, Gregg McBride was elected Chairman, and Ann Buchanan was elected Vice Chair of the CPC.

Completed Projects

Work on the Bridge Street Landing was completed in the Fall. The town will be voting at the upcoming town meeting to renew the funds to complete the work on the Chittenden Lane Town River Landings.

The Norwell Historical Society has archived historical documents and memorabilia. These materials are on exhibit on the third floor of the Sparrell School.

The Affordable Housing Trust was created by vote of Town Meeting in May 2008. Their report is printed elsewhere in the Annual Report.

Current Projects

The Pathways Committee meets regularly to plan and implement the design and construction of pedestrian and bicycle pathways in Norwell, and possible connections with neighboring towns.

Preservation of the Stetson Ford House has begun, with emphasis on securing the property and protecting it from further deterioration. The Norwell Historical Commission continues to research best practices for the preservation of the property for the benefit and enjoyment of the citizens of Norwell.

In May 2009 Town Meeting will be asked to appropriate funds for several new CPC projects, including acquisition of land for open space, recreation, and affordable housing.

The CPC meets on the 2nd and 4th Thursdays of each month at 7:30 pm in the Norwell Town Hall. All residents are invited to attend. The CPC Request for Funding form can be found on the town's website.

Gregg McBride, Chairman (Conservation Commission)
Pat Richardson, Clerk (Recreation Commission)
Joe Carty (Historical Commission)
Nancy Dooley (Housing Authority)
Sally Turner (Planning Board)
Charles Markham (Board of Assessors)
Becky Freed (At-Large)
Ann Buchanan (At-Large)
Alison Demong (At-Large)
Ellie Waal, Administrative Assistant

FENCE VIEWER

We, who grew up during the Great Depression, remember that "Hard Times make Good Neighbors." So it proved as the economy unraveled in 2008, neighborly fencing and boundary disputes fell to a twenty year low. Ever alert for an easy target in their frenzied war on spending, the Advisory Board recommends a 50% slash in the Fence-Viewer's stipend. Several years ago, after a particularly arduous year, our generous Selectmen wanted to double my salary. With my slide-rule, I determined that 2 X 0 is still 0, but I was pleased with that recognition of worth. The same math applies this year, and though no monetary damages are done, I don't like the implied devaluation of my services.

The FENCE of the YEAR, an elegant mix of plastic white wood and masonry, can be admired on your left on 14 Pleasant St. close to the South Street intersection.

Arthur J. Garceau

BOARD OF ASSESSORS

The Board of Assessors is Peter Etzel, Chairman, Edward Dunford, Clerk and Charles Markham. Barbara Gingras holds the position of the Assistant Assessors/Appraiser. Maureen Clarke is the Assistant Assessor.

This year the Assessors Office underwent their triennial certification with the Department of Revenue. The Department insures the quality of our data and certifies that the values are representative of full fair cash values based on property sales of calendar year 2007.

The Assessors on-line database has been updated to provide the Fiscal Year 2009 assessments on all Real Estate properties. You can access the database by going to Vision Appraisal Technology.com

The Board reports the following valuation of taxable property established as of January 1, 2008 (Fiscal Year 2009).

CLASS	VALUE	PERCENTAGE
Residential	$2,129,962,006	85.3238%
Commercial	$ 272,691,681	10.9237%
Industrial	$ 58,162,100	2.3299%
Personal Property	$ 35,511,660	1.4226%
Total	$2,496,327,447	100.00%

CAPITAL BUDGET COMMITTEE

Members of the Capital Budget Committee during 2008 were:

Kenneth E. Hogeland, Chairman
Robert W. Bordewieck, Vice Chairman
Karan A. Joseph, Secretary
Ernie J. Milani
Brian Noble
Jason S. Tribush
Gerald S. Reynolds (did not participate)

Capital budget requests by town departments for FY2009 totaled $643,483. The Committee recommended that $379,858 as presented in Article 2 to Town Meeting be approve and expended during FY 2009.

The members of the Capital Budget Committee appreciate the cooperation of all Town of Norwell departments in developing the committee's recommendations for the FY2009 Capital Budget.

REPORT OF THE BOARD OF SELECTMEN

In 2009, the Board of Selectman continued to wrestle with maintaining the high-level of services that the Town provides, while dealing with slowing growth and a decrease in state aid. We tried to accomplish this by controlling costs as much as possible. The Town employees answered the challenge and agreed to take a zero increase in all forms of compensation for 2010. This cooperation on behalf of the employees allowed us to deliver services without eliminating jobs or reducing the service levels. We are very grateful to the Town employees for understanding the situation and being a major contributor to the solution.

The year of 2009 can be considered the year of transition. The Town needs to begin to find new ways to deliver the services that the people of Norwell have come to expect, but at a lesser cost. This needs to be accomplished by being more efficient in how we deliver our services or by reducing the services we now provide. The idea of "business as usual" will not work going forward.

Some of the cost controlling ideas that the Board considered in 2009 were regionalization of services, reducing headcount, increasing fees, limiting hours and reducing services, departmental consolidations and job sharing by town employees. Discussions were had with surrounding towns on the feasibility of regionalization services such as Emergency Dispatch, Fire Department, Police Department, and Council on Aging as well as the Library. Many of these never went past the stage of initial exploration and fact finding. The one area that has proceeded and will likely be accomplished is the sharing of Emergency Dispatch Systems with four other towns. By regionalizing this service we will realize a significant cost savings as well as increased emergency services to the people of Norwell. This potentially could be a big win for Norwell.

This year citizens observed the postponement of Town Meeting from the scheduled date in May until June 2009. This was done to have a better understanding of what the state revenues would be in the next year and provide more accurate budget presentations at Town Meeting. The major issues at the meeting were additional funding for schools and the placement of free cash at the conclusion of the meeting. The decisions reached at the meeting were to provide an additional $322,000 for school funding and to leave the free cash as free cash rather than putting it into the stabilization fund.

In March 2009 town elections were held and incumbent John Mariano was opposed by Robert Foulsham in a highly contested race. John prevailed and was elected to his fourth term as a Selectman. Following the election, the Board was reorganized and Thomas Bigger was elected Chairman.

An issue that the Town of Norwell continues to confront is that of 40B development. This year was no different with a proposal made by Corcoran & Company for a 40B development on South Street. Although the proposal would have lessened the need for providing affordable housing for the Town, it was not in keeping with the rural nature of the town. This proposal created a great deal of opposition among the citizens of Norwell which ultimately led to the application being withdrawn.

The role of the Board of Selectman has been made easier by high-quality services provided by the Town Administrator, James Boudreau and Assistant to Town Administrator, Lynda Allen and Administrative Assistant Denise Nestor. In addition, the Board would like to acknowledge the hard work and the commitment of the Advisory Board, the Department Heads, other Boards, Committees and Commissions. The time and dedication given by the many Town volunteers and the commitment of our town employees to provide a high-level of service, help to make Norwell a great place to live and raise a family. Thank you.

Respectfully submitted,
Thomas J. Bigger, Chairman
Norwell Board of Selectmen

REPORT OF THE TOWN ADMINISTRATOR

2009 was a trying and tiring one in the Office of the Board of Selectmen and Town Administrator. The impacts' of the world wide fiscal crisis hit town government and the services we provide with full force. The continuing fiscal meltdown will have severe repercussions on our ability to provide services to the Town in the years ahead. Through it all, the staff continues to discharge the policies and directives of the Board of Selectmen, Town Meeting and the Town of Norwell By-laws.

John Mariano was re-elected to a three-year term on the Board Thomas Bigger was elected Chairman of the Board, with Richard Merritt becoming Vice-Chairman and John taking over as Clerk.

The Annual Town Meeting convened was postponed from May 11, 2009 until June 8, 2009 as the state's continuing budgetary freefall lead to uncertainty in state revenue numbers. When finally convened to consider 50 Articles and an annual budget exceeding $38 million, the town was faced with deep cuts in state aid and a budget that was precariously balanced. Town unions gave up contractually negotiated pay increases for FY2010 and Town departments were funded at their FY2009 levels. After a spirited Town meeting marked by sharp, informed debate, the budget was passed for FY2010. I would like to thank the Town unions that stepped up to help the Town weather the fiscal storm. They recognized the seriousness of the problem and worked with us to craft a solution for FY2010 The budget was able to maintain services across Town Departments but did not allow for an expansion of services.

Ben Flynn continues the job of broadcasting weekly Selectmen's meetings on local access cable. Ben has worked diligently to continue to improve the product being produced. Each week he takes time out of his schedule to set up the cable equipment and televise the Selectmen's meeting to the Town. Without him this vitally important conduit to the public would be closed.

No office can run without hard-working and dedicated employees. The Board is fortunate to have the services of Assistant to the Town Administrator Lynda Allen and Administrative Assistant Denise Nestor. They do all the work necessary to make everything work on a daily basis and provide invaluable assistant to anyone and everyone who requests it. I am eternally grateful for their hard work and dedication.

Finally, I would be remiss if I did not thank the Board of Selectmen for their support over the past year, as well as the Advisory Board, the Department Heads, Boards, Committees and Commissions who make this Town what it is.

Respectfully submitted,
James M. Boudreau
Town Administrator

REPORT OF TOWN COUNSEL

To the Citizens of Norwell and the Honorable Board of Selectmen:

I am pleased to submit this annual report for 2010 to the residents of the Town of Norwell and to the officials who volunteer, are appointed or elected serve on Norwell various boards, commissions and departments.

The Office of Norwell Town Counsel is staffed by myself and associate Town Counsel Robert W. Galvin. Each year my office strives to provide the Town of Norwell, its boards, commissions and officials the highest quality municipal legal advice in the most cost-effective manner.

Each year, I feel that I must remind the Town that the most important facet of efficient municipal government is the experience and dedication of the administration, boards and commissions and their staffs.

In 2009-2010, continuity of experience and dedication continued without missing a beat. On a number of Town boards and commissions, although there were some changes in membership either by appointment or election, even the newer members spent hours of their own time to familiarize themselves with the laws, regulations and procedures of their offices and stepped in from day one and have been active participants in the functioning of their respective Boards.

In continuing tough economic times, when efficiency is at a premium, I am very grateful for the practical assistance we receive on nearly daily basis from Norwell's administration, boards, commissions and departments.

The Office of Town Counsel first and foremost is probably most notably involved in cases where the Town of Norwell is being subjected to legal action of one sort or another by persons who claim they are owed money, have had their legal rights infringed by the town, or otherwise where the town must take legal action to prevent a violation of local bylaws or protect and assert its own position. There are typically ten to fifteen cases involving litigation at any given time. The following is a summary list of pending litigation:

Name of Case:	Nature of Case:	Status:
Allen v. Planning Board	ANR Appeal	Inactive
Camara, Trustee v. Norwell	Contract/Wetland Case	Pending
Cole v. White Barn Lane and Zoning Board	Zoning Appeal	Pending
Dirubbo v. Conservation Commission	Wetlands Appeal	Judgment
In re: White Barn Lane	Wetlands Adj. Appeal	Pending
Kelly v. Conservation Commission	Wetlands Bylaw Appeal	Pending
MacDonald v. Zoning Board	Zoning Appeal	Pending
Maduri v. Norwell	Title Dispute	Pending
Murphy v. Norwell	Drainage Dispute	Pending
Murphy v. Planning Board	ANR Appeal	Partial Judgment
Norwell v. Housing Appeals Committee	40B Appeal	Settled
Shute v. Planning Board	Subdivision Appeal	Judgment
Simon Hill v. Zoning Board	40B Appeal	Pending
Sullivan v. Zoning Board	Zoning Appeal	Pending
Tiffany Hill v. Zoning Board	40B Appeal	Settled.
Trenz v. Norwell	Drainage/Title	Judgment

Webb v. Planning Board	ANR Appeal	after Appeal Partial Judgment
White Barn Lane v. Zoning Board	40B Appeal	Pending
Williams v. Zoning Board	Zoning Appeal	Pending

Cost of Settled or Judgment Cases against Town: $0.

In addition to litigation, in 2009-2010, as Town Counsel, this office renders a legal services in an advisory capacity to be sure that bylaws, policies and programs enacted by the town and its boards and officials, discharge their duties and responsibilities, in accordance with the requirements of the laws. We have been asked to attend and advise the Selectmen and Moderator during Town Meetings, render advisory opinions and respond to inquiries on a variety of other municipal issues including historical commission issues, wetland regulations, subdivision control law, property rights, open meeting issues, ethics, and other municipal issues. I am also called to draft, review and approve municipal contracts and have done so, again, on many occasions during 2009-2010.

I wish to conclude by thanking again the various town officials, boards, commissions and departments for their support and cooperation. It is a privilege to be of assistance with your legal matters.

Respectfully Submitted,
Robert E. Galvin, Town Counsel
Robert W. Galvin, Asst. Town Counsel

REPORT OF THE INSPECTOR OF BUILDINGS/ZONING OFFICER

The Inspections Department has had a change in the scope of projects permitted during this year. There were more commercial projects this year. We are grateful to the seniors that give their time to our office during the year. The department has come to rely on this work force to keep abreast of the Building/Zoning office work. The drop in the economic sector has thinned out the Construction Industry's ranks. There are several additional 40-B projects on the books this year and are soon to start building. These will add a large workload to the office. New Building codes have been adopted by the state. These include a new version of the commercial code (due in July), the 2009 IECC Energy code, and the Stretch Energy Code. The new Energy codes upgrade the former by 20% and demand close study. We wish to thank everyone we deal with for their patience and considerations.

PLUMBING AND GAS DEPARTMENT

There were 149 plumbing permits, 119 gas permits and 29 hot water heater permits last year. Each permit requires at least two inspections each.

Edward J. Geswell Plumbing and Gas Inspector
John E. Hoadley, Alternate Inspector

WIRING INSPECTOR

The Office of the Inspector of Wires saw a decrease in the number of permits for the second year in a row. This office processed approximately 326 electrical permits for this past calendar year. Requests for inspection included but were not limited to new construction, renovations, and additions, service installations, appliance upgrades, fire and security alarms, voice data and video, swimming pools, septic systems, and standby generators. The Inspector of Wires also responds to emergency requests from the Town of Norwell's Police and Fire Departments.

Office hours at town hall are Mondays thru Thursdays 2:30 to 3:30 PM.

The Electrical Inspector and his Alternate wish to thank the entire Building Department as well as all other offices throughout the Town of Norwell for their continued assistance throughout this calendar year.

Respectfully submitted,
Charles J. Palmieri, Inspector of Wires
John Lunn, Alternate Inspector of Wires

BOARD OF APPEALS

During calendar year 2009, the Board scheduled public hearings on twenty-five (25) meeting dates to review and act upon a total of seventeen (17) applications before it under M.G.L. c. 40A and c. 40B. Residential applications during 2009 were significantly lower in number than in 2008, likely due to the current economic climate. Most residential applications close in one evening, but commercial and all 40B applications are generally more complicated and, therefore, continued over multiple meeting dates.

Appeal of Action by Building Inspector (one location)	3
Site Plan Modification/Special Permit	2
Special Permit and Section 6 Finding – Nonconforming lots	6
Sign Variance	2

Variance	1
Comprehensive Permits granted in 2009	2
Comprehensive Permits (currently under construction)	1
Comprehensive Permits (withdrawn)	1

The Board of Appeals has again this year spent a majority of its time as the permit-granting authority under M.G.L. c. 40B, the so-called "anti-snob zoning" law. This law offers a developer the opportunity to bypass many of the Town's zoning and planning regulations by increasing density over that allowed by right under the zoning bylaw, in exchange for 25% affordable housing units within a proposed project. Any town which does not have 10% or more of its housing stock qualified as "affordable" in accordance with Department of Housing and Community Development (DHCD) rules, remains subject to 40B applications.

In an unusual daytime session, the Board approved a Comprehensive Permit application with conditions for the proposed eighty-four (84) unit Simon Hill Village project, located off Prospect Street. That decision, filed with the Town Clerk on June 29, 2009, is under appeal by the proponent to the Housing Appeals Committee (HAC) and to the Superior Court by abutters.

In a letter dated April 21, 2009, John M. Corcoran & Company formally requested withdrawal of its 2008 Comprehensive Permit application to construct a 198-rental unit project abutting Route 3 off South Street. The Board approved the requested withdrawal without prejudice. A copy of the letter confirming the Board's vote was filed with the Town Clerk on April 29, 2009.

The approved Comprehensive Permit, filed with the Town Clerk on May 19, 2008, for a proposed forty-four (44) unit condominium project, known as White Barn Village, located off Circuit and Forest Streets, was appealed by the proponent to the HAC with two additional appeals filed by abutters to the Superior Court. That litigation is ongoing.

The Board continues to monitor construction of the thirty-nine (39) unit 40B project at 239 Washington Street, the decision for which was filed with the Town Clerk on October 3, 2003. However, there has been limited construction activity with eight individual units completed and certificates of occupancy issued through 2009, but only two known to be sold to homeowners.

Although the Tiffany Road Comprehensive Permit was granted with conditions by the Board on June 21, 2004, for construction of twenty-four (24) units, that decision was appealed by the proponent to the HAC and by an abutter to the Land Court. The Board is in the final stages of discussions that are anticipated to result in signing of a settlement agreement for the Town's appeal of the HAC's decision to the Land Court by early 2010.

The Board issued a Comprehensive Permit for the twenty-four (24) unit Summer Street project on April 6, 2005. Although the Board's decision was not appealed, a parcel located in Scituate has been the subject of a land dispute. The status of this project remains in question until all pending litigation is resolved.

During 2009, the Board met jointly with the Planning Board to open public hearings on two separate applications for Site Plan Review. This collaborative effort saved both applicants time and money and resulted in decisions that benefited each.

The Board also approved transfer of a Special Permit for a cell tower located at 156 Forest Street, from Bay Communications LLC to SBA Towers II LLC to ensure that continuing obligations to provide appropriate surety and insurance are properly maintained to protect the Town's interests.

The Board's application filing fees collected during 2009 totaled $8,634.50, according to Accounting Department records, and were added to the Town's general funds to help offset application review costs. The Board manages escrow funds for consultant review of 40B projects, as well as construction monitoring for 40B and commercial Site Plan Review projects in progress.

The Board maintains an active presence on the Town's office website at www.townofnorwell.net, where the Town's zoning bylaw, the Board's Rules and Regulations, including instructions on how to file an application, public hearing application forms, and filing fee schedule are posted. Meeting agenda, its recent decisions, and other pertinent information are updated regularly. Paper copies of all forms are available at the Building Office, while copies of the Zoning Bylaw and the Board's Rules in both paper and electronic format can be purchased at the Town Clerk's office.

The Board hereby extends its thanks to Patrick J. Haraden for his dedication and time as the special alternate member on the panel of the Simon Hill 40B project. Although Mr. Haraden's term for this application has been completed, we hope time will permit him to return to the Board in the future.

The Board wishes to express its heartfelt thanks to Ralph J. Rivkind for his five plus years on the Board. Mr. Rivkind worked tirelessly and was an exemplary member during his tenure. His good humor, excellent judgment, and thoughtful consideration of matters before the Board will indeed be missed. We wish Mr. Rivkind the best as he moves on to his next chosen assignment as a member of the Advisory Board, where we know he will continue to serve the Town well.

The Board also wishes to extend its thanks to Joanne Laroche, the administrative assistant to both the Zoning and Building Offices, and to Inspector of Buildings Tim FitzGerald for their work in support of the Board. Further, the Board would like to recognize and acknowledge the generous assistance and cooperation of Town Counsel, as well as that of Town boards, commissions, and departments in assisting the Board in the discharge of its duties and responsibilities.

It remains an honor and privilege to serve the residents of Norwell.

Respectfully submitted,
Lois S. Barbour, Chair
Philip Y. Brown, Vice Chair
David Lee Turner
Michael E. Kiernan, Clerk (Alternate)
Thomas P. Harrison (Alternate)

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

This is an update of work done from January 2009 through December 2009.

Tests of gas station motor fuel and diesel fuel dispensers in Norwell have been completed [102 dispensers]. Dispensers were adjusted as needed and sealed.

Testing of scales, apothecary, delicatessen, coffee shop, food shop, supermarket, propane tanks, school equipment [90 units] was completed.

Testing of reverse vending and scanners was completed and sealed as necessary.

Total revenue received $3518.00.

All town owned sealer equipment has been tested and sealed by the Commonwealth of Massachusetts Weights and Measures Laboratory and found to be correct.

Massachusetts State Division of Sealer Certification credits have been completed. Classes continue to keep all sealers up to date with the latest changes and requirements as mandated by the state.

The annual report, as required by state law, will be filed before January 31, 2010. A copy of this report will be on file at the town hall.

The Commonwealth of Massachusetts General Law Chapter 98 sections 41 and 42, covering annual public notice to all persons having or using weighing or measuring devices in Norwell, has been legally posted.

Weights and Measures tips for consumers

Almost everything that we buy is sold by weight, volume, count or length. Some examples: a pound of hamburger, a gallon of milk, gasoline for your car, oil for your home, a dozen eggs, a cord of firewood.

Check your receipts, before you leave the store, if possible.

Check all represented prices - price on item, in flyer, on unit price tag, on signs- the lowest is correct.

Watch deli items being weighed- be sure tare (weight of container or wrapping, for which there can be no charge) is taken.

Use unit price labels to value shop.

Be sure scales and gas pumps start at zero.

Respectfully submitted;
Harold Tuttle
Sealer of Weights and Measures

RECORD OF ANNUAL TOWN ELECTION March 14, 2009

Pursuant to the Warrant, eligible voters at the Norwell Middle School, 328 Main Street, to cast their votes for the candidates for town offices.

In Precinct I the following workers present were: WARDEN, Ann Valair, CLERK, Amy Locke, TELLERS, Frank Nagle, Ellen Torrey, Lois Arnold, John Holmes, and Margaret Dixon (training).

In Precinct II were WARDEN, Lynne Rose, CLERK, Jean Valicenti, TELLERS were, Helene Quinn, Anne Bussiere, Joyanne Bond and Ann Mcleod.

In Precinct III were WARDEN, Mary Donovan, CLERK, B. Jean Snow, TELLERS were Walter Dixon, Susan Springer, Marilyn Geno, Jeannette Simmons, and Karen Raccuia (training).

CHIEF WARDEN OVER ALL WAS Town Clerk, Patricia M. Anderson.

Constable for all Precincts was Ted Baldwin.

Total votes cast in Precinct I were 363, 16 of which were Absentee Ballots; in Precinct II, 398, 23 of which were Absentee Ballots; and in Precinct III, 385, 29 of which were Absentee Ballots. Total votes cast for all precincts was 1146. The total number of registered voters in Norwell eligible for this election was 7272 which means that 15% of the voters participated.

Tallying the results in an open meeting at Town Clerk's office resulted in the following count of votes cast:

TOWN OF NORWELL
WARRANT
Special Town Meeting and Annual Town Meeting
Monday, May 11, 2009
At 7:30 o'clock in the evening at Norwell Middle School
Henry E. Goldman Gymnasium

Plymouth, ss

To one of the Constables of the Town of Norwell, in said County of Plymouth, Commonwealth of Massachusetts.

GREETINGS:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Norwell, who being qualified to vote in elections and Town affairs, to meet at the Norwell Middle School, Henry E. Goldman Gymnasium, 328 Main Street, in said Norwell, on Monday, the eleventh day of May, 2009 at 7:30 p.m.; then and there to act upon the enclosed articles, to wit:

In case all articles in the foregoing Warrant shall not be acted upon at the Meeting called for on Monday, May 11, 2009, to meet in Adjourned Sessions at such time and place as the meeting shall determine.

This building is accessible to the handicapped and designated parking is provided. If requested, at least one week before the meeting, warrants with large print can be available. Anyone requiring a Sign Language Interpreter should call the Town Clerk's office at least two weeks before the Special Town Meeting at 781-659-8072.

Report of the Advisory Board
April 13, 2009

To The Citizens of Norwell:

On Monday, May 11, 2009 at the Norwell Middle School, the Town of Norwell will hold its Annual Town Meeting, which will be preceded by a Special Town Meeting.

This is an opportunity for the citizens of Norwell to be involved in the financial future of our town. The Annual Town Meeting is a forum for the townspeople to allocate resources as they see fit. Furthermore, it is an opportunity for your elected and appointed officials to present their recommendations for the use of available resources to provide services to the Town. Your attendance and participation is encouraged and appreciated.

Norwell has faced significant financial challenges over the past several years. Increases in both fixed and variable town operating expenses have been on the rise. The cost increases in pensions, health insurance, energy, and unfunded mandates have caused Norwell's operating expenses to increase at a faster rate than the revenue from the Proposition 2½% levy, by far our largest source of revenue. Simply put, the shortfall in revenue has put an enormous strain on the system.

Current economic conditions have further strained Norwell's resources. The dramatic downturn in the nation's economy since 2008 has caused us all to take notice. Job losses, declines in personal wealth, and decreases in real estate values continue to mount. The residents of Norwell have not been immune from these losses. The result of the rapid decline in the economy has caused great uncertainty for the future. The Commonwealth's loss in revenue has caused further cuts in state aid to Norwell. Additional reductions in state aid to the current FY2009 budget may occur. Projections for state aid for FY2010 continue to be revised to forecast deeper reductions to Norwell as the current economic crisis continues to unfold.

As a result of these economic conditions, the Board of Selectmen requested a pay freeze for all town employees, and directed a zero budget increase from FY2009 to FY2010 across all town departments. The Board of Selectmen has promised to maintain employee headcounts to those departments whose unions agree to the pay freeze. To date, some unions have voted for the wage freeze and some have not. Other unions have not provided a conclusive answer as of the printing of this warrant.

Since January 2009, the Advisory Board has held public hearings to discuss the entire town budget and all articles which have been presented in the warrant. The Advisory Board has developed its recommendations based on the testimony, discussions, and deliberations at those meetings. Normally, by the time the warrant goes to press, the Advisory Board has been able to make a majority of its recommendations. This year, however, the Advisory Board has opted to wait for further information about state and federal aid, and will delay making some of these recommendations until closer to Town Meeting.

It is the expectation of the Advisory Board that these revenue numbers will come into clearer focus by Town Meeting. For this reason, the "Advisory Board Recommends" column in Article 2 of this warrant will show level funding to FY2009 levels (or, in the case of some line items, a reduction from FY 2009). At the time this warrant went to press, the zero increase in the "Advisory Board Recommends" column did not reflect the Advisory Board's opinion on the proper funding of some budget lines. Rather, it meant that the Advisory Board voted to postpone its recommendations. Therefore, some line items in Article 2 will likely be amended to an increased funding level at the Annual Town Meeting, based on better information that has been received in the interim 30 days.

At the time this warrant went to press, the Advisory Board unanimously supported the 2.3% requested increase in the School Department budget, which equals $421,704. The Advisory Board will make its final recommendation at Town Meeting for the School Budget, as well as the other warrant articles requesting funding. It will review the latest revenue projections and other reserves and accounts to determine if all or a portion of these requests can be funded responsibly by the Town. This assessment by the Advisory Board will include analysis of potential ARRA Federal Stimulus Funds and IDEA Federal Special Education funds. We hope it will become clearer before Town Meeting how much stimulus money the schools will receive and how it may be used. The Advisory Board will explain its recommendations at Town Meeting.

The Advisory Board would like to thank all town departments, officials, employees, and volunteers for supporting the Town of Norwell with their time and talent, especially during the difficult process of preparing for this year's Town Meeting.

The Norwell Advisory Board

Jason Brown, Chairman

Glossary of Terms

Appropriation: An authorization to make expenditures and to incur obligations for specific purposes. An appropriation is granted by Town Meeting and is usually limited in time and amount as to when it may be expended. Any part of the general appropriation not spent or encumbered by June 30 automatically reverts to surplus. A specific appropriation is carried forward from year to year until spent for the designated purpose or transferred by Town Meeting vote to another account.

Assessed Valuation: A valuation set upon real or personal property by the Board of Assessors as a basis for levying taxes.

Budget: A plan of financial operation consisting of an estimate of proposed expenditures for a given period and the means of financing them. The budget is voted in the spring at Town Meeting for the fiscal year that begins the following July 1st.

Capital Budget: A plan of proposed capital outlays and the means of financing them for the current year.

Cherry Sheet: An annual statement received from the Massachusetts Department of Revenue detailing estimated receipts for the next fiscal year and the estimated state and county government charges payable. These amounts are used by the assessors in setting the tax rate. The actual receipts and charges may vary from the estimates.

Community Preservation Act (CPA): The Town adopted the Community Preservation Act (CPA) in 2002. This Act allows the town to collect a 3% surcharge on property tax bills (the funds can be matched up to 100% by the state when funds are available), which creates the Community Preservation Fund, to use for Community Preservation purposes. Each year, the town must appropriate, or reserve (but not necessarily spend), 10% of the funds for each of the three Community Preservation purposes: Open Space, Historic Resources, and Community Housing. The remaining 70% of the funds can be appropriated or reserved used for any of the three purposes and for Recreation and for administration.

Debt Service: Payment of interest and repayment of principal to holders of the Town's debt instruments.

Fiscal Year: A 12-month period, commencing July 1 and ending June 30, to which the annual budget applies. Fiscal years are often denoted FYXX with the last two numbers representing the calendar year in which it ends, for example FY08 is the fiscal year ended June 30, 2008.

Free Cash: Free cash is the portion of unreserved fund balance available for appropriation. It is not cash but rather is approximately the total of cash and receivables less current liabilities and earmarked reserves reduced also by reserves for uncollected taxes. This is also referred to as "available cash". The amount is certified annually by the Massachusetts Department of Revenue.

General Fund: The major town owned fund which is created with town receipts and which is charged with expenditures payable from revenues.

Grant: A contribution of assets by one governmental unit or other organization to another. Typically, these contributions are made to local governments from the state and federal governments. Grants are usually made for specific purposes.

Line-Item Budget: A format of budgeting that organizes costs by type of expenditure such as expenses, equipment, and salaries.

Overlay: The amount set aside to allow for uncollected property taxes. An amount for overlay is added to the appropriations and other charges. The "Overlay Surplus" is the portion of each year's overlay account no longer required to cover property tax abatements.

Overlay Surplus: The unused amount of the overlay for prior years, which may be transferred, by vote of the Town, to the reserve account or used for extraordinary items.

Property Tax Levy: The amount produced by multiplying the assessed valuation of property by the tax rate. The tax rate is expressed "per thousand dollars" of assessed valuation.

Reserve Fund: Money set aside by Town Meeting to be allocated by the Advisory Board for extraordinary or unforeseen expenditures.

Stabilization Fund: A special reserve funded by Town Meeting for future expenditures.

Terms associated with Proposition 2½:

Debt or Capital Exclusion: The Town can assess taxes in excess of the levy limit by voting a debt exclusion or capital outlay exclusion. This amount does not become a permanent part of the levy limit base, but does allow the Town to assess taxes for a specific period of time in excess of the limit for payment of debt service costs or for payment of capital expenditures.

Excess Levy Capacity: The difference between the Town's tax levy limit and its actual tax levy for the current year. It is the additional tax levy that could be raised without asking for an override.

New Growth: The amount of property tax revenue that the Town can add to its allowable tax levy as a result of new construction, alterations, subdivisions or change of use which increases the value of a parcel of land by more than certain amounts.

Override: An amount, voted by the Town, which is permanently added to the levy limit. A majority vote of the Selectmen allows an override question to be put on the ballot. Override questions must be presented in dollar terms and must specify the purpose of the override. Overrides require a majority vote of approval by the Town.

Tax Levy Limit: The maximum amount of the tax levy for a period under the restrictions of Proposition 2½. It is calculated as the prior year limit plus new growth plus 2.5% of the prior year levy limit.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR SPECIAL TOWN MEETING

Monday, May 11, 2009

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2009, said sum to be appropriated by the Town Accountant to the applicable line items in Article 2, or act on anything relative there to.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to fund compensation adjustments in FY2009 for those Town employees covered by a union or have personal contracts.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 01-300-268-5532, Snow Removal and Sanding, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town Meeting.

This Article transfers money in to the Snow Removal account to cover the deficit incurred during the winter.

ARTICLE 3: To see if the Town will raise and appropriate, or appropriate from available funds a certain sum of money to be added to line item 1-101-126-5110, Police Salaries, or act on anything relative thereto.

Requested by the Chief of Police

The Advisory Board recommends this article in the amount of $25,000.

This article transfers funds from the Deputy Chief's Salary line to the Overtime Salary line.

ARTICLE 4: To see if the Town will vote to raise and appropriate, transfer from available funds, or otherwise provide the sum of $9,500.00 to be added to line item 1-107-134-5110 Emergency Communication Salaries, or act on anything relative thereto.

Requested by the Emergency Communication Board

The Advisory Board recommends this article in the amount of $9,500.00.

This Article transfers money to the Emergency Communication Salaries line.

ARTICLE 5: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to for the purpose of conducting an engineering inspection of the Bound Brook Pond Dam, as required by the Commonwealth's Office of Dam Safety, or take any other action relative thereto.

Requested by the Board of Selectmen and the Conservation Commission

The Advisory Board recommends in favor of this Article.

This Article would provide funds for a state required inspection of a Dam within the Town.

ARTICLE 6: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be added to line item 1-45-216-5307, Legal, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article will add money to the Legal Expense line to cover incurred costs.

ARTICLE 7: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to be added to Town Hall Expenses, account #1-65-226, or take any other action relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article provides money for Town Hall Expenses incurred in FY09.

ARTICLE 8: To see if the Town will vote to transfer the sum of $55,841.83 from the Insurance Recovery Fund to the School Department General Fund to reimburse the School Department for expenditures in connection with a water main break at Norwell High School, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board recommends this Article.

This Article reimburses the School Department with monies received by the Town from an insurance settlement for the losses sustained during a water main break at the High School.

ARTICLE 9: To see if the Town will vote to authorize the transfer from the General Fund of collected Student Parking Fees in the amount of $9,000.00 back to the School Department's Facility Use Revolving Account, or act on anything relative thereto

Requested by the School Committee

The Advisory Board will make its recommendation at Town Meeting.

Funds collected by the School Department for Student Parking Fees would be transferred to the School Department's budget line.

ARTICLE 10: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to be added to Treasurer salaries, account #1-35-111-5110, for the payment of contractual benefits due to the retirement of the Treasurer/Collector; or take any other action relative thereto.

Requested by the Treasurer/Collector

The Advisory Board recommends in favor of this Article in the amount of $31,084.

This Article provides funds to cover the expenses related to the retirement of the former Treasurer/Collector.

ARTICLE 11: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to be added to accounting salaries, account #1-2-115-5110, for the payment of contractual benefits due to the retirement of the Assistant Town Accountant; or take any other action relative thereto.

Requested by the Town Accountant

The Advisory Board recommends in favor of this Article in the amount of $12,000.

This Article provides funds to cover the expenses related to the retirement of the former Assistant Town Accountant.

ARTICLE 12: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to be added to Water Department Expenses, account 28-401-274-5518, to cover extraordinary chemical expenses, or take any other action relative thereto.

Requested by the Board of Water Commissioners

The Advisory Board will make its recommendation at Town Meeting.

This Article transfers funds to cover an extraordinary expense within the Water Department expense line.

ARTICLE 13: To see if the Town vote to raise and appropriate or transfer from available funds, a sum of money to be added to Board of Health, Solid Waste Disposal, account #1-501-282-5309, or take any other action relative thereto.

Requested by the Board of Health

The Advisory Board recommends this article in the amount of $57,000.00.

This Article provides funds to the Solid Waste Disposal (Trash Pick-up) Line of the Board of Health's budget.

ARTICLE 14: To see if the Town will vote to transfer the sum of $60,000 or any other sum, from the Community Preservation Fund Balance, pursuant to Massachusetts General Law, Chapter 44B for recreational purposes for the construction of improvements to public access to the town landing on the North River at the end of Chittenden Lane. Said expenditures to be under the control of the Community Preservation Committee. Unexpended funds remaining in this article after project completion, if any, shall revert to the Community Preservation Fund, or act on anything relative thereto.

Requested by the Community Preservation Committee and the Conservation Commission

The Advisory Board recommends in favor of this Article.

This Article provides money from the Community Preservation Fund to make improvements to the town landing.

ARTICLE 15: To see if the Town will transfer the sum of $250,000 from the Community Preservation Fund Balance pursuant to MGL Chapter 44B, to be used to fulfill the Town of Norwell's right to purchase under a Purchase and Agreement dated December 17, 2008 entered in to by the Board of Selectmen for certain land parcels in the Town of Norwell. Specifically, $235,000 is allocated towards the purchase of an approximately 6.26 parcel of land on South Street. This property is shown as Parcel A-1-1B on a plan of land entitled "Plan of Land" dated October 7, 1999 recorded as Plan 788 of 1999 in Book 42, Page 1013, excepting from Parcel A-1-1B any land described in Book 5164, Page 356 (an estimated .25 acre area). However, this transfer of funds is contingent upon simultaneously at closing receiving from the seller an unrestricted gift of $10,000 to

the Norwell Conservation Fund administered by the Conservation Commission and in addition receiving a quitclaim deed gifting all interests that the owner has in a 5.84 parcel of land shown on the previously described "Plan of Land" as parcel A-1-2, being the parcel conveyed from Petrell to Cranton in Book 5164, Page 346. The balance of the funds ($15,000) in this article may be used for the Town's portion of closing costs associates with this transaction and may also be used by the Town of Norwell towards any legal expenses incurred towards clearing and quieting the title on the parcel of land gifted to the Town pursuant to this agreement. Funds expended under this article shall be subject to the approval of the Community Preservation Committee. Unexpended funds shall be returned to Community Preservation Fund upon vote of the Community Preservation Committee.

Requested by the Board of Selectmen and the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This article purchases property with Community Preservation Fund money.

ARTICLE 16: To see if the Town will vote to transfer a certain sum of money for Open Space and/or recreation purposes, pursuant to Massachusetts General Law, Chapter 44B from the Community Preservation Fund Balance for the purpose of purchasing a parcel of land. And to see if the Town will authorize the Community Preservation Committee to make application to the state "Self-Help" fund and the Board of Selectmen to purchase said property and designate it for conservation and/or recreation purposes, or act on anything relative thereto.

Requested by the Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

This article purchases property with Community Preservation Fund money.

ARTICLE 17: To see if the Town will vote to transfer the sum of $50,000 or any other sum from the Community Preservation Fund Balance, pursuant to Massachusetts General Law, Chapter 44B for recreational purposes for the development of Community Supported Agriculture ("CSA") in Norwell. Funds to be used for the start up and development of a CSA location within the Town of Norwell. Fund uses may include: site selection, seed money, feasibility studies, start up expenses, consultants, equipment, legal, accounting and organizational expenses and any other items determined to support the development of a CSA location. Any CSA so established under this Article shall give preference to Norwell Residents and Town of Norwell employees. Expenditures shall be under the control of the Community Preservation Committee, or act on anything relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This article would provide funding for the development of a community farm in which preference would be given to Town of Norwell residents and employees

ARTICLE 18: To see if the Town will vote to appropriate the sum of $1.3 million or any other sum from the Community Preservation Fund Balance pursuant to MGL Chapter 44B for the purpose of Open Space Protection and/or recreation. Such funds shall be used for the purchase of the Loring Farm located at 246 Prospect Street, Parcel ID#35-46, Book 84P0764 and Parcel ID#35-21, Book A4P0764. These funds are to purchase and ensure that this property continues to operate as a working farm for the benefit of the community of Norwell and its citizens. These funds are to be expended by the Board of Selectman in cooperation with the Community Preservation Committee, or act on anything relative thereto.

Requested by the Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 19: To see if the Town will vote to transfer a sum of money for open space, recreation and/or affordable housing purposes, pursuant to Massachusetts General Law, Chapter 44B from the Community Preservation Fund Balance for the purposes of purchasing a parcel of land and to authorize the Community Preservation Committee to make application to the state "Self-Help" fund and to authorize the Board of Selectmen to execute a purchase and sale agreement and to purchase said property and designate for the appropriate purpose(s), or act on anything relative thereto.

Requested by the Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

ARTICLE 20: To see if the Town will vote to appropriate the sum of $20,300 or any other sum from the Community Preservation Fund Balance pursuant to MGL Chapter 44B for the purpose of Historic Preservation of an antique house. Such funds shall be used for the purpose of moving the Sgt. Samuel Stetson House from 85 Stetson Shrine Lane to 83 Stetson Shrine Lane located at Assessor's Map 27B Lot 6. These funds are to be expended under the supervision of the Community Preservation Committee, or act on anything relative thereto.

Requested by the Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article would provide money to preserve the Sgt. Stetson Ford House by moving it.

ARTICLE 21: To see if the Town will vote to transfer from the Overlay Surplus account a sum of money to cover various years deficits and/or anticipated deficits, or act on anything relative thereto.

Requested by the Board of Assessors

This is a housekeeping article for the Board of Assessors

The Advisory Board recommends in favor of this Article.

ARTICLE 22: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

The Advisory Board will make its recommendation at Town Meeting.

This Article would transfer a sum of money to the Stabilization Fund for possible use in future years.

TOWN OF NORWELL

Commonwealth of Massachusetts

WARRANT FOR ANNUAL TOWN MEETING

Monday, May 11, 2009

At Seven-Thirty O'clock in the Evening
At the Norwell Middle School, Henry E. Goldman Gymnasium, Main Street

ARTICLE 1: To see if the Town will accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2008 Annual Report, or act on anything relative thereto.

The Advisory Board recommends in favor of this Article.

ARTICLE 2: To see if the Town will raise and appropriate, or appropriate from available funds, sums of money to defray the charges, expenses and salary obligations of the Town, including debt and interest, and out of state travel for the ensuing year, to provide for a Reserve Fund and to fix salaries and compensation for all Elected Officers of the Town, or act on anything relative thereto.

The Advisory Board recommendations are in the "*Advisory Board Recommends*" Column. The Advisory Board will make a budget presentation at Town Meeting to provide further details of our rationale and recommendations.

This Article authorizes the Town to accept the FY10 Town Budget, which begins on July 1, 2010.

ARTICLE 3: To see if the Town will appropriate the sums recommended, or any other sum or sums, for Capital Outlay as set forth in the following schedule and determine whether such sums will be provided by taxation or by transfer or by a combination of the foregoing,

DEPARTMENT	ITEM REQUEST	DEPARTMENT REQUEST	CAPITAL BUDGET RECOMMENDS	ADVISORY BOARD RECOMMENDS
FIRE	Ambulance	$220,000	$0	$0
SUB-TOTAL		$220,000	$0	$0
HIGHWAY	S185 Bobcat Skid-steer Loader	$77,700	$77,700	$77,700
SUB-TOTAL		$77,700	$77,700	$77,700
TREE & GROUNDS	Aerial Bucket Truck	$140,000	$0	$0
SUB-TOTAL		$140,000	$0	$0
LIBRARY	Scanner/Copier/Printer	$6,326	$6,326	$0
	Self-check System	$11,838	$0	$0
SUB-TOTAL		$18,164	$6,326	$0
SCHOOL	School Security Improvements	$15,000	$15,000	$0
	Variable Pump Drives	$22,500	$22,500	$22,500
	School Custodial Van	$18,000	$18,000	$18,000
SUB-TOTAL		$55,500	$55,500	$40,500
TOTAL		**$511,364**	**$139,526**	**$118,200**

or act on anything relative thereto.

Requested by the Capital Budget Committee

The Advisory Board recommends the amounts listed in the "Advisory Board Recommends" column.

This Article authorizes the Town to purchase the capital items on the schedule above. The Capital Budget Committee meets and prioritizes all of the capital budget requests before they are presented to the Advisory Board.

ARTICLE 4: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for union and personal contracts for Fiscal Year 2010, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered by a union or have personal contracts.

ARTICLE 5: To see if the Town will raise and appropriate, or appropriate from available funds a sum of money to meet obligations for the compensation schedule under the Personnel Plan for Fiscal Year 2010, said sum to be apportioned by the Town Accountant to the applicable line items in Article 2, or act on anything relative thereto.

Requested by the Personnel Board

The Advisory Board recommends $0.00.

This Article authorizes the Town to fund compensation adjustments for those Town employees covered under the Personnel Plan.

ARTICLE 6: To see if the Town will vote to freeze step increases and longevity increases for employees covered by the Town's Wage and Salary Plan in FY2010 at FY2009 levels, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article freezes annual step increases for Town Employees covered under the Personnel Plan.

ARTICLE 7: To see if the Town will vote to accept the provisions of MGL Chapter 479 of the Acts of 2008 relative to the establishment of Other Post Employment Benefits (OPEB) liability trust funds, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article would establish a trust fund for the investment of monies necessary for the Town to meet its' OPEB funding requirements.

ARTICLE 8: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be appropriated against the Town's Other Post Employment Benefits (OPEB) liability, or act on anything else relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting.

This Article would start the process of putting monies aside to meet the Town's OPEB obligations.

ARTICLE 9: To see if the Town will vote pursuant to the provisions of Massachusetts General Laws, Chapter 39, Section 10 to accept Edgewater Park as a public way, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board recommends in favor of this Article.

This Article accepts this road as a public way.

ARTICLE 10: To see if the Town will vote to create or affirm existing authorized revolving accounts for all recognized school purposes, including but not limited to student parking fees, in accordance with the provisions of Massachusetts General Laws, Chapter 71, Sections 47 and/or 71 E or other relevant statutes, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board recommends in favor of this Article.

This Article allows the Town Treasurer to deposit receipts from School Fees into School Accounts instead of the Town General Fund.

ARTICLE 11: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be used by the School Department for the purchase of computer technology replacement and upgrades, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article provides funds to be expended in the Schools for Technology purposes.

ARTICLE 12: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money to be used by the School Department for the purchase of textbooks, or act on anything relative thereto.

Requested by the School Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article provides funds to be expended in the Schools for textbooks.

ARTICLE 13: To see if the Town will appropriate the sum of $338,748 in anticipation of full (100%) reimbursement by the Commonwealth of Massachusetts of Chapter 90, one apportionment, for State and Highway purposes under the provisions of General Laws Chapter 90, Section 34, Clause 2(A), work on highways, to be expended under the direction of the highway Surveyor, or meet the appropriation by taxation, by transfer or by borrowing, or any combination of the foregoing, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board recommends this Article in the amount of $338,748.

This Article authorizes the Town to appropriate and then receive its share of the "Chapter 90" (The Massachusetts General Law relating to repaving of public ways) monies from the State. There is no direct budget impact to this Article.

ARTICLE 14: To see if the Town will vote to raise and appropriate, or transfer from available funds the sum of $200,000, or any other sum, to be expended under the direction of the Highway Surveyor for resurfacing sections of Town Ways, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to resurface Town Ways under the direction of the Highway Surveyor.

ARTICLE 15: To see if the Town will vote to raise and appropriate, or appropriate from available funds the sum of $10,000, or any other sum, to be expended under the direction of the Highway Surveyor for reprocessing stockpile construction debris at the Highway Department facility, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to recycle or dispose of construction debris under the direction of the Highway Surveyor.

ARTICLE 16: To see if the Town will vote to raise and appropriate, or appropriate from available funds the sum of $50,000, or any other sum, to be expended under the direction of the Permanent Drainage Study Committee and the Highway Surveyor for engineering, installation and/or maintenance of Town drainage, or act on anything relative thereto.

Requested by the Permanent Drainage
Study Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to engineer, install and maintain road drainage under the direction of the Highway Surveyor with the Permanent Drainage Study Committee.

ARTICLE 17: To see if the Town will vote to raise and appropriate, or appropriate from available funds the sum of $82,375 or any other sum, to be expended under the direction of the Highway Surveyor for catch basin cleaning, as required by the Environmental Protection Agency (EPA) and the Massachusetts Department of Environmental Protection, Phase II, natural Pollutant Discharge Elimination System General Permit, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Town to comply with Federal and State Laws regarding Phase II Storm Water discharge regulations under the direction of the Highway Surveyor.

ARTICLE 18: To see if the Town will vote to raise and appropriate, or appropriate from available funds the sum of $394,800 or any other sum, to be expended under the direction of the Highway Surveyor for the purpose of resurfacing the Cushing Center, High School parking areas, Tree Department yard, and the Highway yard and Recycling area, or act on anything relative thereto.

Requested by the Highway Surveyor

The Advisory Board will make its recommendation at Town Meeting.

This Article authorizes the Highway Surveyor to resurface the parking lot areas of Town facilities.

ARTICLE 19: To see if the Town will vote to increase the gross receipts that seniors may have in the prior calendar year to be eligible to defer property taxes under Massachusetts General Laws, Chapter 58, Section 5(m), Clause 41A from $40,000 to 100% of the amount established annually by the Commissioner of Revenue as the income limit for single seniors who are not heads of households to qualify for the "circuit breaker" state income tax credit for the preceding state tax year, with such increase to be effective for deferrals granted for taxes assessed for any fiscal year beginning on July 1, 2009, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends in favor of this Article.

This Article provides tax relief for certain financially challenged seniors within the Town.

ARTICLE 20: To see if the Town will vote to transfer the sum of $38,000, or any other sum, from various years Overlay Surplus Account for the purpose of continuing to provide a Senior Real Estate Tax Work-Off Program for older citizens in the Town funded directly by the Town. This program is to be established pursuant to an agreement with the Council on Aging, the Board of Selectmen and the Board of Assessors, or act on anything relative thereto.

Requested by the Board of Assessors

The Advisory Board recommends this Article.

This Article continues funding of the Senior Real Estate Tax Work-off Program administered by the Council on Aging.

ARTICLE 21: To see if the Town will vote to amend the Aquifer Protection Map entitled "Watershed/Aquifer Protection Map, Town of Norwell, 2009", or act on anything relative thereto.

Requested by the Board of Water Commissioners

The Advisory Board recommends in favor of this Article.

This article amends the Aquifer Protection map by adding more detail based on advancements in mapping technology.

ARTICLE 22: To see if the Town will vote to amend Zoning By-Law Article II District Regulations §2460 by striking said section and replacing it as shown under "Proposed New Language";

Existing Language:
2460. Height Restrictions. No building and/or structure shall be erected or altered to exceed 2 1/2 stories in height, or 34 feet, in any Residential District and Business Districts A and B; 3 stories, or 40 feet, in Business District C, nor shall any dwelling unit in a Business District exceed 2 1/2 stories, or 34 feet in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building and/or structure height limits by a maximum of 10 feet.

Proposed New Language:

2460. Height Restrictions. No building or structure shall be erected or altered to exceed 2½ stories, or 34 feet, in height in any Residential District or in Business Districts A, B and C-3. No building or structure shall be erected or altered to exceed 5 stories, or 67 feet, in height in Business Districts C-1 and C-2. No dwelling unit in any Business District shall exceed 2½ stories, or 34 feet, in height. Chimneys, elevators, poles, spires, tanks, towers and other projections not used for human occupancy may extend above the building or structure height limits by a maximum of 10 feet.

or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends in favor of this Article.

This Article changes the regulations relating to Height Restrictions.

ARTICLE 23: To see if the Town will vote to add the definition of REDEVELOPMENT to Zoning Bylaw Article IV, Special Regulations, Aquifer Protection District §4390 Definitions:

4390 Definitions:
REDEVELOPMENT: shall be defined as any proposal that triggers the requirements of §1500, Site Plan Review.

or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends this Article.

This Article changes the regulations relating to Aquifer Protections.

ARTICLE 24: To see if the Town will vote to amend the general Bylaw regarding Scenic Roads as adopted at the Annual Town Meeting of May 12, 2008, Article 25, follows,

Town of Norwell Scenic Road General Bylaw

Section 1. Authority and Purpose:

a. Authority – This article is adopted under authority of MGL c. 40, §15C (Scenic Roads) and MGL c. 40, §21.
b. Purpose – The purpose of this article is to provide a clearly defined public process and procedure for the implementation of the Scenic Road Act. The provisions of this act should ensure that:
    1. The semi-rural, natural, historic and scenic character of the Town's roads (as defined herein) is maintained.

2. The need to preserve the character of scenic roads is balanced by the Town's need to efficiently maintain roads, acknowledging that roads serve a transportation function for pedestrians and bicyclists, as well as motorized vehicles.
3. That Town roads will be recommended for designation as scenic roads in accordance with the criteria set forth in this article.
4. That trees (as defined herein) and stone walls within the right-of-way of all designated scenic roads will not be altered without the required Planning Board public hearing, nor without following the other procedures set forth in this article.

Section 2. Definitions:
For terms not qualified or defined in MGL c. 40, § 15C (Scenic Roads), the following meanings shall apply for the purposes of this bylaw:

Abutter – All property owners, including those across the street, abutting the property where work requiring a scenic road hearing is required.

Branch – A living branch that is fully attached to a tree (as defined herein) and that has a diameter of three inches or more, 12 inches from the point at which said branch connects to the tree.

Cutting or Removal of Trees – The removal of one or more trees, trimming of branches (both as defined herein) or cutting of roots sufficient in the Tree Warden's written opinion to cause eventual destruction of the tree. This definition does not apply to clearing nuisance growth, routine or emergency tree maintenance that removes only permanently diseased or damaged limbs, trunks, roots and dead whole trees or thinning crowded trees as determined by the Tree Warden.

Posting – The marking of a tree or stone wall along a road for the purpose of a scenic road hearing. For trees, such marking as described in MGL c. 87, §3. For stone walls, a ribbon or other appropriate flagging material shall be temporarily affixed at the limit of work on both ends of the stone wall.

Repair, Maintenance, Reconstruction or Paving Work – Shall mean any work done within a road (as defined herein) by any person or agency, public or private. Construction of new driveways or widening of existing ones is included, insofar as it takes place within the road. Roadside clearing of trees to provide for vehicular clearance or for improvements to the line-of-sight shall also be included in this definition. The definition of repair, maintenance, reconstruction or paving work shall not apply to the construction or alteration of water, sewer, electric, telephone, cable television or other utilities within the road unless such construction or alteration requires the tearing down of destruction of stone walls or the cutting or removal of trees.

Road – The entire legal right-of-way of a vehicular traveled right-of-way in Norwell, including any necessary appurtenances, and including bridge structures, drainage systems, retaining walls, traffic control devices and sidewalks. The right-of-way includes the area on and within the boundaries of the right-of-way and the air space above. The applicant shall be responsible for determining the limits and width of the right-of-way by utilizing layout plans available. If the boundaries are not officially known, any affected tree or stone wall shall be presumed to be within the right-of-way until shown by the proponent of the work to be otherwise.

Scenic Road – A road so designated in accordance with MGL. c. 40, §15C

Stone Wall – A man-made grouping of stones forming a straight or curved line.

Street Residents – The full list of all of the residents with an address on the subject street or streets, as found in the Norwell Board of Registrars most current edition of the "Resident List of the Town of Norwell".

Tearing Down or Destruction of Stone Walls – The destruction, removal, covering, or painting of any stone wall, or segment thereof, within or partially within the right-of-way. Temporary removal and replacement of a stone wall at the same location, within a six-month period, with the same materials is permitted without Planning Board approval, but only if the ~~Norwell Highway Department~~ *Planning Board* is notified before the work begins so that it can confirm that the wall is properly replaced. Repair of a stone wall, not involving tearing down or destruction of the wall, is permissible and outside the scope of this bylaw.

Tree – A living tree in its naturally standing position within or partially within the right-of-way, the trunk of which has a diameter of four inches or more, four feet above the ground. Nothing in this definition shall be construed to permit a person, other than the Tree Warden, to trim, cut down or remove a public shade tree.

Tree Warden – The Town of Norwell Tree Warden or his designated deputy.

Section 3. Criteria for Designation as a Scenic Road:

a. In determining which roads or portions of roads should be recommended to Town Meeting for designation as scenic roads, the Planning Board shall consider the following criteria:
   1. Overall scenic beauty.
   2. Contribution of trees to scenic beauty.
   3. Contribution of stone walls to scenic beauty.
   4. Age and historic significance of roads, trees and stone walls.
   5. Built features, along the street such as historic buildings, historic monuments, historic burial grounds and historic structures.
   6. Features of the road, such as surface, pavement width, use restrictions and bridges.

b. Roads that have previously been designated as scenic roads may be reevaluated using the foregoing criteria.

Section 4. Procedure for Designating Scenic Roads:

a. The Planning Board, the Conservation Commission or the Historical Commission, or a petition of 10 registered voters of the Town, may propose scenic road designation by the timely submission of an article for the Annual Town Meeting Warrant for any road or portion thereof other than a numbered route or state highway.
   1. Following the close of the Warrant, the Planning Board shall hold a public hearing by advertising twice in a newspaper of general circulation, the first advertisement to appear at least 14 days prior to the date of the public hearing.
   2. The Planning Board shall provide a copy of the public hearing notice to all Street Residents, the Board of Selectmen, the Building Inspector, the Conservation Commission, the Historical Commission and the Tree Warden / Highway Department before the public hearing commences. The Planning Board shall also ask the Town Administrator to announce the public hearing during the on-air segment of the Selectmen's meeting.
   3. The Planning Board shall ensure that any recommendation for scenic road designation is accompanied by a written description of the characteristics of the road that require the protection afforded by these regulations.

b. The Planning Board shall make its recommendation to Town Meeting on the merits of designation of the road as a scenic road. Following scenic road designation by town meeting, the Planning Board shall:
   1. Notify all municipal departments that may take any action with respect to such road.
   2. Notify all utility companies or other such parties that may work on such road.
   3. Notify the Massachusetts Highway Department.
   4. Indicate such designation on the next revision of the zoning map.

Section 5. Design Standards for Scenic Roads:

a. Only one driveway cut per lot onto any designated scenic road shall be allowed *as the direct result of the Cutting or Removal of Trees or the Tearing Down or Destruction of any Stone Wall.* The driveway width shall be limited to 18 feet.
b. The use of a common driveway is encouraged for multiple-lot projects, but not required.
c. Stone wall sections to be removed for a driveway shall not exceed the driveway width by more than 2 feet on each side edge of the driveway.
d. Removed stone for driveway breaches shall be used to repair other sections of the wall along the road at the sole expense of the applicant.
e. Stone walls that are breached should be provided with appropriate termini. Appropriate termini shall consist of, but not be limited to, stone piers, granite posts, or tapered ends to the stone wall that turn back onto the driveway.
f. The Planning Board retains the right to waive any or all of the §5 Design Standards if it deems doing so is consistent with the intent of MGL c. 40, §15C Scenic Roads and it enhances the considerations enumerated in §7.

Section 6. Filing for Work Affecting Trees or Stone Walls; Emergencies:

a. Filing. Any person, organization or agency seeking the consent of the Planning Board under MGL c. 40, § 15C (Scenic Roads) regarding repair, maintenance, reconstruction or paving work, including new driveways, that may involve the cutting or removal of trees or the tearing down or destruction of stone walls, or portions thereof, within or partially within the right-of-way of a designated scenic road, shall provide notice to all abutters and file a request with the Planning Board, submitting the following information:
   1. The text of the notice of the public hearing, identifying the location of the proposed action in terms enabling the readers to locate it with reasonable specificity on the ground without the

need for additional plans or references and describing in reasonable detail the proposed changes to trees and stone walls.

2. A statement of the purpose(s) for the proposed action.
3. Any further explanatory material useful to adequately inform the Planning Board, including clearly identifiable digital or printed photographs of the proposed work area and its existing conditions. ~~When the Planning Board determines the proposed work to not be extensive, it may permit one copy of~~, including an identical set of existing conditions photographs ~~to be~~ marked up to demonstrate the proposed work. All pictures shall be signed and dated by the applicant.
4. ~~If the less formalized §6.3 requirements are not adequate in the opinion of the Planning Board, seven sets of~~ A plans or drawings ~~or other further explanatory reference material~~ showing the proposed work with specific design details shall be required. A description of the proposed changes to either trees or stonewalls should be included on these plans. *Such plans shall show all work that might involve the Tearing Down or Destruction of Stone Walls, including the potential installation of electric, water, and gas lines.*
5. Except in the case of town agencies, a fee sufficient to reimburse the cost of advertising and shall be provided before the public hearing commences.
6. A list of abutters to the property requiring the scenic road hearing and proof of notice given.
7. Adequate posting per §2 of this bylaw, at least one calendar week before the public hearing.
8. An explanation of any proposed compensatory actions that may be useful to the Planning Board before the start of the public hearing.

b. Notice. The Planning Board shall, as required by statute, give notice of its public hearing by twice advertising in a newspaper of general circulation in the area, with the first publication of the notice to be at least fourteen days prior to the hearing and the last at least seven days prior to the hearing. Copies of the notice shall be sent to the Board of Selectmen, the Tree Warden / Highway Department, the Conservation Commission and the Historical Commission before the public hearing commences.

c. Public hearing & Decision. The Planning Board shall hold a public hearing within thirty days of receipt of a properly filed request and shall file a decision with the Town Clerk fifteen days after the hearing, unless the applicant agrees to an extension. The Planning Board shall also send a copy of its decision to the applicant, the Board of Selectmen, Building Inspector, the Conservation Commission, the Historical Commission and the Tree Warden / Highway Department.

d. Public Shade Trees. When required by MGL c. 87 (Shade Trees), notice shall be given and the Planning Board hearing required by MGL c. 40, §15C (Scenic Roads) shall be held in conjunction with those held by the Tree Warden, with the Planning Board responsible for the consolidated notice acting under MGL c. 87 (Shade Trees). Consent to an action by the Planning Board shall not be construed as consent by the Tree Warden or vice versa. ~~A Planning Board decision shall contain a condition that no work shall take place until any applicable provisions of MGL c. 87 (Shade Trees) have been complied with~~.

e. The approval of the Planning Board or Tree Warden under these regulations for any proposed work shall be valid for two years from the date the decision is filed with the Town Clerk. After two years from this date, the decision is void unless an extension is granted before the expiration.

f. Emergency repair. This article shall not apply when the Tree Warden acts in an emergency in accordance with law. In cases where a tree or branch poses a threat to public safety and there is not sufficient time to obtain prior approval from the Planning Board, the Planning Board must be notified by the Tree Warden within the calendar week after any action, where if the threat had not existed, would be a violation of this ordinance. Under no circumstances are stone walls to be torn down or destroyed on a scenic road under the auspices of emergency repair.

Section 7. Considerations When Acting On Applications:

In acting on filings concerning designated scenic roads, the Planning Board shall take into consideration the following:

a. That abutters were notified.
b. Contribution of trees to scenic beauty.
c. Contribution of stone walls to scenic beauty.
d. Age and historic significance of roads, trees and stone walls.
e. Features of the road, such as surface, pavement width and bridges.
f. Public safety.
g. Compensatory actions proposed, such as stone wall and tree replacement *(tree replacement per §8a)*. The Board may approve any plan where the compensatory action is deemed to be of greater value, as defined by §7, than the proposed alteration.
h. Functional importance and urgency of repair, maintenance, reconstruction or paving.
i. Additional evidence contributed by abutters, town agencies and other interested parties.

j. Existence or absence of reasonable alternatives.
k. Recreational uses of the road.
l. Other planning information, including how what is proposed relates to the Master Plan.

Section 8. Enforcement and Violations:

a. Failure to file with the Planning Board for permission to cut or remove trees or for the tearing down or destruction of any portion of a stonewall within any designated scenic road will require an immediate after-the-fact filing and the applicant shall be required to restore features altered by the work. Unless waived, the applicable restoration shall consist of restoring the stone wall to existing conditions and/or replacing the trees cut with nursery quality trees that are acceptable to the Planning Board - in consultation with the Tree Warden. For every three inches of tree cut, measured across its stump, a nursery quality replacement tree with a two inch caliper, measured four feet from the ground, shall be planted by the applicant.
b. Failure to comply with a duly issued decision of the Planning Board shall be subject to restoration as detailed above and other remedial measures that the Planning Board deems necessary. Any decision not carried out within two years of issue shall be void and shall require a new filing, unless an extension is granted before the two-year expiration.
c. The location of any tree replacement shall be at the direction of the Tree Warden.
d. The Planning Board and the Tree Warden shall have the authority to enforce the provisions of this section, as applicable.
e. Any violation of this bylaw, whether for the tearing down or destruction of stone walls or the cutting or removal of trees, shall result in a fine levied against the offending property owner. The first violation shall result in a fine of $100, the second violation shall result in a fine of $200, and the third violation shall result in a fine of $300. Each day, or portion thereof, that a violation of this bylaw continues shall be deemed a separate offense.
f. In addition to the foregoing remedies, the Town of Norwell acting by and through its Planning Board, and with the approval of the Board of Selectmen, shall have all other legal and equitable remedies, which may exist, including without limitation the right to seek injunctive relief.
g. In addition and as an alternative method of enforcement, the Town of Norwell may in its discretion enforce the provisions of this bylaw in the manner provided in MGL c. 40, §21D.
h. If, in an aspect, any provision of this bylaw, in whole or part, shall prove to be invalid for any reason, such invalidity shall only affect the part of such provision found invalid. In all other aspects, all provisions of this bylaw will remain in full force.

Section 9. Scenic Roads in Norwell

The following roads are designated as scenic roads under MGL c. 40, §15C and this bylaw:

a.	Bowker Street	Annual Town Meeting – 3/1976
b.	Norwell Avenue	Annual Town Meeting – 3/1976
c.	Jacobs Lane	Annual Town Meeting – 3/1980
d.	Stetson Road	Annual Town Meeting – 3/1980
e.	Stetson Shrine Lane	Annual Town Meeting – 3/1980
f.	Tiffany Road	Annual Town Meeting – 3/1980
g.	Central Street	Annual Town Meeting – 5/2005
h.	First Parish Road	Annual Town Meeting – 5/2005

j.	Old Oaken Bucket Road	Annual Town Meeting – 5/2005
k.	Prospect Street	Annual Town Meeting – 5/2005
l.	River Street	Annual Town Meeting – 5/2005
m.	Circuit Street	Annual Town Meeting – 5/2006
n.	Green Street	Annual Town Meeting – 5/2006
o.	Lincoln Street	Annual Town Meeting – 5/2006
p.	Pine Street	Annual Town Meeting – 5/2006
q.	Pleasant Street	Annual Town Meeting – 5/2006
r.	Mount Blue Street	Annual Town Meeting – 5/2006
s.	Wildcat Lane	Annual Town Meeting – 5/2006
t.	Winter Street	Annual Town Meeting – 5/2006
u.	*Cross Street*	*Annual Town Meeting – 5/2008*
v.	*Forest Street*	*Annual Town Meeting – 5/2008*
w.	*Summer Street*	*Annual Town Meeting – 5/2008*

Section 10. Power to Adopt Rules and Regulations:

The Planning Board, in its discretion, shall have the authority to adopt rules and regulations consistent with this Bylaw.

or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends in favor of this Article.

This Article clarifies the meaning of Scenic Roads.

ARTICLE 25: To see if the Town will vote to form a committee of at least three members appointed by the Board of Selectmen to study the removal of overhead wires pursuant to Massachusetts General Law Chapter 166, §22B & §22D. The "Overhead Wire Committee" shall work with the various utilities serving the Town, perform an analysis of the feasibility and cost of removing overhead wiring in conjunction with the various sources of funding including grant applications and utility charges. The Committee may consider a "standby" plan for overhead wire suppression that is activated only in conjunction with major road work. The committee shall file a report with the Planning Board for a public hearing. The Committee or the Planning Board pursuant to Massachusetts General Law Chapter 166 §22D may then propose an ordinance or by-law for Town Meeting consideration, or act on anything relative thereto.

Requested by the Planning Board

The Advisory Board recommends in favor of this Article.

This Article establishes a committee to study the removal of overhead wires.

ARTICLE 26: To see if the Town will vote to raise and appropriate, transfer from available funds or otherwise provide a sum of money not to exceed one million five hundred thousand and 00/100 ($1,500,000.00) dollars for architectural, engineering and design services for (1) renovation, reconstruction or an addition to the existing police station or for the construction of a new police station and (2) renovations and/or addition to the existing Town Hall building located and numbered as 345 Main Street and to determine whether this appropriation shall be raised by borrowing or otherwise, or take any action relative thereto.

Requested by the Permanent Building and Maintenance Committee

The Advisory Board will make its recommendation at Town Meeting.

The Permanent Building and Maintenance Committee will develop a strategy and plans to make renovations or reconstruct the Police Station and/or Town Hall.

ARTICLE 27: To see if the Town will vote to amend the Town of Norwell By-Laws, Article XIV – Traffic Rules and Orders, Article 4, Subsection 1, by adding the following changes to reflect our current parking violation books. The new proposed fines are also listed.

Name of Violation	Proposed Fine
Impeding snow removal	$30.00
All night parking	$25.00
Double parking	$25.00
Within 10 feet of a Hydrant	$50.00
Wrong direction	$25.00
Obstructing Crosswalk or Sidewalk	$25.00
Obstructing Driveway	$25.00
Restricted or Prohibited Area	$35.00
Within 20 feet of an Intersection	$25.00
Overtime Parking	$25.00
Leaving less than 10 feet wide unobstructed lane	$25.00
Blocking Fire/Exit Lane	$50.00
Improper Parking	$25.00
Upon Roadway in a Rural Area	$25.00

or act on anything relative thereto.

Submitted by the Chief of Police

ARTICLE 28: To see if the Town will vote to rescind the sum of $52,000 of the authorization to borrow $582,000 voted in Article 3 of the Annual Town Meeting of May 8, 2006, or take any other action relative thereto.

Requested by the Treasurer Collector

The Advisory Board recommends in favor of this Article.

This is a housekeeping article to close out a bonding authorization that was not exercised.

ARTICLE 29: To see if the Town will vote to reduce the rate of interest that accrues on property taxes deferred by eligible seniors under Massachusetts General laws, Chapter 59, Section 5, Clause 41 A from 4% to 2% with such reduced rate to apply to taxes assessed for any fiscal year beginning on or after July 1, 2009, or act on anything relative thereto.

Requested by the Senior Tax Relief Committee

The Advisory Board recommends in favor of this Article.
This Article establishes reduces the interest rate for eligible seniors from 4% to 2%.

ARTICLE 30: To see if the Town will vote to authorize the Affordable Housing Trust to expend up to $50,000 of funds held by the trust to be used for emergency capital repairs of existing affordable housing units in Norwell owned by the Norwell Housing Authority. Prior to making such repairs the Trust shall ascertain that funding to make these repairs is not available through other sources or anything relative thereto.

Requested by the Affordable Housing Trust

The Advisory Board recommends in favor of this Article.

This Article gives the Affordable Housing Trust access to already appropriated funds in the event of an emergency repair in Norwell Housing Authority Affordable housing properties.

ARTICLE 31: To see if the Town will vote to change the name of the Wind Power Committee to the Norwell Energy Committee, and in addition to charge the Committee with coordinating the Town of Norwell's application for designation as a "Green Community" pursuant to Massachusetts General Laws Chapter 25A, Section 10, and to apply for any state and federal energy related grants that may be available under this designation. Activities of the Energy Committee in pursuing Green Community designation and any grant applications would be subject to the review by the Board of Selectmen.

Requested by the Wind Power Committee

The Advisory Board recommends this article.

This Article changes the name of and the scope of the Wind Power Committee.

ARTICLE 32: To see if the Town of Norwell will authorize the Norwell Energy Committee with the approval and coordination of School Committee to make an application for grant funding to install solar photovoltaic installations at one or more school locations in the Town of Norwell. The Norwell Energy Committee shall coordinate the development of an RFP for the project and may develop a "Power Purchase Agreement" (PPA) for financing the project. Any grant application and/or PPA must also be approved by the Board of Selectmen who in addition to approving its terms shall make a determination that the expected net financial exposure of any photovoltaic project to the Town is acceptable.

Further to authorize the Treasurer to bond a sum of money up to $200,000 for the installation of said project should the Board of Selectmen determine that the energy savings from the installation of solar photovoltaic cells provides a significant savings in energy usage as to make the project economically justifiable, or act on anything relative thereto.

Requested by the Wind Power Committee

The Advisory Board recommends in favor of this Article.

The article authorizes the Norwell Energy Committee to work with the School Committee and apply for grant funding of solar photovoltaic cell installations at one or more school locations. Final approval and financing of any potential project must be approved by the Board of Selectmen.

ARTICLE 33: To see if the Town will vote to re-authorize the Stetson Ford House Revolving Fund, pursuant to the provisions of Massachusetts General Laws Chapter 44, Section 53E ½, for the fiscal year beginning July 1, 2009, or take any other action relative thereto.

Requested by the Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article continues the revolving fund for the maintenance of the Stetson Ford House.

ARTICLE 34: To see if the Town will appropriate the sum of $100,000 or any other sum from the Community Preservation Fund FY2010 revenues pursuant to MGL Chapter 44B for open space acquisition to the Conservation Fund. Expenditures of these Conservation Fund monies shall require the concurrence of the Community Preservation Committee and the Board of Selectmen, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article gives money to the Conservation Committee to acquire conservation land.

ARTICLE 35: To see if the Town will appropriate the sum of $20,000 or any other sum from the Community Preservation Fund FY2010 revenues pursuant to MGL Chapter 44B for open space and recreation purposes for the acquisition of a GIS information system for the Town of Norwell. Expenditures under this article may include: hardware, software, technical support, and related professional services to install an operating system. Expenditures under this article shall be approved by the Community Preservation Committee.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article provides funding for Geographic Information System for the Town.

ARTICLE 36: To see if the Town will vote to authorize the Affordable Housing Trust to use up to $50,000 of its funds to pay for professional services including: feasibility studies, engineering analyses, development of plans and specifications, development of RFP's, etc. in regards to parcels of land with existing affordable housing units owned by the Norwell Housing Authority or other parcels that have been previously designated by Town Meeting for the development of affordable housing. For these purposes, the Affordable Housing Trust may also consider requests for such proposals made by the Affordable Housing Partnership or the Norwell Housing Authority, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends this Article.

This Article allows the Affordable Housing Trust to use up to $50,000 of its existing funds for emergency repairs.

ARTICLE 37: To see if the Town will vote to transfer the sum of $30,000 from the Community Preservation Fund FY 2010 revenues pursuant to MGL Chapter 44B for the preservation of vital records, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article provides funding for properly preserving the vital records of the Town.

ARTICLE 38: To see if the Town will vote to transfer the sum of $5,000 from the Community Preservation Fund FY2010 revenues pursuant to MGL Chapter 44B for a Habitat Study, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board recommends in favor of this Article.

This Article provides funding for a Habitat Study.

ARTICLE 39: To see if the Town will vote to appropriate the sum of $25,000 from the Community Preservation Fund FY 2010 revenues pursuant to MGL Chapter 44B for the purpose of Open Space Protection and Recreation for access improvements to the Jacob's Pond Conservation Area, canoe launch and walking paths. These funds will be expended under the direction of the Conservation Commission and with the approval of the Community Preservation Committee.

Requested by the Community Preservation Committee

The Advisory Board will make their recommendation at Town Meeting.

This Article provides money for improvements to the Jacob's Pond Conservation Area.

ARTICLE 40: To see if the Town will appropriate the sum of $33,750 or any other sum from the Community Preservation Fund FY2010 revenues pursuant to MGL Chapter 44B for historic preservation purposes for the repair and capital improvement of the roofs on the farmhouse and/or any outbuildings located at the Jacobs Pond Farm site. Expenditures of these funds shall be conditional upon the successful application for state funds for this project from the Massachusetts Historical Commission. This project, including the grant application process, shall be administered by the Norwell Historic Commission. Expenditures under this article shall be subject to the approval of the Community Preservation Committee, or act on anything relative thereto.

Requested by the
Community Preservation Committee

The Advisory Board will make its recommendation at Town Meeting.

This Article provides funding for capital repairs and improvements to buildings on the Jacobs Farm estate.

ARTICLE 41: To see if the Town will vote, pursuant to Massachusetts General Laws, Chapter 44B, to reserve the sum of $100,000 or another sum, from FY2010 revenues, for the creation, preservation and support of affordable housing; to reserve the sum of $100,000, or another sum, from FY2010 revenues, for the acquisition, preservation, rehabilitation and restoration of historic resources; and to reserve the sum of $100,000 or another sum, from FY2010 revenues, for the acquisition, creation and preservation of open space, or take any other action relative thereto.

Requested by the Community
Preservation Act Committee

The Advisory Board recommends this article in the amount requested for each category.

This Article authorizes the Town to segregate 10% of annual revenues from the Community Preservation Fund into each of the required categories – Open Space, Affordable Housing, and Historic Rehabilitation and Restoration.

ARTICLE 42: To see if the Town will vote to accept a petition to support the new renewable energy laws, by forming a buying co-operative of Norwell only residents for renewable energy. This petition is to direct town officials to support Norwell Renewable Energy Buying Co-operative. This petition is intended to place Norwell in the lead to take advantage of the new net metering legislation on the south shore or any matter concerning this issue.

Requested by Citizens Petition

The Advisory Board does not recommend this Article.

This Article would establish a cooperative energy buying entity.

ARTICLE 43: To see if the Town will vote to accept a Petition to allow the Selectmen to enter into a lease arrangement for the use of enough acreage in the Stetson Meadows Area with the Norwell Renewable Energy Buying Co-operative (NREBCO) to support turbine operations or any matter concerning this issue.

Requested by Citizens Petition

The Advisory Board does not recommend this Article.

This Article would authorize the Selectmen to lease land to the Norwell Renewable Energy Buying Co-operative in Stetson Meadows.

ARTICLE 44: To see if the Town will vote to support a Petition to reserve enough land (about 3 acres) in the Stetson Meadows Area to erect a commercial grade wind turbine to support the Norwell Renewable Energy Buying Co-operative (NREBCO) or any matter concerning this issue.

Requested by Citizens Petition

The Advisory Board does not recommend this article. This land has been designated by Town Meeting for the new Norwell Cemetery

ARTICLE 45: To see if the Town will vote to raise and/or appropriate a sufficient sum of money to construct a sidewalk on the southerly side of Main Street in Norwell, Massachusetts from the Hanover Town Line to the Norwell Town Center or to seek grant or other public funding necessary to include such a sidewalk along this portion of Main Street or to act on anything relative thereto/

Requested by Citizens Petition

The Advisory Board does not recommend this Article as written.
This Article seeks to construct a sidewalk on Main Street.

ARTICLE 46: To see if the Town will vote to reduce the Community Preservation Act surtax from 3% to ¼% for two calendar years at the end of the legal five year period. The vote at the town meeting to be taken by secret ballot. The change to be effective the last day of the month following the town meeting approval or act on anything relative there to.

Requested by a Citizen's Petition

The Advisory Board does not recommend this Article as written in the warrant.

This Article amends the amount of the Community Preservation Act surcharge on property taxes.

ARTICLE 47: To see if the Town will vote to amend the Town of Norwell General by-laws, by adding at the end thereof the following new section:

Right To Farm By-Law

Section 1: Legislative Purpose and Intent

(a) The purpose and intent of this By-law is to state with emphasis the Right to Farm accorded to all citizens of the Commonwealth under Article 97, of the Constitution, and all state statutes and regulations there under including but not limited to Massachusetts General Laws Chapter 40A, Section 3, Paragraph 1; Chapter 90, Section 9, Chapter III, Section I25A and Chapter 128 Section 1A. We the citizens of Norwell restate and republish these rights pursuant to the Town's authority conferred by Article 89 of the Articles of Amendment of the Massachusetts Constitution, ("Home Rule Amendment").

(b) This General By-law encourages the pursuit of agriculture, promotes agriculture- based economic opportunities, and protects farmlands and forests within the Town of Norwell by allowing agricultural uses and related activities to function with minimal conflict with abutters and Town agencies. This By-law shall apply to all jurisdictional areas within the Town.

Section 2: Definitions

(a) The word "farm" shall include any parcel or contiguous parcels of land, or water bodies used for the primary purpose of commercial agriculture, or accessory thereto.

(b) The words "farming" or "agriculture" or their derivatives shall include, but not be limited to the following:

1. farming in all its branches and the cultivation and tillage of the soil;
2. dairying;
3. production, cultivation, growing, and harvesting of any agricultural, aqua cultural, floricultural, viticulture, or horticultural commodities including orchards;
4. growing and harvesting of forest products upon forest land, and any other forestry or lumbering operations;
5. raising and/or boarding of livestock including horses;
6. keeping and/or training of horses as a commercial enterprise; and keeping and raising of poultry, swine, cattle, ratites (such as emus, ostriches and rheas) and camelids (such as llamas and alpacas), and other domesticated animals for food and other agricultural purposes, including bees and fur-bearing animals.

(b) "Farming" shall encompass activities including, but not limited to, the following:

1. operation and transportation of slow-moving farm equipment over roads within the town;
2. control of pests, including, but not limited to, insects, weeds, predators and disease organism of plants and animals;
3. application and storage of manure, fertilizers and pesticides under generally accepted best management practices;
4. conducting agriculture-related educational and farm-based recreational activities, including "agritourism", provided that the activities are related to marketing the agricultural output or services of the farm;
5. processing and packaging of the agricultural output of the farm and the operation of a farmer's market or farm stand including signage thereto;
6. maintenance, repair, or storage of seasonal equipment, or apparatus owned or leased by the farm owner or manager used expressly for the purpose of propagation, processing, management, or sale of the agricultural products; and
7. on-farm relocation of earth and the clearing of ground for farming operations.
8. maintaining drainage or irrigation ditches; picking stone; constructing, repairing or maintaining fences; and clearing, renovating and maintaining pastures including using the practice of prescription burning.

Section 3: Right To Farm Declaration

(a) The Right to Farm is hereby recognized to exist within the Town of Norwell. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood,

community, and society in general. The benefits and protections of this By-law are intended to apply exclusively to those commercial agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Right To Farm By-law shall be deemed as acquiring any interest in land, or as contravening any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

Section 4: Disclosure Notification

(a) In order to ensure that prospective owners and tenants are aware of the policy of the Town of Norwell expressed in this Bylaw regarding agricultural uses, the following notification shall be prominently posted in the Norwell Town Hall, the Norwell Library, and on the Town of Norwell website within 30 days of this bylaw becoming effective. In addition, the notification language required by this section shall appear each year in the Town's Annual Report.

(1) "It is the policy of this community to conserve, protect and encourage the maintenance and improvement of forest and agricultural lands for the production of food, and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers or occupants that the property they are about to acquire or occupy lies within a town where farming activities occur. Such farming activities may include, but are not limited to, activities that cause noise, dust and odors. Buyers or occupants are also informed that the location of property within the Town may be impacted by commercial agricultural and farming activities.

(b) Property owners should make efforts to inform prospective tenants or buyers that Norwell is a "Right-to-Farm" community.

Section 5: Resolution of Disputes

(a) Any person having a complaint about a farm activity or practice is encouraged to seek an amicable resolution to the complaint, including talking directly with the involved farmer.

(b) Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have.

(c) The Board of Health, except in cases of imminent danger or public health risk, may forward a copy of the grievance to the Board of Selectmen, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

Section 6: Severability Clause

If any part of this By-law is for any reason held to be unconstitutional or invalid, such decision shall not affect the remainder of this By-law. The Town of Norwell hereby declares the provisions of this By-law to be severable.

or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board does NOT recommend this Article. There are already rights for farmers similar to these in State Law.

This Article would establish Norwell as a Right-To-Farm Community.

ARTICLE 48: To see if the Town will vote to raise and appropriate, or transfer from available funds or otherwise provide the sum of $4,000 to contract with South Shore Women's Resource Center for domestic violence intervention and prevention services for its residents, or act on anything relative thereto.

Requested by Citizens Petition

The Advisory Board recommends this article in the amount of $4000.

This Article authorizes the Town to pay for services provided to Norwell residents.

ARTICLE 49: To see if the Town will vote to transfer from available funds or otherwise provide a certain sum of money to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if funds are identified and available.

ARTICLE 50: To see if the Town will appropriate a sum of money from available funds and authorizes the Assessors to use this sum to decrease the tax rate for FY 2010, or act on anything relative thereto.

Requested by the Board of Selectmen

The Advisory Board will make its recommendation at Town Meeting if funds are identified and available.

This Article decrease the tax rate for FY2010 from unexpended funds.

INSTRUCTIONS TO ELECTED OFFICIALS

SALE OF THE FISH RIGHTS

You are directed to serve this Warrant by posting a copy thereof attested to by you in writing in each of five public places in the Town at least fourteen days before the time for holding and meeting called for in the Warrant. Hereof, fail not and make due return of the Warrant with your doings thereon to the Town Clerk of said Town on or before the _____.

Given under our hands at Norwell this 9th day of April in the year of our Lord, 2009.

MINUTES OF THE SPECIAL/ANNUAL TOWN MEETING, MONDAY MAY 11, 2009.

On May 8, 2009 a notice from James M. Boudreau, Town Administrator, was put out to the media that the Special/Annual Town Meetings would be continued until Monday, June 8, 2009.

For ten days two large traffic sign trailers with the message "Town Meeting continued to June 11, 2009" were located in front of the Town Hall, 345 Main Street, and one was located at the Norwell Fire Headquarters, 300 Washington Street.

On May 11, 2009 at approximately 7:30 pm, at the Norwell Middle School, Henry E. Goldman Gym, Moderator, Roger E. Hughes, Jr., stated that the Special/Annual Town Meetings would be continued to Monday, June 8, 2009 due to the delay in knowing the new local aid figures from the State.

Also in attendance were Patricia M. Anderson, Town Clerk, The Board of Selectmen, Thomas J. Bigger, Richard A. Merritt, John G. Mariano and the Town Administrator, James M. Boudreau. Two voters were present.

MINUTES OF THE SPECIAL/ANNUAL TOWN MEETING, MONDAY, JUNE 8, 2009, ADJOURNED SESSION, TUESDAY, JUNE 9, 2009.
The following Town Meeting tellers checked in voters at their respective Precinct.

PRECINCT ONE:	**Mildred Donahue**
	Regina T. Giordani
PRECINT TWO:	**Joyanne Bond**
	Deb Bailey
PRECINCT THREE:	**Lynne Rose**
	B. Jean Snow

ATTENDANCE: (No Quorum Required since 1992)

Attendance: 6/8/2009

Precinct One:	**133**
Precinct Two:	**215**
Precinct Three:	**187**
TOTAL	**535**

Attendance: 6/9/2009

Precinct One:	**90**
Precinct Two:	**166**
Precinct Three:	**124**
TOTAL	**380**

At approximately 7:35 pm with a line of voters still waiting to check in, the Moderator, Roger E. Hughes, Jr., called the Special/Annual Town Meeting, which was held at the Norwell Middle School, Henry E. Goldman Gym, to order. He stated that by the time the Invocation, and Pledge of Allegiance were accomplished, the voters would be in their chairs.

A motion was made and voted unanimously to dispense with the reading of the call of Meeting and Return of Service having been examined by the Moderator and found to be in order.

Rev. S. Chapin Garner, of the United Church of Christ led the assembly in prayer. Our Veterans' Agent, Richard A. Caldwell, led the "Pledge of Allegiance to the Flag".

Veterans Agent, Mr. Richard Caldwell warned residents about resent telemarketers calling homes and asking for donations to help service men and women. This group has been asking residents to put their donation in an envelope and tape it to the outside of their door. He stated that this in not a legitimate organization and the only organizations for Norwell are The American Legion Post #192 and DAV, Disabled American Veterans.

Moderator: Roger E. Hughes, Jr., introduced himself and the following:

TOWN COUNSEL:	Robert E. Galvin, Esquire
TOWN ADMINISTRATOR:	James M. Boudreau
BOARD OF SELECTMEN:	Thomas J. Bigger, Chairman
	Richard A. Merritt, Vice-Chair.
	John G. Mariano, Clerk
ADVISORY BOARD:	Spencer A. Joseph
	Peter M. Shea
	Ralph D. Gordon
	Jason Brown, Chairman
	Ellen H. Allen, Vice-Chair.
	Timothy W. Greene
	MaryEllen Coffey
	Paul W. Rosebach

TOWN CLERK:	Patricia M. Anderson
ASST. TOWN CLERK:	Laurie A. Davis
TOWN ACCOUNTANT:	Donna G. Mangan
ASST. TOWN ACCOUNTANT:	Judy Ockerbloom

Moderator Hughes reviewed the rules of the meeting, which follow "Roberts Rules of Order" and the Bylaws of the Town.

The authority cards received by the voters on Monday evening were "Green" for the Special Town Meeting and "Pink" for the Annual Town Meeting.

Moderator Hughes went on to explain the rules further:

1. To save time, please come to one of the microphones before you wish to speak.
2. After being recognized by the Moderator, identify yourself and give your address.
3. Speak only to the issues and not to personalities.
4. The main motion may be slightly different that what is printed in the Warrant.
5. Anyone can amend an article, but he/she must do so in writing and present a copy to the Moderator and the Town Clerk.
6. One amendment will be discussed and voted on before any other amendments will be allowed. Then, we will turn to the main motion and vote.
7. Reconsideration: Traditionally, reconsideration may occur the same night an article is voted, or the following night.

Moderator Hughes swore in the following voters to assist with hand count votes for both the Special Town Meeting and the Annual Town Meeting:
Kevin Finneran, George E. Gilman, Bruce W. Graham, Fred N. Levin and Frederick H. St. Ours.

At approximately 8:00 pm, the Moderator made a motion to suspend the Annual Town Meeting to take up the business of the Special Town Meeting. It was seconded and voted.

SPECIAL TOWN MEETING, JUNE 8, 2009

ARTICLE NO. 1 (Majority Vote Required)
A motion was made by Selectman, Thomas J. Bigger, it was seconded and UNANIMOUSLY VOTED to transfer FROM LINT ITEM 28-401-150-5110, Water Treatment Manager Salary, the sum of $2,500.00 to meet obligations for union personal contracts, said sum to be apportioned by the Town Account to the applicable line items in Article 2.

ARTICLE NO. 2 (Majority Vote Required)

ARTICLE NO. 5 (Majority Vote Required)
A motion was made by Selectman, Richard A. Merritt, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer from Free Cash the sum of $7,500.00 for the purpose of conducting an engineering inspection of the Bound Brook Pond Dam, as required by the Commonwealth's Office of Dam Safety.

ARTICLE NO. 6 (Majority Vote Required)
A motion was made by Selectman, Thomas J. Bigger, it was seconded and it was VOTED TO INDEFINITELY POSTPONE Article No. 6.

ARTICLE NO. 7 (Majority Vote Required)
A motion was made by Selectman, Thomas J. Bigger, it was seconded and it was VOTED TO INDEFINITELY POSTPONE Article No.7.

ARTICLE NO 8. (Majority Vote Required)
A motion was made by School Committee Member, Brian Noble, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer the sum of $55,841.83 from the reserve for Insurance Recovery>$20,000.00 to the School Department operating budget to reimburse the School Department for expenditures in connection with a water main break at Norwell High School.

ARTICLE NO. 9 (Majority Vote Required)
A motion was made by School Committee Member, Brian Noble, it was seconded and it was UNANIMOUSLY VOTED to transfer the sum of $9,000.00 from the General Fund of collected Student Parking Fees to the School Department's Facility Use Revolving Account.

ARTICLE NO. 10 (Majority Vote Required)
A motion was made by Selectman, John G. Mariano, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer the sum of $31,084.00 from Free Cash to be added to Treasurer Salaries, line item 1-35-111-511- for the payment of contractual benefits due to the retirement of the Treasurer/Collector.

ARTICLE NO. 11 (Majority Vote Required)

A motion was made by Selectmen, John G. Mariano, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer from Free Cash the sum of $12,000.00 to be added to Accounting salaries, line item 1-2-115-5110, for the payment of contractual benefits due to the retirement of the Assistant Town Accountant.

ARTICLE NO. 12 (Majority Vote Required)
A motion was made by Water Commissioner Member, Frederick H. St. Ours, it was seconded and it was UNANIMOUSLY VOTED to transfer the sum of $62,309.00 from Water Treatment Manager Salary, line item 28-401-150-5110 to be added to Water Department Expenses, line item 28-401-274-5518, to cover extraordinary chemical expenses.

ARTICLE NO. 13 (Majority Vote Required)
A motion was made by Board of Health Member, Peter Dillon, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer from Free Cash the sum of $57,000.00 to be added to Solid Waste Disposal expenses, line item 1-501-282-5309.

ARTICLE NO. 14 (Majority Vote Required)
A motion was made by Community Preservation Act Committee member, Greg McBride, it was seconded and it was UNANIMOUSLY VOTED that the Town Vote to transfer the sum of $60,000.00 from Community Preservation Fund Balance, pursuant to Massachusetts General Laws Chapter 44B, for Recreation purposes, for the construction of improvements to public access to the town landing on the North River at the end of Chittenden Lane. Said expenditures to be under the control of the Community Preservation Committee. Unexpended funds remaining in this article after project completion, if any, shall revert to the Community Preservation Fund Balance.

The moderator recognized Mr. Bruce Burgess of 24 Neal Gate St. Mr. Burgess questioned that if the original property was not purchased with CPC Funds that maintenance of the property through CPC Funds is not allowed, sighting a 2002 Ruling with Newton. . Mr. Burgess requested an opinion from Town Council. Attorney Robert W. Galvin stated that the article is permissible. The moderator stated this article is allowable.

ARTICLE NO. 15 (Majority Vote Required)
A motion was made by Mr. Bruce Burgess of 24 Neal Gate St., it was seconded, voted and Failed to Carry. (That Article 15 of the Warrant for the Special Town meeting be amended by substituting the amount of $36,900.00 for the amount $250,000.00 and the amount $21,900.00 for the amount $235,00.00)

A motion was made by Community Preservation Act Committee member, Greg McBride, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer the sum of $250,000.00 from Community Preservation Fund Balance, pursuant to Massachusetts General Laws Chapter 44B, to be used to fulfill the Town of Norwell's right to purchase under a Purchase and Sale Agreement dated December 17, 2008 entered into by the Board of Selectmen for certain land parcels in the Town of Norwell. Specifically, $235,000.00 is allocated towards the purchase of an approximately 6.25 acre parcel of land on South Street. This property is shown as parcel A-1-1B on a plan of land entitled "Plan of Land" dated October 7, 1999 recorded as Plan No. 788 of 1991 in Book 42, Page 1013, excepting from Parcel A-1-1B any land described in Book 5164, Page 356 (an estimated .25 acre area). However, this transfer of funds is contingent receiving a quitclaim deed gifting all interests that the owner has in a 5.84 acre parcel of land shown on the previously described "Plan of Land" as parcel A-1-2, being the parcel conveyed from Petrell to Cranton in Book 5164, Page 346. $15,000.00 in this article may be used for the town's portion of closing costs associated with this transaction and may be used by the Town of Norwell towards any legal expenses incurred towards clearing and quieting the title on the parcel of land gifted to the Town pursuant to this agreement. Unexpended funds shall be returned to the Community Preservation Fund balance.

The original motion was amended by the agreement between the proponent, CPC, and Mr. Bruce Burgess of 24 Neal Gate St., that the purpose is for Open Space and Recreation use.
ARTICLE NO. 16 (Majority Vote Required)

A motion was made by Community Preservation Act Committee member, Greg McBride, it was seconded and it was UNANAIMOUSLY VOTED to INDEFINITELY POSTPONE Article 16.

ARTICLE NO. 17 (Majority Vote Required)
A motion was made by Community Preservation Act Committee member, Charles Markham, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer the sum of $50,000.00 from Community Preservation Fund balance, pursuant to Massachusetts General Law, Chapter 44B, for Recreation Purposes, for the development of Community Supported Agriculture 9"CSA") in Norwell. Funds to be used for the start up and development of a CSA location within the Town of Norwell. Any CSA so established under this article shall give preference to Norwell residents and Town of Norwell employees. Expenditure shall be under the control of the Community Preservation Committee.

ARTICLE NO. 18 (Majority Vote Required)
A motion was made by Community Preservation Act Committee member Greg McBride, it was seconded and it was UNANIMOUSLY VOTED that the Town vote to transfer the sum not greater than $500,000.00 from the Community Preservation Reserve for Open Space, pursuant to Massachusetts General Law chapter 44B, for the purpose of Open Space Protection and Recreation, and to preserve active agricultural use including potential community supported agriculture. The funds from this article may be used by the Board of Selectmen with the consent of the Community Preservation Committee towards the purchase of easements and/or deed restrictions or other interests for the benefit of the Town on land located at 246 Prospect Street, also known as "Loring Farm", parcel ID 35-46 and 35-21, Book 84, Page 764. In addition to the purchases of interests outlined in the first paragraph, funds in this article may be used towards legal fees, and other costs associated with preservation of the property. Funds not expended under this Article shall be returned to the Community Preservation Open Space Reserve Account by the Community Preservation Committee.

ARTICLE NO. 19 (Majority Vote Required)
A motion was made by Community Preservation Act Committee member Rebecca Freed, it was seconded, voted and it Failed to Carry. (to purchase Stone House Gardens located at 134 Main Street).

ARTICLE NO. 20 (Majority Vote Required)
A motion was made by Moderator Roger E. Hughes, Jr., it was seconded and UNANIMOUSLY VOTED to INDEDINITELY POSTPONE article 20.

ARTICLE NO. 21 (Majority Vote Required)
A motion was made by Board of Assessor member Charles Markham, it was seconded and UNANIMOUSLY VOTED that the town vote to transfer from Overlay Surplus the sum of $493.43 to the Provision for Abatements and Exemptions 2003 account, the sum of $5.43 to the Provision for Abatements and Exemptions 2000 account, the sum of $1.99 to the Provision for Abatements and Exemptions 2001 account, and the sum of $4.33 to the Provision for Abatements and Exemptions 1998 account.

ARTICLE NO. 22 (Majority Vote Required)
A motion was made by Selectman Richard A. Merritt, it was seconded and UNANIMOUSLY VOTED that the Town vote to transfer the sum of $396,939.89 from the Reserve for MTBE Settlement to be added to the Stabilization Fund as established in accordance with the provisions of Massachusetts General Law, Chapter 40, Section 5B.

At 9:12 pm, a motion was made by Moderator Hughes, it was seconded and UNANIMOUSLY VOTED to dissolve the Special Town Meeting and take up the articles of the ANNUAL TOWN MEETING.

MINUTES OF THE ANNUAL TOWN MEETING, MONDAY, JUNE 8, 2009 AND TUESDAY, JUNE 9, 2009.

Moderator Hughes publicly remembered Mr. David Mayers who passed away in August of 2008. Mr.

Mayers did a tremendous amount of work for this town serving on the Town Charter Study Committee, the Advisory Board, Represented Norwell for the Mass. Bay Transit Authority, the Industrial Development Financing Authority, Board of Registrar member, and a member of the Norwell Affordable Housing Partnership. The Town will miss him and will forever appreciate has dedicated service to Norwell.

ARTICLE NO. 1 (Majority Vote Required)
A motion was made by Selectman Thomas J. Bigger, it was seconded and UNANIMOUSLY VOTED that the Town vote to accept the reports of its Officers, Boards, Departments, Committees and Commissions, as printed in the 2008 Annual Report.

ARTICLE NO. 2 (Majority Vote Required)
Thomas J. Bigger gave an over all presentation of the Town.

Moderator Hughes explained that he would go through all the line items of Article No. 2, one by one, reading the department number and the total amount recommended by the Advisory Board. Anyone that wished to question any of these amounts should call out "hold" and when the Moderator has gone through all the line items of Article 2 and they are voted on, he will go back and review each of the "held" items.

There were ten held line items.
2-101: Bd. of Selectmen Salaries – Held/Discussed/Voted
2-103: Selectmen Clerical Salaries/ADA – Held/Discussed/Voted
2-109: Bd. of Assessors Members' Salaries – Held/Discussed/Voted
2-200: School Budget – Held/Amended/Voted – (to increase the amount by $322,000.00)
2-268: Snow Removal & Sanding – Hold Withdrawn
2-151: Water Commissioners' Salary – Held/Discussed/Voted
2-274: Water General Expenses – Held/Amended/Voted –(to reduce the Advisory Boards recommends from $746,575.00 to $646,575.00)
2-156: Bd. of Health Members' Salaries – Held/Discussed/Voted
2-282: Solid Waste Disposal – Held/Voted
2-230: Group Insurance – Hold withdrawn.

A motion was made by Advisory Board Member, Jason Brown, it was seconded and UNANIMOUSLY VOTED that the Town vote to raise and appropriate or transfer from available funds, the sum of $38,456,900.00 as set forth in the "2010 Advisory Board Recommends" column under Article 2 to defray the charges, expenses and salary obligations of the Town including debt and interest, for the ensuing year, to provide for and to meet said appropriation, transfer the sum of $1,472,835.00 from Water Revenues, transfer the sum of $43,000.00 from Community Preservation Fund FY 2010 revenues, transfer the sum of $500,000.00 from Overlay Surplus, and transfer the sum of $10,000.00 from the Wetlands Protection Fund, $136,442.00, from Free Cash and $100,00.00 from Water Surplus.

ARTICLE NO. 3 (MAJORITY VOTE REQUIRED)
A motion was made by the Chair of the Capital Budget Committee, Kenneth E. Hogeland, it was seconded and UNANIMOUSLY VOTED that the Town vote to transfer from Free Cash the sum of $77,700.00 for the Highway S185 Bobcat Skid-steer Loader as set forth in the Capital Budget Recommendation Column as printed in the Warrant).

(Note: the School Department withdrew its request from Capital Budget as written in the Warrant)

ARTICLE NO. 29 (MAJORITY VOTE REQUIRED)
A motion was made by Senior Tax Relief Committee member Robert Bordewieck, it was seconded and UNANIMOUSLY VOTED that the Town vote to reduce the rate of interest that accrues on property taxes deferred by eligible seniors under Massachusetts General Law, Chapter 59, section 5, Clause 41 A from 4% to 2% with such reduced rate to apply to taxes assessed for any fiscal year beginning on or after July 1, 2009.

ARTICLE NO. 30 (MAJORITY VOTE REQUIRED)
A motion was by Affordable Housing Trust member Nancy Dooley, it was seconded and UNANIMOUSLY VOTED that the Town authorize the Affordable Housing Trust to expend up to $50,000.00 of funds held by the trust to be used for emergency capital repairs of existing affordable housing units in Norwell owned by the Norwell Housing Authority. Prior to making such repairs the trust shall ascertain that funding to make these repairs is not available through other sources.

ARTICLE NO. 31 (MAJORITY VOTE REQUIRED)
A motion was made by Wind Power Committee member Charles Markham, it was seconded and UNANIMOUSLY VOTED that the Town change the name of the Wind Power Committee to Norwell Energy Committee, and in addition to charge the Committee with coordinating the Town of Norwell's application designation as a "Green Community" pursuant to Massachusetts General Laws Chapter 25A, Section 10, and to apply for any state and federal energy related grants that may be available under this
Designation. Activities of the Energy Committee in pursuing Green Community designation and any grant applications would be subject to the review of the Board of Selectmen.

ARTICLE NO. 32 (MAJORITY VOTE REQUIRED)
A motion was made by Wind Power Committee member Charles Markham, it was seconded and UNANIMOUSLY VOTED that the Town authorize the Norwell Energy Committee, with the approval and coordination of School Committee, to make an application for grant funding to install solar photovoltaic installations at one or more school locations in the Town of Norwell. The Norwell Energy Committee shall coordinate the development of an RFP for the project and may develop a "Power Purchase Agreement" (PPA) for financing the project. Any grant application and/or PPA must also be approved by the Board of Selectmen who in addition to approving its terms shall make a determination that the expected net financial exposure of any photovoltaic project to the Town is acceptable.

Further to authorize the Treasurer, with the approval of the Board of Selectmen, to borrow a sum of money

up to $200,000.00, under the provisions of Chapter 44 of the Massachusetts General Laws for the installation of said project should the Board of Selectmen determine that the energy savings from the installation of solar photovoltaic cells provides a significant savings in energy usage as to make the project economically justifiable.

ARTICLE NO. 33 (MAJORITY VOTE REQUIRED)
A MOTION WAS MADE BY Community Preservation Committee member Joe Carty, it was seconded and UNANIMOUSLY VOTED that the Town re-authorize the Stetson Ford House Revolving Fund, pursuant to the provisions of Massachusetts GENERAL LAWS Chapter 44, Section 53E1/2 for the fiscal year beginning July 1, 2009, with fees charged for property use to be credited to the fund, for the purpose of property maintenance, with expenditures not to exceed $16,000.00, and not to be spent for salaries, with the balance in the fund at year end available for expenditure.

ARTICLE NO. 34 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Alison Demong, it was seconded and UNANIMOUSLY VOTED that the Town vote to transfer the sum of $100,000.00 from Community Preservation Fund FY 2010 revenues, pursuant to Massachusetts General Law, Chapter 44B, for Open Space acquisition to the Conservation Fund. Expenditures of these Conservation Fund monies shall require the concurrence of the Community Preservation Committee and the Board of Selectmen.

ARTICLE NO. 35 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Alison Demong, it was seconded and was UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article 35.

ARTICLE NO. 36 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Nancy Dooley, it was seconded and UNANIMOUSLY VOTED that the Town authorize the Affordable Housing Trust to use up to $50,000.00 of its funds to pay for professional services including: feasibility studies, engineering analyses, development of plans and specifications, development of RFP's, etc., in regards to parcels of land with existing affordable housing units owned by the Norwell Housing Authority or other parcels that have been previously designated by Town Meeting for the development of Affordable Housing. For these purposes, the Affordable Housing Trust may also consider requests for such proposals made by the Affordable housing Partnership or the Norwell Housing Authority.

ARTICLE NO. 37 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Nancy Dooley, it was seconded and UNANIMOUSLY VOTED that the Town transfer the sum of $30,000.00 from Community Preservation Fund FY 2010 revenues pursuant to Massachusetts General Law, Chapter 44B, for the preservation of vital records for the Town Clerk's office.

ARTICLE NO. 38 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Nancy Dooley, it was seconded and UNANIMOUSLY VOTED to INDEFITITELY POSTPONE Article 38.

ARTICLE NO. 39 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Pat Richardson, it was seconded and UNANIMOUSLY VOTED that the Town appropriate the sum of $25,000.00 from Community Preservation Fund FY 2010 revenues, pursuant to Massachusetts General Law, Chapter 44B, for the purpose of preservation of Open Space and Recreation, and to install drainage controls to prevent further erosion and damage to the Jacob's Pond Conservation Area and canoe launch. These funds will be expended under the direction of the Conservation Commission and with the approval of the Community Preservation Committee.

ARTICLE NO. 40 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation member Joe Carty, it was seconded and UNANIMOUSLY

VOTED that the Town appropriate the sum of $33,750.00 from Community Preservation Fund FY 2010 revenues, pursuant to Massachusetts General Law, Chapter 44B, for Historic Preservation purposes, for the repair and capital improvement of the roofs on the farmhouse and/or any outbuildings located at the Jacobs Pond Farm site. Expenditures of these funds will be conditional upon the successful application for state funds for this project from the Massachusetts Historical Commission. This project, including the grant application process, shall be administered by the Norwell Historic Commission. Expenditures under this article will be subject to the approval of the Community Preservation Committee.

ARTICLE NO. 41 (MAJORITY VOTE REQUIRED)
A motion was made by Community Preservation Committee member Charles Markham, it was seconded and UNANIMOUSLY VOTED that the Town, pursuant to Massachusetts General Law, Chapter 44B, to reserve the sum of $100,000.00 from Community Preservation Fund FY 2010 revenues for the creation, preservation and support of affordable housing; to reserve the sum of $40,000.00 from Community Preservation Fund FY 2010 revenues, for the acquisition, preservation, rehabilitation and restoration of historic resources.

ARTICLE NO. 42 (MAJORITY VOTE REQUIRED)
A motion was made by a Citizens Petition and moved by resident David Brooks, it was seconded and FAILED TO CARRY.

ARTICLE NO. 43 (MAJORITY VOTE REQUIRED)
A motion was made by a Citizens Petition and moved by resident David Brooks and it was UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article 43.

ARTICLE NO. 44 (MAJORITY VOTE REQUIRED)
A motion was made by a Citizens Petition and moved by resident David Brooks and it was seconded and UNANIMOUSLY VOTED to INDEFINITELY POSTPONE Article 44.

Yes votes – 101 No Votes – 115

ARTICLE NO. 50 (MAJORITY VOTE REQUIRED)
A motion was made by Selectman Thomas J. Bigger, and it was seconded and UNANIMOUSLY VOTED to INDEFINITLY POSTPONE Article 50.

INSTRUCTIONS TO ELECTED OFFICIAL

1. Steve Ivas, 315 Winter St.

MAJORITY VOTED that the Norwell Town Meeting instruct the Norwell School Committee to consider a longer school day for the Norwell Public School system.

MAJORITY VOTED that the Norwell Town Meeting instruct the Norwell Board of Selectmen to consider alterations to the Town Administrator's contract which include the function of Grant Funding development for the Town.

MAJORITY VOTED that the Norwell Town Meeting instruct the Norwell Planning Board to disallow invasive plants on approved plans. Invasive plants are defined as plants that were voted as invasive by the Massachusetts Invasive Plant Advisory Group and appear in their updated report on 01 April, 2005.

2. Bruce Burgess, 24 Neal Gate St.

MAJORITY VOTED to instruct the Board of Selectmen to convene joint meetings of the Insurance Advisory Committee and the Town Administrator for the purpose of investigating and reporting to the Board the feasibility and possible financial impact of joining the Group Insurance Commission (GIC) in order to provide health insurance for town employees. Such meetings should be held in a timely fashion to allow time for possible implementation for the 2011 fiscal year.

3. John J. Gallagher, III, 185 Lincoln St.

MAJORITY VOTE FAILED TO CARRY to appoint a Sidewalk Study Committee or sub-committee under the Pathway Committee.

FISH RIGHTS (2)

First Right
Gertrude H. Daneau $100.00
257 Winter St.

Second Right
Marylou O'Leary $150.00
222 River St.

There being no further business to transact, a motion was made, seconded and it was UNANIMOUSLY VOTED to dissolve the Annual Town Meeting at 11:14 pm.

Respectfully submitted,
Patricia M. Anderson
NORWELL TOWN CLERK

RECORD OF SPECIAL STATE PRIMARY
DECEMBER 8, 2009

In accordance with the requirement of Section 140(a) of Chapter 54 of the Massachusetts General Laws and in light of the death of United States Senator Edward M. Kennedy on August 25, 2009, Governor Deval L. Patrick designated December 8, 2009 as the date of the Special State Primary.

Pursuant to the Warrant, all eligible voters from Precinct One, Two and Three met at one centralized polling location, the Norwell Middle School, located at 328 Main Street to cast their votes for candidates for United States Senator.

The following Election workers were present:
In Precinct One, Carolyn W. MaClellan, WARDEN; Karen Raccuia, CLERK,; Mary Ellen Wetzel , John F. Carnes, Jr., Eleanore McCann, John Holmes, and Catherine M. Rahman, TELLERS.

In Precinct Two, Lynne B. Rose, WARDEN, Eleanor Bailey, CLERK, Peter Kates, Ellen Torrey, Francis J. Nagle, Lois Arnold, and Marilyn Geno, Tellers.

In Precinct Three, Mary E. Donovan, WARDEN, B. Jean Snow, CLERK, Barbara Vitale, Jeanette Simmons, Eleanor Larson, Joyanne Bond and Sharon Ducey, TELLERS.

CONSATABLE on duty was Ted Baldwin

Polls opened for all precincts at 7:00 AM. Polls closed at 8:00 PM and tallies were compiled in each precinct and brought to the Town Clerk where the final tally of all precincts was completed and publicly announced.

The number of votes cast in each precinct was as follows:
Precinct ONE, 522 votes cast including 26 Absentee Ballots.
Precinct TWO, 586 votes cast including 17 Absentee Ballots.
Precinct THREE, 611 votes cast including 17 Absentee Ballots.

Out of a population of 10,666, 7470 were registered voters at the time of this election and of those, 23% participated in the election process.

Tallying during open meeting at the Town Clerk's office resulted in the following count:

SENATOR IN CONGRESS SPECIAL PRIMARY RESULTS

REPORT OF THE BOARD OF REGISTRARS

On December 10, 2009, the population of Norwell was 10,666. The number of residents and voters fluctuates from month to month. As of December 10, 2009 a breakdown of voters was as follows:

*Democrat	1734
*Republican	1436
*Unenrolled	4022
**Green-Rainbow	5
*Libertarian	9
**Veteran Party American	1
Grand Total	7207

* Political Party
**Political Designation

Those voters registered in a political Designation cannot vote in a State or Presidential Primary, but they can for all other elections.

Voters who are "Unenrolled" may choose whichever party they would like and remain "Unenrolled".

Special Voter registration hours were held twenty (20) days before the Annual Town Election and for the Annual Town Meeting. Special Voter Registration hours were also held for the Special Town Meeting ten (10) days before the meeting. The Town Clerk's office, on those days, is open from 8 am until 8 pm.

Many Petitions and Nomination Papers were received for Certification by the Board of Registrars for Elections and Town Meeting.

256 voters registered in 2009.

In accordance with Section 140(a) of Chapter 54 of the Massachusetts General Laws and in light of the death of United States Senator Edward M. Kennedy on August 25, 2009, Governor Deval L. Patrick called a Special State Primary to be held on December 9. 2009. Additional extended voter registration hours were held for this Primary.

The requirement for registering to vote in Massachusetts are: one must be a citizen of the United States of America, a resident of the Town, and at least eighteen (18) years of age on or before the next election.

One may register to vote or change one's party affiliation at the Registry of Motor Vehicles or any other State agency. Mail-In registrations forms can also be obtained at the Norwell Post Office, the Norwell Public Library, and of course, the Town Clerk's office.

The Board of Registrars and the Town Clerk are always looking for people to work at the polls, especially those residents registered in one of the Political parties. If you are interested, kindly call the Town Clerk's office at 781-659-8072.

Respectfully submitted,
BOARD OF REGISTRARS
Regina T. Giordani, Chair
Donald W. Hansen
Bruce S. Burgess
Patricia M. Anderson, Clerk

REPORT OF THE BURIAL AGENT

The issuing of Burial Permits is one of the duties of the Town Clerk, who is appointed Burial Agent by the Board of Selectmen annually.

A Funeral Director may not bury or make any other disposition of a decedent without a Burial Permit. Therefore, it is a necessity for the Burial Agent to be accessible. The Town Clerk's office is open on Monday and Tuesday from 8 am until 4:15 pm; Wednesday, 8 am until 7:30 pm; Thursday, 8 am until 4 pm; and Friday 8 am until NOON.

Arrangements have been made with the Communications Center at Norwell Police Station, 40 River Street, for a Funeral Director, or his agent to obtain a Burial Permit on a holiday or a weekend if a satisfactory Death Certificate is received and retained.

The Town issued 90 burial permits in 2009.

The cost of a Burial permit is $10.00 and a certified copy of a Death Certificate is $6.00.

Respectfully submitted,
Patricia M. Anderson
BURIAL AGENT

JURY LIST INFORMATION

Since 1986, Plymouth County towns have been included in the "ONEDAY/ONE TRIAL" jury system.

The names and address of ALL residents (not just registered voters) seventeen years of age and older are provided to the Jury Commissioner through the office of the Secretary of State, with prior permission of the Town Clerk, before June of each year (Chapter 234A, MGL.)

From this Prospective Juror list, which includes dates of births and occupations of all the names included, the Jury Commissioner prepares a randomly selected list by computer of names available for summonsing for juror service to a jury-using court in your judicial district. The presence of one's name on the Prospective Juror List does not necessarily mean that person will be issued a juror summons. However, a person cannot be summonsed as a juror if his or her name does not appear on the Prospective Juror List.

A copy of this list is mailed to the Town Clerk's office, where it is posted for inspection during the latter part of each year. Names on this list are subject to be called for jury duty after January 1st of the next year.

Massachusetts's residents can now use a Web site to respond to jury summons. Prospective jurors can confirm their jury service, seek a disqualification or postponement, and even complete a confidential juror questionnaire online: www.massjury.com/juror.

Respectfully submitted,
Patricia M. Anderson
TOWN CLERK

REPORT OF THE SUPERINTENDENT

Price is what you pay. Value is what you get. Warren Buffett

How do we match up? Are our prices competitive? Are we squeezing out every possible efficiency? These are the type of questions successful businesses ask every day. These are also the type of questions Norwell Public Schools asks. And, just like other successful businesses, Norwell Public Schools uses benchmarking as a tool to find the answers. I am pleased to report that when measured against our peers, Norwell Public Schools had another highly successful year in 2009. Once again, our students outperformed the competition academically, yet we continued to do so at a price well below both the majority and average of our benchmark communities: True Value.

In 2008, Norwell commissioned a benchmarking study which identified twenty peer communities relative to selected socio-economic, demographic, and geographic factors. The table below compares these benchmark communities in terms of 2009 high school MCAS results and per pupil expenditures. Since passing the English Language Arts (ELA) and mathematics MCAS exams is a graduation requirement for all students in Massachusetts, comparing the percentage of students scoring *Advanced* or *Proficient* (rather than *Needs Improvement* or *Failing*) is a valid measure of value. Similarly, district per-pupil spending, as calculated by the state Department of Elementary and Secondary Education, is a metric that applies to all communities in the Commonwealth and is thus a comparable measure of price.

Foxborough	89%	*20*	87%	*18*	88.0%	*18*	$11,480	*10*
Benchmark Average	**96%**		**92%**		**94%**		**$11,624**	

As the benchmarking table above clearly shows, in 2009 Norwell ranked in the bottom half (13th) in the amount of money spent per pupil to educate our students, yet we ranked at the very top in terms of the percentage of students scoring *Advanced* or *Proficient* in ELA (1st), mathematics (2nd), and the combined average results on both tests (1st). In essence, it can be fairly stated that Norwell Public Schools performed at an extremely high level and at a relatively low cost: True Value.

Applying the same metrics on a statewide basis, the results are even more revealing. Norwell's 2009 per pupil expenditures were nearly 15% below the state average ($11,167 vs. $13,060); however, out of 353 high schools in the Commonwealth, only three small charter schools in Boston scored higher on the grade 10

ELA MCAS test, and only 7 schools scored higher in mathematics, including two of Boston's exam schools: Boston Latin and the O'Bryant School of Math and Science. The combined average results for ELA and mathematics are equally impressive:

Boston Prep Charter	100%	MATCH Charter	99%
Boston Latin Academy	99.5%	Norwell High School	98.5%
Boston Latin	99.5%	Dover-Sherborn High School	98.5%

It is interesting to note that the only other traditional public high school on the above list, Dover-Sherborn, spent $15,787 per pupil in 2009, or $4,620 more per student than did Norwell Public Schools! Based on Norwell's 2009 enrollment of 2,327 students, this translates into a budget difference of more than $10 million. In other words, Norwell Public Schools is achieving at the same high level as Dover-Sherborn, but for $10 million less--talk about True Value.

Besides benchmarking, strategic planning is another major business practice that Norwell Public Schools has been actively pursuing. The 2008-09 school year marked the first year of our new *NORWELL 20/20 Strategic Plan*. Our Leadership Team was extremely busy implementing 20 of the 61 action plans called for in *NORWELL 20/20*, and beginning in September, 2009 they embarked on the second year of implementation, taking on 26 action plans in addition to their normal duties overseeing our schools and departments. For more information on Norwell Public Schools' *2008-2013 Strategic Plan,* please visit www.norwellschools.org/Norwell2020.htm.

Speaking of our Leadership Team, 2009 marked a major transition, with Jack Shea retiring after a distinguished thirty-five year career in public education, the last fourteen as a principal of Cole School. Long time Norwell High School assistant principal Mike Devine also left to become principal of Hull High School, and Elaine Reardon stepped down after serving Norwell faithfully on the School Committee for the past six years. These three individuals have made substantial contributions to our schools over the years and are greatly missed. Leadership turnover during the past few years is becoming a concern, with 4 administrators new to their position in 2009, 6 others with less than three years of experience in their current position, and only 3 administrators in the entire district with more than three years of experience. The lack of qualified candidates interested in pursuing school leadership positions in these challenging times complicates this problem.

Nonetheless, we have been fortunate to hire some excellent teachers and administrators during the past few years, and as the above results vividly demonstrate, they along with our veteran staff have been providing True Value for our students and our community.

Respectfully submitted,
Donald J. Beaudette, Ed.D.
Superintendent of Schools

SOUTH SHORE REGIONAL VOCATIONAL TECHNICAL SCHOOL DISTRICT

During the 2009 year, many challenges and much change have taken place at the South Shore Regional Vocational School. With the fiscal outlook being a serious concern, the staff and communities have pulled together to see that all students attending South Shore receive the best possible vocational education that can be delivered.

On June 5, 2009, 2 graduates from Norwell received diplomas and shop certificates at the South Shore Music Circus. The following students graduated:

Mark Chiasson *Alysha Thornton*

Currently, no students from the Town of Norwell are scheduled to graduate on June 11, 2010.

During the summer recess, facilities upgrades took place in our science lab and cosmetology shop. The parking lot was paved. Exterior doors were upgraded and the usual painting and cleaning took place as well. With a building now 47 years old, maintenance issues are planned on a regular basis. Also scheduled on the horizon, with voter approval, will be the replacement of the roof and windows through the assistance of the Massachusetts School Building Authority. This project just recently completed the feasibility study phase and now will be moving onto the design phase.

As educational demands continue to rise, South Shore students continue to meet these demands. This year, 31 students will receive the John and Abigail Adams Scholarship for scoring in the top 25% of their class. Increased enrollment of graduates attending post secondary 2-year and 4-year colleges has increased in this past year.

Our current enrollment is 598 students with a total capacity of 600. We have had over 95% enrollment for the past several years.

The South Shore School District is represented by eight appointed School Committee members from each town's Selectmen's office:

Gerald Blake, Chairman -Rockland
Robert Heywood - Hanover
Lenwood Thompson -Abington
James Rodick - Hanson
John Manning, Vice Chairman - Scituate
Daniel Salvucci - Whitman
Robert Molla - Norwell
Kenneth Thayer - Cohasset

It is no surprise that the down turn of the economy has placed a hardship on us all in some way, shape or form. South Shore will continue to work with our eight member towns and take a proactive stance in monitoring budget issues. Over the years, our member towns have supported our budget and it is much appreciated. We must continue to have an open line of communication with our elected officials and support our towns when possible.

Respectfully submitted,
Robert Molla
Town Representative
South Shore Regional School District Committee

NORWELL PUBLIC LIBRARY

During 2009, Norwell Public Library was as dynamic as ever. We traveled to the moon, hit a home run and prepared job seekers for making better career choices. 137,311 items were borrowed to users, 6,242 people attended library programs, museum passes were used 825 times, and patrons requested reference services 5,288 times. Summer reading programs attracted 737 children which was more than twice the previous summer. Unique users to the library's homepage averaged 966 per month.

The Mass Memories Road Show, a state wide public humanities project that documents the history of Massachusetts cities and towns through digitizing family photographs and recording oral history, attracted over one hundred people. Information about Norwell's residents obtained through this initiative can be found at www.massmemories.org. Henry Norwell (1858) and other town residents can be seen catching fish, graduating, and partying. Storm photos are also documented.

In a unique opportunity afforded no other public library, CCTV from China visited Norwell Public Library to document an average American suburban library. The news crew shot footage of patrons using the library and questioned staff on how libraries are utilized in the United States. The average citizen in China does not have access to free public libraries.

Norwell Reads celebrated its fifth season with the memoir Wait til Next Year by Doris Kearns Goodwin. Baseball fans can well relate to this memoir. The Norwell Reads project is a month long program that encourages readers of all ages to share their experiences by reading the same book while collaborating with other town agencies in Norwell. The Red Sox World Series Championship Trophies were on display. Mary Pratt, the pitcher for the Rockford Peaches and Kenosha Comets from 1943-1947, spoke to seniors at the Council On Aging. We sponsored a presentation with Red Sox player Rico Petrocelli, and children's author

and illustrator Matt Tavares spoke to families about his children's books. The Grand Finale was a vintage baseball game of the "Norwellians" versus the Hingham Coopers. The Norwellians team was:

- Al Kassatley (Coach)
- Jonathan "Rover Boy" Detwiler
- Matt "The Thrill" Gill
- Katelin "Speckles" Jenkins
- Scott "Scooter" Kudrick
- John "Johnny Boy" Mariano (Catcher)
- Rick "Tricky Rick" Merritt
- Jim "Crime Dog" Murphy (Pitcher)
- Jason "Big Papi" Pithie
- Mark "Romes" Roman (Pitcher)
- Todd "Hot Toddy" Thomas
- Jack "Johnny Boy" White

Director Rebecca "Books" Freer was the Manager. The Norwellians were victorious 12-5. Mary Pratt threw the first pitch and Bob Detwiler was the commentator extraordinaire. Gary Nisbet (the Cooper's manager) and Suzanne Buchanan from the Hingham Historical Commission were key "players" in the success of this year's Norwell Reads.
NPL received a $10,000 grant (LSTA) from the Massachusetts Board of Library Commissioners for 2009's Norwell Reads project.

This summer's reading program for children and teens, "Starship Adventure at Your Library", attracted hundreds of Norwell's youth to register for reading incentives and participate in more than 30 programs. Activities and events included a family concert, interpretive science, storytelling programs underwritten by the Norwell Cultural Council, exhibits of NASA moon rocks and meteorite samples, collaborations with the South Shore Astronomical Society, and a range of story and craft programs for children of all ages. Movies, star-gazing through telescopes, rocketry challenges, and many more space-themed activities drew budding young space explorers to NPL in droves over the summer. The very active Youth Library Council, comprising members in the 4th through 8th grades, was instrumental in executing plans and engaging younger children in a variety of programs throughout the summer.

Programs for youth provided significant experiences in early literacy for babies on up. The ever-popular singer MamaSteph continued to draw capacity audiences, complementing the library's Friday morning baby/toddler program "Books & Bubbles," an important early literacy stepping stone to developing readers. Other programs included "Bedtime Stories" and "Read to Rylee" that reinforced the six reading readiness skills fundamental to learning to read.

NPL hosted a six week series on job searching and career building with guests who spoke about networking, resume writing, online resources, planning for opportunity, and interviewing through role playing and lecture format.

Many thanks to the Friends of the Norwell Public Library for funding adult and children's programs and purchasing museum passes. We would like to thank members of the Norwell Reads committee, The Norwell Women's Club, John Holmes (who adds beauty to the library every month with his lovely flower arrangements), The Norwell Cultural Council, and all our wonderful patrons who make the library a special place.

Volunteers worked 1,746 hours at the Norwell Public Library this year. Their efforts facilitate services that directly impacts library operation.

Norwell staff is the finest on the South Shore. They take great pride in the valuable work they do to provide excellent personal service. Staff continues to attend classes and search for new ways to meet changing trends while making visitors feel welcome.

Respectfully submitted,
Rebecca Consolo Freer
Director

NORWELL POLICE DEPARTMENT

To the Honorable Board of Selectmen and the citizens of Norwell,

I hereby submit my fourth annual report to the town as Chief of Police. 2009 was an active year for the Police Department. A number of goals were attained through the tireless efforts and dedication of department members throughout the course of the year. I would like to extend my heart felt thanks to all the members of the police department (Police and Emergency Communications) for their continued support and efforts. The entire department is comprised of dedicated professionals that you can be proud of. They all continue to provide exceptional service in a thorough and professional manner.

Throughout the year we have seen an increase in calls for service (10,799), arrests (303), incidents (590) and traffic citations (804). The current 24 hour a day policing demands of the community requires an officer response to each of these calls for service. The consistent residential and business growth will increase the burden of the delivery of police services and will necessitate the department growing to keep up with the increasing calls for service. The department's staffing has not increased to meet these demands.

The department was successful in reducing traffic accidents from the previous year by 8%. This was done by conducting analysis of frequent accident locations, time of day and cause. We then focused on those areas, and high traffic complaint areas, deploying the traffic trailer and directed traffic patrols.

We continue to work with the Permanent Building and Maintenance Committee, Advisory Board and the Board of Selectmen to find a way for a new building to address the plethora of serious concerns regarding the current state of the police department headquarters.

The police department has been very aggressive in searching and applying for Federal, State and private grant opportunities. We were successful in applying for and receiving over
$39, 000.00 in grant money. This money was used for equipment for staff, community policing programs and equipment and training. The following grants were awarded: The Executive Office of Public Safety, The Governors Highway Safety Bureau and Department of Homeland Security.

During 2009 all officers completed in-service training. This consists of Criminal and Motor Vehicle Law updates, Defensive Tactics, Range 3000 and Domestic Violence Training. We currently have officers certified to conduct our own in house training for firearms and CPRJFirst Aid. We were also able to send officers to specialized training on a multitude of subjects: Search Warrants, Confidential Informants, Search and Seizure, Interview and Interrogation, Eyewitness Identification and Active Shooter scenarios. The detectives were able to attend Sexual Assault Investigation and DEA Narcotics Training. It is imperative we are able to maintain training for officers to keep up with the daily legal challenges that face officers on a daily basis.

Although the Police Department lost it's Community Policing Grant through the State due to cuts that has not deterred us from continuing our core Community Policing programs. We offer the RAD program (self defense course for women), Crime Prevention home and business safety Recommendations, Operation Identification and our EZ Fingerprint Child ID system. Please visit our website at

www.norwellpolice.com for more information on these programs. During the spring/fall we continue to have officers patrolling on mountain bikes and a motorcycle to further enhance our commitment to the community.

The department continues to be a proactive resource to the Norwell School system. Detective Jay McDevitt continues to serve as our Juvenile Officer and liaison with the all the schools located in Norwell.

I remain appreciative of the continued support by the Board of Selectmen and the Town Administrator. I am also grateful to all the Department heads, the many Town Boards, Committees and Town employees. I would also like to thank Chief T. Andrew Reardon and the Norwell Fire Department for their support and continued professionalism. A special thanks to Deputy Chief John Suurhans and my Administrative Assistant Marion Kaskiewicz for their unfailing willingness to assist me in my role as your Police Chief. I look forward to serving as your police chief for many years to come as we continue to preserve Norwell as a safe and positive place to live and work.

EMERGENCY COMMUNICATIONS CENTER

In 2009 the Emergency Communications Center Dispatchers handled over 10, 799 calls for service for the Police Department, 2, 175 Fire Department calls for service and 2, 032 burning permits were activated.

Seven full-time and two on-call employees staff the Communications Center. There are two dispatchers from 8:00 AM through 4:00 PM and two dispatchers from 4:00 PM through 12:00 AM. There is only one dispatcher on duty from 12:00 AM through 8:00 AM.

In 2009 we applied for and received over $31, 000.00 in grant money from the State Emergency Telecommunications Board. This money will be used for training and personnel costs.

Our Dispatchers are the first people that greet you as you enter the police station. They are the first people that you speak with in an emergency situation. They not only handle all 911 police and fire calls but they also dispatch for the Highway Department, Water Department, Council on Aging and Tree and Grounds. These multi faceted employees take walk in information in the lobby, serve as matrons for prisoners that come into the station, enter missing persons, wanted persons, general broadcast information, stolen property and vehicles into the nationwide data base. They also coordinate communication with other agencies during mutual aid events or critical incidents.

The management team wants to thank all the Emergency Communication Center personnel for their continued commitment to their duties and their professionalism in serving the citizens of Norwell.

Respectfully Submitted,
Theodore J. Ross, Chief of Police
Laurie Croke, Lead Dispatcher
T. Andrew Reardon, Fire Chief

FIRE & AMBULANCE REPORT

Thank you to all residents and taxpayers for your continued support of the Norwell Fire Department.

It was with great sadness that we bid a final farewell to Chief Warren (Parky) Merritt in August. Chief Merritt had served our community with distinction for many decades, setting a standard of professionalism and commitment to duty for all members of the fire service to follow.

The Fire Department continues to see a strong increase in demand for pre-hospital emergency medical services. Our current and only ambulance is four years old and has over 90,000 miles. We have made a capital request to replace this unit in FY'11.

The Department has been fortunate enough to once again be the recipient of state grants. Specifically the SAFE grant which allows us to continue our effort with Public Fire And Life Safety Education and the Fire Equipment grant that provided us the resources to upgrade our water rescue and communications equipment.

We have been able to maintain our staff of 20 full-time employees, 11 of which are certified paramedics. The call-firefighter ranks have increased to 7 personnel, 3 of who are currently in training to become paramedics.

This past year we hired Firefighter/Paramedic Harry Merritt to replace an early retirement that occurred in 2008. Firefighter/Gary Plunkett left us to take a job with Cambridge Fire; we wish him well and great success in his new position.

Training continues to be a core component of our operation, with Emergency Medical Services being a significant focus of our efforts. Each of the work groups also finds the opportunity to train on Fire and Rescue operations as well. We have also started a monthly training program with our call personnel to help them become more knowledgeable about all aspects of the Fire Service.

Our relationship with the community continues to grow stronger. This year we held our Annual Open House/Costume Party, which continues to be a very successful and heavily attended event. We also held our inaugural "Foam Day" in conjunction with the Recreation Department. The event proved to be a hit and a fun time was had by all those involved.

The 2009 Incident breakdown:

Incident Type	
Fires Incidents	37
Emergency Medical Service Incidents	1260
Hazardous Conditions	281
Service Calls	239
Good Intent Calls	98
False Calls	250
Miscellaneous	10
Total Incidents	***2175***

Permits Issued	216
Inspections Conducted	***340***

I wish to thank our firefighters for their effort over this past year, our dispatchers who are really our first responders, as they are the first people we speak with when we call 9-1-1, the Norwell Police Department for their efforts as they work along side of us in the field and a special thanks to Ms. Erin Galvin, Administrative Assistant for all of her efforts on behalf our agency and the community.

Respectfully Submitted,
T. Andrew Reardon, Fire Chief

HARBORMASTER

I herby submit my first annual report to the town as Harbormaster. In 2007 the Town voted in the new by-law to control and regulate the moorings in the waterways of Norwell. I was appointed acting Harbormaster January 2008 and the challenge began.

All new forms were made up and the investigation process started. In order to locate the owners of the moorings in the river I patrolled the river getting all the boat registration numbers and running them through the Massachusetts Environmental Police data center. I located all owners except for two.
Forms were sent out and the response was very good, it took most of the season to locate everyone including the boaters at Kings Landing Marina. Permit stickers were issued and a computer database was generated. I granted 116 permits, 3 new moorings and sent a list of boat owners owing boat excise tax to the Board of Assessors for collection.

On January 7, 2009 I was appointed and sworn in as Harbormaster and the new season was on its way. This year renewal forms were mailed out and 124 permits were granted. This year my focus was getting the mooring inspection regulations enforced. All new and updated moorings had to conform to the new standards within the rules and regulations that were set by the Mooring Committee and Selectman. I also worked closely with the Assessors office to insure that Norwell would receive the excise taxes from boaters who birthed their boats in Norwell as of July 1st 2008 and 2009. This year all mooring owners were located and the list is complete.

Senate Bill No. 509 passed legislation this year which require all Harbormasters in the Commonwealth be certified and trained within the next three years. This is a nationwide program that will bring all Harbormasters on the same level of training. Education courses will be from the Massachusetts State Police (on line training academy) as well as the Coast Guard Pt. Allerton Station and the Massachusetts Harbormasters Association (South Shore Chapter). I am involved with this training and have completed the Marine Law Enforcement program.

The 2010 season is ready to go and the renewals are ready to be mailed. With this year as last the revenue will be less because the $15.00 fee for the application is exempt for renewals. I wish to thank the Board of Selectman and the residents of the town for allowing me to continue as your Harbormaster. I look forward to meeting everyone on the water this new season.

HIGHWAY DEPARTMENT

The winter season of 2008-2009 began with the typical maintenance of all our snow fighting equipment to make sure it's ready to go when the snow starts to fly. Each truck, sander, and plow is inspected with any defects repaired, welded, and painted.

All of our drainage ditches are cleared of leaves and debris ensuring that storm water run-off flows freely preventing flooding and icing during the winter months.

The winter produced 76" of snow that was easily removed by Town employees and its contractors.

Street sweeping commenced on March 23rd and completed on July 22nd covering 1,986 miles of roads. Keeping our streets free of sand and debris is an important part of this departments responsibilities, leaving sand on our roadways can cause skidding by automobiles and motorcycles which could lead to accidents. Also any sand that we can prevent from entering into our drainage system is a plus for the environment by limiting that amount of silt entering the wetlands area. Catch basin cleaning is also performed as time allows.

Potholes, the scourge of the Northeast Quadrant of the country are repaired in-house utilizing cold patch and Hot Mix Asphalt throughout the year. Potholes are formed primarily by water finding its way through the asphalt through a void or crack, then freezing and lifting the asphalt. As vehicles continue to pass over this area it breaks up and the pothole is formed.

The newly constructed sidewalks were completed along Brantwood Road, Knollwood Road, Myers Ave., and Beers Ave by Capone Brothers of Randolph MA at a cost of $43,058.75. The Tree & Grounds Department then loamed and hydro-seeded the entire area.

Several areas along Main Street that showed signs of deterioration were milled out to a depth of 2" and resurfaced by Lorusso Corp. of Plainville MA at a cost of $114,840.00.

Sealcoating Inc. of Hingham MA applied a Modified Asphalt fiber compound to repair and fill cracks on High Street, Grove Street, Prospect Street, Norwell Ave., Central Street, River Street, Tiffany Road, and Stetson Road. This application is the best preventative measure used by cities and towns to combat the formation of potholes. The total cost of this project was $114,405.66.

The rest of this Departments time was spent on routine maintenance which includes asphalt repairs, street sign repair and replacement, catch basin and drainage inspections, installation and maintenance, vehicle repairs etc. and dealing with the flash floods and tree debris from high winds which brings us to the Fall season to begin it all anew.

I would like to thank the Highway Department employee's Chris Cowden-Foreman, Steve MacInnis, James Murphy, William Lavery, and Scott Ladue. I would also like to thank Steve Perona the Towns Recycling Co-coordinator, and Harold Tuttle who assists Steve on paint and oil days from April to November, the Snow Removal Contractors who assist during winter months, the many Department Heads, Boards, Commission Members, Committee Members, and Volunteers that also take pride in making Norwell what it is today.

Respectfully submitted,

Paul M. Foulsham
Highway Surveyor

DEPARTMENT OF LAND AND NATURAL RESOURCES

The year started out stormy. Most of the Departments time was spent aiding the Highway Department with sanding and plowing operations. We had 2 interments at Washington Street Cemetery and many truck loads of branches and tree debris picked up from around Town.

The weather moderated some during February. We were able to work on equipment, repair & repaint 40 benches and trash barrels. We had 2 more interments and removed seven dead Norway spruce trees at the Cemetery.

Winter was winding down with some sanding and plowing in early March. Spring cleanup around the School's athletic fields was performed; renovation was done to the baseball & softball fields, along with laying out and painting of the boys & girls lacrosse fields. Benches and barrels were placed around the Town fields along with 2 more interments.

As April vacation approached, field maintenance, aeration, sweeping, de-thatching, over-seeding, and crabgrass control with fertilizer was applied. Mowing started by the end of the month. There were 4 more interments.

By May, mowing was in full swing. Marking fields for baseball, softball, lacrosse, and track was almost a daily job. The roadside flail mower was also in use daily. With the resurfacing of Brantwood Road, Knollwood Road, Myers Ave., and Beers Ave., the department assisted with the hydro-seeding along the curb. There were 3 more interments and the department planted 4 trees around town. The Cemetery and Common were spruced up for Memorial Day. Spraying was conducted to prevent caterpillars from defoliating Town owned ornamental trees.

Come the month of June time is spent on the mowing and cleanup of the High School grounds for upcoming graduation ceremonies. The football field was re-loamed and hydro-seeded with 21/2 tons of fertilizer and insect control. During this month our vendor to remove stumps around Town came in and removed 61 stumps.

Over the summer, mowing and field maintenance continued, spraying fields for broad leaf and weed & clover. The crew continued roadside flailing and cutting brush back from signs and corners. The tree removal vendor was in once again to remove 17 hazardous trees and trim another 10.

As September approached, we layed out and painted the fields for fall sporting activities-3 football fields, 2 soccer fields, and 1 field hockey field. Schools were spruced up for the first day back to school. There were 7 more interments during this month.

The crane company came in and removed 3 large trees' and the bucket truck came in to remove 7 more trees. Mowing and field maintenance continued thru the fall with the aeration, over-seeding, and line marking the fields. To control the grass in the ball fields we roto-tilled then rolled the infields. On the 18th of October, a Nor'easter hit prompting the department to go survey the Town and clear away downed trees and hanging limbs.

By November football is the only remaining sport for marking of fields. During this time irrigation systems are blown out, fall cleanup is underway by applying fall fertilizer, over 200 snow stakes installed on public grounds around Town including Washington Street Cemetery and the bucket truck was in to remove 12 more trees and trim up a few others.

As December approached, all benches were power washed & stacked, barrels & goal posts/nets were taken off the fields, the department had 3 more burials, and maintenance was started on vehicles and equipment to have them ready for spring.

For the year of 2009, this department applied 16 1/2 tons of fertilizers, 30 gallons of chemical concentrates, 3 tons of pelletized lime, and 2 tons of grass seed, removed and trimmed 100 deceased trees, and had 31 interments in Washington Street Cemetery, along with picking up 30-50 barrels of trash every week around Town on public property.

In closing, I would like to thank the Tree & Grounds Department crew Mark Smith-Foreman, George Brazil, Phil McKinnon, Phil Murray, and Bob Greek. I would also like to thank the Department Heads, Boards, Commission Members, Committee Members, and Volunteer's who take pride in making Norwell what it is today.

Respectfully submitted,
Paul M. Foulsham
Director of Lands & Natural Resources

NORWELL CEMETERY COMMITTEE

During the calendar year 2009 there were 23 full burials, 10 cremation burials and 1 infant burial, for a total of 34 burials recorded at Washington Street Cemetery. A total of 19 lots were sold. The sum of $25,700.75 was turned in to the treasurer/collector. $9,500 came from the sale of lots and $16,200.75 came from burials and installation of foundations.

We are pleased to have Bob Greek as our part-time employee at the cemetery. He joined up this past summer, spending 3 1/2 days at the cemetery and 1 1/2 days with the Tree and Grounds Department. He has been able to accomplish some of the tasks that we had to postpone when we had no permanent worker at the cemetery. We have plans this coming growing season to continue with some other much needed projects. We wish to also thank the other members of the Tree and Grounds Department for additional help when we needed it.

Plans for the new cemetery at Stetson Meadows are progressing slowly but surely. We are dealing with the problem of an endangered species, the Eastern box turtle, living on the property. A number of acres must be set aside for a turtle habitat. A state agency, Natural Heritage, must approve of the acreage for the turtles before we can proceed with any construction. We are hoping that when we get the approval we will be able to finalize all the plans for construction. It is our hope that at town meeting in 2011 we will be asking for the funding of the long anticipated cemetery.

We do still have lots available at Washington Street Cemetery, although not too many. If you wish to purchase lots there, we would suggest that you do so, soon. Lots may be purchased by residents for $510.00 each. Another reminder, if you are moving out of Norwell but still wish to be buried here, you need to purchase your lots before you move. As long as the lots are purchased before you move, you may still be buried here. For more information, please contact the Town Clerk's office. You will be referred to the chairman of the Cemetery Committee.

Respectfully submitted,
Gertrude H. Daneau chairman
Mary C. Lizotte, secretary

PERMANENT BUILDING AND MAINTENANCE COMMITTEE

The Permanent Building and Maintenance Committee (PBMC) completed it's "Space Needs Study" in late 2008 and was advised to hold any further action on it until directed by town meeting. The Committee has been involved in several town building maintenance and repair projects to keep these buildings sound and protected from weather related issues.

If possible, within the current budget with PBMC will initiate development of conceptual plans on selected sites. These conceptual plans will be used to address the public at future Town Meetings.

The board continues rehabilitation programs at the Sparrell building and the Stetson-Ford House with both interior and exterior repairs.

Working with the Town Hall Administration, the PBMC, continued minor renovations and improvements to the Town Hall including painting and resealing windows of Osborne Room/Selectmen's meeting room.

WATER COMMISSIONERS

During calendar 2009 the Norwell Water Department was pleased to serve 3,510 residential, commercial, municipal and industrial accounts. This represents an increase of only 9 accounts from the previous year. The total volume of water pumped from our ten goundwater wells was 348 million gallons, an average daily demand of just less than one million gallons. Our maximum demand day was May 22, 1.57 million gallons. We pumped almost 5% less than in 2008, due to a somewhat rainy summer and the reduced need for lawn watering. Water restrictions were not necessary in 2009.

The Water Department conducted in excess of 500 service calls during the year. These service calls consisted primarily of installing new metering equipment and service valves, marking underground utilities, and responding to customer inquiries regarding water quality or pressure concerns. There were 23 water system related road openings undertaken in 2009, to renew 8 leaking water services, install 9 new water services, replace 4 fire hydrants, and repair 2 water main breaks.

A replacement well for Pump Station No. 6 off South Street has been installed and tested. The new well has double the capacity of the original well, and improved water quality. A new pump house along with associated instrumentation and controls will be constructed in the spring of 2010. Similarly at the Washington Street Well Field, replacement wells have been installed and tested showing increases in yields over the three original wells there. The Water Department is assessing the costs of improving that wellfield in a similar manner to the effort at South Street.

We have changed our billing from semi-annual to quarterly. More frequent water bills of lesser amounts will improve our cash flow, and many residents find this easier to budget. We are replacing old water meters with radio technology so the meter reading is less labor intensive.

Financial figures for our operations can be found under the reports of the Treasurer and Town Accountant.

We would like to take this opportunity to thank Water Superintendent John McInnis, Distribution Foreman Steven Gatanti, Treatment Plant Operator Marc Spinella, Water System Mechanics Scott O'Keefe and Rick Mosca, Administrative Secretary Theresa Graham, and Meter Reader John McGloin, for their dedication and superb ability to communicate and address issues with water customers, contractors, consultants, and Town officials.

We would also like to thank all the other Town Boards, Commissions, and Committees who have offered their cooperation, guidance and support during the past year.

Respectively submitted,
Board of Water Commissioners
Frederick St. Ours, Chairman, Peter Dillon, Steve Ivas

BOARD OF HEALTH

The onset of the H1N1 flu virus in the northeast made for an interesting and challenging fall in the Board of Health office. It provided an opportunity to apply emergency practices that are outlined in the BOH's Emergency Operations Plan. The vaccine supply came in slowly with the first clinic taking place on November 10, 2009. A total of ten (10) clinics were conducted. Eight (8) of the clinics targeted high risk groups including the four Norwell Public Schools and the South Shore Charter School. The clinics carried over into late January, 2010 with two (2) clinics open to the general public. The Norwell VNA and Hospice administered the shots for the Board. Participation was also strong in the two (2) public seasonal flu clinics.

The Board was pleased to be able to purchase 65 cots and 65 blankets in plastic pouches with Federal Public Health Emergency Preparedness funding granted through CDC. The cots and blankets will be added to the existing inventory to be used should an emergency
shelter ever be necessary.

The Board has begun preliminary discussions with SEMASS regarding a possible extension of the town's current agreement for the disposal of solid waste. The current agreement expires in 2015. Alternatives to SEMASS are also being considered.

The Board was disappointed to learn that the South Shore Tobacco Collaborative has dissolved due to lack of state funding. The Collaborative did an excellent job with youth and merchant education and enforcement.

The Board continued to be impressed with the work performed by DelPrete & Sons Trucking in the curbside pickup of rubbish and recycling.

The Board would like to thank the Norwell VNA & Hospice for their usual exceptional work at the clinics and with the public health nursing services they have provided for so many years. Special thanks the Sheila DeWolfe, R.N. for an outstanding job coordinating and administering the HIM flu vaccination activities.

The Board would like to extend its appreciation to its hard working full time staff consisting of Health Agent Brian Flynn and Administrative Assistant Pat Cummings. Special thanks go out to long time alternate Health Agent Jim Jenkins, P.E, Food Inspector Bob Griffin, CHO, and to Ralph Cole, PLS for another year of valuable service to the Town of Norwell.

Appreciation goes out to all Boards, Commissions, Department Heads, staff members and the citizens of the Town of Norwell

HEALTH DEPARTMENT ACTIVITIES:

Complaints	61

Swimming Pool/Jacuzzi Inspections	7
Percolation Tests/Groundwater Observations	43
Plan Review (Septic, Planning, ZBA	115
Restaurant/Food Service Inspections	120

Rubbish Waste Hauler Permit	6
Well Installation Permit	6

A total of $55,518.00 for permits, fees, etc. was turned into the Treasurer/Collector. This also includes monthly fees for two (2) Mobile Home Park spaces.

Respectfully submitted,
John O. Litchfield, Chairman
Peter M. Dillon
Meg Doherty

COMMISSION ON DISABILITIES

The Commission on Disabilities is responsible for watching out for the interests of persons with disabilities and providing when possible for their assistance. During the past fiscal year the Commission used its funds to assist the Fire Chief and the Visiting Nurse Association in providing a defibrillator for the senior housing at Norwell Gardens; in purchasing up-to-date printed materials relevant to the Americans With Disabilities Act; and in providing large-print books and other materials for the Council on Aging. As one user cammented, having these books is "like visiting old friends".

Additionally, the Commission is working with the Trustees of Reservations to make a portion of the Norris Reservation

wheelchair accessible; has discussed with the Fire Chief the issue of meeting the needs of persons with disabilities in cases of general emergency (storms, power losses, etc.); has encouraged an Eagle Scout project making the East Field accessible; and has worked with the Public library to provide proper wheelchair accessible parking places.

The Commission on Disabilities exists to serve the community, but can only act on the basis of information from the community. We encourage persons with disabilities to make us aware of their concerns. We encourage all citizens to be alert to situations affecting the disabled and to communicate with us. We invite interested citizens to seek membership on our Commission.

Francis Nelson, Chairman
Calista Andrews
Michele Bickford
Margaret Karns
Peter Kates
Wendy Kennedy
Tim FitzGerald, ADA Compliance Officer

COUNCIL ON AGING

The Council on Aging was formed as a town department at the 1964 annual Town Meeting, by unanimous vote. Its main function remains the same today as it did 46 years ago. This is to provide information, advocacy and resource to the older adults of Norwell. It continues to be the community focal point for seniors and programs that can assist, support and supplement the concerns and needs of our older residents, their families and friends.

The primary responsibilities of the Council on Aging focus on five pertinent areas; Information and referrals, advocacy, outreach, transportation and education. In 2009, the Council on Aging met these responsibilities by the development and implementation of programs and services both at the COA center and in cooperation with numerous community agencies and organizations. At the end of the FY' 2009, we provided services and/or programs to over 719 individuals via the aging network and support system.

Based on town census information from June 1, 2009 the current population of aged 60 and over is 2,218 and those aged 50 - 59 is 1,728. As the Baby Boomers continue to age, trends indicate that this segment of our population will increase by 77% in the next 10 years. To ensure the appropriate programs and services are provided to those individuals, Council on Aging continues to refine its goals. One common issue identified, however is the need for a larger facility. At Town meeting in May 2007, funds were appropriated for a feasibility study with the Permanent Building Maintenance Committee, to explore alternatives for the Council on Aging and other town departments to help plan for the future.

A large emphasis is placed on our Outreach Program. Through Outreach, we work with those older adults who may need support with fuel assistance, transportation, housing concerns, telephone reassurance or may be in an "at-risk" situation. The Outreach Coordinator also works with families, caregivers, agencies and local resources to ensure all is being done to assist and support older individuals within their home.

Volunteers continue to be the backbone of our department. In 2009, we were fortunate to receive over 7,723 hours in volunteer services from over 82 different volunteers. Example of this dedication and commitment include, providing medical transportation, program instruction, support assisting in the office and delivering meals to home-bound elders. This dedication from some many has saved the community over $109,500 this year.

Transportation is another responsibility and necessary set to our operation. In 2009, we provided over 37 hours of transportation services weekly, encompassing over 6,248 trips during the year. Special transportation services are also available for medical appointments that cannot be served through the Council on Aging van . This includes a network of volunteer drivers, as well as a transportation grant program that allows us to provide appropriate transportation into Boston and other medical facilities outside of the South Shore area. This is funded via competitive grants through the Older Americans' Act, The Executive Office of Elder Affairs and South Shore Elder Services.

SHITNE (Serving Health Insure Needs of Elders)
The Council on Aging has been fortunate to have an outstanding SHINE volunteer available to help address the health insurance needs of elders. 2009, in particular has posed many insurance obstacles for elders with the offering of Medicare Part D. The Council on Aging in conjunction with the SHINE program, has offered a number of educational seminars, as well as one-on-one counseling.

In addition to the above core series, the Council has developed special programs such as the Senior Work Program. Now in its 10th year, the program allows eligible residents to volunteer the time and efforts within a municipal department for a property tax credit of up to $750. The program not only helps the older resident, but the participating department with their workload. In 2009, 49 residents and over 16 commissions and departments worked together on the program, for a total of 4,594 hours and estimated savings to the community of over $37000. The Council thanks all those involved with this successful program.
During 2009, we continued to foster our long-time relationship with the Norwell Schools. This was the 3r^{d} year of the Pen Pal Program, this year with Mrs. Melody Truesdell's class at Cole School. We also had the pleasure of coordinating the $^{2"d}$ annual Veteran Panel with Norwell High School. Through this program, a group of Norwell residents, veteran's of various wars. related their personal experiences. This was a nice compliment to the social studies curriculum. We also continued to partner with the High School Community Service project. Through this project, students helped several seniors with projects within their home, as well as here at the senior center. We appreciate any opportunity to foster intergenerational relationships.

We would also like to take this opportunity to thank all volunteers who are the mainstay of operations; the "Friends of Norwell Council on Aging" for their program and financial support; the support and dedication of our staff; other town Departments and the residents of Norwell.

Respectfully submitted;
Ann Horrigan, Chairperson
Ann Pierce
Bonnie-Campbell-Dunn
Ann Valair
Marion McLaughlin
Dorothy Lynch
Wesley Osborne, Jr.
Rosemary O'Connor, Director
Diane McCarthy, Outreach Coordinator
Susan Curtin, Program Coordinator

CUSHING CENTER

The Board of Directors of the Cushing Center are pleased to submit our report of activities for 2009 for the review of residents and officials.

The difficult economy has continued to effect the rentals in the function hall for special events but because

A recap of our revenues and expenses is as follows:

REVENUES:	Office and Hall rentals	$ 67,696.97
EXPENCES:	Payroll and Operating costs	$ 51,940.97
		BALANCE $ 15,756.00

NET PROFIT TO NORWELL $ 15,756.00

We expect to complete our window restoration project in the spring of 2009. As soon as the window project is completed, we will turn our focus to painting the exterior trim on the building. We continue to perform small maintenance, painting on the interior as needed, and replaced the carpet in the foyer and entry stairs. The elevator continues to challenge us but, at this writing it is performing well.

We would like to send a special thank you to the North River Gardeners for replanting the Flower Beds at the front entry. Their continued efforts have made a real difference to the front of the building, and Norwell Center as a whole.

We are so lucky to have such a dedicated staff. Mary Lou O'Leary, Patrick McKenna, and Diane Townsend continue to exhibit the kind of dedication and commitment that make the Cushing Center a success, and Norwell such a special place to live.

For the Board of Directors
Jef Fitzgerald

METROPOLITAN AREA PLANNING COUNCIL

The Metropolitan Area Planning Council (MAPC) is a regional planning agency serving the people who live and work in Metro Boston. With a mission to promote smart growth and regional collaboration, MAPC's work is guided by our regional plan, "MetroFuture: Making a Greater Boston Region."

Despite economically challenging times, MAPC has proudly helped the 101 cities and towns in Greater Boston in navigating the recession with an eye toward preserving our region's vast resources for future generations. Whether in the area of public safety, open space preservation, clean water, affordable housing, transportation equity, sustainable development or inter-municipal cooperation, MAPC is uniquely positioned to bring cities and towns together for the betterment of the region as a whole. Our work encompasses many facets of living and working in Massachusetts, but is always guided by smart growth principles, and the philosophy that collaborative approaches can best solve regional issues.

Guiding Future Development and Preservation
With MAPC's progressive new regional plan, "**MetroFuture: Making a Greater Boston Region**," the agency is helping to guide both development and preservation in Metropolitan Boston, now through 2030. The plan was approved in December 2008, and campaigns for its implementation were launched to the public at an energizing event in June 2009. With the plan officially in place, MAPC's work has turned to advancing and measuring its implementation. Since the plan's adoption, MAPC staff has worked hard collecting input from hundreds of MetroFuture friends and supporters, whose ideas have helped craft four initial MetroFuture campaigns: Green Jobs and Energy, Local Smart Growth Planning, Transportation Investment and Zoning Reform. At the June 9, 2009 MetroFuture kickoff event, more than 300 people gathered to discuss and advise MAPC on strategies for advancing the first three campaigns. MAPC also released "From Plan to Action: A MetroFuture Summary," an accessible guide to MetroFuture goals and implementation strategies, which is available online at www.mapc.org and www.metrofuture.org. In 2010, MAPC will continue to advance the MetroFuture campaigns and engage the "Friends of MetroFuture" in this work. We are also establishing a Regional Indicators Program to assess the region's progress in achieving MetroFuture's goals, as well as MAPC's effectiveness at undertaking the implementation strategies. We are pleased that two of our partners in

establishing the MetroFuture plan are continuing their support of implementation. The Boston Foundation has contributed to MetroFuture implementation broadly, while an anonymous foundation has funded establishment of an Equity Report Card. One way MAPC is advancing MetroFuture is through our work with the **Massachusetts Smart Growth Alliance** (MSGA). Through MSGA, MAPC has successfully advocated for policies and initiatives that advance sustainable and equitable development, including increased state investment in transit and other transportation options, the state's "Gateway Cities" revitalization program, and meaningful zoning reform. MSGA is also working with the Massachusetts Water Resources Authority (MWRA) to make sure that expansion of the MWRA is accompanied by smart growth requirements and water conservation.

Through the MSGA, MAPC is also working with MassPIRG – the Massachusetts Public Interest Research Group – as well as Smart Growth America and other groups on the national "Transportation for America" campaign, which urges federal transportation policies that are consistent with smart growth principles. We are also working with leaders from across New England in the "New England Regional Rail Coalition," an association of planning, environmental, municipal and business groups from all six New England states that came together this year to improve the region's competitiveness for rail investments. MAPC also counts itself a member of Smart Growth America's "State and Regional Caucus," which brings smart growth-focused organization leaders from across the country.

MAPC is also a founding member of "Our Transportation Future" (OTF), a coalition of business, labor, planning and environmental groups who are pushing for increased investment in the state's transportation infrastructure. OTF played a key role in the 2009 transportation debate around reform and revenue. Although our effort to achieve an increase in the gas tax failed, the Legislature did commit $275 million in funding to transportation from an increase in the sales tax.

MAPC strives to make every major development project in the region compatible with MetroFuture and the state's Sustainable Development Principles. One way we do this is through our active involvement in the Massachusetts Environmental Protection Act (MEPA) process. As we study and comment on major developments, MAPC communicates our perspective and recommendations to developers, municipalities, and state officials. In 2009, MAPC evaluated and commented on several key projects, including the Urban Ring, the South Coast Rail project, Lowell Junction, Beacon at 495, Route 18 in Weymouth and RiverGreen Technology Park. Of special note is the "Commons at Prospect Hill" project in Waltham. MAPC collaborated with the 128 Central Corridor Coalition – which includes Burlington, Lexington, Lincoln, Waltham and Weston – to submit several joint comment letters to MEPA for this project.

Our MEPA comments consistently seek to minimize and mitigate traffic impacts, to expand transit, bicycle, and pedestrian alternatives, to safeguard critical environmental resources, to limit storm water impacts through "Low Impact Development (LID)," and to encourage a mixture of commercial and residential uses.

Better Planning through Technical Assistance

Cities and towns throughout the region continue to seek out MAPC for technical assistance on a variety of issues. Much of MAPC's "on the ground" technical assistance work for municipalities has been made possible through funding from the District Local Technical Assistance program (DLTA). This program was created by the Legislature and Governor Deval Patrick in 2006 to assist communities with a variety of land use planning activities, especially expedited permitting of commercial and industrial projects. The program is now entering its third funding round, and it has been expanded to assist municipalities to regionalize planning, procurement and service delivery.

Using DLTA funding matched by the town, MAPC worked with Danvers to create mixed-use bylaws for targeted portions of Danversport. The bylaws were crafted after extensive public input, including a "Visual Preference Survey" using Photoshop and Pictometry imaging tools, as well as a survey of Danvers residents on industrial-type uses. In addition, the "Danvers Mixed Use Report" suggested zoning revisions to other targeted industrial areas, and designed and presented a public program on the feasibility of using the state's 40R Smart Growth Zoning program to redevelop parts of downtown Danvers.

MAPC staff also helped several municipalities to apply for federal stimulus money made available through the American Recovery and Reinvestment Act (ARRA). With assistance from MAPC, Revere received $485,000 from the U.S. Department of Energy to help pay for the installation of a new roof with built-in photovoltaic panels and high efficiency air conditioning units at the Beachmont Elementary School.

Throughout 2009, MAPC develop the Malden Master Plan, utilizing Community Viz software, which helps community members visualize themselves inside four different scenarios for future residential development in Malden. MAPC staff used Community Viz in a live demonstration to compare alternative zoning scenarios and their impacts on different Malden neighborhoods. Participants provided instant feedback on each scenario using wireless keypads; following discussion, they voted on their preferred option. MAPC began work on a Housing Production Plan for Bellingham. The plan includes an analysis of housing supply and demand, an analysis of barriers to development, a map series, and will include an extensive implementation plan with strategies to help the town achieve and maintain affordable housing goals. The work will also include formation of a "Municipal Affordable Housing Trust Fund Board of Trustees" to oversee implementation activities.

MAPC staff worked on housing publications this year, including one with The Citizens Housing and Planning Association (CHAPA), titled "The Use of Chapter 40R in Massachusetts As a Tool for Smart Growth and Affordable Housing Production." An advisory committee on the project will explore policy improvements in light of the information revealed by the report. Staff also assisted the Massachusetts Housing Partnership on a Municipal Affordable Housing Trust Fund guidebook, which explains strategies for setting up a trust and gaining approval from the local legislative body.

This year, MAPC began working with municipalities that wanted help collaborating on the joint delivery of services, and these efforts were also funded under DLTA. Two of the projects focused on consolidating public health services among Arlington, Belmont and Lexington, and between Melrose and Wakefield. The Melrose/Wakefield project was implemented mid-year and met with success by year's end. Working with the public health directors of Arlington, Belmont and Lexington, MAPC staff helped to build an organizational framework and governance structure for a single regional health department designed to serve the three towns with improved service quality through a cost-effective approach. Action is expected at the 2010 spring town meetings. Several other DLTA projects addressed public safety concerns. In the first, MAPC assisted in creating a **regional emergency communications center** (RECC). A vendor was selected at the end of the year and the study will begin in January. A second project would regionalize an emergency planning committee (REPC) among seven communities in and around Norwood. MAPC researched model organizations, proposed a structure and set out a plan for implementation.

Another pair of projects focused on consolidation of fire services. Melrose and Wakefield asked MAPC to help them examine the potential of jointly providing fire department services, such as inspections, fire safety services and dispatch. Ashland and Hopkinton asked MAPC to help them evaluate combining their fire departments as a means of mitigating economic pressures. MAPC staff, aided by fire service professionals, collected data, analyzed response times and build-out trends, station locations and equipping and staffing, to deliver a report of findings and recommendations for next steps. Through our work with school departments on the North Shore, MAPC staff also developed a combined teacher training schedule for seven departments and helped create a joint job posting system designed to improve applicant pools, provide efficient candidate screening and lower advertising costs.

Encouraging and Supporting Collaboration among Municipalities

Subregional councils are a primary means of communication between MAPC and member communities, and MAPC continually seeks to expand participation in these councils. Each municipality in the MAPC region is included in one of eight subregions, led by a staff coordinator; the Metrowest Growth Management Committee plays this role in MetroWest, but is governed by an independent board, on which MAPC serves.

Sub-regions provide a venue for citizen input into regional planning as well as a forum for local elected officials, planners, community organizations, legislators and businesses to exchange information. Over the past

year, subregional meetings addressed a wide variety of planning topics, such as the Ocean Management Act, the Green Communities Act, Scenic Byways, water usage, using GIS, economic development and more.

MAPC also facilitates regional dialogue and joint municipal action among chief elected and appointed officials in the region. Among the most prominent of such efforts are the Metro Mayors Coalition and the North Shore Coalition, which bring together mayors and city/town managers to collaborate across municipal boundaries.

The Metro Mayors helped further the mission of MAPC this year by responding quickly to the emerging economic crisis. MAPC has taken an active role in working to help cities and towns avoid layoffs and become more efficient, through efforts like legislative advocacy in support of a comprehensive municipal relief package, of local options taxes, of participation in the Group Insurance Commission (GIC), and by studying the feasibility of regional 911 call centers in the Metro Boston region. MAPC also helped cities share information and develop strategies to cope with the foreclosure crisis.

A regional anti-youth violence initiative is another example of regional collaboration that MAPC helps to foster. Over the past three years, MAPC helped nine Metro Mayors Coalition cities, 10 North Shore Coalition municipalities, and two MetroWest towns to secure more than $2 million annually in funding through the state's Charles Shannon Community Safety Initiative. MAPC is the fiduciary agent and program manager for these funds, helping communities to implement multi-jurisdictional, multi-disciplinary strategies to combat youth violence, gang violence and substance abuse. In August 2009, the Metro Mayors Coalition hosted its Second Annual Shannon Grant Basketball Tournament in Somerville. Participants in the tournament included law enforcement, prevention partners and youth.

MAPC continues to perform fiduciary, planning, and project management services for the Northeast Homeland Security Regional Advisory Council (NERAC), managing $4.65 million in grant funding for 85 cities and towns north and west of Boston. In 2009, MAPC took on the role of fiduciary for all four regional homeland security councils across the Commonwealth, managing $13.4 million in grant funds and performing grant management, procurement and financial services for all four, while managing a team of three other regional planning agency partners who staff and support the Southeast, Central and Western councils. MAPC also participates in statewide homeland security planning efforts along with participants from several state agencies and all homeland security regions.

MAPC has expanded its fiscal management role in the public health arena as the "host agent" for the Region 4A Public Health Coalition, a cooperative of 34 public health departments ranging from Wilmington to Wrentham, between I-95 and I-495. MAPC assists the coalition in utilizing more than $485,000 for emergency and pandemic preparedness efforts. As H1N1 "Swine Flu" pandemic concerns spread across the state, MAPC hosted an additional $1.2 million in grant funding to provide vaccine clinics throughout the 4A region.

Preparing for Natural Disasters

After recent storm events – such as the Northeast ice storm in December 2009, and several heavy rains storms that caused flooding this summer – residents across the region are more aware than ever of the severe effects of natural disasters. To help allay these effects, MAPC completed Natural Hazard Mitigation Plans for 32 cities and towns in 2009, on top of the 41 other plans completed in recent years. Each plan includes a GIS map series depicting areas subject to various natural hazards, an inventory of critical facilities and infrastructure, a vulnerability analysis, and a mitigation strategy with recommended actions to reduce vulnerability.

In 2010, MAPC will be completing the final set of plans for the region, helping 17 more communities. MAPC will also begin work this year on updating and renewing the Hazard Mitigation plans for 19 communities on the North Shore and South Shore, whose original plans were completed in 2005. FEMA requires that the plans be renewed every five years to reflect current data and conditions.

In many communities, Brownfield sites such as abandoned industrial facilities hold much potential for redevelopment and community revitalization if properly cleaned up. MAPC is working collaboratively with Peabody and Salem using a $1 million EPA Brownfields grant to assess several Brownfield sites in the two

cities. The sites are important for Peabody's plans to mitigate flooding in the downtown, and also for the expansion of open space, greenways, and economic development in both cities.

Municipal Savings through Shared Procurement

Some 35 communities are saving up to 20 percent on purchases of office supplies, paving services, and road maintenance by participating in MAPC's Regional Services Consortiums. MAPC performed multiple procurements for municipalities in four consortiums in the South Shore, MetroWest, North Shore, Metro Northwest, and Merrimack Valley regions. Similar savings were realized by the 300 members of the Greater Boston Police Council (GBPC). During 2009, MAPC continued to broaden its array of GBPC-sponsored vehicle contracts to provide choices, convenience, and quality for public safety departments needing police cruisers, SUVs, general use vehicles, a range of trucks from light to very heavy duty, and a selection of hybrid vehicles. Overall, 187 vehicles were purchased, totaling more than $12 million in sales.

In 2009, MAPC began its partnership with the Fire Chiefs Association of Massachusetts (FCAM) to develop a collective procurement service model to address the high cost of fire apparatus and ambulances. MAPC procurement services will continue to be attractive as local governments face mounting budget constraints. Making Data Accessible to All Good planning requires access to good data. MAPC works to collect and analyze regional data and to make this data available to the public, while helping to increase analytic capacity at the local level. Users throughout the region and around the world can access information about MAPC communities through our ever-expanding Web-based mapping site, www.MetroBostonDataCommon.org.

In an effort to develop an even more effective next generation of the DataCommon, MAPC is working closely with our colleagues in the Open Indicators Consortium (OIC), which includes data intermediaries from throughout the nation. OIC is working with researchers at UMass Lowell to develop an "open source" technology to add more powerful analysis tools for researchers and a more intuitive interface for novice users.

Although users can access the DataCommon for most of their needs, MAPC still responds to daily data requests from municipalities, organizations, individuals, the media and state agencies. In 2009, MAPC answered more than 200 on-demand data requests. In July 2009, MAPC held its biennial "Data Day" conference and received an overwhelming response, with more than 350 in-person attendees and at least 100 participating in a webcast. This conference, sponsored by MAPC, Northeastern University and The Boston Foundation's Boston Indicators Project, helps communities and non-profits to expand their capacity to use technology and data to advance their goals.

MAPC continues to incorporate cutting-edge planning and technology tools into our region's planning processes. Using Google SketchUp and Community Viz, MAPC created a 3-D computer model of Weymouth Landing to enable planning workshop participants to take a "virtual tour" of the district – as it looks now and as it might look with different types of new development. The visualization tool helped participants to focus future solutions and supported a lively discussion about the types of development that should be encouraged. A Digital Media and Learning grant from the MacArthur Foundation funded the development of the region's first planning video game. The Participatory Chinatown Project, a partnership with Emerson College and the Asian Community Development Corporation, is exploring how a planning video game that utilizes a 3-D virtual environment can facilitate citizen engagement in a neighborhood master planning process. The 3-D virtual environment augments the debate about new development, bringing in additional information, tracking effects of different decisions, and showing the results of those decisions so participants can experience what the space would look like under varied scenarios. MAPC is an official Census affiliate, working with our municipalities and the Donahue Institute at UMass Boston to prepare for a complete and accurate count during the 2010 Federal Census, and to ensure that subsequent annual Census estimates are also accurate. MAPC provides training and assistance to municipalities and community-based organizations to help ensure that everyone in our region is counted.

Getting Around the Region

Transportation – and equitable access to reliable transit – is a major focus of MAPC's work. The agency serves as vice-chair of the Boston Region Metropolitan Planning Organization (MPO), which establishes

transportation funding priorities for the region. We conduct studies and develop plans to support transportation improvements, and advocate for a well-funded, accessible transportation system that provides choice and mobility. We also encourage the coordination of transportation and land use policies at the state, regional and municipal level.

MAPC is working along Route 9 – with Southborough, Framingham, Natick and Wellesley – to plan for anticipated growth in that area. In Phase 1 of this study, MAPC estimated the potential retail, office and industrial growth allowed under existing zoning adjacent to the roadway. This allowed MAPC to estimate likely increases in daily vehicular trips, as well as morning and evening peaks, for 56 zones in the corridor. In Phase 2, MAPC and the communities are studying alternative land use patterns to determine if these changes, along with mitigation measures such as improved transit, can allow growth without gridlock along Route 9. Future economic development along parts of the already congested Route 128 corridor could lead to traffic increases of more than 50 percent on 128 and on local streets. In 2010, MAPC will complete a corridor plan with Weston, Lincoln, Waltham, Lexington and Burlington calling for establishment of a multi-modal transportation center along the Fitchburg commuter rail line, along with other steps to increase bus, pedestrian, and bicyclist opportunities.

To reduce existing and anticipated congestion and safety problems along Route 495 between Route 290 and the Mass Pike, MAPC and the Central Massachusetts Regional Planning Commission (CMRPC) worked with area communities and local business groups to look at a range of roadway, transit and land use options. The report's findings will be the starting point for a more detailed follow-up study to identify the specific steps to relieve congestion, to improve safety and to manage land use.

This year, MAPC broke new ground by working with Boston, Brookline, Cambridge and Somerville to secure a vendor to establish a regional bike sharing network, modeled after a successful system in Montreal. The system is projected to have several hundred bike-share stations throughout Boston, Cambridge, Somerville, Brookline, and Arlington within the next several years. The goal of the program is to increase mobility options within the Inner Core and to replace short automobile trips with biking. MAPC managed the procurement process and is helping each city establish contracts with the vendor, The Public Bike System Company. Finally, In 2010 MAPC will work with communities along Route 2 to better coordinate regional transit service and prepare for the effects of large transportation changes along the corridor in the coming years.

Charting a Course to Regional Prosperity

MAPC's economic development work is based on a Comprehensive Economic Development Strategy, updated annually. This report presents current economic trends in a format useful to public officials and community-based organizations. It is also an important fundraising tool. In 2009, MAPC leveraged $3.5 million in funding from the U.S. Economic Development Administration to help fund new research and development space for the Fraunhofer Center for Sustainable Energy Systems in Cambridge. The Center is dedicated to serving the research needs of the sustainable energy industry, helping established industry as well as first time entrepreneurs move clean energy technologies from the laboratory to the production line. MAPC also collaborated with North Shore InnoVentures, a life science business incubator, to locate the new Cleantech InnoVenture Center (CIVC) in the heart of Lynn. CIVC specializes in catering to the needs of clean energy and clean technology businesses that have already proven the value of their new product and are preparing to manufacture. MAPC is supporting the innovation economy in Massachusetts by working collaboratively with business-driven organizations in every part of the region. Job creation remains the goal. What has changed are the tools we use to create jobs: information technology, transfer of knowledge, communication systems, and decision support tools that, together, harness the creative energy of people from different industry sectors, professional backgrounds, and cultures. MAPC is a regional information hub that catalogs commonly-held barriers to component parts of the innovation economy and facilitates a unified response on how to best mitigate these barriers.

From Beacon Hill to Capitol Hill

Making change on Beacon Hill requires dedication to advocacy and coalition-building. Under the guidance of our Legislative Committee, MAPC works with the Patrick Administration, legislators, and stakeholders of all

stripes to advance legislation and policies across a diverse set of issues. These issues include budgetary appropriations for programs as wide-ranging as the Charles Shannon Community Safety Initiative, the District Local Technical Assistance Program, and the Census Estimates Program. MAPC advocated successfully for passage of numerous bills, from legislation enabling cities and towns to locally opt for meals and hotel taxes, to the recently passed reforms of our transportation system. We continue efforts to make it easier for cities and towns to regionalize municipal services, to improve and better fund the successful Community Preservation Act, to create a system to convey and reuse surplus state land in ways that are consistent with smart growth, and to reform health insurance for municipal employees.

MAPC is also increasingly active in Washington, working with the Obama Administration and our Congressional delegation to revamp the way transportation is funded in America, with an increased emphasis on lowering greenhouse gas emissions through a greater emphasis on transit. We are collaborating closely with the National Association of Regional Commissions and other allies to establish the so-called "sustainable and livable communities" program, which will fund the development and implementation of regional plans like MetroFuture.

PLYMOUTH COUNTY COOPERATIVE EXTENSION

The role of Plymouth County Cooperative Extension is to deliver research-based information to Plymouth County residents through non-formal methods. The Plymouth County Extension staff work on behalf of Plymouth County residents, in concert with UMass Amherst faculty and Extension staff, and the United States Department of Agriculture, to provide valuable information in the program areas of 'Agriculture and Landscape' and '4-H Youth and Family Development'. The Extension System is supported by County, Federal and State funds, and operates under Federal and State laws and agreements. Local citizens, appointed by the Plymouth County Commissioners, serve as Plymouth County Cooperative Extension Trustees, directing the overall program. Volunteer advisory groups work with Extension staff on developing programs.

Cooperative Extension resources and programs for Plymouth County residents include: annual sustainable gardening lectures, annual fruit pruning demonstration; ornamental tree pruning lecture, research, information and educational programs on pests like the winter moth caterpillar; pesticide applicator training & licensing exams; the annual UMass Extension Garden Calendar; landscape and horticultural training and resources for municipal employees and green industry professionals; 4-H Science and Technology workshops in the areas of embryology and plant science; accredited overnight 4-H summer camps; 4-H animal science summer day-workshops; 4-H Life Skills Training, 4-H Community Service Projects, 4-H Public Speaking Training, 4-H Babysitting Program and 4-H partnerships with local farms and agricultural enterprises. New research findings are translated into practical applications and shared with residents and communities through workshops, conferences, office visits, phone calls, field demonstrations, radio, television, local libraries, technical assistance, and newspaper articles. Publications such as newsletters, booklets, and fact sheets bring information directly to those who need it. Additional information is delivered through UMass-Amherst Extension web access www.umassextension.org .

Members of the Plymouth County Extension Staff:

Deborah C. Swanson, Landscape, Nursery, and Urban Forestry Program/Manager
Samuel Fox, 4-H Youth and Family Development Program
Molly Vollmer, 4-H Youth and Family Development Program
Debra L. Corrow, Executive Assistant

Board of Trustees:

Wayne Smith, Chairman - Abington
Elizabeth A. Francis - Plymouth

John J. Burnett, Jr. – Whitman
John Dorgan - Brockton
Jere Downing - Marion
Chris Iannitelli– W. Bridgewater
Joseph A. Freitas – Plympton
Janice Strojny - Middleboro

Anthony O'Brien, Plymouth County Commissioner, Chairman, - Whitman

The Plymouth County Extension office is located at 266 High St., P.O. Box 658, Hanson MA 02341 (781-293-3541; fax: 781-293-3916) plyctyext@mindspring.com.

PLYMOUTH COUNTY MOSQUITO CONTROL PROJECT

The Commissioners of the Plymouth County Mosquito Control Project are pleased to submit the following report of our activities during 2009.

The Project is a special district created by the State Legislature in 1957, and is now composed of all Plymouth County towns, the City of Brockton, and the Town of Cohasset in Norfolk County. The Project is a regional response to a regional problem, and provides a way of organizing specialized equipment, specially trained employees, and mosquito control professionals into a single agency with a broad geographical area of responsibility.

The 2009 season began with a high water table and above average rain fall into the fall season. Efforts were directed at larval mosquitoes starting with the spring brood. Ground and aerial larviciding was accomplished using B.t.i., an environmentally selective bacterial agent. Upon emergence of the spring brood of mosquitoes, ultra-low volume adulticiding began on May 26, 2009 and ended on September 25, 2009. The Project responded to a record 20,713 spray requests for service from residents.

In response to the continued threat of mosquito borne diseases in the district, we increased our surveillance trapping, aerial and ground larviciding, and adult spray in areas of concern to protect public health.

Eastern Equine Encephalitis (EEE) was first isolated in the district from *Culiseta melanura*, a bird biting species, by the Massachusetts Department of Public Health in Lakeville on August 24, 2009. Twelve EEE mosquito isolates were trapped in Plymouth County as follows: Rochester-9/3, 9/9 *Culiseta melanura*, 9/15 *Ochlerotatus canadensis* a human biter, 9/23 (4) *Culiseta melanura*, Mattapoisett-8/27, 9/9 (2) *Culiseta melanura* 8/27 *Ochlerotatus canadensis*, Plympton-9/9 *Culiseta melanura,*

Based on guidelines defined by the "Vector Control Plan to Prevent EEE" in Massachusetts, two Plymouth County towns Lakeville and Middleboro were elevated from "Low Level" to "Moderate Level' for EEE Risk" and Mattapoisett, Marion and Rochester were elevated to "High Level" EEE risk category. All other towns in Plymouth County Mosquito Control Project remained in the "Low Level Risk" category. We are pleased to report that in 2009 there were no human or horse EEE cases in Plymouth County.

West Nile Virus (WNV) was also found within the district. A total of two isolations of WNV mosquitoes were found. *Culex pipiens* bird biters were trapped in Lakeville on 8/30 and in Wareham on 9/3. We are also pleased to report that in 2009 that there were no human or horse West Nile Virus cases in Plymouth County. As part of our West Nile Virus control strategy a total of 63,940 catch basins were treated with larvicide in all of our towns to prevent WNV. The Massachusetts Department of Public Health discontinued bird testing for West Nile Virus.

The public health problem of EEE and WNV continues to ensure cooperation between the Plymouth County Mosquito Control Project, local Boards of Health and the Massachusetts Department of Public Health. In an effort to keep the public informed, EEE and WNV activity updates are regularly posted on Massachusetts Department of Public Health website at www.state.ma.us/dph/wnv/wnv1.htm.

The figures specific to the Town of Norwell are given below. While mosquitoes do not respect town lines the information given below does provide a tally of the activities which have had the greatest impact on the health and comfort of Norwell residents.

Insecticide Application. 4,791 acres were treated using truck mounted sprayers for control of adult mosquitoes. More than one application was made to the same site if mosquitoes reinvaded the area. The first treatments were made in May and the last in September.

During the summer 1,782 catch basins were treated to prevent the emergence of *Culex pipiens,* a known mosquito vector in West Nile Virus transmission.

Our greatest effort has been targeted at mosquitoes in the larval stage, which can be found in woodland pools, swamps, marshes and other standing water areas. Inspectors

continually gather data on these sites and treat with highly specific larvicides when immature mosquitoes are present

Water Management. During 2009 crews removed blockages, brush and other obstructions from 800 linear feet of ditches and streams to prevent overflows or stagnation that can result in mosquito breeding. This work, together with machine reclamation, is most often carried out in the fall and winter.

Machine Reclamation. 1,675 linear feet of upland ditch was reconstructed in Norwell using the Project's track driven excavator.

Aerial Application. Larviciding woodland swamps by helicopter before the leaves come out on the trees continues to be very effective. In Norwell this year we aerially larvicided 556 acres.

Finally, we have been tracking response time, which is the time between notice of a mosquito problem and response by one of our inspectors. The complaint response time in the Town of Norwell was less than two days with more than 773 complaints answered.

Mosquito Survey. A systematic sampling for the mosquitoes in Norwell indicates that *Cs. melanura* was the most abundant species. Other important species collected include *Ae. vexans* and *Cx. species.*

We encourage citizens or municipal officials to visit our website at www.plymouthmosquito.com or call our office for information about mosquitoes, mosquito-borne diseases, control practices, or any other matters of concern.

Anthony Texeira, Superintendent

Commissioners:
Carolyn Brennan, Chairman
Leighton F. Peck, Vice-Chairman/Secretary
Kimberly King
Michael F.Valenti
John Kenney

NORWELL RECREATION COMMISSION

Norwell Recreation offers leisure programs and services to Norwell residents and friends. You can find our program offerings at our website: www.townofnorwell.net and you receive our brochures every season in your mailbox. The challenging economic climate in 2009 effected the recreation department. The summer of '09 had a 11% increase in participation but the programs during the rest of the year were down about 17%. The value of public recreation in the summer made it an obvious alternative and a community benefit.

Our "stats":

- 200+ programs
- 9,000+ participants
- Budget FY09: $153,090 covers 1.6 year-round staff; 19 summer playground staff; and department operating expenses
- Revolving Fund FY09: $219,668 covers all costs of over 190 programs!
- $18,196 unreserved funds returned to the general fund
- Other Staff: 100+ part-time, program specific instructors & assistants

Thank you to the over 100 high-school age young people who volunteered to help during the summer on playgrounds and during the winter with our rec hoops league as coaches and give their energy and time to help make a positive difference to our community. And thank you to the 40+ adult volunteers who help provide program opportunities as instructors, aides, trip chaperones & special event workers.
Thank you to the volunteer commission members listed below (and their families) who help plan our direction, set goals, plan and run special events and serve on the following town committees as the recreation commission's representative: Athletic Fields, Community Preservation, and Pathways.

Thank you to our staff (paid & volunteers) who are our best asset and do all the hard work.
Thanks to the School Department for continuing the free access of their facilities to town rec programs.
A huge thanks to the Tree and Grounds Department for their town field maintenance and improvements on a shoestring budget.

We have programs for all ages and all interest levels. Take a look at one and join us in a future program!

This is your recreation department!

RECYCLING COMMITTEE

Solar Powered Trash Compactors

The Norwell Recycling Committee purchased and installed two BigBelly Solar powered cordless compaction systems. The units are located at Woodworth Memorial Park (Little League Field) and the Norwell High School football/track complex. "We chose to bring BigBelly to these two locations based upon their need for trash disposal related to concessions, as well as the opportunity to expose the children of Norwell to this cutting edge technology. The adjoining recycling bins, further our efforts to improve recycling in our town, thereby reducing disposal costs."

The Norwell Recycling Committee purchased the two BigBelly units with monies generated through the Massachusetts Technology Collaborative, which stipulates that the purchase must be technology-related. Our hope is that this technology can serve as a platform for discussion and learning. Norwell High School chemistry teacher, Arianne Lozan, and members of the high school environmental club spend much of their time determining ways to establish and improve recycling at the high school—and weekly, they meet to empty the many bins of recycling. The group will help oversee the BigBelly system. The club members are excited about the new addition at the high school campus. The location by the sports bleachers has a lot of visibility and is a great example to everyone that students are recycling and reducing their waste.

Headquartered in Arlington, VT, with a local office in Needham, MA, BigBelly Solar manufactures all units in the Unites States. The BigBelly Solar Compactor with integrated recycling units is the world's only system that provides on-site compaction of solid waste and separation of recyclable materials.
Metal recycling containers were added to each sport's complex in town to help provide proper disposal of plastic, glass, and cans at these facilities as well.

Residential Recycling

In 2009, Norwell residents recycled:

618.50 tons of paper, cardboard, and mixed paper
318.56 tons of co-mingled (plastics 1-7, glass, and aluminum)
70.51 tons of scrap metal and 455 units of white goods
3.25 tons of used clothing
223 tons of leaves/yard waste which allowed for 80 cubic yards of compost to residents
225 tons of brush was chipped

The Town of Norwell officially announced its support of the Massachusetts Beverage Container Deposit Law (aka the Bottle Bill) and encouraged strengthening the bill by expanding the list of acceptable containers as recommended by Governor Deval Patrick. The Town of Norwell encouraged its state representatives and the governor to support and vote in favor of updating the bill. The addition of bottled water, sports drinks, and teas to the bottle bill will decrease the total volume of municipal solid waste that is collected, thus saving disposal fees and landfill space. With this addition to the bottle bill, it will boost the recycling rate, divert millions of bottles and cans from landfills to recycling centers, and decrease little in Massachusetts. It will also add at least $15 million in badly needed state revenue.

Respectfully submitted by the Recycling Committee: Joanne M. Dirk, Chair; Anne Fridgen-Traft, Carole McCarthy, Vicki Spillane, Norm Thoms, William Kelley, Holly Wenger, and Marge Dorney

SENIOR CITIZEN TAX RELIEF COMMITTEE

We had several resignations as we could not achieve success in our article just helping our senior citizens last year.

We have submitted a revised article for the 2010 Town meeting. This article will apply to all taxpayers and not just senior citizens. We hope that the Town will vote to decrease the CPA assessment from 3% to 1/2%. This will balance the 2-1/2% increase in taxes due to proposition 2-1/2 increase, resulting in a net decrease in the amount due next year by 2-1/2%.

The CPA now has approximately $7 million in unspent funds and the State reimbursement is no longer 3% as originally prescribed. Our senioes and all of our taxpayers will benefit from this and it will have no effect on the school budget.

Robert Bordewieck
Acting Chairman

SOUTH SHORE RECYCLING COOPERATIVE

The South Shore Recycling Cooperative (SSRC) is a voluntary association of thirteen South Shore towns. It was established by Intermunicipal Agreement and Special Legislation in 1998 to help member towns improve their recycling programs, and reduce the amount, toxicity and cost of disposal.

Members of the SSRC are: **Abington, Cohasset, Duxbury, Hanover, Hanson, Hingham, Kingston, Norwell, Plymouth, Rockland, Scituate, Weymouth, and Whitman**. From January through June, **Holbrook, Hull** and **Marshfield** were also members. Budget issues caused their withdrawal in FY10. Representatives from each member town are appointed by Chief Elected Official(s)

Since its inception eleven years ago, disposed tons of trash-per-household has dropped by 27%, and the recycling rate for paper, cardboard, bottles and cans has risen by 38%.

In 2009, the SSRC raised **$58,500** through municipal member dues, and **$10,000** in outreach sponsorships from Covanta SEMASS. It also netted **$995** from its second **Earth Day Celebration** at the Hanover Mall. Those funds pay for the services of the Executive Director and for waste reduction and recycling activities that benefit our member towns. The SSRC estimates that in 2009 these activities **saved /earned Member Towns over $160,000**.

MATERIALS MANAGEMENT

Household Hazardous Waste Collections

The SSRC contract for the collection and disposal of household hazardous waste with **Clean Harbors** is in its last extension. Member Towns avoided a setup fee and paid less than State contract rates, **saving our towns about $30,000**. They also saved staff time to bid, schedule and publicize collections. The Executive Director assists at most events, and administers the billing.

2,081 residents attended **thirteen collections** held in 2009. The contract also enabled **103 residents and businesses** to attend other Member Towns' collections using the **reciprocal arrangement**.

Construction and Bulky Waste

Through an arrangement facilitated by the SSRC with the **Bourne ISWMF**, Member Towns enjoyed a reduced tip fee of $75-79/ton for **construction and bulky waste, $12.50/ton less than the gate fee.**

Cohasset, Hanover, Kingston and Scituate save on mattress recycling by using an SSRC arranged program with Miller Recycling in Plainville to store, transport and process mattresses for $14/each.

Collectively, these arrangements resulted in about **$30,000** in savings.

Compost and Brush

The SSRC extended the contract for **compost screening** with Lion's Head Organics with no pricing increase. A new brush grinding contract was awarded to Apple D'or Tree, with reduced pricing.

Paper

The SSRC facilitated the siting of dozens of Abitibi Paper Retriever bins in all our towns. In 2009, they captured **907 tons** of paper, and returned over **$6,000** to municipalities and local organizations.

Textiles

The SSRC introduced Bay State Textiles, which pays $50/ton for used clothing and textiles, to the managers. In 2008, eight towns recycled **280 tons** of material through them, and were paid **$14,017**.

Books

The SSRC introduced GotBooks, which pays $100/ton for used books and other media, to SSRC members. In 2009, thirteen SSRC towns repurposed 260 tons of material, earning **$87,717**.

PUBLIC OUTREACH:

Mass Recycles Paper

This statewide Campaign grew out of a 2006 SSRC pilot project. It is run by MassRecycle, and chaired by the SSRC Executive Director. The goal is to recover an additional million tons of paper each year from the Mass. trash. The Campaign has broad support from MassDEP, Covanta Energy and the recycling industry.

Mass Recycles Paper ads were placed on 300 Red Line trains for the summer. SSRC communities stand to gain about $400K/year in avoided disposal cost and revenue from the sale of waste paper.

Press Contacts

The SSRC releases articles and is a resource to the local press on waste reduction, recycling, and the proper disposal of hazardous waste.

11/09 **"Less trash adds up to more cash"**, by Matt Carroll, Globe South Weekly (Executive Director interviewed and quoted)

9/09 **South Shore support swells for Updated Bottle Bill**

7/09 **SSRC towns fare well in Waste Ban Inspection Sweep** ***more***

7/09 SSRC towns fare well in Waste Ban Inspection Sweep

3/09 Celebrate Earth Day at the Hanover Mall

Resident Contacts

The Executive Director fielded **over 100 calls and emails** from Member Towns' residents in CY09 to answer questions, mostly about hazardous and difficult to manage product disposal.

Website

ssrcoop.info provides town-specific recycling information, household hazardous product collection information, SSRC meeting minutes and annual reports, press releases, a quarterly newsletter, and links to other sites. It was overhauled this past fall, and logged 3,394 visitors in 2009.

Marshfield Fair Recycling

With assistance from MassDEP, the SSRC supported **recycling** at **the Marshfield Fair** for the sixth year. While public education was the priority, seven tons of material was also recycled and composted.

The SSRC loans **recycling containers** from a previous grant for use at local events. In 2009, Hanover Youth Athletic Ass'n softball, and the Island Creek Oyster Fest in Duxbury used them.

ADVICE, ASSISTANCE AND NETWORKING.

The Executive Director's help is frequently sought by the solid waste managers. She maintains regular contact with them, updates them on current trends, and advises on specific needs each town has.

A sample of the assistance she provided and problems she helped solve in 2009 included:

- collaborated with the Cape Cod Commission's Solid Waste Advisory Committee's alternatives analysis of **Covanta SEMASS'** extension proposal for our four **Tier One** towns
- attended committee meetings in **Cohasset, Hanson, Kingston, Marshfield, Plymouth** and **Weymouth**
- facilitated discussion between Cohasset and Hull about a shared recycling facility
- presented waste management options and analysis to Kingston BOS
- **flagged $80,000 in expiring MTC grants** in time for several members to access
- collected, evaluated and shared **recycling and disposal cost, tonnage and hauler permit data**
- compiled and distributed of a ten page **directory of service providers**.

Paper pricing

The SSRC subscribes to ***Official Board Markets*** on which most towns' paper rebates are based, calculates rebates that should be paid by their recyclers, and updates the managers each month.

Quarterly Newsletter

The SSRC publishes a quarterly newsletter filled with information of immediate interest to the South Shore solid waste community. The newsletter is posted online at ssrcoop.info, click on Newsletters.

Monthly Meetings

The SSRC provides **networking opportunities** and information sharing at our well-attended monthly meetings. Each meeting features a guest speaker. Solid waste collection, disposal, recycling service, outreach, pricing and proposed laws and regulations are discussed.

ADVOCACY

The Executive Director attends policy meetings and conferences hosted by MassDEP, Solid Waste Association of North America, Council of SEMASS Communities, MassRecycle, and the Northeast Resource Recovery Association. She acts as a liaison between the Board and the State organizations..

The SSRC held a **Recognition Breakfast** in May at which **Governor Deval Patrick and DEP's Ann McGovern** received our "Recycling Hero" award.

The SSRC distributed a resolution to **Update the Bottle Bill**, which most of our members' Chief Elected Officials signed and sent to their legislators. The Executive Director met with several legislators about this, and testified at the first hearing.

The SSRC exists to assist its member towns in improving their solid waste disposal and recycling functions. It always welcomes suggestions on how it can better serve its Members.

Respectfully submitted,
Claire Sullivan, Executive Director, South Shore Recycling Cooperative

SOUTH SHORE COMMUNITY ACTION COUNCIL

South Shore Community Action Council, Inc. (SSCAC) is an agency that administers many federal, state and private grants that are available for low income and elderly persons.

During the fiscal year of SSCAC, a total of 51 unduplicated Norwell households were served from October 1, 2008 – September 30, 2009 through the many programs

PROGRAMS AVAILABLE	TOTAL HOUSEHOLDS

ENERGY SERVICES:

FUEL ASSISTANCE (FEDERAL)	50
HEARTWAP (BURNER REPAIR/REPLACEMENT)	9
PRIVATE UTILITY FUNDS FOR WEATHERIZATION AND BURNER REPAIR	2
AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA) FUNDS FOR WEATHERIZATION	1

RENT/MORTGAGE/UTILITY ARREARAGE PROGRAMS & HOMELESS PREVENTION:

FEDERAL EMERGENCY MANAGEMENT ASSISTANCE (FEMA)	2

OTHER PROGRAMS:

CONSUMER AID	10
EARLY EDUCATION PROGRAMS	1
TRANSPORTATION – INTER-TOWN MEDICAL AND OTHER TRIPS IN LIFT EQUIPPED VANS	13

FOOD – LOCALLY GROWN FRUITS, VEGETABLES AND OTHER FOOD DISTRIBUTED TO CHURCHES EQUALED 1,373 LBS APPROXIMATELY 1,032 MEALS

BEAUTIFICATION COMMITTEE

The Norwell Beautification Committee continues to generate, sponsor, perform and support various programs and projects designed to further the beauty and the quality of life of our town. Please contact us with your ideas!

We reactivated the tree nursery and planted 60 Rose of Sharon, Japanese Snowbell and Kousa Dogwood donated trees. After these beautiful flowering trees have developed, they will be made available to town residents for planting along side our roadways.

Both the Triangle Program and the Adopt-a-Street Program continue to be very effective and appreciated. New triangles are planned for this coming summer. There is, however, a continuing need for additional volunteers to help with both programs. Please consider volunteering!

2009, was the 21st consecutive year of the Norwell Beautification Award Program. Since its inception in 1989, the Beautification Committee has presented 113 awards. Once again the Selectmen kindly allowed time on their agenda for the presentation ceremony. In addition to framed certificates from the town, each award recipient was presented a beautifully prepared proclamation from the State Senate. The 2009 Myrtle H. McKay Beautification Award was presented to The Trustees of Reservations for their outstanding care of the Norris Reservation. Mrs. Eleanor Norris attended the presentation ceremony, as did Richard McMullen and Ralph and Elizabeth Gordon, both of whom have also donated land to the Norris Reservation. The Four's Restaurant was awarded the 2009 Business Beautification Award for excellence in landscaping at their new restaurant 285 Washington Street. The Triangle Beautification Award was awarded to the Norwell Garden Club for excellence in re-planting and maintaining the Myrtle McKay Garden at Norwell Center and the 2009 Home Beautification Award was presented to Patrick S. and Kelli A. Reed for excellence in planting and maintaining a charming cottage garden at their home, 24 Central Street. The Beautification Committee also presented a surprise certificate to Richard P. Barry honoring him for outstanding service to the committee and to the Town of Norwell as "a leader in the effort to make Norwell the beautiful town in which we live". The award ceremony was followed by an informal reception with refreshments by the committee for the attendees, the awardees and their guests.

As in prior years, holiday poinsettias were delivered to the all the town offices, the Council on Aging, Fire Department Headquarters, the Police Station and the Town Library. Festive seasonal lights were placed on the viburnum shrubs at the Town Offices triangle. Also, as in prior years, the town library grounds and the Japanese garden at the rear of the library were cleaned and groomed both spring and fall. To support our programs, the committee conducted a fund raising drive in the fall.

The dedication and hard work of the many volunteers is recognized and appreciated as is the help and support of the Norwell Town Departments and Offices. Anyone interested in becoming a member of the Beautification Committee or in volunteering for the Triangle or Adopt-a-Street Programs should call 781-659-7463 or contact any committee member for further information!

CONSERVATION COMMISSION

We apologize that the 2009 Conservation report was truncated due to a publishing error. Please contact the Conservation Office for a full copy.

The mission of the Norwell Conservation Commission is to protect the Town's natural resources and to administer the State and Town Wetland Protection Acts.
Established in 1957, the Norwell Conservation Commission is one of 351 Conservation Commissions, serving the Commonwealth of Massachusetts.

The seven member board is comprised of volunteers who work with the Conservation Agent and Administrative staff to assist the citizens of Norwell to ensure their projects comply with the Wetlands Protection Act, Rivers Protection Act, Stormwater Management Policy, and the Town of Norwell Wetlands Protection Bylaw Article XVI-a, while protecting natural resources and open space.

The Conservation Commission held 57 public hearings in 2009 and permitted a number of residential projects such as new single-family homes, additions, decks, invasive plant removal, septic repairs, water main work, and pools. These applications resulted in over $11,000 in fees, the majority of which went into the general fund. The Commission also entertained many scheduled discussions with residents, students, landowners, and project proponents on a variety of subjects including land donations, conservation restrictions, vernal pool education, enforcement issues, and legal proceedings.

CONSERVATION MEMBERS AND STAFF

W. Clifford Prentiss, a member of the Conservation Commission for over thirty years, retired from the Commission in July of 2009. We would like to recognize the considerable time and effort that Cliff expended while on the Commission. A few of Cliff's many achievements include the permanent protection of Donovan Farm, Jacob's Farm, and Loring Farm. The Commission will sorely miss Cliff's expertise and institutional memory.

The Commission welcomed a new member, David Magee, in December of 2009. With his background in law and engineering, David brings valuable experience to the Commission. The Commission looks forward to David's contribution in the upcoming years.

The Conservation Commission would like to recognize the continued hard work of Meredith Schmid, Linda Hager, Wesley Osborne, and Abby Hardy.

CONSERVATION LAND STEWARDSHIP

The Council on Aging's Senior Volunteer Program continues to provide invaluable assistance to the Commission in its stewardship of over 1500 acres of conservation land. Projects completed by the volunteers in 2009 include: maintaining, clearing, and pruning all of the trails on conservation land; fixing the dock at Jacob's Pond; staining the Cliff Prentiss Bridge; creating a bypass trail at Jacob's Pond, to keep the trail usable all year, and installing erosion controls at the Cliff Prentiss Bridge. The Commission thanks Charles Dirk, Stephen Young, Stephen Gilmartin, Ralph Knowles and Alfred Svelnis for their participation in this program.

COMMUNITY PRESERVATION COMMITTEE

The Commission continues to work with the Community Preservation Committee on a number of projects to protect the rural character of the Town. The Chittenden Lane. Landing Project was completed in 2009, which offers expanded public access to the North River. The new landing offers additional parking, benches that overlook the river, and an improved dock for canoeing, kayaking, and other recreational opportunities. The permitting was completed for drainage improvements at Cliff Prentiss Bridge in 2009, which is slated to be complete by the Spring of 2010. The Commission looks forward to continuing to work with the CPC to continue to identify and acquire land within the Town for open space and protection with a goal of connecting many of the open green spaces across the Town with a network of trails.

CEMETERY PROJECT

The town has been searching for a site to build a cemetery for many years. The current cemetery is proposed at Stetson Meadows, an area that is mapped for Eastern Box Turtle, a species of Special Concern in Massachusetts. The Commission has worked diligently with the Cemetery Committee and the Natural Heritage and Endangered Species Program to develop a mitigation plan.

PATHWAYS COMMITTEE

The Conservation Commission worked closely with the Pathways Committee in 2009 with member David Osborne serving on the Pathways Committee for the entire year. There are new trails planned for 2010 including a trail connecting Birchwood Lane to Bowker Street. The Commission is committed to increasing the walkability of the Town for all of its residents. The Commission anticipates working with the Pathways Committee in 2010 to permit the first segment of the town bike path, which will run from the High School to the middle School.

OPEN SPACE AND RECREATION PLAN

The Commission has received funding to purchase a Geographic Information System to create trail maps for the Town, and to assist in identifying critical open space for protection. With the help of volunteers on the Open Space and Recreation subcommittees, the Commission is looking forward to updating the plan for two years. Additional volunteers are needed and we invite anyone interested to contact the Conservation Agent.

FUTURE CHALLENGES

Like many other entities in the Commonwealth, the Norwell Conservation Commission has been impacted by the recent economic crisis. In March of 2009, the Commission raised its fees in order to insure that the Commission can continue to fulfill its mandate effectively.

The Commission continues to be burdened by the regulatory process associated with the large influx of 40B applications. As one of the Town's only permitting authorities involved with the 40B hearing process, the Commission invests a significant amount of time and effort to both serve the residents and protect the resources of the Town. In 2009, the Commission was involved with hearing multiple applications from three different 40B projects and is currently involved in 40B litigation.

PUBLIC MEETINGS

The Conservation Commission meets on the first and third Tuesday of the month at 7:00 p.m. Meetings are open to the public, and all are welcome.

The Commission would like to thank all the other Town Boards, Commissions, Departments, Committees, and residents of Norwell who have offered their cooperation, guidance, and support throughout the past year.

Respectfully submitted,
Norwell Conservation Commission
David Osborne, Chairman

Burt Bryan, Vice-Chair
Christopher Mickle
David Magee
Deborah Hill
Gregg McBride
Kathryn Mudgett

Abby Hardy, Conservation Agent
Meredith Schmid, Administrative Assistant

NORWELL HISTORICAL COMMISSION

The purpose of the Norwell Historical Commission, in accordance with Massachusetts General Law, Chapter 40, Section 8d and the Norwell Bylaws, is to accept responsibility as an acting official agent of the municipal government for preserving and protecting irreplaceable historic antiquities and archaeological resources throughout Norwell.

According to the Bylaws of the Norwell Historical Commission, our responsibilities include the following:

- conducting research on places of historical and architectural value in the town;
- cooperating with the State Archaeologist in conducting surveys and reporting on sites in the town;
- coordinating activities with other preservation organizations in the town;
- keeping accurate records of its actions, and filing an annual report; and maintaining a membership of not less than three nor more than seven members, duly appointed by the Board of Selectmen.

Members and Officers: Two long-time Commission members resigned this year and two new members were inducted. Former Commission Secretary Joan Vermette resigned in March, 2009, and former Chair Joe Carty resigned in June, 2009. A new slate of officers was appointed with Kim Zayotti serving as Chair, David DeGhetto as Vice Chair and Treasurer, and Pamela Bower-Basso replacing Joan Vermette as Secretery. The two new Commission members are Linda Jwanouskos of Bowker Street and Donald Therrien of High Street.

Projects:

Stetson-Ford House Study Committee: The Commission founded a study committee whose purpose was to research uses for the Stetson/Ford House for the purpose of developing a management, operating and maintenance plan for the house. On August 27, 2009, the Norwell Historical Commission and the SFH Study Committee presented their report to the Community Preservation Committee. The CPC voted in favor of the recommendations in the report and they thereby approved the expenditures needed to get the house ready to either rent or sell and to prevent further deterioration. The CPC prioritized the items listed, some of which needed to be done immediately in order to prepare the house for the winter. Interior and exterior maintenance and repair work has continued under the guidance of the Permanent Building and Maintenance Committee.

Scenic Road Signs: The Historical Commission has continued to work with the Community Preservation Commission on this project. An initial request for funding has been made to the CPC and a formal application will follow in early 2010.

Simon Hill Preservation Project: The Commission worked with professional archaeologists and Native American experts to determine the scope and historical significance of the Simon Hill site. An archaeological survey and report were prepared and a Massachusetts Historical Commission Area Form A

was completed and submitted to the State. Findings from the survey included Native American presence on the site. The NHC worked diligently with neighbors and environmental experts to ensure that the site is preserved.

Local Historic Districts: The Historical Commission is still hoping to create a study committee to research Local Historic Districts. The success of the antique home survey has shown that districts could be great assets to the citizens and to the town. According to Massachusetts General Law, the Board of Selectmen must create this Committee, and the Historical Commission has approached the Board to request its formation. More information is currently being gathered by NHC members, and we will approach the Board of Selectmen with this request again in the near future.

Town Meeting: Two articles were placed on the warrant by the Community Preservation Commission for the Historical Commission, and both articles were approved.

Article 33 was a housekeeping issue which will need to be reintroduced annually re-authorizing the Stetson Ford House Revolving Fund.

Article 35 requested CPC funding for a matching grant from the state for the roofs at the Jacobs Farmhouse.

Date Boards: The Historical Commission changed vendors for the wooden signboards on historic homes, and we have been working with the Norwell Historical Society jointly on this project. The new signs are wooden, hand painted, and less expensive. With each dateboard purchase comes a one-year membership to the Norwell Historical Society. Eleven new dateboards were purchased in 2009:

77 Winter Street	James-Jacobs House	c. 1740
687 Main Street	William H. Merritt...	c.1848
217 Old Oaken Bucket Rd	Thomas Jenkins, Jr.	c.1766
244 Lincoln Street	Henry F. Ford	c.1890
384 Main Street	White Oak Farm Barn	c.1820
80 Central Street	James H. Pinkham	c. 1873
64 Old Oaken Bucket Rd.	William H. Merritt	c. 1845
135 Main Street	James Sylvester Clapp	c. 1826
777 Main Street	Anson Robbins, Esq.	c. 1803
232 Old Oaken Bucket Rd.	William Studley 3rd	c. 1832
83 Barstow Avenue	Thomas Barstow Jr.	c.1780

Jacob Farmhouse (Main Street): The rental side of the house was fully renovated and repaired in 2008. This project was long overdue. All repairs suggested by Historic New England have been completed, and this property remains a community treasure. New tenants moved in to the rental side in December, 2009.

Stetson/Ford House (Meadow Farms Way): The house has undergone major repairs and should be ready for tenants in March 2010. (see above Stetson-Ford Study Committee Project).

Demolition Delay By-Law: The Historical Commission inspected three properties this year as required by the Demolition Delay by-law.

The Historic Homes Survey: This Massachusetts Historical Commission-mandated survey has been completed, and inventory books have been placed at the Massachusetts Historical Commission, the Norwell Town Hall, the Norwell Historical Society's Library, the James Library, and the Norwell Public Library. Some additional inventory forms are needed and members are currently working on updating this important document.

We are, as always, grateful for the assistance and support provided by the Board of Selectmen, the Highway Department, Building Inspector Tim Fitzgerald, Town Planner Todd Thomas, and all the various town committees, boards and departments with which we share common interest. We would like to also thank James Boudreau for his continuing interest and advice.

It is hoped that the importance of saving the wonderful history of Norwell will continue to be realized by the citizens of this town, and they will aid the Commission in its on-going work to preserve our delightful historic town.

Respectfully submitted,
Kim Zayotti, Chair
David DeGhetto, Vice Chair and Treasurer
Pamela Bower-Basso, Secretary
Wendy Bawabe, Chair of Stetson-Ford Study Committee
Robert Norris, CPC Representative
Linda Jwanouskos
Donald Therrien

THE PLANNING BOARD

Calendar year 2010 was a year of transition for the Planning Board, with the Board continuing to monitor the ongoing construction of 22 subdivisions, as well as plan for the single largest subdivision development in Norwell in approximately 37 years. Over the course of the year, the Board remained quite busy, holding 36 Planning meetings. 24 of these meetings were regularly scheduled meeting sessions to conduct public hearings on proposed subdivision applications, to discuss and act upon Approval Not Required plans, to discuss and make recommendations to the Board of Appeals regarding proposed site plans and comprehensive permits, to discuss and make recommendations on petitions for street acceptance and to hold public hearings under the Scenic Road Act and the Town's Scenic Road General Bylaw. The Board held 12 special meeting sessions to develop amendments to the zoning bylaws, conduct site walks of land proposed for development, and to attend Town Meeting sessions.

In addition to regular Planning Board activities, the members of the Board serve on various other Town committees that require the participation of a Planning Board member by constitution. These committees include the Affordable Housing Partnership, the Affordable Housing Trust, the Capital Budget Committee, the Community Preservation Committee and the Pathway Committee. These Boards and Committees, which require Planning Board representation thereon, meet throughout the year and require a substantial time commitment.

I. Subdivision Public Hearings.

In 2009, the Planning Board conducted public hearings for a subdivision Special Permit, under §4850 of the Zoning Bylaw, Open Space Residential Design (OSRD). This Special Permit was granted on August 13, 2009 for the proposed Wildcat Hill development off Wildcat Lane. This OSRD Special Permit provides alternate zoning, featuring ½ acre lots, provided that at least 50 percent of the site's upland is preserved as permanently protected open space. The submitted "Wildcat Hill OSRD Development Plan" allows a maximum of 47 single-family residential lots on 73.53 acres, with 4,668 linear feet of roadway, along with 5 drainage parcels and 5 open space parcels, with a wastewater treatment plant. The Project will provide at least 33.6 acres of contiguous open space, and substantial pedestrian benefits, including approximately 2,950 linear feet of sidewalk and at least 6,600 linear feet of trails. All sidewalks and trails will be maintained by a proposed homeowners' association, but will also remain open to public use in perpetuity.

II. Subdivision Surety and Construction Oversight

During 2009, the Planning Board provided surety and construction oversight for numerous subdivision projects. Under the Subdivision Control Law, G.L.c.41, §81U, ¶7, the Planning Board is required to impose surety to help ensure completion of the construction of a subdivision project. At the developer's election, the surety may be money-based or in the form of a restrictive covenant prohibiting the individual sale of or construction on the approved lots. As of December 31, 2009, the Town is holding almost $1.7 million in money-based surety. The projects noted below are in various stages of construction and remain under the Planning Board's management until construction is complete. Combined, the projects consist of over 99 residential lots, 23 drainage basins and almost 2 miles of roadway.

BATES LANE (f/k/a Prairie Farm) (Off High Street) **Approved 3/02**
4 lots on 16.3 acres
This project created 4 residential lots (2 new lots and 2 reconfigured lots for existing dwellings). The project includes 1 surface drainage basin and 1 dead-end street (Bates Lane) with 400 linear feet. The applicant posted surety and the plans were endorsed on September 9, 2002. All lots have been released from the subdivision covenant. The Town holds $16,345.59 in surety.

BIRCHWOOD (Off Grove Street) **Approved 6/01**
11 lots on 18 acres
This project, approved on June 8, 2001, created 11 residential lots on 18 acres. The project includes 3 surface drainage basins and 2 roadways: 1 dead-end street with 1,160 linear feet (Birchwood) and 1 dead-end street with 480 linear feet (Fieldstone). The applicant posted surety and the plan was endorsed on August 6, 2001. All lots have been released from the subdivision covenant. The Town holds $98,231.43 in surety.

BRATTLE STREET / Bramblewoods (Off Grove Street) **Approved 2/99**
5 lots on 6.6 acres
This project created 5 residential lots (4 new lots and 1 reconfigured lot to support an existing dwelling). The project includes 1 surface drainage basin and 1 dead-end street (Brattle Street) with 750 linear feet. The applicant posted surety and the plans were endorsed in May 1999. All lots have been released from the subdivision covenant. The Town holds $79,868.00 in surety.

COWINGS Cove (Off Summer Street) **Approved 2/06**
7 Lots on 20.9 acres
This project created 7 subdivision lots (6 new lots and 1 reconfigured lot to serve an existing dwelling), on 20.9 acres of land, with a dead-end roadway of 653 feet and 1 surface stormwater drainage basin. The project included a 10.8-acre conservation parcel, which will be deeded to the Maxwell Conservation Trust for permanent preservation. The subdivision is currently under construction and the Town currently holds $250,000.00 surety in the form of a lender's agreement.

CLAPP BROOK ROAD / (f/k/a Black Pond Estates) **Approved 1/99**
5 lots (Off Central Street)
This project created 5 residential lots on 17 acres of land, with 7.2 acres of upland. The project includes 1 dead-end street with 760 linear feet and 2 surface drainage basins. Construction on this subdivision was completed during 2009 and Clapp Brook Road will be up for acceptance as a public way at the 2010 Annual Town Meeting.

Donovan Farm (Off Circuit Street)
Village Overlay District Special Permit for 40 Age-Restricted Units
A Special Permit was granted on April 5, 2000 under §4700 Village Overlay District for 40 age-restricted units on a private driveway off Circuit Street. Construction of this development was largely completed in 2009. The Planning Board hopes that this development will be completed in 2010.

EDGEWOOD PARK (Off Loring Drive) **Approved 6/97**

9 lots on 16 acres
Edgewood Park was accepted as a public way at the 2009 Annual Town Meeting.

FOREST RIDGE (Off Summer Street) **Approved 5/02**
7 lots on 8.6 acres of upland
This project created 7 residential lots on 9.1 acres, with 8.6 acres of upland. It includes 1 surface drainage basin and 1 dead-end street with 500 linear feet. The subdivision plan was endorsed on September 23, 2002, and construction began in the spring of 2005 and all lots were released from the subdivision covenant during 2006. The Town currently holds $74,000.00 surety in the form of a lender's agreement.

HENRY'S LANE / Joshua's Landing (Off Norwell Avenue) **Approved 11/05**
8 lots on 19.4 acres
This project created 8 residential lots (6 new lots and 2 reconfigured lots to support 2 existing dwellings) on 19.4 acres of land. It includes 3 surface drainage basins and 1 dead-end street with 850 linear feet. This subdivision was approved on November 10, 2005. During 2009 home construction continued. The Town currently holds $200,000.00 in surety in the form of a Lender's Agreement.

HERITAGE ESTATES (Off River Street) **Approved 12/00**
3 lots on 5.8 acres of upland
This project created 3 residential lots on 8.2 acres, with 5.8 acres of upland. It includes 2 drainage basins and 1 dead-end street (Heritage Lane) with 450 linear feet. The applicant posted surety and the plans were endorsed on January 24, 2001. The house lots have been released from the subdivision covenant. The Town holds a $54,000.00 surety bond.

HOLLY BERRY Trail (Off Grove Street) **Approved 4/04**
6 lots on 6.4 acres
Construction on this subdivision was completed during 2008 and Holly Berry Trail was turned over to the homeowners' association as a private way. The Town is retaining $2,734.70 in surety to ensure the structural integrity of the sidewalk until December 31, 2015.

John Neil Drive Extension (Off John Neil Drive) **Approved 5/08**
3 Lots on 3.15 acres
This project created 3 subdivision lots (2 house lots and 1 drainage lot), on 3.15 acres of land, extending the existing dead-end of John Neil Drive by 186 feet. The project included a single surface stormwater drainage basin. This subdivision was endorsed on May 29, 2008 and it is currently unclear when construction might begin.

LAURELWOOD DRIVE (Off First Parish Road) **Approved 2/98**
24 lots on 77 acres
This project created 24 residential lots on 77 acres, with 42 acres of upland. Of the 24 lots, 3 lots are located entirely in Scituate and 6 lots are located partly in Scituate. The project includes 3 surface drainage basins and 1 dead-end street with 1329 linear feet. The applicant posted surety and the plans were endorsed on October 29, 1998. The project has been largely constructed, however, paving issues remain. During 2009, the Planning Board worked with the developer to resolve the long-standing issues regarding the subdivision's walking paths. Drainage issues were also resolved during 2009 via the aforementioned Laurelwood Minor Drainage Modification. The Town still holds $219,669.24 in surety.

Laurelwood Minor Subdivision Modification **Approved 12/08**
Modified Drainage System, No New Lots Created
This subdivision modified the February 13, 1998 Laurelwood Definitive Subdivision approval. The modification permitted altering the function of the drainage basins, which were designed to have infiltration capabilities, and now function as detention basins. The proposal also added a new drainage

swale on Lot 14 & Lot 27. Construction of the drainage modification is largely complete. The Board hopes that outstanding subdivision issues will be resolved in 2010.

MASTHEAD DRIVE EXTENSION **Approved 6/99**
2 lots on 10.5 acres
This project created 2 residential lots, on a short extension of Masthead Drive, with 1 drainage basin. The applicant posted a covenant form of surety and the project was endorsed on June 21, 1999. On March 26, 2001, an ANR Plan was endorsed, creating a third lot. The subdivision covenant is still in place. The applicant has yet to begin work on this subdivision.

PARSON'S WALK (Off Circuit Street) **Approved 6/97**
3 lots on 11.5 acres
This project created 3 residential lots on 11.5 acres. The project includes 1 surface drainage basin and 1 dead-end street with 420 linear feet. The applicant posted surety and the plans were endorsed on July 21, 1997. All lots were released from the subdivision covenant on October 16, 1998. The Town holds $24,741.13 in surety.

PINSON LANE (Off Parker Street) **Approved 6/99**
3 lots on 4.96 acres of upland
Construction on this subdivision was completed during 2008 and Pinson Lane was turned over to the homeowners' association as a private way. The Town is retaining $5,000.00 in surety until mortgagee subordination consents are received for the newly formed homeowners' association.

TRUNNEL ESTATES (Off Main Street) **Approved 9/03**
3 lots on 3.4 acres
This project created 3 residential lots (2 new lots and 1 reconfigured lot to support an existing dwelling), on 3.4 acres of land. The project includes 1 drainage basin and 1 dead-end street with 390 linear feet. The applicant posted surety and the plans were endorsed on February 23, 2004. During 2009, the applicant largely completed subdivision construction. The Town holds surety $154,000.00 surety in the form of a performance bond.

TURNER'S WAY SUBDIVISION MODIFICATION **Approved 4/05**
6 Lots on 8.2 acres of upland
This project created 6 residential lots on 32.7 acres (8.2 acres of upland), at the end of Turner's Way, by dividing an existing lot into 5 new lots and 1 reconfigured lot to support an existing dwelling. The project required no drainage basin to support it and reduced the previously approved dead-end street length of Turner's Way from 1506 to 1448 linear feet. The project was approved on April 14, 2005. Home construction continued during 2009. The Town holds $30,676.51 in surety.

WALNUT TREE HILL ESTATES (Off Cross Street) **Approved 5/99**
5 lots
This project created 58 lots; however, only 4 lots are located entirely in Norwell and 1 is located partially in Norwell. The Norwell portion of the project includes 1 surface drainage basin (partly located in Norwell), and Greenbriar Lane, with 500 linear feet in length. The applicant posted surety and the plans were endorsed on August 23, 1999. The Town holds a $400,000.00 surety bond. During 2009, no inspection activity was requested.

WILDCAT HILL (Off Wildcat Lane) **Approved 10/05**
44 lots on 49 acres of upland
The subdivision permit for this project lapsed during 2009. The development began to be re-permitted as an Open Space Residential Design subdivision, under §4850 of the Zoning Bylaw, during 2009.

WILDWOOD LANE (Off Circuit Street) **Approved 11/95**
4 lots on 6.5 acres of upland

This project created 4 residential lots on 10.9 acres. The project includes 1 surface drainage basin and 1 dead-end street with 470 linear feet. The applicant posted surety and the plans were endorsed on November 27, 1995. The lots were released form the subdivision covenant on January 6, 2003. The Town holds $72,629.64 in surety. During 2009, no inspection activity was requested.

III. Approval Not Required (Form A) Plans

During 2009, the Planning Board processed 10 Approval Not Required (ANR) plan applications. An ANR plan is a proposal to create a lot that has sufficient frontage and access on an existing roadway. 7 ANR applications were approved and the remaining 3 were denied. The Board collected $2,900 in application fees for this activity.

16 Samuel Woodworth Road	Approved
16 Samuel Woodworth Road	Approved
180 Central Street	Approved
445 River Street	Approved
127 Central Street	Approved
427/435 Main Street	Denied
427/435 Main Street	Approved
Forest Ridge	Denied
Forest Ridge	Approved
Stetson Meadows (Conservation Comm.)	Denied

IV. ZBA Site Plan Approval - Technical Review.

The Planning Board provides technical review assistance to the Board of Appeals for site plan applications under Zoning Bylaw §1530. The Board does not collect any application fees for this activity. The Planning Board provided site plan review comment letters on the following projects during 2009:

- 460 Main Street, The Friendship Home
- 75 Washington Street, South Shore Medical Center

V. 40B Projects.

During 2009, the Planning Board reviewed and provided extensive comments on the project eligibility application and comprehensive permit applications for White Barn Village and Simon Hill Village. The Board expects to continue to spend significant time and resources on assisting the Board of Appeals on 40B applications during 2010.

VI. Street Acceptance Petitions.

During 2009, the Planning Board reviewed and made a recommendation on a street acceptance petition for Edgewood Park, which was accepted as a public way at the 2009 Annual Town Meeting. The Planning Board expects to make a recommendation on a street acceptance petition for Clapp Brook Road during 2010.

VII. Master Plan Enactment.

During 2009, the Planning Board enacted more of the recommendations in the Town's Master Plan. Notably, the Planning Board paid for an engineering study to ascertain if a crosswalk could be installed between the Norris Reservation parking lot and the post office. A new crosswalk in this location became a reality over the summer, and this important public safety addition has been well used.

Throughout the year, the Planning Board continued to work with its subcommittee, the Pathway Committee, to improve pedestrian and bicycle safety throughout town. The Planning Board, and its staff Town Planner, spent significant amounts of time and energy on Pathway Committee related activities. During 2009, the Pathway Committee and the Town Planner were also awarded a grant in that paid for the purchase and installation of 17 bike racks at various public locations throughout Town. The Pathway Committee, through the Planning Board, also advertised a Request For Proposals

for engineering services for the creation of a new pathway / bike path that would connect the middle school to the high school.

VIII. General Town Government Assistance.

The Planning Board continued to direct the Town Planner during 2009 to provide valuable assistance for various Town Boards and Committees. Such assistance included:

- Drafting or reviewing Requests for Proposals for the Pathway Committee and the Community Preservation Committee;
- Writing response letters to Environmental Notification Forms filed for certain projects in Norwell that trigger Massachusetts Environmental Policy Act thresholds;
- Providing general assistance for the Energy Committee, which included working with representatives of the Commonwealth to conduct a wind turbine energy assessment in Norwell; and
- Submitting the Commonwealth Capital Application on behalf of the Town. This application to the Commonwealth's Executive Office of Energy and Environmental Affairs is the primary threshold requirement for the Town to seek grant funding.

IX. Zoning By-law Amendments.

During 2009, the Planning Board successfully proposed changes to Zoning Bylaw §4300 Aquifer Protection District. The proposed bylaw change helps to better protect our drinking water supply in the Town's Business Districts. The Planning Board also proposed changes to §2460 Height Restrictions at the 2009 Annual Town Meeting for the Town's Business C1 & C2 Districts. The Board found that allowing additional commercial building height therein would have a minimal impact to the Town, and the resulting business expansion in the Town's Industrial Parks would ease the residential tax burden. Town Meeting failed to pass this proposed amendment.

The Planning Board is grateful for the services of Town Planner Todd Thomas and part-time Administrative Assistants Linda Hager & Meredith Schmid. Without these invaluable staff members, the volunteer Planning Board Members would be hard pressed to fulfill their legal duties under the Subdivision Control Law.

Respectfully submitted,
Karen A. Joseph, Chair
Michael J. Tobin, Vice Chair
Sally I. Turner, Clerk
Margaret Etzel, Alternate Clerk
Kevin P. Jones

COMMUNITY PRESERVATION COMMITTEE

The Town of Norwell adopted the Community Preservation Act (MGL Chapter 44B) in May of 2002. The Town's Community Preservation Committee (CPC) is charged by the Town with the implementation of the Act in Norwell. The Act's stated purposes are to preserve open space and historic sites, and create affordable housing and recreational facilities. At least 10% of the CPA budget must be allocated to each of the first three areas annually.

During FY2009, the Town collected $728,864.55, in net CPA surcharges (after abatements and exemptions). The matching funds from the state were $541,215.

The Annual Public Hearing was held in December with many Norwell citizens attending. The topic of discussion was Affordable Housing, with presentations by Sharon Sylvester, representing the Norwell Housing Authority; Gerry McDermott, representing South Shore Habitat for Humanity; and Jay Gallagher, a local developer. Also present were many interested citizens, members of the AHT and

AHP, and a representative from the Board of Selectman. One of the mandates of the Community Preservation Act is to create affordable housing. The committee and citizens present voiced frustration that the Town has not been able to increase the number of affordable units. The committee will continue to encourage the creation of affordable housing in Norwell.

Completed Projects

Chittenden Landing

Last year the Bridge Street North River Landing improved, enhancing launch access for trailered boats, canoes and kayaks. In 2009, improvements to the other town landing location at the end of Chittenden Lane were completed after two years of permitting. This site had become overgrown and access had become dangerous. Today, the pathway is redefined with wooden steps and a gravel parking area has been cleared for two cars. The rustic feel of the location has been maintained, and offers not only a safe access point to launch a canoe or kayak, but also has two benches to simply sit and enjoy the river.

Current Projects

In June 2009, Town Meeting approved funding for:

Vital Records Archiving

The Town Clerk is working with a consultant to produce a CD/PDF searchable file for vial records. Volumes of vital records and leather-bound books are breaking down, the records are beginning to fade, the pages curling, and in some cases, mold is growing. Volumes include Birth, Death and Marriage records dating back to 1853. The sheer volume of records make accessibility an issue. The archival of these records will increase the efficiency of accessing these records, and will insure the preservation of records for future generations.

Re-roofing Jacobs Farm

The Historic Commission is seeking Massachusetts Historical Commission grant money to replace the asphalt shingles and defective wood shingles of barns and outbuildings with red cedar shingles at the Jacob's Farmhouse property. The state grant program will match up to 50% of the needed funds provided that 75% are raised ahead of time; therefore the CPA money is being used to leverage these state funds. The roofs were initially quoted at $50,000, and the Historic Commission aims to use $5,000 from the Jacob's Farm Trust Fund along with private donations. Any unused funds will be returned to the Community Preservation Fund.

Loring Farm

Town Meeting appropriated up to $500,000 for a conservation restriction on the Loring Farm located on Prospect Street. The property went up for sale this past year, and initially the Town believed that it would remain in active agriculture as there is a state-held Agriculture Preservation Restriction on most of the property (71.7 acres). However, as various parties became interested in the property, it became clear that the APR did not cover the entire property, and would allow for the demolition of the current farm house and outbuildings; these reside on 2.5 acres excluded in the APR. Therefore, the farm could essentially end up as an estate lot, whereby a new owner could live in a new home that was completely disconnected from the rest of the farm, and engage in some kind of passive agriculture that would satisfy the APR. This, however, was not the intent of Albert Loring when he worked with the state and Conservation Commission in the late 1970's to attach the original APR to the property.

Fortunately, the new owner ended up being John Hornstra, of Hornstra Dairys, who plans to create a full dairy operation at the site; clearly an active agricultural use. The CPC is in continuing conversations with Hornstra to determine what additional restrictions could be purchased to guarantee that the property remain a working farm in the future should the need to sell arises.

Purchase of property on South Street for open space and recreation.

We were pleased to be able to purchase land near South Street that abuts the High School and the Town Library. This property has both recreational value as part of it was already being used by the cross-country track team as well as conservation value because of its proximity to third herring brook. We were fortunate that part of this complex purchase was facilitated by the Town's having previously set aside $100,000 of Community Preservation funds in a special account under the shared stewardship of Conservation Commission, the CPC and the Board of Selectman to capitalize on opportunities that present themselves in between Town Meetings.

Jacob's Pond Recreation
The Cliff Prentiss Bridge and parking area act as a canoe launch, trailhead and connects to a picnic area. However, the area is suffering from severe erosion to the point where the parking area is deteriorating. This project will install the appropriate drainage controls to stop erosion and rebuild the parking and trailhead areas to safe standards. The project will also include signage for currently unmarked areas to notify residents of the existence of the trailheads and thereby encourage use.

Community Supported Agriculture (CSA) Development
Jennifer Friedrich was selected as the most qualified applicant responding to an RFP for a farm manager for a CSA farm in Norwell. She is currently working with a group of residents and Town Boards to develop the CSA for the 2010 growing season. She has set up a website www.norwellfarms.org with some preliminary information and has received tremendous initial public support.

Stetson Ford House
Preservation of the Stetson Ford House has begun, with emphasis on securing the property and protecting it from further deterioration. Buttonwood Renovations has insulated the attic floor, installed attic vents, repaired numerous holes in the foundation and the house, refurbished the first floor bath, repaired 50 broken window panes, installed a basement dehumidifier, repaired numerous doors in the house, replaced the first floor great room ceiling, all with a view to preventing heat loss and mildew, animal damage and deterioration. The house should be available for rental in the spring of 2010.

In May 2010 Town Meeting will be asked to appropriate funds for several new CPC projects, including acquisition of land for open space, recreation, and affordable housing.

The CPC meets on the 2nd and 4th Thursdays of each month at 7:30 pm in the Norwell Town Hall. All residents are invited to attend. The CPC Request for Funding form can be found on the town's website.

Respectfully submitted,
Gregg McBride, Chairman (Conservation Commission)
Pat Richardson, Clerk (Recreation Commission)
Bob Norris (Historical Commission)
Fred Levin (Housing Authority)
Peggy Etzel (Planning Board)
Charles Markham (Board of Assessors)
Becky Freed (At-Large)
Ann Buchanan (At-Large)
Alison Demong, (At-Large)
Ellie Waal, Administrative Assistant

FENCE VIEWER

As the laws of the Commonwealth permit two Fence-Viewers for each town, Our Selectmen have very wisely chosen Cliff Prentiss as our second Fence-Viewer. We will work together. It is

unlikely that we will both be out-of-town unless we are both attending the meeting of the ASSOCIATION INTERNATIONALE DES CLOTURE VOYEUX or some other convention. Even then, you may call on the Building Inspector and if he is too busy, we have arranged that the Speaker of the House of the Great and General Court take over our duties. In the event of a large-scale and truly serious disaster, the Secretary of State, Mrs. Clinton, who is fourth in line for the Presidency, will be fifth in line to cover any urgent fence-viewing duties. A lot of care has gone into this succession planning. A look in the mirror shows a bald gray-beard unlikely to last forever, and I thank the Selectmen for finding me a colleague who is younger, stronger and smarter than I am. It is Cliff who found the newly rebuilt stone walls at the old Loring Farm on Prospect St. to which we give the Fence of the Year Award. This protected property, under the direction of young Mr. Hornstra is to become a functioning specialty dairy and we can all look forward to the further development of his plans.

Respectfully Submitted,
Arthur Garceau and Cliff Prentiss
Fence-Viewers

BOARD OF ASSESSORS

The members of the Board of Assessors are: Peter Etzel - Chairman, Charles Markham - Clerk, and Leo Reed. Barbara Gingras holds the position of Assistant Assessor/Appraiser. Maureen Clarke is Asst to the Assistant Assessor/Appraiser.

The Assessors on-line database has been updated to provide the Fiscal Year 2010 assessments on all Real Estate properties. You can access the database by going to Vision Appraisal Technology.com

The Board reports the following valuation of taxable property established as of January 1, 2009 (Fiscal Year 2010).

CLASS	VALUE	PERCENTAGE
Residential	$2,004,523,008	84.5663%
Commercial	$ 274,162,179	11.5663%
Industrial	$ 58,114,100	2.4517%
Personal Property	$ 33,558,560	1.4157%
Total	$2,370,357,847	100.00%

The Board continues to support the Senior Work Program with funds from the overlay surplus.

The Board would like to thank our Office Staff of Barbara Gingras and Maureen Clarke for their continuing service to our Town.

The Board also recognizes Edward Dunford for his years of service to our Town. Ed resigned from the Board when he moved from town in the fall of 2009.

- Balance Sheet
- Statement of Revenues, Expenditures and Changes in Fund Equities

*** Agency Fund**
- Balance Sheet

*** Long Term Debt Account Group**
- Balance Sheet - General Long Term Debt
- Authorized and Unissued Debt

*** Other Information –** Reserve Fund Transfers, Allowance for Abatements/Exemptions

Assistant Town Accountant Rita Turco retired in March of FY09 after over 20 years of dedicated service. I would like to thank her for all her hard work and support. She will be sorely missed by all. Assistant Treasurer/Collector Judy Ockerbloom filled the vacancy.
Fiscal year 2009 was a very busy and productive year in the Town Accountant's Office. The Town's new Chart of Accounts was established in anticipation of a computer software conversion of the Town's Financial Management System in the subsequent fiscal year.

Respectively submitted,

Donna G. Mangan
Town Accountant
